FOREIGN SERVICE

Foreign Service nominations beginning L. Paul Bremer III, and ending Jerome F. Tolson, Jr., which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD on October 28, 1985. (Confirmed minus one nomination: Edwin G. Corr, to the class of career Minister.)

HOUSE OF REPRESENTATIVES—*Wednesday, December 18, 1985*

The House met at 10 a.m. and was called to order by the Speaker pro tempore [Mr. WRIGHT].

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC, *December 17, 1985.*

I hereby designate the Honorable JIM WRIGHT to act as Speaker pro tempore on Wednesday, December 18, 1985.

THOMAS P. O'NEILL, Jr.,
Speaker of the House of Representatives.

PRAYER

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Forgive us, O God, for waiting until difficulties to admit our needs; forgive us for waiting until good times to give thanks; forgive us for waiting until we have lost our way to seek direction. We offer our praise to You, O God, that Your spirit supports us in all the moments of life, in good times and bad, wherever we are or whatever we have done, and that we can never be too distant from You to be blessed by Your love and grace. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. BLILEY. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Chair's approval of the Journal.

The SPEAKER pro tempore. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. BLILEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 228, nays 143, answered "present" 4, not voting 59, as follows:

□ 1015

Mr. ROGERS changed his vote from "yea" to "nay."

Mr. MARLENEE changed his vote from "present" to "nay."

So the Journal was approved.

The result of the vote was announced as above recorded.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate agrees to the amendment of the House to the bill (S. 1884) "An act to amend the Farm Credit Act of 1971, to restructure and reform the Farm Credit System, and for other purposes."

The message also announced that the Senate had passed bills of the following titles, in which the concurrence of the House is requested:

S. 86. An act to amend the laws of the United States to eliminate gender-based distinctions;

S. 1574. An act to provide for public education concerning the health consequences of using smokeless tobacco products; and

S. 1918. An act to change the date for transmittal of a report.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. KILDEE). The Chair intends to take certain business requests before the 1-minute speeches.

CAPTAIN JOHN FOSTER WILLIAMS COAST GUARD BUILDING

Mr. HOWARD. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 3931) to designate the General Services Administration building known as the "United States Appraiser's Stores Building" in Boston, MA, as the "Captain John Foster Williams Coast Guard Building," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

Mr. SHAW. Mr. Speaker, reserving the right to object, I yield to the chairman of the Committee on Public Works and Transportation, the gentleman from New Jersey [Mr. HOWARD], for an explanation of this legislation.

Mr. HOWARD. I thank the gentleman from Florida for yielding.

Mr. Speaker, during the Revolutionary War, Capt. John Foster Williams commanded a number of vessels, including the largest ship in the Massachusetts navy, the 26-gun, *Protector.* He was captured by the British in 1781 and sent to a London prison, from which he escaped and resumed his role in the war. After independence was won, Captain Williams continued to serve his country. He headed the committee of the Boston Marine Society which designed the first revenue cutter, the *Massachusetts,* and served as its commander from the completion of its construction in 1790 until his death in 1814.

Mr. SHAW. Mr. Speaker, this bill is supported by the administration. My side of the aisle supports it.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3931

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the General Services Administration building known as the "United States Appraiser's Stores Building", located at 450 Atlantic Avenue, Boston, Massachusetts, shall hereafter be known and designated as the "Captain John Foster Williams Coast Guard Building", in recognition of Captain John Foster Williams' contributions to the Commonwealth of Massachusetts during the Revolutionary War. Any reference in a law, map, regulation, document, record, or other paper of the United States to such building shall be deemed to be reference to the "Captain John Foster Williams Coast Guard Building".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

□ 1030

GENERAL LEAVE

Mr. HOWARD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the legislation just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

CHANGING TRANSMITTAL DATE OF A REPORT

Mr. FASCELL. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the Senate bill (S. 1918), to change the date for transmittal of a report, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

Mr. BROOMFIELD. Mr. Speaker, reserving the right to object, I do so to afford the chairman of the Foreign Affairs Committee an opportunity to explain the reason for this.

I yield to the gentleman for his explanation.

Mr. FASCELL. Mr. Speaker, I thank my colleague, the ranking Republican member of the Committee on Foreign Affairs for yielding.

Mr. Speaker, I rise in support of S. 1918, a bill to change the date for transmittal of a report to Congress on the employee stock ownership plan in business enterprises in Central America and the Caribbean.

This bill makes a technical change in the Foreign Assistance Act, changing the date of a required report from December 31, 1985, to October 1, 1986. The report deals with the use of employee stock ownership plans and development efforts in Central America and the Caribbean. ESOP's can potentially be a useful mechanism to promote development and private ownership in developing countries.

I look forward to reading the conclusions of this report.

Mr. Speaker, I urge the adoption of S. 1918.

Mr. BROOMFIELD. Mr. Speaker, we endorse the recommendation.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 1918

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 713(d) of the International Security and Development Cooperation Act of 1985 is amended by striking out "December 31, 1985," and inserting in lieu thereof "October 1, 1986,".

(b) The amendment made by subsection (a) shall take effect as of December 30, 1985.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

EXPRESSING SENTIMENT OF CONGRESS REGARDING DEATHS OF MEMBERS OF THE 101ST AIR ASSAULT DIVISION AT GANDER, NEWFOUNDLAND, CANADA

Mr. NICHOLS. Mr. Speaker, I ask unanimous consent that the Committee on Armed Services be discharged from further consideration of the resolution (H. Res. 345) to express the sentiment of Congress regarding the deaths of members of the 101st Air Assault Division in an airplane crash on December 12, 1985, at Gander, Newfoundland, Canada, while en route home for the season's holiday, and ask for its immediate consideration in the House.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alabama?

Mr. HOPKINS. Mr. Speaker, reserving the right to object, I do so so that the chairman might have an opportunity to explain his position.

I yield to the gentleman from Alabama [Mr. NICHOLS].

Mr. NICHOLS. I thank the gentleman for yielding.

Mr. Speaker, the resolution merely expresses our sorrow at the deaths of the 248 members of the 101st Airborne Division. It extends our sympathy to their families; it expresses our respect and gratitude to the members of the 101st Division for their service with the peacekeeping force. It also directs the Clerk of the House to transmit a copy of the resolution to the families of the deceased soldiers.

Mr. HOPKINS. Further reserving the right to object, Mr. Speaker, I yield to the gentleman from Kentucky [Mr. HUBBARD].

Mr. HUBBARD. I thank the gentleman for yielding to me.

Mr. Speaker, as a sponsor of House Resolution 345, joined by the gentleman from Missouri [Mr. SKELTON], the gentleman from Tennessee [Mr. SUNDQUIST], and the gentleman from Indiana [Mr. MCCLOSKEY], I would like to ask that we pass this resolution, and that we thereby express our sorrow again to the survivors of these 248 American service men and women who died in that tragic plane crash at Gander, NF.

Through this resolution, hopefully, we can insist that from now on, that we see to it that our military troops have safe transportation and are not being transported on old, commercial airlines which are not adequate for travel.

I thank the Members of the House for this time to express our sympathy. Also to express our appreciation to President Ronald Reagan and Mrs. Nancy Reagan for their going to Fort Campbell, KY, this week for that memorial service. Those who watched on television know that what we saw there firsthand, and that is that President and Mrs. Reagan were wonderful in their expressing sorrow, one-on-one, to the more than 500 survivors who crowded that hangar there at Fort Campbell in western Kentucky.

Mr. HOPKINS. Mr. Speaker, further reserving the right to object, on Monday of this week, along with other Members of this body and the Senate, I accompanied the President and Mrs. Reagan to Fort Campbell to pay the respect and express the sympathy of this Nation to the bereaved families and loved ones of those proud men and women of the airborne division who lost their lives in the airplane crash in Newfoundland 6 days ago.

Having looked into the anguished faces and felt their grief and shared their sense of loss, I am persuaded that this resolution is profoundly appropriate and deserves our unanimous approval. It seems to me to be so unfair at this time of year when most of us are setting up our Christmas trees that for some unknown reason this world tears down the trees of joy and happiness for some families in this country.

Our efforts must not end with the passage of this resolution, and it will not. I am pleased and proud to note that under the leadership of our distinguished chairman, Mr. NICHOLS, the Armed Services Subcommittee on Investigation already has begun gathering information and inquiring into all aspects of the military process which ended so tragically last week in Newfoundland.

I commend our chairman and the authors of this resolution.

Mr. Speaker, further reserving the right to object, I yield to the gentleman from Mississippi [Mr. MONTGOMERY].

Mr. MONTGOMERY. I thank the gentleman for yielding to me.

Mr. Speaker, I rise in support of the resolution. We were saddened by the loss of 248 of our servicemen and women. I am sure that many of my colleagues will be receiving inquiries of what will be done by our Government for the families of those killed. Mrs. SCHROEDER, in just a few minutes, will offer a resolution which I also support which would cover additional benefits for the families.

Let me briefly explain what these families will receive. The Veterans' Administration, the Department of Defense, and the Social Security Administration are providing casualty assistance to the families of these men and women to help them apply for their benefits. Social Security death benefits will be paid in a number of cases. The Department of Defense does pay a death payment of 6 months' salary, funeral costs and medical benefits to the survivors under CHAMPUS.

The widows and children of those killed may receive any or all of the following benefits from the Veteran's Administration: dependency compensation; educational assistance up to the age of 18; servicemen's group life insurance of up $35,000. You voted for a $50,000 life insurance policy for all the servicemen but that is not effective until January 1.

Mr. Speaker, I am writing each Member today detailing these benefits.

MR. HOPKINS. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Tennessee [Mr. SUNDQUIST].

Mr. SUNDQUIST. I thank the gentleman for yielding to me.

Mr. Speaker, I joined other members of the Kentucky and Tennessee congressional delegations on Monday as President and Mrs. Reagan attended a memorial service at Fort Campbell for the victims of last week's crash. I'm sure the gentleman from Kentucky would agree that the loss of those 248 lives was perhaps the most heartfelt tragedy in the history of the 101st Airborne Division. The President's appearance at the memorial service demonstrated to the world that the tragedy was more than a loss to the families of those brave peacekeeping forces from Fort Campbell—it was a loss to our entire Nation.

Mr. Speaker, more than 1 million Americans have died while serving their country this century. It is only fitting that we continue to preserve their memories, the ideals for which they so valiantly fought, and the quest for worldwide human rights. The resolution offered by the gentleman from Kentucky expresses this sentiment on behalf of these fallen soldiers of the Screaming Eagles.

The efforts of those who have died in service to this country and its allies were to ensure that you and I could speak freely, voice our opposition and our support of government publicly without fear of retaliation, travel this country and beyond unchecked by stone walls, barbed wire, and guard towers, and worship as we please.

These young Fort Campbell men who perished served the cause of peace and freedom not only for our country, but for the entire troubled Middle East. We enjoy freedom only because of men such as those who serve at Fort Campbell—men and women who are willing to sacrifice their lives in the service of our country. We must never forget the brave people who have joined in that fight and made the ultimate sacrifice, and all who have served honorably.

I thank the gentleman from Kentucky for offering this resolution.

□ 1040

Mr. JEFFORDS. Mr. Speaker, will the gentleman yield?

Mr. HOPKINS. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Vermont.

Mr. JEFFORDS. Mr. Speaker, I thank the gentleman for yielding. I certainly echo his comments and the comments of others.

Vermont and a friend of mine lost a fine young soldier in this tragic crash, and I wish to express my concern over the events that occurred and my support for the resolution.

Mr. Speaker, I rise in support of House Resolution 345, expressing the deep sorrow of Congress over the death of 248 members of the 101st Airborne Division in Gander, Newfoundland, on December 12, 1985. I would like to join my colleagues in sending our profound sympathy to the families of these brave men and women who were returning home from the difficult job of maintaining peace in the Middle East.

I am especially saddened by the death of Emery S. White III, the son of Wilma and Emery White, Jr. of Fair Haven, VT. Emery was returning

home to spend Christmas with his wife, Stephanie, and his family, after completing 6 months of duty with the multinational peacekeeping force in the Sinai.

Emery attended Fair Haven High School, enlisted in the Army at age 17 and completed his degree while in the service. In 1974, when Emery signed up, joining the armed services was not a popular career choice. More money and fame were to be found in many other jobs. Yet, Emery was exceptionally dedicated, and after his first tour, he decided to make the Army his career. Like his father and grandfather before him, also members of the American Legion Post 49 in Fair Haven, Emery was willing to act upon his dedication to his country and place his life on the line in the defense of peace.

Emery's enthusiasm was an asset to the 101st Air Assault Division. He served 11 years in the Army, achieving the rank of staff sergeant. A serious and handsome young man, Emery was unusually attentive to his family, particularly during times of need. I well remember when, about 3 years ago, my car broke down and Emery let his father borrow his new Pontiac in order to drive me to my meeting. His service often kept him apart from his family, wife, and young son, Emery IV, taking him twice to Germany as a tank commander and to Korea as a member of the honor quard. In all of his endeavors, Emery served his country with distinction.

We all owe Emery a debt of gratitude. It is men and women like Emery who allow the rest of us to lead our lives free from the threat of war. I realize that this knowledge does little to lessen the grief of his family. However, I want them to know that my thoughts, and the appreciation of all Americans, are with them at this difficult time.

Mr. SKELTON. Mr. Speaker, will the gentleman yield?

Mr. HOPKINS. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Missouri.

Mr. SKELTON. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I take this opportunity to express my support for and urge the passage of this resolution. At the very least, we can, through this resolution, extend our sorrow at the deaths of these soldiers of the 101st Airborne, extend our sympathy to the families and loved ones, and also accord them respect and gratitude for the job that they were doing and are doing.

I might say that this summer I had the opportunity to drive through and visit Fort Campbell, KY. The commanding general, Maj. Gen. Burton Patrick, took me throughout the installation and showed me the soldiers that were there, and with great pride—and justifiable pride—the job that they were doing. So I know firsthand what fine young men and women they were.

I doubt if any other congressional district, other than the one that is the home of Fort Campbell, KY, suffered as much as the district that I represent. Three young men from the Fourth Congressional District of Missouri were aboard that airplane and perished in that crash.

By serving in the Armed Forces of the United States, these soldiers who were on active duty demonstrated their commitment to liberty and democracy, and we should not forget that, nor should we forget the tradition of the 101st Division and their peacekeeping efforts.

This resolution, which is introduced by the gentleman from Kentucky [Mr. HUBBARD], cosponsored by this gentleman from Missouri, myself, is designed as a remembrance to these outstanding soldiers. I realize that words are little consolidation at a moment like this, but the loved ones and the families should know that those who did die on that fateful day, the 12th of December, are remembered and respected.

Mr. BENNETT. Mr. Speaker, will the gentleman yield?

Mr. HOPKINS. Further reserving the right to object, Mr. Speaker, I yield to the gentleman from Florida.

Mr. BENNETT. Mr. Speaker, I am honored to speak today on behalf of these families that have suffered so much and the fine men who died in this untoward event.

I had the privilege of being an enlisted man in the 101st when it was activated in World War II, so I have a feeling of brotherhood with regard to these fine men who, at the very zenith of their career, were taken away from their families and taken away from their loved ones.

There is no real way to express the sorrow the people of the United States feel for these fine young men who dedicated their lives to the strengthening of their country and preserving it, only to be snatched away really on the eve of the tremendous emotional event of coming back from their hard service overseas to be with their families at Christmastime. No tragedy could hardly be worse than that.

So I think all of us have a tremendous feeling of sympathy. We hope that the families will have at least some comfort in their grief, knowing that their young people who were involved in this were giving nobly so much of their lives to their country.

Mr. SCHEUER. Mr. Speaker, will the gentleman yield?

Mr. HOPKINS. Further reserving the right to object, I yield to the gentleman from New York.

Mr. SCHEUER. Mr. Speaker, I join with the rest of my colleagues in mourning these several hundred young men who met their deaths in this fiery crash. As a former Army Air Corps pilot, I especially mourn these dedicated airmen and peacekeepers.

But I think we would fall short in our obligation to revere their memory and do the necessary things if we did not do what we can to make sure that nothing like this ever happens again.

Just look at the headline in this morning's Times: "Pentagon Denies That It Is Responsible for the Safety of the Plane" that crashed. No; they say they are not responsible. "The Rome office of the International Peacekeeping Force," says the Defense Department, "was responsible for the chartering, safety, and operation of the flight" that crashed.

Mr. Speaker, I feel that something has gone terribly amiss here. I feel that a terrible mistake took place. If anybody could have seen that Air Force captain, if anybody could have seen his wife report on the conversation and the letter she had from her husband about his terrible misgivings about getting on that plane, someone would feel that there is something rotten in the state of Denmark that that flight was ever dispatched.

The Defense Department abjures all responsibility. Who ordered those men onto that plane? Was it the tooth fairy? Did they go to a tourist office and try to get the cheapest ticket they could back home? No, they were under orders, and it was our military authority that put them on the plane.

Now, I have no problem with the military using charter transportation to transport our men around the world. It is apparently cheaper than using military aircraft, and it should be just as safe. But something went wrong in the supervision of this charter flight and that charter company and the whole charter operation of the military. Something went pathetically, tragically, horrifyingly wrong when this company that had a long record of poor maintenance and poor recordkeeping was never brought up short and those 250-odd men were ordered onto that plane. And to pile Pelion onto Ossa, to rub salt in the wounds of the American people, the Defense Department stands back, eyes wide with innocence, and says, "We had no responsibility in that matter. It is the peacekeeping force that is responsible for the safety and the inspection and the mechanics of supervising these charter flights."

Mr. Speaker, I feel that we have lost all sense of accountability in our military, and this is not the first instance. We have had instance after instance after instance in the last few years where the military simply denies all responsibility.

I want to know where the court-martial is going to be and who is going to be court-martialed. I want to know

where there is going too be accountabilty and some factfinding and some remedies produced so that this kind of horrifying thing will never happen again.

We must reestablish accountability in the military. Somebody ought to be court-martialed. Somebody's military career ought to come to a grinding halt, just as those 248 lives came to a pathetic, grinding halt.

Mrs. SCHROEDER. Mr. Speaker, will the gentleman yield?

Mr. HOPKINS. I am delighted to yield to the gentlewoman from Colorado.

Mrs. SCHROEDER. Mr. Speaker, I want to thank the gentleman for yielding, and I really appreciate having the time. I also want to thank the gentleman from Alabama and the gentleman from Kentucky for bringing this to the Members' attention.

I want to point out to the Members that very shortly we will have another bill coming up. I think one of the tremendously frustrating things that all of us are feeling around here is that although we will pass this memorial resolution and we feel so strongly for those families whose Christmas holidays have been really ruined—and we know that they were terribly ruined because of the loss of these young men who were serving us and preserving our freedoms—we feel a little helpless.

The next bill that will come up is going to be very important because we can do something for these families, and I just wanted to use this time to explain it. One of the things we will be able to do is this: We found out that one of the oversights has been that when someone in the armed services is killed, obviously their housing allowance stops immediately, and what happens is that while their dependents are allowed to remain in their housing for 60 days after the death, they have to start paying rent. So it almost becomes a vaudeville reenactment. You have the base commander going over to pound the rent out of the dependents, and their money to pay the rent has all been stopped.

We are going to introduce a bill to cover that rent for 2 months. This will happen forever and ever. This should have been done long ago. When anyone is killed in active duty, giving their dependents housing during that 60-day period for that transition without the money to pay for the housing is really giving them nothing.

Furthermore, the gentleman from Mississippi [Mr. MONTGOMERY] has pointed out that we had passed the life insurance bill for members of the armed services and raised the limits from $35,000 to $50,000, but it was not to take effect until January of next year. The gentleman has checked it out and found there is so much money in the fund—the premium is very low—and he is going to attempt to amend my bill to make that retroactive to cover these people.

□ 1050

I think that is the least we can do. It costs a very minimal sum, and it goes beyond just being able to wring our hands. None of that ever brings these young men back. We all know that. We all know that there is absolutely nothing we can do to really soothe what is really going on in those families and the tremendous loss they are feeling this Christmas. But if we can do anything to at least relieve a little of the financial stress, that is very helpful.

I want to say that when I first talked about this on the House floor, I was very touched because I had phone calls from Members such as the gentleman from Illinois [Mr. CRANE] and many others saying they wanted to do anything that they could. Everybody on the Armed Services Committee has been terribly helpful.

So I just want to thank everybody for doing this, and to the families we say, we realize it is token, but we are doing everything we can and we really do agonize.

Mr. Speaker, I thank the gentleman from Kentucky [Mr. HOPKINS] for yielding.

Mr. SKELTON. Mr. Speaker, will the gentleman yield?

Mr. HOPKINS. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Missouri.

Mr. SKELTON. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I might make mention of the fact that the Army has just informed me that on Friday at 2 p.m., there will be a memorial ceremony at Fort Campbell, KY, regarding the loss of the 248 101st Airborne Division soldiers, and there will be a plane leaving Andrews Air Force Base at noon on Friday for Members of the Congress.

Mr. Speaker, further at this time, I ask unanimous consent that there be additional words attached to this resolution on the last page thereof, paragraph 4. I ask unanimous consent that it reads as follows:

(4) Directs the Clerk of the House to transmit a copy of this resolution to the families of the deceased servicemen and servicewomen and to the commanding officer of the 101st Airborne Division, Major General Burton Patrick.

Mr. Speaker, I ask unanimous consent for those words to be attached thereto.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

Mr. HOPKINS. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Tennessee [Mr. DUNCAN].

Mr. DUNCAN. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I join my colleagues in condolence to those who were lost in the tragedy. I happened to have one of my constituents in that plane crash.

Mr. HOPKINS. Mr. Speaker, in withdrawing my reservation of objection, I ask that all Members' of the House of Representatives names be added to this resolution.

The SPEAKER pro tempore. The Chair is waiting for the words of the amendment under unanimous consent to arrive at the Clerk's desk.

Did the gentleman ask that all Members' names be listed in the RECORD as cosponsors?

Mr. HOPKINS. That is correct, Mr. Speaker, that all Members' names be listed in the RECORD as cosponsors of this resolution. I ask unanimous consent for that permission.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

The list of Members' names referred to is as follows:

A

Ackerman, Addabbo, Akaka, Alexander, Anderson, Andrews, Annunzio, Anthony, Applegate, Archer, Armey, Aspin, Atkins, AuCoin.

B

Badham, Barnard, Barnes, Bartlett, Barton, Bateman, Bates, Bedell, Beilenson, Bennett, Bentley, Bereuter, Berman, Bevill, Biaggi, Billirakis, Billey.

Boehlert, Boggs, Boland, Boner, Bonior, Bonker, Borski, Bosco, Boucher, Boulter, Boxer, Breaux, Brooks, Broomfield, Brown (CA), Brown (CO), Broyhill, Bruce, Bryant, Burton (CA), Burton (IN), Bustamante, Byron.

C

Callahan, Campbell, Carney, Carper, Carr, Chandler, Chapman, Chappell, Chappie, Cheney, Clay, Clinger, Coats, Cobey, Coble, Coelho, Coleman (MO), Coleman (TX), Collins, Combest, Conte, Conyers, Cooper, Coughlin, Courter, Coyne, Craig, Crane, Crockett.

D

Daniel, Dannemeyer, Darden, Daschle, Daub, Davis, de la Garza, DeLay, Dellums, Derrick, DeWine, Dickinson, Dicks, Dingell, DioGuardi, Dixon, Donnelly, Dorgan (ND), Dornan (CA), Dowdy, Downey, Dreier, Duncan, Durbin, Dwyer, Dymally, Dyson.

E

Early, Eckart (OH), Eckert (NY), Edgar, Edwards (CA), Edwards (OK), Emerson, English, Erdreich, Evans (IA), Evans (IL).

F

Fascell, Fawell, Fazio, Feighan, Fiedler, Fields, Fish, Flippo, Florio, Foglietta, Foley, Ford (MI), Ford (TN), Fowler, Frank, Franklin, Frenzel, Frost, Fuqua.

G

Gallo, Garcia, Gaydos, Gejdenson, Gekas, Gephardt, Gibbons, Gilman, Gingrich, Glickman, Gonzalez, Goodling, Gordon, Gradison, Gary (IL), Gray (PA), Green, Gregg, Grotberg, Guarini, Gunderson.

H

Hall (OH), Hall (TX), Hamilton, Hammerschmidt, Hansen, Hartnett, Hatcher, Haw-

kins, Hayes, Hefner, Heftel, Hendon, Henry, Hertel, Hiler, Hillis, Holt, Hopkins, Horton, Howard, Hoyer, Hubbard, Huckaby, Hughes, Hunter, Hutto, Hyde.

Y

Yates, Yatron, Young (AK), Young (FL), Young (MO).

Z

Zschau.

Mr. HOPKINS. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the consideration of the amendatory language offered by the gentleman from Missouri [Mr. SKELTON]?

There was no objection.

The SPEAKER pro tempore. The Clerk will report the modification.

The Clerk read as follows:

Strike out the period at the end of the resolution and insert the following: "and to the commanding officer of the 101st Airborne Division, Major General Burton Patrick.".

The SPEAKER pro tempore. Without objection, the modification will be made.

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Alabama?

Mr. MOLINARI. Mr. Speaker, reserving the right to object, I was in my office watching this proceeding and I had to run over to say a few things that I had on my mind about the tragedy that has confronted our country.

Yesterday, Mr. Speaker, I had the sad duty to talk to two families in my district who had lost loved ones in the crash. One was a brother who was terribly broken up and, when I asked if there was anything I could do to help, he said, "Congressman, yes, there is one thing. Could you tell me why? Could somebody tell me why or how it happened?"

Now, we do not know at this point, but I could tell you this. Since the accident occurred Thursday, I have been attempting to get documents. I got some, and it is not adding up to a very pretty picture.

Mr. Speaker, I would just like to read for the RECORD a statement that came out of the NATI inspection, the so-called white glove phase II inspection. This was making reference to a pilot that worked for Arrow Air. This is what it says in the remark, section, Mr. Speaker:

Unsatisfactory ramp inspection. Recommend additional NATI emphasis as soon as practical. This ramp inspection was conducted at Logan Airport in Boston and as a result of the specific unsolicited urgent request of Captain Michael Sanjenis, an Arrow Air DC-8 Captain, who stopped this inspector on the ramp at Logan and not only requested that I look at his DC-8 and fly on it with him, but pleaded, demanded, begged and requested that the FAA * * * "please, please, home in on Arrow to stop current company maintenance practices before an accident occurs." He stated that it would be better to * * * "shut down the company rather than keep flying the aircraft."

Now, I do not mean to suggest that that was why that plane crashed, but there is plenty of evidence in the NATI phase II inspection indicating all kinds of deficiencies with that carrier that simply cried out for a detailed investigation.

Mr. Speaker, I only hope to God that when this is all finished, we will not find that that accident was caused by somebody's failure to perform their duties.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alabama?

There was no objection.

The Clerk read the resolution, as modified, as follows:

H. RES. 345

Whereas on December 12, 1985, 248 members of the 3d Battalion, 502d Infantry, 101st Air Assault Division, based in Fort Campbell, Kentucky, died in an airplane crash after takeoff from Gander International Airport in Newfoundland, Canada, while returning home from a tour of peacekeeping duty in the Sinai Peninsula;

Whereas peace in the Middle East is vital to the security of the United States;

Whereas the stationing of these men and women in the Sinai Desert as part of the multinational force and observers, under the constant threat of terrorists attacks, was necessary to help secure the blessing of peace for the peoples of Israel and Egypt; and

Whereas Congress and the American people are united in grief over the untimely loss of our soldiers: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the American people—

(1) express profound sorrow at the deaths of the soldiers of the 101st Air Assault Division while returning to their loved ones and families;

(2) extend deepest sympathy to their loved ones and families; and

(3) accord respect and gratitude to the members of the Division, who served courageously and loyally as peacekeepers in the Middle East; and

(4) directs the Clerk of the House to transmit a copy of this resolution to the families of the deceased servicemen and servicewomen and to the commanding officer of the 101st Airborne Division, Major General Burton Patrick.

Mr. HUTTO. Mr. Speaker, I rise in support of House Resolution 345.

It is with a heavy heart that we honor those 248 soldiers of the 101st Air Assault Division who lost their lives in the tragic airplane crash last Thursday. It is difficult for us, but even more difficult for the families, to understand why these young people had their lives terminated at such an early age. Two youths from my district—Specialist 4th Class Tony Brasfield of Panama City and Specialist 4th Class Jeffrey Kee of Pensacola—were among the fatalities. I

have extended my sympathy to their families and would broaden that to include all the families who lost loved ones in this tragic accident.

Although we cannot understand this unfortunate tragedy—especially as they were on their way home to rejoin their families for a joyful holiday season—we can take solace in the fact that they gave their all in the service of their country. They had completed their tour of duty as part of the Multi-National Force keeping peace in the Sinai, a desolate place of difficult duty that I visited 3 years ago just about the time Israel turned the Sinai over to Egypt.

All the words we may say cannot change the circumstances of the sacrifice of these lives. I am convinced that these fine young Americans did not die in vain. I believe the world is a little better because they served the cause of peace. We will remember them with pride. May God comfort their loved ones in their bereavement.

The SPEAKER pro tempore. The question is on the resolution, as modified.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. HUBBARD. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 401, nays 0, not voting 33, as follows:

[Roll No. 473]

□ 1115

So the resolution, as modified, was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. NICHOLS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on House Resolution 345, the resolution just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alabama?

There was no objection.

PERSONAL EXPLANATION

Mr. LEWIS of Florida. Mr. Speaker, due to official business, I was unavoidably detained during the rollcall vote on House Resolution 345. Had I been present, I would have voted "aye."

PERSONAL EXPLANATION

Mr. MINETA. Mr. Speaker, I was unavoidably detained during the rollcall vote on House Resolution 345. Had I been able to be present, I would have voted for this bill.

Along with my colleagues, I send my deepest sympathies to the families of those killed in the Gander accident.

DEATH GRATUITY TO SURVIVORS OF MEMBERS OF ARMED FORCES

Mrs. SCHROEDER. Mr. Speaker, I ask unanimous consent that the Committee on Armed Services be discharged from further consideration of the bill (H.R. 3974) to amend title 10, United States Code, to include in the death gratuity payable to survivors of a member of the Armed Forces who dies on active duty an amount equivalent to 2 months' housing allowances, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Colorado?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3974

Be it enacted by the Senate and House of Represntatives of the United States of American in Congress assembled,

SECTION 1. INCREASE IN DEATH GRATUITY FOR SURVIVORS OF MEMBERS OF THE ARMED FORCES DYING ON ACTIVE DUTY.

(a) INCLUSION OF HOUSING ALLOWANCES IN AMOUNT OF DEATH GRATUITY.—Section

1478(a) of title 10, United States Code, is amended by striking out "shall be equal" and all that follows through "$3,000" and inserting in lieu thereof "shall be $3,000 plus an amount equal to the total amount payable for two months for the housing allowances authorized under sections 403, 403a, and 405 of title 37 for a member entitled to such allowances who has the same pay grade, duty location, and dependency status as the decedent, determined at the rates in effect at the time of death of the decedent".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to death gratuities payable under chapter 75 of title 10, United States Code, for deaths occurring after December 11, 1985.

SEC. 2. SURVIVORS OF DECEASED MEMBERS OCCUPYING GOVERNMENT QUARTERS.

(a) GENERAL.—The Secretary concerned should provide dependents of a member of the Armed Forces who become entitled to a death gratuity under chapter 75 of title 10, United States Code, and who are occupying Government quarters at the time of the death of the member, a reasonable period of time before being required to vacate such quarters.

(b) SECRETARY CONCERNED DEFINED.—For the purposes of this section, the term "Secretary concerned" has the meaning given that term in section 101 of title 10, United States Code.

The SPEAKER pro tempore. The gentlewoman from Colorado [Mrs. SCHROEDER] is recognized for 1 hour.

Mrs. SCHROEDER. Mr. Speaker, I yield 30 minutes, for purposes of debate only, to the gentleman from Alabama [Mr. NICHOLS], the distinguished ranking member on the committee.

Mr. DICKINSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to commend the gentlewoman from Colorado [Mrs. SCHROEDER] for bringing this humanitarian legislation before the House today and urge my colleagues' wholehearted support.

We were all deeply saddened by the tragic loss of 248 service members last week in the air crash at Gander, Newfoundland.

I would like to extend my personal condolences to the families of Joe Highfill and John Wright, both of Daleville, AL, and Carl Simmons of Banks, AL, who were all from my congressional district. I am proud of the work that Joe, John, and Carl were doing in the Mideast with the 101st Airborne, and share with you in the loss of three very fine young men.

These young Army men and women had recently completed a peacekeeping assignment in the Sinai and were en route to Fort Campbell, KY—the home of the 101st Airborne Division—to spend Christmas with their families.

In addition to personal grief at the loss of a loved one, military families also face a variety of more pragmatic concerns. Military pay and allowances, including payments in kind like on-base housing, stop when the service member dies. Even for such time as they are permitted to remain, families in Government quarters must start paying rent.

Landlords for off-base housing obviously expect the rent to be paid on time, even though military housing allowances have stopped.

The current Military Estate Program includes a death gratuity of $3,000 payable immediately after the member's death to help defray a variety of expenses until Government and private insurance benefts are paid. The death gratuity does not contain a component specifically targeted to housing costs, however.

The gentlewoman's bill fills that void by adding to the death gratuity a payment equal to 2 month's housing allowances and urges that families be permitted to remain in Government quarters for a reasonable period of time following the member's death.

This is worthwhile, humanitarian legislation; I urge my colleagues' strong support.

Mr. Speaker, I think we have overlooked this in the past. I think we are correcting a deficiency that should have been done long before. We are simply saying that if someone dies on active duty, that his family be allowed 2 months of housing allowance that today is denied to them.

I think this is a commonsense approach. It is not very expensive to the Government, and I would certainly hope that this is passed unanimously on the floor. I think it will be, and I again would like to commend the gentlewoman from Colorado [Mrs. SCHROEDER] for originating the bill. I am proud to sponsor it.

I reserve the balance of my time.

Mrs. SCHROEDER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the first thing I want to say is this bill would not be here if it had not been for the hard work of the gentleman from Alabama [Mr. NICHOLS] and many other people on this House floor, including the staff of the Armed Services Committee.

The chilling tragedy in Gander focuses on an oversight in the law that should have been corrected long ago. This bill corrects that oversight. Dependents' entitlements to housing stop with the death of the military member. The services have the option of allowing dependents of deceased service members to remain in Government quarters for up to 60 days. However, there is a catch. The dependents must pay a rental charge for on base family housing and those who are off base obviously must continue to pay the landlord. These families are under enough stress and financial strain without having to scurry for their rent.

My bill would provide 2 months of basic allowance for quarters [BAQ] and variable housing allowance [VHA] to the dependents of a deceased member of the Armed Forces. The bill is retroactive to December 11, 1985, and would apply to the dependents of the plane crash of the 101st Airborne Division.

The amount of the BAQ and VHA depends on rank and location. Most of the victims of the Gander's plane crash were E-2's, E-3's, and E-4's. If my bill were not approved, their dependents would have to pay $300 to $500 per month for housing.

These are young families with a low family income. Not having to pay for housing will ease their already painful transition. This benefit is long overdue and desperately needed.

Mr. Speaker, I yield 1 minute to the distinguished gentleman from Texas [Mr. DE LA GARZA], chairman of the Committee on Agriculture.

Mr. DE LA GARZA. Mr. Speaker, I thank my colleague for yielding me this time.

Mr. Speaker, my heart, like all of ours, goes out to the grieving families of the 101st Airborne. I speak for many of my constituents, two of whom are Navy officers, are two sons, Jorge and Michael.

But I would like to note that we here dedicate ourselves not to the next emergency, but that the monument to the men of the 101st be that there be no serviceman on food stamps, that there be no serviceman or his family in inadequate housing, that they do not have to take cheap charters because they do not make enough to go home for the holidays. Let this be their monument, and let us dedicate ourselves through this measure to that end, that the men and women that are serving in the Armed Forces shall not be denied and shall be given what the civilians are guaranteed almost as an entitlement. That will be our monument to the men of the 101st past, present, and future. Blessed are the peacemakers: for they shall be called the children of God.

Mr. Speaker, this was the mission of the men and women of the 101st Airborne who lost their lives.

Mrs. SCHROEDER. Mr. Speaker, I yield such time as he may consume on this very important item to the gentleman from Alabama [Mr. NICHOLS], a very distinguished member of the subcommittee.

Mr. NICHOLS. Mr. Speaker, I thank the gentlewoman from Colorado for yielding me this time, and certainly would want to join with my colleagues in commending her for the resolution that she brings to this body this morning. It is timely, it is in order. It costs very little, and it is the least that this body can do to express our deep sympathy and appreciation to those who paid the supreme sacrifice.

I want to also thank my friend from Kentucky [Mr. HUBBARD], for the ear-

lier resolution that he passed here as the prime sponsor. I want to say I deeply appreciate that as well.

Finally, I would like to respond to the number of inquiries that have reached the Armed Services Committee, that have been sent to the Investigations Subcommittee. They come from Members from this entire body that want some answers to this. We are getting some mail, and some inquiries, not so much from the widows or from the fathers and mothers of these people, but these inquiries come from people who have loved ones in the service and are asking questions, very important questions about the safety of the aircraft in which our people fly.

You know a serviceman does not control his own destiny. He cannot choose Delta, or PanAm, or American. He goes where he is sent, and he flies on the plane in which he is put. So it is extremely important that we look into this.

For that reason, on the day of the crash when the gentleman from Kentucky [Mr. HOPKINS] first came to me about it, I instructed our staff to get cracking on this matter. The bottom line is that we are moving on it. We expect to hold hearings, hopefully the first or second week when the Congress returns in January.

We are not interested so much because we do not have the technical know-how to physically go out and go through the wreakage and decide what the cause of the crash was. The Canadian Aviation Board is currently looking into that matter. But it is very much the responsibility of this Congress to ask the question of why we are leasing civilian aircraft in the first place. Perhaps we do not have enough military planes to fly these people, and I believe that is probably the case.

But we want to know something about the safety of this particular plane that was leased to fly these people back home for Christmas.

□ 1130

So Mr. Chairman, I would want this body to know that we are currently looking into the matter and we expect to have some report to offer when we get back here in January.

Mr. McCURDY. Mr. Speaker, will the gentleman yield?

Mr. NICHOLS. I yield to the gentleman from Oklahoma.

Mr. McCURDY. I thank my subcommittee chairman for yielding, and I agree with him totally. I commend him for taking this effort, and we will be conducting the investigation in our subcommittee.

Mr. Speaker, I rise in strong support of this resolution and as an original cosponsor.

Mr. DICKINSON. Mr. Speaker, I yield myself 2 minutes.

I would like to respond to the gentleman, the distinguished chairman of the Committee on Agriculture, Mr. DE LA GARZA, who has pointed out some of the deficiencies in the past in the military, and asked that there not be one serviceman eligible for food stamps; that they be not required to go on cheap charter trips, and so forth.

I would just like to remind the Members that we just passed a bill here last week called Gramm-Rudman. We have not gone through a very penurious time, a time of denial in the past few years; 5 years at least, and we have just now cut back drastically on what the defense budget is going to be.

Zero percent growth this year, probably a negative growth the next few years because of Gramm-Rudman. That sounds great; everybody is happy that they are onboard; they are happy to balance the budget, but I am telling Members, we are going to live to regret it.

The same thing that Mr. DE LA GARZA was referring to; they are not going to improve, they are going to get worse. I think everybody should be alerted to that because things are going to get worse not better; they are not going to have adequate housing, they are not going to be assured that they will not be eligible for food stamps because of the anticipated cutbacks in the future. There is going to be a negative growth in spending, not looking after the Members' interests.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. DICKINSON. Mr. Speaker, I yield myself 2 additional minutes.

Mr. DE LA GARZA. Will the gentleman yield?

Mr. DICKINSON. I yield to the gentleman.

Mr. DE LA GARZA. I thank the gentleman very much, and I agree with him, and I am concerned that Gramm-Rudman is going to be very detrimental in this respect; but I would also remind my colleague that just 2 days or 3 days ago there was an article in the newspaper about how you cost what you buy in the Defense Department.

I know there may be controversy about it, but that article said that about $7 billion could have been saved if they had done this cost analysis or however it is called; so I would agree with the gentleman and I would urge him to look at every nook and cranny into how the Pentagon operates, because in spite of Gramm-Rudman, in spite of bad management, we still cannot allow the serviceman to suffer indignities beyond what the normal civilian does.

Mr. DICKINSON. Mr. Speaker, I agree with the gentleman from Texas, but let me say that much, much of the waste—and it is waste—that is carried on within the Department of Defense is mandated by the people sitting on this floor and in the other body. We require them to spend money that they do not want to spend; we stretch out the production programs that runs up the unit cost of an airplane $1 million per copy because of ordering less at a time instead of buying at the most economical rate.

We have on this floor mandated, in action with the Senate, buying three 747's that the Air Force said that they did not want, did not need, did not know what to do with them when they got them; we forced that on the Air Force, and these are actions that this body and the other body force on the military.

The problem is not entirely with the Department of Defense; we have just as many problems coming out of this body.

Mr. DE LA GARZA. Will the gentleman yield?

Mr. DICKINSON. I yield to the gentleman.

Mr. DE LA GARZA. I accept that part of the responsibility, and I assure the gentleman that I will join him and other responsible Members to see, to the extent that we can be responsible also. I am not pointing the finger at the Department of Defense.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. DICKINSON. Mr. Speaker, I yield myself 1 additional minute.

Let me say, Mr. Speaker, when we mandate that we have to continue to buy A-10 aircraft because they are made in somebody's district year after year after year, when we mandate that we have got to buy C-12's not asked for because somebody has an interest in it, when we mandate they have got to buy 747's that the Air Force says it does not need, does not want, do not know how to use; we do it, in the Congress.

If you will join me when these things come up in bills to have a majority on the floor to cut out some of this waste that the Congress is doing, then there will be real economies.

Mr. DE LA GARZA. The gentleman has my commitment in that respect.

Mrs. SCHROEDER. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Missouri [Mr. SKELTON].

Mr. SKELTON. Mr. Speaker, first I wish to commend the gentlewoman from Colorado. This is an excellent piece of legislation. My only thought, though, is it is too bad that a tragedy such as this has to be the cause of bringing it up and making it law.

We ask the best of our young men and our young women. The gentlewoman from Colorado [Mrs. SCHROEDER] is the champion of their welfare, and it is very fitting and appropriate that she be the one that offers this bill, and I am pleased to join her as a cosponsor for this very fine piece of

legislation. It is the least that we can do.

I also wish to commend the gentleman from Alabama [Mr. NICHOLS], who is the chairman of the Subcommittee on Investigations. I urged him to investigate the unanswered questions regarding the crash in Gander, Newfoundland; not just for what happened there, but for those young men and young women who in the future will be flying to and from.

We have worldwide interests. We have Americans flying to and from far places in this world every day, and the loved ones and the families and friends have the right, for those young people, to travel safely to and from those far places in the defense and interests of our country.

Mr. Speaker, I am pleased that his investigation will go forward, and I thank him for his responsiveness to requests.

Mrs. SCHROEDER. Mr. Speaker, I yield 1 minute to the distinguished new member of the committee, the gentleman from Arkansas [Mr. ROBINSON].

Mr. ROBINSON. Mr. Speaker, eight fine Arkansans lost their lives in the Arrow Air tragedy this past week.

As a cosponsor, I rise in strong support of this bill, and I want to thank the gentlewoman from Colorado [Mrs. SCHROEDER], who has worked very hard all year on other matters related to the families in our military services.

This is a tragic event. In a few moments, the Honorable SONNY MONTGOMERY will offer an amendment to increase the insurance death benefits to $50,000. Effective December 11, 1985, instead of the effective date of January 1986.

I would like to say that my heart goes out to the many families of the fine men and women killed in this tragic event, and I also want my colleagues to know that I sent a letter to our chairman, LES ASPIN, yesterday, asking him to take a full look at how we charter aircraft to transport our military personnel; because it is haunting to know that there is a possibility that this airplane was not airworthy; and second, there has been safety incidents that had gone unreported.

In closing, I urge my colleagues to vote for the Schroeder bill and also for the amendment to be offered by the gentleman from Mississippi [Mr. MONTGOMERY].

Mrs. SCHROEDER. Mr. Speaker, I yield 1 minute to the very distinguished senior member of the committee, the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Speaker, I very much congratulate the gentlewoman from Colorado for her leadership in this and other matters relative to the welfare of service personnel. She has done an outstanding job in this, and I want to congratulate her upon it.

I think this legislation is very much needed. It is a pity that we have to have such a tragic, dramatic event, such a sorrowful event such as this to bring to our attention the fact that laws are not always what they should be.

I hope we all join together and unanimously pass this legislation, and I again congratulate all the Members who have been active in bringing this to the floor.

Mrs. SCHROEDER. Mr. Speaker, I yield 1 minute to the very distinguished senior Member, the gentleman from Ohio [Mr. SEIBERLING.]

Mr. SEIBERLING. Mr. Speaker, I thank the gentlewoman, and I commend her for bringing this legislation to the floor.

This tragedy has affected families all across the Nation. Two of them are in my own congressional district. I think it is entirely fitting that the President of the United States personally went to Kentucky to be with the families.

□ 1140

I think it is fitting that the Congress has passed the resolution just previously acted on as well as taking up this resolution. I think it is important because it shows to the families that not only is official Washington but that the entire Nation is rallying around them, expressing its solidarity, its grief, and its commitment to those families and to the families of all servicemen, that we avoid this kind of tragedy and, having done so, will show again that these men who died in the service of their country did not die in vain.

Mr. Speaker, I thank the gentlewoman for giving me this time.

Mrs. SCHROEDER. Mr. Speaker, I yield 1 minute to a distingushed member of the Appropriations Committee, the gentleman from Texas [Mr. COLEMAN].

Mr. COLEMAN of Texas. Mr. Speaker, I want to compliment the gentlewoman from Colorado for her efforts in this regard. I had the distinct honor and pleasure to serve on the Personnel Subcommittee of Armed Services in my first term. The leadership of Mr. DICKINSON and Mr. PRICE at the time was certainly important. Certainly Mr. ASPIN also, as chairman of the Subcommittee on Personnel at the time, made a great difference to the servicemen and women of this country. But I think it should be said that the gentlewoman from Colorado has always shown, in my experience, the greatest concern and made the greatest efforts on behalf of all of those who serve this Nation. I would be remiss if I did not mention that her efforts, particularly with this bill, are absolutely one of the most important things I think all of us can do to show those who do serve their country and serve our country willingly, fairly, and honestly, in the finest traditions of our country, that we care about them and their families. It is, after all, the families of those who do serve who oftentimes suffer the most.

So it is with great pleasure that I rise in very strong support of the gentlewoman's legislation.

Mrs. SCHROEDER. Mr. Speaker, I yield 1 minute to the gentleman from North Carolina [Mr. ROSE].

Mr. ROSE. I thank the gentlewoman for yielding this time and appreciate her not calling me a senior Member.

Mr. Speaker, I rise in strong support of this legislation. It comes from the heart of all of us. It goes out to all those families who have or will suffer any kind of similar situation like this, and it is in the best intentions, it is in the best tradition of this House, that we very strongly endorse H.R. 3974.

My district, which includes Fort Bragg and Pope Air Force Base, has not been spared in this most recent tragedy. I thank the very compassionate gentlewoman from Colorado for bringing this legislation forward. I would also like the RECORD to show that I was unavoidably detained and was not here to vote for House Resolution 345.

Mr. Speaker, had I been here, I would have, of course, voted in favor of that resolution.

I urge my colleagues to strongly support the legislation now before us.

Mrs. SCHROEDER. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Kentucky [Mr. MAZZOLI].

Mr. MAZZOLI. I thank the gentlewoman for yielding.

Mr. Speaker, I rise for two purposes. To salute the gentlewoman for her leadership in bringing this resolution to the House. It is fitting and proper that we adopt it, and I hope that it is adopted unanimously.

The second purpose for which I rise is to extend my personal condolences to the families of the four men who were on that plane who happen to live in my congressional district. The families have suffered grievously, the Nation has suffered grievously. There is no way to fully account for the problem at this point although at some point I hope that we will understand the cause of the crash, but, more importantly, I would that the families recognize from the earlier resolution and from this measure that the gentlewoman is bringing forward that the Congress, particularly the House of Representatives, are standing behind the families and extend to them the greatest condolences in their time of grief.

Mrs. SCHROEDER. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Alabama [Mr. FLIPPO].

Mr. FLIPPO. I thank the gentlewoman very much.

Mr. Speaker, I want to commend the gentlewoman from Colorado and the gentleman from Alabama for bringing this resolution to the floor. It gives all of us an opportunity to express our deep appreciation to the families of those who suffered this great tragedy. In Huntsville, AL, Vincent Turner, staff sergeant, paid the supreme sacrifice. I am grateful to you for giving us the opportunity to say a great thank you to the families for their sacrifice.

Mr. Speaker, I urge strong support of the resolution.

Mrs. SCHROEDER. Mr. Speaker, I yield myself 2 minutes to just say that in the panic that has gone on in trying to get this bill crafted a few names were left off the cosponsor list, very regrettably. I would like to say who they are, because once we have called the bill up it is too late to put them on.

First of all, one of the people who cares the most about all sorts of families and has been always active on this committee forever and ever, Congressman BENNETT of Florida, he wanted to be one of the original cosponsors, and his name is now on the list. Congressman OBEY of Wisconsin, Congressman PHIL CRANE of Illinois, and Congressman SUNDQUIST of Tennessee. All of them were very helpful. Also another Congressman who really should be on the list, I think somehow got lost, but they were recovered, and I just wanted to say how many people voted so hard to bring this to the floor.

I yield such time as he may consume to the Congressman who has been hit the hardest, the base was in his district where these young men and their dependents are. He has been working on this day and night. He reminded all of us of this news a week ago when he first heard about it in the whip meeting, and we were absolutely stunned, stricken, and did not have any idea what to do.

He has given us all guidance and made many suggestions during the following week. I would now like to yield to Congressman HUBBARD from Kentucky such time as he may consume.

Mr. HUBBARD. I thank the Speaker.

Mr. Speaker, I naturally appreciate the generous remarks from the gentlewoman from Colorado. We express a great appreciation to you for bringing this bill before us; appreciation also to Mr. DICKINSON of Alabama; appreciation also to Mr. NICHOLS of Alabama for being the one handling House Resolution 345 which passed the House by a record vote of 401-0 just minutes ago.

Yes, as a Member of Congress who represents Fort Campbell, KY, I hope that each Member will give this bill his support. Indeed, our unanimous support from the House of Representatives. Certainly what we are trying to do here through this appropriation, through this housing, is the least that we can do for these widows and survivors of these 248 men and women in the armed services of our country who were tragically killed last Thursday morning early in Gander, Newfoundland. Much has been said about the cause of the tragedy. Actually, we do not know at this moment exactly what did cause it. Some originally or initially suspicioned terrorism since the plane originated in the Middle East. The more we find out about that particular plane and how many times that Arrow Airline plane had aborted takeoffs, including one last summer when the Kentucky Air National Guard which is based in Congressman MAZZOLI's district coming back from Michigan, I believe, taking off there in Michigan, coming back to Louisville, KY, that same airline, the same plane, was aborted in its takeoff. There were members of the delegation who were killed who had written and one had even sent a tape recording back home to his wife expressing their fear of the transportation that would be bringing them back from the Sinai, where they had spent 6 months in the service of our country, to Fort Campbell. I believe we heard on TV news the other night the tape recording of the officer, Captain Manion, who, prior to that plane leaving the Sinai in Cairo, Egypt, had, to his wife, through that tape recording, expressed his fear of this particular trip home because of the airplane that they knew they would be flying. Yes; these men have died in the service of their country. We hope and pray they have not died in vain. We, as Members of Congress, can see to it that they did not die in vain because we can urge, and insist, and demand that the Federal Aviation Administration and the Department of Defense in the future see to it that our American troops are transported on planes just as safe as Air Force One or as the planes that you and I, as Members of Cognress, will be taking from Washington National Airport or Dulles Airport returning to our homes this weekend for the Christmas and New Year's holidays.

Mr. DICKINSON. Mr. Speaker, would the gentleman yield?

Mr. HUBBARD. I would be glad to yield to the gentleman from Alabama.

Mr. DICKINSON. I thank the gentleman for yielding.

I did not mean to interrupt, but I thought the gentleman was finishing.

I would just like to make a couple of points, though. The Department of Defense charters aircraft. They have to do this because there are not enough passenger aircraft within the Department of Defense to transport troops. Nobody would suggest that we put them in the cargo hold of a C-130 or 141 or C-5 with no seats and without adequate comfort. So in order to transport troops, we have standing contracts with major airlines under the CRAF Program so that in an emergency we can take over and have transports full of troops, and the leasing of commercial aircraft is standard operating procedure. The point is, though, that it is not up to the Department of Defense to certify the airworthiness of the aircraft that they rent. It is up to the FAA. They have to certify the aircraft. The Department of Defense cannot go in until Delta or Pan Am or Arrow Air, the Department of Defense, insofar as I know at this point, unless something else develops, is no more responsible for the Arrow aircraft that went in than they were for the Air Florida that crashed here in Washington a couple of years ago. It is the Federal Aviation Administration authority that has to certify the airworthiness. If they did their job, then I think much of the problem we have had would be obviated. I just think we ought to be aware instead of excoriating the Army or DOD for not furnishing safe aircraft. It is up to the FAA to provide and to certify airworthiness. Small business tries to get into it. The Department of Defense would be chastised if they only went to the big airlines for their charters, even if the bigger airlines had them available for charter.

So I just mention this to discuss it. I do not disagree with anything the gentleman has said, but I do think we ought to keep that in mind.

Again, getting back to Gramm-Rudman, we are going to pay a price down the road if we cut as deeply into the defense budget and FAA. So I thank the gentleman.

Mr. HUBBARD. I thank the gentleman from Alabama for his remarks, and hopefully we can still agree that we do want to see to it, whatever Government agency it is, that our military troops have safe aircraft in which to be flown from place to place or base to base.

In closing, Mr. Speaker, as the Congressman who represents Fort Campbell, KY, and as a Democrat, I would be remiss if I did not say that President and Mrs. Reagan were extemely helpful at that memorial service. First of all, their willingness to go from Washington to Fort Campbell for that service on such a sad occasion. President and Mrs. Reagan went individually, one on one, to more than 500 of these survivors, shaking hands, embracing them, encouraging them, and promising to do what they can to see to it that these servicemen are never forgotten and, in fact, did not die in vain.

□ 1155

So congratulations to our President and First Lady for class acts, for sure,

as they went to Fort Campbell and were so helpful there, reminding these dependents and survivors that their loved ones are heroes.

Mrs. SCHROEDER. Mr. Speaker, I yield 1½ minutes to the gentlewoman from Ohio [Ms. OAKAR], who has cared an awful lot about this issue.

Ms. OAKAR. I thank my friend for yielding, and I want to first of all commend the gentlewoman for having this legislation brought up today. I think the gentlewoman is a champion in this whole area of reform and survivors' benefits, and I want to congratulate her and all of those responsible for the legislation.

Mr. Speaker, I want to take just a second to relate to the issue that was mentioned about this airline. We are remembering the military who died. There were civilians who died, as well. One of the stewardesses was from my area. I talked to some of her loved ones, and the tell me that she was always very concerned about this airline and that one of the engines was out for couple days, and so on, and she called home. The whole crew was very concerned about going forward with this flight. Senator GLENN and I are going to take some statements from members of the family to verify this.

I think the thing that bothers me the most at this point in time, though, is that the Defense Department is going ahead and still booking this airline. This airline, I have done a little checking on them, they have a terrible record, in terms of safety. The gentlewoman from Colorado and I serve on the Committee on Post Office and Civil Service. We know the RIF's that have gone on with respect to Federal employees that relate to FAA, and I think we really should insist that the Defense Department, at least temporarily, not use this particular airline. I think that is the least they should do, in view of all of the questions asked.

Mrs. LLOYD. Mr. Speaker, I rise in support of this bill.

This Nation was stunned last week when the tragic news arrived of the Arrow Air crash in Gander, Newfoundland, killing 248 soldiers and all crew members on board.

The entire Nation feels the loss, however, none so much as the families of these service members. These Army personnel were on their way home for the holidays, which makes it doubly tragic.

This bill is to ensure that the family members—the wives, the husbands, the children—are protected against immediate eviction from their homes at this most difficult time. Department of Defense policy terminates benefits to survivors upon the death of the service member. This creates undue and unnecessary hardship.

This bill would also protect others in this situation in the future. It protects those living both on base and off base, as is only fair.

This is not a blank check. This bill provides living expenses for 2 months—a reasonable time for a family to make plans and adjust to their tremendous loss.

In the spirit of humanitarianism, I urge every Member of this body to support this bill. Let's take care of our own—as we should.

Mr. DICKINSON. Mr. Speaker, I yield back the balance of my time.

Mrs. SCHROEDER. Mr. Speaker, I yield to the gentleman from Mississippi [Mr. MONTGOMERY], the very distinguished chairman of the Committee on Veterans' Affairs, for the purpose of offering an amendment.

AMENDMENT OFFERED BY MR. MONTGOMERY

Mr. MONTGOMERY. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MONTGOMERY: At the end of the bill add the following new section:

SEC. 3. CHANGE IN EFFECTIVE DATE FOR INCREASE IN MAXIMUM AMOUNT OF INSURANCE UNDER SERVICEMEN'S GROUP LIFE INSURANCE [SGLI] PROGRAM.

Section 401(c) of the Veterans' Administration Health-Care Amendments of 1985 (Public Law 99-166) is amended by striking out "on January 1, 1986" and inserting in lieu thereof "with respect to deaths occurring after December 11, 1985".

Mr. MONTGOMERY. Mr. Speaker, I take this opportunity to thank the gentlewoman from Colorado [Mrs. SCHROEDER] for giving me the opportunity to offer this amendment to her unanimous-consent request to bring this bill up. I want to also say that I serve on the Personnel Subcommittee with the gentlewoman, and she has tremendous concern for the personnel and families of our military.

Now, what this amendment does, it says that the servicemen's group life insurance, that is the life insurance program for the military, under this amendment that insurance would be raised from $35,000 to $50,000. That comes under the Veterans' Affairs Committee, anyway, and that is one reason why I am offering this amendment. It is retroactive. The amendment says those from December 11 through January 1, 1986, who would lose their lives would be eligible for $50,000 of life insurance.

Now, as of January 1, by unanimous vote in the House and in the Senate, signed by the President, we raised the SGLI life insurance from $35,000 to $50,000, as of January 1, 1986; so we are giving a 20-day coverage that would cover these 248 persons of the military who were killed at Gander, Newfoundland.

Now, this fund is self-sustaining. I want to make this perfectly clear. That is not money coming out of the Treasury. This is a separate fund. The serviceman pays for this fund. The rate is $2.80 a month.

By raising this limit from $35,000 to $50,000, those after January 1 would have to pay around $4, 8 cents a thousand for the insurance.

I would predict that 99 percent of those 248 personnel had this insurance coverage. You are in the insurance program unless you opt to get out of the insurance program. So I would say most of those did have the insurance.

Now, I have briefly tried to explain this amendment. It raises from $35,000 to $50,000, it is not taking any money out of the Treasury, this is a self-sustaining fund, the fund is in good financial shape, and it would give the families $15,000 worth of additional insurance.

I would like to thank the gentleman from Florida [Mr. SHAW] for making this suggestion to me and the gentleman from Pennsylvania [Mr. MURTHA] for saying, "Why don't you ask Mrs. SCHROEDER and add this amendment on to the bill?"

Mr. Speaker, I yield to the gentleman from Flordia [Mr. SHAW].

Mr. SHAW. I thank the gentleman for yielding.

Mr. Speaker, I would like to say at the outset that there is no finer friend that the veterans of the United States or their families have in the House of Representatives than SONNY MONTGOMERY, the gentleman from Mississippi.

There is nothing that we can do for these men and women who perished in this crash other than to give them a decent burial at this time. But we do have a genuine obligation to their families to do everything that we possibly can to relieve their loss which they will feel for the rest of their lives.

I compliment the gentleman on this most important and most fair amendment, and I would certainly urge its adoption, and I am sure it will be adopted.

Mr. MONTGOMERY. Mr. Speaker, it was recommended by the actuaries last year that we raise this insurance from $35,000 to $50,000. We passed it in the House last year. For some reason, the Senate did not act on it. But this is 2 years in a row we have raised it from $35,000 to $50,000. With this amendment, those who lost their lives on December 12 would be covered.

Mr. Speaker, I yield to the gentleman from Florida [Mr. HUTTO].

Mr. HUTTO. I appreciate very much the gentleman yielding.

Mr. Speaker, we are all deeply saddened at this tragic accident that happened last Thursday.

The gentleman from Mississippi [Mr. MONTGOMERY] will recall that he and I and other members of the Armed Services Committee visited our multinational force in the Sinai a little over 3 years ago, just before the Sinai was turned back to Egypt. We were impressed with the indomitable spirit and the enthusiasm of those who were on service in that very desolate and lonely spot. Of course, we all believe

and know that these men and women were in the service of their country in the finest tradition of those who would serve in the armed services of the United States. Two of those who were fatalities were from my district, Sp4. Tony Brasfield, of Panama City, and Sp4. Jeffrey Kee, of Pensacola. Our prayers go out to their families and to all of the families who lost loved ones in the tragic airplane crash.

Mr. Speaker, I want to commend the gentleman from Mississippi [Mr. MONTGOMERY] for offering this amendment. I remember that we passed special legislation exempting from income tax those who lost their lives in Beirut and also in Grenada, and I think that what the gentleman has done here in offering this amendment is even better, extending from $35,000 to $50,000 the amount of insurance which would have gone into effect January 1, now to make it retroactive to apply to these and help to ease the burden a little bit for those families.

I would also like to commend the gentlewoman from Colorado [Mrs. SCHROEDER]. I am very pleased to be an original cosponsor. We all have great concern and sympathy for those who have felt this loss at this time of year. Our hearts and prayers go out to each one of them.

Mr. MONTGOMERY. I certainly thank the gentleman, a member of the Armed Services Committee.

Mr. Speaker, I yield to the gentleman from New York [Mr. SOLOMON], who is a ranking member of the Committee on Veterans' Affairs and a very hard-working Member of Congress.

Mr. SOLOMON. Mr. Speaker, I thank the chairman very much, and I just want to commend both the gentleman from Mississippi and the gentlewoman from Colorado for the bill which she is offering and which the gentleman is amending.

Mr. Speaker, the Veterans' Compensation Subcommittee did include this in the omnibus veterans' compensation bill, which would increase it from $35,000 up to $50,000.

I want to commend also the gentleman from Florida [Mr. SHAW] for recommending it.

As the chairman of the Veterans' Affairs Committee has mentioned, this fund is actuarily sound. This does not create a hardship on the fund. Certainly I would urge everyone to unanimously accept the gentleman's amendment.

Mr. Speaker, I would just like to comment on a statement that was made earlier by the chairman of the Committee on Agriculture, when he talked about the possibility of servicemen receiving food stamps. Mr. Speaker, it was not too long ago, back in 1978, 1979, when most of our servicemen were on food stamps. The salaries and the benefits in this country for our military people were so low that they were actually receiving food stamps for their families. Not only that, but we were losing thousands and thousands of very experienced technical people, both commissioned officers and noncommissioned officers, to the private sector.

I just want to remind everybody here that when we talk about the defense budget that almost 50 percent of every dollar that we appropriate and authorize for the defense budget goes toward salary and benefits for our military people, including the housing bill that we will be passing here today. I think we ought to keep that in mind, because we must maintain a strong national defense. Certainly the gentleman in the well [Mr. MONTGOMERY], the Armed Services Committee, the gentleman from Alabama [Mr. DICKINSON], have done an outstanding job in defending our defense budget. But when it comes to next year, let us keep this in mind: We do not want our military people on welfare, we do not want them going out to the private sector and losing those career people.

Again, I commend the gentleman in the well. This is a good amendment, and we ought to adopt it right away.

Mr. MONTGOMERY. I thank the gentleman for his support.

Mr. Speaker, I yield to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I just want to congratulate the gentleman on his amendment. I think it shows how fair the gentleman is. The gentleman is absolutely right, we should have done this. The gentleman did do it, and I am really pleased that he did all the staff work and all the leg work and all the running around that it took to put all this together. I thank the gentleman and I am sure the families will thank him, too. I realize it is very little that we are doing, but I think it shows how much this country cares about its veterans, about its service people and that even at this very busy time we will take this time to make sure we do everything we can to make sure they are treated as equitably and as fairly as they possibly can be.

Mr. MONTGOMERY. I thank the gentlewoman for what she said.

Mr. Speaker, there is a tendency sometimes, if you pass a bill in the House, then you do not follow up on it. But I certainly will work with the gentlewoman. In the Senate we have had problems before on this insurance, and we might have problems on the bill that the gentlewoman introduced today, and certainly we need to follow up. We have about 48 hours to do it.

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from Mississippi [Mr. MONTGOMERY].

The amendment was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mrs. SCHROEDER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Colorado?

There was no objection.

CONFERENCE REPORT ON H.R. 2100, FOOD SECURITY ACT OF 1985

Mr. DE LA GARZA. Mr. Speaker, pursuant to the order of the House of Monday, December 16, 1985, I call up the conference report on the bill (H.R. 2100) to extend and revise agricultural price support and related programs, to provide for agricultural export, resource conservation, farm credit, and agricultural research and related programs, to continue food assistance to low-income persons, to ensure consumers an abundance of food and fiber at reasonable prices, and for other purposes.

The Clerk read the title of the bill.

(For conference report and statement, see proceedings of the House of December 17, 1985.)

The SPEAKER pro tempore. Pursuant to the order of the House of Monday, December 16, 1985, the conference report is considered as having been read.

The gentleman from Texas [Mr. DE LA GARZA] will be recognized for 30 minutes and the gentleman from Illinois [Mr. MADIGAN] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Texas [Mr. DE LA GARZA].

□ 1210

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the House will take its final vote today on one of the most important national issues we have faced in this session of Congress: Economic survival of large segments of American agriculture.

The House will vote today on the conference report on the Food Security Act of 1985, H.R. 2100. This is a massive piece of legislation, and I know that Members will have different views on almost every one of the 18 titles. But I believe you can sum up this bill in one four-letter word: Good.

This is a good bill because it says to the agriculture community and the nation that in spite of all the budget constraints, and in spite of all the problems we face, the Congress does

51-059 O-87-9 (Pt. 27)

recognize that American agriculture is in trouble, and the Congress is not going to jerk the safety net out from under the American farmer.

This is a good bill because it will help make American agriculture more competitive while it preserves basic income protection to the greatest degree possible at this time in order to get the bill through this Congress and signed into law. Mr. Speaker, I know perfectly well that some Members believe this bill does not give us all the income protection we need and I agree. The situation in some parts of rural America today is critical. Years of low prices, declining exports and collapsing land values have produced a crisis in some areas. The trouble has spilled over to produce serious problems in agriculture credit, and we will be dealing with that issue in a separate piece of legislation later today.

If I could write this farm bill by myself, it would include stronger provisions for higher target prices. But no single member alone can write this bill. The final product must be one on which the House, the Senate, and the President can agree.

Mr. Speaker, legislation is the art of the possible. If we want a farm bill, it must be one that can get the votes needed to pass the House and the Senate today. I believe that the House conferees have brought you a final product that was written within the art of the possible, and that the American agriculture community can live with. It provides a degree of protection that I hope will help many farmers to survive until better times.

Mr. Speaker, we need a farm bill. We need it because agriculture is this Nation's most basic industry. What happens to agriculture eventually effects the entire economy and to every group in this country. North as well as South. East as well as West. Urban as well as rural. Every Member of this House has a basic stake in giving our agricultural community a chance to survive and to return to economic health.

Let me speak briefly about costs. This bill will cost money, but as I told the House when we passed our own bill, this conference report meets our congressional budget targets. It will cost more than the proposal the administration brought us for what most of us thought was a prescription for tearing down the effectiveness of farm programs. But it will cost billions of dollars less than the cost of existing law.

When this bill passed the House in October, it met the congressional budget target, nearly $8 billion under the baseline cost of extending current law, according to the Congressional Budget Office. A preliminary estimate of the conference bill shows that we will have savings below baseline—for the 1986–88 budget cycle—of nearly $11 billion compared with the requirement of just under $8 billion.

Now let's look briefly at potential costs, and I ask the House to remember that these are projections based on assumptions of possible production, domestic demand, foreign demand, and weather for years into the future. At best, and the experts are clear about this, these are educated guesses which can be changed greatly if the weather changes or if any of a number of other key factors should change.

The Agriculture Department has estimated that the price support portions of the bill over the 3-year budget cycle—based on November commodity stock estimates—may average 1.7 percent of the total Federal budget. By the fifth year of our bill, price support program costs are estimated to be down to under 1 percent of the total Federal budget. For the entire 5 years, the average would be under 1.5 percent of the total Federal budget.

If you take the entire farm bill, including all other programs like farm credit, research, overseas food aid and everything else, the bill covers spending which would average just over 3.5 percent of the total Federal budget in the first year and less than 3.2 percent for the entire 5 years.

At the same time, the House should be aware that this is not going to be the last word on farm policy. The budget reduction bill which became law a few days ago will affect agriculture as well as most other Government programs, and we will have to keep the situation in agriculture under continual review.

Let me speak briefly, also, about the conservation section of our bill. I believe this represents one of the most significant soil protection measures adopted by Congress since I became a Member of this House. I think these provisions of the bill will be remembered long after our current economic problems have been forgotten.

H.R. 2100 includes 5 year commodity stabilization programs for dairy products, wool and mohair, wheat, feed grains, cotton, rice, peanuts, soybeans, sugar and honey. But in addition to those programs which appear in the first nine titles of the bill, H.R. 2100 includes a great many other important provisions.

Title 10 includes general provisions applying to groups of commodities.

Title 11 covers trade programs. These include programs to help expand our commercial trade, programs to continue the Food and Peace Program and to expand some of our other efforts to relieve hunger abroad, and a compromise on cargo preference.

Title 12 is the conservation title. It includes the new sodbuster and swampbuster programs which are designed to protect erodible land and wetlands for future generations.

Title 13 covers programs for agricultural credit and rural development. This includes an interest buy-down program for some borrowers who have loans guaranteed by the Farmers Home Administration. It also includes new rules to govern the way in which the Agriculture Department handles foreclosed land.

Title 14 covers programs for agricultural research, extension, and teaching. It provides some useful and potentially important new steps in research including a directive to develop appropriate controls on the development of biotechnology.

Title 15 includes the Food Stamp Program and related provisions including an extension of the temporary Food Assistance Program. In this title, we extend the Food Stamp Program with some needed and modest improvements for the needy, including the so-called working poor.

Title 16 includes a group of significant marketing programs. These include authorization for new programs of farmer-financed beef and pork promotion and provisions dealing with marketing orders and grain inspection.

Title 17 includes a group of provisions dealing with food processing and inspection, new regulations for the makeup of agricultural stabilization and conservation committees, and the creation of a National Agricultural Policy Commission. Also, this title includes improvements in the National Aquaculture Improvement Program, improvements in the Federal program for protecting animal welfare, and it includes provisions to modernize the Virus-Serum-Toxin Act.

Title 18 includes the effective date for the bill which is, for the commodity programs and many others, a 5 year bill.

Mr. Speaker, I know that many Members are especially concerned at this moment with what the bill does for our major commodity programs. Before I go into fuller details, let me briefly summarize the major thrust of what we have in the conference report.

For wheat, feed grains, cotton and rice we try to make our crops more competitive on world markets so that we can increase sales and hopefully improve market prices for farmers. This will be done by programs including more flexible price support loan rates. At the same time, we try to protect the farmers' total return for his crop by maintaining target prices. For wheat and feed grains, we have what amounts to nearly a 3 year freeze with reductions that cannot total more than 10 percent over the life of the bill. Cotton and rice also will be held at current levels in 1986 with later reductions that cannot amount to more than 10 percent over the life of the bill. The House, as you know, approved what amounts to a 5-year freeze for target prices, and I believe the compromise we achieved comes much closer to our bill than it did to either the Senate bill or the administration's proposals.

For dairy products, our bill is a compromise. It retains the so-called whole herd surplus reduction program to give dairy farmers a chance to deal with the problem of milk surpluses, and it says in effect that if we can't solve the problem in this way there will have to be more reductions in price supports.

Now, Mr. Speaker, I want to review the bill in some further detail. Because of the pressure of time, the material which follows is not organized to follow the exact breakdown of the titles of the bill. Instead, it will give the House an idea—very briefly in some cases—of how we have dealt with many but not all of the items in this massive piece of legislation:

The major provisions of the bill include:

COMMODITY STABILIZATION PROGRAMS

For wheat and feed grains (titles 3 and 4), the target price and commodity support loan programs for 1986 through 1990 crops include a market-oriented system for setting price support loans at levels that would make American crops competitive in international markets, coupled with target price protection.

Basic initial price support loan rates for grains would start at $3 a bushel for 1986 wheat and $2.40 for 1986 corn. From 1987 on, loans for grains would be set each year by formulas using average market prices of recent years, with any declines limited to 5 percent a year. After calculating the basic initial rates, the Secretary would then have discretionary power to further cut the rate for any year by up to 20 percent if—first, market prices in the previous season failed to top 110 percent of the previous year's loan rate, or if, second, he determines that a further cut is needed to compete on world markets. For the 1986 crop only, the Secretary would be required to use this authority to drop the loans at least 10 percent. The Secretary would have discretionary authority to allow repayment of support loans at levels which could be set as low as 70 percent of the loan rate. The Secretary would have discretionary authority, in addition, to give producers one of two alternate types of marketing certificates to help promote exports.

Target price income protection would operate with whichever loan system was used, and any cut in loan rates below the basic level in any year would be offset by increased target price payments which would not be subject to payment limits. Target prices, which protect farmers' income with direct payments when market prices are below the target, would be frozen at current levels ($4.38 a bushel for wheat and $3.03 a bushel for corn) through 1987 to prevent cuts in per-bushel returns to farmers. In succeeding years, the rate would be not less than 98 percent of the 1987 level for 1988, not less than 95 percent for 1989 and not less than 90 percent (but not less than $4 wheat and $2.75 for corn) in 1990.

To qualify for benefits in a year in which carryover wheat stocks exceed 1 billion bushels, wheat producers would be required to reduce acreage as follows: In 1986, a maximum diversion of 25 percent (including a mandatory minimum reduction of 15 percent, a mandatory in-kind paid diversion of 2.5 percent, and a further reduction at Secretarial discretion of 7.5 percent); in 1987, a maximum reduction of 27.5 percent (including a mandatory minimum of 20 percent and a further 7.5 percent at the Secretary's discretion); and in 1988–90 a maximum of 30 percent (including a mandatory minimum of 20 percent and 10 percent at the Secretary's discretion). (For the 1986 wheat crop only, the Secretary would be required to offer growers who planted before announcement of the program a chance to idle an additional 10 percent of their base in return for payments.) For feed grains, if stocks exceed 2 billion bushels of corn, the 1986 reduction would be a maximum of 20 percent of which 12.5 percent would be a mandatory minimum, 5 percent would be discretionary with the Secretary and 2.5 percent would get in-kind payment. For 1987–90 the maximum would be 20 percent (including a mandatory minimum of 12.5 percent plus up to 7.5 percent at the Secretary's discretion). For all grains, the Secretary would have discretionary authority to offer producers a further voluntary paid diversion beyond the basic requirements of the bill.

The bill requires the Secretary to allow haying and grazing on diverted acres in 1986 and grazing in 1987–90 if State agricultural stabilization committees request it. The Secretary has discretionary authority for haying in 1987–90.

The Secretary would have discretionary authority to offer producers a Target Option Program under which the individual grower's wheat target price would go up if he elected to use higher levels of acreage reduction and would decline at lower acreage-cut levels. Also optional for the Secretary is a plan varying target price levels for farms of different sizes in an effort to concentrate benefits on medium-sized farms.

The Secretary would be given discretionary authority under the bill to proclaim marketing quotas for wheat and provide for a mandatory control program. This quota program, if the Secretary should choose to use it, would be subject to approval by producers of wheat in a referendum.

The bill requires the Office of Technology Assessment to study Federal grain export quality standards. It also provides that 6 months after the study, the Agriculture Department would have to revise its export grading rules, in line with study findings, to protect the quality of export grain.

For cotton and rice (titles 5 and 6). The bill continues the traditional framework of target prices, price support loans, and voluntary supply control, but it includes new features to make the crops competitive on world markets and has a shorter target price freeze than the bill provides for grains.

For cotton:

The basic support loan is set at 55 cents a pound for 1986 with annual reductions (based on continued use of a traditional market-linked formula) of no more than 5-percent annually and a floor of 50 cents. If the basic rate is not competitive on world markets, the Secretary would choose one of two alternate market enhancement plans for repayment of loans. Under one plan, he could lower the repayment rate by up to 20 percent, thus allowing farmers to redeem their crops and sell them at a competitive price. Under the second plan, repayment would be at rates varied periodically through the year to keep pace with world markets. As a backup to assure competitiveness in case world market levels fall below the new loan repayment levels, the Secretary at such tims would issue in kind certificates to domestic and foreign buyers to bridge the gap between the effective support and the market.

Target prices would be held in 1986 at the 1985 rate of 81 cents a pound and then could be cut to no lower than 98 percent of the 1986 level in 1987, 95 percent in 1988, 92 percent in 1989 and 90 percent in 1990.

For farmers who want to qualify for price supports during periods of heavy supply, the Secretary would require acreage diversions of up to 25 percent and could offer a voluntary paid supplemental diversion program if greater acreage cuts were needed.

For rice: The basic loan rate would be $7.20 per hundred pounds for 1986 and then based on 85 percent of an average of past market prices with a 5 percent limit on annual cuts and a floor of $6.50. To keep rice competitive, growers could pay off their loans at lower rates and then sell the crop at market levels. Repayment could be set as low as 50 percent of the basic loan in 1986 and 1987 and scaled up to 70 percent of the loan by 1989 with up to half of the gap covered by negotiable payment in kind certificates. If the market price was below the repayment level, the crop would be kept competitive in foreign markets by issuing in kind marketing certificates to exporters bridging the gap between domestic and world prices. (The "marketing loan" plan under which growers can repay support loans at a reduced rate would be applied in the case of rice to the 1985 crop as well as the 1986–90 crops in order to prevent a heavy surplus buildup from this year's harvest.)

Target prices would be frozen at $11.90 per hundred pounds for 1986 and then scaled down under the same formula provided for cotton.

For farmers who want price support when surpluses are big, the Secretary would require acreage reductions of up to 35 percent and could offer a voluntary paid diversion program for any further needed reductions.

For dairy products (title 1). The bill is designed to reduce surpluses through a whole-herd diversion program. If this plan has not cut surpluses sharply, substantial support cuts would be authorized beginning in 1988. Chief features include:

The bill continues the current $11.60 per hundred pound support level for calendar 1986 but also activates an 18-month, Farmer-Funded Program under which producers can voluntarily elect—in return for payments set on a bid basis—to take entire dairy herds out of production in order to reduce surpluses. To fund the program, farmers would pay an assessment of 40 cents per hundredweight during 1986 giving them a net effective return of $11.20 on manufacturing-grade milk. On Jan. 1, 1987,

the Secretary would be required to lower the support rate to $11.35 but the assessment would drop to 25 cents. On Oct. 1, 1987, the assessment would end but the Secretary would be required at the same time to lower the support to $11.10. Beginning Jan. 1, 1988, the Secretary would be required to make 50-cent annual cuts in the support rate if surplus purchases are expected to exceed 5 billion pounds a year or 50-cent increases if surpluses are expected to be under 2.5 billion pounds. After the whole herd disposal program ends, the Secretary would have discretionary authority to adopt a diversion program of whole-herd or partial cuts. Differentials used in setting minimum fluid milk prices in some marketing orders would be increased to reflect current transportation costs.

For livestock (portions of titles 4 and other titles). To protect livestock producers in case of heavy dairy cow sales into the meat market because of a Milk Diversion Program, the bill requires additional Government purchases of 400 million pounds of red meat during the duration of the whole-herd diversion for export or domestic donation. In a related area, the bill includes new authority for farmer-funded beef and pork promotion with a requirement that producers could get refunds of checkoff contributions during the period between the start of the programs and later referendums (within 22 months of the start of the beef program and 24–30 months from the start of the pork program) on whether to continue the programs. The beef checkoff would be $1 per head (including imported beef) with a credit of up to 50 cents for assessments of state beef councils; the pork checkoff would be 1/4 of 1 percent of the sale price of hogs and imported pork. Also, the bill requires that imported meats, livestock and poultry comply with American standards and residue regulations.

For soybeans (title 8). The bill continues the basic price support loan rate through 1986 and 1987 at the current minimum rate of $5.02 a bushel. For the next 3 years, rates would be based on an average market price formula with reductions limited to no more than 5 percent a year and with a floor of $4.50 per bushel. In all five years, the Secretary would have authority to reduce loan levels by an additional 5 percent if necessary to keep the crop competitive in world markets. The Secretary would also have discretionary power to allow repayment of loans for less than the original rate so the beans could go to market instead of government stockpiles.

For sugar (title 9) and wool and mohair (title 2). The bill generally extends current programs. The current wool support formula would be frozen for five years. Sugar supports would continue for five years at not less than the 1985 level of 18 cents a pound. To avoid a buildup of surplus stocks in government hands caused by forfeitures of support loans when market prices are low, the bill requires that import quotas currently scheduled through Sept. 30, 1986, would be extended for at least 3 months, thus reducing per-month import levels. As an alternative, the Secretary could reduce quota levels to protect domestic prices. Beginning with the next quota year, the Secretary would be directed to operate the sugar program with quota levels which avoid any cost to the Government. Also, the bill provides that beginning with the 1987 quota year, no import quotas can be given to countries which are net importers of sugar unless they verify that they do not import Cuban sugar.

The peanut program (title 7) would be continued without major changes. Support for peanuts grown under a domestic (food and seed) quota would be adjusted in 1966 and future years for increases in farm costs but not by more than 6 percent per year in 1987–90, and access to quota sales at the domestic support rate would be broadened by sharing growth in the quota between old and new growers. The bill sets a floor of 1.1 million tons (the current floor) under the annual domestic peanut quota for the next 5 years, but provides the quota can increase if domestic needs grow.

Honey supports (title 9) would be cut from the present 65 cents a pound to 64 cents in 1986 and 63 cents in 1987. In the next 3 years the Secretary could make cuts of up to 5 percent annually, and he would have discretion for all 5 years to allow repayment of loans at below the loan rate.

Payment limitations and other general commodity provisions (title 10) in the bill continue the present $50,000 annual per producer ceiling for program payments. Exempt from the ceiling would be: First, target price payments which offset support loan cuts below basic loan levels; second, any payments made under several program cost-reduction items which the bill provides for discretionary use by the Secretary; and third, any gains farmers realize when paying off support loans at less than the initial loan level. A $100,000 ceiling would be provided for disaster payments to producers of grain, cotton and rice and similar disaster payments are authorized for the 1985–90 crops of soybeans, sugar beets and cane and peanuts. Advance deficiency payments would be required for 1986 crops using target price programs and would be discretionary in future years, and 5 percent of total deficiency payments could be made in kind at the Secretary's discreting. New provisions for determining crop and total farm acreage bases are included, along with revisions in the farmer-owned grain reserve program putting new limits on the reserve. And in programs using target prices, the Secretary would have discretion to make payments to farmers who are eligible for loans and target prices but agree to forgo those benefits.

Trade (title 11): The bill mandates a payment-in-kind bonus export promotion program designed to make American commodities more competitive in world markets as well as a package of continued and expanded export credits.

The bonus export program provides that surplus commodities owned by the Government must be provided to exporters, processors or foreign buyers to encourage the development and expansion of overseas markets for American crops including processed farm products. The Secretary would be directed to use $2 billion worth of commodities for the program over the next 3 years to counter unfair foreign trade practices and generally to make American products more competitive, and at least 15 percent of the program could be devoted to exports of poultry, meat and meat products.

In the export credit area, the bill requires the Secretary of Agriculture to make available not less than $5 billion annually in short-term export credit guarantees for the life of the bill where such guarantees would improve the competitive position of American exports. The Secretary is also required, for the 1986 through 1988 fiscal years, to make not less than $325 million a year available in cash or in surplus commodities for direct export credits to counter the subsidies, import quotas or unfair trade practices of foreign countries. (The direct credits, whether in cash or in kind, could be used in so-called "blended credit" export programs.) The bill also broadens the purposes for which an existing intermediate (three-to-10-year) export credit program can be used and directs the Secretary to make available intermediate loan guarantees of at least $500 million a year through 1988, with a ceiling in fiscal 1989 of $1 billion. A previously authorized export credit revolving fund is reauthorized under the bill. Also, the Agriculture Department would be directed to operate a pilot test of barter programs with at least two countries to acquire strategic or other materials for which there are unmet national stockpile goals.

To improve coordination of Federal agency programs in overseas food assistance, the bill creates a new Presidential special assistant for agricultural trade and food aid. And to expand overseas food aid and trade promotion programs, the legislation extends the Food for Peace Program and provides that at least 75 percent of the foods shipped under the donation phase of the program must be in the form of processed, fortified or bagged products. For fiscal year 1986, shipments under the donation phase would be maintained at the 1985 level of 1.8 million tons. The bill also authorizes expanded operations under a related program providing surplus commodities for needy people abroad and it provides that not less than one-tenth of 1 percent of Food for Peace (Public Law 480) funds for fiscal 1986 and 1987 must be used for a farmer-to-farmer technical assistance program. Further, the bill creates a new Food for Progress Program under which the President would be authorized to donate commodities to countries which promote free enterprise in their domestic food production systems.

The bill includes a section revising existing cargo preference regulations which require that 50 percent of certain Government funded agricultural exports must be shipped in American-flag vessels. The measure states that commodities exported under Public Law 480 (Food for Peace) and

other designated assistance programs will be subject to a cargo preference floor starting at 60 percent in calendar 1986 and rising to 75 percent in 1988 and thereafter (in place of the current 50 percent). The bill provides that additional funds needed for these increases would come from the Department of Transportation and it exempts from cargo preference a number of commercial-style export credit programs operated by the Agriculture Department including blended credit programs. If the Transportation Department is not able to provide the needed funds, the new provisions would be shelved and existing law would come back into effect.

The bill requires the Secretary of Agriculture and the U.S. Trade Representatives to pursue agricultural trade consultations with major producing countries. Trade-related studies required by the bill include one to determine the impact on U.S. agriculture of imports of Brazilian ethanol, and another on specific unfair trade practices by other countries which affect American exports.

Conservation (Title 12): The conservation section includes new programs to protect fragile soils and wetlands for future generations and move a substantial amount of erodible into less intensive use.

For highly erodible land which has not been cultivated since 1980, the bill provides a sodbuster program to discourage plowing up fragile soils. If a farmer planted a crop on fragile land in violation of the terms of the bill, he would lose price supports and other farm benefits for all of his crops in the year of the violation. Highly erodible land which was used for crops (or idled under a Government acreage control program) between 1981 and 1985 would initially be exempt from the sodbuster penalties, but this grandfather clause exemption would disappear for any affected producer who fails to begin applying a conservation plan by 1990 or 2 years after completion of a soil survey of his land, whichever is later. Producers would have until 1995 to complete application of the conservation plan. A companion swampbuster provision would deny farm benefits to producers who convert wetlands to crop use in the future except in cases where the impact of the action is found to be minimal.

For highly erodible soils which are already in crop use, the bill provides a long-term Conservation Reserve Program under which farmers would contract for periods of 10 to 15 years to return 40 to 45 million of such acres to less intensive uses such as grass or trees, which in some cases may be used to establish shelterbelts. In return for compliance with the contracts, growers would get cash or in kind land rental payments (established on a bid basis) plus payments covering a part of the cost of needed land treatment measures. No more than 25 percent of the land in any county could be enrolled in the Reserve except in countries where the Secretary of Agriculture decides that higher levels would not hurt the county economy. There would be a $50,000 limit on annual payments to farmers under reserve contracts.

Also, the bill includes an extension of the Resources Conservation Act, requiring the Agriculture Department to produce assessments of soil and water resources in 1995 and again in 2005 to help policymakers develop long-term plans for protecting those vital national resources. A further section permits Governors of States which have State laws to protect farmland from urban development to file suits in cases where the Federal Government has not followed procedures of a Federal farmland protection law. (The Federal law requires, among other points, that Government agencies must consider alternatives before taking actions which result in shifting farmland to nonfarm use.)

The bill requires the Secretary of Agriculture to establish a procedure under which adverse determinations made under these new conservation provisions may be appealed.

The bill authorizes the Secretary of Agriculture to formulate plans and give technical assistance to property owners, State and local agencies, and interstate river basin commissions to protect the quality and quantity of subsurface water, reduce flooding hazards, and control salinity. The Secretary must report to Congress on this matter by February 15, 1987.

Credit and Rural Development (title 13): The bill reauthorizes and in some cases revises Federal farm credit and rural development programs. It requires the Secretary, through September of 1988, to operate a $490 million program under which the Agriculture Department and private lenders would share equally in the cost of a reduction in interest rates for hard-pressed farmers who hold loans guaranteed by the Farmers Home Administration. The Government could pay for 2 percent of the overall buy-down or one-half of the total, whichever was less. The bill also includes discretionary authority for a program of planting-season advance commodity loans to farmers beginning it 1986. Authorization ceilings include annual caps for the 1986 through 1988 fiscal years of $3.48 billion for Farmers Home Administration farm operating loans with a phased shift from an equal division between direct and guaranteed loans to a third-year division of $870 million for direct and $2.610 billion for guaranteed loans. For farm ownership loans, the bill authorizes $520 million annually, beginning with an equal division between direct and guaranteed loans and ending with a third-year division of $130 million direct and $390 million in guarantees. (The Secretary is authorized to transfer up to 25 percent of each year's guarantee allocation into direct loans.) For emergency disaster loans there would be ceilings of $1.3 billion in fiscal 1986, $700 million in 1987 and $600 million in 1988. Under other changes made by the bill, disaster loans would no longer be available for those who could get credit elsewhere or, beginning in 1987, to those who do not buy crop insurance when it is available. In addition, disaster loans would be banned for farms larger than family-size.

For rural development programs, the bill authorizes $340 million annually for 3 years in direct water and waste disposal loans and $250 million annually in guaranteed industrial development loans plus $115 million in direct community facility loans. The bill also provides a new method of determining eligibility for water and sewer loans and grants based on community income and health and sanitary needs.

A clear title provision in the bill is designed to protect buyers of farm products from challenges to the title to their purchases while still allowing lenders to protect liens on farm products. The bill clears buyers from liability on liens against the commodities bought from farmers unless they have been given notice of those liens directly or via a State central registry system. The new provisions will be effective in 12 months, giving time for States to set up central filing systems if they wish to do so.

Also the Agriculture Department would be ordered to observe a number of new restrictions on the way it handles farmland acquired by the government in future foreclosures of FmHA loans. Among other provisions, USDA would be forbidden to sell such land if the sales would depress local farmland values, and first priority in any sales or leases would have to be given to operators of farms which are not larger than family size. In leases, the bill calls for giving priority to former owners of the land and sales prices must reflect the probable income the land can produce. Where FmHA-owned land is administered under management contracts, contracts must be let under competitive bids with preference to local small businessmen, and the use of conservation practices may be required on land which has been classed as highly erodible as a condition of sale or lease.

The bill allows the Secretary to acquire from FmHA borrowers who cannot repay their loans conservation, recreational or wildlife easements on land which has been in crops but is classed as wetland, upland or highly erodible. In return, the Secretary could cancel part of the borrower's debt. Also, the bill gives the Secretary discretion to make loans to distressed FmHA borrowers who plant softwood timber crops on marginal farmland which is security for their existing loans. The new credit would reamortize the old loans, would be limited to an overall total of 50,000 acres, and would be repayable when the timber produces revenue or within 45 years. The bill requires a study of procedures used by FmHA for farmer appeals when loan applications are rejected, and a further provision creates a new, speedier appeals system using informal meetings. Other amendments require FmHA to process loan applications within 60 days, to provide funds on approved loans within 15 days, and to continue the agency's Small Farmer Training and Technical Assistance Program. Also, when FmHA or Small Business Administration farmer-borrowers are foreclosed or bankrupt, the agencies would have discretionary power to allow the borrower to

remain in his home as a renter for at least 3 years.

Research (title 14): the research section includes a 5-year extension of funding authority for agricultural research and extension programs, and a number of new research priority guidelines.

Among other items, the bill authorizes a 3-year program of special grants for educational and counseling programs to develop income alternatives for producers who have been forced out of farming by economic stress. It also directs the Secretary of Agriculture to develop appropriate controls on the development and use of biotechnology in agriculture. The bill also includes a provision urging USDA to emphasize, in its research and teaching programs, new technology suitable for small and moderate-sized farms. The Secretary of Agriculture would be directed to report on the feasibility of more complete studies of the relationship between diet and blood cholesterol in humans, and dietary calcium and its importance in human health and nutrition. The bill allows the Secretary to make cooperative, cost-sharing agreements with private agencies, organizations or individuals to develop new agricultural technology, authorizes research on new uses for farm and forest products, and directs the Secretary to conduct demonstration projects on the development or commercialization of crops that would supply strategic industrial products. Federal agricultural research funding authorizations would be extended through 1990 with fiscal 1986 ceilings including $600 million for Federal activities, $270 million for contributions to cooperative research in State experiment stations and $370 million for contributions to cooperative extension programs in States (with $10–$20 million annual increases in following years for the three programs), and $7.5 million annually for aquaculture research.

The bill authorizes competitive research grants at a level of $70 million for the period covered by the bill and for grants and fellowships for food and agricultural sciences education at an annual level of $50 million. It authorizes the Research Facilities Act for the period covered by the bill at a level of $20 million with a Federal-State matching provision for facilities at State cooperative institutions. It authorizes $25 million annually for animal health and disease research. It also authorizes permanent extension funding for the historically black "1890" colleges and universities and $10 million annually for 5 years for extension facilities at these institutions. The bill creates a new program of agricultural productivity research with demonstration projects to run for at least 5 years and, if practicable, 12 to 15 years.

Food assistance: The food program section of the bill extends the Food Stamp Program for 5 years, including the program for Puerto Rico which operates on a cash basis, improves some program benefits, and requires all States to set up special employment and training programs to help move jobless stamp recipients onto payrolls. The bill also extends for 2 years, through fiscal 1987, the Temporary Emergency Food Assistance Program authorizing distribution of Government surplus foods to the needy.

Among the food stamp changes were steps to increase work incentives by establishing a separate child care deduction and revising the earned income deduction, both of which are used in calculating stamp benefits; changes in asset limitations to make the program more accessible to working poor and elderly households; an increase in the excess shelter cost deduction, and action to strengthen program accountability and management.

Other food assistance provisions in the bill would extend the Commodity Supplemental Food Program for women and young children for 5 years and broaden the program to serve elderly persons in cases where this would not deny benefits to women and children. The bill also would authorize increased nutrition education for low-income people and strengthen current efforts to monitor nutrition of low-income people.

Other provisions (various titles): The bill provides that in order to prevent damage to older gasoline engines on farms, the Environmental Protection Agency must not reduce the lead limit in gasoline to below 0.1 gram per gallon until January 1, 1988. In the interim, the Agriculture Department and EPA would study the need for lead in engines, completing the study by January 1, 1987 and reporting within 6 months on whether it would be appropriate to modify future general lead-limit rules in the case of gasoline used for farming purposes.

H.R. 2100 modernizes the Federal Virus-Serum-Toxin Act, a law which regulates veterinary biologics, to give the Agriculture Department control over intrastate as well as interstate sales (giving producers of intrastate products up to 4 years to comply with Federal regulations), but would allow States which have effective regulatory systems to retain them. Another provision bans imports of Flue-cured or Burley tobacco which does not pass U.S. pesticide residue tests used for American-grown tobacco. Also, the bill directs the Agriculture Department to continue random checks to determine if imported Canadian potatoes meet U.S. standards.

The bill revises standards for the humane handling of animals by research facilities, dealers and exhibitors. It directs the Secretary to develop standards containing minimum requirements in areas including housing, feeding, shelter, veterinary care, and experimental procedures that minimize pain and distress.

Other sections include: A ban for a total of 5 years on price supports and certain other farm benefits for persons convicted of growing or storing controlled substance drugs; a directive to the Secretary to conduct a pilot project under which wheat, cotton, feed grain and soybean growers in at least 40 counties would test a program of using futures or options markets to protect their incomes (with participating producers assured by the USDA that their returns could not fall below support loan levels); a requirement that tobacco importers, in addition to reporting the country of origin of the product, must also identify the intended U.S. purchaser; and a provision authorizing watermelon producers to adopt a checkoff program to finance research and promotion.

Also included are provisions to: Require the Secretary of Agriculture to give 60 days notice to the Senate and House Agriculture Committees before he acts to terminate marketing orders for nonprice supported crops; extend the life of a food security wheat reserve; require the Secretary to designate three administrative areas for the selection of community Agricultural Stabilization Committees in all counties with some exceptions such as in counties with less than 150 farmers; require the Secretary to control grasshoppers and Mormon crickets on Federal rangeland; and make all rural utilities eligible to borrow from the Rural Electrification Administration also eligible to borrow from the Banks for Cooperatives of the Farm Credit System (at present, eligibility is restricted to co-ops with a specified minimum of farm or aquatic producer-members).

Mr. Speaker, I reserve the balance of my time.

Mr. MADIGAN. Mr. Speaker, I yield 2 minutes to the gentleman from Oregon [Mr. ROBERT F. SMITH].

Mr. ROBERT F. SMITH. I thank the gentleman for yielding me this time.

Mr. Speaker, I wish to congratulate the chairman and the ranking member for this outstanding bill.

Mr. Speaker, back in the spring, when this House began work on this bill, I joined with my committee colleagues in setting out goals for the bill which we were responsible for construction.

At that time, we summarized the task. We said, "This Nation needs a workable, creative, and realistic blueprint for the survival of American agriculture."

My support for this bill is a declaration of my belief that we've achieved our overall purpose, and we've come as close as is legislatively possible to the five goals we set for ourselves.

They are these: One, to provide an effective farm policy which is budget responsible. At $52 billion for those of you concerned about the budget, this is billions less than a freeze.

Second, to recapture American agriculture's competitive edge in world and domestic markets. Today, American agriculture will be first, not last, when we craft foreign trade policy, and we have given the Department tools such as the bonus bushel to bring us back into the competitive world market we need.

Third, to create a bridge from Government domination to an improved marketplace. This is a transition bill. We will ratchet away from farming the Government, again, to farming the

marketplace as we all want in this country.

Fourth, to recognize profitability as a key element in the long-term stability of American agriculture. There is a safety net in this bill. We did not cut the legs from under agriculture in America, but we did provide a method of a safety net to allow American agriculture to prosper in the next 5 years.

Lastly, to guarantee American consumers a plentiful and stable supply of nutritious food and fiber products. Certainly, the best deal in the world is for the American consumer. Less than 17 percent of disposable income is used in this country for the purchase of food; by far and away the best deal in the world.

Mr. Speaker, creating a 5-year farm program is a congressional duty that must occur without a guarantee of future precision. It must be policy capable of withstanding gale-force winds of economic and natural influences outside this committee's control.

With all of our influence and power, Congress still can't control the weather. We can't control the crops. And we have no crystal ball to predict the successes of our export incentives.

In other words, there is no precision in this business. There is only the promise that, if Congress follows through on its own promise to reduce the deficit, bring down high interest rates and deflate the strong dollar overseas, this bill will successfully stabilize the American farm community and begin to lead it away from the Government trough.

Some wanted a farm bill that would pull down the curtain of subsidies immediately. This is not that bill. I can safely say that no member of a congressional agriculture committee, neither Republican or Democrat, House or Senate, is willing to pay the awful price of an immediate end.

That price, at a minimum, would be bankruptcy for one-third of America's farmers and a permanent loss of production and markets to foreign competition.

The bill we've created depends heavily on the use of export markets to replace Government subsidies to American farmers in the future. And well it should. Throughout the history of this country, the one consistently bright spot in our balance of trade has been our farm production.

Unfortunately, we lost sight of that for a while. The United States was virtually the only postwar nation on Earth with all of its farming, manufacturing and industrial complexes still intact.

We were so enraptured with exports of hard goods and with America's market leadership over the last four decades that we began tinkering with the foundation of it all, farm exports.

Today, we are nothing more than another competitor in world markets—and one with a bad reputation and expensive products, at that. Hard goods—everything from cars to computers—today come from many places with softer currencies, and many farm products come from more reliable sources.

We need this entire Government to think first about the trade of American farm products. America's market advantage comes from the farm. We must never forget that.

If we keep that in mind, this bill will successfull ratchet down Government's intrusion on the market-oriented farm economy that we need for long-term success of the American farm community.

We've created export incentives to help and we've created the tools that will make it work. They include a strong conservation reserve program encompassing some 40-million acres; a solid new control on marginally productive and fragile croplands; a workable dairy program that will help dairymen without hurting the red-meat producer; and commodity programs that maintain a delicate balance between competing commodities.

The entire package comes together in a 5-year plan that continues to provide the American food consumer with stability of product and price.

Just as importantly, it takes into consideration the fact that the American farm family is a consumer as well as a producer. We can't ever forget that once they've provided the rest of us with food, they must be able to afford it, as well.

Colleagues, this is a good bill, certainly as good as any this Congress is capable of creating.

If you join me today in approving this plan, and join me in the future in cutting our national deficits and the interest rates which will fall with the debt; if you help me keep the wolves away from the door of our farm credit system and join in promotion and nurturing of our farm exports program, I assure you right now that this is the best farm policy offered by Government in generations.

I urge your vote in favor of passage of this bill.

Mr. DE LA GARZA. Mr. Speaker, I yield 2 minutes to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. I thank the gentleman for yielding me this time.

Mr. Speaker, I rise in reluctant opposition to this conference report. For nearly 1 year, my colleagues and I on the Agriculture Committee have worked countless hours to produce a new omnibus farm bill, and I have the deepest respect for the efforts of the chairman and our other colleagues to produce the compromise we have before us.

Unfortunately, what American farmers need is not a compromise. American farmers need a program which is bold, which breaks new ground, and which will lead us and our farmers out of this morass. As we started this process so many months ago, American farmers said they wanted a change in policy, but instead, they are basically getting the same old tired programs.

The conference report has three main problems, particularly with the grains.

First, most importantly, the bill offers no realistic promise that commodity prices will improve; indeed, they will fall.

Second, in large part, prices will stay depressed as surpluses will continue to build because the bill will not lead to an effective surplus control program. It leaves too much discretionary authority in the hands of an administration which has indicated it will not act aggressively to bring production into line with demand.

Third, the bill provides benefits indiscriminately. The largest producers will reap most of the limited Federal dollars we have to spend because this measure makes no mandatory effort to target income supports to the small- and medium-sized family farms which should be the focus of Federal agricultural policy.

A little less than 1 year ago, the administration came to the Congress with a bill decimating farm programs, and sure to decimate farm income. Rejection of that proposal was loud, swift, and conclusive from both sides of the aisle. In the House, we held the line and stood firm through this time of crisis. But today we have before us a bill very much like the one the President and his Agriculture Secretary saw pronounced dead on arrival last winter. That product is due in large part to the fact that the long shadow of the President's veto pen hung over the other body as it worked and over the conferees as they met so tirelessly.

However, when I go back to Kansas I cannot stand in that shadow. I will have to face my farmers in the harsh light of my vote today. While there are some provisions and particularly the conservative section, the question is not between this bill or no bill, it is between this bill and a better bill. I think we could have, indeed should have, produced a better bill for our farmers and I cannot endorse this program with my vote. We will be back.

Mr. MADIGAN. Mr. Speaker, I yield 4 minutes to the gentleman from Kansas [Mr. ROBERTS].

Mr. ROBERTS. I thank the gentleman for yielding me this time.

Mr. Speaker, for the better part of a year now, we have been involved in an effort to write a new farm bill or, better put, after months and months of hearings and hard work and so many choices between a rock and a hard place, I think perhaps that effort

would be better described as a gauntlet.

Mr. Speaker, we have held quorums, we have held hearings, we have held listening tours, we have sat on a wagon tongue, we have figured, studied, penciled out, discussed and cussed virtually every farm proposal from shutting down the ASCS office to instant parity as of yesterday.

In the meantime, the adversity in farm country continues and hard-pressed farmers and ranchers have not so patiently been waiting, and we have been forced to go ahead with our cropping plans with no farm bill.

□ 1220

Our difficult but necessary challenge has been to somehow address the adversity we are going through and still keep this farm bill within the budget limitations that we enacted in this Congress.

Does this bill meet all these requirements? No, it does not. It is not the best possible farm bill. It is, however, the best bill possible when we look at all the problems and the difficult circumstances we face.

This is not the farm bill that PAT ROBERTS would write, nor any member of the Agriculture Committee on the Senate or the House side. But again, Mr. Speaker, I believe it is the best bill possible under these very difficult circumstances. It is time to pass this bill.

Now, there will be those who will say with great passion that we have not done what we should do in terms of protecting farm income, yet compared to the proposal that was first advanced when our Republican Members sat down with David Stockman, this bill is absolutely generous.

The other side of that story, Mr. Speaker, is that the budget restrictions we are operating under did not come from the administration; they came from the budget, passed by a majority in this House months ago, some of them the very Members who are now doing the criticizing.

To all of my colleagues who now worry about the cost of this bill let me say that these cost predictions are guesstimates at best. Time and again I have asked the so-called budget experts how they can predict the weather, trade policy, interest rates, value of the dollar, embargoes, crop yields, and all the rest that goes into it that will affect the cost of this bill. However, the cost of not acting in terms of the adversity that we are going through in farm country will be far greater.

More to the point, as we become market competitive, which this bill will enable us to do, the farmer is made whole to the best of our ability to do that. So, my friends, in terms of the future obligations that would be incurred if we did not pass this bill, these figures will look very small in comparison.

I know that within minutes of the passage of this farm bill there will be people on both sides of the aisle who will do a lot of criticizing. I do not know who I have been more irritated with during this yearlong process, the administration for dragging its heels and poisoning the well or those who always prefer an issue to a bill. Let me tell my colleagues that I do not have of any farmer who can take an issue to the bank and countersign it.

Maybe I am a little touchy on this subject. Maybe it is because we have gone through a year of frustration and agony, and yes, even anger. Maybe it is because I lost the initiative that I worked very hard for, although it is now discretionary in this bill. But I say to my colleagues, do not stand there and criticize this bill and cast a reluctant vote against it when it was your budget, a budget that I did not vote for, that put us in this straitjacket. And if you voted for Gramm-Rudman, which a great many of us voted for—I did not—and you exempted eight or nine programs out of that budget process, and you are going to put us in that straitjacket as of next spring, I think, when you say, "Well, we just don't have a bill," that the administration simply held that heavy sword over it, that is demagogery at best.

There doubtlessly will be an emergency bill this spring. This bill gives the Secretary of Agriculture unprecended discretionary authority. All of us have an obligation to work with him not only to pass this bill but to implement that policy in the best interests of producers. In other word's you'll have your chance to put up political hay but we had better get the harvest such as it is in first.

We need the bill. We need this bill to stabilize land values and to keep the FDIC off of our backs. We need a bill. I urge a yes vote.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to our distinguished colleague, the gentleman from Michigan [Mr. TRAXLER].

Mr. TRAXLER. Mr. Speaker, I thank the committee chairman, the gentleman from Texas [Mr. DE LA GARZA], for yielding this time to me, and I rise in unenthusiastic support of the conference report.

I commend the conferees, must especially the distinguished chairman of the committee. There is no question that this was their best effort, in spite of President Reagan's attempts to demolish the traditional farm price support programs.

Mr. Speaker, I rise in unenthusiastic support of the conference report on H.R. 2100, the Food Security Act of 1985. I am unenthusiastic about this conference report because it does not represent, in my view, the best possible policy for American agriculture. Rather, it represents the best that we are going to get.

There should be no question among our colleagues about the vital importance of the American farmer. We need the farmer so that we can continue to have an abundant food supply.

But if we want the farmer to continue to be productive, we should be willing to consider his and her need for a reasonable standard of living, and a return on the investment in the farm. In the name of budget austerity and as a precursor of Gramm-Rudman, we don't do that with this farm bill. And the fact that the White House and administration officials, including the Secretary of Agriculture, were so involved with the details of the conference on this bill makes me very suspicious of its value to agriculture over the next 5 years. Remember, this is the administration that effectively proposed the termination of farm price support programs when the President proposed his farm bill last spring. He even proposed abolishing the domestic sugar program.

I am very pleased with the sugar provisions of the bill. It continues a program that I have worked for so hard throughout my years in Congress, and one which will continue to help to provide a measure of stability for my farmers in the years to come. I am also very pleased that the House conferees agreed in principal with a Senate provision that directs the Department of Agriculture to modify its policy on import quotas so that we can continue to run the sugar program with no cost to the Government. This provision is very similar to a directive I sponsored on the fiscal 1986 continuing appropriations resolution.

The dairy provisions represent somewhat of a midpoint between the original House and Senate provisions. There is no question that the dairy farmers I represent would be much happier with the dairy program that was passed by the House as part of the farm bill, but this is one of those cases where the program had to be modified to meet the President's objections or be vetoed.

The dairy program will have the price support level frozen at $11.60 per hundredweight until January 1, 1987. At that time the support price drops to $11.35, and drops again to $11.10 on October 1, 1987. There will not be a paid diversion program initially, as the House had proposed, but the whole herd buyout provisions will be in place for 18 months, subject to the issuance of regulations by the Secretary of Agriculture. The buyout is financed by a producer assessment of 40 cents per hundredweight, which drops to 25 cents on January 1, 1987, and ends in October 1987. Support prices will continue to drop by 50 cents per hundredweight each year beginning in 1988 if the Secretary determines that Government purchases of dairy products will exceed 5 billion pounds. Standby authority for a paid diversion program is retained in the conference agreement. I believe we could have done better but for the administration's opposition.

The wheat and feed grains program also offers us a farm program that's been put

through the thrasher. Target prices will be frozen at $4.38 per bushel for wheat and $3.03 for corn for 2 years, and begin to drop in 1988. Deficiency payments made as a result of these target prices will be limited to $50,000. Loan rates will be set as a percentage of the average market price for 3 of the past 5 years, dropping the high and low price years, similar to the program approved by the House. Farmers will be required to set aside land in order to be eligible for these programs if surpluses exceed 1 billion bushels of wheat and 2 billion bushels of corn.

But there is a cautionary note at this point. The Gramm-Rudman provisions will take effect soon, and there is a strong danger that farm price support levels will have to be cut even more to meet the mandates of Gramm-Rudman. However, any farmer who signs a contract with the Government by February 1, 1986, should lock in the price support levels specified in the 1985 farm bill conference report today. The agreement on Gramm-Rudman states that:

Payments and loan eligibility under any contract entered into after a sequester order has been issued for a fiscal year would be subject to a percentage reduction.

The President is supposed to submit his first round of spending cuts on Gramm-Rudman on February 1. It is essential that farmers make their decisions quickly, and sign up for the program to lock in these amounts.

Mr. Speaker, I want to do what is best for the farmers I represent. I have come to the conclusion that the approval of this conference report is better than having farmers continue to wonder what our farm programs will be if we do not approve this agreement. I will continue to take the counsel of the farmers I represent, my best advisers.

In order to give the American farmer some certainty for the days ahead, and with the knowledge it was the best possible in the face of a Presidential veto. I urge my colleagues to approve this conference report on the 1985 farm bill.

Mr. DE LA GARZA. Mr. Speaker, I yield 2 minutes to our colleague, the gentleman from Iowa [Mr. BEDELL].

Mr. BEDELL. Mr. Speaker, these are very difficult times for me. As I meet here on the floor of the House and as we meet in our conference and as we have our ties and suits on and talk about these issues, I then go back to my district and I see the pain that is there, and I see the good farmers who have always been recognized as leaders in their communities now facing the threat of bankruptcy. And it is not just the farmers, it is the small business people, it is the towns, and it is all of our area.

And let me say, Mr. Speaker, that if anybody here thinks we can have that pain only exist in our rural areas, they do not know what our country is like. I think we are going to feel it across the country.

In my opinion, this bill does not adequately address that problem. The farm bill as it came from the House Agriculture Committee would have strengthened farm income, and that is what we need to do in our area.

The administration opposed many sections of that bill and indeed opposed many of the efforts in our conference committee. With a veto threat constantly held above us, they wanted more and more to cut back on what could be done. But thanks to the efforts of the House members of that conference committee, let me say that this bill is a lot better than it would otherwise have been.

I want to commend the chairman of the Committee on Agriculture, the gentleman from Texas [Mr. DE LA GARZA], I want to commend the gentleman from Illinois [Mr. MADIGAN], and I want to commend all the conferees, be they Republican or Democrat. As I sat in that conference committee, let me say that there was no partisanship on the House side of the aisle. We held together and tried to do more for our farmers, but time and again the Senate side and the administration would prevail. The other body would carry water for the administration, and the leadership over there on the majority side would vote as a bloc and block what we were trying to do.

I am sorry that this bill is not better than it is for our farmers, but I do commend the Members who were in that conference, and I do say to all the world that this bill is not nearly as bad for our farmers as it might have been without the work of the House conferees, both Republicans and Democrats, in that conference committee.

Mr. MADIGAN. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. CRANE].

Mr. CRANE. Mr. Speaker, I thank the gentleman for yielding time to me.

As a House conferee representing the Committee on Ways and Means, there were some points contained in this legislation that really did violence under our rules to the jurisdiction of the Ways and Means Committee. All of those were resolved with one exception. The one exception has to do with the Sugar Program. Under the legislation introduced by the other body to this farm bill we have an unfortunate situation now contained in title IX that really has the effect of imposing vastly higher tariffs on sugar imports into this country. If you go to the objectives of this legislation, namely, to provide for agricultural exports, among other things, I think there is a potential with that kind of protectionism in this legislation for retaliation against other agricultural exports.

In addition to that, the other objective is to assure consumers an abundance of food at reasonable prices, and what we are going to witness with this provision in title IX is an escalation of the cost of sugar to the American consumer. It is unfortunate that that occurred. As I say, it came from the other body, and we were not able to get it removed in the conference. However, I have assurances from our colleagues here and from the distinguished committee chairman that perhaps we can at least minimize the impact of it legislatively next year.

I do not want to raise objection to all the good work of the conferees from the House side, but I did want to express my objections to what our colleagues in the other body did to flaw an otherwise basically good bill and one that represents many conscientious efforts by distinguished Members in this Chamber.

Mr. Speaker, I rise in opposition to the conference report on H.R. 2100, the Food Security Act of 1985. Specifically, my greatest concern centers around section 902, the prevention of sugar loan forfeitures.

As a conferee from the House Ways and Means Committee, I raised an objection to this specific section on two separate occasions during conference proceedings. Since the section in question had trade ramifications, I warned the other conferees that I intended to raise a point of order on the floor of the House if my concerns were not addressed. Compromise language was drafted to alleviate my concerns with section 902 and I was assured that this language would be substituted. During a unanimous consent request to waive points of order against the farm bill conference report, I was again reassured that my concerns had been taken care of, and therefore, I did not object to the request. Subsequently, my legitimate concerns with section 902 were disregarded and the original language remains in the conference report.

It was not my original intention to attempt to derail the entire conference report over one section, however, the repeated lack of any consideration to what I believe are legitimate concerns is extremely distressing. It has always been my understanding that the U.S. legislative process was structured so that the concerns of the minority would also be addressed.

With respect to the serious shortcomings of section 902 as it now stands, let me begin by outlining the existing Sugar Program in the United States. Excess production characterizes the world sugar economy, and sugar stocks are estimated at more than 50 percent above normal needs. World production is expected to continue to increase slightly despite low prices. The price of raw sugar in the world free market has averaged less than 5 cents a pound, the lowest in 15 years. Since passage of the current Sugar Program—1981 farm bill, U.S. imports have been limited to roughly half of their traditional level in order to prop up the artificially high U.S. price—about 22 cents a pound.

The means by which high U.S. prices are protected is an absurdly convoluted process established to please a limited domestic sugar growers industry. Section 902 is an attempt to further shore up these domestic price supports by increasing import restric-

tions on foreign sugar. Section 902 specifically requires the Secretary of Agriculture to "operate the Sugar Program established under section 201 of the Agriculture Act of 1949 (7 U.S.C. 1446) at no cost to the Federal Government by preventing the accumulation of sugar acquired by the Commodity Credit Corporation [CCC]." Existing provisions provide that excess sugar may be forfeited to the CCC in lieu of payment on outstanding sugar loans. If the Department of Agriculture is mandated to run the Sugar Program on a no-net cost basis, as prescribed in section 902, then a nonaccumulation of sugar would mean no forfeitures of sugar to the CCC. To achieve this end, dramatic reductions in imported sugar would have to be initiated.

U.S. Trade Representative Clayton Yeutter, in a letter to Ways and Means conferees, warns that the provision requiring the Sugar Program to be operated so that there would be no cost to the Federal Government would require the United States to significantly reduce the sugar import quota—the letter is attached. Estimates place this reduction at more than a third compared to 1984–85 quota levels. Such action would also severely limit the discretion of the President to implement this program in a way which best meets our national interest. Many countries would challenge our restrictive import policy, and a drastic reduction in our sugar quota would undermine our efforts to resist new foreign barriers to our own agricultural exports.

Tightening the sugar quota would have a severe economic effect on a number of developing countries, including many of those encompassed in the Caribbean Basin Initiative [CBI]. Our exports to these countries will surely suffer if they cannot export to us. Furthermore, there is speculation that section 902 violates existing international trade agreements.

The impact of section 902 will also hurt the remaining U.S. cane sugar refiners. Their access to raw sugar has already been reduced by over 35 percent since the passage of the 1981 farm bill and, as a result, nearly 3,000 jobs have been lost in this industry. Most refiners are operating on reduced schedules, and at least one or two more may close if the import quota is lowered further. In addition, the high U.S. price for sugar has encouraged substitution by other sweetners, especially corn, which now accounts for over 25 percent of caloric sweetners.

The higher domestic sugar prices caused by section 902 would expand the differential between United States and world prices, which would encourage more imports of sugar-containing products. Since 1981, U.S. imports of sugar-containing products, particularly confectionary products, have increased dramatically. For example, imports of chocolate bars were over 400 percent greater last year than in 1981.

The ultimate loser as a result of the section 902 proposal, however, would be the American consumer. Forced to pay escalating prices on cane sugar and sugar-containing products, the domestic consumer would once again bear the burden of subsidizing a small, specialized industry. Protectionism has never solved our trade problems in the past, and never will in the future. the inclusion of section 902 in the farm bill is conclusive proof that prior attempts to protect the domestic sugar growers through import restrictions were unsuccessful. What makes one think that these additional import restrictions will prove any more successful?

In conclusion, I believe that I have demonstrated that my concerns are indeed legitimate. In an effort to satisfy the special interest concerns of some of the conferees, and to help expedite passage, my substitute language that would have essentially guarded against additional import restrictions was never honestly included in the farm bill. American consumers and exporters will pay the price for this narrow, special interest legislation. It will prove a high price to pay for the marginal political support it is designed to buy.

THE U.S. TRADE REPRESENTATIVE,
Washington, December 11, 1985.

Hon. PHILIP M. CRANE,
U.S. House of Representatives, Washington, DC.

DEAR PHIL: As you proceed to the House-Senate Conference on the Agriculture, Food Trade and Conservation Act of 1985, (H.R. 2100), I want to convey to you our concerns about certain trade provisions of this bill which fall within your responsibilities as conferees from the Ways and Means Committee. For this purpose, I am enclosing a copy of letters already sent by this office to conferees of the Senate and House Agriculture Committees.

Your committee staff specifically asked whether the Administration would be able to implement the sugar provisions of the Senate version of the bill without modifying import restrictions. Under current and foreseeable market conditions, it would not be possible to operate the sugar program at no cost to the Federal Government except by imposing much greater restrictions on imports.

At present levels of domestic production and imports, there is an excess of supply over demand for sugar compared to that necessary to maintain the domestic price at a level that would prevent forfeitures of sugar to the Commodity Credit Corporation (CCC). If the Administration were compelled to operate the sugar program so as to prevent forfeitures and thus avoid cost to the CCC, there would be no way to sustain domestic prices without either increasing the demand for sugar or limiting supplies of sugar. We do not believe there is any likelihood that domestic sugar demand will expand in the near future. Any rebalancing would therefore have to be made on the supply side of the equation. There is no authority to limit domestic sugar production. Therefore, the sugar program could not be operated without cost to the CCC without imposing much more severe reductions on sugar imports, a step that would raise serious legal and trade policy problems.

Sincerely,

CLAYTON YEUTTER.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to our distinguished colleague, the gentleman from South Dakota [Mr. DASCHLE].

Mr. DASCHLE. Mr. Speaker, I rise in opposition to the bill. I do so knowing full well the difficulty that our ranking member and our chairman had in coming to an agreement.

We are told that this bill is a freeze, but I have to say that the only freeze I see is that farmers are frozen out of a decent income and a higher price. Frankly, I do not know how we are going to be able to go home and tell those farmers who are now facing this long, cold winter what they must do in light of the fact that for the next 4 years they are going to see a reduction in income and a reduction in price.

All we can do is to voice our opposition loudly and clearly this morning. All we can do is to insure that they know that the fight goes on, and that at long last at one point in the future we will realize the importance of the family farm, realize the importance of a good, solid return on investment, and realize what an important element in our economy they all are.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Nebraska [Mr. BEREUTER].

Mr. BEREUTER. Mr. Speaker, I rise in support of the legislation, and I wish to commend the conferees for their efforts.

Mr. Speaker, I rise today in support of H.R. 2100—the 1985 farm bill. I do so, however, with several reservations—especially to the commodity programs for wheat, feed grains, and soybeans which I will address in a minute.

It is easy to vote against a farm bill for political posturing. Some politicians never will vote "aye" no matter what might be in a farm bill; they make a career of saying, "It wasn't good enough." However, the only responsible vote for a member of this house or the other body is "aye." What, I ask is the alternative? Can you imagine the chaos that would result if Congress adjourned without passing a farm bill? The impact on the farmers and ranchers of facing that possibility as they try to secure loans and plan their 1986 farm year would be devastating. If we do not pass this farm bill now, every astute observer of Capitol Hill farm politics knows a bill crafted in 1986 will be far less generous and far too late.

As a conferee on the trade title of this legislation, I can report to my colleagues that this was a long, difficult and tedious conference. I commend the members of the Agriculture Committee and especially the chairman of the committee, Mr. DE LA GARZA, and the ranking minority member, Mr. MADIGAN, for their patience and perseverance in trying to craft a farm bill that will effectively address our Nation's farm problems within the fiscal restraints that exist.

There continues today to be great frustration and uncertainty in rural America about our agricultural crisis and Congress' inability to adequately correct it. As a member who represents farmers, cattlemen and a congressional district largely dependent upon agriculture, this bill will determine the future for thousands of my con-

stituents over the next several years. I share with my colleagues who are members of the Agriculture Committee their uncertainty about this farm bill and their frustration in trying to build a consensus for new directions in policy.

If our agricultural problems stemmed for a single source, it would be much easier to select the right solutions. Unfortunately, the major dilemma that exists today in agriculture is the multitude of problems which confront us: High interest rates, declining land values, low commodity prices, and an archaic Tax Code, dwindling export markets, foreign agricultural subsidies, the high value of the dollar, and many others. All are separate concerns, yet all have interrelated effects; and they must be addressed in a coordinated fashion to effectively provide a bright future for American agriculture.

Today, we consider the conference report on the 1985 farm bill. There are some who consider omnibus farm legislation to be the trough at which American agriculture depends for sustenance. There will be Members who criticize this farm bill because it does too much and because it is too expensive. There are many others who criticize this farm bill because it does not do enough. Where this farm bill is deficient, however, is not in the scope of its assistance, but the depth of its innovation and direction for the future.

In the past, agriculture has generally relied on the farm bill as the sole means of addressing our agricultural problems. However, it should also be considered an opportunity to lay down long-term policy goals for where we want agriculture to be in the future, rather than a short-term reaction to the fundamental problems which are symptomatic of agriculture. In addition to establishing a sound policy foundation for agriculture, this farm bill should also complement other legislation which this Congress has passed this year that also addresses fundamental problems in agriculture.

Aside from the farm bill, Congress has legislated many reforms this year which will chart a new course for agriculture for the rest of this century. For example, the tax bill which we passed yesterday will bring about major changes in the Tax Code that have a positive effect upon agriculture. While I objected to the rule under which that legislation was brought to the House floor, I made public my intention to vote for it because, in general, it is a beneficial step for Nebraskans and most American individual taxpayers. Accordingly, I voted against the motion to recommit it to committee and cast an oral vote for its passage.

For too long the tax code has enticed nonfarm investment in agriculture by those who are not reliant upon agriculture for a living but who instead farm the Tax Code for tax shelters. This type of investment has encouraged overdevelopment and overproduction in agriculture at the expense of traditional family-owned and family-operated farming operations.

The Export Administration Act which we passed earlier this year will also have positive and very crucial results for American agriculture. During the last 12 years, agriculture has borne the brunt of four major trade embargoes. These embargoes have cost U.S. farmers billions of dollars in lost exports and seriously impaired the credibility of the United States as a reliable trading partner. The Export Administration Act will curb the administration's prerogative to blatantly misuse grain and food embargoes as a tool of foreign policy and send a strong message to our trading partners that the United States is a reliable supplier of agricultural products.

I was pleased to successfully lead the fight for anti-embargo provisions and for contract sanctity through my membership on the Trade Subcommittee of Foreign Affairs and as a conferee on this farm bill.

Congress will also later today address legislation that will restructure the Farm Credit System, this Nation's largest agricultural lender. While this legislation is only the first step in addressing the debt crisis in agriculture, it is a necessary step to insure the future financial solvency of the Farm Credit System and, therefore, most importantly loan funds for farmers and ranchers at competitive rates.

Finally, to address the crippling effect that Federal deficits and high interest rates have had on agriculture, Congress has finally adopted serious deficit reduction measures. The Gramm-Rudman-Hollings deficit reduction package will impact agriculture in several ways. While this measure will force equal restraints in defense and domestic programs, including agriculture—which I will address shortly—it will have a positive impact on agriculture as it is effective in reducing the deficit and lowering interest rates for farmers and ranchers.

All of the legislation which I have just mentioned is in many ways progressive, innovative, and positive for agriculture. However, while these measures will compliment the 1985 farm bill, they alone cannot be a substitute for an equally progressive and innovative farm bill. Although many sections in the farm bill are certainly innovative, others remain shackled to the worn theories of the past.

To mention the improvements which have been made in this farm bill, I would first like to commend the members of the Conservation and Credit Subcommittee for their work in drafting a conservation title that is long overdue. The sodbuster-swampbuster provisions of the farm bill will discourage the development of marginal, highly erodible farmland which has not only been bad conservation policy, but also bad economic policy. The development of marginal lands has contributed to surplus production, the cost of our farm programs, and the debt crisis of many farmers.

With regard to farm debt and rural development problems, the conference report not only reauthorizes FmHA credit and rural development loan programs, but also requires the USDA to establish a 3-year interest buy-down program under which the Federal Government and commercial lenders will share equally in interest-rate reduction for borrowers of FmHA guaranteed loans.

As a conferee on the trade title of this farm bill, I would also point out that the export of our agricultural commodities was a top priority of both House and the other body. We are all well aware of the decline in our agricultural exports during the past several years; and with it, farm income. While agricultural exports alone will not solve our farm problems, we cannot ignore the importance of the contribution they make to our farm economy.

The reasons for the decline in our agricultural exports is due to a number of factors. One is certainly the high value of the dollar. Another is the predatory trade practices and subsidies of our foreign competitors. Increased world production has also taken its toll on U.S. exports.

The trade title of this farm bill is the best ever passed by Congress. It invigorates the competitiveness which has long been the trademark of American agriculture and has made it our Nation's largest exporting industry. In addition to reauthorizing existing commercial export promotion programs, the conference report requires the USDA to use at least $2 billion of CCC-owned commodities over the next 3 years to counter unfair foreign trade practices and recapture markets lost to foreign subsidized exports to create new business opportunities for American farmers.

The food assistance title, for which I was also a conferee, is also the best for American farmers—and recipients—that Congress has ever passed. For the impoverished regions of the world that need our assistance, this bill reauthorizes and restructures many of our food aid programs to better target and utilize our food aid dollars. While some may criticize spending money for foreign assistance at a time when U.S. agriculture suffers, I would point out that many nations which were once recipients of Public Law 480 donations are now large commercial purchasers of U.S. agricultural commodities.

Furthermore, the extent and application of cargo preference requirements, an issue which has been terribly divisive in this Congress, has been moved to a compromise and away from all-out counterproductive warfare. Both the House and the other body have been embroiled in this controversy since earlier this year when a U.S. district court ruled that cargo preference was applicable to the USDA's blended credit program. I am not happy with the compromise insisted upon by conferees of the other body, but after several days of negotiations and debate in conference, an agreement was reached in which all commercial export promotion programs, including the blended credit and intermediate credit programs, would be exempt from cargo preference requirements. In return, the U.S. maritime industry will be permitted to increase its share of food aid and famine relief shipments from the current 50 percent to eventually 75 percent of such cargoes.

The cost of this additional cargo preference requirement will be allocated to and paid for by the Department of Transporta-

tion. Assurances were also given by conferees from the Merchant Marine and Fisheries Committee during the conference that in the event the additional funding for cargo preference is not actually made available, then the so-called "snapback" provision will not expand cargo preference beyond current law. I am very pleased that our commercial export programs can once again begin to function unencumbered by cargo preference requirements.

The sections of the farm bill I have mentioned are worthy and commendable. There are, however, other sections, specifically the crucial programs for wheat, feed grains, and soybeans, that are the weak link in this farm bill.

It is both unfortunate and unnecessary that we are faced with basically the same warmed-over price support programs that were incorporated in the 1981 and previous farm bills. During the farm bill debate in the House, we had before us options that would have targeted the benefits of these programs more effectively. Unfortunately, they were rejected. Under our current farm programs, farm income has declined at the same time that surpluses and Federal expenditures have increased. Unless we move away from these programs, more of the same will continue in the future.

As we consider this legislation today, I think we should all be cognizant of what might occur during the next year with regard to these programs. Under the target price-loan rate mechanism in this farm bill, farmers will be forced into continued overproduction, surpluses will continue to grow, and the cost of these programs will continue to escalate. Either one, or both of two scenarios are likely to occur. Because of the record domestic carryover of grain and a glut of unprecedented size on the world market, I anticipate that the commodity programs for wheat and feed grains will within a year either collapse under their own weight, or self-destruct under the restrictions of Gramm-Rudman.

Until we move away from programs that attempt to support every bushel of wheat and corn, regardless of whether they are needed or not, we will continue to make ineffective and inefficient use of our farm programs. We will have to eventually target our resources toward our family-owned and-operated farms in a manner that provides them with a decent return on their investment and labor in agriculture.

While I am reluctant to vote for this farm bill because of the commodity programs that I have mentioned, I also recognize that we must continue to move forward. Imperfect as this farm bill may be, responsible national legislators operating in a tight fiscal climate and serving in a Congress increasingly populated by urban-oriented legislators do not have the luxury to pick and choose what programs we like or dislike. If we did, I would not hesitate to vote against the commodity programs for wheat, feed grains and soybeans in this bill. However, if we reject this bill there will be no farm bill and we will have rejected not only the negative, but positive provisions of this legislation.

We would be left with chaos for our farm constituents and for the Nebraska economy. Some Nebraska and farm State legislators may take the easy, politically expedient way out by voting "nay." Fortunately, there are always enough responsible legislators to give them the luxury of an irresponsible vote.

Next year, and whenever necessary thereafter, I am quite willing to address these programs once more. Then, perhaps we will adopt some of the alternative programs which we rejected earlier this year. Several were far more innovative and realistic in moving us toward the goal of a bright future for agriculture.

Mr. Speaker, at this time, I urge my colleagues to vote for the bill.

Mr. MADIGAN. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota [Mr. FRENZEL].

□ 1230

Mr. FRENZEL. Mr. Speaker, I was a bit player in the conference along with the gentleman from Illinois [Mr. CRANE] on a number of trade issues which were satisfactorily resolved, and on the sugar issue which the gentleman mentioned.

I was one of those in the House who supported the House sugar position, although 142 of us did not. The Senate language was much tougher. The gentleman from Illinois [Mr. CRANE] and I were assured that it would be modified. On that basis in the RECORD of November 16 the gentleman from Illinois [Mr. MADIGAN] and the gentleman from Texas [Mr. DE LA GARZA] had mentioned that our objections had been overcome. Mr. CRANE and I then agreed to the unanimous consent request that brings this bill to us.

Apparently the people who assured us that they would take care of this situation were not able to do it. I say with considerable sadness, but no bitterness that I will support the bill, but it will be a long time before I agree to another unanimous consent request from the House managers.

This was a disappointing experience. I know the House managers did the best they could, but I feel they let us down in this case.

Mr. DE LA GARZA. Mr. Speaker, I yield 2 minutes to the distinguished chairman of the Subcommittee on Cotton, Rice and Sugar, the gentleman from Louisiana [Mr. HUCKABY].

Mr. HUCKABY. Mr. Speaker, I thank the gentleman for yielding. I certainly want to thank the chairman and all the conferees for the many, many hours of hard work that went in to bringing this conference report to the floor of the House.

Mr. Speaker, let me urge my colleagues to support this legislation. It is not a perfect bill. Any of us would like to make changes. But it is a good bill.

I would like to address my remarks to cotton, rice and sugar.

In the area of sugar, we basically have a freeze, a continuation of the existing sugar program as is, which will protect American sugar farmers and allow them to stay in business.

For cotton and rice, Mr. Speaker, we are doing something dramatically different that has never been done before with an agriculture bill. We are going to the marketplace. In the last 4 years, we have seen our sales of cotton go from 14 million bales to 8 million bales, with similar reductions in rice, because of the strong American dollar, because of countries subsidizing, because of countries dumping, and we have been paying our farmers to cut back and reduce their production while the rest of the world has been expanding.

We are going to reverse that with this bill. We are going to the world marketplace. We are going to recapture our markets. We are going to see our prices actually go down to begin with, but we are going to pay our farmers this protection, and then we are going to see prices rise once we recapture our markets.

Mr. Speaker, this bill offers hope for the American farmer. I think it offers real hope to allow us to regain our markets, to regain prices, and still with the safety nets that have been provided.

Mr. Speaker, I would urge all of my colleagues to support this legislation.

Mr. MADIGAN. Mr. Speaker, I yield 2 minutes to the gentleman from Vermont [Mr. JEFFORDS].

Mr. JEFFORDS. Mr. Speaker, I rise to talk a bit about the dairy provisions of this bill. They are important provisions.

The dairy program will largely rely upon the concept of a whole-herd buyout.

There will likely be many people who will take the responsibility for being the father of the whole herd buyout concept. I am not entirely sure, however, that I want to have that dubious distinction, but I do with respect to this bill and therefore have a duty to explain to you what it means.

Dan Hollingsworth of California has promoted this concept. He is an example of the dairy farmers who have again come forward and said, "We are willing to pay for another supply management program. The milk diversion worked last time. Although we are not going to repeat that program, we have a better one. If we can get enough farmers to voluntarily sell their herds to the Secretary of Agriculture, then we can reduce milk production without having to put farmers through bankruptcy. Remember that for every dairy farmer that we can get to go out of business voluntarily, we save four from the spate of bankruptcies that would occur if we were to get our herd

size down through price reductions alone.

I must however, point out that we have put all of our milk in one bucket in this instance. If the whole herd buyout fails because enough farmers do not take advantage of it, then dairy farmers will face annual price cuts until such time as we have reached a supply and demand balance.

The success of the program will depend, first, upon the Secretary of Agriculture; he must make the program work. Second, its success will depend upon the farmers themselves, for they must take advantage of it.

We have a little insurance in the bill, good faith insurance, that says that the Secretary must run a good program, because if he does not, he loses his price cut authority in the out years.

It is with confidence, however, that I stand here and echo the view that this program can and will work. If the enthusiasm that farmers have shown for this program is matched by their participation, the program has every chance of success. If they do not, the program has no chance at all. And the result will be exactly what this program was designed to prevent—the wholesale bankruptcy of dairy farmers, rather than the whole-herd buyout of cows.

We, in Congress, can legislate a good idea, but it will take the farmers to really make it work.

Mr. Speaker, I also want to discuss the bill's food stamp provisions and how they impact on energy assistance and standard utility allowances. This is a complicated issue, and it is one that has generated a surprising amount of controversy.

I approached this issue from the perspective that we, on the Agriculture Committee, had no business changing the Energy Assistance Act. This statute falls within the jurisdiction of the Education and Labor and Energy and Commerce Committees. In taking a position of neutrality on this issue, I think the conferees have recognized that the issue properly falls outside of the Agriculture Committee.

In fact, both the House and Senate have agreed with this assessment, voting as each body did to delete the provisions aimed at overturning the provisions of the Low-Income Home Energy Assistance Act. It is obviously the sentiment of Congress that the courts to date have properly interpreted the provisions of the Energy Assistance Act.

My only hope is that we have not overly confused the issue. I know that the Education and Labor Committee will look at this issue next year, and hope that we will, at that time, be able to explicitly, rather than implicitly, affirm the court decisions on this issue to date.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to the gentleman from Minnesota [Mr. PENNY].

Mr. PENNY. Mr. Speaker, yesterday the St. Paul Pioneer Press & Dispatch carried the headline, "Official Says Farm Bill No Help to Agriculture." And in that article an official of the Farm Credit System in Minnesota was quoted as saying, "We believe there is a financial crisis in our industry, agriculture. We believe farms have more debt than farmers can pay with projected incomes."

He went to say, "The 1985 farm bill which cleared a congressional conference committee on Saturday won't change farm income projections substantially."

Mr. Speaker, farm groups are divided on many issues, but they are united in their opposition to more of the same old farm policy. What we have here, thanks to the Senate and the White House, is worse than more of the same, it is less of the same. We do not need to spend more on farm programs to help agriculture. What we need is a better farm policy that directs its assistance to mid-sized and small-family farms across America.

The President showed positive influence on a good issue, tax reform, yesterday and helped to get that measure passed. But what we need is his positive influence for the right kind of farm policy. Instead he has used his influence to produce a farm bill that will lower farm income and increase commodity surpluses. I'll be voting against this farm bill because farmers deserve better.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the distinguished minority leader, the gentleman from Illinois [Mr. MICHEL].

Mr. MICHEL. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I certainly rise in support of the conference report.

I believe the conference committee has done a pretty darn good job, especially given the time constraints it operated under and given the task it had of fitting the conference report within the budget resolution and a strong Presidential request that farm spending for fiscal years 1986 through 1988 be kept within certain parameters.

They say history repeats itself and certainly that is true with respect to the recent history of House consideration of conference reports on farm bills. On December 16, 1981, we passed the conference report on the 1981 farm bill as our last such action in the 1st session of the 97th Congress. Here we are 4 years later at the tail end of a session with farmers and others anxiously awaiting for word on farm programs that will apply for the 1986 crops and beyond.

Mr. Speaker, during the consideration of H.R. 2100 in the House in September, Mr. OLIN, of Virginia, and I cosponsored an amendment to change the dairy title of the bill. We failed in that effort but I understand that the conference agreement has adopted some of the provisions of the Senate amendment to H.R. 2100 that I sought to include in the dairy title and so I now believe that with those "required" reductions in milk support levels in future years and a "whole-herd" buyout provision, there is a chance of achieving for the first time greater reliance on the marketplace for milk products that will benefit both dairy farmers and consumers.

I am also pleased that the soybean title of the conference substitute remains much as it operated in the last 4 years with a feature to maintain flexibility on loan levels in future years so that soybeans will not accumulate in Government storage and so that U.S. soybeans can continue to compete in world markets but with some protection to producers.

Also, the feed grains title, I understand, is one that corn growers can endorse and support. It provides a farm program giving income support to producers in the next critical 2 or 3 years while moving to a greater market orientation in the last 2 to 3 years of this 1985 farm bill. Meanwhile, I support provisions in this bill that will help corn producers to expand the use of corn products as a gasoline additive and as a good sweetener.

The conference agreement is a massive document that contains many, many technical provisions that only the members of the Conference Committee from the House will be able to explain in detail. However, I have maintained close contact with the ranking member, ED MADIGAN, from my State of Illinois, during the conference, and he advises me that this is a compromise measure that, while perhaps not perfect, is one that we can support. It may require close oversight by the Congress as it is implemented, but that it apparently will continue to provide the loan levels, target prices, and other farm program assistance to farmers that they are in desperate need of in the near term.

Mr. Speaker, I commend my colleague from Illinois, ED MADIGAN, the ranking member of the committee, and Chairman DE LA GARZA, of the Agriculture Committee, for their efforts in shaping this piece of legislation and bringing it to us in a form that I believe will be acceptable to the President. I urge you to support this measure and send it to the President for his signature.

Mr. MADIGAN. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I would be happy to yield.

Mr. MADIGAN. Mr. Speaker, I want to take just a second of the gentleman's time to express my gratitude to the gentleman for his assistance in the last couple days that made it possible for us to get on the floor here today. I thank the gentleman very much.

Mr. MICHEL. I thank the gentleman.

Mr. Speaker, I have said all along that it is absolutely imperative that before we pass the continuing resolution, we pass a farm bill, hopefully a credit piece of legislation to go along with it before the Congress adjourns. I think both sides would be in agreement on that score.

Mr. DE LA GARZA. Mr. Speaker, I yield 2 minutes to my distinguished colleague, the gentleman from Oklahoma [Mr. ENGLISH].

Mr. ENGLISH. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, it had been my hope to be able to vote for this farm bill. Certainly our farmers need desperately for some improvements as far as income is concerned and some hope for the future.

In the past 50 years, our objectives have been to try to keep supply and demand in balance in the hopes that we would be able to assure our farmers that they could receive a reasonable price for their products in the marketplace.

But under this legislation, at the insistence of the President and many of the Members of the U.S. Senate, we are changing that goal. We are accepting a new goal.

The objective is to reduce our prices to still lower levels than we have today, at a time in which we have great financial stress among the farmers of this Nation, while increasing grain surpluses to an even greater level. As far as the wheat and feed grains, we are today looking at the largest surpluses in the history of this Nation and the projections are that they will go even higher under this bill.

I think that is wrong, Mr. Speaker. I think what we need to do is to bring about a balance of supply and demand, to strengthen market prices so our farmers have some hope for the future. But, unfortunately, as I look at this bill, as far as wheat and feed grain farmers are concerned, I simply do not see that hope. I do not see that we are providing the opportunity for our farmers to receive better prices in the marketplace.

For that reason, Mr. Speaker, I very reluctantly will vote against the bill.

In addition, Mr. Speaker, I would like to point out that I was deeply involved in the farm bill conference regarding the cargo preference issue. In fashioning those cargo preference amendments, the conferees made no changes in the threshold concept of U.S.-flagship availability already contained in the Cargo Preference Act. Rather, the amendments in the conference report are based on the understanding that cargo preference continues to apply only to the extent U.S. flagships are "available." I also oppose the cargo preference provisions of this farm bill and provides still another reason to oppose this measure.

Mr. MADIGAN. Mr. Speaker, I yield 2 minutes to the gentleman from Mississippi [Mr. FRANKLIN], a member of the committee.

Mr. FRANKLIN. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I want to also compliment the ranking member and the chairman of the Agriculture Committee for their diligent and intelligent work on this conference committee report, and I firmly support it.

Mr. Speaker, I am vitally interested and my district is vitally interested in the commodities of cotton and rice, and I also want to take this time to commend our chairman of that subcommittee, the gentleman from Louisiana [Mr. HUCKABY], and the ranking minority member, the gentleman from Minnesota [Mr. STANGELAND]. They held firmly committed to getting the best bill possible from the conference and I believe they have succeeded in that effort.

We have done something in this bill that I think is innovative and will help all American farmers. We have not given them everything that they need or everything certainly that they want, but I think for the first time what we have said to the American farmer is that we are going to put the U.S. Government behind you and we are going to make the commodities that you grow more competitive in world markets, in the sincere hope through this effort that your price will rise and that you can return profitability to your operations in the future.

That is basically a statement that I believe the gentleman from Louisiana [Mr. HUCKABY] made earlier concerning the commodities of cotton and rice that are so valuable to my district.

But, Mr. Speaker, what I want to do is to express to all of my colleagues the importance of getting the farmers of this Nation a bill that they can go to their banks with within the next 2 months, get their financial houses in order, make their cropping plans and farm next year. Farmers need a plan and a farm program so that they will know how to make their cropping plans and financial arrangements.

Absolutely, the worst thing that this House could do would be to deny the American farmer that knowledge of what he is going to be operating under and what structure he is going to be operating under next year. Refusing to adopt this conference report would deny farmers the right to obtain financing and reduce efficient production for lack of knowledge sufficient to plan adequately. It would be devastating to our economy nationally, and certainly it would be killing to our agricultural economy.

Mr. Speaker, I strongly urge my colleagues to support this conference report and thereby restore profitability to agriculture in the future.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to our distinguished colleague, the gentleman from Missouri [Mr. VOLKMER].

Mr. VOLKMER. Mr. Speaker, I must reluctantly rise in opposition to this conference report. I am reluctant because I understand and appreciate the time and effort that went into the development of this farm bill, and because I have great regard for my colleagues who support this measure and especially for the work of our chairman whose endeavors are responsible for a bill that is better than proposed by the Administration.

Still, the decision of how to vote on such an important piece of legislation must be made on the merits rather than the amount of time that has gone into its formulation. And while this bill has some commendable provisions, on the whole I find that it fails completely on the issue of concern to so many farmers facing economic disaster—income security.

This bill promises wheat and feed grains farmers one thing and one thing only—lower prices for their products. Farmers who cannot make a decent living today, receiving prices that are lower than their production costs, simply cannot be expected to survive on still lower prices.

The fact that this bill does so little for farmers is sad, and more than a little ironic. When the Agriculture Committee began this long process last year, we had many disagreements on how best to address the problems of American farmers, but one thing all involved seem to agree on was that we needed a new far policy and not a simple rehashing of the current failed system. The agreement before us today continues that basic policy, with lower prices.

I also find it ironic that we are willing to assist the farm credit system—and I am thankful for my colleagues' help on this matter—but we will do nothing under this bill to allow farmers to earn enough to pay their loans.

The central issue of this debate is clear: Does this bill establish a program which ensures Americans an adequate supply of food and fiber at a reasonable price which allows our farmers a fair income?

The answer is equally clear: it does not.

If we adopt this conference report, we are painting a dim future for the American farmer, and we are setting the stage for our citizens to pay a far greater share of their income for food.

Mr. MADIGAN. Mr. Speaker, I yield 2 minutes to the gentleman from Louisiana [Mr. MOORE].

Mr. MOORE. Mr. Speaker, I thank the distinguished ranking minority

member of the Agriculture Committee for yielding to me.

Mr. Speaker, I want to urge my colleagues to vote for this conference report.

I voted for the bill when it left the House over the objections of my administration, and this conference report is far superior to that bill.

Agriculture is the most important industry in my State, and it is in trouble in my State just as it is in yours for all the same reasons that we all share. But my State has also been hit by three hurricanes which have ravaged our crops. I learned something.

□ 1245

I found out that the crops in my State, soybeans and sugar cane, two of the crops in my State, did not qualify for any kind of emergency disaster grant relief that we give to other commodities. This conference report corrects that oversight and now makes that available, and that is certainly good.

Secondly, the administration announced a very high, too high, import quota on sugar coming into this country. I oppose that very strongly. What that is going to mean is that the sugar program that has never cost the taxpayers any money will, which means greater deficits; secondly, it means that we will have greater imports, worsening our trade; and thirdly, it is not a good signal to farmers.

This bill corrects that by saying that has to be taken care of, it has to be operated on a no-cost basis, which probably means the import quota period will be extended for about 3 months to see to it that that does not happen.

Thirdly, for the taxpayers this bill is good, and for the farmers as well, because it begins to move us back to a market-oriented farm economy by the reduction of target prices ever so gradually, when we get out of the current bind we are in, to get to a market-oriented economy once again.

So I compliment the members of the Committee on Agriculture, and in particular my good friend, the gentleman from Louisiana, JERRY HUCKABY, who did an outstanding job, and certainly the chairman and the ranking minority member, for having produced and brought forth a far superior conference report to the bill we all supported, and something we can all vote for in good conscience as being good for agriculture, good for the taxpayers and, therefore, good for the economy of this country.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to our distinguished colleague, the gentleman from California [Mr. BROWN].

Mr. BROWN of California. I thank the gentleman for yielding this time to me.

Mr. Speaker, I rise in support of the conference report on H.R. 2100, the 1985 farm bill. This legislation is the result of months of work by both the House and Senate Agriculture Committees, and stands as a monument to the determination of the Members and staff who have toiled to deal with a very difficult situation in the farm sector. It is not a perfect bill, and I expect that we will have to return to these issues again in the coming months, so deep are the problems of agriculture. We will also have to debate farm policy next year to further cut the agriculture budget under the deficit reduction package we recently passed.

But there are many features of this legislation which are landmark changes and deserve the support of all Members of the House. Many of these programs are the result of years of work by Members and individuals whose vision is being rewarded in this bill.

This legislation makes major advances in our soil conservation programs. It establishes a conservation reserve to retire highly erodible acreage. It even focuses on the problems of western irrigated agriculture with an option for the Secretary of Agriculture to consider soil and water salinity problems in the establishment of a conservation reserve. This provision is one which I am especially interested in and I would like to personally thank Mr. JONES, the chairman of the Conservation, Credit, and Rural Development Subcommittee for holding onto this provision in conference.

This bill, for the first time, links conservation and price support programs, in the "sodbuster" provisions. Under this proposal, farmers who plow highly erodible land must have an approved soil conservation program in place before they can receive farm program benefits. This is a landmark advance in our soil conservation efforts, and Mr. JONES is to be congratulated for getting this program enacted. I would be remiss if I did not also pay tribute to Mr. Thomas Barlow who, in the mid 1970's, first brought this scheme to my attention. That was a time when even mentioning a link between price supports and conservation could get you in trouble, yet Mr. Barlow and other farsighted conservation advocates plugged away on the concept that we are addressing today.

Tucked away in the massive provisions of this bill is the Agriculture Productivity Act which the House passed earlier this year. This act establishes a program of research into sustainable, biological approaches to farming, an area which has great promise for reducing farm operating costs. Mr. WEAVER of Oregon is to be congratulated for his tireless effort over recent years to get this needed initiative enacted. Here again, we are seeing the completion of an initiative which began nearly 10 years ago and has involved the efforts of dozens of farsighted individuals.

I would like to comment on the dairy provisions of this legislation, an area in which I was deeply involved during the House debate on H.R. 2100. Every Member of the House owes a great debt to Mr. COELHO, the chairman of the House Agriculture Subcommittee on Livestock, Dairy, and Poultry, for his work in crafting the legislation before us. Mr. COELHO was faced with a tremendous legislative challenge and rose to the occasion with the skill and energy that we all recognize him for.

The provisions in the conference report should deal effectively with the overproduction in our dairy sector with minimum disruption to dairy producers. This compromise agreement is nearly identical with the approach that I was seeking earlier this year—a price freeze for 1986 with reductions beyond that, combined with a whole herd buyout. The whole herd buyout is especially attractive since it allows those producers who want to leave the dairy business a transition mechanism. Under this proposal, the Government would use funds collected from dairy producers to buy out the entire herd of dairy farmers who want to get out of the business.

I have supported this concept for some time, but due to the parliamentary situation in the House during our debate on H.R. 2100, I was forced to oppose it, hoping to secure a price freeze in the House and get the whole-herd provision in the Senate. The compromise before us had secured the same result, in reverse order, and deserves our support. This provision is also testimony to the energy of one individual, Mr. DAN HOLLINGSWORTH of California, who devised the whole-herd buyout scheme a few years ago and has been doggedly pursuing the idea ever since. It is rare that we see so clearly an issue on which one person has made the difference, and Mr. HOLLINGSWORTH deserves special recognition for his work on the dairy provisions before us.

I am pleased with the research title of this bill and thank Mr. BEDELL and Mr. ROBERTS, the chairman and ranking member, respectively of the House Agriculture Subcommittee on Department Operations, Research, and Foreign Agriculture, for their efforts. The research, extension, and teaching programs reauthorized in this bill hold the promise for agriculture's future and need our support. I am pleased that the conferees have held three issues of importance to me: new crop research, pesticide resistance, and a review of the formula for the distribution of funds for cooperative extension. I wish that the competitive grant program could have been authorized for more than $70 million, given the new tasks that we are assigning to the

program. But its increasing support in a time of austerity is comfort enough to me.

I would like to raise one cautionary note on the matter of funding for research, extension, and teaching in agriculture. Next year, we will be starting the process of deficit reduction required by the recent legislation on that matter. Civilian research is now only about one-quarter of our total Federal research and development budget, down from one-half in 1981. It is extremely vulnerable to this budget cutting process which is occurring at a time of great promise for agriculture research and extension, and a time of great need in agriculture teaching. We must exercise caution in our zeal to find areas for budgetary reduction lest we threaten the future of agriculture in this country.

I would like to take special notice of a major advancement in the humane treatment of laboratory animals contained in the conference report. It is a revised version of the Improved Standards for Laboratory Animals Act of 1985, H.R. 2653, which I introduced in the House, and S. 1233, introduced by Senator DOLE in the Senate. Over 140 Members of Congress cosponsored H.R. 2653, and 40 Senators cosponsored the Senate version.

This legislation is not new; Senator DOLE and I introduced earlier versions of this legislation in the 98th Congress, H.R. 5725 and S. 657. Hearings were held on this legislation in the Senate Committee on Agriculture, Nutrition, and Forestry on July 20, 1983, and in the House Agriculture Subcommittee on Department Operations, Research and Foreign Agriculture on September 19, 1984. The revisions made to the 1983-84 bills were based on testimony given at these hearings.

The intent to title XX is to increase assurances that laboratory animals are treated humanely, while at the same time not restricting scientific inquiry. The legislation amends the Animal Welfare Act, the primary law concerning the care and transportation of animals. These amendments are necessary in addition to the new NIH animal care guidelines since a large portion of our Nation's laboratories do not fall under the NIH umbrella.

I would like to thank the many people who reviewed the various versions of this legislation, provided my office with pertinent background information, and prepared several thoughtful suggestions and critiques for my review. I was especially grateful to the many Representatives, who may have preferred no legislation at all, for their constructive comments and efforts in this behalf. This legislation will be setting new standards in some areas, and I encourage a continued dialog between the research community and the Secretary of Agriculture in regard the needs and capabilities of research facilities in meeting these standards.

I think it would be useful to attach a summary of the legislation at this point:

SUMMARY

Title XX of the Farm Bill would reduce distress and pain to laboratory animals through three approaches:

(1) Strengthen standards for laboratory animal care.—The legislation includes requirements for the use of painkillers and euthanasia, provisions for exercise for dogs, and a physical environment adequate to promote the psychological well-being of primates; requires researchers to give assurances that alternatives to practices which may cause pain and distress to animals have been considered; and allows the Secretary of the U.S.D.A. to set regulations regarding care, treatment and practices in experimental procedures to minimize pain. It encourages humane treatment of animals by requiring research facility employees working with animals to have animal care training once a year. As in the past, the Secretary is not given the authority to make rules, regulations, or orders (except for reporting requirements) regarding design, outlines, or guidelines of actual research. In addition, all standards may be deviated from when the researcher deems it scientifically necessary.

(2) Increase enforcement of the Animal Welfare Act.—The legislation requires each facility to appoint an Institutional Animal Committee, including at least one member not affiliated with the laboratory and a veterinarian. This Committee will be responsible for representing society's concern regarding the care and treatment of laboratory animals, inspecting the facility twice a year and notifying the institutions and appropriate federal authorities of violations. Federal Research Facilities shall also appoint a Federal institutional Animal Committee which will report to the Agency head instead of U.S.D.A. If a facility, given the opportunity to correct violations, does not adhere to the Animal Welfare Act, federal agencies are directed to suspend or revoke funding. The U.S.D.A. Animal and Plant Health Inspection Service (APHIS) would be required to inspect facilities at least once a year, with follow-up visits until violations are corrected. Fines for violators of the Animal Welfare Act will be increased.

(3) Reduce unintended duplication of experiments using animals and encourage the use of more humane and non-animal procedures. —The legislation calls for the creation of a national information service to help reduce unintended duplication of experiments using animals and to disseminate information on human and alternative methods of research currently being developed. This service will be made available on a voluntary basis to researchers.

Due to an inadvertent error, there is some question as to whether the amendments allow the Secretary to require annual reporting from Federal Research Facilities. It was the intention of the final agreement that, as in the past, government agencies would still be responsible for inspecting their own research facilities but that these Federal Research Facilities would still be required to file annual reports. I will be supporting a technical amendment to this portion if needed.

Title XX takes several steps forward in assuring that animals which are used in research receive humane care and treatment, and that pain and distress to these animals are minimized. However, this legislation still protects the right of each research facility from interference with its ability to conduct its research.

I would like to thank the distinguished majority leader in the Senate, Senator DOLE, the Senator from Montana, Senator MELCHER, as well as the distinguished Congressman from Washington, Congressman FOLEY, for their strong support and efforts on behalf of this legislation.

There are many other provisions of this conference agreement which merit attention and support. But most in need of notice is the work that Mr. DE LA GARZA and Mr. MADIGAN have put into the process of getting H.R. 2100 enacted. We all owe our gratitude to them for the work that they have done this year, and the work which will need to be done in coming months as we struggle to deal with the farm crisis. We owe them our thanks and our support for this conference report.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Missouri [Mr. EMERSON].

Mr. EMERSON. I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in support of the conference report on the farm bill. I commend all who have participated in the process resulting in this bill because the efforts were great, the consideration serious, sincere, and empathetic to the plight of agriculture and, as Chairman DE LA GARZA has said, this is the best consensus product that could, given our constraints, be produced. I am optimistic that the results of this bill will be positive.

I would associate myself with the remarks of the gentleman from Louisiana [Mr. HUCKABY] and the gentleman from Mississippi [Mr. FRANKLIN] in the positive things they have said here today about this bill. I hope that they are right and I think they are. I believe this bill can bring stability and improvement in the farm income picture, and it is important for purposes of predictability and being able to make responsible business decisions that we have a responsible law from which to take guidance.

No one should continue this bill as a panacea. It is not. It will not solve all of Agricultures problems. My farmers tell me time and time again that they feel the larger problem in agriculture cannot be fixed by the simple passage of a farm law. They tell me that the farm economy will come into proper relationship with the rest of the economy when we reclaim foreign markets, lost through embargoes and a too-strong dollar and unfair trade practices; when we get deficits under control and real interest rates down to affordable levels. These are not items that can be fully addressed in farm legislation, but to the extent we can,

we have tried. Those of us who are agriculture conscious must remain ever vigilant to opportunity for agriculture when we consider the budget and trade issues. I think the trade features of this bill are among its better features. The Ways and Means Committee could add to what we have done. The conservation features of this bill are very positive and will have benefit for our farmers now and will help conserve a precious natural resource, our soil, for the future.

The conference report on the farm bill before us today contains the reauthorization of several food assistance programs. The major food assistance programs. The major food assistance program is the food stamp program which has been reauthorized for the life of the bill. The Temporary Emergency Food Assistance Program, which provides surplus commodity distribution authority, has been reauthorized for 2 years. I am pleased that the conference did adopt a proposal I offered along with Senator DOLE and the gentleman from California [Mr. PANETTA]. This proposal requires that States set up an employment and training program designed to help certain food stamp participants move into regular employment by providing training and experience and improving the employability of participants. It also allows the States to coordinate employment and training activities under both the food stamp and AFDC programs.

States will have considerable flexibility in designing their programs. State flexibility is important if this program is to succeed. The employment and training program may encompass, at the discretion of the State, job search training and support programs, such as job finding endeavors; training in employment techniques; job placement; or, other training and support activities aimed at improving the employability of food stamp participants.

The bill I introduced earlier this year, H.R. 2745, provided the basis for the employment and training program contained in this conference report. I appreciate the cooperation and assistance of other members of the conference, especially Senator DOLE and Mr. PANETTA. I believe that we have a sound, workable employment and training program—one that combines State flexibility and appropriate review and oversight by the Secretary of Agriculture.

EMERSON EMPLOYMENT AND TRAINING PROGRAM DETAILS

First, States must design and operate an employment and training program encompassing one or more of the components listed, by April 1, 1987, and may include job search and workfare. State flexibility is ensured and the Secretary retains the authority to approve the State program.

Second, all persons subject to work registration are required to participate in the State employment and training program, including Indians on reservations. States may temporarily exempt additional persons and categories of persons based on participation of 30 days or less, work opportunities, cost-effectiveness of participation, and personal circumstances, such as lack of child care. These latter exemptions are of a temporary nature and must be reevaluated at the beginning of each certification period for inidividual exemptions and periodically for categorical exemptions.

Third, States may operate employment and training programs for those food stamp participants not required to participate, either permanently or temporarily. Those persons volunteering for employment and training programs would be able to participate in the same programs as operated for those required to participate. Volunteers will receive the $25 as well, under the same requirements for other participants. Volunteers will be accepted into the State program whenever practicable. States may have a program component for volunteers only.

Fourth, States must reimburse participants for costs that are reasonably necessary and directly related to participation in the employment and training program. The maximum reimbursement is $25 per month, per participant. Reimbursement for this cost is based on a 50-percent State match and is calculated outside the grant to States for employment and training programs.

Fifth, the State employment and training program will be a part of the overall State plan of operations. Failure to comply with the requirement to submit an employment and training program for Secretary approval or failure to adhere to such program with result in withholding of Federal funds, as in all violations of the State plan of operation. Regular administrative and judicial review procedures apply.

Sixth, State employment and training grants are set at $40 million for 1986; $50 million for 1987; $60 million for 1988; and, $75 million for 1989 and 1990 (depending on the length of the farm bill). These funds may be used only for employment and training activities related to the State program.

Seventh, the Secretary shall set minimum performance standards, which shall vary according to such factors described by the Secretary, including program characteristics and the types of programs chosen. Such standards can vary from State to State and shall take into consideration the costs to States and the degree of participation by exempt persons. In addition, such standards will relate to those required to participate in an employment and training program and not either permanently or temporarily exempt. In addition, such standards will take into consideration such factors as placement in unsubsidized employment; increase in earnings; reduction in the number of persons participating in the food stamp program; and, other factors as determined by the Secretary and related to employment and training. It is recognized that setting specific minimum performance standards is an essential component of any successful employment and training program. However because this food stamp employment and training program will have different program components and different types of participants, setting minimum standards at this time would be an arbitrary function. For example, States with a simple job search program for recently unemployed persons will have an easier task in meeting standards than other States. Therefore the Secretary is given the authority to delay implementation of the minimum standards for up to 18 months after the beginning of the food stamp employment and training program so that appropriate minimum standards can be determined. In order to allow appropriate phasing in of this employment and training program, the standards shall not exceed 50 percent through 1989.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to our friend and colleague, the gentleman from Wisconsin [Mr. OBEY].

Mr. OBEY. I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in opposition to the conference report. This bill simply reduces surpluses by pushing farmers out of business, and most of the dairy farmers who will go out of business are going to be from the Upper Midwest because of the class I differential which still remains in this bill.

I have no criticism of the conferees. I understand how difficult that problem is. I think this bill is simply an example of how little running room one has when the administration is against one rather than for one and can brandish a threat of a veto in order to get most of what it wants.

There were alternatives available which would have been less costly to the taxpayer and less brutal to the farmers, but unfortunately, the bill does not take them and a human tragedy is about to result.

The administration has taken the 60-percent support it got from farmers in the last election and they have used that as a club to resist really fundamental agricultural reform. The result is this bill today, and the result is that a lot of farmers are going to experience a very brutal crunch in the next 2 years.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio [Mr. OXLEY].

Mr. OXLEY. I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in support of the conference report. I would like to compliment the distinguished chairman of the House Agriculture Committee, ranking Republican, Mr. MADIGAN, and other members of the committee for their diligence, patience and fine work in bringing a farm bill to the floor that addresses so forcefully the serious problems facing agriculture today.

The 5-Year Food Security Act of 1985 includes a resource conservation provision for the lasting protection of our most valuable resource—the soil.

PAST HISTORY

Fifty years ago, the Federal Government launched an ambitious program to cope with what was then recognized as Ameri-

ca's most serious environmental problem: The severe soil erosion that threatened hundreds of millions of acres of agricultural land throughout the country. Since then, U.S. taxpayers have spent billions of dollars to help farmers defray part of the cost of soil conservation practices, and to provide free technical assistance on how to control erosion. Despite this massive Government effort, soil erosion remains a serious national problem.

EROSION PROBLEMS ARE SERIOUS

The U.S. Department of Agriculture [USDA] estimates that soil is eroding at more than twice the official tolerance rates on 96 million acres (23 percent) of the Nation's cropland. More than 3 billion tons of soil are eroded by wind and water from our cropland each year. Another 63 millon acres of land in pasture, range or forest use are eroding at more than double the rate that the USDA considers tolerable. In Ohio we have nearly 2 million acres of eroding cropland that need conservation. In my district, more than 15 percent of the cropland is eroding at excessive rates.

Soil erosion is a deceptively subtle environmental problem. Yet the major form of soil erosion, sheet and rill erosion, usually is invisible even to experts because the soil is washed away in a shallow, uniform layer (sheet erosion) or from minute channels on the soil surface (rill erosion). An acre of land exposed to a sheet and rill erosion rate of 5 tons annually—the average tolerance level—is losing less than one thirtieth of an inch of soil each year, about the thickness of a dime.

CONSERVATION PROVISIONS IN THE FARM BILL

We have once more reached a time for a change. The soil conservation provisions of this bill are the most intensive conservation efforts ever undertaken in this country. We expect, by the end of this decade, to retire about 10 percent of the Nation's cropland—some 40 to 45 million acres of the Nation's most highly erodible, and generally least productive, cropland. In addition to reducing soil erosion, the water quality of our streams, rivers, and lakes will be greatly improved. Fish and wildlife interests will also greatly benefit from the movement to permanent land cover.

CONSERVATION COMPLIANCE

For the first time, plowing up of erodible land for unneeded crop production will be discouraged by this bill. Some lands just should not be farmed. Once plowed, such lands are subject to erosion so severe that the land may not recover for decades. Farmers will still be able to plow out and convert to cropland these lands. They just won't be able to get any help from the taxpayer through price support loans and other Federal program benefits when they do so.

Soil conservation enjoys the overwhelming support of farmers and the public at large. I believe, without question, that this conservation provision in the bill is a good one for the farmer and for the consumer and taxpayer. I urge my colleagues to give it and the entire conference report their full support.

Mr. MADIGAN. Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin [Mr. GUNDERSON].

Mr. GUNDERSON. I thank the gentleman for yielding this time to me.

Mr. Speaker, I rise in support of the conference report on the 1985 farm bill. In doing so, I want to begin by extending special commendations to the distinguished chairman, Mr. DE LA GARZA and our distinguished ranking member, Mr. MADIGAN. Without the leadership, counsel and wisdom of these two men there would not be a farm bill before us today. They deserve the thanks of every farmer in America.

These are special and tragic times in American agriculture. They demand special and unique responses from our Federal Government. We must stabilize farm income in the short run. We must move toward a more market oriented Farm Program in the long term. We must respond to the differing needs and philosophies of every commodity and every region of the country. We must also live within our budget limitations.

The task of the conference committee was to do all of this and still remain sensitive to the desires of the House, the Senate and the administration. The fact that we have any farm bill at all is nothing short of a miracle.

DAIRY

The dairy title is obviously a compromise but it does accomplish the goals we set for a new Dairy Program earlier in the year with a supply management program to reduce stocks, a support price to maintain farm income in the short run and a program in the out years that leans toward more market orientation.

The Whole-Herd Buy-Out Program pays producers to leave the dairy industry by having them slaugther or export their entire herd thus eliminating enough milk production to get supply and demand in balance. The program would be funded by producers through an assessment.

In the program the Secretary of Agriculture would be required to remove 12 billion pounds of milk over the 18-month life of the program. Producers would be required to submit a bid to the Secretary of Agriculture outlining the payment they would accept to leave the dairy business for 3 to 5 years. The Secretary would then have the discretion to chose the bids that he determines to be reasonable.

The Dairy Program, as I have said, ought to be maintaining farm income during a time of supply management while moving to more market orientation. This legislation accomplishes that by keeping the effective support price of milk above $11 per hundredweight in 1986 and 1987 while implementing the Whole-Herd Buy-Out Program.

If past history holds true this should result in a market price which will exceed the support price of milk by the end of 1986. As we all recall the Minnesota-Wisconsin series price reached an all time high during the recent partial diversion program. If implemented properly by the Secretary of Agriculture, the Whole-Herd Buy-Out Program should accomplish our goals in the short term as well as the long run.

In 1986 the support price is frozen at a level of $11.60 and reduced to $11.35 in 1987. There will a 40-cent assessment from April 1, 1986 to December 31, 1986, and a 25-cent assessment from January 1, 1987 to September 30, 1987. This assessment should pay for the entire Whole-Herd Buy-Out Program. In 1988 through 1990, there will be a 50 cent price cut annually if Government purchases are to exceed 5 billion pounds.

From the perspective of dairy farmers from the Upper Midwest, I must acknowledge one major inconsistency with the dairy provisions that came out of the conference committee, and that is for an increase in price differentials for certain areas of the country.

Changes in price differentials are not necessary at this time. With a Whole-Herd Buy-Out Program implemented to reduce production by 12 billion pounds over an 18-month timespan why do we need to increase in the price of class I milk in certain areas of the country.

Economists I have consulted have indicated that such legislated increases are likely to increase production in these areas by some 120 million pounds which will increase the cost of the Dairy Price Support Program by $25 million.

In a time when we are faced with surplus production we ought to be moving milk from areas with a surplus rather than creating an artificial incentive to produce more milk.

With this one exception, the dairy title of the farm bill is quite good as it gives those farmers experiencing financial difficulties or just having a desire to pursue other business ventures a chance to leave the dairy business not through a foreclosure or an auction but through the Whole-Herd Buy-Out Program.

While maintaining farm income in the short run with an effective support price of more than $11 in the first 2 years of the bill, it also sends a signal to producers that the dairy industry is leaning toward a more market orientated policy in the future.

CONSERVATION

The conservation title of the farm bill could possibly be the best and strongest title in the bill. Soil erosion is a growing problem across this country and it is imperative that something

be done so that our children will also have a foundation on which to grow.

The Conservation Reserve Program will pay producers either through cash or in-kind payments to take their highly erodible land out of production for 10 to 15 years. The intent if the legislation is to remove 40 to 45 million acres over the 5-year life of the bill.

The sodbuster and swampbuster provisions will protect fragile soils and wetlands by penalizing producers who cultivate on highly erodible soil. Producers doing such would be unable to receive price supports and other farm benefits. Highly erodible land that was tilled between 1981 and 1985 will be initially exempted from the program; however, this exemption would not be valid if a producer does not begin applying for a conservation program for his farm by 1990 or if a he doesn't start a program 2 years after a soil survey has been taken.

Due to or extreme desire to maximize our production and plant fence row to fence row, many of our producers have disregarded conservation practices. We are already feeling the effects of major losses of our topsoil. Any more delay in restoring our most important natural resources and our next generation will be paying dearly in years to come.

CREDIT

It is no wonder that the agricultural credit sector has fallen on hard times with substantial decreases in farm income over the past few years.

Just 2 weeks ago we passed legislation to help the Farm Credit System try and help itself. Quite possibly we will be faced with similar legislation in the next session; however, it will most likely deal with the problems facing the commercial banking industry, specifically the agricultural banks.

To insure that the Farmers Home Administration remains a credible lender the conference committee reauthorized $4 billion annually over the next 3 years to provide for farm ownership and farm operating loans to FmHA borrowers. In addition, the Secretary of Agriculture is required to operate a $490 million program through September 1988, which USDA and private lenders would share equally the cost of reducing interest rates to FmHA borrowers.

Farm ownership loans are set at $520 million annually with half being direct loans and the other being guaranteed. By 1988 direct farm ownership loans will be at $130 million and with guaranteed loans will be at $390 million. In reference to farm operating loans, $3.48 billion will be divided equally between direct and guaranteed loans in 1986. By 1988 direct farm operating loans will be $870 million while guaranteed operating loans will be more than $2.6 billion.

Also included in the credit title is the "clear title" provision introduced by Mr. STENHOLM and myself. The clear title provision would protect buyers of agricultural products from a legal loophole that can force buyers to pay twice for a product when there is a lien against the seller. While the clear title provision has changed from when it was introduced it gives States a choice of implementing a central filing system or the prenotification system as in the original clear title bill. States will have 12 months to decide between a central filing system or prenotification system. If a central filing system is not in place in a year, the prenotification system will have to be implemented.

Due to the fact that the prenotification system has been around for nonagricultural products for many years, it is only fitting that buyers of agricultural products be adequately protected as well.

FEED GRAINS

In the wheat and feed grains sections the same concern over maintaining farm income was exhibited by the freezing of target prices at current levels for the first 2 years of the bill. Decreases of 2, 3, and 5 percent of the target price will be in effect in the last 3 years of the bill. This type of policy adopted by the conferees should make U.S. grains more attactive in the international market but at the same time give farmers target price protection.

In 1986 and 1987 the target price for feed grains will be set at $3.03 per bushel with gradual reductions beginning in 1988. The loan rate for feed grains is set at $2.40 per bushel in 1986 and may be reduced as much as 5 percent annually. The Secretary of Agriculture is given discretionary authority to reduce loan rates up to 20 percent annually if market prices in the previous year fail to top 110 percent of the previous years loan rate or if the Secretary determines that a further cut is needed to compete in world markets.

In the title, the Secretary of Agriculture is given discretionary authority to allow the repayment of loans at levels which could be as low as 70 percent of the loan rate. He could also give producers one of two types of marketing certificates to help promote exports.

Feed grain producers with a desire to get into the Government program would have to idle a maximum of 20 percent of their base in 1986 if stocks are to be over 2 billion bushels. Of the 20 percent set-a-side, 12.5 percent would be a mandatory minimum, 5 percent would be discretionary with the Secretary and 2.5 percent would receive an in-kind payment. For 1987 through 1990 the maximum acreage reduction would be 20 percent with a mandatory minimum of 12.5 percent and 7.5 percent at the Secretary of Agriculture's discretion.

The Soybean Program continues with a $5.02 loan rate for 1986 and 1987. In the remaining years of the bill the loan rate can be reduced by as much as 5 percent; however, there is a floor of $4.50 per bushel. The Secretary of Agriculture has discretionary authority to allow repayment of loans for less than the original rate to encourage exports instead of adding to Government stockpiles.

A MIRACLE

Looking at the various titles that affect Wisconsin farmers directly, I am pleased that this bill protects farm income in the short run then phasing into a more market orientated approach in later years. The incorporation of the Whole Herd Buy-Out Program gives us a chance to cull cows and not farmers. Programs within the wheat and feed grain sections protect farm income yet send out the signal that America is coming back strong in the export market. The conservation title with its sodbuster, swampbuster and conservation reserve provisions directly address the concerns of millions of Americans and finally the credit title provides credit to FmHA borrowers and at the same time offers them a means to get their interest payments at reasonable rates.

No one who has spent an extraordinary amount of time on this bill is completely happy with the outcome of all of its titles; but when you consider commodity, regional, market, philosophical and personal differences, it is nothing less than a miracle that we have a farm bill at all.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to our distinguished colleague and friend, the gentleman from New York [Mr. RANGEL].

Mr. RANGEL. I thank the gentleman for yielding this time to me.

Mr. Speaker, I rise in strong support of the conference report. It is not that those of us from New York and other urban communities fully appreciate and understand the problems that our farmers are having, but we do know that the farmers are having serious problem, and KIKA DE LA GARZA was kind enough to have several meetings with those of us from urban communities to explain some of the complex problems that the farmers are facing.

We truly realize that many of our colleagues believe that many of those problems are not resolved in this legislation, but I do hope and am looking forward next year to working very closely with the farm community, hoping that we can work out a farm policy that more Members of the Congress can understand and, therefore, more of us can support.

I think the Gramm-Rudman, in and of itself, means that we should expect less Federal funds for many of the projects that those of us who come from communities that need Federal

support, maybe if we tried to reach out and understand each other's problems a little better that we will be able to have a more effective Congress and do the best we can for the people who voted to put us here.

So I think this bill goes a long way to bring some support for the farmers who so sorely need help.

□ 1255

Mr. MADIGAN. Mr. Speaker, I yield 1 minute to the gentleman from Michigan [Mr. SCHUETTE].

Mr. SCHUETTE. Mr. Speaker, I rise in support of the conference report.

Mr. Speaker, I want to again commend the chairman of the Agriculture Committee, Mr. DE LA GARZA, and my ranking minority member, Mr. MADIGAN, for their sterling leadership and guidance on this farm bill. And, I want to express my profound appreciation for the opportunity to work alongside my Agriculture Committee colleagues on both sides of the aisle for the long hours it took to write this bill.

There is no need for us to recite the problems faced by farmers and their families today. I think by now we are all aware of the serious situation faced by producers: Falling prices, plummeting land values, the evaporation of our export markets, just to name a few. But although we in Congress may be familiar with the problems, I suggest that it is time we strip away the statistics and see the real human suffering that is occurring in farm country. We are not talking about numbers: We are talking about living, breathing individuals who have bills that they want to pay but can't because the land into which they have put their sweat and toil is not returning enough for them to live on. And no one knows this better than farmers themselves.

This bill is not perfect; farmers know and understand that. If I were to write a farm bill just for mid-Michigan, it would be different in many respects. But this bill must address the needs of a wide variety of producers across the Nation, and there are no simple, easy answers to the stress farm families face.

What we have tried to do in this bill is to provide profits in agriculture by providing markets for farm products. The thrust of this bill is to maintain much-needed income bridges for farmers and to provide income protection: It does this by essentially freezing target prices for the next 3 years at current levels and maintaining the dairy price support at the current level through next year. The whole-herd buyout, very popular in farm country, will help those farmers who have not been able to afford either to stay in the dairy business nor to leave it, to get a start in another area. This bill has the strongest conservation program of any farm bill in history, protecting our fragile lands through the conservation reserve, sodbuster and swampbuster provisions. Farm exports, so vital to improving commodity prices, receive a boost through the bakers dozen and other initiatives in the bill. And, I am very pleased that the bill maintains our sugar program intact, and at no net cost to the taxpayers.

Yes, this is a bill that will help our farmers get through the tough times they are experiencing. It is long past time that Congress produces a farm bill, and I am pleased that we have produced such an encouraging one. I urge my colleagues to pass this bill without delay.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to our distinguished colleague and friend, the gentleman from North Dakota [Mr. DORGAN].

Mr. DORGAN of North Dakota, Mr. Speaker, I rise in opposition to the 1985 conference farm bill.

I realize the development of the 1985 farm bill has been a long and arduous process, complicated by the severely depressed economic conditions in agriculture. I believe most would agree that our present farm policies have failed. Within the last 5 years, net family farm income has declined, farm debt has drastically risen, and farm exports have plunged downward. Yet, with the adoption of this bill, the taxpayers will be spending too much on the wrong kind of farm program and family farmers will receive too little.

In recent years, farm programs have not worked because they waste funds on corporate agriculture while ignoring the family-sized farm. Yet, as I have repeatedly stated throughout the past year, this farm bill can easily be viewed as "less of the same" current policy. It's a flawed bill, one which will not work.

We need a price support system that really does what it is supposed to do; provide a bridge over price depressions; a bridge over which family farmers can move during periods of sustained low commodity prices.

We don't need a price support under every gallon of milk produced by the 3,000 milk cows in the morning on the largest dairy operation in the country. We don't have to place a loan rate under every bushel of wheat, barley, or corn produced by the largest producers in America. We do need a basic price support on which family farmers can depend when market prices don't keep pace with the costs of production.

Why did Congress fail to chart a new course? It's simple. Those who now get the bulk of the benefits in the farm program fight hard to keep them. Under our supply management farm program, the biggest producers get the biggest benefits. For example, in 1984, less than 20 percent of all direct Government agricultural benefits went to financially stressed farmers. So, in order to give $1 to a struggling farmer, we will be giving $4 to his prosperous neighbor—and competitor.

For more than a decade, Federal farm programs have forced America's farmer to overproduce in a hopeless effort to meet rising costs in the disastrously low crop prices. The family farmer and the whole agricultural system that the farmer supports confronts the darkest financial crisis to grip rural America since the Great Depression. If current trends are not reversed, many experts believe that one of every three farms in America today will be bankrupt or beyond help within 2 to 3 years.

Farmers have suffered 4 consecutive years of negative return on equity, averaging a loss of 7 percent per year. Since January of 1981, approximately 28,000 farmers have gone out of business in the United States and we now are losing them at a rate of nearly 1,600 every week. In addition, USDA analysts report that net farm income could fall by 10 percent, from $29 billion this year to as low as $22 billion next year. Just 2 years ago, net farm income stood at $34.5 billion.

If we're going to save family farmers, we're going to have to take control of agricultural production from the hands of centralized, integrated food conglomerates. We have to wean the big corporate farms from the public trough and utilize the available money to provide a stronger target price for first increment of production for family farmers.

In closing, I must remind everyone that our best farmers are going out of business because they cannot pay their bills with their current income. They—the American family farmers—must be given a fighting chance to hold on until improvements are made in monetary, fiscal, tax, trade, and foreign policies. Changes within these areas coupled with a subsequent increase in commodity prices and world demand for American exports, is what is needed today.

Mr. Speaker, I must sadly conclude that this 1985 farm bill does not move in that direction. It is the same old approach—just less of it—and that's not enough for the family farmers in trouble in America.

I intend to keep fighting for the right kind of help for our farmers.

Mr. MADIGAN. Mr. Speaker, I yield 1 minute to the gentleman from Texas [Mr. COMBEST] a member of the committee.

Mr. COMBEST. Mr. Speaker, for nearly a year now, I have been telling the people in my district who are concerned about agriculture that the farm bill has to meet three things: It has to be a bill that can be signed, it has to be a bill that provides income protection, and it has to be a bill that is within budget.

I think we have met those three things. And the fact that it was such a difficult time, I want to highly commend the chairman of the committee, the ranking member of the committee, and every member of the committee.

There may have been some differences on exact philosophy. I do not believe there were any differences on where we were trying to go in a farm bill, and that was to provide some income stability to agriculture and to try to help out agriculture in probably the most difficult times they have ever faced.

I believe it is important to note that we have in this bill some opportunities that I think will provide income protection, that I think will provide the opportunity for us to be competitive in world markets, and certainly be able to get us to a position to regain some of the markets that we have lost. At the same time, the income of that farmer will be protected, and the brunt of us being competitive in world markets will not be left on the back of the farmer.

I think there are some good parts, there are some bad parts, but I would certainly say that given the constraints we have, I highly recommend that Members vote for the farm bill.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia [Mr. RAY].

Mr. RAY. Mr. Speaker, I rise in support of the 1985 farm bill and urge my colleagues to vote for adoption of this conference report.

Everyone recognizes that this bill is not perfect. It does not provide a remedy for the agricultural ills of this country.

This bill is the result of much compromise, which was reached only after many months of diligent negotiation. Such accommodation is a natural part of the normal legislative process, and I commend my colleagues on the Agriculture Committee for their hard work in molding this legislation.

This bill does allow our farmers to hang on until a real solution can be found.

One particular provision in the bill which I would like to highlight is the establishment of a National Commission on Agricultural Policy. I have been advocating the creation of this type of study group for many months.

Early this year, in one of my regular meetings with an advisory group of farmers and agribusiness from my district, I was told that those in the agricultural community are going to have to set aside their differences which divide them by region and commodity. They need to unite in an effort to find ways to reverse the desperate farm situation in this country.

A national commission will bring together various agricultural elements and provide the mechanism for finding long-term answers for a very disturbing situation.

The future security of the United States is jeopardized if we allow our great agricultural machinery to deteriorate and do not maintain the necessary means for feeding and clothing our own people. We have to find some answers soon.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio [Mr. SEIBERLING].

Mr. SEIBERLING. Mr. Speaker, I rise in order to engage in a colloquy with the chairman of the Agriculture Committee in order to clarify the meaning and intent of a provision of this bill.

Mr. DE LA GARZA. Mr. Speaker, if the gentleman will yield, which title and section is it to which the gentleman from Ohio refers?

Mr. SEIBERLING. It is the provision entitled "Control of grasshoppers and Mormon crickets on public land," in the general provisions portion of the bill. As chairman of the Public Lands Subcommittee of the Committee on Interior and Insular Affairs, I am concerned about this provision, which would allow the U.S. Department of Agriculture to use funds appropriated by the Congress for use of the U.S. Department of the Interior.

I would ask the gentleman if my understanding of this provision is correct in that the Agriculture Department must first use its own appropriated funds for grasshopper control before asking for funds from the Interior Department?

Mr. DE LA GARZA. Yes; that is correct. I would also like to point out that the continuing resolution will increase the funding of this Agriculture Department program substantially. However, we felt that this provision of the farm bill was needed to insure that no matter what the status of Agriculture Department funds, money would be available for grasshopper control on Department of Interior rangelands if and when it is needed.

Mr. SEIBERLING. Am I correct in saying that any funds derived from appropriations for the Interior Department pursuant to this provision will be used on Interior Department rangelands?

Mr. DE LA GARZA. Yes; that is correct.

Mr. SEIBERLING. And is it the intent of the gentleman that the Department of the Interior look to funds appropriated for management of BLM lands as the proper source of funding for grasshopper control on BLM lands?

Mr. DE LA GARZA. Yes; that is our intent.

Mr. SEIBERLING. And is my understanding correct that this provision is not intended to override existing laws or regulations, including those pertaining to the management of public lands, to authority over those lands, or to the protection of the environment?

Mr. DE LA GARZA. Yes; that is correct.

Mr. SEIBERLING. I thank the gentlemen and the distinguished chairman for their reassurances on these points.

Mr. MADIGAN. Mr. Speaker, I yield 1 minute to the gentlewoman from Nebraska [Mrs. SMITH] who has been very helpful.

Mrs. SMITH of Nebraska. Mr. Speaker, I rise in support of the conference report on H.R. 2100, the Food Security Act of 1985, the most important piece of legislation this year to my congressional district, the second most agricultural in the Nation.

I would like to take this opportunity to commend and congratulate the leadership of the House Agriculture Committee; namely, Chairman DE LA GARZA, and ranking minority member MADIGAN, for their persistence in finally bringing the most complex farm legislation in the Nation's history next door to its legislative home; namely, signature into final law.

My support for this measure is predicated on the fact that this Nation's farmers and ranchers need a farm bill. Continued price and income supports, although not at levels satisfactory or necessary to the survival of thousands of farmers in Nebraska and across the country, are needed in final law as soon as possible to provide assurance to lenders.

In the last 24 hours, I have called top officials of every agricultural organizaiton in Nebraska. They don't like the proposal before the House today, but almost unanimously, they recommend that I vote for it because agriculture must have a bill with which to work.

Let me briefly list provisions of greatest importance in this legislation to my congressional district:

Loan and target price programs for wheat and feed grains are continued, including a 2-year freeze on target prices. Although I would have preferred a 5-year freeze, as in the House version, this provides minimum assurance over the next 24 months of income security to our farmers.

The sugar program is continued with a freeze of the loan rate at 18 cents per pound, while making provisions that should provide for the continued operation of the program at no net cost to the U.S. Treasury. In addition, growers whose financial status has been imperiled by the bankruptcy of the Great Western Sugar Co. or other firms will receive fulfillment of their contractual entitlements for sugar delivered under this bill.

Beef and pork promotion programs are included. These self-help provisions are intended to help address recent declines in retail demand for nutritious red-meat products.

The export title is very strong and shows the recognition of the Congress that agricultural exports are essential

to the revitalization of rural America. The export commodity bonus program, plus the export credit/credit guarantee programs, should stimulate American agricultural exports in areas of growing demand for our food.

I was pleased that the conference committee adopted language to exempt commercial export programs, including blended credit, from cargo-preference requirements, although I personally oppose the expansion of the cargo-preference requirement to 75 percent on food aid shipments. I also oppose the so-called snapback provision that would set aside this agreement if sufficient funds are not available from the Department of Transportation.

I strongly support the conservation title of this bill, including the sodbuster and conservation reserve provisions. These provisions are essential to preserve our most valuable soil and water resources.

Provisions are also included to extend USDA credit, rural development, research, extension, and food programs. Also, grain quality standards, a topic of great interest and concern in Nebraska, will be carefully reviewed under the provisions of this bill.

Mr. Speaker, this isn't a perfect bill. Many say this bill isn't enough. It's not as much as I would like. But it is the bill we will get this year, and we can continue to work on it to make it a better piece of legislation. I encourage my colleagues to join me in supporting it.

Mr. DE LA GARZA. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. PANETTA], our distinguished chairman of the Subcommittee on Nutrition.

Mr. LUNDINE. Mr. Speaker, will the gentleman yield?

Mr. PANETTA. I yield to the gentleman from New York.

Mr. LUNDINE. Mr. Speaker, I rise in support of the conference report in spite of the provision on peanuts.

I rise in support of the conference report on the 1985 farm bill, H.R. 2100. While I do not agree with every aspect of this piece of legislation, I commend the conferees for their efforts on behalf of the farm sector of the economy.

I am much happier with the dairy provisions in the conference report than those in the farm bill which the House passed in October. In the southern tier of New York dairy farmers do not sell their product to the Federal Government. We have a milk shortage in our area which forces processors such as Cuba Cheese, Leprino Cheese, and Dunkirk Ice Cream to ship milk in from Ohio and Pennsylvania. Because my farmers do not contribute to the national dairy surplus problem, I am pleased that they will not have to pay to finance a dairy diversion program which benefits only those large farmers who can afford to cut back on their production. While the dairy diversion program was designed to help address the dairy surplus problem, I do not believe that the 18-month diversion program did so effectively, and am therefore pleased that the conferees have removed this section from the farm bill.

I support the dairy provisions in the conference report primarily because of the whole-herd buyout provision, and the freeze in the milk support price for 1986. I firmly believe the buyout mechanism will allow some of America's dairy farmers to get out of the dairy business with both their dignity and their assets intact. I was also pleased to see that the compromise retains the increase in the class 1 differential, which will help processors reduce their transportation costs for hauling fluid milk.

This farm bill begins to move our farm programs in the right direction. We must begin to wean farmers off Government price supports and move toward a more free market farm economy. I believe that the dairy provisions of the Food Security Act of 1985 takes the necessary first steps toward such an economy.

However, I am very disappointed that the conferees failed to alter significantly the peanut and sugar provisions. These two programs force consumers to pay artificially inflated prices for food staples such as peanut butter. I proposed phasing out the peanut program when the House first took up the farm bill because it is an antiquated and unnecessary quota system. This peanut price support forces consumers to pay more for American peanuts than our Canadian neighbors. I will continue to oppose the authorization of these boondoggles that my colleagues call farm programs.

And yet, while I disagree with these provisions, I think that the conferees showed foresight in their adoption of a 2-year freeze on wheat and corn target prices. Wheat and corn farmers are among the hardest hit by the declining farm economy and this freeze will begin to help these farmers stabilize their lives and businesses.

American farmers have experienced tremendous difficulties over the last 5 years. Some of their problems have been a direct result of Government programs that were orginally intended to make their lives better. Farmers in my district know how the Federal Government has tried to help and they know how it has failed. I support this legislation not because it is an answer to all the problems that American farmers face, but because it is clearly a step in the right direction—a step toward a free market farm economy.

Mr. PANETTA. Mr. Speaker, first of all, I want to thank the chairman of the committee and the ranking member on the Republican side for the help and assistance in putting together one of the titles that sometimes few people pay attention to, but it is the title on food assistance and nutrition which impacts on millions of American citizens in this country.

Mr. Speaker, H.R. 2100, the Food Security Act of 1985, is the constructive and responsible product of months of hard work by both the House and Senate. It is a bill that strikes a balance between the pressing needs of our agricultural sector and the need for budgetary restraint. I urge my colleagues to support its passage.

There are many reasons why this bill is worthy of widespread support. As chairman of the Subcommittee on Domestic Marketing, Consumer Relations, and Nutrition, I would like to highlight several areas that are of particular concern to me. I hope the following discussion will influence Members, particularly those from nonagricultural districts, to support this bill.

DOMESTIC HUNGER

Title XV of H.R. 2100 relates to domestic food assistance and nutrition programs. It would take affirmative steps to address the current domestic hunger problem by reauthorizing and improving the Food Stamp Program, the Temporary Emergency Food Assistance Program [TEFAP], and the Commodity Supplemental Food Program. Title XV would also augment these efforts by strengthening current programs for nutrition education and nutrition monitoring for low income households.

I am very pleased that the bill that has emerged from conference with the Senate includes several key food stamp benefit enhancements. In my view, this is the best package of food stamp changes since 1977. As I have stated to this body many times over the past 3 years, we have a serious and growing problem of hunger in America. The Food Stamp Program is this Nation's bulwark against hunger. If we want to ease the hunger pangs of our most vulnerable citizens, the Food Stamp Program is the best way to reach them.

I regret that all of the program improvements approved by the House did not survive the conference committee. H.R. 2100 restores only a small portion of the deep cutbacks mandated in 1981 and 1982. However, it does include important changes to: First, restore the earned income deduction from 18 to 20 percent; second, establish a separate child care deduction; third, raise the ceiling on the excess shelter deduction from $139 to $147; fourth, increase the liquid assets limitations from $1,500 to $2,000 for nonelderly households and from $1,500 to $3,000 for single elderly households; and fifth, eliminate the sales tax that about 20 States and localities impose on food stamp purchases.

Many of these changes are targeted on the working poor. Not only do they increase work incentives but they result in fairer treatment for those who work. In combination with the innovative Employment and Training Program mandated by this legislation, these provisions will greatly strengthen the Food Stamp Program's ap-

proach to work requirements and incentives.

The principal author of the Employment and Training Program adopted by the conferees was Representative BILL EMERSON. Much credit belongs to Mr. EMERSON for crafting a reasonable compromise between the House and Senate provisions. I was pleased to be involved in developing this proposal.

My understanding of the adopted proposal, as reflected both in legislation and the Joint Explanatory Statement of Conference, is that it calls for maximum State flexibility in designing employment and training programs. While the Secretary would exercise approval power over each State's plan and could refuse to approve plans that are unworkable, the Secretary would not be expected to substitute his judgment for that of the States in designing the various aspects of the plan. For instance, the Secretary would be expected to ussue broad guidelines on how to operate job finding clubs but not tell the States precisely how to run them. The details of who would participate for how many hours or weeks would be a matter of State discretion.

Furthermore, States would be afforded great flexibility in determining which categories of participants and which individuals would be exempt from the employment and training program. So long as a State has a rational basis for exemptions—and does not reduce the pool of persons involved to the point that virtually no one is served—these exemptions should be approved. The Secretary should approve a State's request to exempt persons who have participated in the Food Stamp Program 30 days or less so long as a logical reason for doing so—such as the desire to target limited resources on longer term recipients—has been provided.

In establishing numerical performance standards for the States, the Secretary would be required to consider the costs to each State of the standard developed for that State. If meeting the standard would entail large additional State expenditures, it would be a sign that the Secretary has developed unreasonable and unrealistic performance standards.

Furthermore, the Secretary is expected to vary the performance standards from State to State since he must consider the differing approaches chosen by States and the differing nature of the populations to be served. The Secretary would be well advised, in my view, to forgo any numerical performance standards until fiscal year 1989, as the legislation explicitly authorizes, in order to have the benefit of the actual experience of States in operating programs. This would provide a more informed basis for setting standards.

I hope that in regulating the employment and training programs, the Secreatry has the wisdom to avoid the pitfalls that have plagued earlier attempts at enforcing work requirements. Above all, Congress does not want a paperwork shuffle where States engage in perfunctory compliance with arbitrary numerical standards. We really want meaningful programs that will result in constructive changes in people's lives. If States wish to target their resources on a minority of employable recipients in order to provide a more intensive—and possibly more expensive—program for these people, they should be able to do so. We want positive results that are most likley to emerge from cooperative Federal and State efforts in operating these programs.

There are many other positive aspects of the bill:

The Food Stamp Program is reauthorized for 5 years with spending ceilings that should prove adequate barring unforeseen increases in unemployment or inflation.

The treatment of low-income home energy assistance [LIHEA] benefits in the Food Stamp Program has been clarified. The Department's policy memorandum disallowing standard utility allowances for recipients of vendor payments has been overruled. These recipients, as well as other energy assistance beneficiaries, generally can now receive the same standard utility allowance as all other households.

Categorical eligibility has been established for households composed exclusively of AFDC or SSI participants. This should provide significant relief in administering the program.

Additional projects to test standardized benefits and simplified applications would be authorized.

Many antifraud measures and improvements in program management have been mandated, including fraud detection units, increased verification, enhanced use of computers, better targeting of monthly reporting and retrospective budgeting, and tougher sanctions against stores violating the Food Stamp Act.

Reasonable timeframes have been provided for State and local adminstrators to implement food stamp changes. The nightmare of implementing the 1982 law will not be repeated since the Secretary has been given flexibility for orderly implementation.

Major improvements in the Commodity Supplemental Food Program are provided. Not only would local programs be able to serve elderly persons—if there is caseload available after women and children are served—but new program sites should find it easier to join the program. Administrative funding has also been strengthened.

The TEFAP Program would be strengthened, with administrative funding to be provided in advance to States and emergency feeding organizations. Although States would be subject to a matching requirement for Federal administrative funds, it should be one that is relatively easy to satisfy. In-kind contributions will be considered and the State would not have to match any funds passed on to the local level or expended by the State for local level activities.

Funding for the Puerto Rico block grant would be increased to reflect anticipated increases in the cost of food.

A new program of nutrition education for low-income persons would be authorized and nutrition monitoring of this population would be improved.

Altogether, these and other provisions comprise a very positive step forward for domestic nutrition programs. This bill constitutes one of the few legislative bright spots for our Nation's poor in recent years.

WORLD HUNGER

I am most pleased that the conference committee approved the essential elements of an amendment I authored, and introduced with Representative COOPER EVANS, to provide surplus commodities oversees via section 416 of the Agricultural Act of 1949. For the first time, minimum tonnages of grains, oilseeds, and dairy products would be mandated for overseas distribution. For each of the next 5 years, no less than 500,000 metric tons of grains and oilseeds and 150,000 metric tons of dairy products will be made available through private voluntary organizations, cooperatives, and others.

While worldwide attention on famine appears to be waning, a food crisis remains in many areas of the globe. Section 416 can be a valuable tool in meeting the demand for emergency food assistance. By mandating that 5 percent of the commodities provided under this program must be monetized, the bill will greatly improve the effectiveness with which it will be distributed.

MARKETING ORDERS

H.R. 2100 includes several amendments that will improve the operation of marketing orders. By increasing the potential penalties that marketing order violators may face, H.R. 2100 will improve the enforcement and administration of marketing orders.

The bill also overturns a recent arbitrary decision by USDA to terminate the marketing order for hops. While the hops order certainly can and should be improved, its mandated dissolution by the Secretary—against the wishes of the industry—was not warranted. H.R. 2100 includes safeguards that should discourage similar arbitrary activity by the Secretary in the future.

A third marketing order amendment would reaffirm the confidentiality of information provided by growers and handlers subject to an order. While the final bill is not as strong as I had hoped, I believe it sends a clear message to the Department not to freely release the names and addresses of growers and handlers nor provide a mailing service for private parties who seek to express their views to such handers and growers. The amendment also reinforces the confidentiality of many other types of information—such as acreage, production, and other commercial data.

CONCLUSION

This bill is a positive step forward in many areas. In these times, it is difficult to frame legislation that meets the many competing policy concerns. I believe that Agriculture Chairman DE LA GARZA and ranking minority member MADIGAN merit high praise for their cooperative effort to bring this constructive legislation to this jucture. I urge the House to enact H.R. 2100.

Mr. MADIGAN. Mr. Speaker, I yield 1 minute to the gentleman from Wisconsin [Mr. ROTH].

Mr. ROTH. Mr. Speaker, I thank my good friend from Illinois for yielding me this time.

No one is entirely satisfied with this bill, but I do want to congratulate the chairman of the Agriculture Committee and the ranking member and all of the people who have worked so hard on this legislation. It is not easy legislation and we appreciate the job you have done on it.

The real issue here is either we are going to have a bill or we are not, and I think the worst possible position for our Congress and our farmers to be in would be to not have a bill.

I feel there is a real defect in this bill in the sense that we do not have a diversion program. Diversion in the area of dairy, which got our inventory down by 3 percent last year, was a good step in the right direction, and the diversion program proved right. We do not have it in this bill, but we cannot have everything we want.

But this bill does have some real pluses, and in the area of trade is where we find a real plus. Either we are going to export more, import less or produce less. Those are the only three avenues we have.

This avenue of exporting more is one that is really emphasized in this legislation. We are going to open up more markets overseas, we are going to internationalize our markets, we are going to GATT and ask for a better agreement so that we have agriculture and many factory products on the same level in our GATT negotiations. So I think we are making some real progress in this area.

Last week, we heard that agriculture exports were at their very lowest.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to the gentleman from Tennessee [Mr. JONES] our very distinguished chairman of the Subcommittee on Conservation and Credit who has done yeoman work in this endeavor.

Mr. JONES of Tennessee. Mr. Speaker, at this point I want to say to this body that the gentleman from Texas, Chairman DE LA GARZA, deserves much credit, as does the ranking member of this full committee for the great job that they have done in over 2 years in putting together a farm bill that I think is commendable and very helpful, and that this body, without a doubt, appreciates, just as the previous speaker said, and we need so badly.

Mr. Speaker, after nearly 2 years of earnest, hard work, the Congress is finally ready to adopt a new long-term farm bill. Although we have missed our deadline for enacting this bill by nearly 3 months—and few people believe this truly will be a long-term bill—we, nevertheless, have a conference report that, in my opinion, deserves the support of this House.

I will be the first to admit that this farm bill could be better in some respects, and I certainly wish it did more to improve farm income. However, there comes a time when we finally have to accept the realities of the budget process and the political process. If I didn't think this was the best we could do at this time I would not support this bill. But I am convinced we fought a good battle, and now is the time to move on.

Without a doubt, interim changes will have to be made in agriculture policy before this bill expires 5 years from now, whether due to the recently enacted more rigorous budget constraints, or a further deepening of the already severe economic depression across our Nation's Farm Belt.

If for no other reason, I urge my colleagues to support this bill because of its soil and water conservation provisions. This bill is the most significant achievement in the field of resource conservation since the 1930's. The "sodbuster," "swampbuster," and conservation reserve programs established by this farm bill will change the face of rural America.

Five years from now I predict the American people will look back on this legislation and remember it for one reason: The foresight we will demonstrate today when we adopt a new, enlightened national policy of stewardship for our most precious natural resources.

Again, I urge my colleagues to support this bill and remove the uncertainty so our Nation's farmers will finally know what programs they will operate under in this crop year.

Mr. MADIGAN. Mr. Speaker, I yield 1 minute to the gentleman from Minnesota [Mr. STANGELAND].

Mr. STANGELAND. Mr. Speaker, I rise in strong support of this conference report and just stand here to plead with all of my colleagues to vote for this conference report and pass it. It is not the best bill in the world, it is not everything that I would like to see in a farm bill. But it is the best we can do.

Let me tell my colleagues I am very saddened to hear some of my colleagues who represent agricultural districts stand and say they cannot support this conference report. I would like to remind them all that we have tried everything, and if they are going to vote against this, what is their alternative? We have done the best we could. We have fought the fight, and I want to commend the chairman of the committee and the ranking member and the chairmen of the subcommittees, the Democratic chairmen of the subcommittees. We had the best philosophical farm debate in the Agriculture Committee that anybody can recall. It was not partisan, but it was philosophical, and we tried everything.

□ 1310

We tried everything on this floor, from high price supports, rigid controls, to what the House committee passed, and the House turned those other alternatives down.

If the House turned those alternatives down, then I think we have done the best job possible. This conference report is as close to the House bill as you can get, without actually having the House bill that we passed here before it went to conference.

So I say, I plead with the Members of this body, pass this conference report.

Mr. Speaker, this is not a great bill and it certainly will not, in and of itself, solve all of agriculture's problems. But that should not come as any surprise to any of us because I cannot recall any farm bill that has guaranteed a profitable farm sector.

I am disappointed that this conference report does not include a mandatory marketing loan which would permit farmers to repay their Government loans at the price they receive in the marketplace. But it does contain discretionary authority for the Secretary and I am one Member who will be doing everything in my power to encourage the administration to implement the marketing loan and offer farmers some hope for the future.

H.R. 2100 does not do nearly for farmers what I or many of my colleagues think needs to be done. But it does offer some short-term stability in the way of target price protection that, hopefully, will sustain our financially squeezed producers until market prices are bolstered.

This bill also contains significant conservation provisions that will remove from

production at least 40 million acres of highly erodible land and discourage fragile soils from being exposed in future years. It also maintains the present sugar program that generates $1 billion in the Red River Valley economy which borders my congressional district.

One other point, having been personally involved in the farm bill conference's work on the cargo preference issue, I know that we have made some significant changes in the manner in which our Nation's cargo preference laws will be applied. I would emphasize, however, one thing that was not changed by the conference, and that is the preexisting statutory requirements regarding the "availability" of U.S.-flag ships. Nothing in the conference report makes any attempt to define the "availability" of U.S.-flag ships or to affect pending litigation relating to this issue.

In conclusion, this is not a great bill and, in some instances, may not even be characterized as a good bill. But it is the best we have been able to come up with after a full year of congressional deliberations.

I know I will be joining many here today in fighting for improvements when we return next year. But we need to pass a bill now and I urge my colleagues to support the 1985 farm bill conference report.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to the distinguished vice chairman of the committee, our distinguished whip, the gentleman from Washington [Mr. FOLEY].

Mr. FOLEY. Mr. Speaker, I rise in support of the conference report, and commend the chairman and the ranking members, and all members of the committee for this product which I think is an excellent one, and I urge support of the conference report.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to our colleague, the gentleman from Michigan [Mr. CONYERS].

Mr. CONYERS. I thank the chairman. I want to commend everybody that worked on this.

Mr. Speaker, I rise in opposition to the conference report. I cannot support a bad 5-year bill that, by lowering loan and target price rates, guarantees a lower net farm income from 18 to 20 percent according to the numerous credible econometric studies. The Congressional Budget Office [CBO] puts the figure at 25 percent. It is bad for our farmers and ultimately for consumers because production will be concentrated in fewer hands. It is bad for interest rates. It is bad for farm employment and bad for urban employment because demand for machine tools will be substantially suppressed. We can and should do more for farmers.

Farm income is the lowest since the Great Depression. The committee bill will make it lower by lowering price supports. The Board of Governors of Federal Reserve has reported that there is a $111 billion negative cash flow annually in the farm industry. Rather than gaining assets they are losing them at this incredible rate.

Two hundred thousand jobs have already been lost as a direct result of the declining farm economy including 80,000 in the manufacturing of farm equipment alone. At the current pace, 270,000 additional jobs can be expected to be lost in the next 5 years. Ultimate jobs lost could be as high as 800,000 which in itself imposes staggering economic costs.

Farmers will not be the only ones to suffer if the 1985 farm bill reduces net farm income. Wharton Econometrics Forecasting Associates of Philadelphia, the Farm Journal, the Food and Agricultural Policy Research Institute at Iowa State University and the University of Missouri study commissioned by the National Corngrowers Association, as well as other documentation all agree on the agregate catastrophic economic effect an impact of lower farm income on the economy as a whole.

The Wharton study shows that every American will be affected. Consumer interest rates alone are predicted to increase by as much as 1 to 2 percent by 1987 depressing other industries such as automotive production and housing; 270,000 jobs outside agriculture could be lost at a rate of three times the job loss for farmers according to the figures. The study indicates the national debt could swell an additional $20 billion before 1990.

The Reagan administration is no friend of the farmer. The administration and the Farm Bureau claim that prices must drop to "market clearing levels" if farmers are to regain lost export markets. This argument does not hold water today.

Lower prices will not regain export markets. Lower prices will only throw our Nation into a sever depression that, in the words of my distinguished colleague from Oregon JIM WEAVER, will "make the 1930's look like a garage sale."

If the administration argument had any basis in fact, our exports would be booming today. Comparing our export performance thus far, for the 1985–86 marketing year for wheat sheads some light. Those on the low-price bandwagon say that the export volume is supposed to rise 1 percent for every 1 percent decline in prices. Wheat exports have declined 37 percent compared to a year ago and the U.S. export price is down by 13.5 percent. Actual export volume has dropped 2.74 percent for each 1 percent drop in export prices.

Dan McGuire, director of the Nebraska Wheat Board, may have put it best when he said that "if the United States Government allows itself to be used by millers, bakers, international trading companies, and multilateral corporations to take the lead in lowering world grain prices, this country will deserve the corresponding decline in world prestige that goes along with it."

Rural Americans have a right to life. This bill takes away that right. Its bad policy. I urge my colleagues to vote against it.

Mr. MADIGAN. Mr. Speaker, I yield 1 minute to the gentleman from Washington [Mr. MORRISON], a very valuable member of the committee.

Mr. MORRISON of Washington. Mr. Speaker, this farm bill attempts to do two things at once, and it might well succeed. First of all, it provides income protection for farmers growing these supported crops to the extent that we can afford under budget pressures.

The second thing it does is it is market oriented. It gradually tells the world that we are going to compete, and the trade provisions provide support from the U.S. Department of Agriculture in making that statement to the world.

The conference report is a balance, and it is worthy of your support. I feel that it is fiscally responsible, and it includes new policy, of which we can be proud.

I commend the chairman, Mr. DE LA GARZA; our ranking member, Mr. MADIGAN, for the finesse in finding this balance, and the courtesies they have extended to all of us as Members of this body.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to our distinguished colleague from Oregon [Mr. WEAVER].

Mr. WEAVER. Mr. Speaker, contained in the conference report is the organic farm bill which I sponsored and which passed a a freestanding bill in the House earlier in this session. This is landmark legislation which will start us on the path toward a more fundamentally sound agriculture without degradation of our soils and water and will help us produce cleaner, cheaper food and to feed ourselves and others in the future. I vote today for that organic farm bill.

Mr. OBERSTAR. Mr. Speaker, I rise to address the cargo preference subtitle of this legislation. This provision exempts certain export commodities from cargo preference entirely, while requiring 75 percent of Public Law 480 and section 416 commodities principally, to be carried on U.S.-flag vessels.

This provision could be administered in such a way as to be extremely detrimental to the ports of the Great Lakes.

Mr. Speaker, Great Lakes ports are heavily dependent on Food for Peace, or Public Law 480 title II, cargoes, as well as those exported under section 416 of the Agricultural Act of 1949. These cargoes act as magnets, encouraging vessels to enter the Great Lakes/St. Lawrence system, pick up these commodities, and while they are in the system, pick up other cargoes at other ports.

Without these Food-for-Peace magnet cargoes, Great Lakes ports would be hard-pressed to survive, financially.

The requirement that 75 percent of these cargoes be transported on U.S.-flag vessels, which choose not to serve the lakes, has the potential to destroy Great Lakes ports and the port-related sectors of our Great Lakes economy.

Faced with that potential for disaster, the Senate added a provision guaranteeing a

minimum percentage share, or metric tonnage, whichever is lower, of bagged, processed or fortified commodities for Great Lakes ports for the next 4 years. That share is based on the 1984 shipping figures.

This provision is absolutely essential for the lakes, within the context of a 75-percent reservation for U.S.-flag vessels. We are appreciative of the efforts of those Senators who were able to include this minimal protection in the Senate version of the forum bill.

In conference we asked whether House conferees representing the Merchant Marine and Fisheries Committee, that figure is a floor and not a ceiling. We were assumed that the reference is a minimum. As a conferee, I reaffirm that intent and insist that the provision be administered in such a way that Great Lakes ports are not frozen at the 1984 shipping level, because that was a poor cargo year for the lakes.

However, other ports ranges expressed concern that this provision, minimal as it is, would cause cargoes to be diverted from their ports.

That is not the intent of this language.

Virtually the only cargoes our ports handle are the bagged, processed and fortified commodities of title II, Public Law 480, and section 416. If the Department of Agriculture fails to properly interpret and apply the availability concept contained in the Cargo Preference Act, then, under this legislation, the lakes will be eligible to bid on less than 5 percent of all grains shipped under Public Law 480, titles I, II, and III, and are more likely to successfully bid on a mere 3 percent.

There is no question in my mind that the administration can, as it must, administer the entirety of this provision of the farm bill in such a way that no port range suffers any loss of preference cargoes under this provision.

I also want to put my colleagues and the USDA on notice that, should any port range be discriminated against in the administration of this subtitle, there will be that much added pressure to see the entire provision self-destruct at the earliest possible moment.

Mr. DE LA GARZA. Mr. Speaker, I yield 2 minutes to our distinguished colleague the gentleman from Texas [Mr. STENHOLM].

Mr. STENHOLM. Mr. Speaker, I rise in support of the conference report we have before us today. We have not yet found the magic wand of the improved farm income so vitally necessary, but in this bill we have laid a foundation that will move us in that direction.

It also moves us in the direction that we must go for budget reasons. The bill before us today is some $3 billion below the bill that was reported from the House a few weeks ago. The trendlines are in the direction that it must go if we are to meet the commitments of Gramm-Rudman, as tough as they will be.

In this bill we have a title called the Clear Title Act. In this case, we do not have a better bill; we have a conference bill. We have a conference, a disagreement between the House and Senate concerning what clear title should be.

There is substantial agreement that the buyer of farm products should be removed from liability, from those actions that he has no knowledge about. The House version provided for prenotification of those individual buyers. The Senate, in their bill, had central filing.

The conference committee action on clear title, or during conference committee action on this, I commended Senator COCHRAN of Mississippi, the prime sponsor of the Senate version, for his statements. In his statement he said, because the buyer would have to rely completely upon the accuracy of data when he searches the State-compiled list prior to purchase, it is only appropriate to place the risk of any error that might escape the attention of a reasonably diligent buyer on the lender.

I completely concur with the distinguished Senator from Mississippi; buyers have enough of a risk of their ordinary daily operations without being saddled with the additional concerns of accuracy and verification of lien notices generated by a central file, and I hope that the actions of this conference will work that problem out.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. MARTIN].

Mr. MARTIN of New York. Mr. Speaker, I thank the ranking member, and I rise in support of the conference report.

Mr. Speaker, I rise in support of this conference report and want to take this opportunity to commend the House conferees on H.R. 2100 for their diligence in crafting a farm bill which lends at least some degree of certainty to the rules under which our dairy farmers will be operating for the next 4 years.

I also want to thank the farmers of the 26th Congressional District of northern New York who spent hours and hours of their time in discussion with my office in order that we might fashion a bill with which we could all live. We realize there are imperfections, but considering the herculean problems we were all attempting to solve. I believe the conference report addresses many of the concerns which were expressed.

As I have said in the past, I am not enamored with the prospect of an assessment on our farmers. However, I am proud that the dairy industry, as always, is willing to make the sacrifice and take the necessary steps toward solving the suplus problem we are facing. I hope the whole-herd buyout program is successful in addressing the situation and reducing the glut which has been created. I am skeptical, however, that further spot shortages could occur in the Northeast as they did under the dairy diversion program.

I am pleased that the mandatory diversion program was dropped in conference. I am also encouraged the provisions relating to casein have been retained, since I believe that foreign imports of Casein have contributed to the situation we are trying to resolve. The increase in the milk-marketing order differentials will also be beneficial to the Northeast.

In conclusion Mr. Speaker, I can in good conscience lend my support to the conference report. It is a carefully crafted compromise which I believe our farmers can live with and which deserves a chance.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Iowa [Mr. LIGHTFOOT].

Mr. LIGHTFOOT. Mr. Speaker, I rise in support of the legislation.

After months of debate and delay the House and Senate have reached tentative agreement on a new farm bill.

We have put this off long enough. Farmers in Iowa and across the country need an answer. We have already passed the fall fertilizer season in my State and many farmers are beginning to talk to their lenders about arranging financing for next year's crop. No lender is going to give them an answer one way or another without knowing what our farm policy is going to be for the coming years and the near future. Our farmers have been left in the dark long enough.

I think we must pass this legislation today, but as you are all aware, this bill or any other farm bill will not provide the sole answer to the problems in our rural economies. But a responsible farm bill is a major factor in the effort to regain some stability for farmers in Iowa and across the country.

This farm bill provides a measure of that much needed stability. Under the bill, target prices are protected over the life of the bill giving farmers the opportunity to plan their operations with some confidence in their longer range projections. I supported the House bill's freeze over the 5-year life of the bill, but the Conference Committee was unable to reconcile themselves to that and have provided a 2-year freeze with modest declines in the out years. Nevertheless, this is a somewhat of a victory in itself, in light of the fact that the administration wanted to cut the farmer off at the knees in a few short years.

Now that we've dodged that bullet of a 1-year freeze on target prices, we have to turn our attention to the forces that prey upon profit prospects of our farmers. One great culprit in that category is a Federal deficit that feeds our high interest rates and our still too strong dollar. We've taken decisive action against that problem by passing legislation mandating a balanced budget by 1991. Now Congress must demonstrate the political courage to pull the reins in on federal spending and restore fiscal responsibility.

As I said, these actions are all a part of more comprehensive approach to address the problems in rural America. In addition

to deficit reduction measures we're on the verge of passing long overdue legislation which will reorganize the farm credit system and make it more accountable to its owner/borrowers.

Now that we know where we stand with respect to some protection of farm income, we must begin investigating ways to bring our production costs toward some synch with those numbers. And I believe we should start with one of farmers' greatest input costs, high interest rates. Declines of a point or two in this regard will, in many cases, make the difference between going out of business and staying on the farm. We must do what we can to begin to address the farm problem from this angle.

In addition to commodity price protection, the bill will give Iowa farmers and others a conservation program with some teeth and the most comprehensive trade title we've had in a farm bill.

There's a tough road ahead and this bill will not answer all of our concerns. But by providing our farmers some stability and a measure of predictability we can begin to address the other forces and problems that so directly affect our agricultural economy.

Mr. MADIGAN. Mr. Speaker, I yield 45 seconds to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I am pleased to rise in support of the conference report on H.R. 2100, the Food Security Act of 1985 and commend the distinguished chairman, the gentleman from Texas [Mr. DE LA GARZA], and the ranking minority member, the gentleman from Illinois [Mr. MADIGAN] for guiding this bill to the House floor. As a member of the conference for foreign affairs portions of the bill, I can attest to this being one of the hardest-working conferences I have ever attended. Chairman DE LA GARZA and Chairman HELMS, and their staffs, are to be commended for their unflagging effort to get this important measure before the Congress before the end of the 1985 session.

There are a number of provisions in this report which are particularly meritorious. I am pleased that the Public Law 480 title II minimums were increased, that there is a mandatory 5-percent minimum for monetization, and that section 416 provisions were adopted which are beneficial for private voluntary organizations. It was important too to that we increased child immunization activities in connection with Public Law 480. As an author in 1980 of the legislation for a 4 million ton food security wheat reserve, for use as a Public Law 480 backup in case of serious food shortages, I am pleased that the conferees agreed to extend this humanitarian food reserve for another 5 years.

Several new initiatives in the export title of the conference report deserve special mention:

The new Food for Progress Program, under which food aid is to be provided on grant or highly concessional terms to countries committed to moving their agricultural activities toward a free market system I was proud to have sponsored that proposal, which was proposed by the President, in the House.

Also the new program for promotion of private enterprise abroad under which foreign currencies, derived from Public Law 480 aid are to be loaned to banks, cooperatives, and other intermediaries in the developing countries; which will in turn use the money for loans to nongovernmental businesses, small farmers, and other private entities for productive private enterprise activities. I was pleased we could reach accommodation with Chairman HELMS who was also sponsoring Food for Progress and private enterprise promotion legislation in the Senate.

Another new initiative is a Special Assistant to be appointed by the President who shall serve in the White House as an advisor, a recommender, an ombudsman, and in particular as an expediter Governmentwide for our foreign food aid and agricultural trade promotion programs.

Upon the whole, this is a good report and I urge its adoption.

Mr. DE LA GARZA. Mr. Speaker, I yield 1½ minutes to the distinguished chairman of the Subcommittee on Livestock and Dairy, the gentleman from California [Mr. COELHO].

Mr. LEHMAN of California. Mr. Speaker, will the gentleman yield?

Mr. COELHO. I yield to the gentleman from California.

Mr. LEHMAN of California. Mr. Speaker, I rise in support of this legislation. I would like to especially congratulate the gentleman from Texas [Mr. DE LA GARZA] for the good work he has done, and most especially, my colleague from California for crafting a dairy compromise that is in the best interest of all dairymen in this country.

Mr. COELHO. Mr. Speaker, I rise in strong support of the conference report and all its different provisions. I would like to specifically speak to the dairy provisions, which are a compromise, and I think address the problems of all the dairy interests throughout the United States.

We were concerned about maintaining a support price that would keep our dairy farmers alive financially. What we have here is a price that is guarnateed for the 1986 year; we have a supply program, a whole-herd buyout that I think will work over an 18 month period; the dairy farmers are willing to pay for it themselves.

We have a situation where we are cutting the taxpayers by their costs of this program, by $3.7 billion; and we have a situation where, if this program works that we will have at the end of 18 months the effective dairy price being above the price support price, so that the dairy farmer does not have to worry about the price support cuts that the administration and others would like to see occur.

I think it will work; I think it is an effective program, and I applaud and congratulate those that have worked hard for it.

Mr. KASTENMEIER. Mr. Speaker, it is with a sense of regret that I cast my vote today in opposition to the conference report on the 1985 farm bill.

Some have argued that we should support this bill because it is a miracle that we have any farm bill at all and that this bill is the best we could do. While I agree that this bill is somewhat better than President Reagan's original proposal to simply cut loan and target prices for grains and the support price for milk, I cannot bring myself to vote for this bill because it so blatantly misses the point.

The point is that American farmers and rural counties are facing the absolute worst of times. Farmers need income. This bill will lower the prices they receive.

Ultimately I have to ask myself if I can defend this bill to farmers who are facing the imminent loss of their farms, if I can assure them that it will help them to survive. Since I cannot give that assurance, I must vote against the bill.

I voted for the 1985 farm bill when it passed the House in October because it at least contained a dairy diversion program. That program would have spread the reduction in surplus production around so that no section of the country and no individual farmers would be asked to give up too much.

In the conference report, however, the diversion program was replaced by the whole herd buy out. This program will reduce milk production. But it will do so by speeding up the exodus from dairy farming. It requires farmers to submit bids to USDA on how much per hundredweight they need to get out of dairying and how much their production would be if they stayed in. There are going to be inequities resulting from this bidding process.

Wisconsin dairy farmers may be more inclined than others to take part in the program. This is because the terms of the bill are much more beneficial to farmers the further away you get from Wisconsin, thanks to the increases in class I differentials included in the bill. Some estimate that Florida dairy farms will gain over $50,000 a year because of those increases. Our farmers gain almost nothing.

Finally, although the bill purports to accomplish a price freeze for dairy farmers, there will be decreases. The 15-cent promotional deduction and the 40-cent deduction to pay for the whole herd buyout will reduce the effective price to $11.05. In 1987 we are likely to see two cuts of 25 cents each. Those cuts can be followed by more cuts at 50 cents each.

Grain loan and target prices will decline over the life of the bill. I had supported efforts to pass legislation controlling grain supplies and prices. It certainly would have been possible to work out the details to fine

tune a certificate program—similar to that introduced by Mr. BEDELL—for grains that would have allowed domestic prices to rise by controlling supply, allowed farmers to produce extra grain for export, and still would have honored existing import/export commitments. The President, however, made clear his intention to veto any such approach and the Congress narrowly turned its back on farmers. We apparently just missed the point on how serious our agricultural crisis is.

There is one component of the bill which I do regret not voting for. The bill includes a soil conservation section which contains a sodbuster/swampbuster provision to stop the spread of farming to erodible lands, a conservation reserve to remove such lands which are already being farmed from production, and a longer term program which will encourage farmers to develop soil conservation plans which will keep such lands out of production. Unlike certain parts of the bill, this is a provision we can be proud of.

Mr. DREIER of California. Mr. Speaker, America's farmers have been sending the Congress a long and loud SOS, signaling the utter failure of our farm policies. Unfortunately, we are responding with our own SOS: the "same old subsidies."

This legislation may show compassion, but it shows little foresight or, for that matter, hindsight. The billions we've directed at farmers to help them over the past decade has not helped avoid the current crisis: Indeed, some say it has helped precipitate it. And here we go with another dose of SOS.

What will the farmer and the taxpayer get for the 50-odd billion dollar price tag of this bill? Commodity prices lower than the ones that have led farmers into the poor house, for one. And a price structure too rigid to give American farmers a fighting chance on world markets, for another.

We have spent countless hours in this chamber this year bemoaning two national crises, in our farm and trade policies, without giving much attention to any link between the two. This is a monumental mistake.

Does anyone of us really expect that the woes of American agriculture will be truly solved 5 years from now when this authorization expires? I hope we will find time during that span to develop a new agricultural trade policy, not as an afterthought to a subsidy bill, but as part of a real solution to the farm income problem.

Mr. SENSENBRENNER. Mr. Speaker, on Saturday, December 14, House and Senate conferees broke an impasse and approved a fundamental change in the Federal program to subsidize dairy prices. Missing from the program is a dairy diversion plan which would pay the dairy farmer to cut production, and was contained in the House version.

Mr. Speaker, I cannot support any farm legislation which does not include a diversion plan, since dropping the paid diversion will not save money and will ruin the family farmer.

The dairy diversion program, established to help stabilize the supply and demand for milk, was in effect from January 1984 through March 1985. The program resulted in a reduction of 1984 milk production by about 3.74 to 4.11 billion pounds. The General Accounting Office directly attributes a $650 million savings to the program. However, evidence suggests that milk production, and therefore the Department of Agriculture's price—support purchases, will increase after the program's end. A dairy diversion program works for both the taxpayer and Federal Government. This has been rejected by the conferees for another, untried program.

Without a diversion program the family farmer in the Midwest will be ruined, while the corporate conglomerate farms in other areas of the country will benefit. The Congressional Budget Office estimates that any price cuts will decrease net farm income by 30 percent. For Wisconsin farmers, declining profitability will result in lower land prices, reducing the value of the collateral on some loans, creating further financial difficulties. Additionally, as many as 45 regional marketing-order districts restricting the sale of milk from region to region will be designed primarily to benefit Southeastern producers. This limits the Wisconsin farmer's ability to sell his product to a small area.

Mr. Speaker, like many other Midwest States, Wisconsin's agriculture truly is Americana. The drive to succeed is there, but the small farmer is threatened and with him the farm economy as the backbone of America.

Mr. SMITH of Iowa. Mr. Speaker, it became obvious early this year when we could not override a veto of a very modest credit bill that essentially what is in this bill is the very most which we could pass and he signed. It is essentially an extension of existing programs with reductions in loan rates mostly offset by higher deficiency payments.

I had high hopes we would also be able to secure a good long term conservation reserve removing a large share of the 60 million acres of highly erodible land. However, I am really sorry to say that the conservation reserve section of this farm bill represents a waste of the best opportunity we have had and perhaps the best we will ever have to make some real progress toward removing 60 million acres of highly erodible land out of production in this country.

This bill sets up conditions for enrolling land in the conservation reserve which those who pay the cost of carrying the land cannot meet. It would require an owner and the mortgagor to give a permanent easement in return for rent payments received for only 10 years. No owner would give a permanent easement in return for a few years of annual payments unless the annual payments were a great deal higher than the $50 per acre they intend to pay. The result is that the conservation reserve approved in that bill will attract only a small portion of the amount of the highly erodible land we need out of production.

The bill also prohibits owners who farm any erodible land after 1990 from participating in soil conservation programs or the annual-set-aside programs. To avoid disqualification, owners would be required to erect soil conservation structures and fully comply with an approved plan. Even if sufficient Federal matching money were available (and it is not) to terrace and bring that much land into compliance in a few years, it would cost more than seven times as much per year for each of the next 10 years as farmers have been able to match.

Since the majority of farmers will have some such erodible land which they cannot possibly afford to idle without a payment and will therefore be disqualified for the annual control program after 1990, they will have no set-aside acres and will also put all their erodible land in grain crops and perhaps plow up any remaining land which could be tilled. With the majority of producers out of the annual production control program, production will increase instead of being reduced and the annual program will not control supplies after 1990 either.

The effect of these provisions is to largely defeat the purpose of the conservation reserve section and the bill will be a flop if it is not amended. It will result in more erodible land being farmed instead of less.

Mr. EVANS of Illinois. Mr. Speaker, I rise in opposition to the conference report. I recognize the hard work of the conferees and commend them for their efforts to improve the farm bills produced by both bodies.

However, I cannot in good conscience tell farmers in my district or across this Nation, that the proposal being offered here tonight is good farm policy for 1985 or for the next 4 years. The agreement falls short of addressing the urgent needs of our farmers, and most importantly, does nothing to enable farmers to increase their income. Without such an increase, banks and businesses in our rural communities will suffer and unemployment will continue in our manufacturing centers.

If this program becomes law, I fully expect the Congress to be back here in 1986 and 1987 facing a deepened depression in the farm belt of this Nation. Our farmers and our Nation deserve and demand better.

Mr. DAUB. Mr. Speaker, I rise to support the conference report on the farm bill. Although there are still problems with this legislation, it is in many ways an improvement over the version the House sent to conference last October.

There is a very real danger that by the next decade America could become a net food importer. Since we enacted the last farm bill, American commodity exports have fallen 25 percent. Although other factors such as the high dollar were significant in this decline, our inflexible farm programs inducing storage, rather than sale, of farm products was certainly one important factor in this trend.

The 1981 bill with its rigid loan rate structure made mounting surpluses almost a certainty. It told our competitors in ad-

vance how much to plant and how much of our markets they can take. As a result, exports have fallen and the American farmer is swimming in a sea of grain.

It has been estimated that wheat and corn exports could fall another 20 percent next year.

Argentina, Paraguay, and Uruguay have 215 million acres of very fertile soil which are as yet unplowed. This is nearly half of all cropland in the United States. Unless we do something about inflexible loan rates the signal those countries will get is: Gentlemen start your plows.

The most significant change that the conference report makes over the House bill and current law is its recognition of our competitive problem and the inclusion of more flexible loan rates to address it. This bill signals that the United States will not continue to tell our competitors in advance the prices at which we sell and how much of the world markets we are willing to give them.

Furthermore, the conference report contains important and innovative programs for export assistance. It contains $500 million for a badly needed intermediate credit program, $2 billion worth of commodities for an export bonus program, $5 billion for short term credit and $325 million for "blended credit" export programs.

The House bill continued cargo preference requirements that force federally generated exports to be shipped on uncompetitive American flagships. Although an improvement over the House provisions, the conference report does not completely solve the problem. In fact, cargo preference requirements are increased from 50 to 75 percent for food donation programs, but the cost of to the Agriculture Department will not be over the current level of 50 percent.

Importantly, the conference report exempts export and blended credit programs from the cargo preference requirements. Current provisions, preserved in the House bill led to suspension of the blended credit program to the great detriment of our commodity exports. The conference version should resolve this problem.

At the same time, the bill maintains income supports for farmers with a 3-year target price freeze spread over 4 years for wheat and feed grains. While not as generous as the original House bill, and not directed at the farmers who are in most need which I would like to see, these provisions will maintain an income safety net for farmers in these difficult times.

This bill represents a milestone in our efforts to conserve the most important natural resource agriculture has: our soil. I have been trying for a long time to get many of the conservation measures in this bill enacted. The conservation reserve and the sodbuster and swampbuster provisions are significant steps toward these worthy conservation goals.

The tax reform bill passed yesterday contains conservation provisions that I offered in the Ways and Means Committee. This legislation puts the sodbuster and swampbuster provisions in the Tax Code and denys the deduction for clearing land to add to unneeded production. These provisions will compliment the farm bill conservation section.

This farm bill is projected to cost about $53 billion over the next 3 years. This is a record amount of farm spending and with it the Congress has demonstrated its concern for the plight of rural American. Despite this record spending, we should be candid enough to admit that we don't have all the answers for the complicated farm problems.

Perhaps the best thing that can be said about recent actions Congress has taken is that, on the whole, Congress has apparently done more for farmers than to them. Two actions justify this conclusion.

First, the farm bill will reform inflexible price supports which has lead to record grain supplies and provide income maintenance needed in the Midwest.

Second, the Gramm-Rudman balanced budget bill should reduce the overvalued dollar also making farm products more competitive overseas. Real control of Federal spending will provide vital interest payment relief for farmers.

Finally, it should be noted that the ratio of urban to rural members in Congress is declining. Without Farm State members sticking together on the farm bill, we may not get one at all and that would be tragic. We need a farm bill this year, not a continuation of the 1981 bill farmers have suffocated under the last 4 years.

I urge adoption of the conference report.

Mr. BIAGGI. Mr. Speaker, I rise to urge support of H.R. 2100, the farm bill. The House conferees are hopeful this legislation will help resolve a serious dispute that has created tremendous resentment and hostility between two important industries. I am, of course, alluding to the issue of cargo preference. The 1954 cargo preference law provides that U.S.-flag vessels will carry at least 50 percent of goods given away—and sales subsidized—by the Government. Newly developed promotional export programs sponsored by the U.S. Department of Agriculture have raised the issue of the scope of the cargo preference laws.

The Department of Agriculture emphasized the "commercial" nature of the export programs and felt that cargo preference should not apply. The Department of Transportation viewed at least one of these programs, blended credit, as subject to cargo preference because of the extensive Government assistance that made the sales competitive on the world market. Finally, the Department of Transportation agreed that though cargo preference was legally binding, it would not be applied in this case because to do so would undermine USDS's export program.

After the agencies resolved their difference the matter was taken to Federal court, where the judge found that the export program in question fell within the scope of cargo preference.

Shortly after the court decision, Secretary Block terminated all sales under the blended credit program. This action caused great harm to both our farmers and seafarers.

In the aftermath of the court action and Secretary Block's termination of the program, representatives of the maritime and agricultural industries met to see if there was any possibility of a compromise to resolve the problems. After numerous meetings, spanning almost 6 months, hard negotiations, and a great deal of blood, sweat, and tears, an agreement was reached. This compromise was adopted by the Senate and with minor improvements became the language adopted by the conferees.

The compromise provides that subsidized sales will be exempt from cargo preference. In exchange for this concession, donational programs will be subject to a 75-percent cargo preference requirement. I would point out that this increase in cargo preference will have absolutely no impact on agricultural spending. The added costs associated with the use of U.S.-flag vessels will be paid by the Department of Transportation.

The compromise reached with the Senate assures the agriculture industry that promotional export programs will not be subject to cargo preference and will not be delayed or interrupted by administrators and courts debating the applicability of cargo preference.

The maritime industry will enjoy an increase in cargo because of the 75-percent cargo preference requirement on donational sales.

Under the compromise, neither side can claim a complete victory. There are substantial risks for the maritime industry in entering into this agreement with agricultural interests. USDA has a history of noncompliance with cargo preference, some programs seem particularly designed to circumvent the letter of the cargo preference law. These factors, among others, forced me to be cautious in accepting the compromise.

I know that both industries are sanguine that this compromise will be beneficial to all parties by eliminating uncertainty and ending this harmful dispute between two crucial American industries. I, quite frankly, am not so optimistic. Cargo preference is essential to the merchant marine, and the merchant marine is indispensible to national security and economic independence. Whatever happens, I hope the future of the maritime fleet is safe.

Mr. MADIGAN. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, let me tell you what this bill is not; it is not a magic carpet upon which farmers are going to glide through the balance of the 1980's. It is a compromise between the economic problems on American farms and the budget deficit problems of our Government.

It maintains the safety net for farmers, but it moves us in the direction of becoming more competitive in world markets.

I want to take the balance of my time to say to all of the members of the committee, including those who

did not get everything they wanted, that you were all gentlemen, and I congratulate you on your demeanor; and to the staff that undertook the Herculean task of putting this report together over the weekend, I express my personal thanks, my personal thanks to the chairman for his good humor and intelligence throughout this process.

Ladies and gentlemen, this is a reasonable product; it deserves your support. I hope you will cast a favorable vote for it.

Mr. Speaker, I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I yield one-half minute to our distinguished colleague, the gentleman from Virginia [Mr. OLIN].

Mr. OLIN. Mr. Speaker, I rise in strong support of the conference report, and commend the work of the conferees; particularly the chairman, Mr. DE LA GARZA, the ranking minority member, Mr. MADIGAN, and all the others.

Mr. Speaker, there is much to be commended in the conference report on H.R. 2100, Food Security Act of 1985. The conferees worked hard and have delivered a bill that is much improved over the one passed by the House. I especially appreciate the leadership of our committee chairman, Mr. DE LA GARZA, and the ranking minority member, Mr. MADIGAN, in insisting that a farm bill must be completed and acted upon before adjournment.

Even the dairy provisions, which I strongly opposed when the House considered the bill, are now improved. Gone is the mandatory diversion program which would have paid farmers for not producing milk. Gone is the cost-of-production formula which would have pushed up milk support prices and further encouraged production.

The whole-herd buyout provisions, which I initially opposed, now seem to offer the best opportunity to make an immediate—and economical—impact on the soaring increases in mik production. Support price cuts alone would have taken too long to achieve the results we must have.

The combination—whole-herd buy out for a limited period of time coupled with scheduled decreases in the support price as long as there are immense surpluses—is an acceptable plan.

It starts us in the right direction.

It is budget responsive.

It provides the long-term policy statement our dairymen need and deserve.

I do continue to have some reservations, however. I was surprised and disappointed to learn that the conference recommended discretionary authority for the Secretary of Agriculture to impose a diversion program or extend the whole-herd buyout if the initial 18-month buyout does not achieve the necessary decrease in production.

It is imperative that the initial 18-month buyout achieve its goals—the reduction of our national dairy herd by an estimated 935,000 cows and a reasonable balance between milk production and consumption. If we achieve that balance, the reduction of price supports established in the bill will be adequate to maintain an equilibrium.

The Agriculture Committee must monitor the buyout closely to be sure it achieves the necessary reductions and be prepared to take corrective legislative action if it does not. Neither another diversion program nor an extension of the whole-herd buyout will be a satisfactory response if this experiment fails. It must be a one-time action; it must get the surplus down to about 5 billion pounds. We can accept no other answer.

I also am disappointed that an assessment will be imposed on all dairy farmers. I had hoped it would not be necessary, but I now recognize that the fiscal realities of meeting a budget target mandate the assessment. Another note of caution, however. The initial 40-cent assessment, followed by a 25-cent assessment, may not be sufficient to pay for the buyout that will be needed. Careful scrutiny of the costs and revenue of the program will be required of the Agriculture Committee.

Retaining the legislated class I differentials is unfortunate. Some States will benefit; others may be penalized. Assuming legislative control of the differentials was politically inspired, and the levels set do not necessarily relate to the actual cost of transporting and handling of milk. I fear that regional imbalances may result because of this action and ask that the Agriculture Committee be prepared to offer a prompt remedy before the imbalances severely impair regional milk production.

Although the dairy title is not perfect, it is an acceptable improvement, and one of many parts of H.R. 2100 now worthy of our support.

I strongly support the emphasis on conservation that is included in the bill. The recent floods in western Virginia, invading the full length of the congressional district I represent, impresses even further the need for scrupulous care of the soil. We can no longer ignore the damage—and the potential tragedy—of the abuse of our resources. H.R. 2100 goes a long way in enforcing the necessary stewardship of our farmland.

I also joined in the effort by the gentleman from Texas [Mr. STENHOLM] and others in removing the double standard that has been in effect for buyers of farm products. The inclusion of clear title provisions in the farm bill is a necessary improvement in agricultural business transactions.

The bill continues to recognize the wisdom of investment in research; it continues support of our land-grant colleges. It boosts our commitment to both domestic and international nutrition programs. It provides the goundwork for an improvement in trade—a vital issue if our immensely productive and efficient farm community is going to regain its role as an active exporter of quality food and fiber.

Just as importantly, H.R. 2100 recognizes the necessity that any farm bill we pass must be sensitive to the overall economy of this country. We are trying to control the deficit. We simply cannot afford to provide all of the income support needed to guarantee the profitability of every farmer. H.R. 2100 offers the assurance of a reasonable, market-oriented floor under farm prices. It is a healthy, feasible, economical plan. Unless we subdue the raging deficits, no farm policy can by itself be the salvation of American agriculture.

Mr. Speaker, the work, of the last year has been intense. The House Agriculture Committee labored over this bill; we debated, we discussed, we may even have argued at times. But each of us wanted the best possible long-term policy for our country's farmers. The conference report on H.R. 2100 is the best effort for these times. I urge my colleagues' support.

□ 1320

Mr. DE LA GARZA. Mr. Speaker, I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman from Texas has 1 minute remaining.

Mr. DE LA GARZA. Mr. Speaker, the end result of what we do here today is a credit to our Nation and to our people. It is our system of government which allows us to be truly representatives of the people. We want the world to know that we care, that within the framework of the art of the possible we were responsible and yet compassionate. This is the most important thing we do here today, telling American agriculture that we care.

We cannot delay any longer. The future is now, the place is here, the vote is "yes."

Mr. Speaker, I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. FRENZEL. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 325, nays 96, not voting 13, as follows:

[Roll No. 474]

□ 1335

The Clerk announced the following pair:

On this vote:

Mr. Gray of Illinois for, with Mr. Nelson of Florida against.

Mr. LENT and Mrs. SCHNEIDER changed their votes from "yea" to "nay."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment bills and a joint resolution of the House of the following titles:

H.R. 1603. An act to amend the Securities Exchange Act of 1934 to authorize the Securities and Exchange Commission to subject banks, associations, and other entities that exercise fiduciary powers, to the same regulations as broker-dealers, pursuant to section 14(b) of the Securities Exchange Act of 1934;

H.R. 2391. An act to authorize the Administrator of General Services to collect additional contributions of money provided to him by private individuals or organizations for the Nancy Hanks Center;

H.R. 2542. An act designating the building located at 125 South State Street, Salt Lake City, UT, as the "Wallace F. Bennett Federal Building";

H.R. 2903. An act to designate the Federal Building and U.S. Post Office located in Philadelphia, PA, as the "Robert N.C. Nix, Sr., Federal Building and United States Post Office";

H.R. 2962. An act to remove certain restrictions on the availability of office space for former Speakers of the House;

H.R. 3608. An act to amend the Small Business Investment Act of 1958; and

H.J. Res. 485. Joint resolution waiving the printing on parchment of enrolled bills and joint resolutions during the remainder of the 1st session of the 99th Congress.

The message also announced that the Senate had passed bills and a concurrent resolution of the following titles, in which the concurrence of the House is requested:

S. 1437. An act to amend the Controlled Substances Act to create new penalties for the manufacture with intent to distribute, the possession with intent to distribute, the possession or the distribution of 'controlled substance analogs', and for other purposes;

S. 1740. An act to designate Bloomington Lake located on the North Branch of the Potomac River, near Bloomington, MD, and Keyser, WV, as the "Jennings Randolph Lake";

S. 1896. An act to designate the General Services Administration building known as the "United States Appraiser's Stores Building" in Boston, Massachusetts as the "Captain John Foster Williams Coast Guard Building";

S. 1956. An act to amend title 5, United States Code, to authorize temporary family housing for certain dependents of deceased members of the Armed Forces; and to amend title 37, United States Code, to authorize temporary payment of an allowance for quarters for certain dependents of deceased members of the uniformed services; and

S. Con. Res. 98. Concurrent resolution to recognize the historical significance of the former Presidential yacht Sequoia, and express support for her donation to the United States Navy by the Presidential Yacht Trust.

FARM CREDIT SYSTEM RESTRUCTURING AND REGULATORY REFORM ACT OF 1985

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 1884) to amend the Farm Credit Act of 1971, to restructure and reform the Farm Credit System, and for other purposes, with Senate amendments to the House amendment thereto, and concur in the Senate amendments to the House amendment.

The Clerk read the title of the Senate bill.

The Clerk read the Senate amendments to the House amendment, as follows:

Page 7, strike out all after line 23 over to and including line 25 on page 8 and insert:

"SEC. 4.28C. BOARD OF DIRECTORS OF THE CAPITAL CORPORATION.—(a)(1) The Board of Directors of the Capital Corporation shall consist of five members, of which—

"(A)(i) three members shall be elected by the farm credit banks that own the voting stock in the Corporation, with—

"(I) one such member being elected from an institution and a district that, at the time of such election, is or is projected to be a net contributor of capital to the Corporation;

"(II) one such member being elected from an institution and a district that, at the time of such election, is or is projected to be a net recipient of capital (other than through the sale of loans or other assets at fair market value) from the Corporation; and

"(III) one such member being elected without regard to the restrictions in clause (i) and (ii).

"(ii) Each such bank shall have the right to cast one vote to fill each such vacancy without regard to the number of voting shares owned by such bank.

"(B) two members shall be appointed by the Chairman of the Farm Credit Administration Board.

"(2) Members appointed by the Chairman under paragraph (1)(B) shall be selected from United States citizens—

"(A) who are not borrowers from, shareholders in, or employees or agents of any institution of the Farm Credit System; and

"(B) who are experienced in financial services and credit.

"(3) The Farm Credit Administration Board shall, in its sole discretion and for purposes of the election of directors to the Capital Corporation only, project whether—

"(A) institutions within a district are or will be a net contributor of capital to the Corporation, or

"(3) the institutions within a district are or are expected to become net recipients of capital from the Corporation.

"(4) The Farm Credit Administration Board shall issue regulations providing for fair and equitable representation of all public and private interests on the Board of Directors of the Capital Corporation. The bylaws of the Corporation shall prescribe the procedures, established pursuant to regulations issued by the Board, under which directors of the Corporation will be nominated and elected.

"(5) Notwithstanding paragraph (1), in the event the Secretary of the Treasury purchases any obligation of the Farm Credit System Capital Corporation under section 4.28J, and for so long as such obligation remains outstanding, the Board of Directors of the Capital Corporation shall be expanded by two members, of which—

"(A) one member shall be appointed by the Secretary of Agriculture; and

"(B) one member shall be selected by the other members of the Board of the Capital Corporation, including the appointee of the Secretary of Agriculture, which member shall not be a—

"(i) borrower from, shareholder in, or employee or agent of any institution of the Farm Credit System; or

"(ii) a government employee.

"(b) Members of the Board of Directors shall serve two-year terms, except that, of the members first elected or appointed to the Board of Directors, one elected member and one appointed member shall serve initial terms of one year.

"(C) The Board of Directors shall elect, on an annual basis, a Chairman from among the members of the Board.

"(d)(1) Members of the Board may succeed themselves and may serve until their successors are duly seated.

"(2) Vacancies on the Board shall be filled in the same manner as the vacant position was previously filled.

Page 14, lines 10 and 11, strike out "of the loss of the use of the accumulated net worth of their institution".

Page 14, line 22, strike out all after "terms" down to and including "Corporation" in line 24.

Page 20, strike out lines 15 and 16, and insert "System institutions, (3) the salaries and benefits of the senior executive officers of System institutions (except associations) will be frozen, such freeze to remain in".

Page 21, line 10, strike out "fective only" and insert "fective for any fiscal year only".

Page 22, line 17, strike out "prescribe."." and insert "prescribe.".

Page 22, after line 17 insert

"SEC. 4.28L. TAX STATUS OF CONSOLIDATED OBLIGATIONS.—Consolidated notes, bonds, debentures, or other obligations, the issuance of which is joined in by the Capital Corporation pursuant to paragraph (13) of section 4.28G, shall have the same tax status as provided by this Act with respect to such obligations issued by the banks.".

Page 33, line 13, after "charters" insert "and certificates of territory".

Page 33, line 21, after "territory" insert ", unless subsequently agreed to by the board of directors of such association or associations".

Page 33, line 25, after "ties." Such associations shall not be (i) charged any assessment under this Act at a rate higher than that charged other like associations in the district or (ii) discriminated against in the provision of any financial service and assistance (including, but not limited to, access to credit and rates of interest on loans and discounts) by a district Farm Credit bank to the association and its member-borrowers.

Page 35, line 12, after "and" insert "regulate".

Page 37, line 5, strike out "employees."." and insert "employees.".

Page 37, after line 5, insert:

"(15) Except for associations, approve the salary scale for employees of the institutions of the System, and approve the compensation of the chief executive officer of such institutions: provided, That no salary scale or rate of compensation shall be approved under this provision unless determined to be fair and reasonable.".

Page 38, lines 11 and 12, strike out "other than national banks," and insert "other than federally regulated financial institutions,".

Page 76, lines 24 and 25, strike out "System institution shall establish from among such board's members a credit review committee" and insert "System institution shall establish one or more credit review committee(s), which shall include farmer board representation.".

Page 77, line 4, after "committee." insert "when a loan applicant requests review of an adverse credit decision, a majority of persons serving on such reviews committee must be persons who were not involved in making the adverse decision.".

Page 79, after line 2, insert:

LOAN REVIEW

SEC. 307. Each local landing institution of the Farm Credit System established under the Farm Credit Act of 1971 (12 U.S.C. 2001 et seq.) shall—

(1) review each loan that has been placed in non-accrual status by such institution to determine whether such loan may be restructured based on changes in the circumstances of such institution as the result of this Act and the amendments made by this Act; and

(2) notify in writing the borrower of each such loan of the provisions of this section.

Page 80, after line 4, insert:

(c) In carrying out the duties and functions specified in subsections (a) and (b), the Governor of the Farm Credit Administration shall serve at the pleasure of the President.

Page 80, line 5, strike out "(c)" and insert "(d)".

Page 84, after line 14, insert:

SEC. 607. Section 5.2 of the Farm Credit Act of 1971 (12 U.S.C. 2223) is amended—

(1) by striking out "; APPOINTMENT" in the caption;

(2) in subsection (a)—

(A) by designating the first and second sentences as paragraphs (1) and (2), respectively; and

(B) by amending paragraph (2) (as so designated) to read as follows:

"(2)(A) The seventh member shall be elected by the borrowers at large in a district.

"(B) For purposes of this section, the term 'borrowers at large in a district' means—

"(i) a voting shareholder of a Federal land bank association and a direct borrower, and a borrower through an agency, from a Federal land bank;

"(ii) a voting shareholder of a production credit association; and

"(iii) a voting shareholder or subscriber to the guaranty fund of a bank for cooperatives.";

(3) in the second sentence of subsection (b)—

(A) by striking out "and" before "in the case"; and

(B) by inserting before the period at the end thereof the following: "; and in the case of an election by the borrowers at large, such notice shall be sent to all borrowers at large in the district"; and

(4) by inserting after the fifth sentence of subsection (c) the following new sentence:

"Each borrower at large shall be entitled to cast one vote.".

Mr. DE LA GARZA (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments to the House amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. MADIGAN. Mr. Speaker, reserving the right to object, I do so for the purpose of allowing the chairman of the Committee on Agriculture to explain to the Members assembled here exactly what is contained in the Senate amendments to the House bill.

Mr. DE LA GARZA. Mr. Speaker, if the gentleman will yield, this is the farm credit legislation, and it is basically the House bill as approved by this Chamber, with certain amendments that were added in the Senate. Most of the amendments were technical in nature or were to correct a specific problem in one area or another of our Nation.

The main amendment was one where the configuration of the Capital Corporation Board was changed from what we had in the House, and I think for the better, that we now have a board that will encompass members of contributing banks, members appointed, and when and if there is an infusion of funds from the Federal Government, then there will be members of the board appointed by the Secretary of Agriculture and by the chairman of the board.

Mr. Speaker, I think that is the main amendment. Beyond that, it was basically the House legislation with minor amendments.

Mr. Speaker, I would like to address my remarks to certain minor changes made in the other body to the Farm Credit Act Amendments of 1985, specifically section 4.28G(15). This critical section of the legislation contains criteria intended to govern and regulate the transfer of funds among farm credit institutions as required by this act. It was the intent of our committee in drafting this legislation that there be specific criteria to prevent the depletion of the assets of healthy farm credit institutions in the systemwide effort to aid financially troubled farm credit institutions. In our view, it would be totally counterproductive to weaken financially healthy institutions in the process of attempting to strengthen those currently experiencing economic difficulties. If this were to occur, the system's farmer and cooperative borrowers served by healthy institutions would be faced with skyrocketing interest rates that would seriously impair their economic viability and would result in serious economic hardship. Moreover, weakened farm credit institutions will be unable to compete with the commercial lending sector, thus depriving farmers of badly needed benefits from interest rate competition.

In not quantitatively restricting contributions by farm credit institutions to the Capital Corporation, the committee granted more flexibility to that Corporation. However, it was the committee's intent that contributions to the Capital Corporation not erode accumulated net worth of the contributing institutions to the point that the cost of credit to farmers would no longer be competitive and that the contributors would be placed in financial jeopardy. I believe that it is important to recognize that institutions will need to borrow against the value of their accumulated net worth to make contributions to the Capital Corporation. The costs of this borrowing will inevitably cause interest rate increases to farmer and cooperative borrowers of healthy farm credit institutions. The criteria are intended to limit such increases. And they are needed to safeguard the economic strength of sound farm credit institutions against future downturns in the agricultural economy.

Mr. MADIGAN. Mr. Speaker, I thank the gentleman for his explanation. I understand the explanation and would comment that neither the administration nor the leadership on this side of the aisle has any objection to the Senate amendments.

Mr. DE LA GARZA. Mr. Speaker, I would appreciate it if the gentleman, under his reservation of objection, would yield briefly to the gentleman from Tennessee [Mr. JONES], the chairman of the subcommittee.

Mr. MADIGAN. Mr. Speaker, under my reservation of objection, I yield to the gentleman from Tennessee [Mr. JONES].

Mr. JONES of Tennessee. I thank the gentleman for yielding, and I want to say to my dear friend, the gentleman from Illinois [Mr. MADIGAN], the ranking minority member, and to Mr. COLEMAN, also, that we do appreciate the splendid cooperation we have had from all of you and for the good job that has been done on your side of the aisle.

You have done a very splendid job. Had it not been for good help that we have had from you, we might not be this far along.

Mr. MADIGAN. Mr. Speaker, I thank the gentleman from Tennessee [Mr. JONES] for his comments and for his friendship.

Mr. Speaker, further reserving the right to object, I yield to the gentleman from Texas [Mr. STENHOLM].

Mr. STENHOLM. I thank the gentleman for yielding.

Mr. Speaker, I would like to pose a question to the chairman of the Committee on Agriculture concerning the effect of the report of that committee concerning this legislation. The bill we are considering on the floor today is, except for certain amendments made by the other body, the bill reported by our committee on December 6, 1985. Is it the chairman's understanding that the committee's report on this legislation, House Report 99-425, expresses the intent of Congress with respect to the provisions of the bill?

Mr. MADIGAN. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Texas [Mr. DE LA GARZA] to comment.

Mr. DE LA GARZA. Mr. Speaker, it is our intention that it so do.

Mr. STENHOLM. I thank the gentleman.

Mr. COLEMAN of Missouri. Mr. Speaker, will the gentleman yield?

Mr. MADIGAN. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Missouri.

Mr. COLEMAN of Missouri. I thank the gentleman for yielding.

Mr. Speaker, it is my understanding that by utilizing the procedure we are following now that we would accept the Senate amendments and therefore avoid a conference that might bog this legislation down. As the gentleman from Illinois and the gentleman from Texas have both worked hard, with the gentleman from Tennessee [Mr. JONES] and myself, we certainly would want to avoid that situation and expedite this along the way to the President for his signature. Is that the procedure we are using here today, and to make sure that we pass this before we adjourn here this week?

Mr. MADIGAN. The unanimous-consent request of the gentleman from Texas is to agree to the Senate amendments to the House bill, which are supported by the Republican leadership, the Democratic leadership and the administration.

If the unanimous-consent request is granted, the bill goes directly to the President. We are hoping that he will approve it. We are hoping that the consequence of that will be a reduction in the interest rate being paid on bonds by the Farm Credit Administration.

Mr. COLEMAN of Missouri. I certainly join the gentleman in that regard, and I appreciate the gentleman's yielding to me.

Mr. MADIGAN. I thank the gentleman for all of his hard work.

Mr. Speaker, further reserving the right to object, I yield to the gentleman from Vermont [Mr. JEFFORDS].

□ 1350

Mr. JEFFORDS. I thank the gentleman for yielding to me.

Mr. Speaker, I would like to point out as to why these colloquies are necessary in that the other body held no committee hearings on this bill, and it is important that we put into the RECORD our understanding on some of these critical issues.

Mr. Speaker, I would like to address my remarks to the distinguished chairman of the Agriculture Committee with respect to the interpretation of a change which was made in the bill by

the other body. As originally reported by our committee and passed by the full House of Representatives on December 6, section 5.12(d)(6) of the bill gave the FCA authority to establish standards for farm credit institutions with respect to loan security requirements and the borrowing repayment and transfer of funds and equities between institutions. The provision was amended in the Senate to include the authority to "regulate" these transfers of funds among system institutions. Sections 4.28(g) (14) and (15) of the bill also address the subject of the transfer of funds and administration of financial assistance to system institutions by the Capital Corporation. The provisions of these sections contain very important criteria that are intended to govern transfers of funds which may be required under the act. Regulations which the Farm Credit Administration is authorized to promulgate under these provisions must be consistent with these specific statutory criteria.

I believe that any exercise of the regulatory authority provided for in section 5.12(a)(6) as amended by the Senate must be strictly in accordance with the criteria so carefully crafted by our committee and passed upon now by both bodies of Congress. Is it also the chairman's understanding that the exercise of regulatory authority by the FCA relative to contributions to the Capital Corporation and the transfer of funds and equities among system institutions be consistent with the criteria set forth in sections 4.28(G) (14) and (15) and explained in the House Agriculture Committee report (99-425) to the legislation?

I yield to the gentleman for his response.

Mr. DE LA GARZA. I thank the gentleman for yielding. I would say to the gentleman, yes, I agree with the interpretation as enunciated by our distinguished colleague, and I would so attest that as far as being chairman of the committee, I would attest to the fact that this would be the legislative intent as far as our Chamber is concerned.

Mr. JEFFORDS. I would like to address my remarks to the distinguished chairman of the Agriculture Committee. With regard to the composition of the Board of Directors of the Capital Corporation, it is my understanding that two of the members should be elected from districts in which all three financial institutions—the Bank for Cooperatives, the Federal Land Bank and the Federal Intermediate Credit Bank—are net contributors to the Capital Corporation. Net contributors means that each institution as a whole contributes more funds to the Capital Corporation than it receives from that entity. This ensures that those districts which bear the greatest burden in assisting troubled institutions are appropriately represented on the Capital Corporation Board. I would point out that this was an important dialog, at least between the two bodies, and I would ask the chairman if his understanding is the same as mine.

I yield to the gentleman for his response.

Mr. DE LA GARZA. Yes, it is.

Mr. JEFFORDS. I thank the gentleman.

Mr. GLICKMAN. Mr. Speaker, will the gentleman yield?

Mr. MADIGAN. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Kansas.

Mr. GLICKMAN. I thank the gentleman for yielding.

Mr. Speaker, I would just ask the chairman a quick question. In the House consideration of this bill, we agreed to an amendment which froze the salaries of executive officers of the Farm Credit System during the period of time that a Federal line of credit was in effect. As far as the chairman is aware, does that language remain in the bill, and that the Senate has approved and sent over here?

Mr. DE LA GARZA. Mr. Speaker, if the gentleman will yield, yes, they are. Plus a further amendment that would make the salaries subject to FCA approval.

Mr. GLICKMAN. I thank the chairman.

Mr. MADIGAN. I thank the gentleman from Kansas and I yield to the gentleman from New York [Mr. LAFALCE].

Mr. LAFALCE. I thank the gentleman for yielding.

Mr. Speaker, it is not my intention to object to this unanimous-consent request. However, I do have, as you know, some reservations about the bill; not with the procedure calling for unanimous consent, but with the substance of the bill itself.

I would hope that the Treasury Department, before it exercises its legal right now to provide financial assistance, would call upon the full resources of the Farm Credit System first prior to resorting to the taxpayers' money. Further, I would hope that prior to submission to the Congress of an appropriations bill in order to implement this legislation if need be, that they would come forth with a plan that would require shared sacrifices on all those that would benefit from such Federal financial assistance, such as the shared sacrifices that were called for in the Chrysler Loan Guarantee legislation. Shared sacrifices from labor, management, the financial institutions with an interest in Chrysler, the stockholders, the workers, et cetera.

Mr. MADIGAN. I thank the gentleman for his comments and I now yield to the gentleman from Oklahoma [Mr. ENGLISH].

Mr. ENGLISH. I thank the gentleman for yielding to me.

If the chairman would respond to a question with regard to this measure, I would simply like to ask: When the measure left the House of Representatives there were two provisions, one prohibiting the Farm Credit Administration from providing a charter to a competing PCA or Federal land bank in a case in which the Production Credit Office or a Federal land bank voted against a merger. There was also protection in the bill to investigate any reports of threats, intimidation, any type of retaliation against voting for mergers in the recent elections.

I would ask if those provisions are still within the bill.

Mr. DE LA GARZA. If the gentleman will yield, yes, I am happy to report to the gentleman that his provision is still in the bill and additional language was added by Senators BOREN and MCCLURE.

Mr. ENGLISH. I thank the gentleman very much.

Mr. MADIGAN. Mr. Speaker, I support the unanimous-consent request, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. STANGELAND. Mr. Speaker, reserving the right to object, I will not object. I would like the attention of the chairman of the subcommittee and the chairman of the full committee for just a moment for a brief discussion and colloquy.

Mr. Speaker, let me just advise the Members of the body that I intend to support this motion and support passage of this bill. However, I am very concerned because this has been done, through necessity, in great haste. That is no reflection on the chairman of the committee or the chairman of the subcommittee. It had to be done.

I just want to remind the Members of the body that the Farm Credit Administration, the Farm Credit System, belongs to the farm borrowers. It was structured that way, they were the ones who controlled it, they were the ones who elected their board of directors, and they were the ones who hired their administrators.

For years this Congress has attempted to take control of the Farm Credit System, and with this bill, we are effectively doing that. I would like to engage in a brief discussion with the chairman and the chairman of the subcommittee for purposes of some legislative history. What I would urge and request of the two distinguished chairmen is that when we come back next year, in an atmosphere of more time and ability to pause and reflect on what we have done, that we contin-

ue to review and hold hearings on the Farm Credit System.

I would also request that at time that we maybe take some field trips so that we can hear from some of the leaders among the farm borrowers as to what they see as a future for the Farm Credit System.

This fix had to be done now; it had to be done in haste. I understand that. But I think we want to review and reflect on what we have done today and maybe next year, if we have made some errors, that we might want to look at some corrections.

Mr. Speaker, under my reservation of objection, I yield to the gentleman from Tennessee [Mr. JONES].

Mr. JONES of Tennessee. I thank the gentleman for yielding to me.

Mr. Speaker, let me say to the gentleman before I engage in the answer to the question that the gentleman has just given me, that we started hearings this year in March. We have held a number of days of hearings and we have had many detailed hearings.

I must insist that what has been done here has not been done in haste, because I have never seen a subcommittee spend as many hours, and staff as many hours on working and putting together a piece of legislation as they have this farm credit proposal that we have before the Members.

As far as next year's concern, the answer of course is yes. We expect to have an oversight over this proposal from here on out because it is going to be our duty to do so.

Mr. Speaker, as an original cosponsor of this legislation, and as one who stands behind it with my full support, I urge speedy adoption by the House.

The committee has worked diligently for nearly a year establishing an in-depth record of unquestioned need for this bill. We have operated in a completely open, bipartisan process, involving the Departments of Agriculture and the Treasury, the Farm Credit Administration, the Farm Credit System, commercial lenders, general farm organizations, and rural advocacy groups from throughout the country.

This bill is vitally important to our Nation's agriculture industry. It provides a number of tools critically needed by the Farm Credit System to enable it to survive the current—and as yet unyielding—depression in our farm economy. More importantly, however, by throwing a lifeline to the Farm Credit System we can help stave off the avalanche of farm foreclosures and an even more severe crash in farmland values which would inevitably result if the Farm Credit System were to fail to meet its legal obligations to its bond holders.

Again, I strongly urge adoption of this bill.

Mr. Speaker, because we are considering S. 1884 for final passage, I would like to clarify a number of issues for the record.

One issue of concern is the interpretation of section 201 of the bill as it amends section 5.16(a)(2) of the Farm Credit Act. This portion of the bill comes into play when one or more associations in a district rejects a proposed district wide merger of PCA's or FLBA's in that district.

We realize that some mergers have already taken place. It was never our intent that the language of the House amendment to S. 1884 serve to invalidate the disclosure upon which the merger-votes were based nor the actions of the farmer-stockholders who approved their association's participation in these districtwide mergers. The action of the Congress at this point in time regarding the merger and overchartering issue could not have been anticipated at the time the disclosures were made to stockholders.

The language of the bill before us simply means that FCA will not be authorized to issue a charter to a merger association which would include the territory served by those associations which did not approve the merger, with one exception, and that is in the case of any charters issued during 1985 for districtwide new or merged associations. The Senate amendment will permit overchartering in this latter situation provided that the board of directors of the association to be overchartered approves that action. Under no circumstances should this section be interpreted as invalidating a merger that was approved by the other associations whose territories comprise the balance of the district.

One further point regarding this section of the bill. At several points the language of this section refers to "a majority vote of the voting stockholders." Although this language differs from the traditional language of the statute on voting procedures, that being "a majority of the stockholders present and voting and voting by written proxy," it was not intended to change the election process or the level of majority required. The issue here is specifically whether the preceding provision conflicts with another section of the act which is not being amended. This section permits associations to voluntarily merge with other like associations upon the vote of a majority of each of their stockholders present and voting or voting by written proxy at duly authorized meetings. Again, it was not our intent to revise the existing voting procedure by which borrower-shareholders would approve such actions.

Another of the issues which must be clarified involves the new section 428I dealing with the limitation on the powers of the Capital Corporation. Of specific concern are the restrictions on the sale of real property which had secured a liquidated loan.

The restriction reads in part "Previous owners shall be advised of the pending sale and shall not be precluded from purchasing their former property." It is essential that these restrictions not be interpreted to require the Capital Corporation to conduct an extensive manhunt for the previous owner of property prior to the sale of any real property. The Capital Corporation should make a reasonable effort to notify the previous owner of property by at least writing to that owner at his last known address. Once a reasonable effort has been made, the requirements of this selection will be satisfied. Further, this provision should not be interpreted as giving the previous owner a preferential right to repurchase the property. It was never our intent, by way of this provision, to place a cloud over the title of property sold by the Corporation. Buyers of property from the Corporation should receive clear title and not have to worry that at some point in the future a previous owner would claim that he was never notified of the sale of his property and now has a right to reclaim it.

On the issue of financial reporting requirements by System institutions, specifically referred to in section 5.19(b), it is our intent that each institution of the Farm Credit System should make and publish an annual report of condition, but not preclude the Farm Credit Administration from accepting a consolidated report in lieu of hundreds of separate reports.

Finally the bill provides for a salary freeze for certain System officials. It was our intent, as was previously discussed on the House floor, that the salaries of certain System officials should be frozen only when Federal financial assistance is provided to the System and then only for those senior bank management officials—the CEO and those senior executive officers who report directly to the CEO. This restriction was not intended to apply to association personnel. The Senate amendment clarified the bill language originally approved by the House to conform to this position.

We believe that this is a reasonable position in that it will not discourage or demoralize current employees of Farm Credit banks, and should help ensure that the banks are able to attract competent, quality staff to work through this most difficult period. Most importantly, it will ensure that essential credit delivery services to farmers are not adversely affected.

This should clarify our intent on these issues.

□ 1400

I will be happy, indeed happy to go into any area of the country where we are needed or where we are wanted and do any type of a hearing that is

necessary as far as farm credit is concerned.

Mr. STANGELAND. Mr. Speaker, I thank the chairman of the subcommittee, and I just want to reiterate that my comments were not meant to reflect on the gentleman or his committee.

I know that you have done a yeoman job, but I think it is safe to say that while you started hearings in March, the Governor of the Farm Credit Administration would never ever admit to the seriousness of the problem until late September or early October. It was not the committee's fault, it was not your fault, it was their fault, and that is what forced you to act in haste. I apologize if the gentleman dislikes the word, "haste." I do not mean it as a reflection. But I do want it to be in the RECORD that there are some of us who are concerned about what we are doing and have done, and I want to be sure about this. I know you are a reasonable man and will come back and correct the things next year that can be corrected.

Mr. Speaker, I thank the gentleman very much.

Mr. JONES of Tennessee. Mr. Speaker, will the gentleman yield to me once more?

Mr. STANGELAND. I am more than happy to yield to the gentleman from Tennessee.

Mr. JONES of Tennessee. Mr. Speaker, I appreciate that very much.

I will say to the gentleman that I am aware of the fact we have had our problems with the farm credit group as much as anybody else because I was here for the 1970 update of the program, and then again in 1980, and history shows, especially in 1980, that we barely got a bill signed due to the fact that the Farm Credit Administration would not agree to what this subcommittee and what this Congress thought was right. They would not agree to it. They finally did succumb to what we wanted to do, and that is where we are today.

Mrs. SMITH of Nebraska. Mr. Speaker, will the gentleman yield?

Mr. STANGELAND. I am happy to yield to the gentlewoman from Nebraska.

Mrs. SMITH of Nebraska. Mr. Speaker, I thank the gentleman for yielding.

I appreciate this opportunity to make a brief statement on behalf of my constituents out in the Third District of Nebraska. They have more concern about farm credit than about any other issue at the present time, and they are going to have a far happier Christmas if we can get this bill sealed, signed, and delivered.

Let me say that the chairman of the subcommittee, the gentleman from Tennessee [Mr. JONES], the chairman of the full committee, the gentleman from Texas [Mr. DE LA GARZA], the gentleman from Illinois [Mr. MADIGAN], and the gentleman from Missouri [Mr. COLEMAN] have been great in the way they have worked so hard to bring this bill to the floor. I talked to the President by phone the other day, and he said he is eager to sign it. So again I thank my colleagues.

Mr. Speaker, I rise in support of this legislation designed to assist and reform the Farm Credit System.

As members of the 99th Congress, we need to take necessary action to pass farm credit legislation before Christmas adjournment.

This bill, S. 1884, is vital to American agriculture. Thousands of farm and ranch families will have a much merrier Christmas if they know that the farm credit bill has been signed, sealed, and delivered.

The quicker Congress acts on farm credit, the faster investors will gain confidence in the System, thereby lowering interest rates to hard-pressed borrowers.

Our President has agreed to sign this most important piece of legislation.

Last night, by unanimous approval, our other body approved this legislation. It is now up to us to keep the ball rolling for all of American agriculture.

This bill will do the following:

First, S. 1884 will stabilize the FCS, reducing the System's cost of funds in the money markets and thereby reducing interest rates to borrowers.

Second, this bill will require new protections for FCS member-borrowers through improved access to individual borrower information, loan appeal procedures, and foreclosure forbearance policies.

Third, this legislation is needed to help prevent continuing deterioration of land values across our country which would further exacerbate current problems.

Fourth, access to Treasury funds is allowed only when need is established, and is entirely discretionary with the Treasury Secretary.

Fifth, exhaustive congressional hearings by numerous committees have determined as immediate need for action—time is of the essence!

Sixth, the Senate has passed a companion bill, and the administration has voiced support for farm credit legislation.

Seventh, if the System should default on their bond issues, severe repercussions would be felt by commercial banks, savings and loan associations, credit unions, insurance companies, States and municipalities, pension funds, and individuals located throughout the United States.

Nebraska has been one of the hardest hit States when it comes to farm credit. All of us have read and heard countless statistics concerning this problem. But they bear repeating, for they drive home so well the seriousness of the disaster confronting us. The farm debt picture is vividly frightening:

Widespread occurrences of insolvency;

USDA data shows that one out of every three commercial farms is experiencing severe financial stress;

One of five commercial farms has a negative cash flow;

In Nebraska, our farmers are faced with the highest average debt-to-asset ratio of any State.

And we must keep in mind that since these figures were gathered, there has been a disastrous downslide in livestock and grain prices;

Cattle prices are at their lowest levels in 7 years;

Cattlemen in Nebraska and across the Nation are losing around $150 per head on fed cattle;

Wheat and corn prices are below many farmer's production costs;

Corn has sold for less than $2 for fall delivery in many Nebraska towns.

The downward pressure on prices has intensified as this year's harvest was brought in. The USDA forecasts bumper crops for 1985:

This includes a record-setting corn crop of 8.72 billion bushels or 221 metric tons;

Total feed grain production for 1985 that is expected to total 271 million metric tons, 35 million above last year.

Prices of many commodities have already plunged to their lowest levels since 1978, about 15 percent lower than 1984 levels. And with this economists are predicting a drop in farm income—to between $25 and $29 billion, down from an estimated $34.5 billion in 1984. Obviously, when this income shrinks, farmers cannot pay their obligations and face ruin. USDA estimates that about one in three commercial farmers cannot pay his bills.

Already 6.5 percent of the farmers in the 7-state region of the Kansas City Federal Reserve District (which includes Nebraska) went out of business between October 1984 and March of 1985. This is an annual rate of 13 percent. With about 57,000 farms left in Nebraska, this is 7,410 per year or 20.3 per day—nearly 1 per hour! This is the most liquidations since the 1930's. Charles Schroeder, director of Nebraska's Agriculture Department, has predicted that "10–15 percent—6,000 to 9,000—of Nebraska's farmers will be displaced by liquidation, bankruptcy, or foreclosure in the next 6 to 9 months.'"

Add to this the high value of the U.S. dollar, which has placed a prohibitive "tax" on our export commodities; the worst grasshopper infestation in decades; the most severe drought in parts of Nebraska in 80 years; the most State bank failures since the Great Depression (113 as of December 13, 1985, compared to 79 in all last year and 48 the year before); and the largest decline in land values in the history of the State (down over 48 percent).

The list of variables goes on and on. Yet these are only the cold, hard numbers—the facts and figures. There are other more disturbing realities of this urgent situation—the human drama that surrounds farm families when they are forced to leave agriculture—or try to hang on.

A self-sacrificing farm family comments. We are "depriving ourselves of most of life's offerings * * * to pay for those who

have failed. God only knows how we are trying. Everything we buy is high. Everything we sell we take what we can get."

A Nebraska farm wife observes her husband. I "looked across the table this noon and my husband's hands looked more like a piece of leather rather than skin. Has lost weight too, will be glad when this slaughter is over * * *."

And the excerpts of a letter I received from RaeJean Skalicky, a young girl from Verdigre, NE: "if it weren't for the food pantry in Verdigre we would have to sell out and move * * *. This is because the FDCI takes everyone's money and then gives them nothing to live on * * *."

These are the very people who have built the foundation of this great country of ours. Many of these families are the descendants of pioneer homesteaders who earned their land the hard way. They came to depend on the financial judgment and guidance of the FCS. We are now finding out that even the FCS has feet of clay.

This bill is essential to the future of agriculture and I ask my colleagues to vote for this bill.

Mr. STANGELAND. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas [Mr. DE LA GARZA]?

There was no objection.

A motion to reconsider was laid on the table.

PARLIAMENTARY INQUIRIES

Mr. HARTNETT. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state it.

Mr. HARTNETT. Mr. Speaker, I would beg the indulgence of the Chair. I would like to inquire parliamentarily and procedurally, what will be the parliamentary and procedural manner by which we will handle the continuing resolution if and when it should arrive here?

The SPEAKER pro tempore. The Chair will state to the gentleman in response to his question that there are no procedures in place at this time to consider that question. As soon as the Chair finds out the procedures, I could respond, but not at this time.

Mr. HARTNETT. Mr. Speaker, the reason for my procedural and parliamentary inquiry is that this Member understands that there has been some agreement made among the majority, among the leaders of the majority party, that there will be no recorded votes even if the continuing resolution is made available within the next few hours, that there will be no recorded votes by this body until tomorrow after 12 o'clock noon when the shuttle comes back from Florida. I just wondered whether or not the Chair was aware of that or whether the leadership would comment on that.

The SPEAKER pro tempore. The Chair is not aware of that at all. The Chair is not in a position to respond to that inquiry.

Mr. HARTNETT. Mr. Speaker, could I make a unanimous-consent request to make a request of the leader to vary from the schedule for the purpose of inquiring of the majority leader the balance of the day's schedule of legislation and the schedule perhaps for the balance of the week?

The SPEAKER pro tempore. There is no one here that the Chair sees to respond to that at this time.

Mr. HARTNETT. Mr. Speaker, I just wanted to make that unanimous-consent request to inquire of the leadership what the schedule for the balance of the week might be for legislation today and tomorrow. But there is no one here that would respond? Is that what the Chair said?

The SPEAKER pro tempore. The Chair will attempt to accommodate all Members as soon as the schedule is made available to myself.

Mr. HARTNETT. I thank the Chair.

Mr. Speaker, I would like to reserve the right to object, and I would like to ask the gentleman from Texas [Mr. DE LA GARZA] if he has any information as to what the legislation might be for the balance of the day and for tomorrow, if that is possible.

Mr. DE LA GARZA. Mr. Speaker, the gentleman kept looking at me when he mentioned "majority leader," and I regret to inform him that I am not the majority leader; I only deal in agriculture, and I know of no deals or no arrangements. I will be here with the gentleman when and if a vote is called.

Mr. HARTNETT. I thank the gentleman and I thank the Chair.

GENERAL LEAVE

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the adoption of the Senate amendments to the House amendment to the Senate bill, S. 1884.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

REPRESENTATIVE BILL NELSON IS FIRST HOUSE MEMBER TO ENGAGE IN A SPACE MISSION

(Mr. BONKER asked and was given permission to address the House for 1 minute.)

Mr. BONKER. Mr. Speaker, as we meet today one of our distinguished colleagues is at the Kennedy Space Center preparing for lift-off on board the space shuttle *Columbia*. I know all of us are proud and pleased that Representative BILL NELSON will be the first Member of the House of Representatives to be a crew member on a NASA space mission.

The *Columbia* space shuttle will be launched Thursday morning and will spend 5 days in outer space.

As chairman of the Subcommittee on Space Science and Applications with jurisdiction over this Nation's space programs and because he represents the 11th Congressional District of the State of Florida, which include the Kennedy Space Center, BILL NELSON is a unique choice for this mission. He is also in superb physical condition and has met the demands and rigorous training required of today's astronaut.

In flight, BILL will be learning firsthand how the Space Program operates and how the acquired knowledge will contribute to developing a permanent U.S. space station. He certainly will return better informed about our Space Program and better equipped to deal with his responsibilities as chairman of the subcommittee that oversees the Space Program.

To Representative BILL NELSON and his fellow astronauts on the space shuttle *Columbia*, we wish them a safe and successful journey.

PERMISSION FOR COMMITTEE ON FOREIGN AFFAIRS TO HAVE UNTIL MIDNIGHT, JANUARY 10, 1986, TO FILE A PRIVILEGED REPORT

Mr. FASCELL. Mr. Speaker, I ask unanimous consent that the Committee on Foreign Affairs may have until midnight, January 10, 1986, to file a privileged report.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

Mr. FRANKLIN. Mr. Speaker, reserving the right to object, I will not object; I simply wish to ask the chairman of the committee, has this been cleared with the minority?

Mr. FASCELL. Mr. Speaker, if the gentleman will yield, does the gentleman refer to the filing of the report?

Mr. FRANKLIN. Yes.

Mr. FASCELL. Yes; it was approved by the entire committee.

Mr. FRANKLIN. Mr. Speaker, I do not object.

Mr. FASCELL. Mr. Speaker, that is not as far as the date is concerned. I do not want the gentleman to misunderstand me. I have been directed by the Committee on Foreign Affairs by a vote of that committee to file this report, and that is what I am trying to do.

Mr. FRANKLIN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

OPPOSING THE SOVIET UNION'S INVASION AND 6-YEAR OCCUPATION OF AFGHANISTAN

Mr. SOLARZ. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate joint resolution (S.J. Res. 240) opposing the Soviet Union's invasion and 6-year occupation of Afghanistan against the national will of the Afghan people, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. LAGOMARSINO. Mr. Speaker, reserving the right to object, I yield to the gentleman from New York [Mr. SOLARZ] so he can explain to us what this resolution does.

Mr. SOLARZ. Mr. Speaker, I will be very brief.

This resolution has already been adopted by the other body. It condemns the Soviet Union for its invasion of Afghanistan as we approach on December 27, 1985, the sixth anniversary of that day which will truly live in infamy.

Over the course of the last 6 years, as a result of the Soviet invasion of Afghanistan, a quarter of the Afghan people have been driven into exile. Hundreds of thousands of Afghans have been killed. The Soviet Union's Army of occupation has engaged in the carpet bombing of the countryside and has waged war in the most cruel and barbarous fashion.

This resolution not only condemns the Soviet Union for its invasion and occupation of Afghanistan, but it also pays tribute to the heroism of the Afghan people in their just struggle against the occupation of their country by the Red army.

□ 1410

The resolution also takes note of the fact that the Soviet invasion of Afghanistan has repeatedly been condemned by the United Nations, the Nonaligned Movement, the European Parliament, the Islamic Conference, and the Association of Southeast Asian Nations.

It expresses the sense of the Congress that the United States should in addition to condemning the invasion of Afghanistan express its support for a negotiated political settlement of that conflict which would be based on the complete and total withdrawal of Soviet forces from that country and the restoration of the independence and nonaligned status of Afghanistan, the self-determination of the Afghan people and the return with honor of the Afghan refugees to their own nation.

I particularly want to pay tribute, Mr. Speaker, to my very good friend and colleague on the Foreign Affairs Committee, the gentleman from California [Mr. LAGOMARSINO] who has been waging a heroic struggle of his own to focus attention here in the Congress and around the country on the depredations of the Soviet Union in Afghanistan. It was particularly at his urging that I agreed to seek unanimous consent to consider this resolution today before the House adjourned for the year.

I know there are many other Members who share our views about the need to continue focusing attention on this problem lest we forget about the heroic struggle which continues to be waged at this very moment.

Mr. LAGOMARSINO. Mr. Speaker, further reserving the right to object, I yield to the chairman of the Foreign Affairs Committee, the gentleman from Florida [Mr. FASCELL].

Mr. FASCELL. Mr. Speaker, I rise in support of Senate Joint Resolution 240. This resolution marks the sixth anniversary of the Soviet invasion and occupation of Afghanistan. More importantly it justly honors the forces of the Afghan people who have been valiantly opposing the Soviet aggression.

The Soviet invasion of Afghanistan and the Soviet refusal to withdraw—despite repeated urging that they do so—remain the most flagrant violations of international law. The Soviet Union refuses to accept reasonable political settlement, despite repeated condemnation by the Nonaligned Movement, the United Nations, and many other international organizations. Settlement is available through the United Nations. Yet, the Soviet Union has ignored opportunities to secure peace.

For 6 years now, the Afghan people have endured tremendous suffering. Noncombatants, women, and children, have not been spared. The most basic necessities of the civilian population—their crops and livestock—have been targets in the Soviet war against innocent people.

Particularly because of this human suffering, it is important that the world continue to oppose the Soviet war in Afghanistan. With this resolution, the United States will be clearly reminding the Soviet leadership of the firmness of the opposition of the American people to the Soviet actions.

I urge adoption of the resolution.

Mr. LAGOMARSINO. Mr. Speaker, I want to pay tribute to the chairman of the subcommittee, the gentleman from New York [Mr. SOLARZ] and the chairman of the full committee, the gentleman from Florida [Mr. FASCELL] for helping to bring this matter to the floor today. It did require asking for unanimous consent and I appreciate both gentlemen being willing to do that.

Mr. Speaker, once again we approach the Christmas season and, once again, we struggle to complete all the necessary and pending business of the Congress. Yet, in our rush to adjournment, we cannot and should not forget those for whom there is no peace; there is no joy; there is no solace. We cannot forget, especially, the brave and courageous people of Afghanistan.

It is for this reason that I, along with Senator HUMPHREY in the Senate, have introduced legislation to condemn the 6 years of aggression waged against the independent country and people of Afghanistan; to support continued aid for the Afghan population, both inside and outside Afghanistan; and to urge the expeditious conclusion of a negotiated settlement based on—

The complete withdrawal of all foreign troops;

Restoration of the independent and nonaligned status of Afghanistan;

Self-determination for the Afghan people; and

The return of the Afghan refugees with safety and honor.

Mr. Speaker, Senate Joint Resolution 240 is simple and straightforward. It seeks not only to condemn the Soviet Union, under Mikhail Gorbachev, for its brutal, illegal, and immoral subjugation of the Afghan people, but also to insure that the people and nations of the world know that this Congress still cares about the plight of the people and culture of Afghanistan.

Let me for a moment, Mr. Speaker, read from a recent Washington Post editorial, in part, the editorial entitled "Afghanistan: This Is Genocide," reads:

> Soviet troops with their Afghan clients have driven 4 million people out of the country and perhaps another 2 million out of their homes. Massively and indiscriminately, they bomb civilians—they bomb funerals. They destroy villages, crops and agricultural facilities. For the children, they drop cute, limb-shattering booby traps disguised as harmonicas and birds. Torture [according to the recent United Nations-sponsored "Ermacora Report" on human rights inside Afghanistan] is "commonplace" and the operation of the judicial system "creates an atmosphere of insecurity and anguish." "There is apparently no health care for the majority of the population. As a consequence, the infant mortality rate has reached 300 and 400 per 1,000." Civilian deaths number "approximately 500,000."

Furthermore, Mr. Speaker, the editorial states:

> When half the population is uprooted and a third driven into exile, when infant mortality reaches plague levels, when half a million civilians die and uncounted millions of others are maimed and malnourished, when, as Professor Ermacora reports, the situation is getting worse, all this moves Soviet conduct well beyond what is ordinarily called "human rights violations." The word that comes to mind when one reads this report is genocide.

I also will enclose a New York Times editorial entitled "Soviet Toys of Death."

Mr. Speaker, there can be no denying that a genocide is truly underway today in the Afghanistan. The Soviets have planned it that way, just as they planned the forced famine of the Ukraine in the early 1930's. How can we do anything but condemn this blatant and savage attack on, as the U.S. Ambassador to the United Nations, Vernon Walters, says, "everything Afghan"?

Mr. Speaker, the resolution before the House today must be approved, in order to send a very clear and very strong statement to the Soviet Union, and to the rest of the world. That message reads simply: We refuse to accept that the Afghan nation has been conquered, we refuse to allow the plight of Afghanistan to fade from memory; we refuse to accept the illegal and immoral occupation of that south Asian nation; in essence, we refuse to let Afghanistan die.

Very rarely in the course of human events does one confront such a tragedy as the invasion and continued occupation of Afghanistan. The evidence in this case is clear cut and available to the world, despite the fact that the Soviets continue to try to hide their crimes against the Afghans from the rest of humanity. The events unfolding in Afghanistan are probably the greatest threat to world order today.

And, Soviet imperialism, Mr. Speaker, is the greatest danger to world peace. All we need to do is to look at the events unfolding in Afghanistan. Despite their historical claims to the future of mankind, there is Afghanistan. Despite their continued professions of peaceful intentions, there is Afghanistan. Despite their statements that it is the United States which is responsible for the "dangerous world situation," there is Afghanistan. Despite their claims of the need for a world alliance against "western imperialism," there is Afghanistan.

Mr. Speaker, I cannot help but be moved by the reports I read emanating from the refugee camps along the Pakistan-Afghan border region. I am certain that most of my colleagues are also moved by such tragic events. For further information on this crucial foreign policy and humanitarian matter. I call to the attention of my colleagues the work of the Congressional Task Force on Afghanistan, which I cochair, as well as the recent report in the United Nations on human rights abuses in Afghanistan by a dedicated international civil servant, Prof. Felix Ermacora—who the Soviets, incidentally, now call a Nazi. There is certainly no lack of solid information on the tragic plight of the Afghan nation if one is interested in discovering the truth about the Soviets barbarous policies there.

In sum, Mr. Speaker, I urge my colleagues to review the facts about Afghanistan. They will undoubtedly come to the conclusion I reached: There is a brutal war under there, claiming millions of innocent victims, and destroying what was once a peaceful and harmonious balance between tribal customs, rugged mountainous terrain and Islamic faith. Clearly, the global ambitions of the Soviet Union has destroyed that delicate balance, Mr. Speaker. It is up to us to condemn the Soviets for this. The people of Afghanistan and the world demand nothing less.

I appreciate the support of the cosponsors of this important resolution, and urge the adoption of House Joint Resolution 469. Thank you, Mr. Speaker.

[From the New York Times, Dec. 10, 1985]

SOVIET TOYS OF DEATH

A powerful antiwar poster that Americans saw everywhere in 1970 showed bodies heaped in the Vietnamese village of My Lai. The caption was terse, taken from an inquiry into that massacre perpetrated by Americans: "Q. And babies? A. And babies."

No such posters draw attention to the ghastly, deliberate crippling of children by Soviet invaders in Afghanistan. Indeed, having grown skeptical of Presidential anecdotes, some Americans may wonder if Ronald Reagan was talking through his evil-empire hat when the accused Russians of sowing insurgent areas with bombs disguised as toys. The evidence isn't anecdotal. The evil is real.

It lies exposed in a report to the United Nations Commission on Human Rights. This inquiry, the first ever by the U.N. into abuses charged against a Communist state, seems to have been scrupulously conducted by an Austrian legal expert, Felix Ermacora. Barred from Afghanistan, he gathered incontrovertible testimony of the slaughter of civilians from Afghans who fled to Pakistan.

The report asserts: "The most horrible type of incident was that caused by the explosion of antipersonnel mines and especially of children's 'toys.' Many witnesses testified that children had been very seriously wounded, having their hands or feet blown off, either by handling booby-trap toys they had picked up along the roadway, or by stepping on them. . . .

"The types of booby-trap toys encountered include those resembling pens, harmonicas, radios or matchboxes, and little bombs shaped like a bird. This type of bomb, consisting of two wings, one flexible and the other rigid, in the shape and colors of a bird, explodes when the flexibile wing is touched.

"The Special Rapporteur was also able to obtain a number of photographs, especially those of children between 8 and 15 years of age, with hands or legs blown off, either by handling booby-trap toys or during the explosion of mines."

To the generalized horror of a war that has claimed 500,000 lives since 1979, there is thus added the special horror of toys of death. No wonder the Soviet bloc tries to defame the messenger. It contends that Mr. Ermacora is pro-Nazi because he served Hitler's army, as a private. Tellingly, the Soviet Union found nothing wrong with his credentials when he presented reports about human rights abuses in Chile and South Africa.

The issue isn't Mr. Ermacora, but the validity of his charges. If they are false or exaggerated, why not open Afghanistan to independent observers? As long as this dirty war is sealed from sight, someone should photograph those maimed youngsters and plaster posters everywhere, with the caption: "Q. And children? A. Yes, especially children."

Mr. GILMAN. Mr. Speaker, will the gentleman yield?

Mr. LAGOMARSINO. I yield to the gentleman from New York.

Mr. GILMAN. Mr. Speaker, I thank the gentleman for yielding. I want to join the gentleman in his remarks.

The gentleman from California [Mr. LAGOMARSINO] has been a leader in the Congress in focusing attention on this brutal invasion and occupation of Afghanistan by the Soviet Union.

I want to commend our distinguished subcommittee chairman, the gentleman from New York [Mr. SOLARZ] for helping to bring this measure to the floor at this time.

When we talk with the Soviets about human rights, they say they have a different definition of human rights than we do and they continually remind us of our homeless, our blacks, and our Indians.

I think it is appropriate that we remind them with regard to human rights violations of the manner in which they are violating millions of people in Afghanistan, forcing them to leave their homes, to flee to Pakistan.

Along with the gentleman from California [Mr. LAGOMARSINO], our delegation visited some of those refugee camps in Pakistan and saw the millions of people who are living in tragic circumstances because of the war and bloodshed that continually is inflicted upon them in their homeland.

I hope that eventually we will see a peaceful negotiation of this occupation by the Soviet Union, this ruthless occupation. Certainly this resolution helps to focus our attention on the need to do just that and to continue to assist those refugees.

Mr. Speaker, I urge my colleagues to support the measure.

Mr. MOODY. Mr. Speaker, will the gentleman yield?

Mr. LAGOMARSINO. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Wisconsin [Mr. MOODY].

Mr. MOODY. Mr. Speaker, I thank the gentleman for yielding me this time.

I simply rise to express my strong support for this resolution. As someone who has lived and worked in two adjacent countries of Afghanistan and who knows the frontier region quite well, I want to express myself strongly for this measure.

Mr. Speaker, I rise today in support of this important legislation opposing the Soviet invasion of Afghanistan. For 6 long years, the Soviets and the puppet government of Babrak Karmal have been waging a brutal, bloody, and senseless war of attri-

tion against the Afghan people. The United Nations has repeatedly condemned the Soviet presence and called for the complete removal of all Soviet troops from Afghanistan. But in an all too-familiar a pattern, the Soviets turn a deaf ear to world outcry.

Some years ago, I worked in two countries adjacant to Afghanistan, Pakistan and Iran, and feel strongly on this subject. The continuing tragedy of Afghanistan has deeply affected Pakistan in particular hundreds of thousands of refugees have fled to that country. Millions of other Afghans have been displaced within their own country.

The United States must continue to press for a withdrawal of Soviet troops. Yet, we must also realize that the Soviets need an incentive to settle the problems of Afghanistan. Until that happens, the United States should continue to supply much-needed military equipment and supplies to the mujahidin freedom fighters.

This struggle goes on, and even the most optimistic observers acknowledge that there is no end in sight. Thousands of Afghans have been killed, hundreds of villages burned or totally devastated by Soviet "carpet bombing."

Thousands of Afghan children have been sent to the Soviet Union for "schooling and brain washing." Perhaps this is the most tragic consequence of the Soviet invasion, because even when the Soviets eventually pull out of Afghanistan, it will have set the stage for future subversion, tyranny and control.

We must do everything possible to press for a negotiated settlement now so as to avoid the complete destruction of another freedom loving and once independent nation.

Mr. LAGOMARSINO. Mr. Speaker, further reserving the right to object, I just want to point out that it has been almost 6 years, next week it will be 6 years since the Soviets invaded Afghanistan. That genocidal war has gone on long enough. I think it is entirely appropriate that we continue to focus attention on it.

Mr. RUDD. Mr. Speaker, today, we are considering House Joint Resolution 469—opposing the Soviet Union's invasion of Afghanistan and the 6-year occupation. This is a commemorative of sorts, although a grisly one. It marks Soviet oppression in its most vile form. Where besides the filling, thousands of children are sent to the Soviet Union for reeducation. The children's ties with their culture and their families are severed. Then they are later returned to spy on their former loved ones, those still alive.

Afghanistan is also the country where the Soviets practice and experiment with chemical weapons. People die horrible and agonizing deaths just to satisfy a few scientists in the Soviet Union's quest to wage effective chemical warfare. No wonder 25 percent of the population has fled the country. But fleeing terror is customary when Communists take power. But the Soviets underestimated the strength and the spirit of the Afghani people. They had thought that by replacing one puppet with another they might win the confidence of the people. They had thought that an ill-armed and disorganized resistance would not be able to stand against their mighty array. They had expected the Afghans to build a minaret to the memory of 100,000 armed guests.

But nothing of that sort happened. They were faced with bullets. Many of the ordinary soldiers were surprised to find that the Afghans had turned to shooting at them—a clear breach of the Afghan tradition of hospitality.

I say to the Soviet apologists of this world that they suffer from historical ignorance and moral blindness. They have not shouted the plight of the Afghans from the rooftops. And the only way the free peoples of Afghanistan will survive is through our help.

The whole problem in Afghanistan is the presence of Soviet troops. All the other problems take root from that one central difficulty. Therefore, any solution to this problem must include total withdrawal of the Soviet forces from Afghanistan.

How do we achieve this? The answer is both aid and negotiation. We must supply enough aid to the freedom fighters to make it in the best interest of the Soviets to negotiate, and if there were no resistance in Afghanistan, then the world would soon forget their cause—as they have done in other places.

This resolution we are considering today, accomplishes these goals. It calls for continued aid to the Afghan population and it urges a political settlement based on the withdrawal of Soviet troops. I commend this legislation to my colleagues. Thank you, Mr. Speaker.

Mr. BROOMFIELD. Mr. Speaker, on December 27, 1979, the Soviet Union launched its brutal invasion of Afghanistan. Since that day, the Soviets have sought to consolidate their control over the country with a repressive and ruthless occupation force. As a result, over one-fourth of the prewar population has fled the country and now constitutes the largest refugee population in the world. The Soviets and their puppet regime in Kabul have stepped up their military campaign against civilians in an apparent attempt to depopulate the country.

The Soviet invasion of Afghanistan and the continued murderous occupation of that country has been repeatedly condemned by the Non-Aligned Movement, the United Nations, and European Parliament, the Islamic Conference Organization, and the Association of Southeast Asian Nations. This important resolution expresses congressional condemnation of 6 years of Soviet aggression in Afghanistan, urges continued aid to Afghans both inside and outside the borders of their native land, and urges expeditious conclusion of a negotiated political settlement in that country which would ensure self-determination for the Afghan people.

I want to commend the gentleman from California [Mr. LAGOMARSINO] for sponsoring this legislation in the House and I urge my colleagues to give it their full support.

Mr. LAGOMARSINO. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York [Mr. SOLARZ]?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 240

Whereas December 27, 1985, will mark six years since the Soviet Union invaded the independent nation of Afghanistan;

Whereas, as a result of said invasion, over one-fourth of the prewar population has fled the country and now constitutes the largest refugee population in the world;

Whereas Soviet and Kabul regime forces have stepped up their military campaign against the civilian population, including attacks on Pakistan's territory;

Whereas Afghan freedom fighters have frustrated all Soviet attempts to suppress them and withstood unrelenting attacks by Soviet forces with unmatched courage and sacrifice and with high morale; and

Whereas the Soviet invasion and repression of the Afghan nation and people has been repeatedly condemned by the Nonaligned Movement, the United Nations, the European Parliament, the Islamic Conference Organization, and the Association of Southeast Asian Nations; Now, therefore, be it

Resolved by the Senate and House of Representatives of the Unted States of America in Congress assembled, That the Senate of the United States of America—

(1) condemns the six years of aggression waged against the independent country and people of Afghanistan;

(2) urges expeditious conclusion of a negotiated political settlement based on—

(A) the complete withdrawal of all foreign troops;

(B) restoration of the independent and nonaligned status of Afghanistan;

(C) self-determination for the Afghan people; and

(D) the return of the Afghan refugees with safety and honor.

AMENDMENT OFFERED BY MR. SOLARZ

Mr. SOLARZ. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SOLARZ: In the resolved clause, following the words "Congress assembled, That", delete the words "the Senate of".

The SPEAKER pro tempore. The question is on the amendment offered by the gentleman from New York [Mr. SOLARZ].

The amendment was agreed to.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SOLARZ. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate joint resolution just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

CORRECTING THE ENROLLMENT OF HOUSE JOINT RESOLUTION 187

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent from the immediate consideration of the concurrent resolution (H. Con. Res. 262) correcting the enrollment of House Joint Resolution 187.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

Mr. LAGOMARSINO. Mr. Speaker, reserving the right to object, I have discussed this matter with the gentleman. It is a necessary and technical change, and I hope it is approved.

I yield to the gentleman from Ohio.

Mr. SEIBERLING. Mr. Speaker, I thank the gentleman for yielding.

The Senate is holding up the enrollment of House Joint Resolution 187 until this correction is made in order that when the resolution goes to the White House it will be technically correct in every respect. This is a minor omission that occurred during the final markup of the legislation.

Mr. LAGOMARSINO. Mr. Speaker, I thank the gentleman for his explanation, and I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 262

In enrolling the joint resolution (H.J. Res. 187) to approve the "Compact of Free Association" and for other purposes, the enrolling clerk is directed to make the following change:

In the second sentence of subsection (l) of section: 106, after the words" Fish and Wildlife Service" insert "the National Marine Fisheries Service,".

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

IF THE REPUBLICAN COMMITTEE IS SERIOUS, HERE IS A GOLDEN OPPORTUNITY FOR DISCLOSURE

(Mr. ST GERMAIN asked and was given permission to address the House for 1 minute, to revise and extend his remarks, and to include extraneous material.)

Mr. ST GERMAIN. Mr. Speaker, the National Republican Congressional Committee claims to be beating a hasty retreat from its expensive media campaign to promote the release of income tax returns.

Faced with my bill, H.R. 3935, which would put their announced disclosure program into law, the National Republican Congressional Committee now says that there are questions about the "tax problems" of only one of the House's 435 Members.

With the presumed sanctity of IRS records, the statement of NRCC official, Russ Schriefer, is indeed interesting. Mr. Schriefer has either pierced the confidentiality of the IRS, or he is a visionary.

□ 1425

For the information of the National Republican Congressional Committee, I have a signed statement that I now offer and publish in the CONGRESSIONAL RECORD from my tax accountant, who confirms that my returns are not being audited or questioned for the years 1979 through 1984 except for the issue of one deduction that I have long since publicly disclosed.

Now all stout-hearted Republican Members of the House and Senate who march to the tune of their National Republican Congressional Committee must do two things, cosponsor my disclosure things, put their taxes in the RECORD—when you do I will—as a result of a legislative action of the Congress, and publish in the CONGRESSIONAL RECORD a statement from their tax accountants about the status of their returns, the returns of the Republican Members of Congress, for 1979 through 1984, to prove they are not being audited or questioned.

The voters of Rhode Island, the target of the NRCC media blitz about income tax returns, will be watching with interest.

The statement referred to follows:

MEMORANDUM FROM KAPLAN, MORAN & ASSOCIATES, LTD., CERTIFIED PUBLIC ACCOUNTANTS, PROVIDENCE, RI

To: Congressman F. St Germain.
From: Richard A. Kaplan, CPA, JD.
Date: November 25, 1985.
Subj: Summary of Investment in Coal Partnerships.

During the period 1978–1981, when the world-wide oil shortage reached serious proportions, coal was being promoted as an alternative source of energy. In this environment, many partnerships were organized and promoted to acquire or lease property for the mining of coal. You, along with hundreds of others, were solicited for and invested in such partnerships organized by Swanton Corporation. Thousands of other individuals invested in similar partnerships organized by other syndicators.

Traditionally, partnerships in the business of developing energy resources are structured to utilize tax incentives established to attract investment into this high-risk field. The development, mining, and sale of coal resources, like oil and gas, is a business that requires substantial risk capital. Generally, investors in this field are provided with significant tax deductions in the initial years (during the development period) and are subject to the payment of income taxes in later years, if and when the development operations produce oil, gas, or coal saleable at competitive prices.

As we all know, the energy crisis has eased and gas prices have fallen; accordingly, the market for coal has not materialized as expected. As a result, the partnerships in which you invested have not been successful and have developed serious financial difficulties. Consequently, the partnerships and the developer, Swanton Corporation, have been petitioned into bankruptcy.

In addition, the IRS has audited the tax returns of the partnerships and is claiming that certain deductions reported to the partners were not allowable. The partnerships have engaged tax counsel to represent them and protests have been filed with the IRS. Settlements are being discussed between the IRS and tax counsel; however, because the issues are extremely technical, at this time it is not possible to determine the outcome.

If the IRS prevails with its claims, the partners will be liable for prior years' income taxes and related interest.

Your tax returns have been prepared accurately, and in accordance with the instructions submitted to you by the partnerships' accountants. As a limited partner, you had no control over the recordkeeping or tax accounting for the partnerships; and, as required by IRS rules, we included on your returns the tax information reported to you by the partnerships on Form K-1.

These K-1 forms were prepared by independent CPA's engaged by the general partners and were relied upon by you and us to be in compliance with existing tax law, and supported by the tax opinions issued by the partnerships' legal counsel.

Your last acquisition of an interest in a coal partnership was in 1981, a year before the IRS notified you and the other partners that they were questioning the tax deductions.

Your tax returns are not being audited or questioned, except for the deductions related to the coal partnerships.

If I can be of further assistance with this matter, please let me know.

RICHARD KAPLAN.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain 1-minute requests and special orders at this time, after which the House will recess and return later to conduct regular business.

NOT A PENNY FOR HOUSING THE HOMELESS

(Mr. KANJORSKI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ST GERMAIN. Mr. Speaker, will the gentleman yield?

Mr. KANJORSKI. I yield to the gentleman from Rhode Island.

Mr. ST GERMAIN. I thank the gentleman for yielding.

Mr. Speaker, as the gentleman from Pennsylvania is a member of our Committee on Banking, Finance and Urban Affairs, I would like to state that it has come to my attention that the

other body has placed in the continuing resolution some special legislation for special people. There is a Member of the other body who, in 1983, fought tooth and nail to prevent a housing bill from being adopted in the Congress.

Again this year, Members will recall we put our housing bill into reconciliation. Once again, the same individual Member of the other body is saying, "No, no, no. He is using parliamentary chicanery to deny the people of this Nation safe, decent, sanitary housing."

The SPEAKER pro tempore. The gentleman should not refer to the other body and he is skirting very closely on offensive language.

Mr. ST GERMAIN. We shall not skirt offensively. We were just thinking of the homeless of this Nation, the people who are being evicted from buildings built with tax dollars for the profits of developers.

I am told that in that particular piece of legislation, the continuing resolution, will be over $1 billion for a project for synfuels. A billion dollars for synfuels is fine, is it not? But not one penny for the homeless. I think that is a tragedy.

FORTHCOMING TRIBUTE TO PETER RODINO

(Mr. RANGEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RANGEL. Mr. Speaker, I would like to take this opportunity to advise my House colleagues that some time this afternoon, as soon as possible, we will be paying tribute to our great friend and colleague, the gentleman from New Jersey, Mr. PETER RODINO.

A TRIBUTE TO THE HONORABLE PETER W. RODINO, JR.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. RANGEL] is recognized for 60 minutes.

Mr. RANGEL. Mr. Speaker, this is the 20th anniversary year of what may be our Nation's most significant civil rights law, the Voting Rights Act of 1965. More than any other piece of legislation, the Voting Rights Act symbolizes this Nation's commitment to include the excluded and give voice to the voiceless.

But laws, commitments, and ideals do not come about on their own—they are nurtured by legislators and inspired by leaders. For this reason, as we conclude the 20th anniversary year of this momentous legislation, it is only fitting that we pay tribute to a particular legislator and leader. This is a man who—more than anyone else—has spent his career shepherding virtually every civil rights bill through Congress and thus breathing equality and justice into the laws of this Nation. Mr. Speaker, I am referring to my good friend and distinguished colleague, PETER W. RODINO.

Twenty years ago, when the ink dried on the Voting Rights Act and it became law, it seemed—to borrow a phrase from Martin Luther King—that we had reached the mountaintop and were in sight of the promised land. At the time we thought that the uphill battles were behind us. We now know, however, that there are many peaks and valleys to cross.

But at each step in the struggle for social justice, PETER RODINO has been there. When hard work had to be done, PETER RODINO did it. When principle needed an advocate, PETER RODINO spoke it. For PETER RODINO, it is not the popularity of a cause that counts—it is the principle.

These days our task is more difficult. We are faced with an administration that offers tax breaks to segregated schools and tried to gut effective affirmative action programs. But one thing is reassuring: We can count on PETER RODINO to fight for justice. As chairman of the Judiciary Committee, PETER has said over and over that he will not tolerate any attempts to turn back the clock on civil rights. And his word is as good as his deed.

In the dark days of the last 5 years, PETER RODINO has been a guiding light. He led the fight to extend the Voting Rights Act. He was an original sponsor of the Martin Luther King holiday bill. He is working to prevent tax dollars from going to institutions that discriminate. He has stood up for jobs and housing, fought cuts in education, and stymied administration attempts to eliminate affirmative action and legal services for the poor. He is, in short, a watchdog and champion of the people.

PETER's commitment to social justice dates back long before it became a popular cause. By the time the Supreme Court struck down "separate but equal" In the landmark Brown against Board of Education case in 1954, PETER RODINO was already on record opposing that dehumanizing doctrine. In 1949—his first term in Congress—he voted to integrate the Women's Auxiliary of the Coast Guard. The following term he battled a bill that would have authorized the building of a segregated veterans' hospital.

A member of the Judiciary Committee since 1950, he fought injustice early and effectively. He was instrumental in gaining passage of every major civil rights bill—in 1957, 1960, 1964, 1965, 1966, and 1968—drafting key provisions and managing them on the floor of the House. His leadership is tested and true.

For PETER, civil rights is not just a legislative struggle. It is a human struggle. He is sensitive to the way dignity has been denied, and the way it needs to be restored—which is what he did when he joined with me in helping to obtain a Federal charter for the all-black 369th Infantry Veterans Association, whose service to this Nation had all too long been ignored.

Over the years I have worked closely with PETER on the Select Committee on Narcotics Abuse and Control. It pains him to see young people on the outs, trapped and broken by drugs, and he is determined to change it. His reason is simple: opportunities should be opened, not closed—everyone, regardless of race, creed, or station in life, deserves an equal chance. No one should be excluded, for any reason.

For PETER, that is the essence of American life. It is why he has dedicated his career to civil rights and social justice. It is why his record reads like a testament to the promise of equality and fairness as inscribed in our Constitution.

I am proud to be a colleague and friend of PETER W. RODINO—a man of integrity and vision, and a leader among peers. As for the hopes crystallized 20 years ago by the Voting Rights Act—because of PETER RODINO, I know they will be protected and fulfilled.

□ 1435

Mr. Speaker, I yield to the gentleman from California [Mr. EDWARDS] one of the outstanding civil rights advocates and chairman of the subcommittee that involves itself with the protection of our Constitution on the Judiciary Committee.

Mr. EDWARDS of California. Mr. Speaker, I'm pleased that the gentleman from New York [Mr. RANGEL] has arranged this opportunity for us to talk about our dear friend, and my chairman and leader, PETER RODINO.

It's going on a quarter of a century that I've had the privilege of having PETER as a close friend and fellow member of the Committee on the Judiciary.

I became a member of the Judiciary Committee in mid-1963. Emmanuel Celler was the chairman, and a fine one, and PETER RODINO was the No. 2 Democrat. This was the beginning of the era of the civil rights battles, so beautifully referred to by my friend, the gentleman from New York [Mr. RANGEL] when the United States finally discovered its conscience with regard to the 10th of our population which is black.

Chairman Celler needed a lot of help in those years. Fortunately in 1963 John F. Kennedy was President only to be cruelly assassinated in November of that year. But the seeds had been sown, and in 1964 the omnibus civil rights law was enacted, authorized chiefly by Chairman Celler and Congressman RODINO, his right hand, and

supported enthusiastically by President Lyndon Johnson.

This landmark 1964 civil rights bill was followed by others in that proud period of American history, and PETER RODINO was the key leader in each and every one, even more so when he became Judiciary chairman in January 1973.

This steady devotion to civil rights and to fair play continues to this day. If anything, the flame burns brighter. I know this because I chair the Judiciary subcommittee that handles civil rights matters, and never, I repeat, never, have I not had the enthusiastic support of my chairman when action to protect civil rights was needed.

Mr. Speaker, the many millions of Americans who are minorities, whether black, Hispanic, disabled, handicapped, or old, have found their champion in PETER RODINO. They trust him because he is trustworthy. He is always there when he sees discrimination or unfair treatment. His door is always open to the most lowly person, not only to the rich and famous.

I was also privileged to be a member of the Judiciary Committee chaired by PETER RODINO during the impeachment proceedings relating to President Nixon. If there was any time in PETER'S career which might be described as his finest hour, it was surely then, because it was he who was totally responsible for directing this awesome proceeding, as referred to by the gentleman from New York, one that dealt with the very foundations of our American civilization.

The history books of the Nixon impeachment inquiry have been written. The books are remarkable and unique because there is nothing in them that is not in praise of Chairman RODINO. Nothing, Mr. Speaker, not one word of criticism. There was no moment in history when the House of Representatives did not stand higher in the affection and esteem of America and the world.

For example, it was generally understood that the impeachment inquiry would be in the nature of a grand jury considering an indictment, in which case President Nixon would not be entitled to have his lawyer always present and authorized to cross-examine the witnesses.

Well, Mr. RODINO said, "No, this is not a grand jury proceeding. President Nixon should of course have an attorney present at all times, with the right to cross-examine the witnesses."

So that's the way the inquiry was established. James St. Clair was Nixon's attorney, and due process was guaranteed to the President.

My experience in the impeachment inquiry, Mr. Speaker, was typical of every relationship I have had with PETER RODINO.

I don't know how old PETER RODINO is. By my standards he is still very young. He still hears the call to battle for justice with vigor and eagerness. Each year he seems more anxious and more skillful in meeting the challenges of injustice and inequality.

Mr. RANGEL. I thank the gentleman from California. He certainly has the credentials that make him a leader in the civil rights family.

Mr. Speaker, I yield to the gentleman from Texas [Mr. LELAND].

Mr. LELAND. Mr. Speaker, I thank the gentleman from New York for allowing me to participate in this great, great expresssion of our gratitude to a great American. And let me say to the gentleman from New York that today he has done another great thing, as he does every day, and I really appreciate it.

Let me say to the gentleman also that as chairman of the Congressional Black Caucus, not officially speaking here today, but as chairman of the Congressional Black Caucus, I know that our Members would like to express themselves in this matter of honoring this great American who has done so much in the cause of helping not only black people, but people of ethnic minorities everywhere.

Mr. Speaker, on this the 20th anniversary year of the Voting Rights Act of 1965, I would like to pay tribute to a colleague who—as a legislator and leader—has singularly exemplified the democratic spirit of that law.

The Voting Rights Act was the legislative culmination of the civil rights movement. By guaranteeing the right to vote, it gave substance to the constitutional compact that "we the people"—all the people—do indeed make up this Government.

However, until this act was signed into law, this constitutional compact—so central to our democratic system of government—had all too long been denied. But fortunately, there were a few brave souls—early on—who had the courage and determination to challenge injustice and make this compact a reality. I am here today to honor one of them—my good friend and colleague, the distinguished chairman of the Judiciary Committee, PETER W. RODINO.

"We the people"—the social compact of our Constitution—has long been a guiding principle for PETER W. RODINO. He has always believed in a generous government, an inclusive government, one that does not turn a cold shoulder to the cries for help from its citizens. When one American suffers, PETER W. RODINO feels the pain. For him, a community is much greater than a collection of individuals—it is the vigorous pursuit of the common good for everyone.

For the poor and hungry, PETER W. RODINO protects programs to restore dignity.

For minorities, PETER W. RODINO champions laws to ensure equal and adequate opportunities.

For the urban dweller, he battles drugs and crime with tough-minded legislation.

For all Americans, he promotes laws to aid education, the elderly, consumers, and taxpayers.

The bottom line in his philosophy of government is really a circle—one large enough to ensure that every American from every background has an opportunity to participate in the advantages of our society.

Today, with an administration in power which seeks to overturn 25 years of civil rights progress, PETER RODINO is in the trenches fighting to ensure that our government not forget the have-nots of our society. It is a difficult struggle—against those elusive and powerful forces of apathy, indifference, and insensitivity—but PETER is there, working hard, building coalitions with likeminded colleagues.

As chairman of the Judiciary Committee, he has fought proposals to erode our antidiscrimination laws, blocked attempts to limit the power of the Federal courts, preserved legal aid for the poor, and extended the Voting Rights Act.

As a defender of the have-nots, he supports jobs for young people, security for the elderly, housing for the dispossessed, and benefits for veterans. His commitment to civil rights is profound and real, and he expects no less from the government—which is why he pushed so hard for the Martin Luther King holiday bill, as an expression of that national commitment.

But then again, as the son of an Italian immigrant, he knows what it's like to be outside the mainstream. We must remember that there were laws on the books for much of this century which set national quotas for immigration to America—all based on ethnic origin. These laws were aimed at keeping out Italians, Jews, Slavs, and the many peoples of Eastern Europe. And they stayed on the books—until PETER RODINO changed that, with the passage of the immigration reform law of 1965, which he singlehandedly guided through Congress. For him, America is synonymous with opportunity for all—and he is determined to see that prejudice of any kind will never again be an obstacle to individual advancement.

If, as Thomas Jefferson said, eternal vigilance is the price of liberty, we are fortunate to have PETER RODINO as our guardian of the Constitution. Because when the Constitution says "We the people," PETER RODINO will do everything to ensure that the true meaning of that expression is fulfilled.

1450

Mr. RANGEL. I thank the gentleman from Texas [Mr. LELAND] who has

said so eloquently what so many Americans wish that they would have the opportunity to say in this august House.

I yield to the gentleman from Connecticut [Mr. MORRISON].

Mr. MORRISON of Connecticut. I thank the gentleman for yielding, and I first want to commend the gentleman for taking this opportunity, and giving us all the opportunity to speak about the achievements on behalf of the American people by our distinguished chairman of the committee on the Judiciary, PETER RODINO, and to celebrate and to renew our commitment to the Voting Rights Act; 20 years in service to making America's promise real rather than imagined for many who have suffered discrimination in our history.

I want to associate myself with the remarks of the gentleman from Texas [Mr. LELAND]. I think his remarks were eloquent and really gave a unifying theme to what we all believe about PETER RODINO which is, he treats the words of the Constitution as a promise to be realized, not a promise to be deferred or ignored.

He ties that together as the chairman of our Judiciary Committee. I am honored to be a member of that committee. I have served on that committee for the 3 years that I have been in the Congress, and it was a special thrill, as a new Member of Congress, to have the opportunity to serve under PETER RODINO on his committee.

He has distinguished himself throughout his career in the House, and his name is synonymous with notions of fairness, fair play, opportunity, fighting against discrimination, and opening up our country to those who would like to come and share in its promise and help to build that promise for the future.

In my district, he is known as Mr. Immigration. He is known as the person that we all know who fought to abolish the quota system; to do away with ethnic discrimination in our immigration laws, and to allow the idea of coming to America to be much more fully realized around the world.

It is a record that all of us hope, in our service in the House, we could have just one small part of in looking back over our careers. Here is a man who has been in the forefront of civil rights, in the forefront of immigration, who stood tall for the Constitution and the impeachment inquiry in the early seventies; who was always thought of as the bulwark of constitutional rights, willing to take an unpopular stand if necessary to see to it that constitutional rights of people, no matter how unpopular, no matter how controversial, will be respected.

That is what has made this country great, the ideas and the ideals that PETER RODINO makes a part of his work day every day, he is someone that we all look up to and the American people should honor and be thankful for, and I thank the gentleman from New York [Mr. RANGEL] for the opportunity to participate.

Mr. RANGEL. I thank the gentleman from Connecticut, and I know exactly what he is talking about when he says he spent his freshman years starting off on the Judiciary Committee, because all of my adult life in politics I knew of PETER RODINO, and never even dreamed that I would have the opportunity to come here and to be working with him as a Member of this Congress; and then to serve on that committee at a time where his mere presence there gives so much hope to people that cannot possibly come to Congress, but those who are looking for citizenship, those who are seeking to rid our streets of drugs and certainly those who thought that the Nation was in far more serious trouble before he was able to steer the ship through those waters; that serving on the Judiciary Committee sort of makes each member a part of history.

So I know exactly how the gentleman felt when he first met with him on the committee on the Judiciary.

I yield to the gentleman from Texas [Mr. BUSTAMANTE].

Mr. BUSTAMANTE. Mr. Speaker, Congressman PETER RODINO, the distinguished chairman of the Judiciary Committee, is today being honored for his 36 years of service. There must be a great many Members of this body who have benefited from his counsel, his patience, and his sure-handed capacity as a legislator over the years. As a recently arrived colleague, I have appreciated his management of some of the most controversial business to come before the House this session. As an admirer in years past, I welcomed his persistence in managing the Civil Rights Act of 1966. Because of his efforts, America is a better place to live.

But I suspect that whatever debts we in the House owe Mr. RODINO, and they are many, his constituents in Essex County, NJ, have even more reason to stop and pay tribute to him. He has been an advocate of positions long before they became comfortable. He has insisted on a careful review of the most controversial legal issues of the post-war era. That even-handedness has earned him the respect of families as far away as south Texas and as close as the north ward of Newark. I salute Mr. RODINO and wish him well.

Mr. RODINO. I thank the gentleman for his eloquent contribution to Mr. RODINO.

I yield to the gentleman from California [Mr. BERMAN].

Mr. BERMAN. I thank the gentleman for allowing me to participate. I want to commend him for taking the initiative to pay this very worthy tribute to one of our most distinguished colleagues.

I am sure there is a part of all of us that fancies ourselves as having a real impact on our Nation's glorious history, but in reality, very few of us have made our presence felt in the fashion that the honoree of your special order has made throughout the country.

Mr. Speaker, long before I ever came to Congress or even dreamed of coming to Congress, PETER RODINO was one of those few Members of this institution that I had heard of who had so clearly affected the lives of so many millions of Americans that his name was known to all of us.

I think Chairman RODINO's particular contribution, his understanding that in a system where democratic principles are so valued and must be responded to, there is also a special place for those who understand the careful balance of our Constitution and the importance of the protections of the rights of individuals and minorities against what might happen to be the particular whims of the majority at any given time, and no one has stood taller than Chairman RODINO in fighting to protect those constitutional principles, those fundamental rights that our Constitution and Bill of Rights give to individuals.

Mr. Speaker, to come here many years after I had known of Chairman RODINO's work and to see him acting up close as a member of the committee which he so ably chairs is a very special honor for me.

Just last week, once again as he has done in the area of civil rights and immigration and in that constitutional crisis of the impeachment proceedings in 1973 and 1974, the chairman went to the well to speak with respect to the constitutional implications of the Gramm-Rudman leg,slation and to remind us of the very carefully balanced system that was designed in this Constitution, our coequal branches of government, and to warn us of his fear that that particular proposal would give away and tilt that balance improperly.

I suspect that, at some point in the near future, his prophecy on that evening that we passed this legislation will once again be proven to have been correct.

I am happy to be a part of this special order and to be part of a process where I get to work so closely with this fine gentleman.

Mr. RANGEL. The country thanks you for your contribution on behalf of your testimony for PETER RODINO.

I yield to the gentleman from New Jersey [Mr. TORRICELLI].

Mr. TORRICELLI. I thank the gentleman from New York, and congratulate him for giving us all this opportunity.

Mr. Speaker, as the youngest member of the Democratic delegation from New Jersey, I am often surprised by the extent of the influence and the leadership by our relatively small delegation: Mr. HOWARD in Transportation, Mr. ROE in Public Works, Mr. FLORIO with the environment, Mr. HUGHES, with law enforcement.

Bringing this unique delegation together, these very skilled individuals, has been PETER RODINO. Ours, like many, could have been a delegation of a few powerful people. Instead, it is a combination of effective leaders, and a real fighting team; a team which has been led through all these years by PETER RODINO.

I know it is common to see Chairman RODINO in terms of this leadership; it is how we see him most in the House, but it is also, I would suggest, not enough. It is not the entire story of PETER RODINO, the story of a chairman of a powerful committee, an important delegation.

You see, for some of us, he is more than just an influence when we got to the House; he is part of the story of bringing us to the House of Representatives.

□ 1500

He has made this institution a place where people want to serve. He has made this a place, even a profession, that people want to be a part of. He has made it a noble, dignified, and a special place. That is an important part of this story, a very important part for the young people in my State, indeed throughout the country, who will look to be a part of this institution because of what PETER RODINO has made the Congress. There are, in fact, many aspects of the Rodino story: pride in the institution, a symbol, too, for the Italian-American people in New Jersey and throughout America who look to him with a special pride as an example to us of what we have become now in the American family, the special role that we can have.

I suppose as we all look at the story of PETER RODINO and his career we have our own stories: pride in the institution, an ethnic pride, a memory of his defense of the Constitution.

I want to add another, a new chapter. Unfortunately, we also live in a time of intolerance, a time of radical politics, most recently, I would submit, from the Radical Right. It has brought to mind the efforts to deregulate guns or to roll back the progress on civil rights. It has been, unfortunately, a time of intolerance. Standing against what might be popular for the moment, what might be captured by some new elements in a new popular political wave, has been PETER RODINO.

Often, I am afraid, the only thing that has stood between the radical politics of the moment and the defense of common sense and our Constitution has been PETER RODINO. That has made him important for our country. It means that PETER RODINO has been more than just another Member of this institution. He has been the pride of Newark for so many years, he has been the pride of America for these last 10 years, but he is also representing something special in this decade as we have confronted this new element in American politics.

I congratulate the gentleman from New York for taking this special order, and I thank him for yielding this time to me so that I may participate in this tribute to our colleague.

Mr. RANGEL. I thank the gentleman. I share what the gentleman says of the contribution that PETER RODINO has made in terms of the prestige and respectability of the Congress. I think it is adequately and accurately recorded that after the impeachment proceedings that we had that the prestige of the Congress had never been higher than when PETER RODINO chaired the Committee on the Judiciary.

I yield to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise to join with our able colleague, the gentleman from New York [Mr. RANGEL] to recognize the contributions of the distinguished chairman of the Committee on the Judiciary, PETER RODINO. It has been my honor to serve with Chairman RODINO these past 9 years in the House. This House is a great institution, but it is Members like PETER RODINO that make it shine. He has been a counselor to me and to many Members, a friend who is always ready to spend time with any Member who has a problem or seeks his counsel. He has worked his way for 36 years through the ranks of this institution speaking out and providing leadership on a range of issues important to our Nation and important to the people: Immigration reform, civil rights laws, voters' rights, antitrust issues are some of the landmark contributions that PETER RODINO has built. He has worked with the public interest foremost in mind, the rights of minorities, the rights of the needy, the downtrodden, a champion of those who otherwise were without power and a voice in the centers of power.

Congressman RODINO was that voice first, and, working with others like Minnesota's beloved leader, Hubert Humphrey, they turned the voices in the wilderness of indifference into a chorus and overwhelming chorus of support for justice and for equity.

Chairman PETER RODINO has rightly received national recognition for his historic role when a dark shadow was cast over our Nation during the Watergate proceedings. Chairman RODINO led the way with those who served this House and our Nation superbly. I am, of course, proud of Chairman RODINO because we obviously share a common American-Italian heritage, but his early service led the way so that today a candidate's or Member's nationality is not a factor, rather, it is a question of competence and the competition of ideas, fairness and doing the job well for the American people.

Chairman RODINO, we who serve with you understand and know the tremendous sacrifices that you have made to work in this House. We appreciate your efforts. We hope to complement and emulate your role and maintain the humaneness and commonsense that has characterized your actions these many years.

I thank the gentleman for yielding.

Mr. RANGEL. I yield to the gentleman from Massachusetts. [Mr. FRANK].

Mr. FRANK. I want to thank the gentleman from New York for taking out this special order and giving all of us an opportunity to pay tribute to PETER RODINO. I have, myself, like many others, a special personal reason for being so happy about the role he plays. As I enter middle age, PETER RODINO takes me back to my youth because he was elected to Congress when I was 8 years old, then living in New Jersey about 3 miles across Newark Bay, which was not that far because you could walk across Newark Bay in the hottest of weather at that point, that is, if your nasal passages were somewhat insulated.

For me to have gone off to Massachusetts to start out on a political career and 32 years later to have arrived in the Congress, and who do I come across there? Not suprisingly, of course, chairing the Committee on the Judiciary on which I enjoyed serving, the same PETER RODINO.

So for that continuity I am grateful.

For even more things I am grateful, however. I think the central contribution that he has made has been an enormous one, the decency in American politics is the extent to which he has transcended race. We have in this country since our founding been cursed with racism. The stain of racism is a flaw in our constitutional democracy from an original document which embraced slavery up until today when we still have far to go in eradicating racism and its consequences from our society.

PETER RODINO has been for more years than almost anybody in this country can remember a major force who insists there can be no compromise with racism, that the democratic ideals that we profess, and of which we are so proud, and which indeed distinguish this country among most of the rest of the world because we profess and, to a great extent, live up to those ideals; PETER RODINO has been a

champion of insisting that we apply them without regard to race.

Racism has been, as I say, the major obstacle.

It is interesting to note that that ability to transcend racism, because of his obvious and sincere and nonpolitical commitment to that goal of democracy, has been a two-way street, because as PETER RODINO's district has changed it is American history for an individual often to represent the ethnic composition of the district he or she comes from. That is part of the American tradition. People who have been discriminated against, whether black, Hispanic, Portuguese-Americans, Jewish-Americans, Greeks, Irish, Italian-Americans, they have wanted to send one of their representatives to Congress to fight for them. That is how PETER RODINO originally came here. As his district has evolved, as it moved to a point where there is now a majority of black people, his majority has increased because his ability to transcend and confront racism everywhere is clear to everyone. Having a PETE RODINO who started out representing a constituency in which Italo-Americans looked to him to combat the discrimination that they faced and now to have him continually returned here by a majority black district, that is a kind of example of an ability to transcend race that we need more of.

He and his constituents both, I think, are to be congratulated for their partnership against racism which they have.

One other point that I will make, because I know there are many people who will want to join in the tribute to this genuinely great man.

His commitment to democracy, his protection of the Constitution in times of great crisis, have been commented on. Let me add one other thing. As a member of the Committee on the Judiciary for the 5 years that I have been in the House, he is superb parliamentarian. Those of us who serve in this House, I think, have a justifiable sense of the importance of good parliamentarians, people who can come into this Chamber of conflict, which is what it is, where people fight about very important ideas and can, without giving up their idealism, understand how to make things work, how to reach agreements, how to move things forward; not compromising on essentials but showing a degree of conciliation, a sense of respect for the people with whom you disagree, a sense of civility. PETER RODINO combines a zeal for the principles of democracy with a civility and personal relations that makes him a very unique asset.

We are indeed lucky to have him chairing the Committee on the Judiciary of the House of Representatives during this time, and I want to thank the gentleman from New York. This is typical of the kind of leadership that the gentleman from New York has shown that he would have taken out this special order and given us a chance not just to pay tribute to PETER RODINO, no, but by paying tribute to PETER RODINO reaffirm our commitments to the principles of constitutionalism, of democracy, of fairness, and opposition to racism that he embodies.

So I thank the gentleman from New York.

Mr. RANGEL. Mr. Speaker, we are lucky to have people like the gentleman from Massachusetts to respect the leadership of our PETER RODINO.

I yield to the gentleman from New York [Mr. TOWNS].

Mr. TOWNS. First of all, Mr. Speaker, let me thank the gentleman for setting aside this time to talk about a person who has done so much for this country, PETER RODINO. I remember as a young activist many, many years ago in my college days there was always one name we could get in the room that we could talk about, if we could get a message to PETER RODINO, I am certain he would be able to hear and to understand the fight and the plight that we were going through. As we moved through the years and heard more about the work of PETER RODINO, I think everywhere you go when you talk about civil rights you have to add the name PETER RODINO because he has been one for fairness and he has been out there when it was not even popular to talk about those kinds of issues, that PETER RODINO felt free to do just that.

The people of New Jersey and the people of the United States of America have to be very proud of this man. He has been a real champion of all these causes.

He is a person who does not waste words. You know, some people get involved in a tremendous amount of rhetoric, say a lot of things. But PETER RODINO does not waste words. He feels in terms of the fact that all people should be treated the same, and as a result of that his actions throughout his life have demonstrated that.

I was happy to come here and finally meet PETER RODINO. I used to see his picture in the paper, and I used to watch him on television and hear him on radio from time to time, and I always thought he was a big, big man. And to come here and find out that in size or stature he is not that big, but when it comes to heart, and commitment, and dedication to fairness PETER RODINO stands tall among all.

So I thank the gentleman for taking out this special order and yielding this time to me.

Mr. RANGEL. I thank the gentleman. And I think the gentleman says it well when PETER RODINO turns out to be a hero even to those people who are privileged to serve with him in this House.

Mr. Speaker, I yield to the gentleman from Wisconsin [Mr. KASTENMEIER].

Mr. KASTENMEIER. I thank the gentleman for yielding.

Mr. Speaker, it gives me great pleasure to join with my colleagues in paying tribute to my chairman, PETER RODINO.

I have served with Chairman RODINO on the Judiciary Committee since I first came to Congress in 1959. It has been a pleasure and privilege to work with the gentleman from New Jersey on some landmark legislation through the years, most notably the historic civil rights laws of the 1960's, the difficult but important revision of the immigration laws in 1965, and more recently the successful ongoing efforts to preserve the Legal Services Corporation and the Voting Rights Act.

Those who know Chairman RODINO know him to be a man of ultimate integrity and commitment, a man dedicated to the pursuit of justice. No event more exemplifies those characteristics than his leadership during the difficult impeachment hearings in 1974. Perhaps more than any other figure involved in that unfortunate period in our history, PETER RODINO showed the American people how our system was meant to work. He became the symbol for millions of Americans of the honest, fair public servant whom many thought no longer existed. He restored for so many their faith in Government.

And, justifiably so. For PETER RODINO is a sterling example of what public service should be all about: hard work, dedication, commitment, compassion, a sense of fair play, integrity, humility, strength of conviction, and an abiding relief that ours is still the best system of government devised.

Mr. Speaker, when the history of the last 36 years of the U.S. Congress is written PETER RODINO will surely stand out as a Member of the House of Representatives who truly made a difference. I am pleased to join with his many friends and admirers today in honoring him for his exceptional service to this body and to the country.

□ 1515

I thank the gentleman from New York.

Mr. RANGEL. Well, it is really beautiful for the record and for the Nation when warriors such as yourself would take time out to congratulate our leader, Mr. RODINO.

The Speaker, I yield to the gentleman from Michigan [Mr. CONYERS], a member of the Committee on the Judiciary, who has worked with the honoree.

Mr. CONYERS. I thank the gentleman.

Mr. Speaker, to my colleague from New York, CHARLIE RANGEL, I want to thank him for his thoughtfulness in taking this commemorative special order for 36 years of service and dedication.

I would just like to pick up where my colleague from Wisconsin [Mr. KASTENMEIER] has left off. When I got here for the Voter Rights Act of 1965, there was a history of unsuccessful struggles about voting rights and civil rights in America. Emanuel Celler, of your city, and PETER RODINO, of Newark, NJ, were then leaders. The late Clarence Mitchell was the chief lobbyist for the NAACP. And I remember that, with Congressman EDWARDS and myself and a few others, we were not a very large group in the Congress, trying to blaze this historic trail of picking up the civil rights struggle from 1865 and bringing it into the last half of the 20th century.

PETE RODINO was at the forefront of that battle, and he has never left the helm. Even now, where the civil rights struggle has taken a completely different tone and has moved on to far more complex issues, it is still the chairman of the Judiciary Committee who puts in the strategy sessions, the meetings behind the hearings that develop the legislation, the amendments, that keep moving us forward, even in this period of adversity.

Now, in a reflecting mood, too, let me tell you about the most moving part of my career with the chairman of the Judiciary Committee, and that was during the impeachment process. And you know, like so many things in history, it is easy to forget how fragile the times and the circumstances were around impeachment. When we first began that process, there was open speculation whether the country could stand the first attempt at an impeachment of a President in American history, the first serious attempt. And the question that floated around Washington was: Can PETER RODINO handle being the chairman of an impeachment process? Does he have the ability to not pull the Judiciary Committee together but to pull the Government together, to keep the American people from dividing into perhaps irreconcilable factions over this question that was really very, very emotional.

We were working under a charged atmosphere, I say to my brother from New York, that was unlike any I have ever worked in, in the legislative process. It was night and day, it was touch and go. No one had any idea what the outcome would be.

But to borrow a phrase from my colleague from Wisconsin, RODINO guided us in a way that led people to a fair and honest conclusion that they could arrive at themselves. And, believe me, around the impeachment process that was quite a feat.

Now, what is not known about PETER RODINO needs to be revealed by this Member, and I want to just say this to you in the confidences of our discussion here in this room. This man has artistic qualities. He is a musician, a composer, he has written and produced songs. His demeanor is so judicial that it belies the fact that here lies the heart and soul of an artist. And this warms the cockles of my heart, CHARLIE; I mean it makes me feel good to know that my chairman has a little soul and a great spirit as well, and it is out of those feelings that I am very happy to join you in this special order.

Mr. RANGEL. I hope that one day the gentleman from Michigan might share his artistic ability on the bass fiddle with all of his colleagues.

The Chair would like to recognize the gentlewoman from Louisiana [Mrs. BOGGS].

Mrs. BOGGS. I thank the gentleman very much.

Mr. Speaker, I am very pleased that the gentleman has taken this special order to honor a very special person, one who has meant a great deal to the United States of America and especially to the institution of the House of Representatives.

I feel very strongly that I stand here today not only as myself but as the wife of my husband, Hale Boggs, who had such admiration and devotion to PETER RODINO, and also to represent my daughter, Barbara Sigmund, who is a politician in New Jersey, who feels so strongly that PETER is one of her mentors and one who inspires her to keep working in the political vineyards for the good of all of the people of New Jersey.

So I suppose I have a triple-threat tribute to Chairman RODINO. I would like especially to thank him for his true love of the Constitution of the United States. And the fact that he recognizes that we fought a revolution, as many countries since us have done, and when we did, we toppled a government. But between 1781 and 1787, we built a new one, deliberately, thoughtfully, and we codified into the Constitution of the United States those principles that the Revolutionary War had been fought over.

PETER recognizes all of this, and it gives me tremendous pleasure to say that he is a member of the House Commission on the Bicentennary of the House, which will occur in 1989. I can think of no greater celebration of the breadth of the institution of the House of Representatives as we know it than to have PETER RODINO helping to preside over the festivities that will be incumbent to that celebration.

I salute him as a friend, I salute him as Hale's old and trusted ally, and I salute him as my daughter's mentor and inspiration. I thank you very much [Mr. RANGEL] for allowing me the privilege of saying so.

Mr. RANGEL. The House is privileged that you and your family would take the time to pay that kind of tribute to PETER RODINO.

The Chair recognizes the gentleman from California [Mr. LANTOS].

Mr. LANTOS. Mr. Speaker, I want to thank my friend and colleague from New York for arranging this and for giving me an opportunity to express my feelings about PETE RODINO.

As you know, I am neither an attorney nor a member of the Judiciary Committee, but I have come to learn and admire and love Chairman RODINO.

There is one specific episode which I would like to relate, because I think it depicts the fundamental decency and humanity of this extraordinary individual.

As you may recall, Mr. Speaker, 5 years ago I was attempting to gain recognition for one of the great heroes of the Second War, Raoul Wallenberg, another great humanitarian. We had legislation moving to bestow upon him the second honorary citizenship that we as the Congress have bestowed on anyone, the first one having been bestowed upon Winston Churchill. And there was a lot of support for my legislation, but there were also some legal obstacles; and one of the legal obstacles that I learned was that honorary citizenship really cannot be bestowed upon anybody who may still be alive. And, of course, our hope was in 1981, and it is to a lesser extent today, that Wallenberg may still be alive in the Gulag Archipelago. And this seemed to be an insurmountable obstacle, how do we get over the fact that everything was in place, we had the votes, but we really could not move to get the legislation to the floor because there was a legitimate legal objection?

My, wife, Annette, and I went to see Chairman RODINO in his office. And he said, "Well, TOM, I want to see this tremendous man honored and recognized, but we have very serious difficulty. Can you state that he is no longer alive? Because if you can state that, we will have no problem."

I said, "Mr. Chairman, in good conscience, I cannot do so. I do not know. I think the probability is that he is no longer alive, but he may be."

He said. "Well, I simply will have to work long and hard to find the proper legal mechanisms that will allow me to let the legislation go through, because we simply cannot allow a legal obstacle to stand in the way of honoring one of the great heroes of World War II."

Had it not been for PETER RODINO—and no one knows about this story, no one did until now, because he did not want to get credit, he just shared it with my wife and me in the privacy of

his study—the Raoul Wallenberg legislation would not have come before the House and he would never have been honored by the Congress and by the President and by the American people as a great hero, saving innocent lives during the Second World War.

Chairman RODINO is a renaissance man. We have just heard he is a musician and artist. But he is quintessentially a warm, humble human being.

As you know, Mr. Speaker, every year we have a dinner for those of us who belong to the gymnasium, and it is a very informal occasion. And I always seek out PETE RODINO during those occasions, because people let their hair down, sit around for several hours and talk and reminisce. And I must say I have learned more about this body, the values of our society, what democratic free people are all about, during those informal, off the record tutorials with PETER RODINO than probably through any other means.

He is a man who represents the finest values of our society. He has no prejudices. He is filled with compassion. He is a humanitarian of the highest order, and I believe it is fitting indeed that this tremendous spectrum of his colleagues from both sides of the aisle, representing all views, all attitudes, all opinions, pay tribute to a man and hope and pray that his service to the Nation will continue for many, many more years to come.

Mr. RANGEL. Thank you, TOM, for sharing these very sensitive experiences with our colleagues.

The Chair recognizes the gentleman from New York [Mr. SCHEUER].

Mr. SCHEUER. Mr. Chairman, it is a great privilege for me to have the chance to rise and pay my respects to Chairman RODINO. And, Mr. Chairman, I wish to express to you my appreciation for the leadership you took in arranging this opportunity so that I and a number of my colleagues could express our appreciation and admiration and true devotion to PETER RODINO and everything that he stands for. You have rendered us a wonderful service in having taken the initiative and the leadership to arrange for this opportunity for us, and I wish to thank you for that.

□ 1530

I notice that there is quite a diversity of people here; races, colors, creeds, committee assignments. We are not all on the Judiciary Committee. As a matter of fact, none of the people on the floor now are on the Judiciary Committee, and that bespeakes something great about PETE. What it means is that he is the man of all seasons. It is not just the people he works with, not just the Members he works with on the Judiciary Committee who have come to appreciate his truly noble qualities, but the vast spectrum of the Congress. Of course, that is because each of us shares with him one thing that we all have in common: That is a love and devotion to that great, wonderful, magnificent document that undergirds American life, the Constitution of the United States.

Each of us in our own way is determined to preserve it and enhance it so that the next generation will inherit a democratic system even stronger and more vibrant and richer than the one that we inherited from our forefathers. So we all have a common thread in our devotion to PETE because we all have the same love and veneration of that Constitution. And we look upon him as the protector of that Constitution and the patron saint of the Constitution.

ORDER OF BUSINESS

Mr. MITCHELL. Mr. Speaker, I ask unanimous consent to address the House for 1 hour.

The SPEAKER pro tempore. Without objection, the gentleman from Maryland is recognized for 60 minutes.

There was no objection.

A TRIBUTE TO THE HONORABLE PETER W. RODINO, JR.

Mr. MITCHELL. Mr. Speaker, I yield to the gentleman from New York [Mr. SCHEUER].

Mr. SCHEUER. I thank the gentleman.

So we all share this common love and devotion of the Constitution. That is the one binding, golden thread that links every Member of this Congress with every other Member of this Congress. Whatever else we may think about the broad range and breadth of economic and social and political issues facing this country, we are as one in our determination to protect and enhance that glorious document known as the Constitution of the United States.

We look upon PETE RODINO as primus inter pares, as first among equals in his devotion to that instrument and his feeling of responsibility. He represents us all in his devotion and his caring for that document and the principles that is represents.

We have had 200 years of American history. Mr. Speaker, but it fell to the era of PETER RODINO to be in stewardship of that Constitution and our Judiciary Committee at the time of the greatest constitutional crisis this country has ever seen. Namely, the feeling on the part of many Members of this House that the time had come, the awesome time had come for the Constitution to begin unrolling its procedures, its scenarios on an issue that it had never had to face before in 200 years of American history: The unseating of an American President who had committed legal, indeed, criminal wrongdoing during his term of office. We had never faced that procedure before. We had never faced that challenge before. The Constitution had never been tested before. We were all groping our way.

PETE RODINO, I suppose, is a politician like the rest of us; he is not a great constitutional scholar. I suppose he would be the first to presume that he is not a constitutional scholar any more than any of us are constitutional scholars. We are working politicans. But PETE RODINO, with his legal acumen, his depth of legal learning, with his feeling, his deep feeling for the meaning of the Constitution, his respect for its processes, his capacity to reach out to his colleagues, his utter cool under the most incredible pressure I think that any Member of this House within living memory has ever felt, PETE RODINO, during that incredibly awesome period when the House was making demands on the Constitution and when the Constitution was making demands on the House, absolutely unparalleled in our history, unprecedented in our history, as luck would have it, we had among us a prince of men. The best that our House ever produces in terms of character, integrity decency, credibility, in that role, at that uniquely critical time in history. There is not a man or a woman in this body, who, during those awesomely critical days, was not deeply proud, intensely proud of the cool, the calm, the character, the leadership that PETE RODINO diplayed hour after hour, day after day, week after week, in that awesome constitutional crisis that our country faced unique in our history.

So I want to express to PETE RODINO my thanks to him to the invaluable service that he gave to his country, the sense of pride that he gave to each one of us. It seems that at that time, certainly, all of us rose to the hour, but none of us rose more than PETE RODINO. There is no way we could have had a finer, more exemplary figure of a man for all seasons, a man of character, strength, integrity, calm leadership in that critical role at that critical hour.

I want to pay my respects to PETE, my gratitude to PETE for extraordinary service that he has rendered us and wish him health and happiness and a continuingly productive career for many, many, many years to come.

I want to thank the gentleman for his opportunity.

Mr. MITCHELL. Mr. Speaker, I think most of white America today does not remember or does not choose to remember that just a few short years ago I and people of my color were branded as inferior, as second-class citizens in this country. America does not remember or perhaps it does not choose to remember that a black

Member of Congress some several decades ago faced the indignity of going into the Members' Dining Room only to have most of the Members walk out because he was black.

White America does not remember or perhaps it does not choose to remember that this branding of me and others of my color was done under the law, and the signs were visible all over this country to ensure that that law of segregation was carried out, and at the same time attempt to instill in me and other black Americans the idea that we were, indeed, inferior.

If we were allowed to vote, we had to pay a poll tax. If we wanted a drink of water, you had to go to the water fountain marked "colored." There were few, if any, places of public accommodation in which we could eat. No hotels in which we could stay, for the most part. We had a system of apartheid in this Nation or in parts of this Nation that was as grim and ugly as anything that presently exists in South Africa today.

What most people do not remember was that the struggle to break that law which branded me inferior did not begin with the civil rights decade in the sixties. It began in the fifties and in the forties and in the thirties. But in the fifties there were few, if any, whites who were willing to address that issue. We were so caught up with fighting communism and all other kinds of things only a handful of whites, comparatively, were willing to speak out against the indignities heaped on me and others of my race by law.

□ 1540

Among that handful was PETER RODINO, the chairman of the House Judiciary Committee. For it was in the early fifties he started his remarkable record of voting against and crafting legislation against the poll tax and the segregated facilities.

He and Adam Powell worked very hard, close together, in order to try to break that system. I repeat, I reiterate, there were not many whites who had the courage to do this. PETER RODINO was one of them.

As the struggle heated up in the sixties, remarkably akin to what is going on in South Africa, more and more whites began to join our common struggle for freedom in this Nation. But PETER RODINO seized that opportunity to start moving legislation to end the unjust laws, to end the unjust thing, "That some tamed into mercy being wise, But could not starve the tiger from its eyes."

It was RODINO who crafted legislation—civil rights legislation—often working with my brother, Clarance Mitchell, Jr., of the NAACP. As a result, I stand here today as a Member of this distinguished, historic body. That is a personal debt I owe to PETER RODINO.

For all the other blacks who, when they are able to, move around this country with some sense of dignity, some sense of personhood, some sense of manhood and womanhood, that is an enormous debt that we owe to PETER RODINO.

I too remember the impeachment process. I too remember how we often looked to PETER RODINO to guide us in moving toward the impeachment of a President, and that is an awesome thing to even consider, but with his judicious temperament he guided us and held this body together, and held the Nation together.

So as I pay tribute to Chairman RODINO, I want to stress that it is now more than ever that he is needed, now more than ever he needs to be the chairman of the Judiciary Committee, Mr. Speaker, because there are forces in this Nation who would roll back the clock; there is no doubt in my mind that there are forces unleashed in this Nation over the last 5 to 8 years who would willingly see blacks stripped of all the gains that we have made.

Mr. Speaker, I say to the Members of the House that there are people in the administration who have no consideration for civil rights or for blacks of for poor or for other minorities, and there PETER RODINO stands as chairman of the Judiciary Committee, blocking the attempts of the forces of the administration and the other external forces that would almost seek to reduce us to second-class citizenship again.

I could not live with myself if I had not come over to pay tribute to this man, a giant to whom we owe so much, not just black people, but the Nation owes him so much, because the Nation is the better off in my opinion because of the second emancipation of black people such as myself.

I salute him and wish him Godspeed, and pray that he will forever continue to work in this House on behalf of that which is just and right and decent.

Mr. Speaker, this great Nation of ours could not have been built without the courage certain Americans have shown in the face of adversity. Twenty years ago, our Nation's leaders braved the sweltering heat of injustice and passed a series of laws—culminating in the Voting Rights Act of 1965—which guaranteed all Americans their basic constitutional rights. To choose the cool breeze of justice—and not to succumb to the oppressive heat of injustice—took courage in those days. Courage in the face of adversity.

Today, I stand before you to honor a colleague who has shown this type of courage throughout his entire congressional career. He has fought for civil rights—with courage. He has battled the forces of reaction—with courage. And he held a standing President accountable to the Constitution—with courage. I am speaking of my trusted colleague and friend, the respected chairman of the Judiciary Committee, PETER W. RODINO, Jr.—a man of principle, a profile in courage.

For much of PETER RODINO'S career in Congress, civil rights was not among the more popular of causes. In the early 1950's, when our Nation was consumed with protecting the American way of life from communism, too few Americans were willing to admit that injustice from within our system was as much of a threat as tyranny from without.

But PETER RODINO was not part of the complacent majority. He spoke out early against discrimination, and often—taking Edmund Burke's comment to heart, that "bad laws are the worst form of tyranny." With his votes against poll tax, against segregated hospitals, and for public housing—all in the early fifties—he planted the seeds of conscience early in his public record. And his impact would grow.

By the late 1950's—as our Nation grudgingly began to open its eyes to racial discrimination—momentum for civil rights remedies slowly began to gather steam. At that time, PETER RODINO joined with the original civil rights advocate in Congress—Adam Clayton Powell, Jr.—and helped fashion the 1957 civil rights bill, which created the U.S. Civil Rights Commission to monitor racial injustice in America. Thus, PETER RODINO was in on the beginning—working on the first civil rights bill of its kind.

PETER continued to work closely with Adam Clayton Powell on subsequent antidiscrimination amendments—championed by Powell. And in those trying days, when the hot lamp of scrutiny focused on Adam Clayton Powell—his good friend PETER RODINO stood by him, weathering the storm in his nation and his district, unswerving in his belief that justice can never prevail if it is forced to answer to public opinion.

This is an admirable pattern in PETER'S career—advocating issues before they were popular, and even when they are not.

Consider his work for women's rights and the ERA—before it was popular. Or his support for social justice in an age of defense spending and budget cuts. Or his efforts to keep guns out of the hands of criminals despite the overwhelming power of the gun lobby.

Today, as chairman of the Judiciary Committee, he is in a unique position—a bulwark against this administration's attempt to roll back civil rights progress, refusing to be stampeded on legislation to dismantle affirmative action or strip the courts of their ability to enforce the law. It is a time to appreciate PETER RODINO, now more than ever.

Mr. Speaker, one of the great ironies of modern culture is that it is easier to expound one's love for humanity as a whole, than to show that love for one's neighbor. But not for PETER RODINO. This is civil rights at its most basic—and it is what

makes PETER RODINO a man of principle, an American profile in courage.

Mr. BIAGGI. Mr. Speaker, will the gentleman yield?

Mr. MITCHELL. I yield to the gentleman from New York [Mr. BIAGGI].

Mr. BIAGGI. Mr. Speaker, I thank the gentleman for yielding.

I would like to take this opportunity to congratulate the gentleman from New York [Mr. RANGEL] for displaying the kind of initiative that has so characterized his service in the community as well as in the House. It is that kind of leadership that has clearly distinguished him over the years and has earned for him the respect of so many of his colleagues because of it.

One might ask, what manner of man is PETER RODINO? If you are a newcomer to the Congress and have no sense or knowledge of history, you watch him function—very quietly, very effectively, and very unassumedly. But that would hardly give you any insight to the nature or the history of the man. For those of us who have had the privilege—and it is a genuine privilege indeed—of having served with him over the years and who have gone further into the history of this very, very genuine individual whose concern for all human beings has been manifest throughout his entire career, well, we know better.

I think it is important that we recognize that on an occasion like this, this initiative gives us an opportunity to express our views, our different perspectives, and it becomes a learning process. And it is even more significant that we say these kind words and repeat the performances and recall the experiences while Mr. RODINO is still with us to hear them and to read them, and in the process we educate ourselves.

It has been said that he was among a handful of white men who spoke up for human rights. That really comes as no surprise to me because I know about PETER RODINO. I knew about him long before I came to Congress. I admired him from a distance, I read a great deal about him, I knew of his activities in Jersey, I knew of his family, and I knew from whence the man was born. He has the very spirit of equity and fairness inculcated into his very bones, as a result of the teaching and the conduct of his own parents who came from the common land of my forebears. They came here seeking justice and opportunity, and to a large extent they found it, but not without difficulty.

But you might expect that for those who come from another land. Ordinarily people might be satisfied and say, "Well, I've made it, I'm doing well, and why should I be concerned?" But PETER's grasp of the entire picture was much more comprehensive, certainly more broad, and he knew that the question of opportunity was one that all man had the right to have, especially in this Nation of ours which was founded and based on the Constitution of the United States.

He expected difficulties, and I guess both his parents did. But he found that those over here before him were confronted with similar difficulties, even more so, more profound, more grievous, and there were very few voices speaking out for them at that time. He designated himself as a crusader, but with no fanfare and no public announcement. It was just his own commitment to see if he could make things right.

To embark on that kind of an undertaking in those days was not without some peril, and it was not without being subjected to some criticism and abuse. But as he persisted in the goal that he established to see that all men were given an opportunity to be treated equally, he would then ask himself, is the cause just? When people would confront him and question his conduct, of course, their response was, "Yes, but—." He would not countenance the "but." The "yes" was sufficient. Oh, he did not need their affirmative response. He knew in his own mind and heart that he was right, and he went on.

He came to the Congress and worked his will in a slow-moving Congress. In that slow-moving Congress never did he expect 1 day to assume the position of leadership he now enjoys nor to acquire the degree of respect and effectiveness he built up en route to this day. But as a result of his efforts in and out of the Congress, there was a great contribution and there was great change in our Nation, and today we are looking at a different world. It is not the pure world that we would like, with equality and justice for all, but we made substantial progress.

□ 1550

And notwithstanding the monumental achievements legislatively and in our society through court decisions and change of attitudes, he still persists. He persists. And it is that constancy of effort that distinguishes him in a very quiet fashion, effective fashion. In fact, he does not engage in diatribe. He does not engage in inflammatory rhetoric. He deals with the facts and he deals with the possible.

Something progress is slow. Sometimes it moves at an accelerated pace. But there is always progress; there is never retreat. There is always constancy. There is always commitment. There is always indefatigable effort to make things right.

I and he share a common heritage. He does not suffer from tunnel vision. He understands that in order for his world to be better, all people should be given that opportunity that our Founding Fathers provided and on the basis which this country was founded. He fights discrimination. He fights obstacles and barriers for all people.

When we take this day to pay special tribute to PETER RODINO, we are doing something very unusual

In the 17 years I have served in the Congress, I have never seen this happen before. I do not know about the years before that. He is a very unusual man.

From my perspective, he has made his mark, clearly has made his mark as a champion of human and civil rights, undeniable. If he were to stop there, it would be more than enough. But he went on. He went on to preserve the stability of this Nation at a time of crisis, where any other country in the world may have had governments toppling, may have had bloodshed, may have had consternation and confusion and chaos. Because he as chairman of the Judiciary Committee functioned in a fair, universally accepted fairness, he was under careful scrutiny throughout the world, and no one every questioned his fair approach to a very serious, serious situation, the impeachment, a possible impeachment of the President of the United States of America.

And here we are, we have this once a young man, now mature in his days, acquiring the wisdom, the patience, the tolerance, the understanding of responsibility and equity, holding in his hand the fate of a nation, the fate of a President.

He discharged himself in an extraordinary fashion, universally acclaimed. We as Members of the House or Representatives should feel proud and privileged to have served with a man and to serve with a man who has deported himself in such glorious, glorious fashion.

For myself, as a Member of the House, I so feel. As a dear friend of PETER RODINO for many years, I am just jubilant and overwhelmed at the notion that we take time out on this day to pay tribute to the extraordinary man who will make a mark in history for a series of events, but in the end he will be indelibly impressed in the minds and hearts of those who have benefited as a result of his crusade of a lifetime.

Mr. Speaker, I thank the gentleman for yielding.

Mr. MITCHELL. Mr. Speaker, I yield to the distinguished gentleman from Kentucky [Mr. MAZZOLI].

Mr. MAZZOLI. Mr. Speaker, I thank my friend, the gentleman from Maryland, for yielding. I thank my colleague, the gentleman from New York [Mr. RANGEL] for having scheduled this special order.

Let me say that I am looking at my friend with great regret, because he, of course, at some point, probably in 1986, will be sitting in this Chamber hearing the encomiums that others

will deliver to him, because he is about to leave our presence, and that will be a distinct loss to this body. But we will reserve our comments about our friend from Baltimore for a later day.

But for now, we are talking about our colleague and friend, PETER RODINO, who is my chairman in the Judiciary Committee.

I have just two or three very brief reminiscences.

One, when I was first elected and, of course, the gentleman and I came to Congress the same year, 1971, one of the very first people who called me to welcome me to the Congress was Congressman RODINO, then the ranking member, the ranking Democrat, on the Judiciary Committee. He was not only very gracious and warm about welcoming me to the Congress, as I guess he did to every new Member, but perhaps with a little additional warmth because of the fact that, as we jokingly say, my name ends with a vowel and that obviously indicated to the chairman that the number of Italo-Americans in the Congress was expanding.

Another reminiscence that I have very vividly in my memory is playing with the chairman in paddle ball, as we call it down in the House gym. As we know, sometimes in the off moments away from the panoply of the House and its decorum and its protocol, that is sometimes the way you really get to learn and know someone well. And it was my privilege to be partners with the chairman in several matches, and I learned there that, while he might have been, as they say in the trade, one step slower than he used to be, he more than made up for it with a knowledge of the game and the angles of the board and a certain bit of cunning, I guess you might say.

My next reminiscence very quickly is, of course, what we all experienced back in 1974 when the chairman conducted the very difficult hearings on the question of impeachment. We heard from our colleagues today and we will hear for years to come—probably forever—the excellent way in which he conducted himself, the excellent way in which he led that committee, and the excellent work product that was developed as a result of his leadership and his knowledge of the Constitution of the United States.

I think it did all of us proud even at a time of great trauma and great strain.

The next, of course, and last is the fact that I have worked now with the chairman for many years on the Judiciary Committee with respect to many pieces of legislation, some of which my friend, the gentleman from Maryland, has earlier said, those which protect the minorities of the United States, which guarantee opportunity, which keep the Constitution alive and strong with respect to people, and the chairman has been in the forefront of all those efforts. On the committee, I have had a chance to see him operating on a very close basis.

At times, the chairman can be stern. He can be extremely available and warm. He can be demanding. He can be forebearing. It depends on the nature of what needs to be done, and that determines the tactics and the techniques that the chairman brings to bear.

So he has shown in every way, I would say to our colleagues and to the country, the best of what the House of Representatives and the Congress seeks in its Members, and that is intelligence, determination, leadership instinct, but most of all, a compassion for the people and a willingness to try to help them.

So I want to thank my friend from Maryland for yielding me this time. I thank the gentleman and our congressional classmate, the gentleman from New York [Mr. RANGEL] for having developed this. I think we saluted the 20th anniversary of the Civil Rights Act, an important moment in American history, and the man that played a very pivotal role in that piece of history is the one whom we celebrate today, Mr. RODINO.

The only misgiving I had when I watched this on television a minute ago was the fact that this typically takes place when a Member is retiring or leaving. I am glad to know from earlier comments that this is not the case with the chairman, that this is just simply a unique way to celebrate him and the Civil Rights Act at the same moment.

So I want to thank the gentleman and would wish him well, and wish our chairman many more years of performance and good health.

A TRIBUTE TO HON. PETER RODINO

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio [Mr. STOKES] is recognized for 60 minutes.

Mr. STOKES. Mr. Speaker, at the outset, let me take this opportunity to express my appreciation to our colleague from New York [Mr. RANGEL] for having taken out this special order this afternoon and to have afforded all of us an opportunity to pay respect and honor to one of the most esteemed Members of this body.

I deem it a great pleasure and, in fact, an honor to participate in this special order and to be able to say a few words about a man whom I have come to admire and respect and indeed love for what he stands in this body.

I think all of us who have served with PETER RODINO not only refer to him as the Chairman, but very fondly oftentimes refer to him as PETE, because of the very special relationship that we have with PETER RODINO.

As I think back over many of the things that have occurred over the years that have made him stand out in this body, I suppose at the top of the list would be the great leadership he provided for this body during the time of the impeachment hearings. I think all Americans watched their TV sets intently every night watching those proceedings while the fate of a President of the United States hung in the balance and while the U.S. Constitution hung in the balance, and when the three parts of our Government were in a crisis such as we have never known before.

I think all of us who serve in this body were proud of the judicious manner in which he conducted those hearings. And when the hearings were over, a great service had been rendered, not only to the Congress and to the House, but to the entire Nation.

It was out of that hearing in which he conducted himself with such dignity and legal acumen that the Nation took a good hard look at this man who was then being considered as one of the persons whom this Nation wanted to offer himself to run for the Presidency of the United States. Being the humble individual he is, he declined this type of an opportunity, offering to the American people the fact that he had merely done the job that he felt should be done and had to be done in the way in which he had done it, but he had no aspirations for the highest office in the land.

But out of that special occasion when he conducted those hearings, I think all of us realized the greatness of this man with whom we serve.

I had occasion shortly after he had completed the impeachment hearings to sit down with him and to ask for his support and his guidance and his advice when the House called upon me to chair the House Select Committee on Assassinations, a task that I realized I needed some additional counsel for if I was going to be able to undertake that tremendous responsibility on behalf of the House.

I recall sitting down with PETE and asking for his advice and his wise counsel, and I was the beneficiary of it. As a consequence of it, oftentimes during the course of those hearings, I would go back and sit down with him and ask for further advice and counsel. And he was always there and always willing to take the time to help me or any other Member in any manner in which we needed the benefit of his advice and counsel.

We have heard today tremendous accolades being given this outstanding statesman and Member of this body, particularly his accomplishments and his feats in the area of civil rights. But I think his contributions to this Con-

gress and to this Nation extend far beyond the field of civil rights.

We cite his civil rights legislation because it has been so far-reaching. As I sat here a few moments ago and discussed the special order with my colleague, the gentleman from New York, CHARLES RANGEL, he mentioned to me that great contribution that PETE has made in the area of voting rights and the accomplishment of his voting rights legislation in this House, how many additional minorities and black Members of Congress sit here today because of the far-reaching effect of that legislation which he shepherded through the Congress many years ago.

But beyond that, as we look around the Nation, as we look at the city councils and the State legislatures and in the house and senate of many of the States around the Nation, we find many minorities and blacks sitting there today because of the unique leadership that he gave this body during a period in which minorities and blacks did not have the right and privilege of being able to vote or to be able to run for and become elected to public office in the way in which they can do that all over our Nation today.

□ 1605

I had occasion a few years ago to go into PETE's district and campaign with him during a period in which he was campaigning in what we thought at that time was going to be a relatively close race for him. I was proud to be one of the persons here in the House whom he had asked to come into his district and campaign with him.

But one of the greatest experiences I have had was to be able to walk up and down the street and go in and out of various places of business and to other affairs with PETE RODINO. The esteem with which he is held in his own congressional district is something to behold. He is totally revered and respected and admired by the people who have elected and reelected him to Congress for so many years. It was indeed a pleasure to be able to see the love and respect and admiration that they have for him.

I want to mention just a little special human touch that has always meant a great deal to me about PETE RODINO. I think all of us who know him knew of the great love that existed between him and his late wife, who passed a few years ago. The thing I remembered and admired so very much was that all of us knew that every Friday night was reserved for a date with his wife. He never put anything above that. Every Friday night was reserved for her, and these two people who had been married for so many, many years always had that special date every Friday night. It is something which I have always thought of because I have never been able to find the time to do that in my own relationship with my own wife, and I just have to admire a man who kept that special date with his wife all of those years in a great love affair which they shared until she passed.

So in closing, Mr. Speaker, I just want to say that oftentimes we do something in this body that makes you proud to be a Member of the body, and this is one of those days, when we can take time out of our busy schedules to pin the flowers and the roses on one of our colleagues while he is still with us. Sometimes we have occasion and a tendency to wait until something has happened to someone and then oftentimes they are not able to smell the flowers and see the flowers that are being pinned upon them.

I think the House does itself honor today by paying honor and tribute to a man who has become a legend in his own time. PETER RODINO, whenever he leaves the House—and we hope he is going to be with us many, many more years—will leave here a great tradition and with a great reputation.

I recall one of the greatest fights that we had here on the floor was when a former colleague of this House attempted to amend the Constitution to prohibit busing of children pursuant to court order desegregation cases. I will never forget the high tension in the House and the high emotion as that particular issue was debated here in the House. I will never forget the long hours that PETE spent with the Congressional Black Caucus and other Members of the House on both sides of the aisle who were determined not to turn back the clock in terms of the progress that we were making in desegregating segregated schools throughout this Nation in providing young children, black and white, an opportunity to gain the education that they are entitled to under our Constitution.

But that has been his life. He is a person who has added new dimensions to the preservation of the constitutional guarantees that are given to every American, whether it be an American adult or an American child. He has added a new dimension to protecting those rights under the Constitution that are so precious to each and every one of us.

Once again, I deem it a great honor to have been able to participate here this afternoon.

Mr. Speaker, at this time I am pleased to yield to the gentleman from New York [Mr. SCHUMER].

Mr. SCHUMER. I thank the gentleman for yielding.

Mr. Speaker, I would like to add my thanks to the gentleman from New York [Mr. RANGEL] for providing this opportunity for us.

Much has been said about Chairman RODINO, all of it praiseworthy, all of it worthwhile, and all of it true. I would like to add to it, Mr. Speaker.

Since I have been in this body 5 years, being here has made me a patriot, or more of a patriot, seeing the people from all different parts of America, from all different walks of life; coming here gives you a real window view of what America is all about.

What is America all about? It is about her people, the people of this country, from all different backgrounds and all different ideas and all different personalities, and they come to this Chamber and they work together and they push and they pull and they try the best they can to govern this country. The more people you see here, and the more people that one gets to know, the prouder one is to be an American.

I would like to add my thanks, really, to Chairman RODINO, to him for his kindness and for being my friend and one of my mentors in this body. He is one of the people who, when I sit back at home and think about why I love this Congress and why we all love this Congress, is one of the reasons, a man who has made his mark on history. The United States of America will forever be a better country because of what PETER RODINO has done in passing landmark civil rights legislation, in chairing the Committee on the Judiciary during Watergate.

PETER RODINO can sit back with pride and satisfaction. He is one of the few lucky individuals able to point at history and say, "I have indeed made a difference, a positive difference." He is a man who is tough. He is not tough in the conventional sense. He does not go around and swagger. In fact, he is a very polite and kind gentleman. But in his gut, he is tough. When it came time to pass civil rights legislation, with all the opposition and vituperation that was thrown upon those who worked for its passage, when it came time to defend the Constitution of the United States under Watergate, we needed a tough person, and Chairman RODINO was tough.

But Chairman RODINO was also fair. If one had to characterize the way the American people regard Chairman RODINO, I think it would be both of those—tough and fair; tough in being unrelenting but fair in not pushing his advantage too far. In every move we make even today in the 3 years that I have been on the Committee on the Judiciary, the paramount concern of the chairman is: Are we being fair? Are we not just taking our own viewpoint into account, but listening to the viewpoints of others and giving them a fair shake? He has been eminently fair. He is a kind gentleman. As my good colleague from Ohio mentioned, he is a family man.

There are many different attributes that one can, with pride and with justification, point to about Chairman

RODINO, but I would like to simply underscore that difficult combination of toughness and fairness. There are many who are tough and many who are fair, but there are few who combines that in the right proportion to become outstanding servants to this Nation. PETER RODINO has been such. I am a better person for having served under him and from knowing him. America is a better place, a much better place, that he took his call to public service and has done such an outstanding and remarkable job.

□ 1615

Mr. STOKES. Mr. Speaker, I thank the gentleman for his great contribution to the special order.

I am pleased to yield to the gentleman from Florida [Mr. SMITH].

Mr. SMITH of Florida. Mr. Speaker, I thank the gentleman for yielding and commend him for the remarks which he has entered into the RECORD this day. I want to also take this time to commend the gentleman from New York [Mr. RANGEL] who has arranged for this special order. In addition to what I personally am about to say in tribute to our good friend, PETER RODINO, since the gentleman from New York [Mr. RANGEL] is also here on the floor, I want to tell him I think in many ways a lot of what is going to be said today about PETER RODINO could very well be said about CHARLIE RANGEL. I think it is important for us to recognize that PETER RODINO has really generated new PETER RODINO's. Each year that he is here, someone else comes up to begin to fight the battles that PETER has been at the forefront of fighting, and CHARLIE RANGEL is one of those people and has respresented his people in New York very well for so many years.

As I said, I rise today to honor a man whose accomplishments in the House of Representatives have been an inspiration to us all, a man who for 36 years has worked to protect and defend not only the letter, but the spirit of the U.S. Constitution as well. As an able and well-respected lawmaker, this man, our colleague, is one of the most important gears which keeps the legislative process running. I speak, of course, of Congressman PETER RODINO.

I feel privileged to have had the opportunity to serve under Chairman RODINO on the Judiciary Committee as a member of the Crime Subcommittee and on his own Monopoly Subcommittee. I have observed his lead role in a number of issues close to my heart, particularly in the area of crime and drugs. He has worked long and hard to toughen our anticrime laws as well as rid the Nation of illegal drugs.

Chairman RODINO has a stunning record of contributions in the area of civil rights and legislation, and all of us remember how he saved our system of Government in 1974 with this fair and impartial handling of President Nixon's impeachment hearings. You have heard today the tributes being paid to him, not only in his role as a leader for civil rights, but in his role as a leader for the implementation of civil rights, for the quotas being abolished, for fair, tough, legitimate but compassionate immigration laws for the people of this country, for the people of the world who want to make America their home.

This is what PETER RODINO has stood for all of his life, in addition to just those years that he has served in the legislative body.

I would like to just for a very short time take a little bit of a different tact. In the 3 years since I have been here and have served on the Judiciary Committee, I have gotten to know him not only as a man whom I respected before I came to this body, as a man whose name was known to many of us as young lawyers, as a leading lawyer in the United States, but I have gotten to know him as an individual, and I think many people forget, even as we, our own body, the colleagues of PETER RODINO pay tribute to him those people that are listening here today may not understand that PETER RODINO is not only a symbol, and not only a hard-working individual, but a friend to many and a warm, personable human being. The time that I have spent here I have found him to be willing to listen to people, not only those who come from the outside and have a problem about immigration, or a problem about law enforcement, or a problem about antitrust matters, but right here, the people, his colleagues who have questions, who are new, who need to be schooled in some of the more difficult issues, who need to understand the process. He always has the time to sit down right here on this floor or in his office and talk to you about the issues, explain what he is doing, what he has done, what he thinks about an issue. That has been of great help and of great importance to myself and a large number of my colleagues, especially the younger colleagues who have only been in this body for a short time. But in that short time, we have learned to respect him, not only for what he has done, but for who he is and for his dedication to the individual as well as for his dedication to the law, to the Constitution, and to the United States.

I can tell you, stretching my memory back over 20 years and more, I have a vivid picture of PETER RODINO. But since I have been in this Congress, that picture, that mental image you get of people you hear about and read about and talk about and admire from afar, has been embellished by personal knowledge of the individual. I am sorry that everyone out there in this country cannot get the same experience that we have had of being able to know him personally. If they would, they would find that they would have an admiration, a respect, even in a way a love for this man that goes beyond what they might have already, in terms of their knowledge of him through the printed and the spoken and the written media.

He is truly a leader of this body. He is truly a 20th century renaissance man in his devotion to those things that make life better for individuals and for his country, and I am very, very proud of him. But more so, grateful for the opportunity to be able to serve with a gentleman of his caliber, a lawyer of his stature, and a legislator of his respect.

I know I speak for all of my colleagues when I say, PETER, many, many more good years of leading the United States for equality, for democracy and for justice, not only for this country, but for all of the free people of the world.

I thank the gentleman once again for sharing some of his time with me.

Mr. STOKES. Mr. Speaker, we thank the gentleman from Florida for those observations he has made here and his contribution.

I also want to concur not only in the gentleman's remarks regarding PETER RODINO, but also his very fine remarks regarding our good friend, the gentleman from New York, CHARLIE RANGEL. I agree that anyone sitting on the Judiciary Committee, and particularly at the time that CHARLIE RANGEL sat on that committee and his seniority, having sat through the Watergate impeachment hearings under the chairmanship of PETER RODINO, that has to rub off in terms of the manner in which this man serves in the Congress. I agree with the gentleman that CHARLIE RANGEL certainly exemplifies many of the fine qualities that are exemplified through our colleague, PETER RODINO.

Mr. Speaker, I am pleased at this time to yield to the gentleman from New York, our friend [Mr. GARCIA].

Mr. GARCIA. I thank my colleague from Ohio [Mr. STOKES] for giving me these few minutes to talk about not only a fine Congressman, bur a personal friend.

Many of my black colleagues, when it comes to talking about the Voting Rights Act, think that they are the only minority group that has a franchise on what the Voting Rights Act is all about. I stand here today as a Hispanic, a person born and raised in the community that I represent today, the South Bronx. I am one of those persons who in 1965 was elected to the New York State Legislature because of PETER RODINO's work on the Voting Rights Act. I know that he and Martin Luther King walked side by side during those battles.

One of the magnificent opportunities that we have here in this legislative body is that many times we lobby, and we work very hard to generate the votes that are necessary to pass legislation and we do not always know who the recipients are going to be of that legislation. I am sure that when they were working, Martin Luther King and PETER RODINO, side by side, to pass the Voting Rights Act, that they did not know that a BOB GARCIA existed on 138th Street in the South Bronx, and that I would be elected.

We have tried to do some research and find whether there are any other legislators still in public office who were elected in that very first historic year of 1965. As hard as I have tried, we still have not found anybody. I think I may be the last one of that group.

But PETER RODINO is a person who I am sure many people who are listening today never knew. They got to know him during the Nixon trials and during those terrible years in the 1970's when we were not sure of what the outcome would be in terms of the Presidency. But PETER RODINO then became a national and an international personality.

I have always prided myself in saying that those of us who come out of communities like Newark, of immigrant families, immigrant parents, like the gentleman from New Jersey [Mr. RODINO] can govern and rule in this great country as well as anybody else. It just seems to me that based upon all that he has done for so many, that this special order put together by my colleague, the gentleman from New York [Mr. RANGEL] who, by the way, served during those years in which the impeachment of a President was taking place—I would like everybody to know that I do not talk about that in any sense politically. I talk about that as probably a magnificent moment in history only because it tested our own ability to judge each other, and that we came out the stronger for it. I think it was that quiet assertiveness of the gentleman from Newark, NJ [Mr. RODINO] who gave a certain tranquility to this Nation, and there are times that we may disagree. I must tell you that I am amongst those who, on the question of the immigration bill has disagreed with PETER RODINO, but I have never disagreed because of the fact that I felt that he was being underhanded. Not at all, he has always been above-board, and always a person that you know that when he gave his word, as he did during the immigration battle that there are certain portions of that legislation that under no circumstances would he surrender to the opposition, and he did not. He held fast, a man of his word. That is Congressman PETER RODINO.

I am delighted that my colleague and my friend for many years, the gentleman from New York [Mr. RANGEL] has given me this opportunity and has taken this special order celebrating the 20th anniversary of the Voting Rights Act.

□ 1630

I thank him very much for giving me these few moments to thank a good friend, a person who will always be a friend; a person who is what is great about America, a person who will continue to serve because the spirit is so strong, that I would like to not only ask permission to revise and extend my remarks, because there is so much more we can say about PETER RODINO, but I would like to associate myself with all of the remarks that have been made today.

Mr. STOKES. I thank the gentleman for his valuable contribution.

Mr. SYNAR. Would the gentleman yield?

Mr. STOKES. I yield to the gentleman.

Mr. SYNAR. Mr. Speaker, I just want to add my remarks to all those that people have spoken today. I have grown to admire, over the 7 years that I have been in the U.S. Congress the determination and hard work of PETER RODINO. We have not always agreed, but I will tell you this, he is a tough negotiator; he has always stood for those things and principles which I think all of us in this country admire; and I join with the accolades today.

Mr. STOKES. I thank the gentleman for his remarks.

At this time I am pleased to yield to the gentleman from Massachusetts [Mr. BOLAND].

Mr. BOLAND. Mr. Speaker, I take great pleasure in participating in this special order to honor PETER RODINO, one of the finest legislators that has ever served their country in Congress. I want to compliment my colleague from New York, Mr. RANGEL, for providing us the opportunity to commend PETE for his 36 years of distinguished service to this Nation.

PETE RODINO came to the House in 1948, after being elected by the citizens of the 10th Congressional District of New Jersey. In the almost four decades since, he has consistently honored his commitment to his constituents and the State of New Jersey and, in so doing, has earned the admiration of all his colleagues in Congress.

PETE RODINO's list of legislative achievements, as chairman of the House Judiciary Committee, and international, national, and local awards, and honorary degrees, which reflect those accomplishments are so extensive, as to preclude my mentioning them all. He has served on Presidential Commissions and his name was frequently mentioned in connection with national office. In addition, he is a decorated veteran, having earned a Bronze Star while serving with the 1st Armored Division in Italy during World War II and special recognition for his service by the Italian Government.

For all PETE RODINO has done in service to the Nation, be it on the battlefields of Europe, or in the Halls of Congress, he will leave no greater legacy to his country than the landmark civil rights legislation he authored and fought for in the early to mid-1960's. He also earned a special place in history for his chairmanship of the Judiciary Committee, as it undertook the first Presidential impeachment inquiry in over 100 years during the tumultuous Watergate period. His calm, measured stewardship during the many hearings and investigations insured orderly and objective proceedings.

As a scholar of the Constitution, he has been especially careful to craft laws which affect our judicial system, and our society, in a manner consistent with the dictates of our most basic legal document. His work in that area will be felt for generations to come. We are most fortunate that that work, is not yet complete. He is richly deserving of this tribute. It has been, and continues to be, an honor to serve the Nation with an individual of Congressman RODINO's caliber. I want to wish him continued success in the Congress, good health, and best wishes for a happy holiday season.

Mr. STOKES. I thank the distinguished gentleman from Massachusetts for his contribution to the special order.

At this time I want to once again express the appreciation of all of us here in the House to our distinguished colleague, the gentleman from New York [Mr. RANGEL] for having taken out this special order this afternoon; and to have afforded all of us in the House an opportunity to be able to pay tribute to one of the great Members of this House.

It was certainly thoughtful of the gentleman, and considerate, to not only take out the special order but to invite all of us to participate. It is only fitting now that you be recognized to close the special order. I yield to the gentleman from New York.

Mr. RANGEL. I thank the gentleman from Ohio.

Mr. Speaker, this has been a very unusual special order in that there have been so many Members that wanted to pay tribute to PETER RODINO and for you to be able to come and to ask unanimous consent to continue this tribute. I want to thank the gentleman for it.

I also want to thank my dear friend and colleague, the gentleman from Georgia [Mr. RAY] who had time scheduled but because there were so

many people, he yielded to those Members to pay this special tribute; and to the gentleman from Texas [Mr. GONZALEZ], who was here, too.

I thank the Chair for this wrapping up of a tribute to PETER RODINO, a tribute to the 20th anniversary of the Voting Rights Act.

Mr. RANGEL. Mr. Speaker, I submit at this point in the record various statements and letters from civil rights and community organizations that wanted to say on their behalf, for making a stronger Voting Rights Act and therefore a stronger country, "Thank you, Chairman PETER RODINO":

A. PHILIP RANDOLPH INSTITUTE,
New York, NY, December 12, 1985.

Hon. CHARLES B. RANGEL,
Rayburn House Office Building,
Washington, DC.

DEAR CONGRESSMAN RANGEL: I am delighted to join the voices honoring Judiciary Committee Chairman Peter Rodino through a Special Order on December 16, 1985. Congressman Rodino has uniquely championed the cause for the protection of civil rights in our country, for the protection of fundamental human rights around the world, and for the protection of refugees forced to flee from their native lands.

Most of our citizens are aware of Chairman Rodino's enduring contributions to the fundamental civil rights legislation that still exists as a beacon to the most disadvantaged and oppressed in our society. Perhaps fewer people are aware of the debt of gratitude that we all owe to Congressman Rodino for his commitment to bringing justice and humanity to the refugee laws of our country.

Recently, Chairman Rodino has led the effort to achieve through legislation an end to the tragic plight of the Haitian and Cuban refugee boat people. He has not only introduced this legislation but he has actively rallied support for this basic humanitarian issue. When many of these refugees were recently threatened with deportation, Congressman Rodino swiftly initiated a campaign of concern to halt these unjust deportations until Congress can act on remedial legislation early next year.

In conclusion, Chairman Rodino is a most effective leader and he is a cherished friend.

Sincerely,

BAYARD RUSTIN,
President.

AMERICAN CIVIL LIBERTIES UNION
Washington, DC, December 12, 1985.

Hon. CHARLES B. RANGEL,
Rayburn House Office Building,
Washington, DC.

DEAR REPRESENTATIVE RANGEL: The civil rights and personal freedoms of many Americans have come under an unprecedented assault in recent years, from many quarters including the Reagan Administration. Too infrequently during this period have we had the opportunity to reflect on where we have been or to examine where we are headed as a nation under law.

Today's tribute to Rep. Peter W. Rodino provides a fitting opportunity both to acknowledge the many contributions of a great defender of civil rights and liberties, and to rededicate ourselves to the constitutional principles for which his illustrious career in Congress has come to symbolize. Let us also use this occasion to reaffirm our commitment to the full restoration of civil rights protection for all Americans.

The ACLU is honored to have been a part of this acknowledgement.

Sincerely

MORTON H. HALPERIN.

AMERICAN FEDERATION OF LABOR AND CONGRESS OF INDUSTRIAL ORGANIZATIONS,
Washington, DC, December 12, 1985.

Hon. CHARLES RANGEL,
House of Representatives,
Rayburn House Office Building,
Washington, DC.

DEAR REPRESENTATIVE RANGEL: On behalf of the AFL-CIO and its constituent working men and women, I would feel privileged to be associated with the Special Order for Chairman Peter Rodino on Thursday, December 12, 1985 in the U.S. House of Representatives.

The Honorable Peter W. Rodino has few, if any, equals as a Congressional leader. The legislation which he has helped enact into law contains some of the most important new policy directions for this Nation and its citizenry. The elimination of national origin quotas as a basis of U.S. immigration policy comes vividly to mind, even though 20 years have since passed. His current efforts to further reform our immigration laws indicates his long-lasting commitment to this issue. His floor management of the 1966 Civil Rights bill also comes to mind. And we know of his work on behalf of the Civil Rights Restoration Act of 1985 to correct the *Grove City* Supreme Court decision which weakened many of the rights established in the 1966 law.

In all of our association with Chairman Rodino, we have found him to be a man of quiet temperament, fair-minded spirit, sensitive political judgment and legislative expertise. His hand in legislation, while not always the most visible hand, is the strong and effective one. And when visibility was most necessary to ease the impact of a major Constitutional crisis, we remember how Chairman Rodino carefully and calmly, for all the Nation to observe, led the House Judiciary Committee through its deliberations in 1973 and 1974 of the first Presidential Impeachment inquiry in over 100 years. It was masterful and, alone, worthy of our admiration, respect, and gratitude.

Protecting and advancing the rights of minorities and women, the vulnerable and the victim, is the consistent theme of Peter Rodino's public career. The AFL-CIO has been, and continues to be, a strong supporter of these public policy initiatives and we look forward to working with Chairman Rodino in future Congressional efforts in these areas.

The tribute of his colleagues is well occasioned.

Sincerely,

LANE KIRKLAND,
President.

THE AMERICAN JEWISH COMMITTEE,
Washington, DC, December 10, 1985.

For almost four decades in Washington I have seen literally thousands of members of the Congress come and go—and have observed their work closely. In my opinion Peter Rodino must be included in no more than a handful of members whose character and leadership and achievements place them in a special category of Congressional superstars. Whether it be in the field of civil rights or civil liberties or international human rights or immigration or social justice, Pete Rodino has made historic contributions.

HUMAN BOOKBINDER,
Washington Representative.

CENTER FOR NATIONAL POLICY REVIEW, INC,
Washington, DC, December 12, 1985.

Hon. CHARLES B. RANGEL,
Rayburn House Office Building,
Washington, DC.

DEAR REPRESENTATIVE RANGEL: It is a privilege for us at the Center for National Policy Review to join with you in honoring Congressman Peter W. Rodino.

From his authorship of the House majority report on the Civil Rights Act of 1957 (the very first civil rights bill in this century) to his leadership role in passage of the historic Civil Rights Act of 1964 and the Fair Housing Act of 1968 to his authorship and the indispensable part he played in enactment of the Voting Rights Act Extension of 1982, Peter Rodino has been a stalwart in the battle against discrimination.

As one who has been privileged to work with Mr. Rodino on many of these efforts, I can testify to the personal qualities that have enable him to achieve such a remarkable record—an ability to place himself in another persons's shoes and feel the sting of injustice, a willingness to persist in the face of adversity, the leadership, drafting and tactical skills to bring his ideas to fruition, an understanding heart. For us who work in the Leadership Conference on Civil Rights, it was not a difficult decision at all to select Mr. Rodino as a recipient of the first Hubert M. Humphrey Award in 1978. What is all the more remarkable is that civil rights is only one of the areas in which he has advanced the cause of fairness and opportunity for all Americans.

In these days of preoccupation with the mounting national deficit, it may be well to recognize that there are some debts that can never be fully repaid. Preeminent among these is the debt that all of us as Americans owe Peter Rodino for helping us to become a better nation.

Sincerely,

WILLIAM L. TAYLOR.

NATIONAL COUNCIL OF LA RAZA,
Washington, DC, December 11, 1985.

Hon. CHARLES B. RANGEL,
Rayburn Office Building, House of Representatives, Washington, DC.

DEAR REPRESENTATIVE RANGEL: It was with great pleasure that I received word of your intention to conduct a Special Order in recognition of the invaluable work of Representative Peter Rodino. On behalf of the National Council of La Raza. I wish to express deep appreciation of his tireless commitment to protection of the civil rights of persons throughout the nation.

Representative Rodino has played a central role in the formulation and passage of major civil rights initiatives for nearly three decades. He has forcefully confronted problems of discrimination long-felt by minorities, securing employment and voting rights for Hispanics and other disadvantaged groups and fighting to protect those rights. In doing so, Representative Rodino has earned the respect of his colleagues, his constituents, and all members of the civil rights community.

For these reasons and many others, Representative Rodino deserves the highest praise. We commend you for your efforts,

and fully support the Special Order in his honor.

Sincerely,

RAUL YZAGUIRRE,
President.

LEADERSHIP CONFERENCE ON CIVIL RIGHTS,
Washington, DC, December 12, 1985.

Hon. PETER W. RODINO, Jr.,
Chairman, House Judiciary Committee, Rayburn House Office Building, Washington, DC.

DEAR MR. CHAIRMAN: On behalf of the 185 national organizations in the Leadership Conference on Civil Rights, representing minorities, women, the disabled, labor, senior citizens and religious organizations, we want to express our deepest appreciation for your leadership on civil rights issues.

Over the past several decades, the Leadership Conference has turned to you time and again on all the crucial civil rights issues before the Congress. And without fail, your commitment, your knowledge, and your integrity have produced overwhelming bipartisan victories. Indeed, every civil rights measure that has been enacted into law bears the indelible imprint of Chairman Peter Rodino.

Among your most important legislative achievements in recent years has been your zealous protection of the Constitution against the assaults of the Radical Right. No civil rights law has been immune from the Right's attack. However, you have prevented the Radical Right from enacting one single item on its legislative agenda.

There is no question that history will smile very favorably on your outstanding contributions to our Nation. And we will remain forever indebted to you for your effective leadership.

We in the Leadership Conference look forward to working with you to further our Nation's irrevocable commitment to providing equality of opportunity for all Americans.

With warmest personal regards,

Sincerely,

RALPH G. NEAS,
Executive Director.
BENJAMIN L. HOOKS,
Chairperson.

LEGAL DEFENSE FUND,
New York, NY, December 12, 1985.

Hon. PETER W. RODINO, Jr.,
Rayburn House Office Building, Washington, DC.

DEAR CHAIRMAN RODINO: The NAACP Legal Defense and Educational Fund, Inc. wishes to express to you our sincere appreciation for your legislative effort over the past thirty-eight years on behalf of poor people and Black people in our nation. You have understood the vital need in a democracy for the majority to establish and protect the rights of the minority.

Your contributions to making available opportunities for Black Americans in the labor market have been far-reaching and effective. In drafting and shepherding to passage the fair employment divisions of the Civil Rights Act of 1964, you are responsible for a law that has played a significant role in removing many of the vestiges of a legacy of slavery.

The passage of the Voting Rights Act of 1965, the subsequent extensions to that act, including the Voting Rights Act of 1982 is legislation that become law because you have cared. Across the years in your work as a member for the Judiciary Committee and in your Chairmanship of that Committee, you have demonstrated time and time again your commitment to the meaningful inclusion of Black Americans in the benefits, rights, privileges, and opportunities of this land.

Thank you, Mr. Chairman, for your steadfastness and your commitment. It has truly made a tremendous difference.

Sincerely,

JULIUS L. CHAMBERS,
Director-Counsel.
ELAINE R. JONES, ESQ.,
Washington Office.

NATIONAL ASSOCIATION FOR THE ADVANCEMENT OF COLORED PEOPLE,
Washington, DC, December 11, 1985.

Hon. CHARLES B. RANGEL,
House of Representatives, Rayburn House Office Building, Washington, DC,

DEAR MR. RANGEL: The National Association for the Advancement of Colored People strongly supports the Special Order for Congressman Peter W. Rodino. We appreciate your submitting the enclosed statement to the Congressional Record.

As you know, Congressman Rodino has made many significant contributions to civil rights and he is very respected in the civil rights community. The NAACP considers it an honor to have this opportunity to express our thanks and appreciation to this great public servant.

Sincerely yours,

ALTHEA T. L. SIMMONS,
Director.

NATIONAL ASSOCIATION FOR THE ADVANCEMENT OF COLORED PEOPLE,
Brooklyn, NY, December 12, 1985.

STATEMENT OF THE NATIONAL ASSOCIATION FOR THE ADVANCEMENT OF COLORED PEOPLE IN SUPPORT OF THE SPECIAL ORDER FOR CONGRESSMAN PETER W. RODINO

The National Association for the Advancement of Colored People is proud to honor its long-time friend, Representative Peter W. Rodino. He has been a staunch supporter and leader in the struggle for equality and civil rights.

To accurately portray Representative Rodino's contribution to civil rights it is important to consider the social and political climate of the nation which led to the consideration of major civil rights legislation. The first civil rights measure since Reconstruction was enacted into law in 1957 three years after the landmark decision in *Brown v. Board of Education* and black Americans were raising the conscience of the nation by their insistence that they were citizens too and that the nation live up to its promise of democracy.

Peter W. Rodino authored the majority report on the Civil Rights Act of 1957 which created the U.S. Commission on Civil Rights, authorized the Attorney General to prosecute persons interfering with the right to vote and established the civil rights division of the U.S. Department of Justice. Mr. Rodino authored the majority report on the 1960 Civil Rights Act which enabled Federal agents to enroll voters in areas where blacks were being denied the right to vote. These two measures were the cornerstones for future civil rights legislation.

Again in 1964, Representative Rodino led the U.S. House of Representatives in passing the historic Civil Rights Act of 1964 which prohibits racial or religious discrimination in public accommodations; prohibits race, color, sex, religion or national origin in employment practices among other civil rights protections.

Representative Rodino has shown consistency in his efforts to further civil rights. He has the enviable record of maintaining a consistent 100 per cent voting record on civil rights legislation as reflected on the NAACP Civil Rights Report Card. Mr. Rodino was the floor manager of the Civil Rights Act of 1966; authored the Voting Rights Act Extension of 1982 and was a leader and strong supporter of the years of effort to pass legislation establishing Martin Luther King's birthday as a national holiday.

Mr. Rodino wrote the majority report for the fourth civil rights act in 1968.

Representative Rodino's commitment to and perseverance and persistence in civil rights action, his unflinching support of the goals of equality—a birthright of American citizens—is helping to move our nation toward a positive affirmation of justice for all.

Peter W. Rodino has a vision of what this country should be. A vision that reaches far beyond where we were then in 1957 and where we are now in 1985. He realizes that even now, in 1985, twenty years after the passage of the Voting Rights Act, that there is still yeoman work to be done in achieving equal and civil rights for all.

As we move forward in our attempts to complete the unfinished civil rights agenda, the civil rights community, inclusive of the 2100 branches, 38 state and area conferences and 600 youth and college units of the NAACP, is grateful that it has a friend in Representative Rodino. As a member of the National Association for the Advancement of Colored People, Mr. Rodino continues to be a ardent advocate of equality for all.

We join members of the Congress and others who acknowledge the many accomplishments of Representative Peter W. Rodino in this Special Order.

BENJAMIN L. HOOKS,
Executive Director.

NATIONAL COALITION FOR HAITIAN REFUGEES,
New York, NY, December 12, 1985.

Hon. CHARLES B. RANGEL,
Rayburn House Office Building, Washington, DC.

DEAR CONGRESSMAN RANGEL: We are priviledged to have this opportunity to honor House Judiciary Chairman Peter Rodino for his unparalleled achievements in protecting and advancing fundamental civil and human rights.

Our 34 national member organizations have an immediate reason to thank Congressman Rodino. In 1983 he singlehandedly initiated legislative efforts to end the tragic plight and legal limbo of a deserving group of Haitian and Cuban refugee boat people.

This cause that he championed has now produced legislation that will provide for the protection of these refugees and the adjustment of their status. Chairman Rodino has not contented himself with crafting legislative relief, rather he has also joined the chorus of voices urging an immediate halt to the deportation of any otherwise eligible beneficiaries of this legislation until Congress has concluded its deliberations.

We are proud of Rep. Rodino. His work on behalf of the underprivileged and his concern for their plight is unique and merits the gratitude of the entire country.

Sincerely,

BAYARD RUSTIN,
President, A. Philip Randolph Institute.
MICHAEL S. HOOPER,
Executive Director.

ANTHONY J. BEVILACQUA,
Bishop of Pittsburgh.
JAY MAZUR,
General Secretary-Treasurer, ILGWU.

NATIONAL COUNCIL OF THE CHURCHES OF CHRIST IN THE U.S.A.,
New York, NY, December 12, 1985.
Hon. CHARLES B. RANGEL,
House of Representatives,
Washington, DC.

DEAR CONGRESSMAN RANGEL: We write in support of the special order which you have requested in the U.S. House of Representatives to honor Chairman Peter W. Rodino. It is appropriate that Members of Congress, as well as the nation at large, be given the opportunity to pause and recognize the many major contributions which Chairman Rodino has made to our country, especially in the area of civil rights.

At every critical juncture in civil rights legislation over the past four decades, Chairman Rodino has been a key actor. His active involvement in the passage of civil rights bills in 1957, 1960, 1964, and 1968, and his pivotal role as floor manager of the 1966 civil rights bill have beyond a doubt improved the lives of millions of Americans previously denied their rightful place in our society. His authorship in 1982 of the Voting Rights Act Extension is further testament to his lasting commitment to ensuring the participation of all Americans in our democracy.

The National Council of Churches, through the Immigration and Refugee Program of its Division of Church World Service, has also enjoyed a special relationship with Chairman Rodino on immigration and refugee matters. This dates to the chairman's role in the mid-1960s in eliminating the discriminatory national origins quota system which until that time existed in our immigration laws. As sponsor of the Refugee Act of 1980, Chairman Rodino also saw to it that United States laws encompassed legitimate refugees from persecution, regardless of their country of origin.

Most recently, Chairman Rodino's championing of the rights of Haitian and Cuban refugees, through his pending bill H.R. 23, is an activity which enjoys the broad support of the religious community. Chairman Rodino, as the experienced Chairman of the Committee on the Judiciary, is in a key position to ensure enactment of this critically important legislation, as well as to assure fair and equitable immigration reform in the 99th Congress.

We appreciate your efforts, Congressman Rangel, in requesting this important and most appropriate special order. The distinguished history of responsible and compassionate leadership of Chairman Rodino should be made a matter of public record.

Sincerely,
Rev. Dr. ARIE BROUWER,
General Secretary.

NATIONAL URBAN LEAGUE, INC.,
Washington, DC, December 12, 1985.
Hon. CHARLES B. RANGEL,
House of Representatives, Rayburn House Office Building, Washington, DC.

DEAR CONGRESSMAN RANGEL: On behalf of the National Urban League, it is a genuine pleasure to support the Special Order honoring Congressman Peter Rodino. By every standard of measurement, Mr. Rodino has earned this special recognition from his colleagues in the House of Representatives. I am delighted that the National Urban League Movement has this opportunity to express its sincere appreciation for his outstanding contributions and continuing commitment to civil rights enforcement in this nation.

We also applaud the Congressman's enduring support of the Voting Rights Act. In almost four decades as a Member of Congress, Mr. Rodino has proven himself a dedicated and effective lawmaker.

Sincerely,
DOUGLAS G. GLASGOW,
Vice President, Washington Operations.

NATIONAL WOMEN'S POLITICAL CAUCUS,
Washington, DC, December 11, 1985.
Hon. CHARLES B. RANGEL,
Member of Congress, Longworth House Office Building, Washington, DC.
(Attention of Kevin Cullather).

DEAR CONGRESSMAN RANGEL: I heartily endorse your request for a Special Order on Thursday to honor Congressman Peter W. Rodino, Jr.

His record is one of consistent and strong advocacy for human rights. We particularly appreciate his staunch support of the Equal Rights Amendment, the Civil Rights Act of 1964, and the Civil Rights Restoration Act.

We hope he continues in the Congress for many years.

Sincerely yours,
IRENE NATIVIDAD,
National Chair.

STATE OF NEW JERSEY,
DEPARTMENT OF THE PUBLIC ADVOCATE,
Trenton, NJ, December 11, 1985.
Re: Special order—Honorable Peter Rodino.
Hon. CHARLES RANGEL,
Rayburn House Office Building,
Washington, DC.

DEAR CONGRESSMAN RANGEL: I am pleased to write this letter in support of your special order of Thursday, December 12, 1985, honoring my long-time friend and associate, Congressman Peter Rodino, for his years of leadership in the area of civil rights. As a native Newarker and, therefore, a constituent of Congressman Rodino, I am proud of his contributions to the movement for equal opportunity in all sectors of American society. Congressman Rodino has consistently demonstrated an admirable level of integrity and leadership in seeking to inspire the federal government to fulfill its mandate to preserve and protect the rights of all people. He has overcome great obstacles in this struggle, but has persevered. As a member and later as Chairman of the House Judiciary Committee, he has been forthright in directing that Committee through difficult legislative battles which have resulted in improving the lot of the underprivileged throughout American society. On this day I am honored to join with you and the many others who will salute Peter Rodino for his leadership, courage and dedication to purpose.

Sincerely,
ALFRED A. SLOCUM,
Public Advocate.

Mr. CONTE. Mr. Speaker, I would like to thank my good friend from New York, CHARLIE RANGEL, for taking out this special order for the distinguished chairman of the Judiciary Committee, my paisan, PETER RODINO.

It is very appropriate that we're holding this special order in 1985, the 20th anniversary of the passage of the Voting Rights Act. As a member of the Judiciary Committee back in 1965 when that landmark legislation was passed, PETER RODINO can take a great deal of credit for actually shaping the form of that bill. As a strong supporter of that legislation myself, back in 1965, I'm pleased to be standing in the well today.

The Voting Rights Act was a bill that said to a watching world that all of our citizens—whatever the color of their skin, whatever their religion, would have the right to vote without harassment or fear. Because of PETER RODINO's work, those noble challenges became the law of our Nation.

As chairman of the Judiciary Committee, PETE became known to the Nation as the man who conducted the Watergate hearings with fairness, with openness, and with candor. At times, back in the 1970's it seemed as though the future of our great Republic rested on his shoulders. He faced the challenges of those hearings in a responsible, nonpartisan fashion.

His 36 years in Congress are marked by PETER's love and concern for the Constitution, which he reveres and defends with passion. He is a credit to the Italian-American community, a credit to this institution, and a credit to this Nation. I am proud to have served, and to serve, in the House with this great American.

Mr. DINGELL. Mr. Speaker, it is indeed an honor to pay tribute to my good friend and colleague from New Jersey. In the 30 years that I have served as a Member of this body, I have always found PETE RODINO to be a man of integrity and a public servant who charges ahead until he finds the truth.

Everyone remembers Watergate—the scandal, the humiliation of many public officials and the very difficult actions the legislative branch had to take in Watergate's aftermath.

Let me tell you about the Judiciary chairman's latest stellar accomplishment. When my Investigation's Subcommittee and other subcommittee's were uncovering the EPA scandal in 1982 and 1983, we were stonewalled by the Justice Department. The leadership of the House requested Mr. RODINO to investigate the strange, if not illegal, conduct of the Department during that period.

After 2½ years of indepth investigation, which was needlessly prolonged by struggles with the Justice Department, the committee has now issued its report—a report that would not have been possible under a chairman of less integrity and tenacity. I believe the report is a monument to PETE RODINO's thoroughness and fairness.

The report confirmed our worst suspicions. In withholding Superfund documents from the committee under the ruse of executive privilege, senior officials at the Department of Justice and the White House were deliberately keeping the Congress and the American people from learning about this administration's failure to enforce laws designed to protect the public health and the environment. The compelling evidence amassed during this investigation clearly justified the committee's vote to refer the report to the Attorney General with a request for the appointment of an

independent counsel and the referral to the U.S. district court.

PETER RODINO has been the driving force of this and other investigations where it was necessary that the public be informed of wrongdoing and impropriety.

PETE RODINO will be remembered as a true friend of this body, its members and the public trust.

Mr. FISH. Mr. Speaker, I am delighted to join my colleagues today to honor a good friend and a great legislator, the Chairman of my Judiciary Committee, Congressman PETER W. RODINO, I have served with the chairman since my first days in the Congress in 1969 as a member of the Judiciary Committee, and for the past 4 years as ranking minority member, our differences on legislation have often been overcome by the fundamental nature of the committee's work and the important national goals we have pursued in the committee. The chairman has always tried to be accommodating and appreciative of the views of the minority. I am proud to call him friend.

Congressman RODINO has been one of the most effective legislators in the history of the Congress. He has led the Judiciary Committee through radically changing times.

He was involved in the early days of the civil rights movement in writing reports on landmark bills in 1957, 1960, 1964, and 1968. He was the floor manager of many of these bills, and when he was not the manager, he was on the floor to insure passage of civil rights legislation. He also pushed for and succeeded in passage of the Voting Rights Act of 1965 and subsequent extensions of this vital legislation. He is the House expert on immigration.

I served on the committee during the Watergate impeachment inquiry, and recognized the chairman's firm leadership and his fairness and thoroughness throughout 7 long months of our consideration. The impeachment hearings were a special time to those of us who participated, and I will not forget his critical role.

Mr. KILDEE. Mr. Speaker, I wish to join my colleagues in honoring Congressman PETER W. RODINO, Jr., for his service in Congress. Congressman RODINO'S record in Congress is one of honorable service to his constituents and to the country. When we review his accomplishments, we see a clear record of caring and concern for the people of this country. His efforts in civil rights were instrumental in passage of many of our Nation's most important pieces of civil rights legislation. He was the author of the Voting Rights Act Extension in 1982, and he authored majority reports on civil rights in 1957, 1960, 1964, and 1968.

Congressman RODINO's accomplishments in civil rights alone are worthy of great praise, but he has done so much in so many different areas. He authored the Victim and Witness Protection Act of 1982. He kept the Nation together during our gravest constitutional crisis when he chaired the Watergate impeachment inquiry. He led the efforts to cut off aid to countries that do not help in the eradication of illegal narcotics. He was a leader in ending the unfair national origin quotas as the basis for immigration policy in 1965. This is just a small sample of what he has done while in Congress.

James Madison wrote in the Federalist Papers that the purpose of government was to protect the rights of all its citizens from ". . . some common impulse . . . adverse to the rights of other citizens, or to the permanent and aggregate interests of the community." Congressman RODINO has learned this valuable lesson well. His whole career in Congress is one of making sure that the rights of the community and its citizens were not sacrificed for the benefit of special interests. His accomplishments exemplify what is best about government. He has shown that government works for the people. His great concern, compassion, and commitment have brought honor to this great legislative body. For these reasons, I am proud to join my colleagues in honoring Congressman PETER W. RODINO, Jr., and all that he has done, and I look forward to serving with him for many more years.

Mr. ADDABBO. Mr. Speaker, I am pleased to join my colleagues in paying tribute to my good friend PETER RODINO. I would also like to compliment my colleague from New York [CHARLES RANGEL], for calling for a special order in honor of a man who has served in Congress with distinction for 36 years.

Congressman RODINO earned the respect and admiration of the country with his handling of the Watergate inquiry. In one of our Nation's most difficult periods, he was entrusted with the special responsibility of guiding the country through one of its most trying crises. Because of his leadership and the innate strength of our Constitution, our Republic emerged from this crisis a stronger and more just democracy.

Though his name is most often associated with the Watergate hearings, it is by no means his only significant accomplishment in his 36 years on Capitol Hill. PETER RODINO was at the vanguard of the civil rights movement in this country, long before it was commonly recognized as an important moral issue. It was the leadership and initiative of people like Congressman RODINO, that brought the national disgrace of segregation to the forefront of public consciousness. The true test of leadership is the ability to recognize an important issue and successfully change public attitudes about it. Defined in these terms, PETER RODINO was one of the leaders of the civil rights movement in this country.

In his important role of chairman of the House Judiciary Committee, he continues to take a leading role in defining and shaping national priorities and promoting justice. His efforts to make narcotics control a component of U.S. foreign policy could once and for all give our Government the leverage it needs in dealing with countries that permit drug growers and exporters to operate openly within their borders.

His name is also on a landmark piece of legislation now pending before this body, one that addresses the very difficult question of immigration policy. As one of the leading proponents of the move that eliminated national origin quotas, he is now fighting to ensure that people of all races and ethnic backgrounds have an equal opportunity to come to America without fear of discrimination or exploitation.

PETER RODINO has always been somewhat of a pioneer in Congress. He has often been the first to speak out on important issues. His hard work and determination has opened doors for other ethnic-Americans, myself included. The greatest tribute that we can pay him is to continue to work for a society in which all Americans can pass through the doors of opportunity that he helped open.

Mr. HUGHES. Mr. Speaker, I rise tonight to honor my respected colleague from New Jersey, the Honorable PETER RODINO.

As the chairman of the House Judiciary Committee, Congressman RODINO has shown remarkable leadership in a number of important legislative areas, including civil rights and immigration reform; bankruptcy, commercial law, and antitrust policy; and protecting and preserving the constitutional rights of all Americans.

Even before assuming the Judiciary Chair in 1973, PETER RODINO carved out a record of accomplishment in the civil rights area and was instrumental in congressional passage of the Civil Rights Act of 1964. As the former chairman of the Immigration Subcommittee and prime sponsor of the Refugee Act of 1980, Congressman RODINO has played an important role in shaping our immigration laws.

Few members can match the tremendous record of legislative accomplishments which Congressman RODINO has achieved since he was elected to the 81st Congress in November 1948. His hardwork and leadership led to the congressional enactment of the Omnibus Crime Control and Safe Streets Act of 1968, the Voting Rights Act Extension in 1982, and, in 1984, legislation making Martin Luther King's Birthday a national holiday.

The distinguished "Dean" of the New Jersey delegation has continued to pursue his fundamental interests in these areas in the 98th and 99th Congress. As an original sponsor of the Civil Rights Restoration Act of 1985, he has been instrumental in efforts to protect the civil rights of all Americans by ensuring that the Federal Government does not support discrimination based on race, gender, age, or physical handicap. As the prime sponsor of the Immigration Control and Legalization Amendments Act of 1985, Chairman RODINO has continued to provide tremendous leadership in updating our immigration laws.

Mr. Speaker, Congressman RODINO has been an inspiration to all of us who have the honor of serving in Congress. As a member of the New Jersey delegation and Chairman of the Judiciary Subcommittee on Crime, I have had the real privilege of working with Congressman RODINO. His leadership continues to be invaluable to all of us. He is truly a remarkable man deserving of this special recognition. Thank you.

Mr. BENNETT. Mr. Speaker, I rise to pay tribute to Representative PETER RODINO, chairman of the House Judiciary Committee. He was elected to Congress in 1948, as was I, and so we have been colleagues and good friends now for almost 40 years. Those have been years of outstanding achievement for Congressman RODINO as he has succeeded in passing outstanding legislation in the fields of: civil rights, law enforcement, narcotics control, immigration, copyright, bankruptcy and other major legislative concerns. He is a man of compassion and idealism and yet with a steady and uncommon wisdom. I treasure his friendship and wish many more years here in constructive leadership for our country.

Mr. HOWARD. Mr. Speaker, I would like to join my colleagues in recognizing the outstanding contributions and accomplishments of the chairman of the House Judiciary Committee, the gentleman from New Jersey [Mr. RODINO].

My relationship with PETER RODINO dates back to 1964 when I was first elected to Congress from the Third Congressional District of New Jersey. As a freshman Congressman, I looked to PETER RODINO for guidance and assistance, which he never failed to provide. To this day, as the dean of the New Jersey delegation, he offers inspired leadership on matters of critical importance to our State. Because of the example he sets, I believe we have one of the most cohesive delegations in the country.

PETER RODINO has also provided strong, enlightened leadership as chairman of the Judiciary Committee. His brilliant performance during the Watergate impeachment proceedings is what most people recall about Mr. RODINO. But in many ways, the courageous stands he has taken on a host of controversial issues before his committee could have an even greater long-term impact on our society.

PETER RODINO may be the single most effective protector and defender of the Constitution in Government today. In an era subject to frequent shifts of public opinion. PETER RODINO stands firm in his refusal to tamper with the Constitution to satisfy vocal minorities. This is the mark of a responsible legislator and indeed, a statesman.

I thank PETER RODINO for his courageous leadership and wish him many more years of service in the public interest.

Mr. GREEN. Mr. Speaker, today I rise to join my colleagues in this special order to honor one of our own colleagues, Congressman PETER W. RODINO.

In a career that has spanned almost four decades, Congressman RODINO has been elected to the U.S. House of Representatives for 19 successive terms. He has represented a district in New Jersey which has gone through many changes in his years of service. Despite a changing constituency and growing urban problems, the 10th Congressional District has consistently voted to return him to Congress.

In his years as a House Member, Congressman RODINO has proven himself to be a skillful legislator. As chairman of the House Judiciary Committee, Congressman RODINO has played a central role in moving important bills to the floor, including measures to consider the Equal Rights Amendment, extension of the 1965 Voting Rights Act, fair housing, and immigration reform.

Among his many accomplishments, Congressman RODINO may best be remembered for his role in conducting House Judiciary Committee impeachment proceedings against President Nixon in 1974. A man of conscience and a faithful observer of the constitution, Congressman RODINO directed Watergate hearings in the House with caution and a sense of commitment to the spirit of the Constitution. He opened up the hearings by firmly stating that the committee must faithfully live up to its constitutional responsibility in the proceedings. Congressman RODINO held that "the real security of this Nation lies in the integrity of its institutions and the trust and informed confidence of its people." His skillful and patient work in the committee resulted in three articles of impeachment approved overwhelmingly by committee members. Only the President's resignation prevented any further action by the full House.

His adherence to the basic tenets of the Constitution is probably best illustrated by his contribution to civil rights. Congressman RODINO has expressed his concern for civil rights by consistently supporting major civil rights bills in 1957, 1960, 1964, 1965, 1966, and 1968. He has also produced legislation to extend enforcement of the Voting Rights Act.

Congressman RODINO has shown his dedication to preserving our present system of government and to insuring that basic rights guaranteed by the Constitution are not abused. I thank Representative RANGEL for bringing this special order to recognize Congressman RODINO's service to the people—recognition that is long-awaited but deserved.

Mr. CLAY. Mr. Speaker, I rise today to pay homage to one of America's most distinguished jurists and civil libertarians, the Honorable PETER RODINO. In 36 years service in the U.S. House of Representatives Congressman RODINO has fought to guarantee justice for all Americans.

As the chairman of the House Judiciary Committee, Representative RODINO has been a leader in the battle against time-honored legal inequities which were once believe inherent in our democratic system. PETER RODINO authored the reports on the civil rights bills of 1957, 1960, 1964, and 1968; and served as the floor manager of the landmark Civil Rights Act of 1964. Later, Chairman RODINO directed the Watergate impeachment inquiry and established the Law Enforcement Assistance Administration. More recently, Congressman RODINO has worked to improve U.S. immigration policy and revise U.S. bankruptcy, copyright, and antitrust laws. Always maintaining his penchant for the interests of ordinary people, Congressman RODINO is a proven spokesman for the interests of women, minorities, and working people, and has demonstrated an unyielding respect for justice as well as the law.

Through his work on the House Judiciary Committee, Congressman RODINO has profoundly influenced the field of jurisprudence and earned a preferred position in the history of the United States Congress. Never losing sight of the singular importance of civil liberties, Congressman RODINO has maintained an unyielding respect for the same values as those great men who founded our Nation.

Mr. Speaker, our Nation is much better off for the contributions of our distinguished colleague from New Jersey. Congressman PETER RODINO has played an instrumental role in shaping the fabric of our national life and in so doing he has touched the lives of generations of American citizens. It is my pleasure to serve with PETER RODINO in the U.S. House of Representatives and it is my honor to join my colleagues in this special tribute to a masterful lawmaker, the very honorable—Congressman PETER RODINO.

Mr. GILMAN. Mr. Speaker, I rise today to join my colleagues in honoring and commending my dear friend and colleague, PETER RODINO. I am pleased to be able to voice my high regard for PETER RODINO because it is not often that we in Congress are afforded the opportunity to recognize and praise the important contributions of our fellow Members. PETER is particularly deserving of recognition, having worked so diligently in his 36 years as a Congressman to improve the quality of life for all Americans.

As many of us know, PETER RODINO has been a champion of equality and a leader in the civil rights campaign. He was a major figure in fighting for the adoption of the civil rights bills of 1957, 1960, 1964, and 1968. He was also the author of the Voting Rights Act Extension, and was the floor manager of the landmark Civil Rights Act of 1966. PETER continues to fight for the enforcement of civil rights. Last Congress, the long-held dream to make Dr. Martin Luther King's birthday a national holiday was finally realized, with the help of PETER RODINO. Earlier this year, I joined with PETER and many more of our colleagues in urging the President to avoid action on proposals to amend Executive Order 11246, which lays the legal groundwork for affirmative action programs. PETER RODINO helped enact laws to protect the civil rights of all U.S. citizens, and he continues to staunchly defend those laws to this day.

During my 13 years as a Member of Congress, my respect and admiration for PETER RODINO has only grown. I have often turned to our chairman of the Judiciary Committee for guidance on the many matters relating to our Constitution, to the courts, and to our fight against crime. As a fellow member of the Select Committee on Narcotics Abuse and Control, I commend him for helping to make narcotics control an integral part of our U.S. foreign policy. PETER was instrumental in directing the Watergate impeachment inquiry in a fair and forthright manner. He has significant-

ly contributed to immigration reform and he has helped to revise U.S. bankruptcy, copyright, and antitrust laws.

PETER whose congressional district in New Jersey is quite close to my own in New York, is always cooperative in working with others in matters of mutual concern. He is a pleasure to work with and a credit to the Congress—always bearing in mind what can be so easily forgotten by others: that our Government is for the people.

PETER RODINO has labored continually these last 36 years to protect the people and improve the way of life for all Americans. I am therefore grateful to our colleague, the gentleman from New York, CHARLIE RANGEL, for holding this special order.

Accordingly, I am honored to be able to state for the record how proud I am to be able to work with such a dedicated and skillful lawmaker, and to have as a friend and colleague such a talented leader.

Mr. GLICKMAN. Mr. Speaker, when we speak of PETER RODINO, many Americans remember their first acquaintance with him as the individual who chaired the hearings on the impeachment of Richard Nixon. Remembering those somber days, we think of the even-handed and fair manner in which Chairman RODINO conducted those hearings. His stewardship of those hearings only serve as an example of his commitment to the preservation of our Constitution which has been a hallmark of his career in the House for over a third of a century.

Chairman RODINO'S commitment to desegregation and civil rights in general, predates his years in the House. One of the first votes he cast upon entering the House was to desegregate the Armed Forces. Each piece of civil rights legislation from that time to this bears his mark and in many cases enactment was due in no small part to his stewardship and dedication to open access and participation in society for all citizens of our country regardless of race, creed, or color.

Chairman RODINO'S imprint on our Nation's laws is not only felt in the very important and fundamental area of civil rights. He has also been a leader in the areas of crime prevention and control, victims compensation, immigration reform, antitrust legislation, drug and narcotics control, and the often unheralded area of bankruptcy. In each instance, his sense of commitment to justice and improvement in the quality of life for all citizens is what each of us thinks of when we think of PETER RODINO.

I am proud to serve on the Judiciary Committee under his chairmanship, and stand with pride today to honor PETER RODINO'S outstanding accomplishments. I look forward to continuing to work with him in the years to come.

Mr. GUARINI. Mr. Speaker, it is an honor for me to speak about a man whose far-reaching accomplishments in the field of public service serve as an example to all legislators and lawmakers. As dean of the New Jersey congressional delegation, Chairman RODINO provides the elected Representatives from our State with a model of legislative initiative, legal prowess and dedication to human welfare. I am proud to highlight some of this man's great accomplishments today.

Since his election to the 81st Congress in 1948, Congressman RODINO has dutifully served New Jersey's 10th District. Greater Newark, beset with a host of urban maladies, has benefited from his tenure in office. During the past three decades, demographic changes, which caused many to abandon this city, called Mr. RODINO to battle for the rights of a disenfranchised urban poor. The monumental task of providing adequate representation to such a complex, diverse district has been achieved successfully through this man's untiring efforts.

As the author of the majority reports on civil rights legislation in 1957, 1960, 1964, and 1968, Mr. RODINO has established himself as a leader with a demonstrated commitment to equality for all of America's citizens. His timely recognition of the minority right to vote, and his fight against established policies of segregation, paved the way for an entire generation of blacks to fully participate in our Nation's legislative process. His outstanding record in the field of civil rights has not been limited to a period of our country's history when national consciousness was drawn to these issues. As exemplified by his authorship of the Voting Rights Act Extension of 1982, considered to be one of the most significant civil rights bills of our time, Chairman RODINO has continued to act as a watchdog for the vigilant preservation of minority rights.

With Chairman RODINO at its helm since 1973, the House Committee on the Judiciary has been the source of a vigorous campaign against crime. Again, in the forefront of legislative initiative, he cosponsored the Omnibus Crime Control and Safe Streets Act of 1968, as statistics of handgun violence and assault rose to epidemic proportions. Mindful of the many people who have suffered at the hands of criminals. Chairman RODINO authored the Victim and Witness Protection and Assistance Act of 1982. Through his efforts to provide judicial equity to all citizens, the needs of victims are not considered secondary to our legal responsibility for punishing criminals.

As director of the first Presidential Impeachment inquiry in over 100 years, Congressman RODINO'S dedication to the principles of the U.S. Constitution was brilliantly manifested during the Watergate era. As America was plunged into a trying period of self-doubt and low national morale, his legal expertise and vitality added new life to the Constitution and pulled the United States through a crisis which threatened to undermine our precious system of laws. Only a man of exceptional character could have defended his country so well.

Congressman RODINO demonstrated this exceptional character during 5 years of dedicated military service. As a volunteer for service in World War II, he was commissioned overseas and achieved the rank of captain after a successful naval career. His honors include the Bronze Star.

He has an outstanding reputation as a dedicated family man. His two children reflect some of this man's admirable qualities. Peter, his son, enjoys a successful career as an attorney. Margaret, his daughter, shares Congressman RODINO'S musical ability to compose song lyrics. One of his most treasured hobbies is playing with the use of words in poetry, prose and music.

Congressman RODINO'S multifaceted abilities and experiences augment his brilliant career in public service. As a humanitarian, patriot, family man and legislator, he continues to be an inspiration for all those interested in serving as an elected official. At a time when our Nation's young people are in desperate need of an example, Congressman RODINO'S commitment to social justice, civil rights and the common good provide an ideal for America's youth. Today, I salute this man who has acted as a defender of his country and as a defender of his country's Constitution.

Mr. SEIBERLING. Mr. Speaker, it has been my privilege and pleasure to serve on the Judiciary Committee with PETER RODINO throughout my 15 years in the House, 13 of them with him as chairman of the full committee. His courage and dedication have been an inspiration to me as they have been to not only his colleagues on the committee and in the House but to millions of people all over America and indeed the world.

His commitment to our Constitution has been absolute. His dedication to the cause of human rights, civil rights, and civil liberties has been unequivocal. His record in protecting the rights of minorities has been unsurpassed.

Mr. Speaker, we honor PETER RODINO tonight because he has brought great honor to us all.

Mr. FLORIO. Mr. Speaker, today I join in honoring our colleague, PETER W. RODINO, JR., for his distinguished record as New Jersey's Congressman from the 10th district.

The House career of PETER RODINO is marked by his fairness and deep sense of justice in our society. He was elected to the House of Representatives in 1948 representing a large part of Newark. A well-liked and trusted member of Congress, he rose steadily through the ranks of the Committee on the Judiciary. During the years before his chairmanship, Mr. RODINO was a decisive force in drafting and passing many civil rights bills.

The passage of the fair employment practices provision in the 1964 Civil Rights Act and the 1966 housing bill were crucial bills in which Mr. RODINO played an instrumental role. Mr. RODINO also displayed his skill by being the chief floor manager of the Johnson administration's Immigration Reform Law which ended national origin quotas.

Chairman RODINO'S most famous public achievements was his chairmanship of the Judiciary Committee in the impeachment of President Nixon in 1974. There is no

question that the cautious and fair way PETER RODINO conducted that proceeding brought great credit to himself and to the integrity of the House of Representatives.

Today, PETER RODINO is regarded as one of the most respected and influential Members of Congress. I take great pride in serving with him in the New Jersey delegation, of which he is dean. PETER RODINO's contributions have helped build a Nation dedicated to civil liberties for all and I am pleased to join in commending and thanking him.

Mr. BEVILL. I am proud to join my colleagues today in recognition of the many fine achievements of Congressman PETER W. RODINO of New Jersey. PETE has served 36 years in Congress and has been chairman of the House Judiciary Committee since 1973. In that role, he presided over the Watergate impeachment proceedings. During that time, I believe that PETE did more to preserve the integrity and improve the image of the House of Representatives than anyone else has ever done.

I remember being in Speaker Carl Albert's office the day PETE came in and asked Albert how he planned to handle the impeachment proceedings. There was no precedent for this because no one knew how it had been handled in Andrew Johnson's era. Albert had decided it would be best for PETE to handle it in the Judiciary Committee and told him so. I believe that was a wise decision. PETE is dedicated to justice, honesty and fairness. I don't think anyone could have done a better job than he did during a difficult time in our Nation's history.

Watergate was not the only sensitive issue which PETE has handled. He took a leadership role during another tumultuous time. In the 1960's, he authored civil rights legislation and guided it through Congress.

PETE RODINO has truly make his mark on history and he will always be remembered as a great statesman and an influential lawmaker. I am proud to say I serve in Congress with PETE RODINO.

Mr. HOYER. Mr. Speaker, I appreciate the gentleman from New York taking the time to honor our colleague, Congressman PETER RODINO. It is infrequent that we take the time to honor a colleague who has such a record of service, and who, happily, is not retiring.

Mr. Speaker, 1974 was a tragic year for our country. In that year, we saw our President resign in shame, the first to do so in our Nation's history. Ironically, it was also a year in which the House of Representatives experienced one of its finest hours.

As the television cameras captured every word and our Nation tuned into watch, the House Judiciary Committee carefully navigated its way through the impeachment hearings. At the helm was our colleague, PETER RODINO; who, up to that time was not well known throughout the country, though respected by his colleagues and exceedingly popular in his own 10th Congressional district of New Jersey. The men and women who served on the Judiciary Committee and Chairman RODINO through their conduct assured the Nation of the stability of our Government.

It is for his key role and delicate handling of the Watergate crisis that Congressman RODINO will be most remembered. However, even before that historic summer, his place in history was assured, for PETER RODINO has been one of the great congressional leaders on the cause of civil rights. His mark is on every major piece of civil rights legislation of the past 3 decades. Ranging from his authorship of the majority committee reports on four civil rights bills, to his serving as floor manager of the 1966 Civil Rights Act and his authorship of the 1981 Voting Rights Act extension, PETER RODINO has played an indispensable role in bringing about equal rights under the law for all Americans.

For every Member who has served with Congressman RODINO during his 36 years in this House, it has been a great privilege. One of the truly historic figures of American Government, PETER RODINO has much still to contribute. I hope that the Members of this House and the people of our Nation will continue to benefit from his high integrity, intelligence and compassion for many years to come.

Mr. LAFALCE. Mr. Speaker, many distinguished Americans have served in the Congress of the United States. Few have had the impact of PETER RODINO, who for 36 years, has been making significant contributions to the people of the United States as a Member of the House of Representatives.

We are all aware of Congressman RODINO's masterful handling of the Judiciary Committee's impeachment hearings. Confronted with a constitutional crisis, he performed with distinction and the country which he so loves emerged unscathed, with its constitutional institutions stronger than ever. What is, perhaps, less known are the contributions which Congressmen RODINO, has made in the field of civil rights. As Chairman of the Judiciary Committee, he is, of course, at the heart of the legislative arena in the civil rights area. His achievements are legion: the civil rights bills in 1957, 1960, 1964, and 1968; author of the Voting Rights Act Extension; and floor manager of the Civil Rights Act of 1966. Millions of Americans have PETE RODINO to thank for the civil rights which they now enjoy, but which were for so long denied.

In recent years there have been efforts to engineer a retreat from the great civil rights triumphs of the sixties. We, in Congress, can rest assured that with PETER RODINO at the helm of the House Judiciary Committee there will be no substantial retreat in the area of civil rights. Rather, he will continue his efforts to make the American dream come true for all of us. PETER RODINO, we salute your career and your achievements.

Mr. HAMMERSCHMIDT. Mr. Speaker, throughout my 19 years in the House of Representatives I have had the pleasure of serving with one of the best lawmakers ever to be a membr of this Chamber, the distinguished chairman of the Judiciary Committee, PETER RODINO. He has served his New Jersey district with integrity and determination for 36 years now.

Although PETE and I don't always see eye to eye on certain issues, I have nothing but the greatest respect for his skill as a legislator. As the chairman of the Judiciary Committee, he has addressed a wide range of controversial issues, and skillfully led the committee through one of the most turbulent periods in this Nation's history. Through his dedicated work on civil rights enforcement legislation, he has helped innumerable Americans. In fact, PETE wrote the majority reports on civil rights bills in 1957, 1960, 1964 and 1968, and also authored the Voting Rights Act Extension.

Civil Rights isn't his only area of expertise, however. Chairman RODINO also has a keen interest in immigration legislation, and was instrumental in leading the successful effort to eliminate national origin quotas as the basis of our country's immigration policy. In this Congress, he is the coauthor of immigration reform legislation that has already been approved by the Immigration Subcommittee. Among his other outstanding legislative accomplishments are revisions of U.S. bankruptcy, copyright, and antitrust laws.

All of these achievements are impressive, but there is still another outside the sphere of the Judiciary Committee that cannot be omitted. PETE serves as a senior member of the Select Committee on Narcotics Abuse and Control, where he has worked to make narcotics control and integral part of U.S. foreign policy, and to find solutions to the tragedy of drug abuse.

In closing, I would just like to express my thanks to this great statesman for his tireless work and high principles, and say that I hope to continue to see him across the aisle for some time to come.

Mr. DINGELL. Mr. Speaker, it is indeed an honor to pay tribute to my good friend and colleague from New Jersey. In the 30 years that I have served as a Member of this body, I have always found PETE RODINO to be a man of integrity and a public servant who charges ahead until he finds the truth.

Everyone remembers Watergate—the scandal, the humiliation of many public officials and the very difficult actions the legislative branch had to take in Watergate's aftermath.

Let me tell you about the Judiciary chairman's latest stellar accomplishment. When my Investigation's Subcommittee and other subcommittees were uncovering the EPA scandal in 1982 and 1983, we were stonewalled by the Justice Department. The leadership of the House requested Mr. RODINO to investigate the strange, if not illegal, conduct of the Department during that period.

After 2½ years of indepth investigation, which was needlessly prolonged by struggles with the Justice Department, the committee has now issued its report—a report that would not have been possible under a chairman of less integrity and tenacity. I believe the report is a monument to PETE RODINO's thoroughness and fairness.

The report confirmed our worst suspicions. In withholding Superfund documents from the committee under the ruse of executive privilege, senior officials at the Department of Justice and the White House were deliberately keeping the Congress and the American people from learning about this administration's failure to enforce laws designed to protect the public health and the environment. The compelling evidence amassed during this investigation clearly justified the committee's vote to refer the report to the Attorney General with a request for the appointment of an independent counsel and the referral to the U.S. district court.

PETER RODINO has been the driving force of this and other investigations where it was necessary that the public be informed of wrongdoing and impropriety.

PETE RODINO will be remembered as a true friend of this body, its Members, and the public trust.

Mr. MATSUI. Mr. Speaker, I rise today to join with my colleagues from both sides of the aisle to pay tribute to a man of great accomplishment, Congressman PETER RODINO.

My admiration for PETER RODINO dates to my college years when Congressman RODINO stood in the forefront of legislative action on behalf of civil rights. He helped to lead the fight for the great civil rights bills of our time including the Voting Rights Act, the Civil Rights Act and open housing legislation. He made us proud of our Government and our Constitution during the trying months of the Watergate impeachment hearings.

As a freshman Member of the House of Representatives I had the great honor of serving on the Judiciary Committee under Chairman RODINO. I was most fortunate to have the opportunity to learn about the legislative process at the hand of a master.

Chairman RODINO is also a man of great compassion. He kindly agreed to be interviewed by my 13-year-old son, Brian, and patiently answered questions about Watergate.

Mr. Speaker, for his leadership, his compassion and his steadfast defense of our Constitution, every Member of this body and every American owes Congressman PETER RODINO a debt of gratitude.

Mrs. COLLINS. Mr. Speaker, I am here today to honor my distinguished colleague PETER W. RODINO, whose 36 years in Congress stand for one proposition: one man can and has made a difference.

What is that difference? One aspect of it is civil rights. PETER RODINO authored the majority reports of civil rights bills in 1957, 1960, 1964, and 1968. He wrote the voting rights extension of 1982. He was the floor manager of the Civil Rights Act of 1966. He was a leader in making Martin Luther King's birthday a national holiday.

When minority men and women across this Nation needed PETER RODINO, he was always there fighting the hard fight for racial equality and justice, and doing so before many others had signed on to the cause.

Indeed, Mr. RODINO has never shied away from tough challenges. When a President placed himself above the law, PETER RODINO marshaled his Judiciary Committee in voting for impeachment.

In addition, the Congressman has used his judiciary post to push for the important Victim and Witness Assistance Act, to eliminate national origin quotas as the basis of U.S. immigration policy, and to cut off aid to nations that do not cooperate with the United States in curbing the flow of narcotics into this Nation.

These and his other achievements, too numerous to discuss in this short amount of time, indicate the magnitude of the difference that Mr. RODINO has made to this Nation. While he will be sorely missed when he retires at the end of this Congress, his remarkable accomplishments will be with us, and this Nation, for many, many years to come.

Thank you, Mr. Speaker, and thank you, PETER RODINO.

Mr. WEISS. Mr. Speaker, it is my pleasure to join in this special order to honor one of the most respected Members of the House, our friend and colleague from New Jersey, Congressman PETER RODINO, chairman of the Committee on the Judiciary. It is eminently appropriate that we honor him on the 20th anniversary of the passage of the Voting Rights Act of 1965.

For more than 37 years, the House of Representatives has been graced by the extraordinary skill, the quiet determination, and the superlative sense of justice of PETER RODINO. A glance at his legislative accomplishments looks like a list of Congress' proudest moments. He managed the Voting Rights Act of 1965, and played a vital role in its extension in the 98th Congress; he guided House consideration of the immigration reform law in 1965, which eliminated the discriminatory national origin quotas that had formed the basis of 40 years of immigration policy; he was floor manager of the open housing bill of 1966; and he was a key player in establishing Martin Luther King's birthday as a national holiday.

Chairman RODINO is also well remembered for his masterful leadership during the impeachment hearings of President Richard Nixon in 1974, which took place only shortly after he had assumed the chairmanship of the Judiciary Committee. His patience, wisdom, and fair-mindedness helped reassure our country, in that troubled time, that justice was in good hands in Congress.

The eighties have been trying times for the proponents of civil rights and fairness in Federal policies. Yet no one has more deftly coped with the exigencies of the eighties than PETER RODINO. Faced with issues like school prayer, abortion, gun control, and school busing, he has unapologetically used his considerable influence to stop pernicious legislation, and promote important initiatives on issues such as women's rights.

We in this body only constitute a small portion of PETER RODINO's innumerable admirers. He has been a hero and a role model to millions of Americans, and a popular and deeply respected representative from the city of Newark, whose citizens have elected him to office 19 consecutive times. Citizens everywhere concerned about the protection of civil and constitutional rights have cause for deep appreciation of Chairman RODINO and his work in Congress.

When James Madison served in Congress in the early 19th century, he was lauded by his colleagues as "the conscience of the Senate." Mr. Speaker, PETER RODINO has served as the conscience of the House over the last three decades. We in Congress, together with the people of our Nation look forward to the continued exercise of that conscience for many years to come.

Mr. DELLUMS. Mr. Speaker, it seems hard to believe that when PETER RODINO first came to the 81st Congress I was a student in junior high school. But that observation reinforces in my mind the duration and durability of his service to the Congress, the people of New Jersey, this Nation and millions of non-Americans as well.

We and they have truly benefited from his devotion to duty and his commitment to open up doors of opportunity for all Americans, regardless of national origin, race, gender, age, or economic status.

For 37 years PETER RODINO has been in the forefront of the struggle for human rights, civil rights, social justice, peace and the termination of the arms race, both nuclear and conventional. He played a key role in drafting civil rights legislation, from the Civil Rights Act of 1957 through the extension of the Voting Rights Act in 1982. He forced a showdown with this administration over making Martin Luther King, Jr.'s birthday a national holiday.

In 1965 he led the legislative struggle to eliminate national origins' quotas as the basis for U.S. immigration policy. He was a dominant force in the passage of the Refugee Act of 1980.

For 15 years he has stood with me in opposing the madness of the nuclear arms race, in opposing an ever-escalating Pentagon budget, and in opposing U.S. intervention in Third World countries. He has been an outspoken champion of oppressed people everywhere, and people everywhere should be in his debt because of that commitment, courage, and determination to have this Nation live out the principles proclaimed in our own Declaration of Independence.

So, on this special day of tribute to a distinguished colleague, I applaud his record of public service, I proclaim respect and admiration for his record of real achievement—but, most of all, I am proud to call him friend and brother in the struggle for peace and social justice.

Mr. FEIGHAN. For almost four decades, Congressman PETER RODINO has been one of America's outstanding civil rights legislators. First as a freshman Member, and later as chairman of the House Judiciary Committee, he has consistently and effectively pressed for increased civil and economic rights for all Americans.

Since coming to the House of Representatives in 1949, Congressman RODINO has been in the forefront for the fight for civil rights. Well before the Supreme Court decision in Brown against Board of Education Congressman RODINO was concerned about equal rights for all Americans. In his first year in Congress, he fought to end the poll tax and other insidious forms of segregation.

Congressman RODINO's continued commitment to equal rights helped shape the major antidiscrimination laws which now protect all Americans. He drafted and managed key portions of all the civil rights legislation which became law between 1957 and 1968. This House has seldom seen such a tireless crusader for equal opportunity in housing, employment, and education.

In 1984, when the Supreme Court unceremoniously overturned two decades of civil rights law, the country turned once again to Chairman RODINO. As he did so many times in the past, once again the gentleman from New Jersey spearheaded the fight to restore those laws.

In short, Congressman RODINO's outstanding civil rights record, his integrity and his commitment are examples for us all.

Mr. DYMALLY. Mr. Speaker, it is clear even to the casual observer that for some of us, this podium serves as a "bully pulpit" from which we try to impart what wisdom we have to our colleagues, and, if the timing is right, to the Nation. One person who does not take the pulpit often is our colleague PETER RODINO. And from him, we have much to learn. Here is a man who is quiet. Some have even described him as shy in public. But PETER RODINO's craftsmanship has given shape to nearly every landmark piece of civil rights legislation signed into law during the third of a century that he has represented the 10th District of New Jersey in the House of Representatives. He is the kind of legislator we all wish to be: knowledgeable, competent, and effective.

PETER RODINO holds a chair that often places him in an uncomfortable position with respect to his colleagues and with respect to certain sectors of the American public. Given that often uncomfortable position, it is a testament to the skill and wisdom of Judiciary Committee Chairman PETER RODINO that he is among the most respected members of this body. And I mean respected on both sides of the aisle. If any single thing can be pointed to as being the basis for that respect which we all have for our colleague, I think it is his sense of fairness. The body of civil rights legislation for which he has been in large part responsible is one manifestation of that sense of fairness. But most people will have to admit that it was his conduct of the Nixon impeachment hearings that forever established Mr. RODINO's single-minded fairness.

As a man of liberal political philosophy presiding over the impeachment of a President of conservative political philosophy, his opportunity for unfair political advantage was obvious. But PETER RODINO was unswerving in his intention to see that this onerous proceeding was carried out with the soberness and the fairness that deliberation over the decision to remove a sitting President of the United States from office deserves. Throughout those hearings, PETER RODINO showed the Nation the best that a representative of the citizens of this country has to give. He brought honor to himself and honor to this body through his role in that sad incident in our Nation's history.

I wish to commend Congressman RANGEL for calling this special order to honor PETER RODINO. I believe that in recognizing PETER RODINO's accomplishment we also make a statement about what we want this body to be: a place where the rights of the citizens of this country will be upheld with strict fairness, where the common good is valued above political advantage. PETER RODINO has done much to make that ideal vision of the Congress a reality.

Mr. DWYER of New Jersey. Mr. Speaker, it is a privilege to join in this special order paying tribute to one of the most distinguished Members of this body, and the dean of our New Jersey delegation, PETER RODINO.

I know that the people of New Jersey take great pride in having our interests so expertly represented on the Judiciary Committee which he has chaired for 12 years. Chairman RODINO has been a staunch protector of our constitutional freedoms in his leadership role on the Judiciary Committee, and is distinguished for his fairness and courage in promoting civil rights.

The chairman has also been a powerful force in our national efforts to control crime and crack down on illicit drug trafficking, and he wrote the 1982 legislation providing assistance and protection for crime victims and witnesses.

His constituents in New Jersey's 10th Congressional District know they have a steadfast advocate for their interests in Congressman RODINO, who has been their able representative for 36 years. He has shown time and time again his concerns for the people of his district and the State of New Jersey. As members of the New Jersey congressional delegation, we are proud to have him as our dean.

The chairman's many accomplishments, and his skills as a legislator and statesman, were brought to the attention of the entire Nation when he presided over the historic Watergate impeachment hearings in 1974. These were sensitive, difficult times for our nation, and Chairman RODINO showed how well our democratic system of governance works when thoughtful, experienced, and fair-minded leaders are at the helm. His leadership gave Americans confidence in our legislative process at this critical juncture in our history; it is a feeling of security in our institutions and constitutional freedoms that has endured under Chairman RODINO's continuing leadership.

Above all, the chairman is respected for his courageous work in behalf of America's minority citizens, working tirelessly for equal rights and equal opportunities. He realizes that there is still a long way to go, and has been undaunted in his work in behalf of America's disadvantaged citizens.

Chairman RODINO's vision and wisdom has served as an inspiration to all of us in our work toward a better and more just America. It is a fight we must continually undertake to safeguard our freedoms and improve our society.

I thank my distinguished colleague from New York, Mr. RANGEL, for calling this special order. It is truly an honor to take part in a tribute to a man who has given so much to this institution and to the country, and who will continue to serve as a guiding force for justice and equality for all Americans.

Mr. ROE. Mr. Speaker, it is a great honor for me to rise today and join in this well-deserved tribute to our colleague and my good friend PETER RODINO, the dean of the New Jersey congressional delegation.

In his 36 years of service in this body PETE RODINO has clearly established himself as an outstanding legislator whose accomplishments have been an inspiration to us all.

America is truly a better place thanks to PETE RODINO. As both a member and later chairman of the powerful House Judiciary Committee, he was responsible for both writing and securing passage of most major civil rights bills approved by Congress. He drafted the fair employment practices provision of the historic 1964 Civil Rights Act and a year later was chief House manager of the Johnson administration's immigration and reform law that eliminated the national origin quota system that had been the basis of American immigration policy for more than 30 years. In 1966 he served as floor manager of this landmark Civil Rights Act of 1966.

To many Americans, PETE RODINO reached the zenith of his distinguished career during the turbulent time of the Nixon impeachment proceedings. Those were indeed troubled times for all Americans. There was doubt in the land. The very pinnacle of American Government, the Presidency, was shaken by scandal. But a calming voice, filled with both authority and fatherly kindness was heard. And that voice belonged to PETE RODINO.

His fairness and professionalism in handling the impeachment inquiry gave the public new confidence that, indeed, the American system of government does work and that it will endure.

As dean of the New Jersey congressional delegation, PETE RODINO has utilized those same leadership skills he demonstrated during the Watergate impeachment proceedings. His bipartisan approach in dealings with both Democratic and Republican Members from our State has helped make the New Jersey delegation the powerful force it is in the House today.

But first and foremost, PETE RODINO is a champion to the people he represents in the 10th Congressional District of New Jersey. The 10th District is representative of many troubled older inner-city areas around the Nation. But thanks mainly to the efforts of

PETE RODINO that area is rebounding from the problems of the past. There is hope and optimism for the future.

PETE, serving with you in the House for the past 16 years has indeed been an honor. I join with our colleagues, the members of your fine family and the people of America in saluting your contributions to our great Nation. It is my hope that you will choose to serve with us for many more years.

Let me conclude by stating that PETE, I am proud to call you my friend.

Mr. ANNUNZIO. Mr. Speaker, I rise to join with my colleague, CHARLES B. RANGEL, in paying tribute to the distinguished Chairman of the House Judiciary Committee, and my very good friend, the Honorable PETER W. RODINO, JR., on the occasion of the 20th anniversary of the Civil Rights Act of 1966.

PETE has championed many causes in the past, and oftentimes, his efforts and his support have meant the difference between success and failure. He was the floor manager of the landmark Civil Rights Act of 1966, and his steadfastness and dedication to civil rights enforcement is demonstrated in his authoring of the civil rights bills of 1957, 1960, 1964, and 1968, and the Voting Rights Act Extension, and his support for numerous bills relating to this subject.

As the Congressman for the 10th District of New Jersey, and a veteran of 36 years of service in the House of Representatives, PETE has distinguished himself time and again—as chairman of the House Judiciary Committee; as a delegate to the North Atlantic Assembly; as an assistant to the majority whip and a member of the House steering committee; and as a former chairman of the Immigration and Nationality Subcommittee as well as chairman of the Monopolies and Commercial Law Subcommittee of the House Judiciary Committee. In every endeavor, he has labored diligently and with devotion to the highest standards of excellence.

His exemplary performance and commitment to fairness during the impeachment hearings demonstrated boundless proof of his skill and concern for our great Nation and its people. In addition, PETE was instrumental in insuring the beginning of a totally new and more democratic concept in American immigration policy, because it was largely through his leadership that the Immigration and Nationality Act Amendments of 1965 became law, doing away with the national origins quota system which discriminated against every nationality and ethnic group.

PETER RODINO is a legislator of extraordinary abilities, and has dedicated his career in public service to equal justice under the law, fairness, and an end to all forms of discrimination. His dedication to these high standards are an inspiration to all Members of Congress, and to all citizens in this country. On the 20th anniversary of the Civil Rights Act of 1966, I am proud to join with my colleagues in saluting this great American, PETER W. RODINO, JR., as he continues in his efforts as chairman of the House Judiciary Committee to secure civil rights and justice for all citizens in our Nation.

Mr. FORD of Michigan. Mr. Speaker, I am pleased to be able to join my colleagues in this Special Order honoring the distinguished gentleman from New Jersey, PETER RODINO. Throughout his career, PETER has been a leader on civil rights issues. We choose this day to honor him because it is the 20th anniversary of one his proudest accomplishments, the passage of the Civil Rights Act of 1966.

During his 36 years in Congress PETER RODINO has been a most effective and diligent representative of his constituents. He has been a masterful lawmaker and a leader on such historic legislation as the Voting Rights Extension Act, and the 1965 Immigration Act which reformed the U.S. policy on immigration.

As chairman of the Judiciary Committee he was called upon to oversee the investigation into the impeachment of our 37th President. During a time when caution and integrity were needed he displayed both. His careful investigation of all the evidence drew bipatisan support and helped to bring to a close one of the most trying times in our history. His career has been marked with many other milestones that are too numerous to mention here. I know all of us join in congratulating PETE on his peerless service to the public good and wish him continued success and happiness in the years ahead.

Mr. RUSSO. Mr. Speaker, I'm delighted to have the opportunity to say a few words in honor of one of the most respected and effective Representatives in the history of this body. Actually, you could say a great many words about a man like PETER RODINO, but I want to keep this simple and clear because it doesn't require a great deal of fancy talking to describe this man. He is honest, he is good, he is wise, he is compassionate and he knows his job and does it with a degree of excellence and dedication that serves as a model for us all.

As an Italian-American, I must say that I take special pride in what Chairman RODINO has accomplished. He can take the seemingly impossible issues and legislatively make an impact—on immigration, narcotics, antitrust laws, to cite a few. The Nation will not forget with what delicate skill he handled the impeachment hearings, or the minorities his tremendous work on civil rights legislation.

So I am among the many who stand in awe of this man's ability to see us through our rough times and provide a calm and judicious presence at all times. The distinguished gentleman from New Jersey also has a way of guiding you that acknowledges your own need to participate and make your own contribution. I know this from firsthand experience because he was my first chairman when I arrived here, wet-behind-the-ears, from Chicago. This generous man taught me in the kindest of ways and trusted me to handle a major bill for the Judiciary Committee. I've never forgotten his confidence in me, and it is such a chairman who inspires you to develop your own confidence and legislative bill.

I'm indebted to Chairman RODINO for all I learn from him, and this country owes a continuing debt of gratitude to him. Despite the fact that he is a senior U.S. Congressman, with power and influence, he does not lose his perspective and simply goes about the business of working on justice for all. I respect him and I trust him. PETE, keep up the good work.

Mr. WHEAT. Mr. Speaker, it is truly an honor to say a few words about Chairman PETER RODINO, a colleague with whom I am privileged to work in the U.S. House of Representatives, and who I respect tremendously, as a great citizen.

Chairman RODINO has been an inspiration to me since 1964, when he displayed unrelenting diligence to ensure the passage of the Civil Rights Act of that year. In fact, he has been a principal proponent in the passage of all major civil rights legislation during his long tenure in Congress.

Mr. Speaker, this year marks the 20th anniversary of the Voting Rights Act of 1965, a bill that passed the Congress in large part due to Chairman RODINO's determined effort. It was his leadership in the House on this issue that has enabled this country to live up to the democratic concepts of our Constitution and ensure that all men who are created equal may have an equal vote. And since that year, he has continued to exhibit courage and determination in ensuring fair and equal rights for all citizens of this great country.

Time and time again, Congressman RODINO's legislative expertise has resulted in laws that have improved the quality of life for the Nation's needy people. More importantly, the principles embodied in those laws have improved the lives of all people of this Nation. It was Chairman RODINO who noted with both sense and sensitivity that civil rights bills are not just for blacks, but rather they are for all of us. His work has improved the opportunities of minorities to vote and has hastened the desegregation of public schools and public facilities. Most importantly, he has helped all Americans to demonstrate to the world that we are what we say we are; a democratic society, based on the principle of equality for all men.

I hope that my colleagues will join with me in applauding Chairman PETER RODINO. He has continued to protect the principles of human dignity and concepts of individual liberty that make America such a strong, and unique Nation.

Mr. FASCELL. Mr. Speaker, I am delighted to pay tribute today to my friend and our colleague from New Jersey, PETER RODINO, with whom I have had the honor and pleasure of serving in the U.S. Congress for over 30 years.

Three words aptly describe his efforts throughout his congressional service: respect, wisdom and fortitude. During his 36 years in the U.S. House of Representatives, PETER RODINO has been the champion of the downtrodden, the forgotten, and the abused. He is a man of vision who has taken a stand, who has heralded unpopular causes because it was the right thing to do.

Our colleague's able leadership of the House Judiciary Committee is legend. I am ever thankful that it was PETER RODINO who was at the helm during the Nixon impeachment hearings and I will always remember his grace and wisdom at that difficult time in our history. For years, and most recently this year, he has been at the intellectual forefront of the immigration reform debate, sharing his respect for the Constitution and for human rights with others as he has struggled to make the necessary changes in our immigration laws. He has also fought tirelessly for the cause of civil rights for all people of this country and for this he has the respect and admiration of a nation.

Our colleague from New Jersey is a friend to the friendless, a light of hope to the disenfranchsied, a man of courage and strength. I am glad to have this opportunity to express my appreciation, admiration and respect for this exemplary public servant. I thank my friend for his extraordinary dedication to his country and I wish him continued success in all of his efforts.

Mr. CROCKETT, Mr. Speaker and my colleagues: I am both pleased and honored to be able to share in this well-deserved tribute to my chairman, PETER RODINO.

It has been my honor and privilege to serve under Chairman RODINO on the Judiciary Committee since March 1982. In the almost 4 years since I joined the committee, I have watched as Chairman RODINO fairly and thoroughly approached the business of the committee, and tackled some of the thorniest problems facing our society today.

He has led the committee through examinations of U.S. immigration policy; of reorganization of courts; or revisions of bankruptcy, copyright, and antitrust laws; and strengthening of civil rights legislation. He has fought the administration's efforts to weaken law enforcement and equal opportunity guidelines, and efforts by others to weaken or abandon the Government's commitment to civil and voting rights in our country. He was a strong support of the Martin Luther King Birthday bill, as well as many other pieces of legislation which evidence his strong and firm commitment to equal justice.

It would be hard for anyone to summarize in a few minutes what Chairman RODINO has meant to minorities and disadvantaged in this country. Over his 36 years in the House of Representatives, his record stands alone among his peers in his defense of the constitutional rights of all our citizens. From his oversight and leadership in the impeachment hearings over Watergate, to his primary role in establishing and maintaining Federal programs to assure equal access to legal services, PETER RODINO has been the champion of those whose rights are in jeopardy,

When the history of the past half century of progress in civil rights and constitutional guarantees is written, PETER RODINO's name will rightly figure prominently in it.

I am proud to have the opportunity to serve with him in the Congress.

Mr. UDALL. Mr. Speaker, there's an ancient political slogan, first used, I think, by Tiberius Caesar, or was it Grover Cleveland, that said, "Public office is a public trust."

And, Mr. Speaker, no man in public office today better embodies the spirit of that old, and very appropriate, adage than the gentleman from New Jersey, my friend PETER RODINO.

At a time when confidence in the very foundations of our political system was being undermined; at a time when confidence in those in public office was being assaulted; at a time when the Nation looked for strength and integrity, PETER RODINO, the chairman of the House Committee on the Judiciary, provided that strength and that integrity.

We often hear that "The office makes the man." Well in this case, the office didn't make the man. In this case the man made the office. Well, Mr. Speaker, we all were fortunate that we had such a man as PETER RODINO in that office. As the newly elected chairman of the House Judiciary Committee in 1973, he did not bend to the tremendous pressures exerted by the most powerful office in the world. He did not succumb to temptations to take the easy way out, to rush to judgement, to be politically expeditious. The stewardship of Chairman RODINO in the matter involving the impeachment proceedings of Richard Milhous Nixon was arguably the finest hour of the U.S. House of Representatives.

We saw, on both sides of the aisle, the dignity and the restraint and the courage of a truly great legislative and deliberative body.

And it is to the everlasting credit of PETER RODINO that the impeachment proceedings were perceived around the world as careful, fair, and judicial.

And though his great fame came primarily from those dramatic and exhausting days of 1973 and 1974, let us not forget, Mr. Speaker, Chairman RODINO's outstanding service to his district, his great State of New Jersey, and to his country. His career in the House of Representatives has been marked by tireless effort, compassion, and skill.

Yes, public office, is a public trust. And PETER RODINO is proving that to be true every day of his career in public office.

Mr. Speaker, I say this with all sincereity: I feel honored and privileged to have served with him since I came to the Congress in 1961 and to be able to call him a colleage and a friend.

Mr. BROWN of Colorado. Mr. Speaker, For a decade, PETER RODINO has presided over a committee whose charges includes the administration of justice, the war against crime, the legal rules governing the economy, and the defense of the Constitution.

As chairman of the Judiciary Committee, PETER RODINO has left his stamp on legislation covering diverse areas affecting every American citizen. When Mr. RODINO entered Congress in 1948, black Americans were not able to vote in many areas. The crucial legislation to change this situation—the Voting Rights Act—is now 20 years old. As the driving force behind this and other historic civil rights measures, PETER RODINO has served all Americans. He helped to bring the benefits of democracy to people previously disenfranchised. He helped to make this a "more perfect union."

PETER RODINO won an enduring place in American history when he chaired the Judiciary Committee's deliberation on the impeachment of the President. At a time of grave constitutional crisis, Mr. RODINO served with distinction.

As a new member of the Judiciary Committee this year, I have appreciated his courtesy and fairness in the conduct of the committee's business. Mr. RODINO has worked diligently and skillfully to advance his vision of the public interest. While candid in the defense of his own point of view, he is more than willing to let other Members defend theirs. It has been a pleasure and an education to have him as my chairman. It has been an honor to serve with a man who, as author of the Voting Rights Act, contributed so much to make this a more just society.

Mrs. BURTON of California. Mr. Speaker, today, as we honor our colleague PETER RODINO, his accomplishments during his long and distinguished career will be described and praised by all of us who hold him in such high regard.

Chairman RODINO'S achievements and his courageous stands on the great civil rights issues of the past decades are well-known. We were all reminded this year, the 20th anniversary of the passage of the Voting Rights Act, of his great contributions to the political rights of Amercians. He led the fight recently for the extension of that landmark legislation. That the rights of all Americans today are secure and that this is truly a nation with freedom of opportunity is in large part due to the efforts of PETER RODINO.

I would like to focus on one chapter in the history of this fine gentleman. During one of the darkest periods for this Government, the Watergate crisis, PETER RODINO brought respect to this institution and reassured all of us that our system of government can withstand concerted efforts to undermine it. His leadership on the Judiciary Committee, his skillful and judicious guidance of the impeachment process was instrumental in bringing Congress and the Nation through that difficult period.

I thank my friend CHARLIE RANGEL for arranging this special order and giving us the opportunity to honor PETER RODINO.

Mr. RINALDO. Mr. Speaker, it gives me a great deal of pleasure to participate in this special order today to honor a close friend, Congressman PETER W. RODINO.

I have known PETE since before I came to Congress in 1972, but over the years I have come to respect him as a colleague and an influential Member in the House of Representatives. PETE RODINO is the dean of the New Jersey congressional delegation, and he is a leader in every sense of the word. The qualities of character, fairness,

51-059 O-87-11 (Pt. 27)

and integrity which the country saw in 1974 as he presided over the impeachment inquiry of the House Judiciary have been known to people in New Jersey for years. While many people say it was his finest hour, they ought to know that out of the cameras and the lights, PETE RODINO is just as fair, honest, and forthright. That is why he has been reelected to Congress for the last 36 years with overwhelming margins and why we in the New Jersey delegation and the House as a whole hold him in such high esteem.

There are many qualities that go into making a good Representative. He must be intelligent, politically astute, have firm principles but also be willing to compromise and negotiate when that is in the Nation's interests. PETE RODINO has all these qualities. He is a great believer in the legislative process and as my colleagues know he has helped steer through Congress landmark legislation on civil rights, crime, immigration, the judicial system, bankruptcy, copyright, and antitrust laws.

Mr. Speaker, our Nation has always depended on people like PETE RODINO. Individuals who have a strong sense of tradition, who dedicate themselves to careers in public service the way he has, and who are willing to make the kinds of sacrifices he has made in order to make America a better and more just nation.

It is a pleasure for me to join my colleagues today in honoring PETE RODINO, and I want to extend my best wishes to him for many more fruitful years in the House of Representatives.

Mr. STOKES. Mr. Speaker, I yield back the balance of my time.

GENERAL LEAVE

Mr. RANGEL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous matter on the subject of my special order today.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

FRANK ABUSE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia [Mr. RAY] is recognized for 5 minutes.

Mr. RAY. Mr. Speaker, I rise today to focus attention on the issue of the abuse of the franking and postal patron mail service which has been recently publicized in the national news. I would like to applaud a gentleman in the other body, Senator MATHIAS, for his initiative in this area. Senator MATHIAS, chairman of the Rules Committee, initiated the recent disclosure of the amounts of money spent on mass mailings. He felt that this type of disclosure would cause an increased awareness that these mailings were not free. The disclosure found hundreds of thousands of dollars being spent on these mailings at a time when the interest on the deficit is projected to be in excess of $140 billion for 1986. I'm surprised somebody hasn't received the golden fleece award for this excessive expenditure of public funds.

Official mail has become the fastest growing cost of running Congress. The awareness by the public and Congress that is resulting from this disclosure should serve as a conscience and curtailment within itself, and I hope that it does. In my opinion the Members of the House of Representatives should take the initiative and disclose House expenses. Why should any congressional expenses be kept private from the taxpayers?

Although Members must maintain communication with their constituents, I feel that this extensive mailing should be minimized. Members should have the freedom of using the franking privilege to answer constituents' letters. Constituents' questions and concerns are of utmost importance. The problem arises though with mass "blanket" mailings. The number of postal-patron publications such as newsletters must be decreased. I support correspondence that serves information gathering purposes and that which responds to constituent needs. Otherwise, I feel that moderation is of the essence. We need to set an example for the American people. In a time when we are encouraging moderation in spending, we should be practicing what we are preaching. After all, franking isn't free. Congress has to write a check to the Postal Service for every letter or newsletter that we send.

I commend the other body and encourage my colleagues to examine the issue and move in that direction also.

□ 1640

TRIBUTE TO PETER RODINO AND THE VOTING RIGHTS ACT

(Ms. OAKAR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. OAKAR. Mr. Speaker, I was not able to be here earlier when the distinguished Members were paying tribute to Congressman RODINO, but I wanted to add my voice to those tributes by my colleague, LOU STOKES and others.

Mr. RODINO is certainly symbolic of what the Voting Rights Act means to all Americans because of his great work. That act, in and of itself, ensured that Americans have access to participate in our democracy. So we commend him for that. But to me, I think of PETER RODINO as, in a way, a contemporary Mr. Constitution. He is the protector of the Constitution in this Congress.

When I was running for office 9 or so years ago, the national figure that I wanted to appear in my literature more than anyone else was PETER RODINO. He consented to do that. I remember how thrilled I was and how all my campaign supporters were to have him appear.

In my district, beyond that, he is very, very important for other reasons besides civil rights legislation. He is, in fact, very responsible, if not the most responsible person, for reform in immigration laws. So many people who have seen the quota system with respect to different countries being discriminated against in the past saw a big change in the law thanks to PETER RODINO's action and that Immigration Act that passed some years ago. So I think we remember him for these and other reasons, but I just wanted to pay tribute to a wonderful American. We wish him many, many more years of service in this body and certainly to our great country.

DEMOCRACY ENDOWMENT INTERFERES IN FRANCE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Colorado [Mr. BROWN] is recognized for 5 minutes.

Mr. BROWN of Colorado. Mr. Speaker, last year funds from the National Endowment for Democracy were secretly funneled to the military-backed candidate in Panama's Presidential election. By secretly interfering in another country's free elections, NED was undermining democracy, not promoting it.

After that incident, NED promised to operate openly and to stop meddling in the internal politics of other countries. In spite of those promises, it has come to light that NED has secretly been channeling funds to groups actively opposed to the democratically elected Government of France.

NED gave $830,000 to a labor union engaged in anti-Mitterrand activities. It also provided $575,000 to a student group that has been named as the youth arm of an outlawed paramilitary organization. NED's interference in French domestic politics is documented in an article by Mark Schapiro and Annette Levy in the December 23, 1985, New Republic, which I would like to submit for the RECORD.

NED's French involvement raises serious questions about NED's ability to operate openly and to avoid meddling in the domestic politics of other democracies. Once again, NED has done more to undermine democracy than to promote it.

This Congress has authorized the use of funds to promote democracy around the world. We have not authorized the use of funds to interfere in existing democracies.

To institute an international political action committee that interferes with existing democracies makes a

sham out of our efforts to advance self-government. For those who have forgotten, America's holding high the torch of freedom means something far different than NED's efforts to manipulate foreign democracies or waste taxpayers dollars.

Mr. Speaker, NED is a loose cannon. It has shot more holes in our ship of state than any other. It is time to redirect its efforts to promoting democracy—not subverting it.

NED TO THE RESCUE

(By Mark Schapiro and Annette Levy)

(Mark Schapiro is a writer based in Washington, D.C., and an associate of the Center for Investigative Reporting. Annette Levy is a staff writer for the Paris newspaper Liberation.)

The National Endowment for Democracy seeks to "strengthen democratic ideas and institutions," President Reagan proclaimed in France last May. The mission of the Endowment, established in 1983 by the administration and Congress, is to promote democracy by giving money to citizens' groups, trade unions, scholars, and others in foreign countries. Critics of NED have asked why the U.S. should be interfering in the politics of foreign countries, but the Endowment's supporters argue that in most of the world democratic forces need all the help they can get.

The members of the European Parliament who warmly applauded Reagan's speech might have been surprised to learn that one country where NED officials have decided democratic institutions are in dire need of such aid is France. Two of the biggest beneficiaries of Endowment funding—receiving a total of almost $1.4 million in the last 19 months—are a French white-collar workers' union and a small right-wing student group in Paris. The two organizations have been in the forefront of opposition to the policies of President François Mitterrand.

This is exactly the kind of situation NED skeptics have worried about since the beginning. After all, imagine the fuss if the French government were to give financial support to liberal groups active in opposing President Reagan. Indeed, NED's subsidy is even stranger because the French student group is the offshoot of a paramilitry organization that was outlawed in 1982 because of alleged involvement in bombings, drug smuggling, and gangland-style killings.

Funds for the Endowment are channeled into France through the Free Trade Union Institute, which coordinates worldwide activities for the AFL-CIO. The Institute, whose headquarters are in Paris, was designated by Congress to receive more than two-thirds of NED's $18 million budget in each of the last two years. (Congress has since dropped the requirement.) Most of the Institute's funds are distributed to anticommunist unions in Latin America and Asia. But about ten percent of the U.S. aid stays in Paris.

In April 1984 the Institute gave two-year grants totaling $575,000 to the L'Union Nationale Inter-Universitaire (UNI), a student activist group that reportedly has less than 1,000 members. At the same time the Institute gave $830,000 to the Force Ouvrière (F. O.), a nationwide union with an annual budget of roughly $5.4 million. Defenders of the grant say it was used to resettle political refugees, but the evidence suggests otherwise. The F.O. is a rival to France's largest labor union, the Confédération Générale du Travail (CGT), which is controlled by the French Communist Party. Only the Philippines, whose democratic institutions are in somewhat more danger than France's, received more assistance from the Institute.

The student organization's credentials as a "democratic institution" are suspect. According to a 1982 French Parliamentary Inquiry Commission, UNI is a "satellite movement" of the Service d'Action Civique, an organization of French Algerians created in 1962 to serve as a security force for right-wing politicians. Over the next two decades SAC evolved into a paramilitary organized crime ring and became more violent. The top SAC official in Marseilles was assassinated along with five family members in 1981, apparently for refusing to turn over incriminating documents to his colleagues. SAC established UNI in 1968 in response to left-wing activism on French campuses. The chief of the Paris branch of SAC told the parliamentary commission, "In fact, we could not use young people of 18 to 19 years of age, they are too uncontrollable. SAC didn't 'move' enough for them when they were introduced [at that age], so we sent them to UNI."

Carl Gershman, the president of the Endowment and former assistant to U.N. Ambassador Jeane Kirkpatrick, defended the aid to the two groups. "We intervene in a democratic country to encourage the democratic debate. We support institutions involved in that process." The F.O., he said, "is competing with an organization [the CGT] that has a nondemocratic orientation." Gershman said that he did not know about UNI's connection to SAC until late November, and said the grant has been suspended until an investigation of UNI's history is completed. But Irving Brown, who oversees activities of the Free Trade Union Institute, admitted he knew about UNI's controversial parent organization when he disbursed the Endowment funds. "I know you will tell me about SAC and everything," he said. "There is a little bit of everything in UNI. We have to help the democratic forces which fight against the Russians."

Asked why it is necessary to bolster democratic institutions in country with one of the longest and most stable democratic traditions in the world, Gershman responded by citing NED's activities in Guatemala, where the Endowment supported voter education efforts prior to the November 3 elections. "All sides observing the voting there praised the efforts we made to encourage voting, the democratic process," Gershman said.

What is the similarity between France and Guatemala? "It's not France in terms of being a new democracy," he explained. "But they are both sovereign states; they are both sovereign nations." We apply our consistent principles across the board."

The apparent importance of supporting groups operating freely in democratic Western European nations was not mentioned when Reagan persuaded Congress to establish the Endowment in 1983. Rather, the administration portrayed NED as a way to provide support for democratic institutions countries such as Argentina or in dissatisfied Soviet bloc countries such as Poland.

Supporters also insisted that NED's activities would be completely aboveboard. The revelations of covert funding of operations abroad that plagued the CIA in the 1960s and 1970s would be avoided. The United States would be proud to assist people struggling for democracy. To insulate itself from the CIA, NED even refuses to hire current CIA or other intelligence agency employees. Gershman asserts that "what we do has to be also to stand the light of day."

The Endowment has not been completely open about its activities in France. Its most recent annual report did list the grant to the Force Ouvrière. The report described UNI's publishing efforts ("A comprehensive program to provide an effective counterweight to the propaganda efforts of leftwing organizations of professors"), which NED funded, but did not identify the group by name. Gershman says that all recipient will be listed by name from now on. Nor did NED formally notify the Mitterrand government—which the State Department has called "our best anti-Soviet ally in Western Europe"—of its support for two organizations that have been in the forefront of the French opposition. The French governments has refused to comment.

Eugenia Kemble, the executive director of the Free Trade Union Institute, has advocated that NED be less forthcoming about its funding. She proposed last April that NED projects in France and eight other countries be secretly funded. In a confidential memo to Gershman, Kemble said that recipients might "either be endangered or embarrassed if specific budgets were published or announced." Kemble noted that "either repressive governments or Communist front groups could use the information to hurt individuals or unions we are seeking to help." This is probably true in Chile, Poland, Paraguay, Nicaragua, and the other countries she listed. But France? Democratic groups there face no repressive government. The CGT is communist-dominated, but the Force Ouvrière and other anticommunist unions are perfectly free to challenge it. If their activities are legitimate, they should welcome public disclosure of their funding and activities. Ironically, the CGT has come to the Force Ouvrière's defense, perhaps because it too is said to receive foreign funding—presumably from Moscow—which it prefers not to disclose.

Gershman claims that he responded to Kemble's memo verbally. "I don't like doing memos like this that some reporter from some crazy French newspaper can get ahold of. I indicated to her my view on this—Don't come here thinking you can keep these projects from the public. These relationships are subject to full disclosure.' " Gershman says that all such "sensitive" projects would be halted in the future or made public. The House Subcommittee on International Operations has been informed about the "sensitive" operations abroad, according to Richard McBride, a subcommittee aide, but has agreed with Kemble not to release details of the operations to the public. Kemble refused to comment.

Gershman's commitment to "full disclosure" is not shared by the recipients of NED's largess. Gershman, Brown, and Kemble have all confirmed the Endowment's financial support of UNI. Nevertheless, a spokesman for the group still denies it, calling statements that the organization has received funding from the Endownment "a fantasy of journalists."

André Bergeron, president of the Force Ouvrière, said, "I'm not going to confirm of deny it. We have funds that are being used to help people obliged to leave their countries—in southeast Asia, in Chile, in Poland." Bergeron added, "I don't know the Free Trade Union Institute. I have never heard of this Endownment for Democracy." Irving Brown, the director of the Institute, says he has known Bergeron since 1947.

Nor is it entirely clear how the grant to the Force Ouvrière has been spent. Gershman says the money was used for organizing immigrant laborers. Brown and Bergeron say it paid for the resettlement of political exiles and nothing else. But the only specifics they provide are a grant of 80,000 francs (slightly more than $10,000) for the Paris office of Solidarity, the Polish trade union. An internal NED document says the Endowment money supports "education on parliamentary procedure, combatting antidemocratic forces, factional organizing, education on how to organize, how to demonstrate, how to service members, and publication and dissemination of materials."

The truth is that Endowment grants to groups in countries where democratic institutions are already functioning will inevitably violate the Endowment's rules. These guidelines prohibit any funds from being used on behalf of political candidates. The F.O. and UNI grants were not specifically intended for partisan purposes. But Gershman conceded that Endowment support could have freed the groups to use other funds for more explicitly political purposes.

"You cannot control the individuals involved," he said. "The Endowment is committed to supporting pluralism. The Free Trade Union Institute, which the Endowment supports, enjoys the benefits of freedom. The organizations the Institute supports are engaged in nonviolent acts common to a democracy. The fact that the Endowment supports a project engaging in nonviolent democratic activity—I don't see anything wrong with that."

Of course, there's nothing wrong with "nonviolent democratic activity." But it is not terribly democratic for any government to fund partisan political organizations in another democratic country. The Endowment should have learned this lesson before. Last year, for example, it was revealed that a labor institute in Panama, funded by NED, had contributed approximately $20,000 to the campaign of the military-backed presidential candidate, who won the election by all of 1,700 votes. The U.S. ambassador in Panama sent a classified cable to the State Department urging that "this harebrained project be abandoned before it hits the fan."

MY ADVICE TO THE PRIVILEGED ORDERS

The SPEAKER pro tempore. Under a previous order of the House, the gentlemen from Texas [Mr. GONZALEZ] is recognized for 30 minutes.

Mr. GONZALEZ. Mr. Speaker, the aircraft disaster that took the lives of 248 U.S. soldiers and 8 civilian aircraft crew members last week is a shocking, sad event. But it is not enough to mourn and bury the dead; there are lessons to be learned. Not just how and why it happened, but what might have happened if the disaster had taken another form—such as an attack on these soldiers while they were on duty as members of the almost unknown Multinational Force and Observers, those forgotten forces who guarantee the Camp David accord that followed the last war between Egypt and Israel. And we must also ask ourselves another question: Why do we not only expose these troops to forgotten corners of the world on missions of dubious but supremely dangerous import; but also expose them to the questionable virtues of flying on unknown airlines whose rates are cheap, but whose safety is dubious?

We know nothing about why the Arrow Air DC-8 crashed at Gander, NF. We may never know. But it is a supreme irony that the Department of Defense today, as it did in Vietnam, flies living soldiers on private charters; the dead return on military aircraft. The Department of Defense claims that it can't provide the aircraft to fly its troops; that it is cheaper and more efficient to use commercial airlines. So the Department of Defense spends about $450 million a year on commercial transportation.

I doubt that the Government would ask commercial carriers to ferry troops into combat zones. Certainly not; this would be too risky. Carrying passengers, it seems, is a commercial function. Therefore, troops who are on their way to a combat area will be flown by commercial carrier—but only to a safe point. After that, it is a military mission. And today, as in the days of Vietnam, the dead come back on military aircraft. The dead are not passengers, but freight, and the military carries its own freight. What a travesty this is; what a commentary on the state of our thinking. War can be commercialized, but the ashes of war are the business of the Government. So it is that these fine soldiers traveled on an airline unheard of by anyone outside the charter business, on an aircraft that some allege was falling apart; on an airline that seems to have had problems retaining pilots, because of pilot concerns about the safety of the aircraft they flew.

The least we can do is determine just what kind of standards it is that the Government expects of charter carriers that carry our soldiers around the world. It would be far better if the Government used its own aircraft; let us at least be responsible for our own soldiers: Surely that is not too much to ask.

But there is another, deeper, and more urgent question to ask: Why were they where they were in the first place? What if their deaths had come about not because of a grisly, ghastly accident, but a surprise attack? We would not then be only mourning the dead; we would be pondering the far greater issue of whether we would be drawn into war against the enemy that attacked them.

Hardly anyone knew that the Multinational Force and Observers even existed, before last week's accident. I doubt that very many people know what it is, even today, let alone what it does. Fewer still have asked why it exists and what it would mean if that force were attacked. My own attempts to raise these questions, time after time, have gone ignored.

The Multinational Force is supposed to inspect the Sinai frontier between Egypt and Israel, and assure that neither side is about to mount an attack. They are thus to guarantee the peace between these two countries. But if there is peace, why is there a need for this armed force? Genuine peace does not call for a third-party force of armed personnel to separate the sides. They are there, in other words, because what is called peace is not peace; it is only a suspended war.

What could this tiny force do if it were attacked? It was no armor, no air force, no artillery.

I gave the composition of this force at the time and said that the second greatest number component is the Fiji Island component. West Germany does not have any there, Britain and France and Italy have token forces about 10 or 11, and Colombia has 500 now. They originally had 1,000, but since then they had trouble back home and called back 500 of the 1,000. So it could, in fact, do almost nothing to resist an attack. It would have to stand aside or be obliterated, just as a similar UN force had to stand aside or be obliterated when Israel decided to invade Lebanon. Militarily then the force becomes insignificant.

What then is the purpose of the force? It is to serve as a token; truthfully it is to serve as a hostage, just as hostages were taken in ancient days, by warring feudal barons. If either side to an agreement showed bad faith, the hostages would die and war ensue. In this case, the United States soldiers are hostages; if either Egypt or Israel were to kill them, there would be fearful consequences—or would there? Would it merely be another Beirut disaster, mourned and soon forgotten? In either case, the mission would prove futile. If the force were attacked and obliterated, it would have failed. If the United States were then drawn into war, it would be a war against either a close ally or an ally we have tried to court for many years. If the fatalities were mourned and forgotten, their lives would have been wasted, just as an almost equal number of marines were wasted in Lebanon in 1983.

Let us suppose that our intelligence sources revealed a military buildup in the Sinai, by one side or another; would the U.S. forces stay in place, in the middle? Would they pull out? Would our Government communicate the possibility of impending war to one side or the other, thus assuring enmity from an ally—since both contenders are our allies?

□ 1655

The presence of U.S. troops in the Multinational Force creates a dilemma

of immense proportions. In any kind of military or political crisis, it becomes an insurmountable obstacle to a happy and a solicitous resolution from the standpoint of the safety of our troops.

Yet we go on, as if the dilemma does not exist, that it cannot happen, or that it will not happen. We go on as if the unfolding disasters in Lebanon had not happened, a disaster that came about, in part, because of what? Military unpreparedness? Well, I could hardly say that. I stood on this floor over a period of 14 months, asking the question that I am raising now of President Reagan.

About some 6 months before October 1983, I found out that the Joint Chiefs of Staff had been unanimously advising the President against that decision. Yet the Commander in Chief willfully continued. As a matter of fact, on the Thursday when this House was adjourning, before the weekend of October 24, the last words printed in the RECORD were mine, and they were addressed to the President and my colleagues, reminding them that as they took off to a nice, good, comfortable supper, and the President would retire to his dining room in the White House, to stop and think of the marines who were in the shadow of death in Beirut. I felt extremely sad, distressed, when, back home that weekend, on Sunday morning, the terrible news broke about the murder of those 241 marines in their sleep.

I say that we have the duty on this case, that is, the so-called Multinational Peacekeeping Force in the Sinai, more so than the President did, even though it should be a shared responsibility and particularly assumed by the Commander in Chief, because for the first time, as I said before and have said ad infinitum, beginning with the day that this House passed the resolution my voice was raised, and I asked this specific question: "Was this unprecedented?" And, of course, it was.

Never since 1789, in the first Congress, has the Congress mandated a deployment of a service component of our armed services. And we did. We have. And so I have asked the leaders in the committees that have responsibility to have oversight.

I have been doing this now off and on since December 1981. And it is very distressing to see these concerns, these apprehensions, not groundless, but they have been fulfilled by these direful consequences. We do have to consider what would happen in case of an outbreak of hostilities between Egypt and Israel, what would happen in the case we knew that war was about to break out, what would happen in the case of a surprise attack, what could happen in the case, even, of a buildup of a crisis. Examine all of these cases, and in every one we see not only an inexcusable military folly in committing lightly armed forces to one of the most heavily armed areas of the world, we can foresee, as well, a political catastrophe. We cannot afford the luxury of saying that it cannot happen. Such disasters do happen and have. We cannot assume the best case. We must consider what would happen in the worst case. And that has not been done and is not being done.

We cannot rest on our complacent assumption that because we say we have good will we will be believed or that others filled with anger and ambition would be deterred by a handful of forces set out there as a token of our good will. If the deaths of these young people ever means anything, it must mean that at the very least we will at long last take commercial profit out of military functions like transporting troops to and from war zones, to and from military missions, that we will at least put military missions above commercial profit. That is the least, my colleagues. But far more important, it should also cause us to ask: What were they doing there in the first place? Did their mission make or does it continue to make any sense? Does it make sense? What if there is a disaster of a military nature?

The time to ask those questions is now, as I have been trying to say, not after a disaster. It is too late then, just as it has been in Lebanon and in Gander.

Let us honor these young people, honor them by accepting our responsibility. Surely, that is not too much to ask in this case.

Mr. Speaker, I yield back the balance of my time.

PERSONAL EXPLANATION

Mr. BOLAND. Mr. Speaker, during yesterday's House proceedings on H.R. 3838, the gentleman from New York [Mr. MCHUGH] offered an amendment relating to campaign financing. I was absent and not recorded.

I was detained in a discussion on the continuing resolution in another part of the Capitol.

Had I been present, I would have voted "aye."

Mr. Speaker, in the Democratic caucus, of December 10, there was a record vote on an identical McHugh amendment. I supported it at that time and I am so recorded in the records of that caucus.

RETIREMENT OF DAVID POGOLOFF, CHIEF HOUSE VA LIAISON STAFF

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Massachusetts [Mr. BOLAND] is recognized for 10 minutes.

Mr. BOLAND. Mr. Speaker, one of the primary responsibilities of the Federal Government is to assist those who have served in their country's Armed Forces. The Congress has sought to discharge that responsibility by creating and funding programs to provide medical care, education assistance, and opportunities for homeownership to our Nations veteran's and their families. We all know, however, that those programs only do what Congress intended them to do when they are adminstrated by people of compassion, skill, and resourcefulness.

Today, I want to pay tribute to one of those people, Dave Pogoloff, who has devoted the last 41 years of his life to ensuring that our veterans programs work I doubt that there is a Member of this House who doesn't know Dave personally, or whose VA caseworker has not benefited from Dave's sage counsel and extraordinary dedication. He has served as the Chief of the House VA liaison team for the last 20 years, and it would be impossible even to estimate how many seemingly unresolvable VA cases have been straightened out due to his efforts. Others have received the credit for those efforts, most notably the Members of the House who could convey to their constituents the good news that their VA problems had been solved. But all of us know, Mr. Speaker, that our "success" with the VA was merely a reflection of the resolved that Dave made a long time ago to do all that he could to guarantee that veterans received all to which they were entitled from the programs that had been designed for them.

Dave will soon be retiring after serving under seven Presidents and nine VA Administrators. His retirement will conclude a career in service to the Nation that began on the battlefields of World War II. Dave carries with distinction a visible remembrance of that combat experience, an experience that gave him special insights into the needs of our veterans. He has labored tirelessly to meet those needs and his labors have been immeasureable value. We will miss his experience and his ability in the months ahead, but I know that none of us would deny Dave the chance to spend more time with his wife, Florence and their children and grandchildren.

Congratulations, Dave, on your distinguished career and best wishes for a long and happy retirement.

RECESS

The SPEAKER pro tempore. Pursuant to the order of the House of Tuesday, December 17, 1985, the Chair declares the House in recess subject to the call of the Chair.

Bells will be rung 15 minutes before the House reconvenes.

Accordingly (at 5 o'clock and 5 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 1835

AFTER RECESS

The recess having expired, the House was called to order by the Speaker at 6 o'clock and 46 minutes p.m.

PERMISSION TO FILE FURTHER CONFERENCE REPORT ON HOUSE JOINT RESOLUTION 465, FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 1986

Mr. BOLAND. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight to file a further conference report on the joint resolution (H.J. Res. 465) making appropriations for the further continuing resolution for the fiscal year 1986, and for other purposes.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

Mr. CONTE. Mr. Speaker, reserving the right to object, I yield to the gentleman from Pennsylvania [Mr. WALKER].

Mr. WALKER. I thank the gentleman for yielding.

Mr. Speaker, I am just wondering, while the gentleman is on the floor with the request, whether we could get some idea from the members of the conference committee where we stand on the conference report, whether or not the issues are being resolved, what issues are still outstanding, so that the Members could get some idea as to where we are on the issues involved.

Mr. CONTE. Mr. Speaker, further reserving the right to object, we have been meeting all day. We have resolved all problems and issues in the conference except one—defense—and we are almost on the verge, on the threshold, of resolving that; and we hope we can resolve that by 7 o'clock tonight.

Mr. WALKER. If the gentleman will further yield under his reservation of objection, have we cut back on some of the spending areas in the domestic programs that were giving some Members of the House some problems the other day?

Mr. CONTE. We made cuts on Interior, we made cuts on the agricultural section, we made cuts on the transportation section.

Mr. WALKER. Where does that bring us in terms of the $600 million overage that OMB was talking about on the previous bill?

Mr. CONTE. When we come back in, I will have those figures. Counsel will be working on it. But I can say that we have been in close contact with OMB, and they will recommend signing this continuing resolution if we hold at this figure.

Mr. WALKER. With those figures. And, finally, I just had a conversation with the gentleman. I understand that the Senate is determined to hold firm on their position to grant themselves a 40-percent outside honorarium figure, which would, as the gentleman points out, not affect the House because of our rules, but is an item of some controversy. Is it my understanding that the Senate is determined to hold firm on that issue?

Mr. CONTE. The House held very firm on that issue, based on the debate we had the other night, and the Senate voted late this afternoon to retain the 40 percent, a 10-percent increase, $7,500 they can earn more in honorariums. That will not apply to the House of Representatives.

Mr. WALKER. Will that come back as an amendment in disagreement so there can be a separate vote on it?

Mr. CONTE. I think that will be part of the conference. I am not sure.

Mr. WALKER. I thank the gentleman. He has been very helpful.

Mr. CONTE. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

□ 1850

Mr. SEIBERLING. Mr. Speaker, reserving the right to object, I wonder if the gentleman from Massachusetts can tell me whether the Symms amendment which would transfer the Animal Damage Control Program from the Interior Department to the Agriculture Department, which of course is a legislative act that is within the jurisdiction of two House legislative committees.

Will it be reported in technical disagreement or will it be accepted by the House conferees?

Mr. CONTE. If the gentleman will yield, I certainly cannot answer that question. I cannot recall. Do you recall whether that was in technical disagreement in the original continuing resolution that came here the other night?

Mr. SEIBERLING. I am informed that it is in technical disagreement in the Agriculture appropriation bill, and the continuing resolution incorporates the Agriculture appropriation bill by reference. But I am not clear as to whether with doing it that way a vote could be called when the agriculture part gets to the House in the continuing resolution since it simply incorporates the Agriculture bill by reference.

If it is not in a form where we can have a separate vote on it in the House, then I will object to the unanimous-consent request at this time.

Mr. CONTE. The gentleman and I have worked together very closely on many of these issues. I hope the gentleman will not object. You can bring that out when we come back in. Otherwise, we can be here Saturday night. This is merely a unanimous consent to file a report, that is all.

Mr. SEIBERLING. I have already informed the distinguished gentleman from Mississippi that an objection will probably be raised by me or by the gentleman from Michigan [Mr. DINGELL] unless we can have an opportunity to vote on that, or unless the conferees remove it from the conference report.

The House Agriculture Committee had a similar amendment offered by the same Member of the other body which they removed from the Agriculture bill which we approved today. I think that since it has been removed from the legislative bill, it is legislation that should not be in the appropriation bill. It would change an existing responsibility of the Interior Department that has been in effect since 1939, and we cannot allow the Members of the other body to lightly do that sort of thing and take advantage of the nuisance value of having to resist it in conference; just take it lying down.

So I feel at this time that I have to reserve our rights in the Interior Committee and Merchant Marine Committee to, we have to protect our rights and the only way I know is to object.

Mr. CONTE. I would hope that the gentleman will withhold any objection. Let me tell him what the scenario is.

First of all, you and I agree on the issue. I do not believe it should go over to Agriculture, but I hope you will not object. All you are doing, is we will have to get the Rules Committee back in session right now; go before the Rules Committee and get a rule and come back down here and you are going to be here until 10 or 11 o'clock. Your are holding up the whole House, and the end result is not going to be any different.

I promise you this: That I will go back to that conference and raise that issue immediately.

Mr. SEIBERLING. I appreciate that, but all I can say is that we are being asked to approve, by unanimous consent, the filing of a conference report which has not even been completed yet, and we do not know what is in it, and we do not know whether we are going to have any right to raise this issue.

Mr. CONTE. If the gentleman will yield, that is a normal procedure. The only thing you file the conference report for, it does not mean that the House has accepted it. We will have to take the conference report here to the House and debate the conference report.

Mr. SEIBERLING. Let me ask the gentleman, when the conference report comes before the House, will it either be brought before the House by

unanimous consent in order to take it up, or by a rule, because my concern is that by giving this unanimous consent there will not have to be any further consent to taking up the conference report. Am I correct in that?

Mr. CONTE. The gentleman from Ohio will have the opportunity, if this unanimous consent is granted, will have the opportunity when we come here tomorrow, whatever the Speaker says, to debate the conference report. At that time we can discuss it. But before that, I will rush over to the Senate and bring this issue up and see if we can clarify this issue and see if there is some way of bringing it in technical disagreement outside the conference report.

Mr. SEIBERLING. Well, it is one thing to debate the conference report and it is another thing to have the power to knock out something that is a nongermane piece of legislation that the other body introduced.

Mr. CONTE. I will do my best on it.

Mr. BOLAND. Mr. Speaker, will the gentleman yield?

Mr. SEIBERLING. I yield to the gentleman.

Mr. BOLAND. The only reason we make this unanimous-consent request now is so that the House will not be kept in recess. If we make this unanimous-consent request and it is agreed to, then the Members can leave. But a failure on the part of any Member to object to the unanimous consent will signify that we have got to stay here in recess until the House convenes, and then we can make that request on the floor, and of course, as the gentleman knows, you could make that without a unanimous-consent request.

Mr. SEIBERLING. The majority leader advised me that if necessary they would ask for a rule in order to make in order an objection to that particular feature of the bill.

Mr. BOLAND. You could make that request of the Rules Committee; that is correct.

Mr. SEIBERLING. I would like to make that request of the Rules Committee if the rule is being sought, but at this point, we do not know whether a rule will be sought. I just feel that unless we resist these efforts at the 11th hour, these midnight raids that the other body is in the habit of making on our legislative committees, they are going to walk over us every time.

Mr. CONTE. If the gentleman will yield, and I may stand corrected, I do not think it is in the prerogative of the Rules Committee to make that kind of a rule in order for a conference report. You are either going to vote for the conference report——

Mr. SEIBERLING. Not unless the rule is sought at which point they could condition the granting of the rule on certain features being open for challenge on the floor.

Mr. CONTE. I doubt it. The only thing you are going to do here, as Mr. BOLAND said, is keep the House in session and recess until we come back here and file which could be, you are doing a disservice to everybody else in the House because the end result is not going to be any different. It is going to be later, 10, 11 o'clock tonight.

Mr. SEIBERLING. The disservice is that those gentlemen on the other side of the Capitol use this technique as a kind of blackmail to force us to swallow things that we would not otherwise take. Somebody has to get their back up sometime; we cannot always be in an appeasement mode. That is the reason why I am raising this point.

I will say this: Based on the assurance the gentleman has given me that he will make an effort to try to see that this is either eliminated or brought back here in a form where we can challenge it and have a vote on it or the assurance of the majority leader that if a rule is sought we will have an opportunity to request a similar vote to be made in order on the rule, I will withdraw my reservation. I hope the gentleman will make a serious effort because we cannot be put in this position every time, just before we are ready to adjourn and everybody wants to go home for Christmas; I do, too.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

REQUEST FOR CONSIDERATION OF H.R. 3979, EXTENSION OF CERTAIN INTERNAL REVENUE CODE TAX PROVISIONS FOR A TEMPORARY PERIOD

Mr. GIBBONS. Mr. Speaker, I ask unanimous consent for the immediate consideration in the House of the bill (H.R. 3979) to amend the Internal Revenue Code of 1954 to extend for a temporary period certain tax provisions which would otherwise expire at the end of 1985, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

Mr. BREAUX. Mr. Speaker, reserving the right to object, I reserve the right to object and would like to ask the distinguished gentleman from Florida is the legislation that he is seeking to bring up by unanimous consent, how does it affect or what are the implications with regard to the revenue provisions of the so-called Superfund legislation? How does it affect that?

I yield to the gentleman for his response.

Mr. GIBBONS. It does not legislate in the area of the Superfund; it does legislate in the area of a number of major taxes that the Government levies and some exceptions, and if the gentleman will yield further, I will be glad to run over those items so that all of us know what is at stake here.

Mr. BREAUX. I ask the gentleman under my reservation, Is the gentleman telling this body that there are no provisions with regard to any funding programs for the Superfund legislation in the gentleman's legislation?

□ 1900

Mr. GIBBONS. There is none in here concerning Superfund. No, sir, that is correct. There is nothing in here that concerns Superfund.

Mr. BREAUX. Reserving the right to object, Mr. Speaker, I think it would be helpful to the Members if the gentleman from Florida would cover the areas that are in fact covered under his legislation.

Mr. GIBBONS. I would be happy to do that if the gentleman will yield.

Mr. BREAUX. I yield to the gentleman from Florida.

Mr. GIBBONS. Mr. Speaker, this bill is an important piece of legislation, and, of course, it is very critical for the functioning of the Government.

The first thing this bill would do is extend the research and development tax credit that has been so important to so many Members.

The second thing it would do, it would extend the targeted jobs credit that expires very shortly.

It extends the research expense allocation rules and the solar and geothermal tax credit. The legislation would also extend the tax-free employer-provided educational assistance programs and the qualified employer-provided group legal services program. It covers the expense of up to $35,000 annually for the cost of removing architectural barriers for the handicapped.

It would extend the current moratorium on the net operating loss carryover rules. It would extend the present-law provisions for the award of attorney fees in tax litigation. It would extend the tax-relief provisions of the Vietnam MIA's and their spouses from tax consequences.

It would extend—and this is most important, Mr. Speaker—the 16-cent cigarette excise tax which was recently extended to midnight tonight. It would also extend the 4-cent-per-gallon exemption for taxicabs relative to the gasoline tax.

Mr. Speaker, if the gentleman will yield further, these are all important, but the most important one is the research and development tax credit which will expire. And then, of course, there is the cigarette tax that will

jump up tonight in many States unless it is extended.

I am aware of the gentleman's concern about the Superfund Program, and I am trying in my own individual way to cooperate and find a solution to that. I frankly do not have a solution, but my deepest sympathies are with trying to find a solution for that and I will continue to work toward that purpose.

Mr. Speaker, I hope that no one will object to this request.

Mr. THOMAS of California. Mr. Speaker, will the gentleman yield?

Mr. BREAUX. Further reserving the right to object, I yield to the gentleman from California.

Mr. THOMAS of California. Mr. Speaker, I thank the gentleman for yielding.

I would say to my distinguished colleagues on the Ways and Means Committee right now that minutes and hours are precious, and days are a long, long time. The gentleman indicated a number of provisions that are going to expire. For example, that very important research and development tax credit, when does that in fact expire? Is it tonight? Is it tomorrow? I mean is it imminent?

Mr. GIBBONS. December 31.

Mr. THOMAS of California. It expires on December 31?

Mr. GIBBONS. Yes.

Mr. THOMAS of California. Well, that clearly indicates to me there is some time.

Is there anything in this bill of an extreme urgency nature that would make it necessary for us to have to act now at the 11th hour, making it literally the 11th hour, rather than something like 2 weeks or 3 weeks?

Mr. GIBBONS. Some of the Medicare freezes will be unfrozen as of midnight tonight, and the cigarette tax will, of course, jump in many States tonight and will not automatically come back down if the Congress acts after that.

I would say to my good friend and very conscientious colleague, the gentleman from California [Mr. THOMAS], that I want to solve the problem. The gentleman and I were in that conference together today trying to solve the problem on the Superfund excise matter, and I realize that the gentleman wants to use every bit of leverage that he has to solve this problem.

But I would hope and pray that the gentleman would not object. I have tried to analyze it as best I can. I do not think it really helps to solve the problem. There are a very few hours left in this session, and hopefully tomorrow we could get some movement on the excise tax. But I would hate to have ill tempers caused by any objection that might be brought up now.

Mr. THOMAS of California. Mr. Speaker, will the gentleman from Louisiana continue to yield?

Mr. BREAUX. I yield to the gentleman from California.

Mr. THOMAS of California. Mr. Speaker, I would tell my friend, the gentleman from Florida, that it is sometimes substantive, and also sometimes there is a degree of comity, and one of the things I think we have to do around here is put in proper priorities. It seems to me that if we are going to move this rather large comprehensive bill dealing with matters which expire at midnight tonight and clear on to the end of the year, this Member would be constrained to object.

However, if we met the most extreme needs, which I believe we ought to be using these kinds of circumstances to cover, my understanding is that on the cigarette tax consequences would occur which probably could not be unraveled, and that would not be true on the Medicare provisions. So if the gentleman persists in pushing the entire package, this gentleman will be constrained to object. If we could have an agreement that will move only that item which is necessary to be moved, for example, a 24-hour provision for the cigarette tax, then I certainly would feel that the procedure we are undertaking now would be appropriate.

Mr. ANTHONY. Mr. Speaker, will the gentleman yield?

Mr. BREAUX. Further reserving the right to object, I yield to the gentleman from Arkansas.

Mr. ANTHONY. Mr. Speaker, I thank the gentleman from Louisiana for yielding.

If there is an objection—and it appears there will be an objection to the bill as introduced—and if the acting chairman of the Ways and Means Committee, the gentleman from Florida [Mr. GIBBONS], does not ask unanimous consent to extend for at least 24 hours section 106, which would be an extension of the increase in the cigarette tax, this Member would ask this body by unanimous consent to extend the collection of that cigarette tax, which is presently at 16 cents, which would reduce down to 8 cents and would trigger in some 12 States automatically.

I would ask unanimous consent, if the gentleman from Florida [Mr. GIBBONS] does not, for 24 additional hours. That would allow the Rules Committee an opportunity to meet tonight and bring a rule to the floor tomorrow, and then the body could work its will on this broad extension on the expiring of tax credits that personally I feel do need to be extended.

Mr. THOMAS of California. Mr. Speaker, will the gentleman continue to yield?

Mr. BREAUX. Further reserving the right to object, I yield to the gentleman from California.

Mr. THOMAS of California. Mr. Speaker, may I ask the gentleman from Florida if he is interested in restricting the request to section 106?

Mr. GIBBONS. I am sorry, I did not hear the question.

Mr. THOMAS of California. Would the gentleman be interested in restricting his request to section 106 and make that the entire provision?

Mr. GIBBONS. Mr. Speaker, I guess if there is an objection, I would reluctantly do so. I would hope there would not be an objection.

I really think this, if the gentleman would yield further—I have been through these closing sessions of Congress before, and all of us try to use the greatest amount of leverage that we can, but sometimes in the use of that leverage we get some ill feelings started, and that, bearing upon my experience, has not been productive to solving problems. The gentleman and I are interested in solving the same problem. I want to solve the problem of the Superfund tax, and I want to continue working with the gentleman and, under any circumstances, will continue working with him. But there are a lot more people involved in this.

It is so easy to object. I have found that some people will not be as patient as the gentleman from California has been in this, and we are going to have to really rely from hereon on comity and the kind of restraint that is necessary to get legislation passed.

Mr. THOMAS of California. Mr. Speaker, will the gentleman yield further?

Mr. BREAUX. Further reserving the right to object, I yield to the gentleman from California.

Mr. THOMAS of California. Mr. Speaker, I thank the gentleman for yielding, and this will be the last statement on the part of the gentleman from California. If the gentleman from Florida does not wish to offer only section 106, the gentleman knows well that we just had a Ways and Means Committee meeting in which, in speaking among ourselves, we got a little carried away in terms of even creating new tax law in extending programs beyond H.R. 3838 that we already passed.

□ 1910

We passed a nonbinding resolution on the floor which folks talked about in terms of key dates within the tax bill. We are already now beginning to shift dates around.

It just seems to me that what we ought to do is use emergency procedures in emergency situations. The only emergency that I see in this entire package is section 106. Certainly I would not oppose utilizing emergency procedures for an emergency purpose. The entire package is not such

and therefore I feel constrained to object.

The SPEAKER. Is there objection to the request of the gentleman from Florida [Mr. GIBBONS]?

Mr. THOMAS of California. Mr. Speaker, I said that I object.

The SPEAKER. Objection is heard.

EXTENDING UNTIL DECEMBER 19, 1985, APPLICATION OF CERTAIN TOBACCO EXCISE TAXES

Mr. GIBBONS. Mr. Speaker, I ask unanimous consent for the immediate consideration in the House of the bill (H.R. 3981) to extend until December 19, 1985, the application of certain tobacco excise taxes.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

Mr. STARK. Reserving the right to object, Mr. Speaker, I reserve the right to object to inquire of the distinguished acting chairman of the Ways and Means Committee if the gentleman would have any objection—it is my understanding that the bill the gentleman is now offering extends the cigarette tax for 24 hours.

There are two other provisions which expire at midnight tonight, the physician freeze and the hospital freeze, both of which would cost beneficiaries under Medicare a great deal of money.

I would ask unanimous consent later to include those two provisions for 24 hours in this unanimous-consent request.

Mr. CAMPBELL. Mr. Speaker, will the gentleman yield?

Mr. GIBBONS. I am glad to yield to the gentleman from South Carolina.

Mr. CAMPBELL. Mr. Speaker, this member of the Ways and Means Committee and one who is interested, of course, in not losing the revenue from the cigarette tax, would have no objection at all to the request of the gentlemen.

I do believe that we have accommodated this situation before. This is similar and I would have no objection to those being included.

Mr. PICKLE. Mr. Speaker, will the gentleman yield?

Mr. STARK. I yield to the gentleman from Texas.

Mr. PICKLE. Mr. Speaker, I can understand why the gentleman would want to add one or two more expiring provisions to the extension of the tobacco tax, but I also want to point out there are other expiring provisions in the longer extender bill that to me are equally important, particularly the credits that we would extend for research and development.

Now 240 different Members have cosigned this R&D bill and we have provided in the tax reform bill for an extension of the credit on a 3-year basis. We ought to have those credits in place.

I am willing to go with the gentlemen for 24 hours for these two or three little short ones, but the problem that we have got is that we ought to move forward on reconciliation and if in the next 24 hours we cannot get some accommodation, I think those of us who are interested in doing reconciliation are going to have to take whatever means we can to advance it, because that is the problem we have.

I am concerned about research and development. I am not going to object to the 24 hours. I can understand that, but by another 24 hours I am going to come in here with some guns blazing, too.

Mr. STARK. Mr. Speaker, I appreciate what the distinguished gentleman from Texas has said. I was a cosponsor with the gentleman of those research and development issues and the gentleman is quite correct. If they were expiring in 24 hours, I would indeed urge my colleagues to include them.

I understand under my reservation that there is a bill that has been introduced that will extend the two Medicare provisions for 24 hours. It is my understanding there would be no objection.

Mr. DAUB. Mr. Speaker, will the gentleman yield under his reservation?

Mr. STARK. I am glad to yield to the distinguished gentleman from Nebraska.

Mr. DAUB. So that the additional two items that the distinguished gentleman and chairman of the subcommittee, the gentleman from California [Mr. STARK] offers to the motion before us, would be an extension for 24 hours on current law as it applies to Medicare, physicians' freeze and reimbursement, not any of the other things we have done that would be subject to reconciliation. This is an extension of current law only. Do I understand the gentleman correctly?

Mr. STARK. The reservations that I discussed were for Medicare. There are also two other provisions which I have not discussed previously, but if I were to ask unanimous consent to introduce H.R. 3982, they would include railroad unemployment compensation and trade adjustment, for 24 hours, both of which expire tonight. Those are current law and just for 24 hours.

Mr. DAUB. Mr. Speaker, will the gentleman continue to yield?

Mr. STARK. I am glad to yield to the gentleman.

Mr. DAUB. We in no way by adding these four provisions to the main cigarette tax extension for 24 hours intend to do anything more than extend current law.

Mr. STARK. That is absolutely correct.

Mr. DAUB. I thank the gentleman.

Mr. GRAY of Pennsylvania. Mr. Speaker, will the gentleman yield?

Mr. STARK. I am delighted to yield to the gentleman from Pennsylvania.

Mr. GRAY of Pennsylvania. Mr. Speaker, I would like to ask the gentleman a question. I know that the committee has been working very hard, particularly after Gramm-Rudman and tax reform, to deal with some of these issues that the Committee on Ways and Means has jurisdiction of. I know all the other committees on reconciliation have worked hard.

At this time I am informed by my staff of the Budget Committee that we are now down basically to the Ways and Means issues.

I have basically two questions that I would like to direct to the gentleman if I could.

One, at this point is the only major item that remains in disagreement, in wide disagreement, the Superfund issue?

Mr. STARK. Mr. Speaker, I would be glad to yield to the distinguished gentleman from Florida for that. It is my understanding that this is a major item of disagreement. In the absence of the chairman of the Ways and Means Committee, I would be constrained not to speak for anyone but myself; but I would feel that certainly is one of the items that this gentleman is concerned about.

I would be glad to yield to the gentleman from Florida if he would like to respond.

Mr. GRAY of Pennsylvania. Could I ask a second question and maybe the gentleman from Florida or the gentleman from California might reply.

Mr. STARK. I am delighted to yield for the gentleman's inquiry.

Mr. GRAY of Pennsylvania. Has there also been a vote on that issue within the subgroup in the conference?

Mr. STARK. To my knowledge, there has not.

Mr. GIBBONS. Mr. Speaker, will the gentleman yield?

Mr. STARK. I am delighted to yield to my distinguished colleague, the gentleman from Florida.

Mr. GIBBONS. Mr. Speaker, let me say, I would be happy to accept amendments proposed by the gentleman from California [Mr. STARK] to only extend current law in the field of the Medicare expiring provisions and the trade adjustment assistance expiring provisions and the railroad retirement expiring provisions, but——

Mr. PICKLE. Mr. Speaker, will the gentleman yield?

Mr. STARK. I yield to the gentleman from Texas.

Mr. PICKLE. Mr. Speaker, when the gentleman says railroad retirement, he is talking about the benefits.

Mr. STARK. Railroad unemployment.

Mr. GIBBONS. Railroad unemployment.

Mr. GRAY of Pennsylvania. Mr. Speaker, would the gentleman from Florida be able to answer the question that I asked?

Mr. GIBBONS. Mr. Speaker, if the gentleman will yield further, there have been no votes in the conference of the subcommittee that the gentleman referred to on any of these matters that are under discussion, such as the Superfund.

Mr. GRAY of Pennsylvania. Would that be the major issue?

Mr. GIBBONS. That is the major issue, that is the one causing all the heat here tonight.

Mr. GRAY of Pennsylvania. Well, I will certainly say to the gentleman in conclusion, I would hope that there would be some way before we depart for adjournment that we could reach an accommodation on reconciliation.

I think there are many Members who worked very hard and who would like to be able to say as we go back that we have achieved some of the savings of reconciliation. Perhaps if there is no way to reach agreement on that one major item, there might be mutual agreement between the conferees of the House and the Senate to delay that until we return, but go forward with the rest of the savings of reconciliation, so that the American people will know as we adjourn that all of the other savings that have already been achieved by the working subgroups could be packaged and could be brought to the floor for a vote.

I would hate to see us adjourn with no reconciliation savings, because every day we are losing money on those savings.

Mr. STARK. Mr. Speaker, the distinguished gentleman is absolutely correct, in the opinion of this gentleman. I share the gentleman's concern. I am aware of the good work the gentleman has done.

There are many items of the reconciliation bill which were agreed by both sides on a bipartisan basis in the House.

I would share the gentleman's hope that we are able to go forward.

Mr. FROST. Mr. Speaker, will the gentleman yield?

Mr. STARK. I yield to the distinguished gentleman from Texas, a member of the Rules Committee.

Mr. FROST. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I share the concern of my chairman on the Budget Committee about the fate of the remaining items in this reconciliation package, that we may be losing a tremendous number of potential savings by not acting.

I am sorry, but I feel constrained, I am going to feel constrained to object to anything other than the cigarette tax 24-hour extension.

Mr. CAMPBELL. Mr. Speaker, will the gentleman yield?

Mr. STARK. I yield to the gentleman from South Carolina.

Mr. CAMPBELL. Mr. Speaker, I would like to point out to the gentleman that the cigarette tax, of course, causes a loss of revenue. There are only four items that expire in 24 hours. We are extending 24 hours. All of them expire at midnight. Everything else expires on December 31. None of those are being carried over. That strictly has to do with the Railroad Employment Fund, which will cause us a loss, so will the cigarette tax, the Medicare provisions, which will cause an increase to some of the recipients there that we do not want to have happen, and the trade adjustment assistance, which is helping people because of that particular program, that is all that is being extended, nothing more. The rest of it has to come back tomorrow. So the gentleman would have every opportunity to pursue this.

Mr. STARK. Mr. Speaker, further reserving the right to object, I would like to enter into a dialog with the distinguished gentleman from Texas [Mr. FROST].

My initial reason for wishing to add these would be that the expiration, if we do not extend for 24 hours, could cause some permanent increases to beneficiaries. The other items might have a budget impact.

By inaction in that area, we are costing the average Medicare beneficiary substantial increases over the year, which we would wish to change later.

Mr. FROST. Mr. Speaker, will the gentleman yield?

Mr. STARK. I yield to the gentleman from Texas.

Mr. FROST. Mr. Speaker, I understand the point the gentleman has made. I think it is very important that Members realize what is at stake here in terms of the reconciliation package. I would hope that we would have the assurance of all the members of the Ways and Means Committee who are here that everything would be done to wrap up the entire reconciliation package, perhaps along the lines suggested by the chairman, the gentleman from Pennsylvania [Mr. GRAY] tomorrow, and that we not lose all these other items.

Mr. STARK. Mr. Speaker, further under my reservation of objection, I would assure the gentleman that I would tonight along the lines the chairman, the gentleman from Pennsylvania [Mr. GRAY] has suggested, give the gentleman my proxy, if the gentleman would be constrained to withdraw his objection. The gentleman has this gentleman's assurance that that is exactly what I would like to see accomplished.

Mr. GIBBONS. Mr. Speaker, will the gentleman yield further?

Mr. STARK. I yield to the gentleman from Florida.

Mr. GIBBONS. Mr. Speaker, I would go even further than that. I have already signed the conference report documents. I cannot do any more than that. We have not been able to reach agreement. I realize what the gentleman says is very true. There is a lot of money hanging here, a lot of savings. I hope we are going to get them. I am going to try to get them.

The SPEAKER. Is there objection to the request of the gentleman from Florida [Mr. GIBBONS]?

PARLIAMENTARY INQUIRY

Mr. LOTT. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. LOTT. Mr. Speaker, I would like to understand what the request is, because there was a lot of discussion back and forth.

The SPEAKER. It contains the extension of the cigarette tax.

Is there objection to the request of the gentleman from Florida [Mr. GIBBONS]?

The Chair hears none on that matter.

Mr. WALKER. Reserving the right, Mr. Speaker, when it was announced from the Chair, it said "certain excise taxes." The cigarette tax is the only thing covered in it? There are no other excise taxes covered, is that correct?

The SPEAKER. The gentleman's statement is correct.

Mr. WALKER. Mr. Speaker, I thank the Chair and I withdraw my reservation of objection.

Mr. GIBBONS. Mr. Speaker, I have asked unanimous consent to take it up right now, have I not?

The SPEAKER. That is the only thing pending before us right now.

Mr. GIBBONS. Mr. Speaker, is it on second reading, is it amendable?

The SPEAKER. The gentleman is entitled to time or the Chair can put the question.

Mr. GIBBONS. Mr. Speaker, I was going to yield to the gentleman from California for an amendment which would include the other things that we have discussed.

Mr. Speaker, I yield only for the gentleman's amendment.

Mr. STARK. Mr. Speaker, will the gentleman yield?

Mr. GIBBONS. I yield to the gentleman from California.

Mr. STARK. Mr. Speaker, I ask unanimous consent that the provisions in H.R. 3982, which are merely the 24-hour extension of the Medicare provisions, the railroad unemployment compensation provisions, and the trade readjustment assistance provisions, as was discussed previously under my reservation, be amended to

the gentleman's unanimous-consent request, the bill being considered under unanimous consent.

The SPEAKER. Does the gentleman offer an amendment? The gentleman does not at this particular time have to ask unanimous consent. Is the gentleman offering an amendment?

Mr. STARK. I did, Mr. Speaker, I asked unanimous consent.

□ 1925

Mr. STARK. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. There is no objection. The question is on the amendment offered by the gentleman from California [Mr. STARK].

Mr. CAMPBELL. I thought he asked unanimous consent, Mr. Speaker.

The SPEAKER. The amendment is in order once we get unanimous consent on the request made by the gentleman from Florida [Mr. GIBBONS].

Is there objection to the request of the gentleman from Florida?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3981

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXTENSION OF INCREASE IN TAX ON CIGARETTES.

Subsection (c) of section 283 of the Tax Equity and Fiscal Responsibility Act of 1982 (relating to increase in tax on cigarettes) is amended by striking out "December 19, 1985" and inserting in lieu thereof "December 20, 1985".

AMENDMENT OFFERED BY MR. STARK

Mr. STARK. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. STARK:

SECTION 1. EXTENSION OF TRADE ADJUSTMENT ASSISTANCE PROGRAM.

Section 285 of the Trade Act of 1974 (19 U.S.C. note preceding section 2271) is amended by striking out "December 18, 1985" and inserting in lieu thereof "December 20, 1985".

SEC. 2. EXTENSION OF BORROWING AUTHORITY UNDER THE RAILROAD UNEMPLOYMENT INSURANCE ACT.

Section 10(d) of the Railroad Unemployment Insurance Act is amended by striking out "December 18, 1985" each place it appears and inserting in lieu thereof "December 20, 1985".

SEC. 3. EXTENSION OF MEDICARE HOSPITAL AND PHYSICIAN PAYMENT PROVISIONS.

Section 5(c) of the Emergency Extension Act of 1985 (Public Law 99-107) is amended by striking out "December 18, 1985" and inserting in lieu thereof "December 20, 1985".

Mr. WALKER (during the reading). Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

Mr. CAMPBELL. Mr. Speaker, reserving the right to object, I do so strictly to ask the question of the author of the amendment, the gentleman from California, if this is the same 24-hour period and these are only the expiring provisions that would expire if this were not extended for 24 hours? Is that correct?

Mr. STARK. If the gentleman would yield, I would respond that it is a 24-hour extension, the same 24-hour period on provisions in current law, and just those that were previously discussed.

Mr. CAMPBELL. I thank the gentleman.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

POINT OF ORDER

Mr. WALKER. Mr. Speaker, I reserve a point of order against the amendment.

The SPEAKER. The gentleman reserves a point of order against the amendment.

Does the gentleman from California [Mr. STARK] wish time? Apparently the gentleman does not.

The gentleman from Pennsylvania will have to make his point of order now.

Mr. WALKER. Mr. Speaker, the point of order that I reserved was that the germaneness of this particular amendment to the bill under consideration, I think, is in question. The main reason for reserving the point of order is that, as I understand it, the gentleman is substituting the language of a particular bill at this point, or adding as an amendment the language of a bill.

My question is whether or not the language in that bill says 24 hours.

Mr. STARK. As I speak to the distinguished gentleman, 24 hours is being written in the amendment.

If the gentleman will yield further, it is the clear understanding of this gentleman that it is 24 hours as an amendment to the bill offered by the gentleman from Florida.

Mr. WALKER. Further under my point of order, Mr. Speaker, that is not, then, the language that was announced by the Clerk a moment ago because if that is just being written in at the present time, we have different language than was announced by the Clerk. I think the gentleman is going to have to withdraw the amendment that was previously offered and put the new amendment at the desk, if that is the case.

Mr. STARK. If the gentleman will yield, it is my understanding that there was a typographical error in the amendment sent to the desk. It is the intention of this gentleman that it be 24 hours. It was clearly understood with the gentleman from Florida that the amendment was to be 24 hours.

The SPEAKER. The Chair would state that the gentleman is correct that the Clerk read the date of December 20 with all the extensions.

Mr. WALKER. Perhaps the gentleman would ask unanimous consent that the amendment previously announced would be withdrawn so that we could announce the proper amendment at the desk at the present time.

AMENDMENT OFFERED BY MR. STARK, AS MODIFIED

Mr. STARK. Mr. Speaker, I offer a modified amendment.

The Clerk read as follows:

Modified amendment offered by Mr. STARK: At the end of the bill add the following:

SEC. 2. EXTENSION OF TRADE ADJUSTMENT ASSISTANCE PROGRAM.

Section 285 of the Trade Act of 1974 (19 U.S.C. note preceding section 2271) is amended by striking out "December 18, 1985" and inserting in lieu thereof "December 19, 1985".

SEC. 3. EXTENSION OF BORROWING AUTHORITY UNDER THE RAILROAD UNEMPLOYMENT INSURANCE ACT.

Section 10(d) of the Railroad Unemployment Insurance Act is amended by striking out "December 18, 1985" each place it appears and inserting in lieu thereof "December 19, 1985".

SEC. 4. EXTENSION OF MEDICARE HOSPITAL AND PHYSICIAN PAYMENT PROVISIONS.

Section 5(c) of the Emergency Extension Act of 1985 (Public Law 99-107) is amended by striking out "December 18, 1985" and inserting in lieu thereof "December 19, 1985".

Mr. WALKER (during the reading). Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. GIBBONS. Mr. Speaker, we agree to the amendment.

The SPEAKER. Without objection, the amendment, as modified, is agreed to.

There was no objection.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed.

The title was amended so as to read: "A bill to extend until December 19, 1985, the application of certain tobacco excise taxes, trade adjustment assistance, certain medicare reimbursement provisions, and borrowing authority under the railroad unemployment insurance program."

A motion to reconsider was laid on the table.

PERMISSION FOR COMMITTEE ON RULES TO FILE PRIVILEGED REPORT ON HOUSE JOINT RESOLUTION 465, FURTHER CONTINUING APPROPRIATIONS, 1986

Mr. PEPPER. Mr. Speaker, I ask unanimous consent that the Committee on Rules may have until midnight tonight to file a privileged report pro-

viding for the consideration of a conference report on the joint resolution (H.J. Res. 465) making further continuing appropriations for the fiscal year 1986, and for other purposes.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

Mr. LOTT. Mr. Speaker, reserving the right to object, and I do not intend to object, but I just want to make sure I understand. This is just for a late filing of the rule on the continuing resolution; is that correct?

The SPEAKER. The Chair will answer in the affirmative. It is for the purpose of a late filing of a rule on the continuing appropriations resolution.

Mr. LOTT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

REQUEST FOR PERMISSION FOR COMMITTEE ON RULES TO FILE PRIVILEGED REPORT ON H.R. 3979

Mr. PEPPER. Mr. Speaker, I ask unanimous consent that the Committee on Rules have until midnight tonight to file a privileged report on the bill, H.R. 3979, from the Committee on Ways and Means.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

Mr. LOTT. Mr. Speaker, reserving the right to object, if I could, I would like to make sure we understand exactly which bill this is and what this rule might be.

The gentleman is asking for late filing on the rule on the bill from Ways and Means that has been discussed here earlier where there was an indication there would be an objection?

Mr. PEPPER. Other than the matter that has already been without objection.

Mr. LOTT. I would ask the chairman if we have some idea what that rule would be?

Mr. PEPPER. We would have the meeting this evening, as soon as the membership can be convened. We were going to meet at 6:30, but there was a delay in the matter here on the floor, so we will have the meeting in the next half hour.

Mr. LOTT. Mr. Speaker, I believe at this time we would have to object to that.

The SPEAKER. Objection is heard.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment a bill of the House of the following title:

H.R. 3981. An act to extend until December 19, 1985, the application of certain tobacco excise taxes, trade adjustment assistance, certain medicare reimbursement provisions, and borrowing authority under the railroad unemployment insurance program.

The message also announced that the Senate had passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 3974. An act to amend title 10, United States Code, to include in the death gratuity payable to survivors of a member of the Armed Forces who dies on active duty an amount equivalent to two months' housing allowances.

HOUR OF MEETING ON TOMORROW

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that when the House adjourns today it adjourn to meet at 11 a.m. tomorrow.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

REQUEST TO AUTHORIZE THE SPEAKER TO DECLARE RECESSES AT ANY TIME ON THE LEGISLATIVE DAY OF THURSDAY, DECEMBER 19, 1985

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that it may be in order for the Speaker to declare recesses at any time on the legislative day of Thursday, December 19, 1985, subject to the call of the Chair.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

Mr. WALKER. Mr. Speaker, reserving the right to object, I suggest that perhaps with the schedule becoming a little confusing, it might be better to wait until tomorrow to make that request so that members have a little bit better idea as to what we are going to be doing, where we are going to be going before granting that recess authority.

It may well be appropriate at some point during the day to do that, but right now I sense that there is a good deal of confusion as to what we might be facing tomorrow and that that recess authority is something that we might want to consider in light of understanding the schedule tomorrow.

Mr. WRIGHT. If the gentleman would withhold his objection, let me see if I can clarify any of that which may be in question in his mind.

It is our thought that immediately we will take up some commemorative resolutions that the gentleman from New York [Mr. GARCIA] will seek to bring up under unanimous consent.

□ 1935

Following that, there would be no votes today, none at all.

We will adjourn then, pursuant to the request that has already been granted to the Rules Committee, to file a rule by midnight tonight until 11 tomorrow. At that time, we expect to have the continuing resolution for Members to vote upon.

It might become necessary, however, for the Speaker to declare a recess, and let us wait for some period of time in order for the continuance of these things in the reconcilation bill that have to be continued to be brought before us, and unless the Chair has the authority to declare recesses, then Members are compelled to sit around interminably, and there is no way for us to accurately foretell how long this process may take.

But it is our hope that if this flexibility is granted in a routine way, as it always usually is, at least to the Chair, then we will be able to finish tomorrow and Members can expect to go home late tomorrow.

Mr. WALKER. Reserving the right to objection, I certainly share with the gentleman that goal. The point this gentleman was making is that by the time that we finish with the continuing tomorrow morning or tomorrow afternoon, we will have a better idea where we stand, and it seems to me at that point the gentleman could renew this request and we would know a little more where we are and it might be entirely appropriate. But nevertheless, it seems to me given where we are and the situation tomorrow that we may be granting rather board authority on something where the schedule is very fluid, and somewhat nebulous.

I just wonder if the gentleman might withhold that request until we get past the first business of the day tomorrow, and where we have a little bit better idea what we will be facing.

Mr. WRIGHT. Well, if the gentleman insists, since it takes unanimous consent, surely we will wait until that time, if it accommodates the gentleman.

Mr. WALKER. I thank the gentleman.

NATIONAL FETAL ALCOHOL SYNDROME AWARENESS WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 189), designating the week beginning January 12, 1986, as "National Fetal Alcohol Syndrome Awareness Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore (Mr. MINETA). Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but simply like to inform the House that the minority has no objection to the legislation now being considered.

Mr. GILMAN. Mr. Speaker, I rise in strong support of House Joint Resolution 375, designating the week of January 12, 1985, as "National Fetal Alcohol Syndrome Awareness Week." I want to thank the gentleman from Indiana [Mr. COATS] for introducing this legislation and for bringing it before the House in such an expedient manner.

The purpose of this resolution is to draw attention to the tragic cause of mental retardation among our Nation's newborns—a tragic cause that, in the case of fetal alcohol syndrome, can be entirely preventable. All expectant women need to made aware of the dangers of alcohol consumption and abuse during pregnancy, and of the possible long-term effects that alcohol consumption can have on their unborn child.

As ranking minority membere of the Select Committee on Narcotics Abuse and Control, I share the deep concern of my colleagues that we address the many issues surrounding alcohol and substance abuse. As little as two drinks per day have been associated with an increase in the incidence of low birth weight babies. Two drinks, twice a week has been shown to significantly increase the possibility of miscarriage. Since no specific amount of alcohol has been determined as safe for pregnant women, the Surgeon General has recommended that all pregnant women, and all women considering becoming pregnant, abstain from all alcohol consumption.

Conservative figures estimate that between 1,500 and 2,000 children are born each year suffering from fetal alcohol syndrome. Approximately 36,000 are born suffering with the less severe problem of fetal alcohol effects. By designating the week of January 12, 1986, as "National Fetal Alcohol Syndrome Awareness Week," we will be increasing the public's awareness of the dangers of drinking while pregnant. By doing so we hope we will be able to reduce and prevent the occurrence of fetal alcohol syndrome. I hope that my colleagues will join in support of this important resolution.

Mr. HANSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 189

Whereas fetal alcohol syndrome is one of the three major known causes of birth defects with accompanying mental retardation in the United States;

Whereas fetal alcohol syndrome can result in such serious health problems as: deficiencies in prenatal and postnatal growth that are associated with mental retardation; developmental disabilities that may cause an infant to experience delays in learning to walk and speak; and heart defects, including defects in the wall between the pumping chambers of the heart;

Whereas in cases in which fetal alcohol syndrome is avoided, infants may still experience alcohol-related birth effects, known as fetal alcohol effects, which are a series of health problems that include increased irritability during the newborn period and hyperactivity;

Whereas the discovery of fetal alcohol syndrome as a major health problem is a recent occurrence, and many questions regarding the illness remain unanswered;

Whereas there has never been an infant born with fetal alcohol syndrome whose mother did not consume alcohol during pregnancy;

Whereas fetal alcohol syndrome can be prevented if pregnant women and women considering pregnancy abstain from alcohol consumption; and

Whereas the Surgeon General of the Public Health Service has issued an advisory stating that pregnant women and women considering pregnancy should not consume alcohol: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the week beginning January 12, 1986, hereby is designated "National Fetal Alcohol Syndrome Awareness Week", and the President of the United States is authorized and requested to issue a proclamation calling upon the people of the United States to observe such week with appropriate activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

SESQUICENTENNIAL YEAR OF THE NATIONAL LIBRARY OF MEDICINE

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 198), to designate the year of 1986 as the "Sesquicentennial Year of the National Library of Medicine," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object, but simply would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 198

Whereas the National Library of Medicine houses the world's largest and most distinguished collection of health science literature in the world;

Whereas the National Library of Medicine has pioneered in developing the renowned MEDLARS system that provides worldwide access to this literature;

Whereas American health professionals, in research, education, and practice, have reaped great benefits from the communications systems and services provided by the National Library of Medicine;

Whereas the health of American citizens has been improved as a result of the rapid access to biomedical information enjoyed by health practitioners utilizing the services of the National Library of Medicine; and

Whereas the long and distinguished history of the National Library of Medicine is worthy of special commemoration by the people of the United States: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the year of 1986 is designated as the "Sesquicentennial Year of the National Library of Medicine" and that in recognition of the occasion of the one hundred fiftieth anniversary of the founding of the National Library of Medicine, the President is authorized and requested to issue a proclamation calling upon the people of the United States to observe such year with appropriate ceremonies, programs, and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

TRUCK AND BUS SAFETY WEEK

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that the Committee on Post Office and Civil Service be discharged from further consideration of the Senate joint resolution (S.J. Res. 235), to designate the week of January 26, 1986, to February 1, 1986, as "Truck and Bus Safety Week," and ask for its immediate consideration.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

Mr. HANSEN. Mr. Speaker, reserving the right to object, I do not object but would like to inform the House that the minority has no objection to the legislation now being considered.

Mr. Speaker, under my reservation of objection, I yield to the distinguished gentleman from California [Mr. ANDERSON] who is the chief sponsor of House Joint Resolution 445, to designate the week of January 26 through February 1, 1986, as Truck and Bus Safety Week.

Mr. ANDERSON. Mr. Speaker, I thank the gentleman for yielding and want to thank both the chairman of the subcommittee and the ranking member for bringing this matter up on rather short notice.

I would like to share just a little history on this resolution so that our colleagues know the importance of this. Many of us in Government, industry, and labor want to help enhance public awareness of the need for improved truck and bus safety, and so it was decided to help publicize the matter throughout the country, by designating a week as Truck and Bus Safety Week, and the week of January 26 to February 1 was chosen. If we were to wait until we came back on January 21, to pass this, then there would not be adequate time to do a proper job of publicizing this. It is hoped that schools will become involved with posters and contests. The American Trucking Association is expected to participate in the same manner, they are behind this, and so is the American Bus Association.

Along with other organizations such as the Motor Vehicle Manufacturers Association, the Highway Users Federation, the American Association of Motor Vehicle Administrators, the National Association of Manufacturers, and other major industry and labor groups, they want to get people's attention, everyone's attention, to the needs of improving truck and bus safety.

So, that is whct this is all about. I am particularly interested, since I am chairman of the subcommittee that has jurisdiction over such matters. The gentleman from Pennsylvania [Mr. SHUSTER] is the major cosponsor of this legislation, and we have been joined by over 150 others who have also cosponsored House Joint Resolution 445.

So I want to thank the gentleman for bringing the resolution up under such short notice.

Mr. HANSEN. Mr. Speaker, I appreciate the comments made by the gentleman from California and concur with them.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the Senate joint resolution, as follows:

S.J. RES. 235

Whereas trucks and buses provide essential transportation services to all Americans;

Whereas five million trucks travel more than one hundred and thirty-eight billion miles each year, bringing raw materials, finished goods, food, and other essential products to market;

Whereas the trucking industry along employs more than seven million four hundred thousand Americans and generates annual revenues in excess of $200,000,000,000;

Whereas the bus industry employs approximately fifty thousand people and provides service to over ten thousand cities and communities;

Whereas the safe maintenance and operation of trucks and buses is vital to the health and safety of motorists, pedestrians, and other users of the Nation's highways, roads, and streets;

Whereas the safe maintenance and operation of trucks and buses is also vital to the companies and individuals directly involved in the provision of such transportation services;

Whereas the safe maintenance and operation of trucks carrying hazardous materials is essential not only to the safety of the immediate highway environment, but often to the surrounding environment as well;

Whereas State governments are increasing their efforts to improve safety compliance both on their own and with funding assistance provided by the Federal Government;

Whereas there is a continuing need for congressional inducement to improve highway safety; and

Whereas improvements in the safe operation of trucks and buses result from activities undertaken by management and labor, including activities to ensure driver professionalism: Now, therefore, be it

Resolved by the Senate and House of Representives of the United States of America in Congress assembled, That the President is authorized and requested to designate the week of January 26, 1986, to February 1, 1986, as "Truck and Bus Safety Week" and to call upon Federal, State, and local government agencies and the people of the United States to observe such week with appropriate programs, ceremonies, and activities.

The Senate joint resolution was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GARCIA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate joint resolutions just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

RECESS

The SPEAKER pro tempore. Pursuant to the order of the House of Tuesday, December 17, 1985, the Chair declares the House in recess, subject to the call of the Chair.

Bells will be rung 15 minutes before the House reconvenes if there is business to transact.

Accordingly (at 7 o'clock and 44 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 2100

AFTER RECESS

The recess having expired, the House was called to order by the Speaker at 9 o'clock p.m.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2100) "An act to extend and revise agricultural price support and related programs, to provide for agricultural export, resource conservation, farm credit, and agricultural research and related programs, to continue food assistance to low-income persons, to ensure consumers an abundance of food and fiber at reasonable prices, and for other purposes."

The message also announced that pursuant to the provisions of sections 1928–1928d, title 22, United States Code, as amended, the Vice President appoints Mr. ROTH as a member and chairman, on the part of the Senate, of the North Atlantic Assembly during the 99th Congress.

The message also announced that pursuant to the provisions of Public Law 94–118, the President pro tempore appoints Mr. ROTH as a member, on the part of the Senate, of the Japan-United States Friendship Commission.

The message also announced that pursuant to the provisions of Public Law 83–420, the Vice President appoints Mrs. KASSEBAUM as a member, on the part of the Senate, of the Board of Directors of Gallaudet College.

The message also announced that pursuant to Executive Order 12131, signed by the President on May 4, 1979, as extended, the Vice President appoints Mr. KASTEN as a member, on the part of the Senate, of the President's Export Council, vice Mr. ROTH.

The message also announced that pursuant to the provisions of Public Law 99–83, the Vice President appoints Mr. COCHRAN as a member, on the part of the Senate, of the International Advisory Commission for the Caribbean Region.

The message also announced that pursuant to the provisions of Public Law 98–459, the President pro tempore appoints Mr. Russell Mills, Ph.D., of Kansas, as a member, from private life, to the Federal Council on the Aging.

The message also announced that pursuant to the provisions of Public Law 99–93, as amended by Public Law 99–151, the Vice President appoints Mr. MURKOWSKI, Mr. SPECTER, and Mr. ABDNOR as members, on the part of the Senate, of the U.S. Senate Caucus on International Narcotics Control.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. MCKINNEY (at the request of Mr. MICHEL), for today, on account of illness.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

Mr. STOKES, for 60 minutes, today.

Mr. MITCHELL, for 60 minutes, today.

(The following Members (at the request of Mr. KLECZKA) to revise and extend their remarks and include extraneous material:)

Mr. RAY, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. RANGEL, for 60 minutes, today.

(The following Members (at the request of Mr. BROWN of Colorado) to revise and extend their remarks and include extraneous material:)

Mr. BROWN of Colorado, for 5 minutes, today.

Mr. GONZALEZ, for 30 minutes, today.

(The following Members (at the request of Mr. GONZALEZ) to revise and extend their remarks and include extraneous material:)

Mr. BOLAND, for 10 minutes, today.

Mr. CROCKETT, for 5 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. DAUB, prior to the vote on the conference report on H.R. 2100, today.

Mr. LEWIS of Florida, following the vote on House Resolution 345, today.

(The following Members (at the request of Mr. FRANKLIN) and to include extraneous matter:)

Mr. GILMAN in four instances.

Mr. LAGOMARSINO.

Mr. LEWIS of Florida.

Mr. CHANDLER.

Mr. BROOMFIELD.

Mr. PORTER.

Mr. GREEN in two instances.

Mr. KINDNESS.

Mr. DUNCAN.

(The following Members (at the request of Mr. KLECZKA) and to include extraneous matter:)

Mr. BARNES in two instances.

Mr. DYMALLY.

Mrs. KENNELLY.

Mr. CLAY.

Mr. WILLIAMS.

Mr. OBERSTAR.

Mr. MCHUGH.

Mr. WIRTH.

Mr. LEVINE of California in two instances.

Mr. MOAKLEY.

Mr. CROCKETT in two instances.

Mr. ROE in two instances.

Mr. STOKES in two instances.

Mr. WILSON.

Mr. GAYDOS.

(The following Members (at the request of Mr. HANSEN) and to include extraneous matter:)

Mr. MADIGAN.

Mr. BROYHILL.

Mr. PORTER.

Mr. COURTER.

Mr. MCKERNAN.

Mr. THOMAS of California.

Mr. ROGERS.

Mr. CONTE.

SENATE BILLS AND CONCURRENT RESOLUTION REFERRED

Bills and a concurrent resolution of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 86. An act to amend the laws of the United States to eliminate gender-based distinctions; to the Committee on the Judiciary.

S. 1437. An act to amend the Controlled Substances Act to create new penalties for the manufacture with intent to distribute, the possession with intent to distribute, the possession or the distribution of "controlled substance analogs", and for other purposes; to the Committees on Energy and Commerce and the Judiciary.

S. 1740. An act to designate Bloomington Lake located on the North Branch of the Potomac River, near Bloomington, MD, and Keyser, WV, as the "Jennings Randolph Lake"; to the Committee on Public Works and Transportation.

S. Con. Res. 98. Concurrent resolution to recognize the historical significance of the former Presidential yacht *Sequoia*, and express support for her donation to the U.S. Navy by the Presidential Yacht Trust; to the Committee on Armed Services.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled bills and joint resolutions of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 3914. An act to preserve the authority of the Supreme Court Police to provide protective services for Justices and Court personnel;

H.R. 3981. An act to extend until December 19, 1985, the application of certain tobacco excise taxes, trade adjustment assistance, certain medicare reimbursement provisions, and borrowing authority under the railroad unemployment insurance program;

H.J. Res. 436. Joint resolution to designate 1986 as "Save for the U.S.A. Year," and for other purposes; and

H.J. Res. 485. Joint resolution waiving the printing on parchment of enrolled bills and joint resolutions during the remainder of the 1st session of the 99th Congress.

SENATE ENROLLED BILL SIGNED

The SPEAKER announced his signature to an enrolled bill of the Senate of the following title:

S. 1728. An act to authorize the Cherokee Nation of Oklahoma to lease certain lands held in trust for up to 99 years.

BILLS AND JOINT RESOLUTIONS PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on the following days present to the President, for his approval, bills of the House of the following title:

On December 17, 1985:

H.J. Res. 491. Joint resolution making further continuing appropriations for fiscal year 1986;

H.J. Res. 450. Joint resolution to authorize and request the President to issue a proclamation designating April 20 through April 26, 1986, as "National Organ and Tissue Donor Awareness Week";

H.R. 2694. An act designating the U.S. Post Office Building located at 300 Packerland Drive, Green Bay, WI, as the "John W. Byrnes Post Office and Federal Building"; and

H.R. 3003. An act to authorize the Secretary of the Interior to convey certain land located in the State of Maryland to the Maryland National Capital Park and Planning Commission.

On December 18, 1985:

H.J. Res. 485. Joint resolution waiving the printing on parchment of enrolled bills and joint resolutions during the remainder of the 1st session of the 99th Congress; and

H.J. Res. 436. Joint resolution to designate 1986 as "Save for the U.S.A. Year," and for other purposes.

ADJOURNMENT

Mr. ANDERSON. Mr. Speaker, I move that the House to now adjourn.

The motion was agreed to; accordingly (at 9 0'clock and 1 minute p.m.), under its previous order, the House adjourned until tomorrow, Thursday, December 19, 1985, at 11 a.m.

EXPENDITURE REPORTS CONCERNING OFFICIAL FOREIGN TRAVEL

Reports of various House committees concerning the foreign currencies and U.S. dollars utilized by them during the fourth quarter of calendar year 1984 and the second and third quarters of calendar year 1985 in connection with foreign travel pursuant to Public Law 95-384 are as follows:

AMENDED REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON WAYS AND MEANS, U.S. HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN OCT. 1 AND DEC. 31, 1984

Name of Member or employee	Date		Country	Per diem [1]		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2412. A communication from the Acting Comptroller General of the United States, transmitting a report on the status of budget authority proposed for rescission under the Impoundment Control Act, for which Congress failed to pass a rescission bill (H. Doc. No. 99-138); to the Committee on Appropriations and ordered to be printed.

2413. A letter from the Director, Defense Security Assistance Agency, transmitting notice of the Department of the Army's proposed Letters of Offer to Turkey for defense acticles estimated to cost $50,000,000 or more, pursuant to 10 U.S.C. 133b (96 Stat. 1288); to the Committee on Armed Services.

2414. A letter from the General Counsel, Department of Defense, transmitting a draft of proposed legislation to amend title 10, United States Code, to revise and standardize the provisions of law relating to appointment, promotion, and separation of commissioned officers of the reserve components of the Armed Forces, and for other purposes; to the Committee on Armed Services.

2415. A letter from the Director, Defense Security Assistance Agency, transmitting notice of the Department of the Army's proposed Letters of Offer to Turkey for defense articles and services, pursuant to 22 U.S.C. 2776(b); to the Committee on Foreign Affairs.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. KASTENMEIER. Committee on the Judiciary. H.R. 2468. A bill to amend the Legal Services Corporation Act to authorize appropriations for additional fiscal years, and for other purposes, with an amendment (Rept. 99-448). Referred to the Committee of the Whole House on the State of the Union.

Mr. BEILENSON. Committee on Rules. H. Res. 348. A resolution waiving certain points of order against the conference report on House Joint Resolution 465, a joint resolution making further continuing appropriations for the fiscal year 1986, and for other purposes (Rept. 99-449). Referred to the House Calendar.

SUBSEQUENT ACTION ON A REPORTED BILL SEQUENTIALLY REFERRED

Under clause 5 of rule X, the following action was taken by the Speaker:

The Committee on Appropriations discharged from further consideration of H.R. 2851; H.R. 2851 referred to the Committee of the Whole House on the State of the Union.

PUBLIC BILLS AND RESOLUTIONS

EXTENSIONS OF REMARKS

FLORA LEWIS ON UNFPA

HON. BILL GREEN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. GREEN. Mr. Speaker, I would like to bring to my colleagues' attention an article by Flora Lewis on the international population dilemma. As a coparticipant—along with Representative PETER KOSTMAYER and the Population Council—in the lawsuit discussed in the article, I highly recommend this insightful article by this renowed journalist who was just recently presented with the Fourth Estate Award for excellence in journalism.

The article follows:

[From the New York Times, Dec. 13, 1985]

FOREIGN AFFAIRS—THE SURVIVAL QUESTION

(By Flora Lewis)

WASHINGTON.—A Federal appeals court here has made a foreign policy decision on a technically that highlights the peculiar means some conservatives are using to force their views of morality on the rest of the world.

The court rules that the Agency for International Development may release $10 million to certain countries after the money was withdrawn from the United Nations Fund for Population Activities. Werner Fornos, president of the Washington-based Population Institute, had sued to freeze the money in an effort to restore it to the important U.N. agency.

All this legal wrangling is really about abortion and sterilization in countries struggling against explosive birth rates, which menace not only their own hopes for the future but the fate of the world. Specifically, it is about the charge that China forces some people to undergo these operations, or offers financial incentives.

Evidence that China does so was not even offered, but the Administration position was that it is up to China to prove it has punished anybody who has forced such an "abuse" on its citizens. Nor is there evidence that the Administration really wants to poke into China's one-family, one-child program, or its legal system.

A remarkable letter from President Reagan to Senator Jesse Helms, dated Oct. 6, explains the political trade-off that Mr. Helms extracted.

The "Dear Jesse" letter starts off saying how much the President wants confirmation of Winston Lord as U.S. Ambassador to China. Then it switches to a lengthy assurance that China will not get any American funds through the U.N. program to help its population control efforts. Then it repeats the urgency of speeding Mr. Lord to Peking, where he has now taken up his assignment.

The connection isn't drawn explicitly, but it's perfectly obvious. It is also obvious that by holding up dozens of diplomatic confirmations until he got his way, and threatening to do it again, Senator Helms has cowed the State Department into an embarrassing and counterproductive stand.

The $10 million China was receiving was a drop in the bucket compared with the $1 billion it spends to try to stabilize its population at the projected 1.3 billion by the year 2000. But it was an important symbol of U.S. support for an excruciatingly difficult national effort, and the prohibition was an insult.

It is ironic, furthermore, that the U.S. won't take China's word on the population control measures that it uses, but accepts more dubious assurances that China won't alow billions of U.S. dollars in nuclear technology aid to seep out and thwart nuclear nonproliferation.

But it is even more hypocritical to cut off birth control support in the name of a U.S.-legislated definition of morality in a world of spreading famine and strained resources. This is a mouth race, alongside the arms race, because there is no way economic development can even keep up with unlimited demographic growth in most of the poor countries. The choice is between "natural" population control, that is Malthusian tragedy, and human responsibility.

As Werner Fornos notes, undermining the U.N. fund will make only a token difference to China. But it will really hurt up to a hundred other countries that are just beginning to understand that age-old attitudes mean disaster in the world's new circumstances. The dominant official view in Africa had been that more people mean more power, and the only way to catch up with better off countries is to outnumber them.

At present rates, by the middle of the 21st century Nigeria will have the population that China has now, and Kenya double the present U.S. population. There are many more factors in braking population growth than birth control—including education, better health care, better agricultural policies.

But there has to be recognition that how many people there are in the world and how they live are directly related. Until about a century and a half ago, the world population had been almost stable over two millennia. The biblical injunction to reproduce was needed to assure human survival.

Now science has changed the survival question, requiring human care to protect nature's ability to support our numbers. It is incredible that a privileged group in the U.S. should presume to punish others trying to face this dilemma, and in the name of morality. Survival remains the issue, though in different terms. Mr. Helms' dictated position is not only bad policy, it is immoral in the most profound human sense.

THE LATIN AMERICAN DEBT CRISIS

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. GARCIA. Mr. Speaker, yesterday's New York Times ran an article on the Latin American debt crisis by Pedro-Pablo Kuczynski which I am inserting in the RECORD.

Mr. Kuczynski offers a number of concrete possibilities for aiding Latin nations. No matter what we may think of his suggestions, it is important to continue to examine all possibilities for solving this crisis. Its effects are potentially as devastating for us as for the nations of the region.

The article follows:

[From the New York Times, Dec. 16, 1985]

AT THE LATIN DEBT HOSPITAL

(By Pedro-Pablo Kuczynski)

The high occupancy rate in the Latin American debt hospital continues. Argentina has left the emergency room, but another debtor, Mexico, is showing symptoms that it may have to return unless it gets a massive injection of funds to pay interest. These two countries plus Brazil account for two-thirds of the nearly $400 billion Latin American external debt, of which about $280 billion is owed to international commercial banks, 40 percent of them in the United States.

Two statistics are worth remembering about this debt: It is equivalent to almost four times the exports of the region. And the interest, most of it at floating rates, absorbs close to 40 percent of annual export earnings. The debtor countries and their creditors are thus perilously exposed to a run-up in international interest rates. When Latin debtors could not make ends meet in 1982 and banks cut back new lending, debt amortization payments had to be postponed. A similar crunch now would jeopardize interest payments, a far more serious problem for lenders.

In the last three years, Latin America has paid the interest on its external debt by cutting back imports. It has thereby built up a large trade surplus but at the cost of very depressed economies. The modest lending that has come from banks has been offset by cutbacks in trade credit and by the flight of capital. Large trade surpluses and negligible capital inflows are obviously not sustainable much longer. Latin America's economies have to grow again and they need external capital to do so. To think otherwise is to ignore economic history.

What can be done?

First, Treasury Secretary James Baker has called for $9 billion a year in multilateral bank lending, mainly by the World Bank, to 15 high-debt countries, as well as for some $20 billion in commercial bank lending over three years to the same 15. There is much work to be done to translate this initiative into concrete cooperation between lenders and debtors.

Second, while it may be unrealistic to expect large international organizations to make major new loan commitments now, they do have money for immediate disbursement. The World Bank and the Inter-American Development Bank have almost $25 billion of committed but undisbursed loans to Latin American countries. Meanwhile,

public works are virtually paralyzed and unemployment is rampant.

Why wait? The programs are ready, the workers are ready, the money is there. It should not be impossible for the World Bank, for a temporary period, to increase its share of development projects to which it is already committed.

We should think too of privatizing sluggish state enterprises. Recently, I met in Buenos Aires with the minister of the newly created Secretariat of Privatization, Manuel Tanoira, who like a late 20th century shepherd keeps his flock of state enterprises on their toes. The biggest threat he has over them is that he might sell them, which would do wonders for the inefficient ones. There are recent precedents for this. In Brazil, the state oil company has successfully sold shares worth $400 million to the public. Mexico recently sold the state hotel chain.

These are good signs. While public initiatives such as Mr. Baker's are necessary to prevent the collapse of high-debt economies, private initiative is needed to carry them back to growth and avoid the excesses of the past.

A balanced approach is needed. The worst that could happen is to think that business-as-usual will be enough, especially at a time when real interest rates are still relatively high and commodity prices are at record low levels.

A HOMETOWN VIEW OF A HEARTLAND TRAGEDY

HON. COOPER EVANS

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. EVANS of Iowa. Mr. Speaker, on Sunday, December 15, the New York Times published a commentary, which originally appeared in the Iowa City Press-Citizen, about the current crisis in rural America.

We commend this article to the attention of our colleagues for its especially insightful and moving treatment of the human dimension to the problems facing Iowa agriculture today.

THE HANDS OF ANGER, FRUSTRATION, HUMILIATION

Imagine for a minute that tomorrow, your boss tells you that for the next 12 months, you're going to earn only two-thirds of your salary. You can't quit your job.

What would you do? Quick.

The mortgage payment is already a week overdue. The kids need boots, and it's snowing. Quick.

The last two checks you wrote bounced, and the bank wouldn't pay them. The pediatrician's bill is overdue. The corner grocery store won't let you put anything on your charge account. Quick.

Your spouse is angry; you're not holding up your end of the deal. What are you going to do? Quick.

Your father and grandfather have done the same job as you're doing now. They went through the Depression. They lived on pork and potatoes, and they made it. You are the third generation. You're blowing it. Think fast. You don't have much time. Weeks, maybe months.

The pressure builds, the stress is stronger. You keep going to work, hanging on. It doesn't matter. Nothing you do matters. You are powerless.

This the kind of thing Dale Burr probably felt. And it is the kind of thing many other Iowa farmers feel every day.

There are accounts of bank transactions and economic explanations and other hypotheses as the murder and suicide story unravels. But that's not what it is really all about. It's about people—alone, desperate and powerless with nowhere to turn.

Once the Burrs were one of the wealthier families in the county. They were well-thought-of people. Salt of the earth. Churchgoers. A family of farmers carrying on a tradition. That was a year or two ago. That's how fast things crumble.

Target prices, price supports, ceilings, sealing crops. The terminology doesn't matter. It's welfare. Farmers know it. And farmers are proud people. Nobody really wants to live that way. But for now, there is no choice.

Many Iowa farmers already have taken deep pay cuts. They've scaled down operations. They've swallowed their pride—gone to stress clinics, sought therapy, stood in line at the market with food stamps in their pockets.

Some of it was bad judgment. Some of it was bad luck. The mid-1970's was a boom time for Iowa agriculture, but everyone else caught on. Physicians' fees rose, hospital costs rose, the cost of cars and homes and tractors and loans and mortgages and a college education rose. Then the bottom fell out—for farmers. Now things are so out of kilter that people who once were pillars of their communities are falling into poverty, depression and disrepute.

This is the farm crisis—the people who are alive and hanging on, and those who have died at the hands of anger, frustration, humiliation. And they are here.

Politicians tell us it is only a matter of balancing the books. That if we can reduce the deficit, deflate the value of the dollar, increase exports and give the free market reign—then, everything will be all right.

But if there's one thing that is clear from Mondays tragic series of murder and suicide, it is that the farm crisis is not numbers and deficits and bushels of corn. It is people and pride and tears and blood.

The time has come for the state and the county to reach out to farmers who are suffering—not because they are failed businessmen and women, but because they are human beings whose lives are falling apart—fast.

NATIONAL NEIGHBORHOOD HOUSING SERVICES WEEK

HON. NORMAN Y. MINETA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. MINETA. Mr. Speaker, I call upon my colleagues to join me in support of a resolution to designate the week beginning June 1, 1986, as National Neighborhood Housing Services Week. The purpose of this resolution is to generate increased private sector awareness of and support of NHS' efforts in revitalizing America's neighborhoods. Further, this resolution would recognize the thousands of volunteers who are contributing so much to NHS' success, both in terms of their time and financial resources.

For the past 14 years, NHS partnerships of residents, businesses, and local governments have been working together to combat neighborhood deterioration and preserve and produce decent affordable housing for the benefit of the current NHS residents. The NHS track record of achievement, whether it is a rural community or the most urban of cities, is impressive. Today, scores of NHS neighborhoods, once written off as as destined to become slums, are healthy self-reliant communities, and the NHS' have been able to move on to serve other neighborhoods of need in their cities.

The Congress' role in assisting this grassroots effort is through the work of the Neighborhood Reinvestment Corporation which we created to help local communities establish new NHS's and provide technical services to the existing NHS's. The success of this effort is impressive. A total Federal cost of $109 million over the past 15 years has been leveraged into approximately $3.5 billion in reinvestment in NHS neighborhoods. But no numbers can capture the renewed sense of pride and confidence the residents of these neighborhoods have in their futures, the majority of whom are lower income, elderly, and minority.

The operating costs of these local efforts are provided largely through private contributions from local business. Keeping NHS's strong and enabling them to serve additional neighborhoods requires a steady broadening of this contributions base. "National NHS Week," in drawing attention and giving recognition to NHS's work, will significantly aid every local NHS in strengthening its private sector base of support.

I hope my colleagues will join me in designating the week of June 1, 1986, as "National NHS Week." Passage of this resolution will not mandate an outlay of Federal funds. It will, however, significantly enhance a national grassroots effort which is saving hundreds of neighborhoods across America, a priceless resource which billions of dollars could not replace.

The resolution follows:

RESOLUTION TO DESIGNATE THE WEEK BEGINNING ON JUNE 1, 1986, AS "NATIONAL NEIGHBORHOOD HOUSING SERVICES WEEK"

Whereas America's neighborhoods contain the ethnic, social and economic relationships which are fundamental to a strong and diverse nation;

Whereas, when the physical, economic and social structure of a neighborhood deteriorates, it causes great harm to the homes, businesses, and residents of the neighborhood, particularly for the elderly and poor;

Whereas, the reversal of such deterioration is essential to the strength of America's families, neighborhoods and businesses;

Whereas, throughout the United States, NHS programs which are partnerships of local residents, business leaders and government officials, are working to revitalize more than 200 neighborhoods;

Whereas, NHS programs have generated more than three billion dollars in reinvestment funds to revitalize America's neighborhoods; and

Whereas, to accomplish their aims, such programs utilize primarily local and private resources and the assistance of hundreds of volunteers who contribute countless hours of volunteer work: Now, therefore, be it

Resolved by the House of Representatives of the United States of America in Congress assembled, That the week beginning on June 1, 1986, is hereby designated as "National NHS Week", and the President is authorized and requested to issue a proclamation calling upon local and State jurisdictions, appropriate Federal agencies, and the people of the United States to observe such week with appropriate ceremonies and activities.

BILL McCARTHY

HON. HAROLD E. FORD

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. FORD of Tennessee. Mr. Speaker, I'd like to take this time to say, "Thanks for a job well done to a departing legis fellow, Mr. Bill McCarthy. Bill, a 25-year veteran of the Social Security Administration, will return to his Baltimore office where he presently serves as the Director of Policies and Procedures for the Office of Assessment.

If Bill is half as good in Baltimore as he was over the past year in my office, those recipients of Social Security checks can rest easy about the way that Agency is being run. His record at Social Security speaks for itself. Back in 1960, he started as a claims representative in the New York region. In 1967, he moved to Baltimore, and began 10 years of distinguished service at the Bureau of Health Insurance—now known as the Health Care Finance Administration. While at work at BHI, he helped develop a system of onsite visits to providers of health care. In his current position, he was instrumental in designing a quality measurement system for all cash payment programs. Today, he is involved in quality measurement of SSI programs. Mr. McCarthy is also the recipient of several Social Security achievement awards.

However, while he has spent 25 illustrious years serving the American public, it will be this last year that my staff and I remember best. His experience, leadership, wit, and professional attitude brought from Baltimore were invaluable assets to my office. He provided us with answers to a variety of health-related issues, ranging from the particulars of the Medicaid and Medicare programs, to whether or not the Baltimore Orioles would survive the rigorous competition of the America League East. He always took the time to carefully answer the questions of the staff. It was easy to see the care that went into all of Bill's work. I only wish that each of the other 434 Members of this body had the special opportunity that my office was able to enjoy.

While testimonials are often employed on posthumous occasions, or on the eve of retirement, let me happily announce that this Bill is not about to be tabled. Still a few years short of his 50th birthday, Bill McCarthy will undoubtedly be closing in on Social Security longevity records, if he so chooses. For a man so young, he has accomplished so much.

Bill's caring about whatever he does is quite evident by the numerous community activities he has participated in. To Bill, his wife, Marie, and children Bill Jr., Nancy, and Kathleen, I wish all the continued success in the world. Though he returns to Baltimore, I am convinced that someone with his kind of credentials will be assisting House Members once again in the very near future.

HANDBOOK OF ELECTRONICS INDUSTRY COST ESTIMATING DATA

HON. RAYMOND J. McGRATH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. MCGRATH. Mr. Speaker, I would like to bring to the attention of my colleagues the existence of a recently published book entitled "Handbook of Electronics Industry Cost Estimating Data." The book was written by Theodore Taylor and is a carefully revised version of earlier works describing cost factors which must be considered to complete a wide variety of tasks at all stages of a manufacturing and production process.

I was pleased to see that the Defense Logistics Agency cooperated with the author and publisher to produce this comprehensive volume. With accepted standards for production of electronic equipment, many arms of the executive and legislative branches can improve planning and avoid errors and overcharges, which have undermined public confidence in Government management.

Projects on the cutting edge of technology are, by their nature, prone to unforeseen difficulties. At the same time, projections can be made accurately for many routine activities. This increases certainty in cost estimates and other information that legislators, military personnel, and other Government officials need to make policy decisions and purchases.

I congratulate Mr. Taylor and his collaborators for their contribution to technical literature.

A copy of the handbook was given to me by a constituent, Mr. George Telecki, of Malverne, NY, who is an editor for the book's publisher. I would be happy to make my copy available for review by Members or staffs dealing with procurement issues or the budget process.

COMMEMORATING A CHAMPION

HON. MATTHEW F. McHUGH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. MCHUGH. Mr. Speaker, the breeding and racing of horses has long been a part of New York State's heritage, and I would like to take a moment to note that this year has marked the 70th birthday of Exterminator, the greatest of all New York State racehorse champions. This magnificent competitor, who died in 1945 and was buried in Broome County, NY, is believed by many to be the best all-around racehorse America ever produced.

Earlier this year, the New York State Legislature honored Exterminator by passing a special resolution. One passage of that May 30 resolution notes Exterminator's accomplishments:

Exterminator won 34 stake races, thereby establishing an American record that has stood intact for over 60 years, including among others the Kentucky Derby, the Travers in Saratoga, and the Pimlico in 1918; the Saratoga Cup in 1919; the Autumn Gold Cup at Belmont in 1920; the Frontier at Windsor in 1921; and the Brooklyn Handicap at Aqueduct in 1922, earning over $250,000 during his lifetime, and ultimately winning 49 races in 99 starts.

I might add that some racing historians believe that Exterminator's 1922 victory in the Brooklyn Handicap was the greatest horse race ever run.

The same New York State Legislature resolution puts Exterminator's illustrious career in the context of some important facts about New York State racing which I would like to share with my colleagues:

The racing industry in New York State has resulted in an annual attendance of more than 11 million patrons while over $3 billion is wagered annually in New York, representing more than 15 percent of total nationwide attendance and over 28 percent of total wagers; and out of this amount, local and State governments receive over $270 million and total employment exceeds 7,900, generating a total payroll of over $68 million. The breeding industry is one of the fastest growing industries in New York State, resulting in the care of over 63,000 horses on breeding farms, which directly generate more than $120 million and over 7,000 jobs for the economy of New York State.

Exterminator, the most famous New York State racehorse champion of all time, was the horse that helped the most, in those critical years immediately following World War I, to make racing the immensely popular industry it has become in my State.

As always, stories of special horses also involve special people. In this case, the special person is Jules Levitt, of Binghamton, NY. Mr. Levitt has devoted much energy to bringing Exterminator's exploits before the public, and is active in soliciting support for an appropriate memorial for Exterminator. I am pleased to acknowledge his dedicated efforts.

CONGRESSIONAL SALUTE TO THE HONORABLE FRANK W. MURPHY OF NEW JERSEY ESTEEMED POSTMASTER, COMMUNITY LEADER AND GREAT AMERICAN

HON. ROBERT A. ROE
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. ROE. Mr. Speaker, on Sunday, January 19, 1986, the people of the city of Paterson, my Congressional District and State of New Jersey will join together in testimony to a distinguished citizen, outstanding community leader and good friend, Hon. Frank W. Murphy of New Jersey, who announced his retirement from his high office of public trust as Postmaster and Sectional Center Manager of the Northern New Jersey District of the U.S. Postal Service effective October 2, 1985. I know that you and our colleagues here in the Congress will want to join with me in deep appreciation of all of his good works and share great pride in the success of his achievements with his good wife Mary; son Frank W. Jr. of Ramsey, NJ; daughters and sons-in-law: Mary Frank Verrone of Park City, UT; Maureen and husband Louis Morelli of Malibu Beach, CA; Sharon and husband John Borino of Stanhope, NJ; and Kathleen of North Haledon, NJ; and grandsons Craig and Keith Murphy; Mark, Glenn and Scott Verrone; Ryan and Todd Morelli; and Sean M. Ryan Borino as they celebrate this milestone of achievement in their family endeavors.

As we gather together in tribute to Postmaster Murphy's standards of excellence throughout his lifetime and his outstanding public service during the past 31 years plus in the vanguard of our Nation's postal operations, there is much that can be said about Frank Murphy and his exemplary record of performance in providing postal services responsive to the needs of our people dedicated to swift and reliable distribution and delivery of mail—a highly significant and vital link in our national and international communications network.

Mr. Speaker, Frank Murphy was born on July 25, 1918, in the city of Paterson, NJ, the first son of John B. and Esther Murphy. He attained his elementary and secondary education at Our Lady of Lourdes Grammar School and St. John's Cathedral High School in Paterson, NJ. He received his B.A. degree from St. Bonaventure University in 1940 where he had also earned an R.O.T.C. commission as second lieutenant in the field artillery of the U.S. Army. His legal studies at Fordham Law School was interrupted on December 7, 1941, by the destructive attack by Japan on our U.S. Naval Base at Pearl Harbor, HI. He was the first member of the class of 1943 to depart for active duty with our Armed Forces after taking his physical examination on December 11, 1941 and accepting his active duty orders the week of December 15, 1941.

Frank Murphy served our country as a captain in the field artillery during World War II. He participated in many battles in the European Theatre of War receiving the highest commendations of merit for his military service including the U.S. Armed Forces medal of the Order of the Purple Heart which is awarded to servicemen wounded in action. He also received the five European Battle Stars, the Bronze Star, as well as the French Fourragere, Distinguished Unit citation, etc.

At the end of World War II he was selected by the VII Army Corps headquarters as Commanding Officer of two provisional military government detachment teams assigned to Halle, Germany. He served as Military Governor of this city of a quarter of a million population. Upon his return to the United states in October 1945 he continued in the U.S. Army Reserves until compulsory retirement in 1968 with the rank of lieutenant colonel.

Frank completed his legal education and attained his L.L.B. degree from Rutgers Law School in 1948. He served his law clerkship with the law firms of Peter Hofstra, Esquire and Wendell W. Furrey, Esquire, both of Paterson, NJ; passed the New Jersey Bar examination and was admitted to the practice of law in New Jersey and the Federal District Court in 1949.

Frank Murphy, esquire, established a law partnership with Edward F. Furrey, esquire, under the firm name of Furrey and Murphy, Esquires, Paterson, NJ and continued on a full and part-time basis until the dissolution of the partnership in 1969.

Mr. Speaker, Frank Murphy has been an active participant in many community improvement programs. He served the city of Paterson as exectuve secretary to Mayor Lester F. Titus (1952–54), Secretary to Paterson Board of Adjustment (1952–54), Chairman of Paterson Purchasing Commission (1952–54) and Paterson's first Director of Slum Clearance and Urban Development (1953–54).

In April, 1954, he was appointed Postmaster of the city of Paterson by President Eisenhower with the advice and consent of the U.S. Senate. It is interesting to note at that time he was the youngest postmaster in our Nation to have been appointed to a city as large as the size of Paterson, NJ.

Mr. Speaker, the U.S. Postal Service has over 700,000 employees and handles more than 131 billion pieces of mail annually. In addition to the national headquarters, there are regional, district and sectional center offices supervising almost 40,000 post office branches, stations and community-based offices throughout the United States.

Throughout his postal career, postmaster Murphy has forged ahead with dedication, devotion and sincerity of purpose in achieving efficient mail handling systems for the people of our region. We applaud his knowledge, training, hard work and personal commitment that has enabled him to achieve the fullest confidence and strongest support of the people of our community. He has always applied the most sophisticated and advanced techniques of his profession.

Over the course of his tenure as postmaster he vigorously pursued continuous updated training within the postal system in all managerial areas including scientific disciplines and studies involving specialized instruction and practice at the Postal Service Management Institute, Bethesda, MD where he received certificates of achievement in American Management and Associates Training. He also participated in various seminars and training courses at the University of Pennsylvania, Hobart College and the University of Southern California.

Among his many assignments as postmaster he was postmaster training officer for post offices located in New Jersey at Newark, Trenton, Jersey City, Hackensack, Clifton and Passaic and served on countless advisory promotion boards. He was past president of the Bergen-Passaic County Chapter of the National Association of Postmasters of the United States. He received many citations of merit for the quality of his service as a postmaster. In April 1969 he was the recipient of the Superior Accomplishment Award of the Post Office Department of the Philadelphia region. He was selected by Postmaster General Winton N. Blount as 1 of the 30 outstanding postmasters in the Postal System to serve on the newly formed five Postmaster Selection Boards in May 1969 and received letters of commendation from Postmaster Generals W.M. Blount and E.T. Klassen dated October 8, 1970 and February 5, 1974 respectively for his exemplary service spanning a period of 58 months for the Postmaster Selection Boards in both the Philadelphia and New York postal regions.

Upon enactment of the Postal Reorganization Act of 1971 which created the U.S. Postal Service as an independent establishment of the executive branch of our Federal Government, Postmaster Murphy was appointed Sectional Center Manager headquartering in Paterson, NJ. It is interesting to note that he was among 552 sectional center managers appointed within the United States and as of his retirement in October 1985 was numbered among a total 217 of these most prestigious postal management officers remaining in the organizational structure of the U.S. Postal Service.

Mr. Speaker, Postmaster Frank Murphy has been a staunch supporter and active participant in many charitable and civic endeavors. He was a charter member of the Bernard Armitage American Legion Post No. 360 where he served as Vice Commander, Judge Advocate, President and member of the Board of Trustees. He is a member, Catholic Lawyers Guild; Knights of Columbus, Council No. 240; St. Anthony's R.C. Church, Hawthorne, NJ; and the Paterson Rotary Club. We are especially proud of his highly compassionate fund-raising campaign efforts for charity on national, State, county and municipal levels in support of many most worthwhile eleemosynary organizations including Paterson Community Chest drives, St. Joseph's Hospital Building Development Fund drive; and his leader-

ship service as annual chairman for 4 years on behalf of the March of Dimes.

Mr. Speaker, in reflecting upon the history of our great country and the good deeds of our people who have made our representative demoncracy second to none among all nations throughout the world, I appreciate the opportunity to call your attention to this distinguished gentleman and seek this national recognition of all of his good deeds. Frank Murphy's quality of leadership and sincerity of purpose dedicated to service to people have truly contributed to the quality of life and way of life here in America. As we commemorate his retirement as Postmaster and Sectional Center Manager of the United States Postal Service, we do indeed salute an esteemed Postmaster and great American—Hon. Frank W. Murphy, Esquire of New Jersey.

ADVANCING TAX REFORM

HON. JIM ROSS LIGHTFOOT

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LIGHTFOOT. Mr. Speaker, since coming to Congress, I have voiced my support for tax reform—tax reform that is fair to the average American, tax reform that is simple, and tax reform that is truly a reform of our existing Tax Code.

During the past year, we in Congress have received hundreds of thousands of letters and postcards on every imaginable objection to the present Tax Code, as well as on many provisions of the various proposals which have been debated.

We must recognize that no matter how many objections we have with the bill before us today, the House Ways and Means Committee has devoted months of arduous debate to this massive project. Too much has gone into this effort to "throw the baby out with the bath water."

There are provisions in the bill which concern me greatly. The loss of the investment tax credit will be very hard on companies in my State of Iowa, as will limiting the use of tax-exempt municipal bonds. For this reason, I opposed considering this bill under a closed rule and I voted accordingly.

However, a number of good changes will come from this bill. It provides for a reduction of individual tax rates for the middle- to lower-income taxpayer. It protects employee benefits, which concerned many of my constituents. For the most part, it retains the deductibility of State and local taxes which otherwise would have been devastating to many small communities in Iowa which are already suffering from reduced tax bases brought on by the problems in agriculture. The bill also preserves the deduction for charitable contributions for those taxpayers who do not itemize. Also retained was the deduction for interest on the first and second mortgages for the homeowner.

With respect to small business, this bill also brings needed changes. H.R. 3838 reduces the tax burden on the small businesses which are an integral part of the economic activity in my district. Of considerable importance to me, as well, are the changes the bill makes in tax provisions affecting agriculture. In this bill we are recognizing the damage "tax loss" farming has done to farming as a livelihood and we are working to prevent further abuses in this area.

I was also fortunate to have included as a provision a bill I introduced, H.R. 2277, to exempt liquidating farmers from the alternative minimum tax. In this regard, I owe a great deal of thanks to the members of the committee for their sensitivity to the particular problem this tax has created for those farmers who would otherwise settle their debt and retire from farming without declaring bankruptcy.

While I hope this measure will be improved upon by the other body, I nonetheless remain supportive of the process and wish to see tax reform advanced.

REVITALIZING THE SUPERFUND

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LANTOS. Mr. Speaker, those of us in the Congress who feel deeply about environmental issues achieved a major victory when the House of Representatives approved H.R. 2817 extending and strengthening the Superfund Program. Our action will hasten the cleanup of dangerous chemical waste dumps and will lead to faster and more effective cleanup of toxic and hazardous waste dumps all across our Nation.

Our legislation will solve problems that have plagued the Superfund in the past by providing additional resources and by requiring the Environmental Protection Agency to begin cleanup work on over 600 toxic waste dumps immediately. It also requires chemical companies and Government agencies to provide information about dangerous chemicals to communities located near chemical plants and dump sites.

The Superfund Program was enacted in 1980—in response to environmental disasters such as Love Canal. It soon became clear, however, that the $1.6 billion originally allocated for this program was woefully inadequate to cope with a problem of this scope and magnitude.

After 5 years of EPA effort, not a single site on the national priorities list of the most hazardous sites has been cleaned up. EPA's record on other aspects to this program is equally appalling. With the passage of this legislation, the Congress is sending a message to EPA that the American people want action, that we mean business. Our action in approving this legislation demonstrates our determination to do that.

The problem of toxic waste sites is one of alarming proportions. Recent reports indicate that there may be as many as 10,000 dangerous toxic waste dump sites that will need to be cleaned. The administration's proposal to fund Superfund at a level of $5.3 billion over the next 5 years is completely inadequate.

Our legislation goes much further toward providing an adequate response to this frightening environmental crisis. It authorizes $10 billion through the year 1990, which will ensure that many, many more hazardous waste sites are cleaned up. The measure also establishes a mandatory cleanup schedule and requires the Environmental Protection Agency to begin actual cleanup at roughly 600 sites during the next 5 years.

An important component of the legislation is a provision that communities located near chemical plants and hazardous waste sites and facilities would be given the right to know what chemicals are being handled or stored in those facilities. Companies would be required to provide information to help communities respond to emergencies caused by the sudden release of toxic chemicals.

The bill establishes the concept that the polluters must pay for the damage caused at these toxic sites. It provides for taxes on oil and chemical producers to help offset the cost of the cleanup. The tax on polluters provides a fair way to finance Superfund by placing the tax burden where it belongs.

Mr. Speaker, the Superfund is one of this Nation's most important environmental programs. Our legislation protects human health and the environment while ensuring that our cities are safer and cleaner. We have taken a major step forward in the fight for a clean and safe environment through the passage of this bill.

Approving this legislation, however, does not complete the involvement of the Congress. We must continue to fight to ensure that this program is administered properly and that the intent of Congress is followed. Those of us who are firmly committed to preserving and protecting our natural environment must work to insure that the cleanup of hazardous toxic waste sites is vigorously pursued. We owe this to our children and our children's children.

SPACE MISSION OF HON. BILL NELSON

HON. MICHAEL BILIRAKIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, December 16, 1985

Mr. BILIRAKIS. Mr. Speaker, I wanted to take a moment to extend my very best wishes to my friend and colleague, BILL NELSON, on the eve of his momentous journey on the space shuttle *Columbia.*

I am certain that everyone shares the admiration and respect I feel for BILL as he undertakes this most courageous and extraordinary feat. The milestone which BILL NELSON will make is one that we, as Mem-

bers of Congress, can share and participate in, for he will be representing this entire body in the annals of history. The gavel from the Speaker's rostrum which our colleague will carry into space with him is indicative of all that the House of Representatives stands for and, like the American flag which proudly stands on the Moon, will send a clear and distinct signal to the world of the pride we feel for the House of Representatives, the most free legislative body in the world.

An elected official's active participation in a space mission is, I am certain all will agree, truly outstanding. The significance and importance of this act cannot, and should not, be overlooked, for by sending the chairman of the Subcommittee on Space Science and Applications up on the shuttle, we will be simultaneously pronouncing the pride we feel for NASA and our continuing support for the maintenance of our excellent space program.

BILL NELSON'S journey, Mr. Speaker, is significant in that it truly brings to light the extraordinary gains that our space program has made. It was, after all, not all that long ago when space travel was no more than the dream of an administration and the fantasy of our society. We have, in a few short decades, not only safely landed and returned our astronauts on the Moon, but can now, thanks to American ingenuity and talent, boast the first space vehicle capable of repeated flights. Today, thanks to NASA, the dream of frequent space travel is a reality, and the fantasy of space flight availability to Americans in all walks of life is sounding and looking more and more possible.

Mr. Speaker, I am proud of the capability of our space shuttle and proud of NASA for making it possible. I am also proud that the *Columbia*'s next mission will carry a Member of the U.S. House of Representatives on board. Last but certainly not least, Mr. Speaker, I am proud that that Member will be my colleague, friend, and fellow Floridian, BILL NELSON. Congratulations BILL, and bon voyage!

TRIBUTE TO EMILIO J. LAGOMARSINO

HON. ROBERT E. BADHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. BADHAM. Mr. Speaker, I rise to pay tribute to the memory of E.J. "Red" Lagomarsino who died on November 3, 1985. He was the beloved father of our esteemed colleague, BOB LAGOMARSINO. E.J. was a leader in California and that is why his son, our colleague, is a leader in this body. I ask that the article from the Ventura County Star-Free Press be included in the permanent RECORD.

[From the Ventura County (CA) Star-Free Press, Nov. 4, 1985]

EMILIO J. LAGOMARSINO DIES

Emilio Joseph Lagomarsino, youngest and last of the legendary Lagomarsino brothers of Ventura and the father of Rep. Bob Lagomarsino, died Sunday. He was 81.

Death came at Community Memorial Hospital, Ventura, where he had been a patient only a few days, though he had been in declining health for some time because of a heart condition and malignancy.

Rep. Lagomarsino, summoned Friday from Washington, D.C., when his father's condition became grave, was at the bedside, as were Mr. Lagomarsino's wife of 60 years, Marjorie, and their other two children, Richard Lagomarsino and Catherine (Katy) Wood.

A private family mass was said this morning, and the family announced that no public services will be held. Memorial donations may be made to Californians for a Drug-Free Youth, care of American Commercial Bank, 304 E. Main St. Ventura 93001.

The three Lagomarsino brothers—John, William, and Emilio—figured prominently in the history and development of Ventura. Each made his mark in a different field: John in banking, William in ranching and Emilio in liquor wholesaling and property development.

They were the sons of John and Catherina Lagomarsino, who came to Ventura in 1896 and prospered with a liquor sales enterprise and two saloons.

Emilio Lagomarsino was born Feb. 2, 1904, in a two-story house on Santa Clara Street, where the now-closed Bank of America branch building now stands. He graduated from Ventura High School in 1922, and three years later won a degree from the school of commerce at the University of California, Berkeley.

Although trained in banking, he first tried his hand in the hardware business in Santa Paula, then joined the Title Insurance & Trust Co. staff in Ventura. (His wife is the daughter of the late A.C. Gates, who was manager of the Title Insurance Co. office.)

With repeal of Prohibition in 1933, Mr. Lagomarsino was made mindful of his father's success in the liquor business. He borrowed $2,500 and established Lagomarsino Wholesale Liquors, which has become the largest dealership of its kind in the Tricounties.

He became involved in property ownership and management through the Ventura Realty Co., and he also acquired ranching interests in Somis, Simi Valley and Ojai.

Shortly after World War II, he joined with the late John Rizzo in spearheading organization of the former Ventura Savings & Loan Association. Its subsequent sale yielded an unexpected bonanza to shareholders. Later, Lagomarsino and Rizzo were among the largest shareholders of the Channel Islands State Bank, which was sold to Wells Fargo Bank.

In 1973, he again was attracted to a banking venture and became the founding chairman of the board of American Commercial Bank of Ventura. He and a former mayor of Ventura, the late Albert Albinger, were the principal movers to create the institution, which now has branches in Downtown Ventura, on South Mills Road and on Telephone Road.

Mr. Lagomarsino was familiarly known as "Red." In his youth, he had fiery red hair; the color faded in later years, but he remained fiery by nature.

"Sure, I shoot off my mouth a lot," he once told the Star-Free Press in an interview, "but I like to let people know where I stand."

He led the opposition in the 1970s against relocation of the County Courthouse from Downtown Ventura to the 80-acre tract that had been acquired at Victoria Avenue and Telephone Road. For the county government headquarters to move away would mean the death of Downtown, he feared, and he owned many parcels of property there. In later years, he somewhat grudgingly approved the Downtown renewal programs.

Although he was acclaimed as one of the county's wealthiest personages, Mr. Lagomarsino rarely relaxed from the day-to-day responsibilities of running his business. And while he was prideful of his son Bob's success in politics—as mayor of Ojai, state senator and U.S. congressman—he abstained almost totally from political activity.

"I don't interfere with Bob and he doesn't interfere with me," he once said in an interview.

He was a former Ventura planning commissioner, a director of California Mission Trails and had been active in support of Villanova School and St. Joseph's Convalescent Hospital of Ojai. He also was a director of the Constitution Life Insurance Co. of America.

Besides his wife, sons and daughter, he is survived by a sister, Nilda Lagomarsino of Ventura; 10 grandchildren; and seven great-grandchildren. Besides his brothers, a sister, Delvina Medley, preceded him in death. All of the family have their lifetime roots in Ventura.

Following today's private family mass at Our Lady of the Assumption Church, with Monsignor Donald Mulcahy officiating, burial was in the family plot at Ivy Lawn Cemetery, Ventura, under direction of Ted Mayr Funeral Home.

Rep. Lagomarsino, who was originally assigned to be a witness at Sunday's general election in Guatemala, was to return to Washington later in the day.

TRIBUTE TO TOMMY WINEBRENNER

HON. PETER W. RODINO, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 11, 1985

Mr. RODINO. Mr. Speaker, I want to join my fellow Members in their tribute to Tommy Winebrenner, a gentleman who has looked after the interests of all Members. Tommy brought professionalism to the House floor in his handling of legislation from both sides of the House.

Tommy always knew what was going on or not going on in the House. He lent assistance to the rookies and took care of the senior Members when they needed to know the details of floor actions. He is an outstanding example of a dedicated public servant in "the people's House."

Tommy has been in the House for the past 30 years and has held the position of minority doorkeeper for the last 10. He is almost an inspiration up here on the Hill and we hate to see him leave. I would like to wish him the best of fortune in his new career and know that he will always be remembered here on the House floor.

SID YATES HONORED BY THE UNIVERSITY OF CHICAGO ALUMNI ASSOCIATION

HON. WILLIAM LEHMAN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LEHMAN of Florida. Mr. Speaker, recently our colleague SID YATES received another honor to add to the many he has gained since he was first elected to this House in 1948. In June, the Alumni Association of the University of Chicago awarded him its 1985 Alumni Medal. I would like to share with our colleagues the article from the fall 1985 issue of the University of Chicago magazine that discussed the award and its distinguished recipient. Mr. Speaker, the article follows:

ALUMNI MEDAL TO CONGRESSMAN YATES

"Life is strange," said Rep. Sidney R. Yates, PhB'31, JD'33, upon his receipt of the Alumni Association's 1985 Alumni Medal. "I had no inkling when I was on campus that I would wind up in Congress as my life's work. As a matter of fact, running for the House every two years, I'm kind of surprised that it turned out to be my life's work." Yates was one of seven alumni and ten graduating seniors on whom the Alumni Association bestowed awards at its annual assembly on June 1, Reunion Day, in the Oriental Institute's Breasted Hall.

Yates, a former assistant attorney general in Illinois, turned to politics in 1948. "I was trained as a lawyer and practiced for a while, but I never really enjoyed the practice," said Yates. "When I returned from service in the Navy in World War II, I looked around for a new way of life and decided I wanted to go to Congress. And thereby hangs a tale, for in Chicago—politics being what it is—the wish may be father to the thought but it's a long way from the thought to its realization."

In 1948 Democrats in the Illinois ninth Congressional District, which in a brief span of eight years had swung from Republican to Democrat and back again, were faced with the "monumental task" of defeating an incumbent Republican. Though Yates asked for the nomination ("In retrospect, I'm really surprised by my chutzpah," he told his audience) the district's ward committeemen decided, instead, on a candidate of German descent. As the year wore on and President Harry Truman's prospects for reelection seemed to plunge, the German candidate grew nervous. When the postmaster of Chicago died unexpectedly the candidate managed to be appointed in his place. And with six weeks to go Yates agreed to run for the House seat.

"The result is history," said Yates. "Today when young people ask me how to be elected to political office, I tell them to do what I did: find a ticket on which Harry Truman is running for president, Adlai Stevenson the elder is running for governor, and Paul Douglas is a candidate for the Senate. With such a ticket, one can be elected."

Yates' congressional career was interrupted in 1962 when he ran unsuccessfully for the Senate; the following year he was appointed ambassador to the United Nations on the Trusteeship Council by the late President John F. Kennedy. In 1964 Yates was re-elected to his former seat in the House, a position that he continues to hold today. In Congress he is perhaps best known for his role as chairman of the Subcommittee for the Department of the Interior and Related Agencies, which oversees funding for, among other federal agencies, the Smithsonian Institution and the National Foundation on the Arts and the Humanities. He is a senior member of the House Appropriations Committee, a member of the Foreign Operations Subcommittee, the Commission on Security and Cooperation in Europe, also known as the Helsinki Commission, and a congressional representative to the U.S. Holocaust Memorial Council.

In accepting the Alumni Medal, Yates credited the University for his political longevity. "The professors, the students, the activities, the athletic teams, the classes, the clash of ideas—the total ambience—fashioned my philosophy and my vision of America in a way that found favor in the political arena," he said. "I came out of the University a liberal Democrat and I remain one today. Some of my Democratic brethren are looking for a more attractive ship to board, but they haven't found any yet. As for me, I like the ship I'm on."

TRIBUTE TO A MEMBER OF THE 101ST AIRBORNE DIVISION

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LEVIN of Michigan. The tragedy that struck so many families in our Nation was felt in my district in Michigan. Private Ricardo Guerra perished with his comrades last week in the air disaster which ended the lives of those members of the 101st who were on their way home to share the holiday season with their loved ones.

Rick Guerra was a resident of the city of Ferndale. He graduated from Ferndale High School in 1979 and attended Oakland Community College before entering the Army. Rick was an enthusiastic soldier who found his duties as a member of the international peace-keeping force fulfilling. His family and friends in the Ferndale community will miss him.

All of us who live in the 17th District of Michigan share the loss of Private Guerra and all of the other men and women who so proudly served as members of the famous 101st Airborne. Their loss is one that will be especially remembered as the holidays approach for many years to come. We will all recall the tragedy at Gander International Airport in the Newfoundland snows and keep the memory of these fallen soldiers in our minds and in our hearts.

IMPACT OF TAX REFORM ON STATE HOUSING PROGRAMS

HON. NICK JOE RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. RAHALL. Mr. Speaker, I am greatly concerned over two provisions of H.R. 3838, the tax reform bill, which in their present form may undermine the ability of States to finance housing programs, many of which are intended to aid low-income households and moderate-income first-time home buyers. The first of these provisions deals with the volume cap that would be imposed on a State's ability to issue tax-exempt bonds, while the second would impose stricter limitations on the use of mortgage revenue bonds.

Under the tax bill, a volume cap would be placed on the amount of tax-exempt bonds State and local governments may issue, while other restrictions on equity incentive provisions would be imposed as well. This volume cap would effectively limit the ability of States, including my home State of West Virginia, to issue tax-exempt bonds required to provide financing for their various housing programs. The West Virginia Housing Development Fund informs me that under H.R. 3838 their bond distributions would be so substantially reduced that virtually all such financing could be directed toward housing repair—to restore areas devastated by floods in both 1983 and this year—with little available for other equally necessary projects.

States must be allowed to issue bonds in a reasponsible manner, and above all, in the volume necessary to meet their respective needs. This basic premise is undermined by other limitations under the tax bill which would restrict the use of mortgage revenue bonds. The restrictions imposed may be so severe as to preclude their use in my State. The income and other targeting provisions involved are equally restrictive, acting effectively to eliminate the functioning of the vitally important housing programs toward which they are directed.

Mr. Speaker, I remain committed to modifying these provisions of the tax bill as congressional deliberations on tax reform continue.

HIGH TECH IN STEEL

HON. DOUG WALGREN

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. WALGREN. Mr. Speaker, recently at my request, the House congressional steel caucus hosted a hearing on high technology in the steel industry. Many of us from steel-producing regions of the country believe that the health of the steel industry in the future depends very much on our ability to promote research and development at the highest levels for this industry.

Two of the witnesses come from my home area of Pittsburgh, and I have attached their remarks for the review of my colleagues. Dr. Richard K. Pitler is senior vice president for the Allegheny Ludlum Steel Corp. Dr. R.J. Fruehan is a Carnegie-Mellon University professor and director of CMU's Center for Iron and Steel Research.

I applaud their leadership in focusing attention on the importance of research and development in our steel industry.

REMARKS OF RICHARD K. PITLER FOR THE SPECIALTY STEEL INDUSTRY OF THE UNITED STATES BEFORE THE CONGRESSIONAL STEEL CAUCUS

Mr. Chairman and Members of the Congressional Steel Caucus:

I am Richard K. Pitler, senior vice president technical director of Allegheny Ludlum Steel Corporation.

I appreciate the opportunity to talk to you this morning about research and development in behalf of the specialty steel industry. Since time is limited, I will touch only briefly on the record of the industry, current status of R&D, and the future for research and development in the industry.

Let me take a moment to define what we mean by specialty steels. I mean those materials which are broadly defined as stainless and corrosion-resistant alloys; tool and high speed steels; high-strength alloys; heat-resistant alloys, such as the superalloys; electrical steels for transformers and motors; and magnetic and controlled-expansion alloys used in electronics.

In short, specialty steels are the materials without which no modern economy and no modern defense system can function.

The state of technology in the specialty steel industry in this country is acknowledged even by our overseas competitors to be superior or fully equal to that of any offshore competitor. This view is confirmed by a number of studies by the Office of Technology Assessment, Commerce Department, and—most recently—the National Academy of Engineering.

The current advanced state of technology in the industry is a direct result of our long and continuous research-and-development efforts. Some examples of fruits of past R&D follow.

1. The use of argon/oxygen decarburization or vaccum oxygen decarburization for the production of most stainless and other specialty steels.

2. The almost exclusive use of continuous casting to produce stainless corrosion-resistant and some electrical steels. Almost all stainless steels for flat-rolled product are now continuously cast, and some companies have achieved continuous-casting ratios of 90 to 100 percent. Stainless billets also are being continuously cast—with continuous-casting ratios on the order of 30 to 50 percent.

3. The development and use of vacuum induction melting, vacuum arc remelting and electroslag remelting techniques for special-purpose alloys for high-technology applications. These techniques are used in superalloys for gas turbine engines, special tool steels, and some electrical alloys.

4. The development of powder techniques applied to superalloys and tool steels.

5. The use of new forging techniques for some of the superalloys and other special alloys, such as using large GFM forging machine.

6. The installation of modern computer-controlled gage-control systems on both flat-rolling and bar mills.

7. The development and use of new descaling systems that allow lower acid usage and minimize environmental problems with waste-water treatments.

These kinds of process-technology developments, which produce more uniform products more reliably, are continuing today. There is going on in the industry a major effort in the area of process control. This means the integration of sensors, computers, computer networks and manufacturing facilities to produce manufacturing systems which will improve productivity; improve product quality, uniformity, and reliability; reduce energy consumption; and improve yields. These efforts will enhance our ability to use statistical quality-control methods in our melt shops, rolling mills, and annealing and pickling facilities. These efforts are using substantial R&D resources for development of the sensors and for development of the software that goes into the computer programs which will control our processes.

One example is the four-level hierarchical control system that my company, Allegheny Ludlum Steel Corporation, uses in its melt shops. Another example of on-going R&D in this area is the cooperative pilot program being carried out by industry and Government at the Cytemp Specialty Steel Division of Cyclops Corporation to develop an automated, robotic work cell for a power-metallurgy facility. This facility has been developed to make improve superalloy "near-net shapes" through a unique method combining atmospheric-pressure consolidation followed by hot, isostatic-press consolidation. I have with me an example of the kind of part that is produced by this unique, R&D-developed power-metallurgy technique.

A further example of advanced process development being carried out by the industry is the direct casting of specialty steel strip. By this, I mean the production of a coilable, light-gage product made directly from melt. Here is a picture of the process as it's carried out in our laboratory and some stainless steel product that was cast by this process and, then, finished in our production cold-rolling operations to a light-gage product, which is being evaluated by some of our customers.

In the product area, research-and-development activities in the specialty steel industry have produced a host of new materials. There have been the superalloys for aircraft gas turbines, and, I've already mentioned that this work is continuing with the production of powder-metallurgy near-net shapes.

There is work being carried out on new intermetallic alloys for even higher temperature service. There have been developed special corrosion-resistant materials. Some are as resistant to seawater as titanium and more cost effective. These have found use in power-plant condensers and geothermal energy-generation systems. Some are being used in the new high-efficiency, home-heating furnaces where new corrosion problems have been encountered and where conventional materials are no longer adequate.

More energy-efficient electrical steels for transformers have been developed. In recent years, this development has accelerated with lighter-gage materials and laser-treatment techniques being applied to achieve even greater energy savings.

The specialty steel industry developed the low-cost stainless type 409 alloy, which helped make possible a reliable catalytic converter for automobiles. Now that manufacturers are starting to produce total exhaust systems from manifold through tailpipe out of stainless steels, the industry has developed a variety of relatively low-cost, heat-resistant, and corrosion-resistant materials—which have much better formability than the older alloys. Without improved formability, it would have been impossible to economically produce the tubular exhaust manifold which now is being specified on a number of engines and which saves weight as well as reduces exhaust emissions.

There are many, many other examples of past and present R&D results that have been implemented by the specialty steel industry in the United States. I have tired to touch on the major ones to give you the flavor, scope, and variety of the R&D that has gone, and is going, on in the industry.

It is difficult to speak about a single level of R&D expenditure in the industry since R&D expenditures vary considerably from one company to another within the specialty steel industry. However, I think we can make some general statements about the level of R&D spending. For most major producers in the industry, R&D expenditures vary from about 1½ to 2½ percent of sales. R&D expenditures for most of these companies have increased steadily over the last 5 to 10 years. However, it should be pointed out that, although R&D dollars have increased, the technical manpower supported by those dollars, unfortunately, has either remained the same or decreased. Because of inflation, more dollars are buying less effort. The net effect of this squeeze is that we have had to learn how to be more efficient in doing R&D. We are required to be more focused in the projects that we select. I believe the squeeze has reduced the number of long-term, high-risk R&D projects that we attempt while increasing the emphasis on shorter-range, quicker-payoff projects. Research and development is—after all—an investment in the future, and—like any investment—the probability of return has to be measured against the risks and availability of resources.

R&D is but one step toward a more cost-effective product for our customers. The other step required, often glossed over in public discussion, is the deployment of that R&D whether it be new technology or new equipment to produce better products. There has to be a balance between the resources we allocate to develop the new information by research and development and the resources we have available to commercially deploy in the marketplace the results of that research and development. As available resources decrease, we tend to decrease our research-and-development effort in proportion to our ability to use or deploy the results of that research-and-development effort.

Thus, I have to say that the future of R&D in the specialty steel industry is not clear. R&D has been healthy in the past. It's healthy today but there are indications that it is starting to bleed slowly. R&D is being injured, although not yet acutely or catastrophically and—perhaps—not even very visibly. Nevertheless, our ability to invest in the future is being injured.

If you're in the development business, you have to be an optimist; so, I have to say that the possibilities for the future are unlimited. However, R&D is only one part of a corporate organism. It will not be healthy unless the whole organism is healthy. That, to me, means our specialty steel companies must have an opportunity to make a profit when they are technically up to date and are effecient producers. This is the only way we will generate the resources to make investments in R&D and investments for the utilization of that R&D. This is the only route to maintaining our technical health, competitive position and favorable prospects for the rest of the 80's.

In the R&D area, I believe that Government does have a proper role in supporting fundamental studies which bear on the general needs of industry and to encourage efficient, intercompany, cooperative research

on generic problems. As an example, I mention the need for data regarding mechanical and physical properties of materials at or near the melting point. This is the kind of information that would be very useful for people trying to develop a strip casting process and, perhaps, various forms of high-temperature, powder-compaction processes. Cooperative R&D on environmental problems is another area where Government could be helpful. We need recognition by the Government that capital generation and capital availability are vital requirements for the utilization of technologies in such capital-intensive industries as ours. Technology moves quickly throughout the world today, and those with the capital to install that new technology will be those who become the technological leaders in the production of specialty steels.

In closing, may I read a description of the specialty steel industry given November 16, 1982: "The speciality steel industry is an efficient, technologically up-to-date and export-oriented branch of the steel industry. Its output is used in a wide range of demanding applications critical to an industrial economy."

These were the words of President Reagan following an in-depth, 2-year study of our industry. They were true then. They are true still. And, we and our people are determined to keep them true in the future. With your support in fostering research, in sharpening trade-law enforcement, and in strengthening our basic economy, we can succeed.

Again, let me say that I appreciate the opportunity to share some of my thoughts with you today, and I hope this brief presentation has been helpful to your understanding our specialty steel industry.

SUMMARY OF PRESENTATION TO STEEL CAUCUS

Current Status in Industry: There has been a tremendous decrease in industrial research and development in the steel industry with less than half the number of people involved as compared with only five years ago. For example, at U.S. Steel the number of people was approximately 1500 in 1975, 1000 in 1980 and only 300 in 1985 in research. In some companies the cuts have been less drastic. Long term and basic research from which new technologies involve is almost nonexistent in industry at this time.

The government has never been a major sponsor of industrial research in steelmaking. The major exception would be the DOE thin slab casting project.

The government has never been a major sponsor of industrial research in steelmaking. The major exception would be the DOE thin slab casting project.

Current Status in Universities: University research in steelmaking is extremely small compared with other areas. Five years ago, AISI sponsored about $1M in research, for 1986-87 it will only be around $400,000. N.S.F., through the Engineering Directorate, sponsors about $1M and two Industry University Cooperative Centers at $125,000 each. These figures are extremely small compared to other areas. The Materials Directorate of N.S.F. sponsors 14MRL at $1.5M each and 5 "mini centers" at $500,000. The total budget on Materials is over $100M as compared to $1M in steelmaking. The Steel Centers should receive at least $500,000 per year from N.S.F. to have a major impact. A brochure describing the Center at Carnegie-Mellon is attached.

Improvements for Industrial Research: The government should allow and sponsor collaborative research by the industry; the individual companies cannot afford the high cost of some projects and collaboration is the only way. The "steel initiative" is a good example. The committee, which I am a member of, has put together research programs that are relevant and viable. They should also help sponsor other projects, such as, the K R demonstration program out of the DOE Clean Coal program.

There are industrial collaborative research efforts which have been coordinated by AISI and CMP(EPRI). The university Centers are also a form of collaborative research. The industy should consider taking these efforts a step further and explore the possibility of a national steelmaking research center. This center would be supported by all the companies doing research on problems and processes of mutual interest. The development and organization of such a center will not be easy but it may be the best answer for the long term problem of research in the industry and the government could aid in it's development.

Improvements in University Research: In order to do any long term basic research and train the personnel for a technically advanced steel industry, the government should support more university research.

1. At least double the individual grant program at N.S.F. to $2M per year.

2. Increase the N.S.F. funding at the existing Steel (Colorado School of Mines) and Steelmaking (Carnegie-Mellon University) Centers to at least $500,000. These Centers have signficant industrial backing and input. For example, at C-MU there are fourteen member companies contributing a total of about $280,000 per year which insures the programs that are truly relevant to the industry.

3. N.S.F. should consider additional Industry-University Centers. Possible areas include casting and computer aided manufacturers.

THE PROMISE OF A FUTURE IN GUATEMALA

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. GARCIA. Mr. Speaker, the Sunday edition of the New York Times ran two excellent articles on Guatemala, a nation which recently elected its first civilian ruler in 15 years.

Today, President-elect Marco Vinicio Cerezo Arevalo of Guatemala is visiting the United States as part of a goodwill tour he is making before his January 14 inauguration. While Guatemala has had a difficult history with respect to human rights in particular, and democratic principles in general, it is important that Mr. Cerezo is given a chance to establish democracy in his country. The building of democracy is part of a process. It does not hinge on a single event. As Mr. Cerezo has so clearly stated, we too stand to loose if democracy fails in Guatemala. It is, therefore, in our interest to help him, as long as we believe in his ability to achieve democracy in Guatemala.

Mr. Cerezo has asked that we give him time. That is the least we can do for him. I commend the two New York Times articles to my colleagues.

[The New York Times, Dec. 15, 1985]

GIVE GUATEMALA A CHANCE

(By J. Michael Luhan

SAN SALVADOR.—It isn't often that we hear good news from Guatemala. But the result of the election last week are exactly that—a glimpse of what may be the first genuine democratic opening in that tortured country since the Central Intelligence Agency toppled its last legitimate Government, in 1954.

One night in 1982, I was asked as a favor to deliver some documents to a residence in Bethesda, Md. Waiting for me on the front lawn was a small, haggard-looking man clad in dirty tennis shorts and T-shirt. When I pulled up at curbside, he emerged from the darkness of the shrubbery. Taking the documents, he asked that I tell no one the location of the house, for the sake of his family's safety.

Next month, that man, Marco Vinicio Cerezo Arevalo, will become the democratically elected civilian president of Guatemala. The dramatic change in his fortunes, from the hunted prey of his right-wing enemies to their constitutional chief, is the result of his own personal courage and a complex set of fortuitous circumstances.

The opening that led to his election is a slim one, indeed, with the pressures of economic collapse and a trigger-happy Guatemalan Army ready to seal it shut again. But Guatemalans are greeting the change with considerable hope, and for that reason it deserves the support of Guatemala's democratic allies.

I spent election day in a rural farm town that traditionally had been an electoral base for the National Liberation Movement, the right-wing group that calls itself the "party of organized violence." Last week, Mr. Cerezo's Christian Democratic Party swept the district.

What made its campaign a success? My Indian friends said it was the sickening violence, directed by the army, that had turned the town into a graveyard between 1980 and 1982—violence cheered on by the National Liberation Movement and its anti-Communist pronouncements. One Indian explained: "It's better to have a lawyer than a general as president, someone who understands the laws, who respects life."

One of the most important changes will involve the large labor organization that supported Mr. Cerezo's candidacy. For the first time in decades, the labor minister, who will probably come from this organization, will not be expected to betray the labor movement, and there is hope for a progressive new labor code.

On election night, as Mr. Cerezo's 70 percent victory margin was coming into focus, a social democratic intellectual appeared on Guatemalan television and hailed the results. In April, this man was in exile. Now, he is founding a new party of the left.

In 1980, Mr. Cerezo himself astonished Guatemalans by returning from the United States. Before he left, he had decried the violence of the Guatemalan Government in a press conference in Washington. It was taken as his swan song, for he had committed the cardinal sin of Guatemalan politics—showing its dirty laundry in public. Death nearly embraced him several weeks later in Guatemala in a hail of bullets from a passing police car. He miraculously sur-

vived—and, with him, Guatemala's frail hopes for civility.

Civility is a long way off—but it is now at least a dream. The local guerrillas have proved inept at changing the status quo by force, but the military has been unable to crush them, even with 30 years of unbridled violence. The business community, a long-time ally of the violent right, has pragmatically decided that violence and corrupt dictatorship are bad for business. The businessmen played a key role in turning the generals out.

What remains is a country struggling to emerging from chaos, and numbing violence that has taken the lives of 50,000 people since 1978.

The Reagan Administration must recognize how narrow and treacherous Mr. Cerezo's path will be. Washington must not force him to entangle himself in a regional conflict. It should not press him with unneeded military aid or urge him to adopt economic policies punishing to his country's poor. Nor should it burden him with an ambassador who cares more about President Reagan's ideology than Mr. Cerezo's perilous reality.

Guatemala deserves better. President Reagan, give President Cerezo a break. Let him decide, with your faith in him and your help, what Guatemala's destiny is to be.

[The New York Times, Dec. 15, 1985]

WHEN A LANDSLIDE IS NOT A MANDATE

(By Stephen Kinzer)

GUATEMALA—Even with a landslide victory in last week's presidential election, Marco Vinicio Cerezo Arévalo must tread a fine line. He recognizes what he has called "the tremendous injustices" in Guatemala life. Yet he is also aware that his freedom to do something about them will be restricted not only by the country's faltering economy but also by the desire of some traditionally powerful people—particularly military officers, conservative businessmen and large landowners—to maintain a system that has brought them wealth and influence.

During the campaign, Mr. Cerezo carefully worded his proposals to convey a desire for change without unduly alarming his adversaries. He said, for example, that he favored "concerted development" rather than land reform, and that he would be willing to hold "conversations," but not dialogues, with Marxist insurgents. "Certain terms," he explained, "produce an emotional response in this country."

Although he will not be inaugurated for a month, Mr. Cerezo has disclosed his thinking on the critical issue of land tenure. He said he would not seek to confiscate or even to buy land from families that own huge estates, but at his first news conference as President-elect he announced a proposal that might have a similar effect: a new tax on unused land. Many wealthy owners use only part of their sprawling plantations, allowing vast areas to lie fallow. If the new Congress approves a heavy tax on such land, some owners could be forced to sell part of their holdings or allow peasants to lease them. The measure would also represent the first serious attempt in years to force landowners to pay their share of taxes, itself a radical departure in Guatemalan politics.

The proposal was the first step in what is likely to be an extended minuet between Mr. Cerezo's reformist Government and the entrenched centers of power. Guatemala's extremes of wealth and poverty are most visible in rural areas, where hundreds of thousands of workers migrate with the seasons, following the coffee and cotton harvests. In the past, landowners have opposed measures that would give peasants their own land for fear many would drop out of the migrant labor force. But experts say no substantial progress can be made against poverty as long as no land is available for the 75 percent of the population that, according to Mr. Cerezo's figures, live without access to life's basic necessities.

Several weeks before the election, Mr. Cerezo held a private meeting with some of the country's most recalcitrant businessmen and landowners. "He said he didn't like the landowners and had no use for them," said one businessman who was present. "He said he knew they felt the same way about him. But he said we all needed each other at this moment, and he appealed for an attitude of understanding."

And the new President must worry about more than the fears of the rich. He is assuming leadership of a country in which nearly half the people are illiterate and two-thirds have no access to safe drinking water. The problems of health care and housing are acute. He was elected to bring change, and many Guatemalans will be disillusioned if he moves too cautiously. "He is going to have to take the interests of the private sector into account," said Leonel Sisniega Otero, a rightist politician, "and that will undoubtedly cause problems with members of his own party."

In addition, to the needs of landless peasants, Mr. Cerezo will face rising demands from the urban poor. Many work in factories for subsistence level wages, and labor organizing has been punished with dismissal or worse. Mr. Cerezo said last week that he would allow unions to organize and would not repress strikes, both radical departures in a country where, according to Christian Democratic figures, only 211 collective bargaining agreements have been signed in 50 years.

Because salaries have been held very low despite surging inflation, some fear an outbreak of labor protests soon after the inauguration. "I hope the schoolteachers and other workers will take a reasonable attitude," the President-elect said. "They have to realize that they can't kill the goose before it starts laying eggs."

As he searched for allies, Mr. Cerezo could not help but be encouraged by the support of the man he defeated at the polls, Jorge Carpio Nicolle, whose National Union of the Center will hold the second largest bloc of votes in the new Congress. "We know that our role is to be in the vanguard of defending the new democratic system," Mr. Carpio said after conceding defeat.

The outgoing chief of State, General Oscar Mejía Victores, has also wished the civilian Government well. He says he does not object to Mr. Cerezo's plan to disband the feared Technicial Investigations Directorate, which has been accused of involvement in political kidnapping and torture. He hinted, however, that officers would continue to follow political developments with interest.

"I am not God," Mr. Cerezo warned after his victory, "and I am not going to perform miracles in this country." The new leader went on to say that he was taking at face value the army's pledges not to obstruct his Government. "If I finish my term, it will be because they obeyed," he told reporters, "and if I do not, it will be because they did not obey, in which case we will talk in Miami."

LABOR IN SOUTH AFRICA

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. RANGEL. Mr. Speaker, I rise to bring the plight of South Africa's unions to the attention of my colleagues.

The freedom of association is a privilege which many Americans take for granted. Our workers are permitted to choose whether they wish to be represented by a union, or whether they wish to maintain an open shop. This choice is made without government harassment, and is protected by Federal statute.

South African workers do not enjoy this privilege. They live in a country which officially suppresses any expression of opposition to the status quo. Black miners who are building a growing union movement are closely watched by the government, and many have been arrested for their antiapartheid sentiments. However, this National Union of Mineworkers continues to grow rapidly. As its strength grows, so does its influence. Considering that the vast majority of workers are black, it is very likely that the trade union movement will soon be at the forefront of the freedom movement.

Mr. Speaker, we must understand that freedom will come to South Africa. Time is running out for apartheid, and leaders who advocate change are being heard more and more by young activists. A truly free labor movement would be a gigantic step in the right direction. We must encourage them if we are to bring about a peaceful demise of apartheid.

I would like to submit the following article for inclusion in the CONGRESSIONAL RECORD. It was written by William Lucy, the International Secretary-Treasurer of AFSCME. I urge my colleagues to read it closely.

LINKS OF FREEDOM

(By William Lucy)

The Free South Africa Movement is making "Voodoo II"—the second term sequel of Ronald Reagan's presidency—anything but a re-run. That's bad news for the government in Pretoria, which has found refuge in the administration's southern Africa policy of "constructive engagement." It's bad news too for companies and banks that exploit cheap black labor in South Africa but say they abhor the social system of legalized discrimination that makes their fat profit margins possible. But it's good news in the townships, in the squatter camps, in the mines and in the schools of South Africa, where the institutions of apartheid are most oppressive and most despised.

Reverberations of the Free South Afica Movement have also reached the black trade unions in that county. Very appropriate, because it was the arrest and detention of twenty-one black South African trade union leaders last November that ignited the mass public demonstrations in the U.S. against both apartheid and the administration's policy in the region.

In an era of single issue campaigns, the Free South Africa Movement is not just an-

other "cause." It is a direct and creative political tactic, one rooted in the long tradition of conscientious dissent. The Free South Africa Movement has been an antidote for the state of political comatose that has threatened to seize the opponents of a teflon President. It has recruited new cadres of activists and inspired veterans in all other movements for social change in the U.S.

Perhaps the Free South Africa Movement's most valuable contribution has been to focus national and local attention on the shameless bankruptcy of American foreign policy toward people of color who are fighting for peace and their right to self determination. But once again, the administration has tried to walk away from its own policy failure, this time by closing the American liaison office in the Namibian capital of Windhoek, which was set up to monitor the South African troop withdrawal from Angola

But U.S. policy in Southern Africa is being regularly exposed to an American audience that is repulsed by what is sees as ugly flashbacks to the days of Bull Conner, to the days when black American citizens were routinely beaten, tortured, murdered, jailed and denied their civil rights. One opinion poll has found that nearly 41 million adults who know about the daily demonstrations in front of the South African embassy supported them. Divestment campaigns have mushroomed throughout the country, buoyed by this groundswell of opposition to aparthied and our own government's cozy relationship with such a racist and undemocratic regime.

This upsurge clashes with those who believe that apartheid can and is, indeed, withering away. Some paternalistically point to the alleged harm that disinvestment by U.S. companies operating in South Africa would have on black workers there. Better to rely on economic growth or the Sullivan Principles, or more unions for black workers. Better for black South African unionists and workers to stick solely to economic reform, leaving the racist social order of apartheid intact. This kind of strategy is both reactionary and untenable, and merely serves to camouflage support for an unjust and oppressive status quo. It is also being articulated at a time when black South African workers and their unions have emerged as a strategic and unified political force, one increasingly empowered to cripple or shut down the economy. The Two Day Stay Away, which was organized last November in less than a week by a coalition of trade unions, student groups and community and political groups, paralyzed South Africa's industrial heartland. This explicitly political strike drew the support of one million workers, even though union members number only about 300,000.

The working class movement in South Africa now has reached the point where black unions have grown five times more rapidly than white unions since the government was forced to offer limited recognition to black unions in 1979. The fact is that the entire South African economy would collapse if all black workers were to go on strike for about three days. The leadership role of black trade unions, therefore, is critical. It is also the reason why more than 400 black trade unionists were detained by South African authorities between 1981 and 1983.

But it is too late. Our union brothers and sisters are already clutching the jugular vein of the South African economy: the mineral-rich sector. Only seven weeks before the 5-6 November 1984 general strike, the National Union of Mineworkers (NUM) shook the industry and the government to their roots, with the first legal strike by black mineworkers in South African history. Although the strike was settled within three days—after seven miners were killed, 500 injured and mine property worth millions of dollars destroyed—the tremor remains alive.

Nearly 40 percent of South Africa's GNP is derived from foreign trade, gold accounts for about 50 percent of the nation's export earnings, and the mining sector is by far the largest single source of government tax revenues. The fact that black mineworkers' wages average only one-sixth ($160 per month) of white workers' wages may—just may—have something to do with this profit bonanza.

But then there is the other side of the ledger. The NUM, which was formed only three years ago, represented four percent of the mining workforce in 1983. Last year that percentage shot up five-fold to 20 percent of South Africa's half million black miners.

Under the banner of the Free South Africa Movement, organized labor in the U.S. will continue to step-up its anti-apartheid campaign. Since day one when this movement began, organized labor has grown with it, marched in it and celebrated each blow struck for freedom and self-determination in South Africa.

Apartheid is seen as an enemy of American workers. Strategic minerals imported from South Africa help satiate the Pentagon's nuclear weapons orgy, while social programs are strangled to death. South African steel imports have been increasing 5,000 percent in the last ten years, while hundreds of thousands of American steelworkers have been especially hard hit by apartheid exports. A major study by Steelworkers Local 65 in Chicago found that 30 percent of the white former steelworkers laid off from U.S. Steel Corporation's South Works plant in 1979 are still unemployed; among black workers the rate of joblessness is at 61 percent after five years. This tragedy is even more bitter because the South Works plant produces steel beams identical to those imported from South Africa to construct a new state building in Chicago—in their city and paid for with their state tax dollars.

Thus, as the spotlight of anti-apartheid resistance sprays out from the success of the Free South Africa Movement, the American labor community will continue to bring to light to its members the deep connections between the fight against Reagan's "constructive engagement" foreign policy and his anti-worker policies at home, and the fight for freedom and self-determination in South Africa.

Yet our responsibility is much, much greater than our economic self-interests. We must be equal to the challenge of upholding our own integrity. The ripened wisdom of the late Amilcar Cabral must serve as our mandate. It was he who said: ". . . In the modern world, to support those who are suffering and fighting for their liberation, it is not necessary to be courageous; it is enough to be honest."

NEW TRADE AGREEMENT WITH CHINA

HON. DON BONKER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. BONKER. Mr. Speaker, just over 2 years ago, I stood before this body to commend the executive branch's then-new guidelines for exports of advanced technology to the People's Republic of China. Today, I again rise to commend the executive branch for its most recent efforts to liberalize trade with the People's Republic of China. Yesterday, Secretary Baldrige announced a new multilateral agreement on exports of certain high technology exports to the People's Republic of China. After 10 months of negotiations with our allies in the Coordinating Committee on Multilateral Export Controls [Cocom], agreement has finally been reached on a new set of procedures which will eliminate multilateral and interagency review for up to 75 percent of all United States exports to the People's Republic of China.

As many Members will recall, the export control policy announced in November 1983 transferred China from a restrictive export control country group to a less restrictive group composed of other friendly, nonaligned nations, and established a three-tiered technology zone system to guide licensing decisions in seven commodity control list categories. While the 1983 policy helped to expedite United States consideration of export licenses, problems within Cocom have steadily grown, due in large part to the tremendous increase in the number of China cases. Exporters routinely experience delays in excess of 6 to 9 months, which frustrates United States businessmen and Chinese customers, hinders the growth of United States-China trade, and creates friction in United States-China relations. At a time of burgeoning trade deficits, the United States can ill afford delays in export license approvals, particularly to an export market such as China, which was worth almost $6 billion in 1985.

Confronted with these excessive delays, the Commerce Department initiated multilateral discussions in February on ways to expedite China case processing. An agreement among Cocom members was tentatively reached this fall, fully approved last week, and made effective as of December 15. The new procedures would expedite exports to the People's Republic of China by eliminating Cocom review for export licenses falling within the new technical boundaries in 27 commodity control list categories, and by requiring only postshipment notification. Among the CCL categories covered by the new agreement are computers, machine tools, fiber optics, telecommunications switching equipment, oscilliscopes, semiconductor manufacturing equipment, and electronic instruments. Commerce Department officials estimate that over 75 percent of the exports which

previously required multilateral and interagency review will now receive expedited U.S. consideration. Those applications falling within the new technical parameters should be processed by the Department of Commerce within 30 days.

The agreement requires that a Chinese end-user certificate accompany each export license application. The administration announced yesterday that the Technology Import/Export Bureau of the People's Republic of China Ministry of Foreign Economic Relations and Trade [MOFERT] will issue and validate end-user certificates, and in fact already has an end-user certificate program in place. While the new licensing procedures are effective now, a cutoff date of February 15, 1986, has been established, after which all new license applications to the People's Republic of China falling within the agreement's parameters, must be accompanied by Chinese end-user certificates. Commerce Department officials announced that export administration regulations specifying the details of the new guidelines and indicating interim procedures will be published later this week.

Mr. Speaker, I applaud the long hours of negotiations devoted to this effort by the Departments of Commerce, State, Defense, the Joint Chiefs of Staff, and others. The new Cocom agreement represents a much-needed step forward in expediting export license applications to the People's Republic of China for certain adavanced technology, while maintaining careful procedures for reviewing, and possibly denying, items which may present national security risks. I am encouraged by this new agreement, and hope that it serves as further inducement for the U.S. companies to market their products in China. I urge my colleagues to bring this new policy to the attention of their high technology constituents.

FOREIGN INVESTMENT COMPANY PROVISIONS CONTAINED IN SECTION 625 OF H.R. 3838

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. CRANE. Mr. Speaker, I would like to express my concern over the Foreign Investment Company [FIC] provisions contained in the foreign tax provisions, section 625 of H.R. 3838, the Tax Reform Act of 1985. These provisions will have potentially severe impact on the extension of U.S. business activity abroad, and can be interpreted to penalize legitimate investments abroad which do not involve abuses or evasion of taxation. Further, a number of the foreign provisions contained in H.R. 3838, including the FIC provisions, were adopted by the Ways and Means Committee with no public participation or comment. Indeed, neither the President's proposals nor the earlier Treasury Department recommendations to the President contained these provisions. Such a procedure raises important concerns about the fairness of the tax reform process not to mention the wisdom of these provisions.

Prior to September 26, when the Ways and Means Committee went into closed session, there had been no proposal to modify the current FIC provisions. However, among the options placed before the committee at that time was a drastic departure in current tax policy governing the taxation of FIC's. This change, as well as other options in the foreign tax area, was not among those changes proposed by either the President or the Treasury Department. Most importantly, this proposal was never the subject of public hearings. The Ways and Means Committee ultimately adopted this proposal in modified form.

The proposed new FIC provisions would require U.S. investors in a FIC to recognize currently their portion of the annual earnings and profits of the FIC, regardless of the fact that they have not received a dividend from the FIC and are not in a position to compel the FIC to declare a dividend. Stated differently, this proposal would radically alter current tax policy by penalizing U.S. investors for undistributed earnings and profits in situations in which they cannot, as a group, compel distributions of those profits. They are thus faced with the unwelcome prospect of paying tax on income they have not received.

The proposed FIC provisions purport to ameliorate the unfairness of this requirement by permitting payment ot tax to be deferred—provided a penalty, in the form of interest, is paid. The Ways and Means Committee itself recognized this unfairness in their report at page 409. However, the purpose of this tax reform effort was not to create unfairness and then ameliorate it, but rather, to make the tax system fairer than it was before. On this measure, alone, the changes proposed by the committee in the treatment of investments in FIC's should be rejected.

A taxpayer should not be required to pay tax on imputed income which he doesn't receive and which he couldn't compel to be paid to him. Present law concerning FIC's is premised on the concept that the U.S. taxpayer is using a foreign corporation to defer current taxation of the income from his overseas business operations. Accordingly, it is appropriate to tax such deferred income as though it were constructively received as dividends, on the theory that the taxpayer could have compelled the payment of dividends and, instead, used his control over the foreign corporation to avoid such payment.

However, where the U.S. taxpayer does not have, either alone or with other U.S. taxpayers, the ability to compel dividend payments, it is fundamentally inequitable to, in effect, penalize him for not doing something he cannot do, that is compel dividend payments. The taxpayer is forced to pay tax without the ability to compel the income with which to pay the tax, thus violating the ability to pay principle.

Congress wrestled with this problem when it drafted the current subpart F rules in 1961 and 1962. The Treasury Department initially proposed that U.S. shareholders of foreign corporations be taxed currently on undistributed earnings of foreign corporations, regardless of the extent of U.S. ownership. The Committee on Ways and Means rejected this approach as overreaching. An important memorandum prepared by the staff of the Joint Committee on Taxation for members of the Ways and Means Committee on this fundamental question noted that such a proposal raises certain basic questions as to whether or not the shareholder has income within the meaning of the 16th amendment when he has received nothing and does not have the right and power to demand payment.[1]

The staff memorandum concluded that there was serious constitutional problems with the proposal and, accordingly, adopted the view that only if the U.S. shareholders possessed the power to declare a dividend would there be any basis for taxing them on undistributed income of a foreign corporation. The FIC provisions as enacted, and as contained in present law, reflect this conclusion and subject the taxpayer to dividend taxation only where the shareholders who are U.S. taxpayers have the power to require payment of dividends via ownership of at least 50 percent control of the FIC.

The proposed FIC provisions would violate the long standing ability to pay principle and would raise the same constitutional issues today as in 1961 and 1962. Accordingly, this aspect of the proposed provisions needs to be explored thoroughly before any precipitate action is taken in the name of tax reform, especially where such reform might be unconstitutional.

Nevertheless, this proposal has never been publicly examined or discussed during the process of tax reform. When the Committee on Ways and Means held hearings on proposals to reform the foreign tax provisions of the Code on July 11 and 12, 1985, none of the testimony given, or the statements presented to the committee, touched on this proposal. There was no reason to, inasmuch as no one, including the Ways and Means Committee itself, has been apprised of this tax reform. Accordingly, though it would appear that major initiatives to sell U.S. financial services abroad would be severely compromised by this proposal, there was no opportunity for the committee to develop facts to support the proposed change. Simply put, this proposal may have negative impacts on U.S. competitiveness abroad, and be deleterious to our economy. But the committee had no way of determining such facts.

The foregoing changes in the FIC rules are radical changes in current tax policy that have not been subject to the full consideration and debate necessary to determine the wisdom of adopting them. Such full consideration is critical to effective leg-

[1] Hearings on the Tax Recommendations of the President Contained in His Message Transmitted to Congress Before the House Committee on Ways and Means, 87th Cong., 1st Sess., Vol. 1, p. 311 (1961). Hearings and the critical Joint Committee Staff memo are attached hereto.

islation, and, particularly where the tax law is concerned, is necessary to preserve public confidence in our tax system.

Clearly, this House should consider carefully whether to adopt a measure as poorly and thoughtlessly crafted as is the bill proposed by the Ways and Means Committee. It is not enough to say that such deficiencies can be cured in the Senate. It is our responsibility to accept or reject this measure as it is now, for it may well become law, notwithstanding the wisdom of our Senate colleagues.

HOUSE PASSES STRONG SUPERFUND REAUTHORIZATION

HON. JAMES T. BROYHILL

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. BROYHILL. Mr. Speaker, on Tuesday, December 10, the House moved boldly forward to ensure that the American people are protected from the dangers posed by hazardous waste dump sites. We did this by passing H.R. 2817, the Superfund Amendments of 1985, by a vote of 391 to 33. This bill, of which I was an original cosponsor, greatly expands and strengthens the Superfund Program while reauthorizing the effort for 5 years at a level of $10 billion, a six-fold increase over current levels.

Mr. Speaker, a thorough review of this legislation demonstrates why the legislation was approved so decisively by the House. H.R. 2817 creates uniform cleanup standards and places emphasis on permanent solutions to eliminate the toxic characteristics of waste. The bill allows States to impose more stringent State standards during cleanup. It also creates a workable settlement policy which will encourage private parties to step forward and clean up waste sites rather than tying the program up endlessly in the courts.

The bill expands opportunities for citizens to obtain technical information about site health risks and response action plans, to participate in the decisionmaking process, and to challenge certain EPA decisions regarding cleanup plans. Furthermore, it establishes a program and fund to address leaking underground storage tanks. Finally, the bill establishes a new and effective program to ensure that our citizens are aware of the presence of dangerous chemicals in their communities and the hazards associated with those chemicals, as well as a program to ensure that localities can respond to chemical emergencies in a timely fashion.

Mr. Speaker, my only regret with regard to this legislation is that the House adopted an amendment offered by our colleague from Pennsylvania which would require anyone who manufactures, uses or stores chemicals to report any "release" of that chemical on an annual basis. The Administrator of EPA tells us that this amendment could force most of our small businesses, hospitals, schools and farmers to file emissions inventories, and that for most, it will be extremely difficult or impossible to do this. H.R. 2817 contains a 2-year pilot project to determine if such inventories can be compiled efficiently and to determine if there would be a commensurate benefit. We should wait for the results of this pilot project before we impose such a requirement on our Nation's small businesses. It is my hope that this amendment will be altered in the House-Senate conference on Superfund.

Regardless of this, Mr. Speaker, I believe that the House has passed a comprehensive Superfund reauthorization bill that strengthens our Nation's program to clean up hazardous waste dump sites. I hope that we can move quickly to conference with the Senate and place a bill on the President's desk as soon as possible.

CREATION OF INTERNATIONAL LAW COMMISSION

HON. MARVIN LEATH

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LEATH of Texas. Mr. Speaker, last week amid all the furor of the Congress seeking to finish business and recess, a little-noticed event occurred which should be brought to the attention of my colleagues. A distinguished group of international legal specialists announced here in Washington the creation of an Independent Commission on Respect for International Law to monitor the actions of relevant governments regarding the rule of law. Under the leadership of Dr. Burns Weston of the University of Iowa and with such eminent legal scholars as our former colleague Father Robert F. Drinan of Georgetown University and Richard A. Falk of Princeton University, the new Commission is well qualified to examine international relations from an international law perspective and help to clarify these issues for the public in the United States and abroad.

I believe that the two most fundamental issues of world politics today are, in the first instance, how we contain and constrain weapons of mass destruction, and in the second, how we can best advance the rule of law. It is my hope that the formation of the Independent Commission on International Law will play a key role in the achievement of this second objective.

TURKEY AND FRESNO STATE

HON. RICHARD H. LEHMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LEHMAN of California. Mr. Speaker, I would like to share with the House of Representatives this commendable editorial from the McClatchy News Service which publishes three California newspapers, the Fresno Bee, Modesto Bee, and Sacramento Bee. The comments expressed in this editorial shed light on the discriminating and misconstrued attacks against the Armenian community by Turks committed to bury the issue of the Armenian Genocide—forever.

TURKEY AND FRESNO STATE

The siege mentality of the Turkish government on the subject of the massacres of Armenians during World War I was detailed faithfully in an article about Fresno State University in a mass-circulation Istanbul newspaper.

The article, as reported in The Bee, accused Gov. Deukmejian of "introducing Armenian terrorism in universities." Exhibit A was Fresno State's Armenian studies program, in which Professor Dickran Kouymjian, according to the Turkish newspaper, "speaks about Armenian rights and tries to justify the murder of Turkish diplomats by Armenian terrorist organizations." There was more, all of it unfair and distorted.

The question was raised whether The Bee should have carried news about such a mendacious article, thereby perhaps enhancing its impact. However, the report, carried in Turkey's largest daily, is worth review and comment for two reasons:

First, it gives discouraging proof of the lasting power of the official Turkish line on the massacres—the revisionist history that rejects the whole idea that calculated massacres occurred, and claims that efforts by Armenians around the world to keep the memory green are provocative and vengeful.

It's the same defensive that the U.S. State Department panders to by opposing attempts to memorialize the massacres by congressional resolution.

The rationale is that we shouldn't ruffle our Turkish allies by reminding them of an unpleasant episode from that nation's past. This official Turkish failure to acknowledge what is demonstrably true compounds the anguish of those who remember, and their descendants.

The acts of a murderous few who invoke the grievances of Armenians give the Turkish government an excuse for claiming that all references to the massacres and the need for remembrance just give terror a protective cloak.

That a major organ of Turksh news and opinion is singling out Fresno State while peddling this line is disheartening and outrageous, but it's worth knowing about.

Which brings up the second point. The newspaper's accusation underlines how the terrorist fringe holds Armenians hostage. All but a handful reject violence unequivocally; they just want the redress of remembrance. Yet the chance of Turkey's setting the record straight, slight as it may be, is diminished further each time the killers kill and Turkish paranoia grows.

So what are Armenians in the disaspora to do? They can't be immobilized by the terror, they can't retreat to muteness about the need for remembrance. Academics like Kouymjian should not be intimidated: They have a right to explore all aspects of Armenian-Turkish relations, including the roots of violence.

The only response is to continue to call for what's right—but at the same time to condemn violence clearly and repeatedly and to isolate the killers in every way possible. Some members of the Armenian community find this insulting and gratuitous: Why should they have to keep declaring that good ends don't justify violent means?

It's hard to answer that. But it's one of the pernicious effects of terrorism—good people who may share some of the terrorists' stated goals have to keep taking their

distance from any evil that is done to achieve those goals.

TRANE CO. TO PRODUCE A NEW STATE OF THE ART LINE OF AIR-CONDITIONERS IN TYLER, TX

HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. HALL of Texas. Mr. Speaker, at this time when new technology is needed to bolster the economy, the Trane Co. a leading supplier of air-condition products, will spend more than $43 million over the next 2 years to develop and manufacture a new line of residential central air-conditioning products at their Tyler, TX, facility; $36 million will go toward the purchase of high-technology, state-of-the-art production equipment for improved design and manufacture of compressors and cabinet configuration for the new product line and more than $7 million will be spent for engineering design and development and on a marketing introduction plan for the new line of products.

This project, called BolDesign, will introduce into the marketplace a totally new line of residential central air-conditioners ranging from 1 through 6 tons of capacity. Advantages of the BolDesign are improved design standardization, faster turnaround of inventories, shorter engineering redesign time and greater ease of servicing Trane products.

If we are going to address the deficit constructively, we have to do it through productivity. I laud the efforts of the Trane Co. in Tyler. TX, and look forward to a successful operation.

AN EXTRAORDINARY ACT OF HEROISM

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. LANTOS. Mr. Speaker, I would like to bring to the attention of my colleagues an act of extraordinary heroism—one man's fight against violence and desecration of religious buildings and sacred objects.

On Saturday December 7, Buzz Cody, the 55-year-old sexton of Congregation Emanu-El B'Ne Jeshurun in Milwaukee, was beaten and burned with a caustic chemical after he refused to turn over the temple's holy scrolls to three vicious hoodlums.

This brave and extraordinary man now lies in a hospital suffering from second-degree burns, which he received when he was assaulted by these vandals. Buzz Cody refused to comply with the assailants demand that he open the holy ark where the sacred Torahs were kept. The terrorists punched, kicked and burned him, cut him on one hand with a sharp instrument, tied and gagged him and then dragged him into a storage room. He was found there by a janitor many hours later.

The Rabbi of the synagogue, Rabbi Francis Barry Sillberg, described Buzz Cody's amazing courage: "He (Buzz Cody) was willing to sacrifice himself for his duty. This is an extraordinary, noble thing. In my view this is the supreme sacrifice a human being can make, to refuse to allow the scrolls of the Torah or any sacred object to be desecrated."

Mr. Speaker, all of us who are concerned with freedom of religious belief can never condone such examples of bigotry, intollerance, and violence. Mr. Cody risked his life to preserve these religious objects. Men of such courage are too rare today. I am certain that my colleagues in this House share my outrage at such appalling acts of religious intolerance and vandalism. And I am equally certain that they join me in praising and commending the courage and bravery of Buzz Cody.

TRIBUTE TO WILLIAM H. VILLINES, JR.

HON. CARROLL HUBBARD, JR.

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. HUBBARD. Mr. Speaker, today I would like to pay tribute to William H. Villines, Jr., of Benton KY, who died Wednesday, December 4, 1985, at the age of 66 years.

"Keg" Villines was a longtime, close friend of mine and was indeed a dear friend to many in western Kentucky. A retired electrician and a veteran of World War II, he was a very active member of several organizations throughout western Kentucky, including the Symsonia Masonic Lodge No. 917, the Scottish and York rites, Rizpah Shrine Temple of Madisonville, Veterans of Foreign Wars Post No. 5484 in Providence, and the Benton Veterans of Foreign Wars Post.

"Keg" Villines was very helpful to me in my campaigns for State senator in Kentucky and for the U.S. House of Representatives.

He is survived by his wife, Mrs. Virginia Villines; a daughter, Barbara Blagg of Benton; four sons, Chris Villines, the mayor Providence, KY., Herbie K. Villines of Alameda, CA, Wiliam H. Vilines III of Benton, and Roy H. Villines of Norris City, IL, a brother, Melvin Villines of Gilbertsville, KY.; four sisters, Watseka Archibald of Middletown, KY., Nevelyn Fritz of Providence, KY., Roberta Johnson of Evansville, ID, and Sue Villines of Henderson, KY., and seven grandchildren.

I join with the many friends of this outstanding Kentuckian in extending my sympathy to the family of William H. Villines, Jr.

A LOOK AT PRESIDENT ALFONSIN

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 17, 1985

Mr. GARCIA. Mr. Speaker, on Sunday, the New York Times Magazine ran a story on President Raul Alfonsin of Argentina. Since taking office, President Alfonsin and his government have stood as symbols of the democratic renaissance of Latin America.

He has successfully brought to trial former military leaders in his country. He is making a concerted effort to deal with his nation's considerable economic problems. But perhaps most important, he is working to institutionalize democracy in Argentina. This is no small feat when one considers the state of affairs in Argentina a few short years ago.

I am submitting the Times Magazine article for the RECORD.

ALFONSIN'S ONE-MAN SHOW

(By Lydia Chavez)

One recent morning, President Raul Alfonsin of Argentina sat in a cramped, book-lined study at the 93-acre presidential compound in a suburb of Buenos Aires to talk about his first two years in office. The 58-year-old leader was thinner and more relaxed than he was a year ago. Up at 7 A.M., he had already read the newspapers and held a long meeting with Dante Caputo, his Foreign Minister. Technicians worked outside setting up cameras for the arrival of some foreign guests. Mr. Alfonsin, who answers questions briefly rather than taking the opportunity to launch into a monologue, was unruffled by the activity. He spoke in the soft tone of his provincial hometown of Chascomus, rather than in the harsh, distinct accent of the capital with which most Argentines speak.

One of the more difficult moments of his presidency, he said, occurred last spring, when he spoke before 140,000 people in the Plaza de Mayo. I had a vivid memory of that evening. The crowd waved banners and chanted "Alfonsin, Alfonsin." The air smelled of barbecued sausage. The political banter was friendly, relaxed. Argentines were comfortable with being "called to the plaza." The rectangular park of green lawns in front of the pink granite presidential palace—the Casa Rosada—is the place where dictators and tyrants as well as elected civilians have all promised to take care of the people, to give them jobs.

Mr. Alfonsin appeared on the balcony. His dark suit fit badly. The usual bags under his eyes were particulary prominent. He started slowly, but picked up speed. His hands pounded the air for emphasis. The scene was so familiar that it took a moment for the crowd to comprehend what he was saying. When it did, people booed.

Instead of promising jobs, as so many before him had done, the President talked for 45 minutes about suffering, no growth and less public spending. The crowd was stunned.

"It was a difficult speech," Mr. Alfonsin acknowledged as I recalled the tension. "Especially because I was harassed. I believe that what people expect from me is sinceri-

ty, that I tell them what I think, that I do not cheat them. Therefore, there might have been some confusion that night, but then they analyzed and saw that the President does not fail them, that he really tells them what he thinks."

Mr. Alfonsin's first 24 months in office have been the most turbulent early term of office experienced by any of the many new Latin American presidents who have led their countries into democracy during the 1980's. Twice, he has gone on nationwide television to warn coup plotters against conspiring to destabilize his Government. In the last four decades, Argentine civilian presidents have been able to hold onto office for only half the six-year term. Generally, the military returned during an economic crisis. Perhaps Mr. Alfonsin's greatest advantage over his civilian predecessors is that never before in the country's history has the military been so discredited.

Mr. Alfonsin, who, according to his aides, runs basically a one-man show, has before him the daunting tasks of reversing four decades of economic instability and winning the military's backing. For now, the economic crisis has subsided, but it has done so before, only to explode again. As he searches for a long-term solution to inflation, Mr. Alfonsin must modernize the military's role. The armed forces must be brought under the wing of the new democracy—not allowed to regain its historical prestige as the alternative government. So far, Mr. Alfonsin has confronted the economic crisis by leaving the solution to his able ministers and then backing them with all the weight of his popularity. He has managed the military by asserting his control. He has yet to confront the larger issue of making the country's 80,000 troops contented participants in the new democracy.

The speech in the Plaza de Mayo was a dramatic break with the past; it was an end to the days when the Government meant secure jobs. It also represented a sharp reversal from Mr. Alfonsin's own early promises and dreams as a candidate and first-year President. Then, he vowed to improve wages and generate growth; to bring this once rich country of 30 million people out of nearly a decade of nightmarish military rule and into a democracy rich with material as well as spiritual promise.

Many times during his first two years Mr. Alfonsin's dreams have confronted an inhospitable reality. At times his response has been belated, confused or even reactionary, reaching back to the legal traditions of despots. It has never been weak. When the military refused private courts-martial for leaders, the case went to a civilian court and a public trial. When inflation raged at more than 1,000 percent, the civilian leader clamped on wage and price controls and pledged on nationwide television what no Argentine President had ever dared to promise: the Government would no longer print money unbacked by revenues. When a wave of terrorism seemed to be gaining force, he risked international criticism and imposed a state of siege.

"When he comes to terms with something, he does it," said Jacobo Timerman, the newspaper editor.

Argentina's natural resources rival those of most developed countries, and its population is highly educated, compared with other Latin American countries. Yet despite these riches, it has been more than 50 years since it has fulfilled its promise of enjoying one of the world's highest living standards. As Marcelo E. Aftalión, a sociologist and lawyer, said in an interview, the country's great natural wealth has been more of a hindrance than a help. Argentines always know they can count on the nation's rich farmland to bail them out of a crisis, he said.

Argentine history focuses on personalities and events, rather than traditions, laws or ideas. It is propelled by dramatic emotional swings. It is broadly viewed as the "Europe" of Latin America, but it is in fact not much more stable than its remote, backward northern neighbor, Bolivia. Examples of the country's emotionalism abound. When the military Government invaded the Falkland Islands in 1982, the country cheered wildly. Little more than three months later, Argentines turned against the war. Their new animosity seemed to spread like a brush fire, sociologists said. "We are led quickly from enthusiasm to disappointments because neither if founded in reason," Mr. Aftalión said. "People here believe more in magic than in reason."

The writer V.S. Naipaul has said that "Argentine political life is like the life of an ant community or an African forest tribe: full of events, full of crisis and deaths, but life is always cyclical, and the year ends as it begins."

Mr. Alfonsin, a country lawyer from the small town of Chascomus; 70 miles east of the capital, has been a master at harnessing and containing that emotionalism to lead a populist bandwagon in directions his countryment never imagined. A member of Congress, he rose to office at a time when Argentina was ready for change. The grim details of the armed forces' campaign against a group of urban guerrillas were just beginning to emerge. The debacle of the military's 1982 decision to invade the Falklands—a decision Mr. Alfonsin questioned—had left it without the authority or money to govern.

Mr. Alfonsin's credentials as a new type of leader were impeccable. He had risked his life by investigating the disappearance of many citizens. As a candidate, he boldly attacked the Peronist leaders, whose party had not lost an election in four decades, charging that they were making a pact with the military to assure their election.

Many of his early presidential speeches played to the Argentine ego and the working-class ear. The former military rulers would be tried, wages would rise, the foreign debt would be paid on easier terms, and the country's foreign policy would be sympathetic to others seeking liberation. In the last two years, however, the civilian leader has tamed and changed the aspirations of the Argentines. Instead of leading a debtors' cartel, as American bankers feared, the Argentines are one of the major debtors in compliance with their International Monetary Fund accord. Instead of barring foreign investment, Mr. Alfonsin welcomes it. Instead of criticizing American foreign policy in Nicaragua, the Argentines are taking a second look at their own.

With the breathing space in the economic crisis assured by Mr. Alfonsin's tactics, the President's mind, his aides say, is now preoccupied by the military. The dishonored men he followed into office, a Western diplomat said, have turned into Mr. Alfonsin's most vexing problem.

On the one hand, Mr. Alfonsin said, the military's former leaders and some of its active officers must be punished for the counterinsurgency campaign in the late 1970's that wiped out the guerrilla threat but resulted in the deaths of more than 9,000 innocent civilians, including women and children. At the same time, the military must be won over, or at least controlled. Without its cooperation, Mr. Alfonsin's Government, like six others in the last 30 years, could be ousted. "We have to realize that to make the country we want, we have to count on the military," he said. "What we have to put an end to are the differences that make no sense." So far, however, he has been unable to mend those differences.

Mr. Alfonsin has managed the military primarily by cracking down on any signs of discontent or insubordination. He began his term hoping the military would try itself. When it refused, the case passed to the civilian courts. In a 20-week public trial this year, the testimony detailed how army posts became torture centers, how pregnant women were killed, how children disappeared. The Government has stressed that nine former officers are on trial, not the institution, but the distinction blurred to anyone listening to the testimony and reading the newspapers and magazines. The military's reaction was to unite.

Mr. Alfonsin says now: "We could have [illegible] up all this if what we had planned had been accomplished. In no way is it a trial of the institution, but I suppose there has to be some sort of spiritual pressure."

The President lacks rapport with the country's officers. A high-ranking official from the Defense Ministry described it as "an institutional relationship." Mr. Alfonsin has purged the high command three times in the last two years, and cut their budget by 35 percent. Most of the officers have nothing to do, said one retired captain. These budget cuts, as well as the country's attacks on the military's human-rights record, have strengthened the institution's unity, said Andres Fontana, who studies the military for the Center for the Study of State and Society. But it has not made the military feel very good about democracy.

Dante Giadone, who advised Mr. Alfonsin on the military during his first year in office, said the President was reluctant to enforce any dramatic reforms at the beginning of his term.

"Civilians have an exaggerated sense of the military's power," he said. "It is just an institution, but Alfonsin wanted to wait. He could be right, because he has this political smell, this sense of when it is right to do something."

Mr. Alfonsin has been guided by this political sense to take actions that appear undemocratic. When the public trials of nine former military rulers ended in October, Buenos Aires became engulfed in a wave of bomb threats and explosions. Government officials immediately suspected the military. Mr. Alfonsin, wanting to act quickly, arrested six officers and six civilians. When legal complications arose, he declared a state of siege to keep them in custody. Foreign diplomats worried about the reaction abroad. At home, the support for the beleaguered President was overwhelming. Few people, and no human-rights groups, questioned whether those arrested were guilty. The evidence against some of them, according to Government officials, amounted to incriminating telephone conversations. A further investigation has yet to turn up enough evidence to press charges.

But the arrests produced the desired effect. The nearly daily bomb incidents, which actually increased after the state of siege was imposed, have diminished. The front pages of the newspaper are no longer filled with stories about hundreds of school-

children being evacuated because of bomb threats. Already, the Government is more relaxed, and there is little chance the state of siege will be extended beyond this month.

The President and his aides hope the tension with the military will ease after the trial of their former leaders has ended and the verdicts are announced. Five of the former military leaders—including the three Presidents—could be sentenced to long terms. Harsh sentences are also predicted for the commanders who are being court-martialed for the disastrous 1982 war with Britain. The verdicts in both trials are expected before the end of this year. Even after the shock of these trials is over, however, the military will continue to be under legal scrutiny. More than 1,700 cases are pending against other officers.

Although the President's public speeches talk more about reconciliation, human-rights groups are pressing for the trials to continue. Most political scientists believe the military is so discredited that it would take considerable time and a major crisis in Mr. Alfonsin's administration before the armed forces posed a serious threat. Historically, the economy has always provided the crisis. Aides say Mr. Alfonsin sensed danger last year, when the country began to spin into hyperinflation. At that time, he successfully contained the problem, but nearly every businessman and economist believes much more must be done to turn the respite into a lengthy period of stability.

Argentina's inflation rate had climbed to almost 700 percent a year by January 1985, the powerful unions were threatening strikes, and Argentine ministers were arguing over how to repay the country's $50 billion in foreign debt. The President's promise to improve the country's standard of living was impossible to fulfill: Argentina was broke. the Government was adding to the inflation, printing nearly 20 percent of its budget of $9 billion a year. As inflation sped toward 1,000 percent by last June, banks began to file for bankruptcy, and rumors of a coup spread.

All Mr. Alfonsin had done by that point was to replace his Economics Minister and old friend Bernardo Grinspun, whom bankers dreaded because of his crotchety, combative style. The new Minister was Juan V. Sourrouille, a Harvard-trained economist with a reputation as an able technocrat. Unknown to the public, Mr. Sourrouille was preparing a major economic plan. In June it was ready, Mr. Alfonsin dramatically imposed wage and price controls and halted the Government's printing presses.

Argentines fell in step so quickly that Government officials were amazed. The powerful union bosses attacked the measures, but the traditional Peronist leaders won few votes in the recent elections. Inflation has slowed dramatically, to about 2 percent a month. Mr. Alfonsin predicts inflation will settle down to 20 percent next year, the lowest since 1969. And, although the value of real wages has declined 30 percent, the measures retain broad public support.

Nearly overnight, Argentina went from being one of the most troubled of the world's debtors to one of those in the region able to make its interest payments. "Economists from all over the world come to see how we function. because they are in awe of how this is being carried through," Mr. Alfonsin said recently, obviously enjoying the country's new status.

But the serious, structural changes have yet to be made, Government officials, bankers and economists say. "So far, it is a miracle, but they are not finished," said Franco Modigliani of the Massachusetts Institute of Technology, a winner of the Nobel Memorial Prize in Economic Science, who visited Argentina recently. "They have to put an end to the wage and price freeze and find a more permanent settlement with the budget by making more permanent cuts to replace the temporary ones."

Mario S. Brodersohn, the Treasury Secretary, is adamant about making those permanent changes. The public sector, which accounts for 20 percent of all employment, will be restructured, he said, and new foreign investment will be sought. But the President has pulled back somewhat from his plans to streamline the government and to sell the companies, and this stage of reform is not progressing as rapidly as the June measures.

The President's goals of modernizing the country's industrial base with new foreign investment and restructuring the bureaucracy run up against a strong socialist tradition in the nation and in his party. Foreign investment here means Argentine products have to compete, and Argentines have a reputation for not liking to sell.

Another obstacle to the Government's plan to turn the public companies over to the private sector comes from the private sector itself, according to César Jaroslavsky, the president of the Radical bloc in the lower house. Many private companies live happily from Government contracts, he said. Businessmen here freely acknowledge that such contracts are fairly easy to get, that all it requires is to take some public employee to lunch, suggest picking up his life-insurance payment, or even giving him a salary. Argentines are accustomed to looking to the Government and their President to take care of them economically, despite the experience of the counterinsurgency period. Mr. Alfonsín's speech in the Plaza de Mayo broke with tradition, but Argentines are set in the way they perceive their Government or make their money.

In Mr. Alfonsin's Government, his aids say, there is no trio of advisers, as in Washington, that manages the administration. The two men who are most often at his side are Dante Caputo, the Foreign Minister, and José Ignacio López, a former journalist with close ties to the powerful Roman Catholic Church. There is, however, no inner circle. Mr. Alfonsin is always reaching out. "It seems like there are always at least 10 people around the President," one minister said. In a week's time, he will meet with more than 40 groups. He seems to love talking with middle-class Argentines and has a special, fatherly rapport. "He has a very personal style, people identify with him," Mr. Brodersohn said.

Mr. Alfonsin takes little time for himself, and likes to maintain a rigorous schedule, aides said. A more adventurous, less disciplined tendency, however, sometimes emerges. A lover of good food, especially desserts, he will watch his eating studiously at lunch and then splurge in the evening. He has been known to drop into an Italian restaurant near the presidential residence and order mushrooms sautéed in garlic. If he catches a group of children touring through the Casa Rosada, he will stop and chat. His rare leisure time is spent with his grandchildren.

Mr. Alfonsin used to be an avid reader, but with all the interruptions, he has since taken up watching movies on his home video set. He loves police films and comedies. One recent Saturday, after his guests had left, he stayed up until 4 A.M. watching movies.

Among well-known Argentine businessmen, it is difficult to meet one who has not talked with the President. "Every four months or so we go to see Alfonsin," said one prominent businessman. "He is very pluralistic. This is how he has gained the good will of so many of us." His personal style disarms his strongest critics. At a dinner for businessmen, one aide said, the President will ask the most hostile guest to sit next to him. After rushing through a meeting, he will take a visitor's hand in both of his and pause unhurriedly to chat. A wealthy Argentine businessman said, "You know, I wasn't one of those who voted for Mr. Alfonsin, but he has surprised me."

Most Latin officials and businessmen think nothing of keeping someone waiting for an hour, but Mr. Alfonsin detests tardiness, his aides say. He eats a light lunch, takes a quick siesta, and is back in the office by 3 p.m. Three days a week, Mr. Alfonsin works at the Casa Rosada. One minister said Mr. Alfonsin often called unexpectedly during the day to invite officials over for a chat. "He gets angry when any of us travels; he feels like we should be back here," the minister said.

If someone comes unprepared to a meeting, the President will let it be known. He listens to a multitude of advisers, then makes his decision. The President's strongest trait is an incredible will, aides and friends said. All agree that he has supreme, almost serene confidence in his own abilities. Once his mind is made up, aides say, he is anxious to get on with an announcement. Some people are frustrated by his management style, and say the Government depends too much on the President. When his attention turns from a problem, progress on finding a solution slows, a former aide said. So far, however, Mr. Alfonsin's style has appeared to work successfully.

Argentine politics have always contained a current of anti-Americanism and anti-imperialism. Argentines are sensitive about being exploited by the northern superpower. Foreign investment is viewed suspiciously. In his speeches, Mr. Alfonsin has slowly chipped away at these sentiments. He talks of respect, nonintervention and independence, but also of new possibilities with the United States. After criticizing American and European trade policies in a recent interview, Mr. Alfonsin said Argentina was unlikely to "change the philosophy" of the European Economic Community. The United States, however, better understands the need to open its markets to Argentine goods, he says. One close friend said Mr. Alfonsin admired American democracy tremendously. Aides say he is "passionate" about studying English, and when he was in the United States last year, he insisted that for his benefit his bilingual ministers speak English instead of Spanish. He is also said to be fascinated with the way in which American democracy produces leaders as different as Ronald Reagan and Jimmy Carter.

United States officials have also come to admire Mr. Alfonsin's approach to foreign policy, which is less radical than they expected. Little was known about Mr. Alfonsin when he took office, and his speeches had what American officials considered a leftist touch. He criticized the American role in Nicaragua and scolded American bankers as mercenary. Nowadays, however, the Argentines are repaying their debt and taking a

second look at Nicaragua. Although they have extended a small credit line to the Sandinista Government, and are active in the movement to seek a negotiated settlement, their support is more cautious. "We believe that now in Nicaragua a very important process will unfold whereby they will have to choose and everyone will then see what to do," Mr. Alfonsin said. "They are heading toward a constitutional reform, and if they establish a pluralistic democratic system, then we will be with them not only politically but economically. If they choose a different system, we will continue to defend the principles of self-determination and nonintervention, but we will not feel as bound in other areas.

Mr. Alfonsin has also had a profound effect on the way in which the United States Government views Latin America. American officials appreciate the risk Mr. Alfonsin took in imposing wage and price controls, and, albeit baffled by the state of siege, which would appear to undermine the image of stability being sought, they admire his political acumen in knowing that the controls would produce the desired effect. Most importantly, the United States has taken a second look at the debt problem. For the first time, Mr. Alfonsin said, American officials are seriously considering Latin America's call for debt-repayment schedules that permit growth.

Raúl Alfonsin has four more years in office. If he endures, it will be the first time a civilian Argentine President has completed a term since Peron was re-elected in 1952. The odds appear strong that he will. Political scientists are beginning to believe a new political sanity and patience is gaining strength in Argentina. They point to the recent elections as proof of that. Although Mr. Alfonsin polls favorable ratings of 73 percent, his Radical Party won only 43 percent of the vote in last month's elections. In the past, such a popular leader would insure his party a sweep, and would begin a new "movement," Hipólito Yrigoyen, the Radical President, did that in the 1920's. Mr Peron did the same in the 1940's. Until recently, the country chose between a movement or the military. The opposition political parties hardly mattered.

In the November congressional elections, however, Argentines showed restraint. They rejected making Mr. Alfonsin the leader of a new movement, as many had predicted, and instead spread their votes among the different parties. Moreover, the Peronist leaders who won were not the old-line union cronies, but the new "renovators" who preach democracy. Mr. Alfonsin dreams, he said, of successive Governments in which democracy becomes more than a notion to Argentines.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Any changes in committee scheduling will be indicated by placement of an asterisk to the left of the name of the unit conducting such meetings.

Meetings scheduled for Thursday, December 19, 1985, may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

JANUARY 28

9:30 a.m.
Governmental Affairs
Intergovernmental Relations Subcommittee
To hold oversight hearings on regulatory activities of the Office of Management and Budget.
SD-342

CANCELLATIONS

DECEMBER 19

9:30 a.m.
Labor and Human Resources
Aging Subcommittee
To hold hearings to examine the participation of older workers in the Job Training Partnership Act (P.L. 97-300).
SD-430

10:00 a.m.
Labor and Human Resources
Education, Arts, and Humanities Subcommittee
Business meeting, to resume markup of proposed legislation authorizing funds for programs of the Higher Education Act.
SD-430

HOUSE OF REPRESENTATIVES—*Thursday, December 19, 1985*

The House met at 11 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

O God, as the heavens are high above the Earth, so great is Your love to us and to all who hear Your Word. We thank You, gracious God, in all the blessings and gifts of this life, and we ask Your blessing upon this place and all who labor here. As we celebrate the joy of this holiday season our hearts are filled with gratitude for the wonders of life—for faith and friendship and family, for responsibilities and hopes, for deeds of sharing and words of comfort. May Your benediction be with the people of our land and of our world that there may be peace on Earth and good will to all. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. SOLARZ. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. Does the gentleman appreciate the fact that there are a lot of Members who would like to get home for Christmas?

Mr. SOLARZ. I appreciate that fact, Mr. Speaker, but this is for an important purpose.

The SPEAKER. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. SOLARZ. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 241, nays 130, answered "present" 4, not voting 59, as follows:

So the Journal was approved.

The result of the vote was announced as above recorded.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment bills and a concurrent resolution of the House of the following titles:

H.R. 2698. An act to designate the U.S. Courthouse in Tucson, AZ, as the "James A. Walsh United States Courthouse";

H.R. 3837. An act to extend the deadline for the submission of the initial set of sentencing guidelines by the U.S. Sentencing Commission, and for other purposes; and

H. Con. Res. 262. Concurrent resolution correcting the enrollment of House Joint Resolution 187.

The message also announced that the Senate agrees to the amendments of the House to the amendments of the Senate numbered 3, 7, and 10 to the bill (H.R. 1890) "An act to provide for an equitable waiver in the compromise and collection of Federal claims."

The message also announced that the Senate had passed a joint resolution of the following title, in which the concurrence of the House is requested:

S.J. Res. 231. Joint resolution to designate the period commencing January 1, 1986, and ending December 31, 1986, as the "Centennial Year of the Gasoline Powered Automobile."

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will not accept 1-minute speeches at this particular time.

CONFERENCE REPORT ON HOUSE JOINT RESOLUTION 465, FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 1986

Mr. WHITTEN submitted the following conference report and statement on the joint resolution (H.J. Res. 465) making further continuing appropriations for the fiscal year 1986, and for other purposes.

CONFERENCE REPORT ON HOUSE JOINT RESOLUTION 465, FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 1986

Mr. WHITTEN submitted the following conference report and statement on the concurrent resolution (H.J. Res. 465) making further continuing appropriations for the fiscal year 1986, and for other purposes:

CONFERENCE REPORT (H. REPT. 99-450)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.J. Res. 465) making further continuing appropriations for the fiscal year 1986, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 3, 5, 11, 15, 16, 27, 28, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 48, 52, 53, 54, 55, 59, 63, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 106, 116, 121, 122, and 134.

That the House recede from its disagreement to the amendments of the Senate numbered 9, 12, 17, 18, 19, 20, 21, 25, 61, 118, 119, and 120, and agree to the same.

Amendment numbered 1:

That the House recede from its disagreement to the amendment of the Senate numbered 1, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert the following:

(a) Such amounts as may be necessary for programs, projects, or activities provided for in the Agriculture, Rural Development, and Related Agencies Appropriations Act, 1986 (H.R. 3037), to the extent and in the manner provided for in the conference report and joint explanatory statement of the Committee on Conference (House Report Numbered 99-439), as filed in the House of Representatives on December 12, 1985, as if such Act had been enacted into law.

Notwithstanding any other provision of this Joint Resolution, each appropriation item in the referenced bill (H.R. 3037) made available under this subsection may be reduced by six-tenths of one percentum, if applied to every appropriation item, rounded to the nearest thousands of dollars, except for the following appropriations: Child Nutrition Programs and Special Milk Program which are true entitlements: Provided, That such reductions if made shall be applied proportionally to each program, project, and activity as set forth in the conference agreement (H. Rept. 99-439).

And the Senate agree to the same.

Amendment numbered 2:

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree to the same with an amendment, as follows:

Delete the matter proposed by the House and stricken by the Senate and delete the matter proposed by the Senate; and the Senate agree to the same.

Amendment numbered 4:

That the House recede from its disagreement to the amendment of the Senate numbered 4, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

(b) such amounts as may be necessary for programs, projects or activities provided for in the Department of Defense Appropriations Act, 1986, at a rate of operations and to the extent and in the manner provided as follows, to be effective as if it had been enacted into law as the regular appropriation Act:

An act making appropriations for the Department of Defense for the fiscal year ending September 30, 1986, and for other purposes

TITLE I

MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Army on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $21,078,169,000.

MILITARY PERSONNEL, NAVY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Navy on active duty (except members of the Reserve provided for elsewhere), midshipmen, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $15,917,144,000.

MILITARY PERSONNEL, MARINE CORPS

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Marine Corps on active duty (except members of the Reserve provided for elsewhere); and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $4,870,016,000.

MILITARY PERSONNEL, AIR FORCE

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Air Force on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $17,744,770,000.

RESERVE PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army Reserve on active duty under sections 265, 3019, and 3033 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and for members of the Reserve Officers' Training Corps, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $2,178,564,000.

RESERVE PERSONNEL, NAVY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Naval Reserve on active duty under section 265 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Reserve Officers' Training Corps, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $1,267,734,000.

RESERVE PERSONNEL, MARINE CORPS

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Marine Corps Reserve on active duty under section 265 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10,

United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Marine Corps platoon leaders class, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $272,250,000.

RESERVE PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air Force Reserve on active duty under sections 265, 8019, and 8033 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and for members of the Air Reserve Officers' Training Corps, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $584,430,000.

NATIONAL GUARD PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army National Guard while on duty under section 265, 3033, or 3496 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 672(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $3,066,568,000.

NATIONAL GUARD PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air National Guard on duty under section 265, 8033, or 8496 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 672(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $926,716,000.

TITLE II

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Army, as authorized by law; and not to exceed $12,642,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Army, and payments may be made on his certificate of necessity for confidential military purposes; $18,975,507,000, of which not less than $1,471,600,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, NAVY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Navy and the Marine Corps, as authorized by law; and not to exceed $3,787,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Navy, and payments may be made on his certificate of necessity for confidential military purposes; $24,477,071,000, of which not less than $770,000,000 shall be available only for the maintenance of real property facilities, and of which $100,000,000 shall be available only to reimburse United States Coast Guard Operating Expenses for operations and training relating to the Coast Guard's defense and military readiness missions: Provided, That of the total amount of this appropriation made available for the alteration, overhaul, and repair of naval vessels, not more than $3,650,000,000 shall be available for the performance of such work in Navy shipyards: Provided further, That from the amounts of this appropriation for the alteration, overhaul and repair of naval vessels, funds shall be available for a test program to acquire the overhaul of four or more vessels by competition between public and private shipyards. The Secretary of the Navy shall certify, prior to award of a contract under this test, that the successful bid includes comparable estimates of all direct and indirect costs for both public and private shipyards. Competition under such test program shall not be subject to section 502 of the Department of Defense Authorization Act, 1981, as amended, or Office of Management and Budget Circular A-76: Provided further, That funds herein provided shall be available for payments in support of the LEASAT program in accordance with the terms of the Aide Memoire, dated January 5, 1981: Provided further, That obligations incurred or to be incurred hereafter for termination liability and charter hire in connection with the TAKX and T-5 programs, for which the Navy has already entered into agreement for charter and time charters including conversion or construction related to such agreements or charters shall, for the purposes of title 31, United States Code, (1) in regard to and so long as the Government remains liable for termination costs, be considered as obligations in the current Operation and Maintenance, Navy, appropriation account, to be held in reserve in the event such termination liability is incurred, in an amount equal to 10 per centum of the outstanding termination liability, and (2) in regard to charter hire, be considered obligations in the Navy Industrial Fund with an amount equal to the estimated charter hire for the then current fiscal year recorded as an obligation against such fund. Obligations of the Navy under such time charters are general obligations of the United States secured by its full faith and credit.

OPERATION AND MAINTENANCE, MARINE CORPS

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Marine Corps, as authorized by law; $1,612,050,000, of which not less than $238,000,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, AIR FORCE

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Air Force, as authorized by law, including the lease and associated maintenance of replacement aircraft for the CT-39 aircraft to the same extent and manner as authorized for service contracts by section 2306(g), title 10, United States Code; and not to exceed $5,556,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Air Force, and payments may be made on his certificate of necessity for confidential military purposes; $19,536,813,000, of which not less than $1,385,000,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, DEFENSE AGENCIES

For expenses, not otherwise provided for, necessary for the operation and maintenance of activities and agencies of the Department of Defense (other than the military departments), as authorized by law; $7,432,569,000, of which not to exceed $11,117,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of Defense, and payments may be made on his certificate of necessity for confidential military purposes: Provided, That not less than $91,147,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, ARMY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Army Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $780,100,000, of which not less than $49,865,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, NAVY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Navy Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $894,950,000, of which not less than $37,100,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Marine Corps Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $57,200,000, of which not less than $2,850,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Air Force Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $902,700,000, of which not less than $22,200,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For expenses of training, organizing, and administering the Army National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facilities; hire of passenger motor vehicles; personnel services in the National Guard Bureau; travel expenses (other than mileage), as authorized by law for Army personnel on active duty, for Army National Guard division, regimental, and battalion commanders while inspecting units in compliance with National Guard regulations when specifically authorized by the Chief, National Guard Bureau; supplying and equipping the Army National Guard as authorized by law; and expenses of repair, modification, maintenance, and issue of supplies and equipment (including aircraft); $1,652,800,000, of which not less than $57,300,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For operation and maintenance of the Air National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, repair, and other necessary expenses of facilities for the training and administration of the Air National Guard, including repair of facilities, maintenance, operation, and modification of aircraft; transportation of things; hire of passenger motor vehicles; supplies, materials, and equipment, as authorized by law for the Air National Guard; and expenses incident to the maintenance and use of supplies, materials, and equipment, including such as may be furnished from stocks under the control of agencies of the Department of Defense; travel expenses (other than mileage) on the same basis as authorized by law for Air National Guard personnel on active Federal duty, for Air National Guard commanders while inspecting units in compliance with National Guard regulations when specifically authorized by the Chief, National Guard Bureau; $1,806,200,000, of which not less than $37,000,000 shall be available only for the maintenance of real property facilities.

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE, ARMY

For the necessary expenses, in accordance with law, for construction, equipment, and maintenance of rifle ranges; the instruction of citizens in marksmanship; the promotion of rifle practice; and the travel of rifle teams, military personnel, and individuals attending regional, national, and international competitions; not to exceed $920,000, of which not to exceed $7,500 shall be available for incidental expenses of the National Board; and from other funds provided in this Act, not to exceed $680,000 worth of ammunition may be issued under authority of title 10, United States Code, section 4311: Provided, That competitors at national matches under title 10, United States Code, section 4312, may be paid subsistence and travel allowances in excess of the amounts provided under title 10, United States Code, section 4313.

CLAIMS, DEFENSE

For payment, not otherwise provided for, of claims authorized by law to be paid by the Department of Defense (except for civil functions), including claims for damages arising under training contracts with carriers, and repayment of amounts determined by the Secretary concerned, or officers designated by him, to have been erroneously collected from military and civilian personnel of the Department of Defense, or from States, territories, or the District of Columbia, or members of the National Guard units thereof; $143,300,000.

COURT OF MILITARY APPEALS, DEFENSE

For salaries and expenses necessary for the United States Court of Military Appeals; $3,200,000, and not to exceed $1,500 can be used for official representation purposes.

TENTH INTERNATIONAL PAN AMERICAN GAMES

For logistical support and personnel services (other than pay and nontravel related allowances of members of the Armed Forces of the United States, except for members of the Reserve components thereof called or ordered to active duty to provide support for the Tenth International Pan American Games) provided by any component of the Department of Defense to the Tenth International Pan American Games; $10,000,000.

ENVIRONMENTAL RESTORATION, DEFENSE

For the Department of Defense; $379,100,000, to remain available until transferred: Provided, That the Secretary of Defense shall, upon determining that such funds are required for environmental restoration and hazardous waste disposal operations, reduction and recycling of hazardous waste, research and development associated with hazardous wastes and removal of unsafe buildings and debris of the Department of Defense, or for similar purposes (including programs and operations at sites formerly used by the Department of Defense), transfer the funds made available by this appropriation to other appropriations made available to the Department of Defense as the Secretary may designate, to be merged with and to be available for the same purposes and for the same time period as the appropriations of funds to which transferred: Provided further, That upon a determination that all or part of the funds transferred pursuant to this provision are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation.

TITLE III

PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $3,524,200,000, to remain available for obligation until September 30, 1988.

MISSILE PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of missiles, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, as follows:

Chaparral program, $57,500,000;
Other Missile Support, $5,000,000;
Patriot program, $963,400,000;
Stinger program, $258,500,000;
Laser Hellfire program, $234,200,000;
TOW program, $190,500,000;
Pershing II program, $236,300,000;
MLRS program, $531,900,000;
Modification of missiles, $196,800,000;
Spares and repair parts, $312,000,000;
Support equipment and facilities, $56,632,000;

In all: $2,904,332,000, to remain available for obligation until September 30, 1988: Provided, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $138,400,000.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

For construction, procurement, production, and modification of weapons and tracked combat vehicles, equipment, including ordnance, spare parts and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $4,684,800,000, to remain available for obligation until September 30, 1988.

PROCUREMENT OF AMMUNITION, ARMY

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities authorized in military construction authorization Acts or authorized by section 2854, title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $2,497,200,000, to remain available for obligation until September 30, 1988: Provided, That none of the funds provided herein may be obligated or expended for production base projects until the Secretary of the Army has submitted to the Committees on Appropriations of the House of Representatives and the Senate a specific funding and program plan for RDX modernization which responds to congressional requirements on program phasing and direction concerning full funding, and which provides for initiation of site specific work at Louisiana Army Ammunition Plant not later than June 30, 1986.

OTHER PROCUREMENT, ARMY

For construction, procurement, production, and modification of vehicles, includ-

ing tactical, support, and nontracked combat vehicles; the purchase of not to exceed two thousand four hundred and sixty-four passenger motor vehicles for replacement only; communications and electronic equipment; other support equipment; spare parts, ordnance, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, as follows:

Tactical and support vehicles, $965,397,000;

Communications and electronics equipment, $2,868,859,000;

Other support equipment, $1,341,000,000;

Non-centrally managed items, $105,300,000;

In all: $5,275,556,000, to remain available for obligation until September 30, 1988: Provided, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $5,000,000.

AIRCRAFT PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; $11,175,678,000, to remain available for obligation until September 30, 1988: Provided, That $322,871,000 shall be available only for the procurement of nine new P-3C anti-submarine warfare aircraft: Provided further, That six P-3C aircraft shall be for the Naval Reserve.

WEAPONS PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of missiles, torpedoes, other weapons, and related support equipment including spare parts, and accessories therefor; expansion of public and private plants, including the land necessary therefor, and such lands and interest therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, as follows:

Poseidon, $5,001,000;

TRIDENT I, $36,226,000;

TRIDENT II, $581,986,000;

Support equipment and facilities, $17,107,000;

Tomahawk, $724,804,000;

AIM/RIM-7 F/M Sparrow, $359,200,000;

AIM-9L/M Sidewinder, $125,800,000;

AIM-54A/C Phoenix, $343,600,000;

AIM-54A/C Phoenix advance procurement, $24,800,000;

AGM-84A Harpoon, $314,873,000;

AGM-88A HARM, $236,000,000;

SM-1 MR, $20,300,000;

SM-2 MR, $509,719,000;

SM-2 ER, $303,200,000;

Sidearm, $30,500,000;

Hellfire, $51,768,000;

Laser Maverick, $173,458,000;

IIR Maverick, $27,809,000;

Aerial targets, $105,600,000;

Drones and decoys, $29,400,000;

Other missile support, $12,309,000;

Modification of missiles, $64,933,000;

Support equipment and facilities, $86,210,000;

Ordnance support equipment, $16,289,000;

MK-48 ADCAP torpedo program, $417,437,000;

MK-46 torpedo program, $125,115,000;

MK-60 CAPTOR mine program, $59,600,000;

MK-30 mobile target program, $18,600,000;

MK-38 mini-mobile target program, $3,499,000;

Antisubmarine rocket (ASROC) program, $15,551,000;

Modification of torpedoes, $115,055,000;

Torpedo support equipment program, $70,575,000;

MK-15 close-in weapons system program, $150,146,000;

MK-75 gun mount program, $17,905,000;

MK-19 machine gun program, $1,196,000;

25mm gun mount, $5,501,000;

Small arms and weapons, $11,305,000;

Modification of guns and gun mounts, $58,117,000;

Guns and gun mounts support equipment program, $1,200,000;

Spares and repair parts, $166,601,000;

In all: $5,227,795,000, to remain available for obligation until September 30, 1988: Provided, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $210,500,000.

SHIPBUILDING AND CONVERSION, NAVY

For expenses necessary for the construction, acquisition, or conversion of vessels as authorized by law, including armor and armament thereof, plant equipment, appliances, and machine tools and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; procurement of critical, long leadtime components and designs for vessels to be constructed or converted in the future; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, as follows:

TRIDENT ballistic missile submarine program, $1,354,700,000;

SSN-688 attack submarine program, $2,609,600,000;

Battleship reactivation program, $469,000,000;

Aircraft carrier service life extension program, $52,000,000;

CG-47 cruiser program, $2,652,500,000;

DDG-51 destroyer program, $74,000,000: Provided, That the Secretary of the Navy shall select a second source, by the most expeditious means available, for the CG-47 and DDG-51 SPY-1 radar; AEGIS production test center, shipyard and shipboard combat system integration; AEGIS color graphic display systems; solid state frequency converters; and propellors in order to begin competition between the current contractors and the second source contractors in fiscal year 1988: Provided further, That any such selection shall not adversely affect the CG-47 and DDG-51 shipbuilding program schedule and costs;

LSD-41 landing ship dock program, $403,400,000;

LHD-1 amphibious assault ship program, $1,313,600,000;

MCM mine countermeasures ship program, $197,200,000;

MSH coastal mine hunter program, $184,500,000;

T-AO fleet oiler program, $278,500,000;

T-AGOS ocean surveillance ship program, $115,100,000;

T-AG acoustic research ship program, $57,000,000;

ARTB nuclear reactor training ship conversion program, $175,400,000;

T-ACS auxiliary crane ship conversion program, $82,500,000;

T-AVB logistic support ship program, $26,900,000;

LCAC landing craft program, $307,000,000;

Strategic sealift program, $228,400,000;

For craft, outfitting, post delivery, and cost growth, $500,800,000;

In all: $10,840,400,000, to remain available for obligation until September 30, 1990: Provided, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $241,700,000: Provided further, That additional obligations may be incurred after September 30, 1990, for engineering services, tests, evaluations, and other such budgeted work that must be performed in the final stage of ship construction; and each Shipbuilding and Conversion, Navy, appropriation that is currently available for such obligations may also hereafter be so obligated after the date of its expiration: Provided further, That none of the funds herein provided for the construction or conversion of any naval vessel to be constructed in shipyards in the United States shall be expended in foreign shipyards for the construction of major components of the hull or superstructure of such vessel: Provided further, That none of the funds herein provided shall be used for the construction of any naval vessel in foreign shipyards: Provided further, That of the funds appropriated in fiscal year 1983 for the FFG-7 guided missile frigate program, $40,000,000 previously available only for an X-band phased array radar shall be available for the fiscal year 1984 guided missile frigate program (FFG-61). The FFG-61 shall be equipped with the MK-92 fire control system, Phase II update.

OTHER PROCUREMENT, NAVY

For procurement, production, and modernization of support equipment and materials not otherwise provided for, Navy ordnance and ammunition (except ordnance for new aircraft, new ships, and ships authorized for conversion); the purchase of not to exceed nine hundred and twenty-four passenger motor vehicles of which eight hundred and twenty-five shall be for replacement only; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, as follows:

Ship support equipment, $923,806,000;

Communications and electronics equipment, $2,096,302,000;

Aviation support equipment, $1,133,019,000;

Ordnance support equipment, $1,349,747,000;

Civil engineering support equipment, $232,558,000;
Supply support equipment, $58,917,000;
Personnel and command support equipment, $434,143,000;
Spares and repair parts, $279,838,000;
Non-centrally managed items, $125,300,000;

In all: $6,377,630,000, to remain available for obligation until September 30, 1988: Provided, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $256,000,000.

COASTAL DEFENSE AUGMENTATION

For the augmentation of United States Coast Guard inventories to meet national security requirements, $235,000,000, to remain available until expended: Provided, That these funds shall be for the procurement by the Department of Defense of vessels, aircraft, and equipment and for modernization of existing Coast Guard assets, to be made available to the Coast Guard for operation and maintenance.

PROCUREMENT, MARINE CORPS

For expenses necessary for the procurement, manufacture, and modification of missiles, armament, ammunition, military equipment, spare parts, and accessories therefor; plant equipment, appliances, and machine tools, and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; vehicles for the Marine Corps, including purchase of not to exceed two hundred and three passenger motor vehicles for replacement only; and expansion of public and private plants, including land necessary therefor, and such lands, and interests therein, may be acquired and construction prosecuted thereon prior to approval of title; $1,660,766,000, to remain available for obligation until September 30, 1988.

AIRCRAFT PROCUREMENT, AIR FORCE

For construction, procurement, and modification of aircraft and equipment, including armor and armament, specialized ground handling equipment, and training devices, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things; $23,255,424,000, to remain available for obligation until September 30, 1988, of which $200,000,000 shall be available only to initiate the air defense aircraft competition authorized by law: Provided, That of the amounts appropriated not to exceed $280,000,000 shall be available for competitive procurement of Air Force One mission replacement aircraft: Provided further, That none of the funds in this Act may be obligated on B-1B bomber production contracts if such contracts would cause the production portion of the Air Force's $20,500,000,000 estimate for the B-1B bomber baseline costs expressed in fiscal year 1981 constant dollars to be exceeded: Provided further, That funds appropriated by this Act may be applied to a follow-on multiyear contract for F-16 production in which contract options shall be included to adjust the multiyear contract to accommodate the results of the air defense aircraft competition; such competition shall be completed no later than July 1, 1986, and a contract awarded within sixty days thereafter.

MISSILE PROCUREMENT, AIR FORCE

For construction, procurement, and modification of missiles, spacecraft, rockets, and related equipment, including spare parts and accessories therefor, ground handling equipment, and training devices; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things; $8,312,442,000, to remain available for obligation until September 30, 1988.

OTHER PROCUREMENT, AIR FORCE

For procurement and modification of equipment (including ground guidance and electronic control equipment, and ground electronic and communication equipment), and supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of not to exceed eight hundred and forty-nine passenger motor vehicles of which eight hundred and one shall be for replacement only; and expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon, prior to approval of title; reserve plant and Government and contractor-owned equipment layaway, as follows:

Munitions and associated equipment, $1,239,877,000;
Vehicular equipment, $340,869,000;
Electronics and telecommunications equipment, $2,608,650,000;
Other base maintenance and support equipment, $4,626,287,000;
Non-centrally managed items, $54,700,000;

In all: $8,571,383,000, to remain available for obligation until September 30, 1988: Provided, That within the total amount appropriated, the subdivisions within this appropriation shall be reduced by $299,000,000: Provided further, That no obligation may be incurred for the procurement of 30mm armor piercing ammunition unless there is component breakout for the depleted uranium penetrator.

NATIONAL GUARD AND RESERVE EQUIPMENT

For procurement of aircraft, missiles, tracked combat vehicles, ammunition, other weapons, and other procurement for the reserve components of the Armed Forces, as follows:

Army Reserve, $365,000,000;
Army National Guard, $531,800,000, of which, subject to enactment of authorizing legislation, not more than $40,000,000 may be used for minor projects to facilitate the delivery, storage, training and maintenance of Army National Guard equipment;
Air National Guard, $255,000,000;
Naval Reserve, $100,000,000;
Marine Corps Reserve, $70,000,000;
Air Force Reserve, $180,000,000;

In all: $1,501,800,000, to remain available for obligation until September 30, 1988.

PROCUREMENT, DEFENSE AGENCIES

For expenses of activities and agencies of the Department of Defense (other than the military departments) necessary for procurement, production, and modification of equipment, supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of not to exceed four hundred and ninety passenger motor vehicles of which two hundred and fifty-one shall be for replacement only; expansion of public and private plants, equipment, and installation thereof in such plants, erection of structures, and acquisition of land for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; $1,302,740,000, to remain available for obligation until September 30, 1988.

DEFENSE PRODUCTION ACT PURCHASES

For purchases or commitments to purchase metals, minerals, or other materials by the Department of Defense pursuant to section 303 of the Defense Production Act of 1950, as amended (50 U.S.C. App. 2093); $31,000,000, to remain available for obligation until September 30, 1988.

NATO COOPERATIVE DEFENSE PROGRAMS

For acquisition of point air defense of United States airbases and other critical United States military facilities in Italy; $15,000,000, to remain available for obligation until September 30, 1988.

TITLE IV

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, ARMY

For expenses necessary for basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $4,798,172,000, of which $17,000,000 is available only for completing development, transitioning into low-rate initial production, and initial procurement of shipsets required to arm UH-60 Blackhawk helicopters with Hellfire missiles, to remain available for obligation until September 30, 1987.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, NAVY

For expenses necessary for basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $10,065,239,000, of which $17,523,000 is available only for the Low Cost Anti-Radiation Seeker Program and $5,500,000 is available only for the Laser Articulating Robotic System, to remain available for obligation until September 30, 1987.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, AIR FORCE

For expenses necessary for basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $13,718,208,000, of which $17,613,000 is available only for the Low Cost Seeker Program and $5,000,000 is available only for the purpose of carrying out a research program to develop new and improved verification techniques to monitor compliance with any antisatellite weapon agreement that may be entered into by the United States and the Soviet Union, to remain available for obligation until September 30, 1987.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, DEFENSE AGENCIES

For expenses of activities and agencies of the Department of Defense (other than the military departments), necessary for basic and applied scientific research, development, test, and evaluation; advanced research projects as may be designated and determined by the Secretary of Defense, pursuant to law; maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $6,637,386,000, of which $700,000 shall be available only for the purpose of carrying out, through the Office of Technology Assessment, a comprehensive classified study to be submitted to the Appropriations Committees of the House of Representatives and the Senate, together with an unclassified version, no later than August 30, 1987, to determine the technological feasibility and implications, and the ability to survive and function despite a preemptive attack by an aggressor possessing comparable technology, of the Strategic Defense Initiative Program; and $8,287,000 shall be available only for the joint Department of Defense-Department of Energy Conventional Munitions Technology Development Program, to remain available for obligation until September 30, 1987: Provided, That such amounts as may be determined by the Secretary of Defense to have been made available in other appropriations available to the Department of Defense during the current fiscal year for programs related to advanced research may be transferred to and merged with this appropriation to be available for the same purposes and time period: Provided further, That such amounts of this appropriation as may be determined by the Secretary of Defense may be transferred to carry out the purposes of advanced research to those appropriations for military functions under the Department of Defense which are being utilized for related programs to be merged with and to be available for the same time period as the appropriation to which transferred.

DIRECTOR OF TEST AND EVALUATION, DEFENSE

For expenses, not otherwise provided for, of independent activities of the Director of Defense Test and Evaluation in the direction and supervision of test and evaluation, including initial operational testing and evaluation; and performance of joint testing and evaluation; and administrative expenses in connection therewith; $118,500,000, to remain available for obligation until September 30, 1987.

TITLE V

SPECIAL FOREIGN CURRENCY PROGRAM

For payment in foreign currencies which the Treasury Department determines to be excess to the normal requirements of the United States for expenses in carrying out programs of the Department of Defense, as authorized by law; $2,100,000, to remain available for obligation until September 30, 1987: Provided, That this appropriation shall be available in addition to other appropriations to such Department, for payments in the foregoing currencies.

TITLE VI

REVOLVING AND MANAGEMENT FUNDS

ARMY STOCK FUND

For the Army stock fund; $393,000,000.

NAVY STOCK FUND

For the Navy stock fund; $638,500,000.

MARINE CORPS STOCK FUND

For the Marine Corps stock fund; $37,700,000.

AIR FORCE STOCK FUND

For the Air Force stock fund; $415,900,000.

DEFENSE STOCK FUND

For the Defense stock fund; $149,700,000.

ADP EQUIPMENT MANAGEMENT FUND

For the purchase of automatic data processing (ADP) equipment; $100,000,000.

TITLE VII

RELATED AGENCIES

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For payment to the Central Intelligence Agency Retirement and Disability System Fund, to maintain proper funding level for continuing the operation of the Central Intelligence Agency Retirement and Disability System; $101,400,000.

INTELLIGENCE COMMUNITY STAFF

For necessary expenses of the Intelligence Community Staff; $22,083,000.

TITLE VIII

GENERAL PROVISIONS

SEC. 8001. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 8002. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.

SEC. 8003. During the current fiscal year, the Secretary of Defense and the Secretaries of the Army, Navy, and Air Force, respectively, if they should deem it advantageous to the national defense, and if in their opinions the existing facilities of the Department of Defense are inadequate, are authorized to procure services in accordance with section 3109 of title 5, United States Code, under regulations prescribed by the Secretary of Defense, and to pay in connection therewith travel expenses of individuals, including actual transportation and per diem in lieu of subsistence while traveling from their homes or places of business to official duty stations and return as may be authorized by law: Provided, That such contracts may be renewed annually.

SEC. 8004. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense.

SEC. 8005. Appropriations for the Department of Defense for the current fiscal year and hereafter shall be available for: (a) expenses in connection with administration of occupied areas; (b) payment of rewards as authorized for the Navy by section 7209(a) of title 10, United States Code, for information leading to the discovery of missing naval property or the recovery thereof; (c) payment of deficiency judgments and interests thereon arising out of condemnation proceedings; (d) leasing of buildings and facilities including payment of rentals for special purpose space at the seat of government, and in the conduct of field exercises and maneuvers or, in administering the provisions of the Act of July 9, 1942 (56 Stat. 654; 43 U.S.C. 315q), rentals may be paid in advance; (e) payments under contracts for maintenance of tools and facilities for twelve months beginning at any time during the fiscal year; (f) maintenance of defense access roads certified as important to national defense in accordance with section 210 of title 23, United States Code; (g) the purchase of milk for enlisted personnel of the Department of Defense heretofore made available pursuant to section 202 of the Agricultural Act of 1949 (7 U.S.C. 1446a), and the cost of milk so purchased, as determined by the Secretary of Defense, shall be included in the value of the commuted ration; (h) payments under leases for real or personal property, including maintenance thereof when contracted for as a part of the lease agreement, for twelve months beginning at any time during the fiscal year; (i) the purchase of right-hand-drive vehicles not to exceed $12,000 per vehicle; (j) payment of unusual cost overruns incident to ship overhaul, maintenance, and repair for ships inducted into industrial fund activities or contracted for in prior fiscal years: Provided, That the Secretary of Defense shall notify the Congress promptly prior to obligation of any such payments; (k) payments from annual appropriations to industrial fund activities and/or under contract for changes in scope of ship overhaul, maintenance, and repair after expiration of such appropriations, for such work either inducted into the industrial fund activity or contracted for in that fiscal year; and (l) payments for depot maintenance contracts for twelve months beginning at any time during the fiscal year.

SEC. 8006. Appropriations for the Department of Defense for the current fiscal year and hereafter shall be available for: (a) military courts, boards, and commissions; (b) utility services for buildings erected at private cost, as authorized by law, and buildings on military reservations authorized by regulations to be used for welfare and recreational purposes; and (c) exchange fees, and losses in the accounts of disbursing officers or agents in accordance with law.

SEC. 8007. The Secretary of Defense and each purchasing and contracting agency of the Department of Defense shall assist American small and minority-owned business to participate equitably in the furnishing of commodities and services financed with funds appropriated under this Act by increasing, to an optimum level, the resources and number of personnel jointly assigned to promoting both small and minority business involvement in purchases financed with funds appropriated herein, and by making available or causing to be made available to such businesses, information, as far in advance as possible, with respect to purchases proposed to be financed with funds appropriated under this Act, and by assisting small and minority business concerns to participate equitably as subcontractors on contracts financed with funds appropriated herein, and by otherwise advocating and providing small and minority business opportunities to participate in the furnishing of commodities and services financed with funds appropriated by this Act.

SEC. 8008. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 8009. During the current fiscal year and hereafter:

(a) The President may exempt appropriations, funds, and contract authorizations, available for military functions under the Department of Defense, from the provisions of section 1512 of title 31, United States Code, whenever he deems such action to be necessary in the interest of national defense.

(b) Upon determination by the President that such action is necessary, the Secretary of Defense is authorized to provide for the cost of an airborne alert as an excepted expense in accordance with the provisions of section 3732 of the Revised Statutes (41 U.S.C. 11).

(c) Upon determination by the President that it is necessary to increase the number of military personnel on active duty subject to existing laws beyond the number for which funds are provided in this Act, the Secretary of Defense is authorized to provide for the cost of such increased military personnel, as an excepted expense in accordance with the provisions of section 3732 of the Revised Statutes (41 U.S.C. 11).

(d) The Secretary of Defense shall immediately advise Congress of the exercise of any authority granted in this section, and shall report monthly on the estimated obligations incurred pursuant to subsections (b) and (c).

SEC. 8010. No part of the appropriations in this Act shall be available for any expense of operating aircraft under the jurisdiction of the armed forces for the purpose of proficiency flying, as defined in Department of Defense Directive 1340.4, except in accordance with regulations prescribed by the Secretary of Defense. Such regulations (1) may not require such flying except that required to maintain proficiency in anticipation of a member's assignment to combat operations and (2) such flying may not be permitted in cases of members who have been assigned to a course of instruction of ninety days or more.

SEC. 8011. No part of any appropriation contained in this Act shall be available for expense of transportation, packing, crating, temporary storage, drayage, and unpacking of household goods and personal effects in any one shipment having a net weight in excess of eighteen thousand pounds.

SEC. 8012. During the current fiscal year and hereafter, vessels under the jurisdiction of the Department of Transportation, the Department of the Army, the Department of the Air Force, or the Department of the Navy may be transferred or otherwise made available without reimbursement to any such agencies upon the request of the head of one agency and the approval of the agency having jurisdiction of the vessels concerned.

SEC. 8013. Not more than 20 per centum of the appropriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last two months of the fiscal year: Provided, That this section shall not apply to obligations for support of active duty training of civilian components or summer camp training of the Reserve Officers' Training Corps, or the National Board for the Promotion of Rifle Practice, Army, or to the appropriations provided in this Act for Claims, Defense.

SEC. 8014. During the current fiscal year the agencies of the Department of Defense may accept the use of real property from foreign countries for the United States in accordance with mutual defense agreements or occupational arrangements and may accept services furnished by foreign countries as reciprocal international courtesies or as services customarily made available without charge; and such agencies may use the same for the support of the United States forces in such areas without specific appropriation therefor.

In addition to the foregoing, agencies of the Department of Defense may accept real property, services, and commodities from foreign countries for the use of the United States in accordance with mutual defense agreements or occupational arrangements and such agencies may use the same for the support of the United States forces in such areas, without specific appropriations therefor: Provided, That the foregoing authority shall not be available for the conversion of heating plants from coal to oil at defense facilities in Europe: Provided further, That within thirty days after the end of each quarter the Secretary of Defense shall render to Congress and to the Office of Management and Budget a full report of such property, supplies, and commodities received during such quarter.

SEC. 8015. During the current fiscal year and hereafter, appropriations available to the Department of Defense for research and development may be used for the purposes of section 2353 of title 10, United States Code, and for purposes related to research and development for which expenditures are specifically authorized in other appropriations of the Service concerned.

SEC. 8016. No part of any appropriation contained in this Act, except for small purchases in amounts not exceeding $10,000 shall be available for the procurement of any article of food, clothing, cotton, woven silk or woven silk blends, spun silk yarn for cartridge cloth, synthetic fabric or coated synthetic fabric, or wool (whether in the form of fiber or yarn or contained in fabrics, materials, or manufactured articles), or specialty metals including stainless steel flatware, or hand or measuring tools, not grown, reprocessed, reused, or produced in the United States or its possessions, except to the extent that the Secretary of the Department concerned shall determine that satisfactory quality and sufficient quantity of any articles of food or clothing or any form of cotton, woven silk and woven silk blends, spun silk yarn for cartridge cloth, synthetic fabric or coated synthetic fabric, wool, or specialty metals including stainless steel flatware, grown, reprocessed, reused, or produced in the United States or its possessions cannot be procured as and when needed at United States market prices and except procurements outside the United States in support of combat operations, procurements by vessels in foreign waters, and emergency procurements or procurements of perishable foods by establishments located outside the United States for the personnel attached thereto: Provided, That nothing herein shall preclude the procurement of specialty metals or chemical warfare protective clothing produced outside the United States or its possessions when such procurement is necessary to comply with agreements with foreign governments requiring the United States to purchase supplies from foreign sources for the purposes of offsetting sales made by the United States Government or United States firms under approved programs serving defense requirements or where such procurement is necessary in furtherance of the standardization and interoperability of equipment requirements within NATO so long as such agreements with foreign governments comply, where applicable, with the requirements of section 36 of the Arms Export Control Act and with section 2457 of title 10, United States Code: Provided further, That nothing herein shall preclude the procurement of foods manufactured or processed in the United States or its possessions: Provided further, That no funds herein appropriated shall be used for the payment of a price differential on contracts hereafter made for the purpose of relieving economic dislocations: Provided further, That none of the funds appropriated in this Act shall be used except that, so far as practicable, all contracts shall be awarded on a formally advertised competitive bid basis to the lowest responsible bidder.

SEC. 8017. During the current fiscal year, appropriations available to the Department of Defense for pay of civilian employees shall be available for uniforms, or allowances therefor, as authorized by section 5901 of title 5, United States Code.

SEC. 8018. Funds provided in this Act for legislative liaison activities of the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Office of the Secretary of Defense shall not exceed $13,334,000 for the current fiscal year: Provided, That this amount shall be available for apportionment to the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Office of the Secretary of Defense as determined by the Secretary of Defense: Provided further, That costs for military retired pay accrual shall be included within this limitation.

SEC. 8019. Of the funds made available by this Act for the services of the Military Airlift Command, $100,000,000 shall be available only for procurement of commercial transportation service from carriers participating in the civil reserve air fleet program; and the Secretary of Defense shall utilize the services of such carriers which qualify as small businesses to the fullest extent found practicable: Provided, That the Secretary of Defense shall specify in such procurement, performance characteristics for aircraft to be used based upon modern aircraft operated by the civil reserve air fleet.

(TRANSFER OF FUNDS)

SEC. 8020. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed $950,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: Provided, That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by Congress: Provided further, That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority.

(TRANSFER OF FUNDS)

SEC. 8021. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: Provided, That transfers may be made between such funds in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that transfers between a stock fund account and an industrial fund account may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer.

Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8022. None of the funds available to the Department of Defense shall be utilized for the conversion of heating plants from coal to oil at defense facilities in Europe.

SEC. 8023. No part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprograming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprograming is requested has been denied by the Congress.

SEC. 8024. None of the funds contained in this Act available for the Civilian Health and Medical Program of the Uniformed Services under the provisions of section 1079(a) of title 10, United States Code, shall be available for reimbursement of any physician or other authorized individual provider of medical care in excess of the eightieth percentile of the customary charges made for similar services in the same locality where the medical care was furnished, as determined for physicians in accordance with section 1079(h) of title 10, United States Code.

SEC. 8025. No appropriation contained in this Act may be used to pay for the cost of public affairs activities of the Department of Defense in excess of $43,563,000: Provided, That costs for military retired pay accrual shall be included within this limitation.

SEC. 8026. None of the funds provided in this Act shall be available for the planning or execution of programs which utilize amounts credited to Department of Defense appropriations or funds pursuant to the provisions of section 37(a) of the Arms Export Control Act representing payment for the actual value of defense articles specified in section 21(a)(1)(A) of that Act: Provided, That such amounts shall be credited to the Special Defense Acquisition Fund, as authorized by law, or, to the extent not so credited shall be deposited in the Treasury as miscellaneous receipts as provided in section 3302(b) of title 31, United States Code.

SEC. 8027. No appropriation contained in this Act shall be available to fund any costs of a Senior Reserve Officers' Training Corps unit—except to complete training of personnel enrolled in Military Science 4—which in its junior year class (Military Science 3) has for the four preceding academic years, and as of September 30, 1983, enrolled less than (a) seventeen students where the institution prescribes a four-year or a combination four- and two-year program; or (b) twelve students where the institution prescribes a two-year program: Provided, That, notwithstanding the foregoing limitation, funds shall be available to maintain one Senior Reserve Officers' Training Corps unit in each State and at each State-operated maritime academy: Provided further, That units under the consortium system shall be considered as a single unit for purposes of evaluation of productivity under this provision: Provided further, That enrollment standards contained in Department of Defense Directive 1215.8 for Senior Reserve Officers' Training Corps units, as revised during fiscal year 1981, may be used to determine compliance with this provision, in lieu of the standards cited above.

SEC. 8028. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, 1987.

SEC. 8029. None of the funds appropriated by this Act may be used to support more than 9,901 full-time and 2,603 part-time military personnel assigned to or used in the support of Morale, Welfare, and Recreation activities as described in Department of Defense Instruction 7000.12 and its enclosures, dated September 4, 1980.

SEC. 8030. All obligations incurred in anticipation of the appropriations and authority provided in this Act are hereby ratified and confirmed if otherwise in accordance with the provisions of this Act.

SEC. 8031. None of the funds appropriated by this Act or heretofore appropriated by any other Act shall be obligated or expended for the payment of anticipatory possession compensation claims to the Federal Republic of Germany other than claims listed in the 1973 agreement (commonly referred to as the Global Agreement) between the United States and the Federal Republic of Germany.

SEC. 8032. During the current fiscal year the Department of Defense may enter into contracts to recover indebtedness to the United States pursuant to section 3718 of title 31, United States Code.

SEC. 8033. None of the funds appropriated by this Act shall be available for a contract for studies, analyses, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines:

(a) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work, or

(b) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source, or

(c) where the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support:

Provided, That this limitation shall not apply to contracts in an amount of less than $25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

SEC. 8034. None of the funds appropriated by this Act shall be available to provide medical care in the United States on an inpatient basis to foreign military and diplomatic personnel or their dependents unless the Department of Defense is reimbursed for the costs of providing such care: Provided, That reimbursements for medical care covered by this section shall be credited to the appropriations against which charges have been made for providing such care, except that inpatient medical care may be provided in the United States without cost to military personnel and their dependents from a foreign country if comparable care is made available to a comparable number of United States military personnel in that foreign country.

SEC. 8035. None of the funds appropriated by this Act shall be obligated for the second career training program authorized by Public Law 96-347.

SEC. 8036. None of the funds appropriated or otherwise made available in this Act shall be obligated or expended for salaries or expenses during the current fiscal year for the purposes of demilitarization of surplus nonautomatic firearms less than .50 caliber.

SEC. 8037. None of the funds provided in this Act shall be available to initiate (1) a multiyear contract that employs economic order quantity procurement in excess of $20,000,000 in any one year of the contract or that includes an unfunded contingent liability in excess of $20,000,000, or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of $20,000,000 in any one year, unless the Committees on Appropriations and Armed Services of the Senate and House of Representatives have been notified at least thirty days in advance of the proposed contract award: Provided, That no part of any appropriation contained in this Act shall be available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: Provided further, That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed $500,000,000 unless specifically provided in this Act: Provided further, That the execution of multiyear authority shall require the use of a present value analysis to determine lowest cost compared to an annual procurement. Funds appropriated in title III of this Act may be used for multiyear procurement contracts as follows:

T-700 series aircraft engines;
MK-46 torpedo program;
Bradley Fighting Vehicle transmission;
M-1 tank chassis;
M-1 tank engine;
M-1 tank fire control components; and
LHD-1 amphibious assault ships.

SEC. 8038. None of the funds appropriated by this Act which are available for payment of travel allowances for per diem in lieu of subsistence to enlisted personnel shall be used to pay such an allowance to any enlisted member in an amount that is more than the amount of per diem in lieu of subsistence that the enlisted member is otherwise entitled to receive minus the basic allowance for subsistence, or pro rata portion of such allowance, that the enlisted member is entitled to receive during any day, or portion of a day, that the enlisted member is also entitled to be paid a per diem in lieu of subsistence.

SEC. 8039. None of the funds appropriated by this Act shall be available to approve a request for waiver of the costs otherwise required to be recovered under the provisions of section 21(e)(1)(C) of the Arms Export Control Act unless the Committees on Appropriations have been notified in advance of the proposed waiver.

SEC. 8040. None of the funds appropriated by this Act shall be available for the transportation of equipment or materiel designated as Prepositioned Materiel Configured in Unit Sets (POMCUS) in Europe in excess of four division sets: Provided, That the foregoing limitation shall not apply with respect to any item of equipment or materiel which is maintained in the inventories of the Active and Reserve Forces at levels of at least 70 per centum of the established requirements for such an item of equipment or

materiel for the Active Forces and 50 per centum of the established requirement for the Reserve Forces for such an item of equipment or materiel: Provided further, That no additional commitments to the establishment of POMCUS sites shall be made without prior approval of Congress.

SEC. 8041. (a) None of the funds in this Act may be used to transfer any article of military equipment or data related to the manufacture of such equipment to a foreign country prior to the approval in writing of such transfer by the Secretary of the military service involved.

(b) No funds appropriated by this Act may be used for the transfer of a technical data package from any Government-owned and operated defense plant manufacturing large caliber cannons to any foreign government, nor for assisting any such government in producing any defense item currently being manufactured or developed in a United States Government-owned, Government-operated, defense plant manufacturing large caliber cannons.

(TRANSFER OF FUNDS)

SEC. 8042. None of the funds appropriated in this Act may be made available through transfer, reprograming, or other means for any intelligence or special activity different from that previously justified to the Congress unless the Director of Central Intelligence or the Secretary of Defense has notified the House and Senate Appropriations Committees of the intent to make such funds available for such activity.

SEC. 8043. Of the funds appropriated by this Act for strategic programs, the Secretary of Defense shall provide funds for the Advanced Technology Bomber program at a level at least equal to the amount provided by the committee of conference on this Act in order to maintain priority emphasis on this program.

SEC. 8044. None of the funds available to the Department of Defense during the current fiscal year shall be used by the Secretary of a military department to purchase coal or coke from foreign nations for use at United States defense facilities in Europe when coal from the United States is available.

SEC. 8045. None of the funds available to the Department of Defense shall be available for the procurement of manual typewriters which were manufactured by facilities located within states which are Signatories to the Warsaw Pact.

SEC. 8046. None of the funds appropriated by this Act may be used to appoint or compensate more than 37 individuals in the Department of Defense in positions in the Executive Schedule (as provided in sections 5312-5316 of title 5, United States Code).

SEC. 8047. None of the funds appropriated by this Act shall be available to convert a position in support of the Army Reserve, Air Force Reserve, Army National Guard, and Air National Guard occupied by, or programed to be occupied by, a (civilian) military technician to a position to be held by a person in an active Guard or Reserve status if that conversion would reduce the total number of positions occupied by, or programed to be occupied by, (civilian) military technicians of the component concerned, below 66,086: Provided, That none of the funds appropriated by this Act shall be available to support more than 43,157 positions in support of the Army Reserve, Army National Guard or Air National Guard occupied by, or programed to be occupied by, persons in an active Guard or Reserve status: Provided further, That none of the funds appropriated by this Act may be used to include (civilian) military technicians in computing civilian personnel ceilings, including statutory or administratively imposed ceilings, on activities in support of the Army Reserve, Air Force Reserve, Army National Guard or Air National Guard.

SEC. 8048. (a) The provisions of section 138(c)(2) of title 10, United States Code, shall not apply with respect to fiscal year 1986 or with respect to the appropriation of funds for that year.

(b) During fiscal year 1986, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

(c) The fiscal year 1987 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 1987 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 1987.

(TRANSFER OF FUNDS)

SEC. 8049. Appropriations or funds available to the Department of Defense during the current fiscal year may be transferred to appropriations provided in this Act for research, development, test, and evaluation to the extent necessary to meet increased pay costs authorized by or pursuant to law, to be merged with and to be available for the same purposes, and the same time period, as the appropriation to which transferred.

SEC. 8050. None of the funds available to the Central Intelligence Agency, the Department of Defense, or any other agency or entity of the United States involved in intelligence activities may be obligated or expended during fiscal year 1986 to provide funds, materiel, or other assistance to the Nicaraguan democratic resistance unless in accordance with the terms and conditions specified by section 105 of the Intelligence Authorization Act (Public Law 99-169) for fiscal year 1986.

(TRANSFER OF FUNDS)

SEC. 8051. In addition to any other transfer authority contained in this Act, amounts from working capital funds may be transferred to the Operation and Maintenance, Army, Navy, and Air Force appropriations contained in this Act to be merged with and to be available for the same purposes and for the same time period as the appropriation to which transferred: Provided, That such transfers shall not exceed $168,200,000 for Operation and Maintenance, Army; $420,300,000 for Operation and Maintenance, Navy; and $164,000,000 for Operation and Maintenance, Air Force.

SEC. 8052. None of the funds made available by this Act shall be used in any way for the leasing to non-Federal agencies in the United States aircraft or vehicles owned or operated by the Department of Defense when suitable aircraft or vehicles are commercially available in the private sector: Provided, That nothing in this section shall affect authorized and established procedures for the sale of surplus aircraft or vehicles: Provided further, That nothing in this section shall prohibit the leasing of helicopters authorized by section 1463 of the Department of Defense Authorization Act of 1986.

SEC. 8053. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.

SEC. 8054. No funds available to the Department of Defense during the current fiscal year may be used to enter into any contract with a term of eighteen months or more or to extend or renew any contract for a term of eighteen months or more, for any vessel, aircraft or vehicles, through a lease, charter, or similar agreement without previously having been submitted to the Committees on Appropriations of the House of Representatives and the Senate in the budgetary process. Further, any contractual agreement which imposes an estimated termination liability (excluding the estimated value of the leased item at the time of termination) on the Government exceeding 50 per centum of the original purchase value of the vessel, aircraft, or vehicle must have specific authority in an appropriation Act for the obligation of 10 per centum of such termination liability.

SEC. 8055. None of the funds appropriated in this Act may be obligated or expended in any way for the purpose of the sale, lease, rental, or excessing of any portion of land currently identified as Fort DeRussy, Honolulu, Hawaii.

SEC. 8056. None of the funds made available by this Act shall be available to operate in excess of 247 commissaries in the contiguous United States.

SEC. 8057. None of the funds provided in this Act shall be used to procure aircraft ejection seats manufactured in any foreign nation that does not permit United States manufacturers to compete for ejection seat procurement requirements in that foreign nation. This limitation shall apply only to ejection seats procured for installation on aircraft produced or assembled in the United States.

SEC. 8058. No more than $166,766,000 of the funds appropriated by this Act shall be available for the payment of unemployment compensation benefits.

SEC. 8059. None of the funds appropriated by this Act should be obligated for the pay of any individual who is initially employed after the date of enactment of this Act as a technician in the administration and training of the Army Reserve and the maintenance and repair of supplies issued to the Army Reserve unless such individual is also a military member of the Army Reserve troop program unit that he or she is employed to support. Those technicians employed by the Army Reserve in areas other than Army Reserve troop program units need only be members of the Selected Reserve.

SEC. 8060. None of the funds appropriated by this Act shall be used for the transfer of the Department of Defense Dependents Schools (DODDS) to the Department of Education.

SEC. 8061. None of the funds appropriated by this Act shall be used to purchase dogs or cats or otherwise fund the use of dogs or cats for the purpose of training Department of Defense students or other personnel in surgical or other medical treatment of wounds produced by any type of weapon: Provided, That the standards of such training with respect to the treatment of animals shall adhere to the Federal Animal Welfare Law and to those prevailing in the civilian medical community.

SEC. 8062. None of the funds made available by this Act shall be used to initiate full-scale engineering development of any major

defense acquisition program until the Secretary of Defense has provided to the Committees on Appropriations of the House and Senate—

(a) a certification that the system or subsystem being developed will be procured in quantities that are not sufficient to warrant development of two or more production sources, or

(b) a plan for the development of two or more sources for the production of the system or subsystem being developed.

SEC. 8063. None of the funds appropriated by this Act shall be available to pay any member of the uniformed services for unused accrued leave pursuant to section 501 of title 37, United States Code, for more than sixty days of such leave, less the number of days for which payment was previously made under section 501 after February 9, 1976.

SEC. 8064. Within funds available under title II of this Act, but not to exceed $100,000, and under such regulations as the Secretary of Defense may prescribe, the Department of Defense may, in addition to allowances currently available, make payments for travel and transportation expenses of the surviving spouse, children, parents, and brothers and sisters of any member of the Armed Forces of the United States, who dies as the result of an injury or disease incurred in line of duty to attend the funeral of such member in any case in which the funeral of such member is more than two hundred miles from the residence of the surviving spouse, children, parents or brothers and sisters, if such spouse, children, parents or brothers and sisters, as the case may be, are financially unable to pay their own travel and transportation expenses to attend the funeral of such member.

SEC. 8065. None of the funds available to the Department of Defense may be used for the floating storage of petroleum or petroleum products except in vessels of or belonging to the United States.

SEC. 8066. Of the funds made available to the Department of the Air Force in this Act, not less than $3,000,000 shall be available for the Civil Air Patrol.

SEC. 8067. Funds available to the Department of Defense may be used by the Department of Defense for the use of helicopters and motorized equipment at Defense installations for removal of feral burros and horses.

SEC. 8068. So far as may be practicable, Indian labor shall be employed, and purchases of the products of Indian industry may be made in open market in the discretion of the Secretary of Defense: Provided, That the products must meet pre-set contract specifications.

(TRANSFER OF FUNDS)

SEC. 8069. Not to exceed $100,000,000 may be transferred from the appropriation "Operation and Maintenance, Defense Agencies" to operation and maintenance appropriations under the military departments in connection with demonstration projects authorized by section 1092 of title 10, United States Code: Provided, That the Secretary of Defense shall promptly notify the Congress of any such transfer of funds under this provision: Provided further, That the authority to make transfers pursuant to this section is in addition to the authority to make transfers under other provisions of this Act.

SEC. 8070. None of the funds available for Defense installations in Europe shall be used for the consolidation or conversion of heating facilities to district heating distribution systems in Europe: Provided, That those facilities identified by the Department of the Army as of April 11, 1985, as being in advanced stages of negotiations shall be exempt from such provision: Provided further, That nothing in this section shall prohibit the conversion or consolidation of heating facilities to district heating distribution systems at Bad Kissingen, Hessen, in the Federal Republic of Germany.

SEC. 8071. None of the funds appropriated by this Act shall be available to compensate foreign selling costs as described in Federal Acquisition Regulation 31.205-38(b) as in effect on April 1, 1984.

SEC. 8072. Of the funds appropriated for the operation and maintenance of the Armed Forces, obligations may be incurred for humanitarian and civic assistance costs incidental to authorized operations, and these obligations shall be reported to Congress on September 30, 1986: Provided, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance in the Trust Territories of the Pacific Islands by using Civic Action Teams.

SEC. 8073. Notwithstanding any other provision of law, the Secretaries of the Army and Air Force may authorize the retention in an active status until age sixty of any officer who would otherwise be removed from an active status and who is employed as a National Guard or Reserve technician in a position in which active status in a reserve component of the Army or Air Force is required as a condition of that employment.

SEC. 8074. None of the funds available to the Department of Defense may be used to transport any chemical munitions into the Lexington-Blue Grass Army Depot for purposes of future demilitarization.

Sec. 8075. None of the funds appropriated by this Act may be obligated or expended for the purposes delineated in section 1002(e)(2) of the Department of Defense Authorization Act, 1985, without the prior notification to the Committees on Appropriations of the House of Representatives and the Senate.

SEC. 8076. It is the sense of the Congress that the Secretary of Defense should formulate and carry out a program under which contracts awarded by the Department of Defense in fiscal year 1986 would, to the maximum extent practicable and consistent with existing law, be awarded to contractors who agree to carry out such contracts in labor surplus areas (as defined and identified by the Department of Labor).

SEC. 8077. It is the sense of the Congress that competition, which is necessary to enhance innovation, effectiveness, and efficiency, and which has served our Nation so well in other spheres of political and economic endeavor, should be expanded and increased in the provision of our national defense.

SEC. 8078. Notwithstanding any other provision of law, each contract awarded by the Department of Defense in fiscal year 1986 for construction or services to be performed in whole or in part in a State which is not contiguous with another State and has an unemployment rate in excess of the national average rate of unemployment as determined by the Secretary of Labor shall include a provision requiring the contractor to employ, for the purpose of performing that portion of the contract in such State that is not contiguous with another State, individuals who are residents of such State and who, in the case of any craft or trade, possess or would be able to acquire promptly the necessary skills: Provided, That the Secretary of Defense may waive the requirements of this section in the interest of national security.

SEC. 8079. None of the funds appropriated by this Act shall be available to pay a dislocation allowance pursuant to section 407 of title 37, United States Code, in excess of one month's basic allowance for quarters.

SEC. 8080. None of the funds available to the Department of Defense shall be obligated or expended to contract out any activity currently performed by the Defense Personnel Support Center in Philadelphia, Pennsylvania: Provided, That this provision shall not apply after notification to the Committees on Appropriations of the House of Representatives and the Senate of the results of the cost analysis of contracting out any such activity.

SEC. 8081. None of the funds appropriated by this Act shall be used to make contributions to the Department of Defense Education Benefits Fund pursuant to section 2006(g) of title 10, United States Code, representing the normal cost for future benefits under section 1415(c) of title 38, United States Code, for any member of the armed services who, on or after the date of enactment of this Act, receives an enlistment bonus under section 308a or 308f of title 37, United States Code; nor shall any amounts representing the normal cost of such future benefits be transferred from the Fund by the Secretary of the Treasury to the Administrator of Veterans' Affairs pursuant to section 2006(d) of title 10, United States Code; nor shall the Administrator pay such benefits to any such member.

SEC. 8082. Notwithstanding any other provision of this Act, no funds appropriated by this Act shall be expended for the research, development, test, evaluation or procurement for integration of a nuclear warhead into the Joint Tactical Missile System (JTACMS).

SEC. 8083. Under regulations prescribed by the Secretary of Defense, the Department of the Air Force and the Defense Logistics Agency may test a flat rate per diem system for military and civilian travel allowances: Provided, That per diem allowances paid under a flat rate per diem system shall be in an amount determined by the Secretary of Defense to be sufficient to meet normal and necessary expenses in the area in which travel is performed, but in no event will the travel allowances exceed $75 for each day in travel status within the continental United States: Provided further, That the test approved under this section shall expire upon the effective date of permanent legislation establishing a flat rate per diem system for both military and civilian personnel.

SEC. 8084. Notwithstanding any other provision of law, during fiscal year 1986, the Department of Defense is to conduct a pilot test project of providing home health care to dependents entitled to health care under section 1076 of title 10, United States Code: Provided, That such care is medically necessary or appropriate, more cost effective than to continue paying for otherwise authorized CHAMPUS benefits in medical facilities, and the beneficiary is not covered for such care under any other public or private health insurance plan.

SEC. 8085. Not more than $2,744,293,000 of the funds appropriated by this Act may be obligated for permanent change of station travel (including all expenses of such travel for organizational movements): Provided, That assignments for temporary duty may not be increased in order to circumvent this limitation: Provided further, That this limitation may be exceeded only upon a determi-

nation and notification to the Congress by the Secretary of Defense that such action is necessary to meet national security requirements.

SEC. 8086. Funds appropriated in this Act shall be available for the payment of not more than 75 percent of the charges of a postsecondary educational institution for the tuition or expenses of an officer in the Ready Reserve of the Army National Guard or Army Reserve for education or training during his off-duty periods, except that no part of the charges may be paid unless the officer agrees to remain a member of the Ready Reserve for at least four years after completion of such training or education: Provided, That notwithstanding any other provision of law, those individuals who received assistance under the Army National Guard Assistance for Military Professional Development program and who forfeited money as a result of its cancellation on July 22, 1985, and who could not continue in this program, shall be reimbursed for the moneys they forfeited: Provided further, That no interest shall be paid on the amounts reimbursed.

SEC. 8087. None of the funds appropriated in this Act shall be used for professional surveying and mapping services performed by contract for the Defense Mapping Agency unless those contracts are procured in accordance with the selection procedures outlined pursuant to section 2855 of title 10, United States Code.

SEC. 8088. During the current fiscal year, effective January 1, 1985, the rate of the basic allowance for quarters authorized by section 403(a) of title 37, United States Code, which is payable to a member of the uniformed services who was entitled to that allowance on December 31, 1984, shall not be less than the rate of the basic allowance for quarters that was in effect for that member on December 31, 1984 (unless the member holds a lower grade than he held on that date or has had a change in dependent status from a "with dependents" status to a "without dependents" status).

SEC. 8089. None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of enactment of this Act, is performed by more than ten Department of Defense civilian employees until a most efficient and cost-effective organization analysis is completed on such activity or function and certification of the analysis is made to the Committees on Appropriations of the House of Representatives and the Senate.

(TRANSFER OF FUNDS)

SEC. 8090. Upon a determination by the Secretary of Defense that such action will result in a more economical acquisition of automatic data processing equipment, funds provided in this Act under one appropriation account for the lease or purchase of such equipment may be transferred through the Automatic Data Processing Equipment Management Fund to another appropriation account in this Act for the lease or purchase of automatic data processing equipment to be merged with and to be available for the same purposes, and for the same time period, as the appropriation to which transferred: Provided, That within thirty days after the end of each quarter the Secretary of Defense shall report transfers made under this section to the Committees on Appropriations of the Senate and the House of Representatives: Provided further, That the authority to transfer funds under this section shall be in addition to any other transfer authority contained in this Act.

SEC. 8091. Appropriations available to the Department of Defense during the current fiscal year shall be available, under such regulations as the Secretary of Defense may deem appropriate, to exchange or furnish mapping, charting, and geodetic data, supplies or services to a foreign country pursuant to an agreement for the production or exchange of mapping, charting, and geodetic data.

SEC. 8092. The lands described in Bureau of Land Management casefile AA-57372 shall be conveyed to the Municipality of Anchorage pursuant to the public interest land provisions of the North Anchorage Land Agreement if such lands are declared excess to the needs of the Army in Alaska.

SEC. 8093. Section 1411 of the Department of Defense Authorization Act, 1986, (Public Law 99-145) is amended to read as follows:

"SEC. 1411. CONDITIONS ON SPENDING FUNDS FOR BINARY CHEMICAL MUNITIONS.

"(a) LIMITATION ON FISCAL YEAR 1986 FUNDS.—Funds appropriated pursuant to authorizations of appropriations in title I may not be used—

"(1) for procurement or assembly of binary chemical munitions (or components of such munitions); or

"(2) for establishment of production facilities necessary for procurement or assembly of binary chemical munitions (or components of such munitions), except in accordance with subsections (b), (c), (d), and (e).

"(b) NATO CONSULTATION.—Subject to subsections (c), (d), and (e), funds referred to in subsection (a) may be used for procurement or assembly of binary chemical munitions or for the establishment of production facilities necessary for the procurement or assembly of binary chemical munitions (or components of such munitions) if the President certifies to Congress that the United States—

"(1) has submitted to the North Atlantic Treaty Organization, a force goal stating the requirement for modernization of the United States proportional share of the NATO chemical deterrent with binary munitions and said force goal has been formally adopted by the North Atlantic Council;

"(2) has developed in coordination with the Supreme Allied Commander, Europe, a plan under which United States binary chemical munitions can be deployed under appropriate contingency plans to deter chemical weapons attacks against the United States and its allies; and

"(3) has consulted with other member nations of the North Atlantic Treaty Organization (NATO) on that plan.

"(c) CONDITIONS FOR FINAL ASSEMBLY.—Funds referred to in subsection (a) may not be used for the final assembly of complete binary chemical munitions before October 1, 1987, and, subject to subsections (d) and (e), may only be used for such purpose on or after that date if—

"(1) a mutually verifiable international agreement concerning binary and other similar chemical munitions has not been entered into by the United States by that date;

"(2) the President, after that date, transmits to Congress a certification that—

"(A) final assembly of such complete munitions is necessitated by national security interests of the United States and the interests of other NATO member nations;

"(B) handling and storage safety specifications established by the Department of Defense with respect to such munitions will be met or exceeded;

"(C) applicable Federal safety requirements will be met or exceeded in the handling, storage, and other use of such munitions; and

"(D) the plan of the Secretary of Defense for destruction of existing United States chemical warfare stocks developed pursuant to section 1412 (which shall, if not sooner transmitted to Congress, accompany such certification) is ready to be implemented;

"(3) final assembly is carried out only after the end of the 60-day period beginning on the date such certification is received by the Congress;

"(4) the plan of the Secretary of Defense for land-based storage of such munitions within the United States during peacetime provides that the two components that constitute a binary chemical munition are to be stored in separate States; and

"(5) the plan of the Secretary of Defense for the transportation of such munitions within the United States during peacetime provides that the two components that constitute a binary munition are transported separately.

"(d) RESTRICTIONS ON PRODUCTION OF THE BIGEYE BOMB.—Except as provided below, none of the funds appropriated pursuant to authorizations of appropriations in title I may be used for procurement or assembly of the BIGEYE binary chemical bomb or for procurement of components for the BIGEYE bomb until 60 days after the Secretary of Defense has submitted a report describing—

"(1) the specific operational requirements which must be achieved by the BIGEYE system; and

"(2) the actual performance of the system during operational testing with respect to each of the operational test criteria; and

"(3) any exceptions to the operational criteria deemed acceptable by the Department of Defense.

"Subject to subsection (b) nothing in this subsection will prohibit the procurement of BIGEYE production facilities and associated equipment.

"(e) RESTRICTION ON PRODUCTION OF THE GB-2 ARTILLERY PROJECTILE.—None of the funds appropriated pursuant to authorizations in title I for procurement or assembly of the GB-2 artillery projectile may be obligated or expended before October 1, 1986.

"(f) SENSE OF CONGRESS.—It is the sense of Congress that existing unitary chemical munitions currently stored in the United States and in European member nations of NATO should be replaced by modern, safer binary chemical munitions.

"(g) REPORT.—Not later than October 1, 1986, the President shall submit to Congress a report describing the results of consultations among NATO member nations concerning the organization's chemical deterrent posture. The report shall include descriptions of any consultations concerning—

"(1) efforts to provide key civilian workers at military support facilities in Europe—

"(A) with personal and collective equipment to protect against the use of chemical munitions; and

"(B) with the training required for the use of such equipment;

"(2) efforts to upgrade the chemical reconnaissance, decontamination, and protective capabilities of the military forces of each NATO member nation to a level adequate to meet the chemical threat identified in NATO intelligence estimates;

"(3) efforts to initiate a NATO-wide study of measures required to protect ports, airfields, logistics centers, and command and control facilities in European member nations of NATO against chemical attack; and

"(4) efforts to initiate a NATO-wide study of equitable and efficient sharing among NATO member nations of responsibilities with regard to deterring the use of chemical munitions in Europe.".

SEC. 8094. None of the funds appropriated in this Act may be obligated or expended for procurement of C-12 aircraft unless such aircraft are procured through competitive procedures (as defined in section 2302(2) of title 10, United States Code), which shall be restricted to turboprop aircraft.

SEC. 8095. None of the funds in this Act may be obligated for procurement of 120mm mortars or 120mm mortar ammunition manufactured outside of the United States: Provided, That this limitation shall not apply to procurement of such mortars or ammunition required for testing, evaluation, type classification or equipping the Army's Ninth Infantry Division (Motorized).

SEC. 8096. Appropriations made available to the Department of Defense by this Act may be used at sites formerly used by the Department of Defense for removal of unsafe buildings or debris of the Department of Defense: Provided, That such removal must be completed before the property is released from Federal Government control, other than property conveyed to State or local government entities or native corporations.

SEC. 8097. None of the funds appropriated by this Act or any other Act may be obligated or expended to carry out a test of the Space Defense System (anti-satellite weapon) against an object in space until the President certifies to Congress that the Soviet Union has conducted, after October 3, 1985, a test against an object in space of a dedicated anti-satellite weapon.

SEC. 8098. Of the funds made available by this Act to the Department of the Army, $7,200,000 shall be transferred to the Bureau of Land Management for the relocation of the district office at Fort Wainwright, Alaska.

SEC. 8099. None of the funds appropriated by this Act shall be used for the support of any nonappropriated fund activity of the Department of Defense that procures alcoholic beverages with nonappropriated funds for resale (including alcoholic beverages sold by the drink) on a military installation located in the United States, unless such alcoholic beverages are procured in the State, or in the case of the District of Columbia, within the District of Columbia, in which the installation is located: Provided, That in a case in which a military installation is located in more than one State, purchases may be made in any State in which the installation is located: Provided further, That not later than one year after the date of enactment of this Act, the Secretary shall transmit a report to the Congress concerning the implementation of this section.

(TRANSFER OF FUNDS)

SEC. 8100. The Secretary of Defense may transfer, not to exceed $468,000,000 from the Foreign Currency Fluctuation, Defense account to appropriations provided in title II of this Act: Provided, That the Secretary of Defense shall report to the Committees on Appropriations of the House of Representatives and Senate of transfers made under this authority: Provided further, That funds so transferred shall be made available for the same time period and purpose as the appropriation to which transferred: Provided further, That this transfer authority is in addition to any other transfer authority provided elsewhere in this Act.

SEC. 8101. Within the funds made available under title II of this Act, the military departments may use such funds as necessary, but not to exceed $4,700,000, to carry out the provisions of section 430 of title 37, United States Code.

SEC. 8102. The amendments made to section 7572(b)(3) of title 10, United States Code, and to section 3 of Public Law 96-357 (10 U.S.C. 7572 note) by section 606 of the Department of Defense Authorization Act, 1986, shall apply to reimbursement of expenses incurred on or after October 1, 1985, by a member of a uniformed service on sea duty.

SEC. 8103. (a) In addition to other funds made available by this Act, $6,306,906,000 shall be available for obligation and expenditure from prior year unobligated balances from the following accounts in the amounts specified:

	Prior Year Transfer
Aircraft Procurement, Army—1985/87	$117,900,000
Missile Procurement, Army—1984/86	10,100,000
Missile Procurement, Army—1985/87	56,400,000
Procurement of Weapons and Tracked Combat Vehicles, Army—1984/86	336,500,000
Procurement of Weapons and Tracked Combat Vehicles, Army—1985/87	253,800,000
Procurement of Ammunition, Army—1984/86	30,400,000
Procurement of Ammunition, Army—1985/87	147,700,000
Other Procurement, Army—1984/86	81,000,000
Other Procurement, Army—1985/87	176,500,000
Aircraft Procurement, Navy—1984/86	60,800,000
Aircraft Procurement, Navy—1985/87	490,500,000
Weapons Procurement, Navy—1985/87	15,000,000
Shipbuilding and Conversion, Navy—1982/86	391,600,000
Shipbuilding and Conversion, Navy—1983/87	691,300,000
Shipbuilding and Conversion, Navy—1984/88	398,600,000
Shipbuilding and Conversion, Navy—1985/89	517,800,000
Other Procurement, Navy—1984/86	75,790,000
Other Procurement, Navy—1985/87	200,693,000
Procurement, Marine Corps—1985/87	47,717,000
Aircraft Procurement, Air Force—1984/86	246,400,000
Aircraft Procurement, Air Force—1985/87	864,000,000
Missile Procurement, Air Force—1984/86	29,400,000
Missile Procurement, Air Force—1985/87	53,400,000
Other Procurement, Air Force—1984/86	94,127,000
Other Procurement, Air Force—1985/87	253,349,000
Procurement, Defense Agencies—1984/86	15,000,000
Procurement, Defense Agencies—1985/87	21,000,000
Research, Development, Test and Evaluation, Army—1985/86	96,130,000
Research, Development, Test and Evaluation, Navy—1985/86	188,000,000
Research, Development, Test and Evaluation, Air Force—1985/86	264,000,000
Research, Development, Test and Evaluation, Defense Agencies—1985/86	82,000,000
TOTAL	$6,306,906,000

(b) The foregoing unobligated balances in subsection (a) shall remain available for obligation only for the time period provided when originally appropriated, and may be transferred by the Secretary of Defense to appropriations in titles I, II, III, IV, VI and VII as may be required for only the military pay raise of October 1, 1985, payments to the military retirement trust fund including those requirements that may be established by subsequent acts of Congress, the Mariner Fund and the Coastal Defense Augmentation account, and for increased readiness of conventional forces in programs funded in the operation and maintenance accounts, including but not limited to flying hours, steaming hours, and training: Provided, That no funds may be transferred or obligated until 15 days after the Secretary of Defense notifies the Committees on Appropriations of the House and Senate of such transfers and obligations: Provided further, That $852,100,000 shall be available only for the Mariner Fund and may not be obligated or expended for any purpose until enactment of legislation establishing a Mariner Fund program for construction and lease of militarily useful vessels and until 60 days after notification to the Committees on Appropriations of the House and Senate of the intent to obligate from such Fund: Provided further, That notwithstanding any other provision of this section, after May 1, 1986, obligations from the Military Personnel accounts contained in this Act shall not exceed a rate in excess of the rate required to limit total obligations to the obligation ceilings established by law for such accounts for fiscal year 1986: Provided further, That in addition to funds appropriated elsewhere in this Act, $140,000,000 of the foregoing unobligated balances shall be for the Coastal Defense Augmentation account: Provided further, That none of the foregoing unobligated balances may be transferred, reprogramed, or otherwise applied to offset the impact of sequester orders required under the provisions of the Balanced Budget and Emergency Deficit Control Act of 1985: Provided further, That the transfer authority contained in this section shall be in addition to any other transfer authority contained in this Act.

SEC. 8104. None of the funds available to the Department of the Navy may be used to enter into any contract for the overhaul, repair, or maintenance of any naval vessel on the West Coast of the United States which includes charges for interport differential as an evaluation factor for award.

SEC. 8105. Notwithstanding any other provision of law, none of the funds appropriated by this Act shall be used for the installation, maintenance, and operation of a 22¾ x 36-inch perfecting web offset press with in-line folder procured by or for the Department of the Air Force under solicitation number F01600-85-B0021.

SEC. 8106. None of the funds made available by this Act may be used to alter the command structure for military forces in Alaska.

SEC. 8107. None of the funds appropriated in this Act may be obligated or expended to carry out a program to paint any naval vessel with paint known as organotin or with any other paint containing the chemical compound tributyltin until such time as the Environmental Protection Agency certifies to the Department of Defense that whatever toxicity as generated by organotin paints as included in Navy specifications does not pose an unacceptable hazard to the marine environment.

SEC. 8108. No funds appropriated under this Act for the Strategic Defense Initiative Program shall be earmarked by any agency of the United States Government or any contractor exclusively for contracts with non-United States contractors, subcontractors, or vendors, or exclusively for consortia containing non-United States contractors, subcontractors, or vendors, prior to source selection in order to meet a specific quota or allocation of funds to any allied nation. Furthermore, it is the sense of the Congress that, whenever possible, the Secretary of Defense and others should attempt to award Strategic Defense Initiative contracts to United States contractors, subcontractors, and vendors unless such awards would degrade the likely results obtained from such contracts: Provided, That allied nations should be encouraged to participate in the Strategic Defense Initiative research effort on a competitive basis and be awarded contracts on the basis of technical merit.

SEC. 8109. None of the funds appropriated pursuant to this Act to or for the use of the Department of Defense may be obligated or expended for any purpose unless such funds have been authorized to be appropriated for such purpose by law other than this Act: Provided, That the preceding sentence does not apply to funds appropriated in this Act for Coastal Defense Augmentation; $375,000,000.

SEC. 8110. Of the funds available in the Army Industrial Fund, $25,000,000 shall be

available to be used to implement immediately, or to transfer to another appropriation account in this Act to be used to implement immediately, the program proposed by the Department in its letter of August 30, 1985, from the Assistant Secretary of Defense for Acquisition and Logistics, to rehabilitate and convert current steam generating plants at defense facilities in the United States to coal burning facilities in order to achieve a coal consumption target of 1,600,000 short tons of coal per year above current consumption levels at Department of Defense facilities in the United States by fiscal year 1994: Provided, That anthracite or bituminous coal shall be the source of energy at such installations: Provided further, That during the implementation of this proposal, the amount of anthracite coal purchased by the Department shall remain at least at the current annual purchase level, 302,000 short tons.

SEC. 8111. The Secretary of Defense and the Administrator of the National Aeronautics and Space Administration will jointly determine which payloads will be launched on Titan II launch vehicles and certify by notice to the Congress that such launches are cost-effective as compared to launches by the space shuttle and do not diminish the efficient and effective utilization of the space shuttle capability: Provided, That this section may be waived only upon certification by the Secretary of Defense that certain classified payloads must be launched on the Titan II launch vehicle as opposed to the space shuttle, for national security reasons.

SEC. 8112. (a) REVISIONS TO DEFENSE CONTRACT ALLOWABLE COST PROVISION.—Section 2324 of title 10, United States Code, is amended as follows:

(1) Subsection (e)(2) is amended—

(A) by inserting "(A)" after "(2)"; and

(B) by adding at the end thereof the following new subparagraph:

"(B) The Secretary shall submit to the committees named in subparagraph (C) and proposed regulations that would make substantive changes to regulations prescribed under the second sentence of subparagraph (A) before the publication of such proposed regulations in accordance with section 22 of the Office of Federal Procurement Policy Act (41 U.S.C. 418b).

"(C) The committees named in this subparagraph are—

"(i) the Committees on Armed Services and on Government Operations of the House of Representatives; and

"(ii) the Committees on Armed Services and on Governmental Affairs of the Senate.".

(2) Subsection (h)(2) is amended by inserting ", in an exceptional case," after "concerned may".

(3) Such section is further amended by redesignating subsection (j) as subsection (k) and inserting after subsection (i) the following new subsection (j):

"(j)(1) The Comptroller General shall periodically evaluate the implementation of this section by the Secretary of Defense. Such evaluation shall consider the extent to which—

"(A) such implementation is consistent with congressional intent;

"(B) such implementation achieves the objective of eliminating unallowable costs charged to defense contracts; and

"(C) such implementation (as well as the provisions of this section and the regulations prescribed under this section) could be improved or strengthened.

"(2) The Comptroller General shall submit to the committees named in subsection (e)(2)(C) a report on such evaluation within 90 days of publication by the Secretary of Defense in the Federal Register of regulations that make substantive changes in regulations prescribed under subsection (e) or (f) or in any other regulations of the Department of Defense pertaining to allowable costs under covered contracts.".

(b) CONGRESSIONAL COMMITTEE REVIEW OF PROPOSED INITIAL REGULATIONS.—(1) The regulations required under section 911(b) of the Department of Defense Authorization Act, 1986 (Public Law 99-145), to be prescribed not later than 150 days after the date of the enactment of such Act shall be submitted to the committees named in paragraph (2) before the publication of such regulations in accordance with section 22 of the Office of Federal Procurement Policy Act (41 U.S.C. 418b).

(2) The committees named in this paragraph are—

(A) the Committees on Armed Services and on Government Operations of the House of Representatives; and

(B) the Committees on Armed Services and on Government Affairs of the Senate.

(c) INITIAL COMPTROLLER GENERAL EVALUATION AND REPORT.—The Comptroller General shall submit to the committees named in subsection (b)(2) a report on the Comptroller General's initial evaluation under subsection (j)(1) of section 2324 of title 10, United States Code, as added by subsection (a). Such report shall be submitted within 180 days of the publication by the Secretary of Defense under section 911(b) of the Department of Defense Authorization Act, 1986 (Public Law 99-145), of the regulations referred to in such section.

This Act may be cited as the "Department of Defense Appropriations Act, 1986".;

And the Senate agree to the same.

Amendment numbered 6:

That the House recede from its disagreement to the amendment of the Senate numbered 6, and agree to the same with an amendment, as follows:

In lieu of the subsection named in said amendment insert: (c); and the Senate agree to the same.

Amendment numbered 7:

That the House recede from its disagreement to the amendment of the Senate numbered 7, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

"(e) Such amounts as may be necessary for programs, projects or activities provided for in the Department of the Interior and Related Agencies Appropriations Act, 1986, at a rate of operations and to the extent and in the manner provided as follows, to be effective as if it had been enacted into law as the regular appropriations Act:".

An Act making appropriations for the Department of the Interior and Related Agencies for the fiscal year ending September 30, 1986, and for other purposes.

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

For expenses necessary for protection, use, improvement, development, disposal, cadastral surveying, classification, and performance of other functions, including maintenance of facilities, as authorized by law, in the management of lands and their resources under the jurisdiction of the Bureau of Land Management, including the general administration of the Bureau of Land Management, $398,566,000.

CONSTRUCTION AND ACCESS

For acquisition of lands and interests therein, and construction of buildings, recreation facilities, roads, trails, and appurtenant facilities, $1,403,000, to remain available until expended.

PAYMENTS IN LIEU OF TAXES

For expenses necessary to implement the Act of October 20, 1976 (31 U.S.C. 6901-07), $105,000,000, of which not to exceed $400,000 shall be available for administrative expenses.

LAND ACQUISITION

For expenses necessary to carry out the provisions of sections 205, 206, and 318(d) of Public Law 94-579 including administrative expenses and acquisition of lands or waters, or interest therein, $2,300,000, to be derived from the Land and Water Conservation Fund, to remain available until expended.

OREGON AND CALIFORNIA GRANT LANDS

For expenses necessary for management, protection, and development of resources and for construction, operation, and maintenance of access roads, reforestation, and other improvements on the revested Oregon and California Railroad grant lands, on other Federal lands in the Oregon and California land-grant counties of Oregon, and on adjacent rights-of-way; and acquisition of lands or interests therein including existing connecting roads on or adjacent to such grant lands; $56,114,000, to remain available until expended: Provided, That the amount appropriated herein for road construction shall be transferred to the Federal Highway Administration, Department of Transportation: Provided further, That 25 per centum of the aggregate of all receipts during the current fiscal year from the revested Oregon and California Railroad grant lands is hereby made a charge against the Oregon and California land grant fund and shall be transferred to the General Fund in the Treasury in accordance with the provisions of the second paragraph of subsection (b) of title II of the Act of August 28, 1937 (50 Stat. 876).

RANGE IMPROVEMENTS

For rehabilitation, protection, and acquisition of lands and interests therein, and improvement of Federal rangelands pursuant to section 401 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701), notwithstanding any other Act, sums equal to 50 per centum of all moneys received during the prior fiscal year under sections 3 and 15 of the Taylor Grazing Act (43 U.S.C. 315, et seq.), but not less than $10,000,000 (43 U.S.C. 1901), and the amount designated for range improvements from grazing fees and mineral leasing receipts from Bankhead-Jones lands transferred to the Department of the Interior pursuant to law, to remain available until expended: Provided, That not to exceed $600,000 shall be available for administrative expenses: Provided further, That the dollar equivalent of value, in excess of the grazing fee established under law and paid to the United States Government, received by any permittee or lessee as compensation for an assignment of a grazing permit or lease, or any grazing privileges or rights thereunder, and in excess of the installation and maintenance cost of grazing improvements provided for by the permittee in the allotment management plan or amendments or otherwise approved by the Bureau of Land Management, shall be paid to the Bureau of Land Management and disposed of as provided for by section 401(b) of the Federal

Land Policy and Management Act of 1976 (43 U.S.C. 1701): Provided further, That if the dollar value prescribed above is not paid to the Bureau of Land Management, the grazing permit or lease shall be canceled.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

For administrative expenses and other costs related to processing application documents and other authorizations for use and disposal of public lands and resources, for monitoring construction, operation, and termination of facilities in conjunction with use authorizations, and for rehabilitation of damaged property, such amounts as may be collected under sections 209(b), 304(a), 304(b), 305(a), and 504(g) of the Act approved October 21, 1976 (43 U.S.C. 1701), and sections 101 and 203 of Public Law 93-153, to be immediately available until expended.

MISCELLANEOUS TRUST FUNDS

In addition to amounts authorized to be expended under existing law, there is hereby appropriated such amounts as may be contributed under section 307 of the Act of October 21, 1976 (43 U.S.C. 1701), and such amounts as may be advanced for administrative costs, surveys, appraisals, and costs of making conveyances of omitted lands under section 211(b) of that Act, to remain available until expended.

ADMINISTRATIVE PROVISIONS

Appropriations for the Bureau of Land Management shall be available for purchase, erection, and dismantlement of temporary structures and alteration and maintenance of necessary buildings and appurtenant facilities to which the United States has title; up to $10,000 for payments, at the discretion of the Secretary, for information or evidence concerning violations of laws administered by the United States Bureau of Land Management; miscellaneous and emergency expenses of enforcement activities authorized or approved by the Secretary and to be accounted for solely on his certificate, not to exceed $10,000: Provided, That appropriations herein made for the Bureau of Land Management expenditures in connection with the revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands (other than expenditures made under the appropriation "Oregon and California grant lands") shall be reimbursed to the General Fund of the Treasury from the 25 per centum referred to in subsection (c), title II, of the Act approved August 28, 1937 (50 Stat. 876), of the special fund designated the "Oregon and California land grant fund" and section 4 of the Act approved May 24, 1939 (53 Stat. 754), of the special fund designated the "Coos Bay Wagon Road grant fund": Provided further, That appropriations herein made may be expended for surveys of Federal lands of the United States and on a reimbursable basis for surveys of Federal lands of the United States and for protection of lands for the State of Alaska: Provided further, That an appeal of any reductions in grazing allotments on public rangelands must be taken within thirty days after receipt of a final grazing allotment decision. Reductions of up to 10 per centum in grazing allotments shall become effective when so designated by the Secretary of the Interior. Upon appeal any proposed reduction in excess of 10 per centum shall be suspended pending final action on the appeal, which shall be completed within two years after the appeal is filed: Provided further, That appropriations herein made shall be available for paying costs incidental to the utilization of services contributed by individuals who serve without compensation as volunteers in aid of work of the Bureau.

Notwithstanding any other provision of this Act, in the event the sale, award, or operation of any timber sale or sales in the Medford (Oregon) District of the Bureau of Land Management is enjoined, stayed or otherwise delayed by reason of administrative appeal or judicial review, the Secretary of the Interior shall resell timber returned under provisions of the Federal Timber Contract Payment Modification Act to the extent necessary to achieve sale of the full annual allowable cut for fiscal years 1985 and 1986 in the Medford District. The Secretary shall determine the potential environmental degradation of timber sales returned pursuant to the Federal Timber Contract Payment Modification Act and shall characterize each sale's potential environmental impact as minimal, moderate, or serious. The Secretary must give resale priority to those sales with the least risk of potential environmental degradation. Sales that are reoffered may be modified, including minor additions. Any decision of the Secretary to resell such timber shall not be subject to judicial review.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

For expenses necessary for scientific and economic studies, conservation, management, investigations, protection, and utilization of sport fishery and wildlife resources, except whales, seals, and sea lions, and for the performance of other authorized functions related to such resources; for the general administration of the United States Fish and Wildlife Service; and for maintenance of the herd of long-horned cattle on the Wichita Mountains Wildlife Refuge; and not less than $3,300,000 for high priority projects within the scope of the approved budget which shall be carried out by Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408, $301,222,000, of which $4,420,000 to carry out the purposes of 16 U.S.C. 1535, shall remain available until expended; and of which $5,665,000 shall be for operation and maintenance of fishery mitigation facilities constructed by the Corps of Engineers under the Lower Snake River Compensation Plan, authorized by the Water Resources Development Act of 1976 (90 Stat. 2921), to compensate for loss of fishery resources from water development projects on the Lower Snake River, which will remain available until expended.

CONSTRUCTION AND ANADROMOUS FISH

For construction and acquisition of buildings and other facilities required in the conservation, management, investigations, protection, and utilization of sport fishery and wildlife resources, and the acquisition of lands and interests therein; $21,296,000, to remain available until expended, of which $2,000,000 shall be available for expenses to carry out the Anadromous Fish Conservation Act (16 U.S.C. 757a-757g).

MIGRATORY BIRD CONSERVATION ACCOUNT

For an advance to the migratory bird conservation account, as authorized by the Act of October 4, 1971, as amended (16 U.S.C. 715k-3, 5), $15,000,000, to remain available until expended.

LAND ACQUISITION

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l-4-11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the United States Fish and Wildlife Service, $40,670,000, to be derived from the Land and Water Conservation Fund, to remain available until expended.

NATIONAL WILDLIFE REFUGE FUND

For expenses necessary to implement the Act of October 17, 1978 (16 U.S.C. 715s), $5,645,000.

ADMINISTRATIVE PROVISIONS

Appropriations and funds available to the United States Fish and Wildlife Service shall be available for purchase of not to exceed 191 passenger motor vehicles of which 178 are for replacement only (including 67 for police-type use); purchase of 4 new aircraft for replacement only; acceptance of one donated aircraft as an addition; not to exceed $300,000 for payment, at the discretion of the Secretary, for information, rewards, or evidence concerning violations of laws administered by the United States Fish and Wildlife Service, and miscellaneous and emergency expenses of enforcement activities, authorized or approved by the Secretary and to be accounted for solely on his certificate; repair of damage to public roads within and adjacent to reservation areas caused by operations of the United States Fish and Wildlife Service; options for the purchase of land at not to exceed $1 for each option; facilities incident to such public recreational uses on conservation areas as are consistent with their primary purpose; and the maintenance and improvement of aquaria, buildings, and other facilities under the jurisdiction of the United States Fish and Wildlife Service and to which the United States has title, and which are utilized pursuant to law in connection with management and investigation of fish and wildlife resources.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

For expenses necessary for the management, operation, and maintenance of areas and facilities administered by the National Park Service (including special road maintenance service to trucking permittees on a reimbursable basis), and for the general administration of the National Park Service, including not to exceed $410,000 for the Roosevelt Campobello International Park Commission, $490,000 for the Volunteers-in-the-Park program, not less than $3,300,000 for high priority projects within the scope of the approved budget which shall be carried out by Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408, and $175,000 for the National Capital Children's Museum and $175,000 for the Arena Stage as if authorized by the Historic Sites Act of 1935 (16 U.S.C. 462(e)), $627,763,000 without regard to the Act of August 24, 1912, as amended (16 U.S.C. 451): Provided, That the Park Service shall not enter into future concessionaire contracts, including renewals, that do not include a termination for cause clause that provides for possible extinguishment of possessory interests excluding depreciated book value of concessionaire investments without compensation: Provided further, That hereafter appropriations for maintenance and improvement of roads within the boundary of Indiana Dunes National Lakeshore shall be available for such purposes without regard to whether title to such road rights-of-way is in the United States: Provided further, That $85,000 shall be available to assist the town of Harpers Ferry, West Virginia, for police force use: Provided further,

That the educational center to be located at the Boott Mill Complex, Building No. 6, in the Lowell National Historical Park, Massachusetts, is hereby designated and shall be known as the "Paul E. Tsongas Industrial History Center": Provided further, That $150,000 shall be available solely for the restoration and renovation of the Lonoke Depot in Lonoke, Arkansas.

NATIONAL RECREATION AND PRESERVATION

For expenses necessary to carry out recreation programs, natural programs, cultural programs, environmental compliance and review, and grant administration, not otherwise provided for, $11,096,000.

HISTORIC PRESERVATION FUND

For expenses necessary in carrying out the provisions of the Historic Preservation Act of 1966 (80 Stat. 915), as amended (16 U.S.C. 470), $24,945,000 to be derived from the Historic Preservation Fund, established by section 108 of that Act, as amended, to remain available for obligation until September 30, 1987.

CONSTRUCTION

For construction, improvements, repair or replacement of physical facilities, without regard to the Act of August 24, 1912, as amended (16 U.S.C. 451), $114,121,000, to remain available until expended, of which $8,500,000 shall be derived by transfer from the National Park System Visitor Facilities Fund, including $3,168,000 to carry out the provisions of sections 303 and 304 of Public Law 95-290; including, subject to authorization, $8,100,000 be expended for engineering and construction of the Burr Trail National Rural Scenic Road in and adjacent to the Capitol Reef National Park and the Glen Canyon National Recreation Area and an interpretive center near the town of Boulder, Utah, such funds to be transferred to the State of Utah for accomplishment of these activities in accordance with the provisions of a cooperative agreement to be developed among the National Park Service, the Bureau of Land Management, Garfield County, and the State of Utah: Provided, That appropriations for maintenance and improvement of roads within Capitol Reef National Park and Glen Canyon National Recreation Area and construction and maintenance of an interpretive center shall hereafter be available for such purposes without regard to whether title to such road rights-of-way or lands for the interpretive center is in the United States: Provided further, That in the event the National Park Service fails to maintain the road as provided under the terms of said cooperative agreement, any rights-of-way which may be transferred to the National Park Service will revert to Garfield County: Provided further, That in the event of reversion of the road to Garfield County, the County shall provide payment to the United States of an amount based upon the depreciated value of the capital investment resulting from Federal funds expended on the road for construction purposes; and including $2,000,000 to assist local communities to protect Mammoth Cave National Park from groundwater pollution: Provided further, That the National Park Service share of the Mammoth Cave protection project shall not exceed 25 per centum: Provided further, That for payment of obligations incurred for continued construction of the Cumberland Gap Tunnel, as authorized by section 160 of Public Law 93-87, $10,300,000, to be derived from the Highway Trust Fund and to remain available until expended to liquidate contract authority provided under section 104(a)(8) of Public Law 95-599, as amended, such contract authority to remain available until expended: Provided further, That funds made available pursuant to this Act for the Cumberland Gap Tunnel shall only be available when the States of Kentucky and Tennessee have entered into an agreement with the National Park Service to operate and maintain all portions of U.S. Route 25E, including the Tunnel, within the boundaries of the Cumberland Gap National Historic Park.

LAND ACQUISITION AND STATE ASSISTANCE

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l-4-11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the National Park Service, $98,400,000, to be derived from the Land and Water Conservation Fund, to remain available until expended, of which $50,000,000 is for the State Assistance program including $1,650,000 to administer the program: Provided, That State administrative expenses associated with the State grant portion of the State Assistance program shall not exceed 15 percent: Provided further, That none of the State Assistance funds may be used as a contingency fund: Provided further, That of the amounts previously appropriated to the Secretary's contingency fund for grants to States, $852,000 shall be available in 1986 for administrative expenses of the State grant program.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

For expenses necessary for operating and maintaining the nonperforming arts functions of the John F. Kennedy Center for the Performing Arts, $4,800,000.

ILLINOIS AND MICHIGAN CANAL NATIONAL HERITAGE CORRIDOR COMMISSION

For the operation of the Illinois and Michigan Canal National Heritage Corridor Commission, $250,000.

JEFFERSON NATIONAL EXPANSION MEMORIAL COMMISSION

For the operation of the Jefferson National Expansion Memorial Commission, $75,000.

ADMINISTRATIVE PROVISIONS

Appropriations for the National Park Service shall be available for the purchase of not to exceed 1 aircraft and 286 passenger motor vehicles, of which 242 shall be for replacement only, including not to exceed 174 for police-type use and 6 buses; to provide, notwithstanding any other provision of law, at a cost not exceeding $100,000, transportation for children in nearby communities to and from any unit of the National Park System used in connection with organized recreation and interpretive programs of the National Park Service; options for the purchase of land at not to exceed $1 for each option; and for the procurement and delivery of medical services within the jurisdiction of units of the National Park System: Provided, That any funds available to the National Park Service may be used, with the approval of the Secretary, to maintain law and order in emergency and other unforeseen law enforcement situations and conduct emergency search and rescue operations in the National Park System: Provided further, That none of the funds appropriated to the National Park Service may be used to process any grant or contract documents which do not include the text of 18 U.S.C. 1913: Provided further, That none of the funds appropriated to the National Park Service may be used to add industrial facilities to the list of National Historic Landmarks without the consent of the owner: Provided further, That the National Park Service may use helicopters and motorized equipment at Death Valley National Monument for removal of feral burros and horses: Provided further, That the loan ceiling established under section 4(b) of Public Law 97-310, the Wolf Trap Farm Park Act, as amended, is increased to $9,500,000. Notwithstanding the loan repayment provisions of Public Law 97-310, the dollar amount of items paid for by the Wolf Trap Foundation from funds provided by the additional loan authority in this section that is subsequently reimbursed to the Foundation by a court award or insurance settlement shall be repaid to the Secretary of the Interior by the Wolf Trap Foundation within 90 days of the date of the court award or insurance settlement.

GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

For expenses necessary for the Geological Survey to perform surveys, investigations, and research covering topography, geology, and the mineral and water resources of the United States, its Territories and possessions, and other areas as authorized by law (43 U.S.C. 31, 1332 and 1340); classify lands as to their mineral and water resources; give engineering supervision to power permittees and Federal Energy Regulatory Commission licensees; administer the minerals exploration program (30 U.S.C. 641); and publish and disseminate data relative to the foregoing activities; $431,961,000: Provided, That $52,324,000 shall be available only for cooperation with States or municipalities for water resources investigations: Provided further, That no part of this appropriation shall be used to pay more than one-half the cost of any topographic mapping or water resources investigations carried on in cooperation with any State or municipality: Provided further, That in fiscal year 1986 and thereafter, all amortization fees resulting from the Geological Survey providing telecommunications services shall be deposited in a special fund to be established on the books of the Treasury and be immediately available for payment of replacement or expansion of telecommunications services, to remain available until expended: Provided further, That the Geological Survey is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, or private.

ADMINISTRATIVE PROVISIONS

The amount appropriated for the Geological Survey shall be available for purchase of not to exceed 16 passenger motor vehicles, for replacement only; reimbursement to the General Services Administration for security guard services; contracting for the furnishing of topographic maps and for the making of geophysical or other specialized surveys when it is administratively determined that such procedures are in the public interest; construction and maintenance of necessary buildings and appurtenant facilities; acquisition of lands for observation wells; expenses of the United States National Committee on Geology; and payment of compensation and expenses of persons on the rolls of the Geological Survey appointed, as authorized by law, to represent the United States in the negotiation and administration of interstate compacts: Provided, That appropriations herein made shall be available for paying costs incidental to the

utilization of services contributed by individuals who serve without compensation as volunteers in aid of work of the Geological Survey, and that within appropriations herein provided, Geological Survey officials may authorize either direct procurement of or reimbursement for expenses incidental to the effective use of volunteers such as, but not limited to, training, transportation, lodging, subsistence, equipment, and supplies: Provided further, That provision for such expenses or services is in accord with volunteer or cooperative agreements made with such individuals, private organizations, educational institutions, or State or local governments.

MINERALS MANAGEMENT SERVICE

LEASING AND ROYALTY MANAGEMENT

For expenses necessary for minerals leasing and environmental studies, regulation of industry operations, and collection of royalties, as authorized by law; for enforcing laws and regulations applicable to oil, gas, and other minerals leases, permits, licenses and operating contracts; and for matching grants or cooperative agreements; including the purchase of not to exceed 8 passenger motor vehicles for replacement only; $168,018,000, of which not less than $45,260,000 shall be available for royalty management activities including general administration: Provided, That notwithstanding any other provision of law, when in fiscal year 1986 and thereafter any permittee provides data and information to the Secretary pursuant to section 1352(a)(1)(C)(iii) of title 43, United States Code, the Secretary shall pay only the reasonable cost of reproducing such data and information: Provided further, That notwithstanding any other provision of law, funds appropriated under this Act shall be available for the payment of interest in accordance with 30 U.S.C. 1721(b) and (d).

BUREAU OF MINES

MINES AND MINERALS

For expenses necessary for conducting inquiries, technological investigations and research concerning the extraction, processing, use and disposal of mineral substances without objectionable social and environmental costs; to foster and encourage private enterprise in the development of mineral resources and the prevention of waste in the mining, minerals, metal and mineral reclamation industries; to inquire into the economic conditions affecting those industries; to promote health and safety in mines and the mineral industry through research; and for other related purposes as authorized by law, $134,255,000, of which $79,537,000 shall remain available until expended.

ADMINISTRATIVE PROVISIONS

The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, or private: Provided, That the Bureau of Mines is authorized, during the current fiscal year, to sell directly or through any Government agency, including corporations, any metal or mineral product that may be manufactured in pilot plants operated by the Bureau of Mines, and the proceeds of such sales shall be covered into the Treasury as miscellaneous receipts.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

For necessary expenses to carry out the provisions of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, $85,153,000, including the purchase of not to exceed 14 passenger motor vehicles, of which 9 shall be for replacement only; and uniform allowances of not to exceed $400 for each uniformed employee of the Office of Surface Mining Reclamation and Enforcement; and notwithstanding 31 U.S.C. 3302, an amount equal to receipts to the General Fund of the Treasury from performance bond forfeitures, estimated at $500,000 in fiscal year 1986, to remain available until expended: Provided, That no funds shall be used to finalize or implement any proposed rule, or take any other action which would result in the adoption by the Office of Surface Mining Reclamation and Enforcement of a rule or regulation pursuant to section 507(a) of Public Law 95-87 which would require applicants to reimburse the Department of the Interior for costs incurred in the collection of application fees for permits to conduct surface coal mining and reclamation operations; for permits to conduct coal exploration; for processing mining plans; or for the review of surface coal mining and reclamation permits.

ABANDONED MINE RECLAMATION FUND

For necessary expenses to carry out the provisions of title IV of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, including the purchase of not more than 21 passenger motor vehicles, of which 15 shall be for replacement only, to remain available until expended, $207,385,000, to be derived from receipts of the Abandoned Mine Reclamation Fund: Provided, That pursuant to Public Law 97-365, the Department of the Interior is authorized to utilize up to 20 per centum from the recovery of the delinquent debt owed to the United States Government to pay for contracts to collect these debts: Provided further, That of the funds made available to the States to contract for reclamation projects authorized in section 406(a) of Public Law 95-87, administrative expenses may not exceed 15 per centum: Provided further, That none of these funds shall be used for a reclamation grant to any State if the State has not agreed to participate in a nationwide data system established by the Office of Surface Mining Reclamation and Enforcement through which all permit applications are reviewed and approvals withheld if the applicants (or those who control the applicants) applying for or receiving such permits have outstanding State or Federal air or water quality violations in accordance with section 510(c) of the Act of August 3, 1977 (30 U.S.C. 1260(c)), including failure to abate cessation orders, outstanding civil penalties associated with such failure to abate cessation orders or uncontested past due Abandoned Mine Land fees: Provided further, That the Secretary of the Interior may deny fifty percent of an Abandoned Mine Reclamation fund grant, available to a State pursuant to title IV of Public Law 95-87, when pursuant to the procedures set forth in section 521 of the Act, the Secretary determines that a State is systematically failing to adequately administer the enforcement provisions of the approved State regulatory program. Funds will be denied until such time as the State and the Office of Surface Mining Reclamation and Enforcement have agreed upon an explicit plan of action for correcting the enforcement deficiency. A State may enter into such agreement without admission of culpability. If a State enters into such agreement, the Secretary shall take no action pursuant to section 521(b) of the Act as long as the State is complying with the terms of the agreement: Provided further, That expenditure of moneys as authorized in section 402(g)(3) shall be on a priority basis with the first priority being protection of public health, safety, general welfare, and property from extreme danger of adverse effects of coal mining practices, as stated in section 403 of Public Law 95-87.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

For operation of Indian programs by direct expenditure, contracts, cooperative agreements and grants including expenses necessary to provide education and welfare services for Indians, either directly or in cooperation with States and other organizations, including payment of care, tuition, assistance, and other expenses of Indians in boarding homes, institutions, or schools; grants and other assistance to needy Indians; maintenance of law and order; management, development, improvement, and protection of resources and appurtenant facilities under the jurisdiction of the Bureau of Indian Affairs, including payment of irrigation assessments and charges; acquisition of water rights; advances for Indian industrial and business enterprises; operation of Indian arts and crafts shops and museums; development of Indian arts and crafts, as authorized by law; for the general administration of the Bureau of Indian Affairs, including such expenses in field offices, $891,312,000, of which not to exceed $54,556,000 for higher education scholarships and assistance to public schools under the Act of April 16, 1934 (48 Stat. 596), as amended (25 U.S.C. 452 et seq.), shall remain available for obligation until September 30, 1987, and the funds made available to tribes and tribal organizations through contracts authorized by the Indian Self-Determination and Education Assistance Act of 1975 (88 Stat. 2203; 25 U.S.C. 450 et seq.) shall remain available until September 30, 1987: Provided, That this carryover authority does not extend to programs directly operated by the Bureau of Indian Affairs: Provided further, That not to exceed $18,042,000 shall be obligated for automatic data processing in fiscal year 1986; and includes expenses necessary to carry out the provisions of section 19(a) of Public Law 93-531 (25 U.S.C. 640d-18(a)), $2,886,000, to remain available until expended; and an additional $6,000,000 which, notwithstanding any other law, is immediately available for obligation before January 18, 1986, by the Secretary of the Interior through the Bureau of Indian Affairs only for the emergency provision of hay to Indians using the distribution formula of the Indian Acute Distress Donation Program to aid in maintaining foundation cattle herds in Montana, North Dakota, and South Dakota. The Secretary may, but is not required to, enter into contracts under section 102 of the Indian Self-Determination Act (88 Stat. 2206; 25 U.S.C. 450f) in connection with the appropriation made in this paragraph and no indirect cost or overhead shall be allowed under any such contract from any appropriation. All costs incurred directly or indirectly by the Secretary in connection with the appropriation made in this paragraph for other than the direct cost of the hay and its transportation shall be met from other amounts appropriated for the operation of Indian programs. Any part of the appropriation made in this paragraph which is not expended by March 15, 1986, shall be deobligated and shall not be available for obligation or expenditure.

The Secretary of the Interior shall make a report or reports to Congress by September 1, 1986 on (1) the use of the appropriation in the preceding paragraph, (2) the impact of the drought disaster on the Indian reservations in Montana, North Dakota, and South Dakota, (3) long-term strategies to address the disaster on each of those reservations, and (4) the effectiveness of the carrying out of the roles (including resource management and the establishment, waiver, and collection of grazing fees and rents or other payments) of the Federal and tribal governments in ranching, agriculture, and other land use on Indian reservations throughout the United States with recommendations to improve that effectiveness.

None of the funds appropriated to the Bureau of Indian Affairs shall be expended as matching funds for programs funded under section 103(b)(2) of the Carl D. Perkins Vocational Education Act: Provided further, That no part of any appropriations to the Bureau of Indian Affairs shall be available to provide general assistance payments for Alaska Natives in the State of Alaska unless and until otherwise specifically provided for by Congress: Provided further, That notwithstanding any other provision of law, within fourteen days of the date of enactment of this Act the Snowflake Dormitory in Arizona shall be closed and thereafter no funds available to the Bureau of Indian Affairs shall be available to operate an educational or boarding program at that location: Provided further, That notwithstanding any law or regulation, in allocating funds for aid to public schools under the Act of April 16, 1934, as amended, the Secretary shall enter into contracts only for the provision of supplementary educational services for Indian children: Provided further, That the Secretary of the Interior shall transfer without cost to the Saint Labre Indian School of Ashland, Montana, the interests of the United States in the supplies and equipment acquired by or for the school during the period when it was financially aided by the Bureau of Indian Affairs.

CONSTRUCTION

For construction, major repair and improvement of irrigation and power systems, including architectural and engineering services by contract; acquisition of lands and interests in lands; preparation of lands for farming; and construction, repair, and improvement of Indian housing, $101,054,000, to remain available until expended: Provided, That no funds shall be expended for land acquisition on behalf of the Covelo Indian Community until the Community has sufficient non-Federal funds, which when combined with the Federal funds, will complete the land acquisition: Provided further, That such amount includes $22,000,000 for use by the Secretary to construct homes and related facilities for the Navajo and Hopi Indian Relocation Commission in lieu of construction by the Commission under section 15(d)(3) of the Act of December 22, 1974 (88 Stat. 1719; 25 U.S.C. 640d-14(d)(3)), and to ensure that a priority for the use of these funds is given to Navajo families who are actual, physical residents of the Hopi Partitioned Lands on the date of enactment hereof, and to expedite relocations and construction under this proviso (1) with respect to any lands acquired pursuant to section 11(a) of the Act of December 22, 1974 (25 U.S.C. 640d-10(a)), the Secretary shall not be required to enter into contracts under section 102 of the Indian Self-Determination Act (88 Stat. 2206; 25 U.S.C. 450f) in carrying out this proviso, (2) the Secretary's authority under section 106(a) of the Indian Self-Determination Act (88 Stat. 2210; 25 U.S.C. 450j(a)) shall apply for contracts for construction under this proviso without regard to the status of the contractors with respect to any lands acquired pursuant to section 11(a) of the Act of December 22, 1974 (25 U.S.C. 640d-10(a)), (3) the Secretary may carry out construction and lease approvals or executions under this proviso without regard to the Commission's regulations and under such administrative procedures as the Secretary may adopt without regard to the rulemaking requirements of any law, executive order, or regulation, (4) an action under this proviso is not a major Federal action for the purpose of the National Environmental Policy Act of 1969, as amended, and (5) after January 1, 1986, the Secretary may issue leases and rights-of-way for housing and related facilities to be constructed on the lands which are subject to section 11(h) of the Act of December 22, 1974, as amended (25 U.S.C. 640d-10(h)).

ROAD CONSTRUCTION

Not to exceed 5 per centum of contract authority available to the Bureau of Indian Affairs from the Federal Highway Trust Fund may be used to cover roads program management costs and construction supervision costs of the Bureau of Indian Affairs: Provided, That $3,200,000 of the contract authority available to the Bureau of Indian Affairs from the Federal Highway Trust Fund for road construction to serve the Navajo Reservation shall be used by the Secretary of the Interior for road construction projects to serve land transferred or acquired under the Act of December 22, 1974, as amended (88 Stat. 1712; 25 U.S.C. 640d et seq.): Provided further, That the foregoing shall not alter the amount of funds or contract authority that would otherwise be available for road construction to serve any Indian reservation or land other than the Navajo reservation.

ALASKA NATIVE ESCROW ACCOUNT

For the Federal contribution to the Alaska Native Escrow Account related to proceeds received by Federal agencies from lands or resources of lands after the date of withdrawal of the land for Native selection as authorized by Public Law 94-204, an amendment to the Alaska Native Claims Settlement Act (43 U.S.C. 1631-1641; 89 Stat. 1476), and Public Law 96-487, the Alaska National Interest Lands Conservation Act (94 Stat. 2497), $7,877,000: Provided, That those funds appropriated hereunder which represent proceeds received from lands which have been conveyed on or before the date of enactment of this Act shall be distributed to the appropriate Native corporations pursuant to Public Law 96-487 immediately upon receipt in the escrow account: Provided further, That those funds which represent proceeds received from lands withdrawn for Native Selection but not yet conveyed on the date of the enactment of this Act will be held in the escrow account and invested until conveyance, and shall, during the time that such funds are on deposit in the escrow account, be entitled to their share of the interest earned by the escrow account pursuant to the first proviso of section 2(b) of Public Law 94-204.

TRIBAL TRUST FUNDS

In addition to the tribal funds authorized to be expended by existing law, there is hereby appropriated not to exceed $4,000,000 from tribal funds not otherwise available for expenditure.

REVOLVING FUND FOR LOANS

During fiscal year 1986, and within the resources and authority available, gross obligations for the principal amount of direct loans pursuant to the Indian Financing Act of 1974 (88 Stat. 77; 25 U.S.C. 1451 et seq.), shall not exceed $16,300,000: Provided, That notwithstanding section 102 of the Indian Financing Act of 1974, as amended (25 U.S.C. 1462) and regulations restricting the purposes for loans under that Act, the Secretary may make a loan under title I of that Act to the Zuni Pueblo for the acquisition in trust for the Pueblo of private lands in the area known as Zuni Heaven in an amount not to exceed $1,470,000.

INDIAN LOAN GUARANTY AND INSURANCE FUND

For payment of interest subsidies on new and outstanding guaranteed loans and for necessary expenses of management and technical assistance in carrying out the provisions of the Indian Financing Act of 1974, as amended (88 Stat. 77; 25 U.S.C. 1451 et seq.), $2,210,000, to remain available until expended: Provided, That during fiscal year 1986, total commitments to guarantee loans pursuant to the Indian Financing Act of 1974 (88 Stat. 77; 25 U.S.C. 1451 et seq.), may be made only to the extent that the total loan principal, any part of which is to be guaranteed, shall not exceed resources and authority available.

ADMINISTRATIVE PROVISIONS

Appropriations for the Bureau of Indian Affairs (except the revolving fund for loans and the Indian loan guarantee and insurance fund) shall be available for expenses of exhibits; and purchase of not to exceed 150 passenger carrying motor vehicles, of which 100 shall be for replacement only.

TERRITORIAL AND INTERNATIONAL AFFAIRS

ADMINISTRATION OF TERRITORIES

For expenses necessary for the administration of territories under the jurisdiction of the Department of the Interior, $80,376,000, of which (1) $77,903,000 shall be available until expended for technical assistance; repurchase premium, late charges, and payments of the annual interest rate differential required by the Federal Financing Bank, under terms of the second refinancing of an existing loan to the Guam Power Authority, as authorized by law (Public Law 98-454; 98 Stat. 1732); grants to the judiciary in American Samoa for compensation and expenses, as authorized by law (48 U.S.C. 1661(c)); grants to the Government of American Samoa, in addition to current local revenues, for support of governmental functions; $2,000,000 for a loan to the Government of the United States Virgin Islands, for construction of an extension to the Alexander Hamilton Airport runway, St. Croix: Provided, That issuance of such loan shall be contingent upon approval of a multiyear grant of Airport Improvement Program funds from the Federal Aviation Administration, and a written guarantee from the Government of the United States Virgin Islands as to the source of funds to be used for repayment of the loan; construction grants to the Government of Guam of $4,583,000, as authorized by law (Public Law 98-454; 98 Stat. 1732); direct grants to the Government of the Northern Mariana Islands as authorized by law (Public Law 94-241; 90 Stat. 272, and Public Law 98-454; 98 Stat. 1732); and (2) $2,473,000 for fiscal year 1986 for salaries and expenses of the Office of Territorial and International Affairs, of which not to exceed $1,000 shall be available during 1986 for official reception and representation ex-

penses: Provided further, That the territorial and local governments herein provided for are authorized to make purchases through the General Services Administration: Provided further, That all financial transactions of the territorial and local governments herein provided for, including such transactions of all agencies or instrumentalities established or utilized by such governments, shall be audited by the General Accounting Office, in accordance with the provisions of the Budget and Accounting Act, 1921 (42 Stat. 23), as amended, and the Accounting and Auditing Act of 1950 (64 Stat. 834): Provided further, That upon enactment of this Act the remaining balance of fiscal year 1985 funds provided in Public Law 98-473 for a grant to the College of the Virgin Islands Eastern Caribbean Center is released to the College of the Virgin Islands.

TRUST TERRITORY OF THE PACIFIC ISLANDS

For expenses necessary for the Department of the Interior in administration of the Trust Territory of the Pacific Islands pursuant to the Trusteeship Agreement approved by joint resolution of July 18, 1947 (61 Stat. 397), and the Act of June 30, 1954 (68 Stat. 330), as amended (90 Stat. 299; 91 Stat. 1159; 92 Stat. 495), grants for the expenses of the High Commissioner of the Trust Territory of the Pacific Islands; grants for the compensation and expenses of the Judiciary of the Trust Territory of the Pacific Islands; grants to the Trust Territory of the Pacific Islands, in addition to local revenues, for support of governmental functions; $80,372,000, of which $70,922,000 is for operations, and $9,450,000 is for construction, to remain available until expended: Provided, That all financial transactions of the Trust Territory, including such transactions of all agencies or instrumentalities established or utilized by such Trust Territory, shall be audited by the General Accounting Office in accordance with the provisions of the Budget and Accounting Act, 1921 (42 Stat. 23), as amended, and the Accounting and Auditing Act of 1950 (64 Stat. 834): Provided further, That the government of the Trust Territory of the Pacific Islands is authorized to make purchases through the General Services Administration.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

For necessary expenses of the Office of the Secretary of the Interior, $43,411,000, of which not to exceed $10,000 may be for official reception and representation expenses: Provided, That notwithstanding any other provision of law, of the funds provided under this heading, not to exceed $300,000 shall be used to pay or repay the costs of development of alternative winter stock water supplies by water users who have been deprived of winter stock water from the main channel of Willow Creek, Idaho, below Ririe Dam and Reservoir because of the operation of the dam and reservoir (hereinafter in this account referred to as claimants).

Any payment to a claimant made under this section shall constitute full settlement and satisfaction of all claims such claimant may have against the United States relating to the loss of winter stock water from Willow Creek, Idaho. The provisions of this section shall not apply to any claim settled prior to the date of enactment of this Act.

The Secretary shall make a payment to a claimant only if—

(1) the claimant notifies the Secretary of his claim within six months after the date of enactment of this Act;

(2) the claimant provides an affidavit proving, to the satisfaction of the Secretary, his use of winter stock water from Willow Creek prior to December 31, 1979; and

(3) the claimant executes a waiver and release, in a manner satisfactory to the Secretary, of any and all claims against the United States relating to the loss of winter stock water from Willow Creek, Idaho. Such waiver and release shall be recorded in the county where the claimant's land is located.

Any claimant who has developed an alternate winter stock water supply since December 31, 1979, shall be eligible for a payment of an amount equal to the actual construction costs incurred by such claimant in the development of such supply, as determined by the Secretary.

Any claimant who has not developed an alternate winter stock water supply as of the date of enactment of this Act, shall be eligible for a payment of an amount equal to the funds necessary for the development of such supply, as determined by the Secretary. The Secretary's determination shall be based on the size and configuration of the claimant's land and on the size and type of the claimant's livestock operation.

Costs and expenses incurred by a claimant in the operation and maintenance of his alternate winter stock water supply shall not be reimbursable.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

For necessary expenses of the Office of the Solicitor, $20,378,000.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General, $16,214,000.

CONSTRUCTION MANAGEMENT

For necessary expenses of the Office of Construction Management, $780,000: Provided, That the Secretary of the Interior shall submit to the House and Senate Committees on Appropriations a revised Memorandum of Agreement between the Bureau of Indian Affairs and the Office of Construction Management, vesting the program direction and control of the facility design, construction, repair, operation and maintenance programs of the Bureau in the Office of Construction Management, and a detailed plan for implementation of said Agreement, within 60 days of the enactment of this Act.

OFFICE OF THE SECRETARY

(SPECIAL FOREIGN CURRENCY PROGRAM)

For payment in foreign currencies which the Treasury Department shall determine to be excess to the normal requirement of the United States, for necessary expenses of the United States Fish and Wildlife Service and the National Park Service as authorized by law, $1,000,000, to remain available until expended: Provided, That this appropriation shall be available, in addition to other appropriations, to such office for payment in the foregoing currencies (7 U.S.C. 1704).

ADMINISTRATIVE PROVISIONS

There is hereby authorized for acquisition from available resources within the Working Capital Fund, 5 additional aircraft, all of which shall be for replacement only: Provided, That no programs funded with appropriated funds in the "Office of the Secretary", "Office of the Solicitor", and "Office of Inspector General" may be augmented through the Working Capital Fund or the Consolidated Working Fund.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

SEC. 101. Appropriations made in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary, for the emergency reconstruction, replacement, or repair of aircraft, buildings, utilities, or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: Provided, That no funds shall be made available under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted.

SEC. 102. The Secretary may authorize the expenditure or transfer of any no year appropriation in this title, in addition to the amounts included in the budget programs of the several agencies, for the suppression or emergency prevention of forest or range fires on or threatening lands under jurisdiction of the Department of the Interior; for the emergency rehabilitation of burned-over lands under its jurisdiction; for emergency actions related to potential or actual earthquakes, floods or volcanoes; for emergency reclamation projects under section 410 of Public Law 95-87; and shall transfer, from any no year funds available to the Office of Surface Mining Reclamation and Enforcement, such funds as may be necessary to permit assumption of regulatory authority in the event a primacy State is not carrying out the regulatory provisions of the Surface Mining Act: Provided, That appropriations made in this title for fire suppression purposes shall be available for the payment of obligations incurred during the preceding fiscal year, and for reimbursement to other Federal agencies for destruction of vehicles, aircraft, or other equipment in connection with their use for fire suppression purposes, such reimbursement to be credited to appropriations currently available at the time of receipt thereof: Provided further, That funds transferred pursuant to this section must be replenished by a supplemental appropriation which must be requested as promptly as possible.

SEC. 103. Appropriations made in this title shall be available for operation of warehouses, garages, shops, and similar facilities, wherever consolidation of activities will contribute to efficiency or economy, and said appropriations shall be reimbursed for services rendered to any other activity in the same manner as authorized by sections 1535 and 1536 of title 31, U.S.C.: Provided, That reimbursements for costs and supplies, materials, equipment, and for services rendered may be credited to the appropriation current at the time such reimbursements are received.

SEC. 104. Appropriations made to the Department of the Interior in this title shall be available for services as authorized by 5 U.S.C. 3109, when authorized by the Secretary, in total amount not to exceed $300,000; hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchase of reprints; payment for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members: Provided, That no funds available to the Department of the Interior are available for any expenses of the Great Hall of Commerce.

SEC. 105. Appropriations available to the Department of the Interior for salaries and expenses shall be available for uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902 and D.C. Code 4-204).

SEC. 106. Appropriations made in this title shall be available for obligation in connection with contracts issued by the General Services Administration for services or rentals for periods not in excess of twelve months beginning at any time during the fiscal year.

SEC. 107. No funds provided in this title may be expended by the Department of the Interior for the preparation for, or conduct of, pre-leasing and leasing activities (including but not limited to: calls for information, tract selection, notices of sale, receipt of bids and award of leases) of lands within:

(a) An area of the Outer Continental Shelf, as defined in section 2(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1331(a)), located in the Atlantic Ocean, bounded by the following line: from the intersection of the seaward limit of the Commonwealth of Massachusetts territorial sea and the 71 degree west longitude line south along that longitude line to its intersection with the line which passes between blocks 598 and 642 on Outer Continental Shelf protraction diagram NK 19-10; then along that line in an easterly direction to its intersection with the line between blocks 600 and 601 of protraction diagram NK 19-11; then in a northerly direction along that line to the intersection with the 60 meter isobath between blocks 204 and 205 of protraction diagram NK 19-11; then along the 60 meter isobath, starting in a roughly southeasterly direction; then turning northeast and north until such isobath intersects the maritime boundary between Canada and the United States of America, then north northeasterly along this boundary until this line intersects the 60 meter isobath at the northern edge of block 851 of protraction diagram NK 19-6; then along a line that lies between blocks 851 and 807 of protraction diagram NK 19-6 in a westerly direction to the first point of intersection with the seaward limit of the Commonwealth of Massachusetts territorial sea; then southwesterly along the seaward limit of the territorial sea to the point of beginning at the intersection of the seaward limit of the territorial sea and the 71 degree west longitude line.

(b) The following blocks are excluded from the described area: In protraction diagram NK 19-10, blocks numbered 474 through 478, 516 through 524, 560 through 568, and 604 through 612; in protraction diagram NK 19-6, blocks numbered 969 through 971; in protraction diagram NK 19-5, blocks numbered 1005 through 1008; and in protraction diagram NK 19-8, blocks numbered 37 through 40, 80 through 84, 124 through 127, and 168 through 169.

(c) The following blocks are included in the described area: In protraction diagram NK 19-11, blocks numbered 633 through 644, 677 through 686, 721 through 724, 765 through 767, 809 through 810, and 853; in protraction diagram NK 19-9, blocks numbered 106, 150, 194, 238, 239, and 283; and in protraction diagram NK 19-6, blocks numbered 854, 899, 929, 943, 944, and 987.

(d) Blocks in and at the head of submarine canyons: An area of the Outer Continental Shelf, as defined in section 2(a) of the Outer Continental Shelf Lands Act (45 U.S.C. 1331(a)), located in the Atlantic Ocean off the coastline of the Commonwealth of Massachusetts, lying at the head of, or within the submarine canyons known as Atlantis Canyon, Veatch Canyon, Hydrographer Canyon, Welker Canyon, Oceanographer Canyon, Gilbert Canyon, Lydonia Canyon, Alvin Canyon, Powell Canyon, and Munson Canyon, and consisting of the following blocks, respectively:

(1) On Outer Continental Shelf protraction diagram NJ 19-1; blocks 36, 37, 38, 42-44, 80-82, 86-88, 124, 125, 130-132, 168, 169, 174-176, 212, 213.

(2) On Outer Continental Shelf protraction diagram NJ 19-2; blocks 8, 9, 17-19, 51-52, 53, 54, 61-63, 95-98, 139, 140.

(3) On Outer Continental Shelf protraction diagram NK 19-10; blocks 916, 917, 921, 922, 960, 961, 965, 966, 1003-1005, 1009, 1011.

(4) On Outer Continental Shelf protraction diagram NK 19-11; blocks 521, 522, 565, 566, 609, 610, 653-655, 697-700, 734, 735, 741-744, 769, 778-781, 785-788, 813, 814, 822-826, 829-831, 857, 858, 866-869, 873-875, 901, 902, 910-913, 917, 945-947, 955, 956, 979, 980, 989-991, 999.

(5) On Outer Continental Shelf protraction diagram NK 19-12; blocks 155, 156, 198, 199, 280-282, 324-326, 369-371, 401, 413-416, 442-446, 450, 451, 489-490, 494, 495, 530, 531, 533-540, 574, 575, 577-583, 618, 619, 621-623, 626, 627, 662, 663, 665-667, 671, 672, 706, 707, 710, 711, 750, 751, 754, 755, 794, 795, 798, 799.

(e) Nothing in this section shall prohibit the lease of that portion of any blocks described in subsection (d) above which lies outside the geographical boundaries of the submarine canyons and submarine canyon heads described in subsection (d) above: Provided, That for purposes of this subsection, the geographical boundaries of the submarine canyons and submarine canyon heads shall be those recognized by the National Oceanographic and Atmospheric Administration, Department of Commerce, on the date of enactment of this Act.

(f) Nothing in this section shall prohibit the Secretary of the Interior from granting contracts for scientific study, the results of which could be used in making future leasing decisions in the planning area and in preparing environmental impact statements as required by the National Environmental Policy Act.

(g) References made to blocks, protraction diagrams, and isobaths are to such blocks, protraction diagrams, and isobaths as they appear on the map entitled Outer Continental Shelf of the North Atlantic from 39° to 45° North Latitude (Map No. MMS-10), prepared by the United States Department of the Interior, Minerals Management Service, Atlantic OCS Region.

SEC. 108. None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance changing the name of the mountain located 63 degrees, 04 minutes, 15 seconds west, presently named and referred to as Mount McKinley.

SEC. 109. Notwithstanding any other provision of law, appropriations in this title shall be available to provide insurance on official motor vehicles, aircraft, and boats operated by the Department of the Interior in Canada and Mexico.

SEC. 110. No funds provided in this title may be used to detail any employee to an organization unless such detail is in accordance with Office of Personnel Management regulations.

SEC. 111. The Secretary of the Interior is hereby directed to make every effort during the balance of fiscal year 1986 to resolve the outstanding conflicts with respect to the future leasing and protection of lands on the California outer continental shelf for oil and gas exploration and development. To this end, the Secretary shall submit to the Congress once every 60 days following the date of enactment of this Act until the end of fiscal year 1986 a report summarizing the progress of negotiations carried out to resolve these outstanding conflicts. Such negotiations shall be conducted by the Secretary and the following Members of Congress to be designated by the Speaker of the House of Representatives and the Majority Leader of the Senate:

(1) The Chairmen and ranking minority members of the following committees and subcommittees of the Congress having jurisdiction over these issues:

(A) The Subcommittee on the Interior of the Committee on Appropriations of the House of Representatives.

(B) The Subcommittee on Energy and the Environment of the Committee on Interior and Insular Affairs of the House of Representatives.

(C) The Subcommittee on the Panama Canal and Outer Continental Shelf of the Committee on Merchant Marine and Fisheries of the House of Representatives.

(D) The Subcommittee on the Interior of the Committee on Appropriations of the Senate.

(E) The committee on Energy and Natural Resources of the Senate.

(2) Two United States Senators from California.

(3) Seven members of the California delegation to the House of Representatives.

SEC. 112. None of the funds provided by this Act shall be expended by the Secretary of the Interior to promulgate final regulations concerning paleontological research on Federal lands until the Secretary has received the National Academy of Sciences' report concerning the permitting and post-permitting regulations concerning paleontological research and until the Secretary has, within 30 days, submitted a report to the appropriate committees of the Congress comparing the National Academy of Sciences' report with the proposed regulations of the Department of the Interior.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST RESEARCH

For necessary expenses of forest research as authorized by law, $126,283,000, of which $6,840,000 shall remain available until expended for competitive research grants, as authorized by section 5 of Public Law 95-307.

STATE AND PRIVATE FORESTRY

For necessary expenses of cooperating with, and providing technical and financial assistance to States, Territories, possessions, and others; and for forest pest management activities, $57,986,000, to remain available for obligation until expended, to carry out activities authorized in Public Law 95-313: Provided, That a grant of $3,000,000 shall be made to the State of Minnesota for the purposes authorized by section 6 of Public Law 95-495.

NATIONAL FOREST SYSTEM

For necessary expenses of the Forest Service, not otherwise provided for, for management, protection, improvement, and utilization of the National Forest System, and for liquidation of obligations incurred in the preceding fiscal year for forest fire protection and emergency rehabilitation, including administrative expenses associated with the management of funds provided under the heads "Forest Research", "State and Private Forestry", "National Forest System", "Construction", and "Land Acquisition", $1,054,629,000, of which $182,053,000, for reforestation, timber stand improvement, co-

operative law enforcement, and maintenance of forest development roads and trails shall remain available for obligation until September 30, 1987: Provided, That the unobligated balances available September 30, 1985 and funds becoming available in fiscal year 1986 under the Act of October 14, 1980 (16 U.S.C. 1606), shall be transferred to and merged with the National Forest System appropriation account as of October 1, 1985: Provided further, That notwithstanding any other provision of law, subsection (e) of section 303 of the Act of October 14, 1980, as amended by the Act of January 6, 1983, Public Law 97-424 (16 U.S.C. 1606), is repealed and subsection (d) of section 303 of the Act of October 14, 1980, as amended by the Act of January 6, 1983, Public Law 97-424 (16 U.S.C. 1606), is amended to read as follows:

"(d) The Secretary of Agriculture is hereafter authorized to obligate such sums as are available in the Trust Fund (including any amounts not obligated in previous fiscal years) for—

(1) reforestation and timber stand improvement as specified in section (3)(d) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1601 (d)); and

(2) properly allocable administrative costs of the Federal Government for the activities specified above.".

CONSTRUCTION

For necessary expenses of the Forest Service, not otherwise provided for, for construction, $223,865,000, to remain available until expended, of which $27,449,000 is for construction and acquisition of buildings and other facilities; and $196,416,000 is for construction of forest roads and trails by the Forest Service as authorized by 16 U.S.C. 532-538 and 23 U.S.C. 101 and 205: Provided, That funds becoming available in fiscal year 1986 under the Act of March 4, 1913 (16 U.S.C. 501), shall be transferred to the General Fund of the Treasury of the United States: Provided further, That road construction standards used to construct Forest Service roads, purchaser credit roads, or purchaser elect roads shall be applied, or other management initiatives or administrative cost-saving actions taken, including reductions in personnel or overhead charges, in fiscal year 1986 in a manner so as to achieve a 5 per centum reduction in the average cost per road mile as compared to fiscal year 1985: Provided further, That such actions shall be taken so as to achieve this 5 per centum reduction in each Forest Service region: Provided further, That notwithstanding any other provision of this Act or any other provision of law, $9,915,000 of the contract authority available in the Federal Highway Trust Fund and not otherwise appropriated shall be available to the Forest Service for road construction to Forest Development Road Standards to serve the Mount St. Helens National Volcanic Monument, Washington: Provided further, That the foregoing shall not alter the amount of funds or contract authority that would otherwise be available for road construction to serve any State other than the State of Washington.

LAND ACQUISITION

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l-4-11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the Forest Service, $28,300,000, to be derived from the Land and Water Conservation Fund, to remain available until expended: Provided, That of the amount appropriated, $3,900,000 shall be paid to Edwards Investments, an Idaho partnership, upon delivery of a quitclaim deed to the United States conveying acceptable title to all of Edwards Investments' interest in all of those portions of a former Chicago, Milwaukee, St. Paul, and Pacific Railroad right-of-way between Avery, Idaho and St. Regis, Montana that cross or adjoin Federal lands, including all of Edwards Investments' interests in all improvements on said right-of-way. Upon acquisition, some or all of the right-of-way may be used as a road and available for public travel where determined appropriate by the Chief of the Forest Service.

ACQUISITION OF LANDS FOR NATIONAL FORESTS, SPECIAL ACTS

For acquisition of land within the exterior boundaries of the Cache, Uinta, and Wasatch National Forests, Utah; the Toiyabe National Forest, Nevada; and the Angeles, San Bernardino, and Cleveland National Forests, California, as authorized by law, $782,000, to be derived from forest receipts.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

For acquisition of lands in accordance with the Act of December 4, 1967, as amended (16 U.S.C. 484a), all funds deposited by State, county or municipal governments, public school districts or other public school authorities pursuant to that Act, to remain available until expended.

RANGE BETTERMENT FUND

For necessary expenses of range rehabilitation, protection, and improvement in accordance with section 401(b)(1), of the Act of October 21, 1976, Public Law 94-579, as amended, 50 per centum of all moneys received during the prior fiscal year, as fees for grazing domestic livestock on lands in National Forests in the sixteen Western States, to remain available until expended.

MISCELLANEOUS TRUST FUNDS

For expenses authorized by 16 U.S.C. 1643(b), $90,000, to remain available until expended, to be derived from the fund established pursuant to 16 U.S.C. 1643(b).

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

Appropriations to the Forest Service for the current fiscal year shall be available for: (a) purchase of not to exceed 252 passenger motor vehicles of which 13 will be used primarily for law enforcement purposes and of which 233 shall be for replacement only; acquisition of 161 passenger motor vehicles from excess sources, and hire of such vehicles; operation and maintenance of aircraft, the purchase of not to exceed 2 for replacement only, and acquisition of 43 aircraft from excess sources; notwithstanding other provisions of law, existing aircraft being replaced may be sold, with proceeds derived or trade-in value used to offset the purchase price for the replacement aircraft; (b) services pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $100,000 for employment under 5 U.S.C. 3109; (c) uniform allowances for each uniformed employee of the Forest Service, not in excess of $400 annually; (d) purchase, erection, and alteration of buildings and other public improvements (7 U.S.C. 2250); (e) acquisition of land, waters, and interests therein, pursuant to the Act of August 3, 1956 (7 U.S.C. 428a); (f) for expenses pursuant to the Volunteers in the National Forest Act of 1972 (16 U.S.C. 558a, 558d, 558a note); and (g) for debt collection contracts in accordance with 31 U.S.C. 3718(c).

None of the funds made available under this Act shall be obligated or expended to change the boundaries of any region, to abolish any region, to move or close any regional office for research, State and private forestry, or National Forest System administration of the Forest Service, Department of Agriculture, without the consent of the House and Senate Committees on Appropriations and the Committee on Agriculture, Nutrition, and Forestry in the United States Senate and the Committee on Agriculture in the United States House of Representatives.

Any appropriations or funds available to the Forest Service may be advanced to the National Forest System appropriation for the emergency rehabilitation of burned-over lands under its jurisdiction. The Secretary of Agriculture may authorize the expenditure of any no year appropriation available to the Forest Service for emergency actions related to emergency flood repair needs at the Monongahela National Forest and at the Parsons, West Virginia, Research Laboratory: Provided, That funds made available for such emergency actions shall be available for the payment of obligations incurred during the preceding fiscal year and funds expended pursuant to this provision must be replenished by a supplemental appropriation which must be requested as promptly as possible.

Appropriations and funds available to the Forest Service shall be available to comply with the requirements of section 313(a) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1323(a)).

The appropriation structure for the Forest Service may not be altered without advance approval of the House and Senate Committees on Appropriations.

Funds appropriated to the Forest Service shall be available for assistance to or through the Agency for International Development and the Office of International Cooperation and Development in connection with forest and rangeland research, and technical information and assistance in foreign countries.

Funds previously appropriated for timber salvage sales may be recovered from receipts deposited for use by the applicable national forest and credited to the Forest Service Permanent Appropriations to be expended for timber salvage sales from any national forest: Provided further, That no less than $24,000,000 shall be made available to the Forest Service for obligation in fiscal year 1986 from the Timber Salvage Sale Fund appropriation.

Provisions of section 702(b) of the Department of Agriculture Organic Act of 1944 (7 U.S.C. 2257) shall apply to appropriations available to the Forest Service only to the extent that the proposed transfer is approved by the House and Senate Committees on Appropriations in compliance with the reprogramming procedures contained in House Report 97-942.

No funds appropriated to the Forest Service shall be transferred to the Working Capital Fund of the Department of Agriculture without the approval of the Chief of the Forest Service.

Not to exceed $900,000 shall be available from National Forest System appropriations or permanent appropriations for the specific purpose of removing slash and cull logs from the Bull Run, Oregon, watershed to preserve water quality and reduce fire hazards.

None of the funds made available under this Act shall be obligated or expended to adjust annual recreational residence fees to an amount greater than that annual fee in effect at the time of the next to last fee adjustment, plus 50 per centum. In those cases where the currently applicable annual recreational residence fee exceeds that adjusted amount, the Forest Service shall credit to the permittee that excess amount, times the number of years that that fee has been in effect, to offset future fees owed to the Forest Service.

Current permit holders who acquired their recreational residence permit after the next to last fee adjustment shall have their annual permit fee computed as if they had their permit prior to the next to last fee adjustment, except that no permittee shall receive an unearned credit.

Notwithstanding any delegations of authority provided for in regulations of the Department of Agriculture or in the Forest Service manual, the Chief of the Forest Service shall, personally and without aid of mechanical devices or persons acting on his behalf, execute (1) all deeds conveying federally owned land which exceeds $250,000 in value, (2) all acceptances of options on lands to be acquired which exceed $250,000 in value, (3) all recommendations that condemnation be initiated, (4) all letters accepting donations of land, (5) all decisions on appeals of decisions related to land transactions made by regional foresters, and (6) land related transmittals to the House or Senate Committees on Appropriations, including all proposals for congressional action such as the acquisition of lands in excess of the approved appraised value, condemnation actions, and other items covered in reprogramming guidelines.

Funds available to the Forest Service shall be available to conduct a program of not less than $3,400,000 for high priority projects within the scope of the approved budget which shall be carried out by Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408.

DEPARTMENT OF THE TREASURY

ENERGY SECURITY RESERVE

(INCLUDING RESCISSION)

Of the funds appropriated to the Energy Security Reserve by the Department of the Interior and Related Agencies Appropriations Act, 1980, (Public Law 96-126) and subsequently made available to carry out Part B of title I of the Energy Security Act (Public Law 96-294) by Public Laws 96-304, 96-514, and 98-473, the amounts available to the Board of Directors of the United States Synthetic Fuels Corporation and not obligated as of the date of enactment of this Act are rescinded, except that this rescission shall not apply to (1) funds made available for Clean Coal Technology by this Act; (2) such amounts as may be necessary to make payments for synthetic fuels projects or modules for which legally binding awards or commitments for financial assistance were entered into under title I of the Energy Security Act before the date of enactment of this Act; and (3) $10,000,000 to be used to terminate the Corporation in accordance with subtitle J of the Energy Security Act: Provided, That to the extent that the Secretary of the Treasury may be required to take an action under section 131(q) of the Energy Security Act in connection with such awards or commitments, the Secretary shall complete such action within 30 days of enactment of this Act: Provided further, That the limitation in Public Law 98-473 on the initial use of $5,700,000,000 of such funds only for obligation to synthetic fuel projects with Letters of Intent authorized by the Board of Directors of the United States Synthetic Fuels Corporation on or before June 1, 1984, is hereby repealed: Provided further, That of the funds in the Energy Security Reserve prior to the date of enactment of this Act $400,000,000 shall be available for the Clean Coal Technology Program in the Department of Energy authorized under the Clean Coal Technology Reserve proviso of Public Law 98-473 for the purpose of conducting cost-shared Clean Coal Technology projects for the construction and operation of facilities to demonstrate the feasibility for future commercial applications of such technology, to remain available until expended, of which $100,000,000 shall be immediately available; (2) an additional $150,000,000 shall be available beginning October 1, 1986; and (3) an additional $150,000,000 shall be available beginning october 1, 1987: Provided further, That the proviso in Public Law 98-473 depositing and retaining in the Clean Coal Technology Reserve $750,000,000 of funds in the Energy Security Reserve rescinded by said Act is amended so as to reduce the current amount of such deposited and retained funds to $350,000,000: Provided further, That notwithstanding section 191 of the Energy Security Act (Public Law 96-294), effective the date of enactment of this Act, the Board may not make any legally binding awards or commitments for financial assistance (including any changes in an existing award or commitment) pursuant to the Energy Security Act for synthetic fuel project proposals, except that nothing in this Act shall impair or alter the powers, duties, rights, obligations, privileges, or liabilities of the Corporation, its Board or Chairman, or project sponsors in the performance and completion of the terms and undertakings of a legally binding award or commitment entered into prior to the date of enactment of the Act: Provided further, That (1) within 60 days of enactment of this Act, the Directors of the Synthetic Fuels Corporation shall terminate their duties under the Energy Security Act and be discharged; and (2) within 120 days of enactment of this Act, the Corporation shall terminate in accordance with Subtitle J of said Act: Provided further, That within 60 days of enactment of this Act (or earlier, in the event of absence of a Chairman of the Synthetic Fuels Corporation) the Secretary of the Treasury shall assume the duties of the Chairman: Provided further, That, notwithstanding any other provisions of law, the duties and responsibilities of the Secretary of the Treasury under Subtitle J of said Act or this Act may not be transferred to any other Federal department or agency: Provided further, That notwithstanding such termination, the Advisory Committee established under section 123 of the Energy Security Act (42 U.S.C. 8719) shall remain in effect to advise the Secretary of the Treasury regarding the administration of any contract or obligation of the Corporation pursuant to subtitle D of said Act: Provided further, That the Director of the Office of Personnel Management shall, before February 1, 1986, determine the amount of compensation rights which each Director, officer, or employee shall be legally entitled to under any contract in effect on the date of enactment of this Act: Provided further, That effective on the date of enactment of this Act, no change in any compensation or benefit in effect on the date of enactment of this Act shall be allowed or permitted, unless the Director of the Office of Personnel Management agrees that such change is reasonable: Provided further, That effective on the date of enactment of this Act, (1) no officer or employee of the Corporation shall receive a salary in excess of the rate of basic pay payable for level IV of the Executive Schedule under title 5 of the United States Code; and (2) the Corporation shall not waive any requirements in its By-Laws which are necessary for a Director, officer, or employee to qualify for pension or termination benefits under the By-Laws and written personnel policies and procedures in effect on the date of enactment of this Act: Provided further, That the Corporation, by September 15, 1986, shall transmit to the Committee on Energy and Natural Resources of the Senate and to the Committee on Energy and Commerce and Committee on Banking, Housing and Urban Affairs of the House of Representatives a report (1) containing a review of implementation of its Phase I Business Plan dated February 19, 1985 and (2) fulfilling the requirements of section 126(b)(3) of the Energy Security Act (42 U.S.C. 8722(c)(3)).

Of the funds available from the Energy Security Reserve to the Secretary of Energy for alcohol fuel loan guarantees under Public Law 96-304, as amended by Public Laws 96-514, 97-12 and 97-394, the Secretary shall provide a loan for odor abatement at an ethanol producing facility that has received financial assistance under title II of Public Law 96-294 and that was in operation on November 1, 1985: Provided, That—

(1) such loan shall not exceed 90 percent of the net cost of the odor abatement project and in no case shall the amount of such loan exceed $3,000,000,

(2) the Secretary shall not provide such loan until the Secretary has received satisfactory assurances that a non-Federal share in the amount of 10 percent of the net cost of the odor abatement project is available,

(3) payment of principal under the loan shall not be due until the repayment in full of permanent financing guaranteed by the Department of Energy for the construction of such ethanol producing facility,

(4) interest shall accrue immediately upon receipt of the loan and payment of interest shall be made at regular intervals established by the Secretary but not to exceed the current average rate of outstanding marketable obligations of the United States with comparable maturities,

(5) the Secretary shall not make such loan until the Secretary has received satisfactory assurances that any expenses of operating equipment installed using funds made available under this loan shall be paid by the New Energy Corporation of Indiana,

(6) principal and interest payments made under this loan shall be repaid into the Alcohol Fuels Loan Guarantee Reserve, and

(7) the Secretary shall establish such other terms and conditions as the Secretary considers appropriate.

DEPARTMENT OF ENERGY

CLEAN COAL TECHNOLOGY

Within 60 days following enactment of this Act, the Secretary of Energy shall, pursuant to the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5901, et seq.), issue a general request for proposals for clean coal technology projects for which the Secretary of Energy upon review may provide financial assistance awards. Proposals for clean coal technology projects under this section shall be

submitted to the Department of Energy within 60 days after issuance of the general request for proposals. The Secretary of Energy shall make any project selections no later than August 1, 1986: Provided, That the Secretary may vest fee title or other property interests acquired under cost-shared clean coal technology agreements in any entity, including the United States: Provided further, That the Secretary shall not finance more than 50 per centum of the total costs of a project as estimated by the Secretary as of the date of award of financial assistance: Provided further, That cost-sharing by project sponsors is required in each of the design, construction, and operating phases proposed to be included in a project: Provided further, That financial assistance for costs in excess of those estimated as of the date of award of original financial assistance may not be provided in excess of the proportion of costs borne by the Government in the original agreement and only up to 25 per centum of the original financial assistance: Provided further, That revenues or royalties from prospective operation of projects beyond the time considered in the award of financial assistance, or proceeds from prospective sale of the assets of the project, or revenues or royalties from replication of technology in future projects or plants are not cost-sharing for the purposes of this appropriation: Provided further, That other appropriated Federal funds are not cost-sharing for the purposes of this appropriation: Provided further, That existing facilities, equipment, and supplies, or previously expended research or development funds are not cost-sharing for the purposes of this appropriation, except as amortized, depreciated, or expensed in normal business practice.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses in carrying out fossil energy research and development activities, under the authority of the Department of Energy Organization Act (Public Law 95-91), including the acquisition of interest, including defeasible and equitable interests in any real property or any facility or for plant or facility acquisition or expansion, $312,848,000, to remain available until expended, of which $535,000 is for the functions of the Office of the Federal Inspector for the Alaska Natural Gas Transportation System established pursuant to the authority of Public Law 94-586 (90 Stat. 2908-2909), and $8,230,000 to be derived by transfer from unobligated balances in the "Fossil energy construction" account, $2,010,000 to be derived by transfer from the account entitled "Alternative fuels production", of which $200,000 is derived from Public Law 98-146 for a wood pellet gasifier facility, and $2,775,000 to be derived by transfer from amounts derived from fees for guarantees of obligations collected pursuant to section 19 of the Federal Nonnuclear Energy Research and Development Act of 1974, as amended (42 U.S.C. 5919), and deposited in the "Energy security reserve" established by Public Law 96-126: Provided, That no part of the sum herein made available shall be used for the field testing of nuclear explosives in the recovery of oil and gas: Provided further, That notwithstanding any other provision of law, funds appropriated under this head in Public Law 97-394 for a Western Hemisphere alternative fuels facility feasibility study, which remain unobligated, shall be available for carrying out any fossil energy research and development activities: Provided further, That $15,000,000 of the sum provided under this heading shall be available for demonstration of the Kilngas coal gasification process, with the provision that the United States Treasury shall be repaid up to double the total Federal expenditure for such process from proceeds to the participants from the commercial sale, lease, manufacture, or use of such process.

Of the funds herein provided, $29,000,000 is for implementation of the June, 1984 multiyear, cost-shared magnetohydrodynamics program targeted on proof-of-concept testing: Provided further, That 10 per centum private sector cash or in-kind contributions shall be required for obligations incurred in fiscal year 1986, 20 per centum private sector cash or in-kind contributions shall be required for obligations in fiscal year 1987, and for each subsequent fiscal year's obligations private sector contributions shall increase by 5 per centum over the life of the proof-of-concept plan: Provided further, That existing facilities, equipment, and supplies, or previously expended research or development funds are not cost-sharing for the purposes of this appropriation, except as amortized, depreciated, or expensed in normal business practice: Provided further, That cost-sharing shall not be required for the costs of constructing or operating government-owned facilities or for the costs of Government organizations, National Laboratories, or universities and such costs shall not be used in calculating the required percentage for private sector contributions: Provided further, That private sector contribution percentages need not be met on each contract but must be met in total for each fiscal year.

NAVAL PETROLEUM AND OIL SHALE RESERVES

For necessary expenses in carrying out naval petroleum and oil shale reserves activities, including the purchase of not to exceed 3 passenger motor vehicles, for replacement only, $13,668,000, to remain available until expended.

ENERGY CONSERVATION

For necessary expenses in carrying out energy conservation activities, $449,418,000, to remain available until expended: Provided, That pursuant to section 111(b)(1)(B) of the Energy Reorganization Act of 1974, as amended, 42 U.S.C. 5821(b)(1)(B), of the amount appropriated under this head, $10,319,000 shall be available for a grant for basic industry research facilities located at Northwestern University without section 111(b)(2) of such Act being applicable: Provided further, That section 404 of Public Law 98-558 shall not be effective in any fiscal year in which the amount made available for low income weatherization assistance from appropriations under this head is less than 5 per centum above the amount made available in fiscal year 1985: Provided further, That $7,500,000 of the amount provided under this heading shall be available for a research and development initiative with the National Laboratories for new technologies up to proof-of-concept testing to increase significantly the energy efficiency of processes that produce steel: Provided further, That obligation of funds for these activities shall be contingent on an agreement to provide cash or in-kind contributions to the initiative or to other collaborative research and development activities related to the purpose of the initiative equal to 30 percent of the amount of Federal government obligations: Provided further, That existing facilities, equipment, and supplies, or previously expended research or development funds are not acceptable as contributions for the purposes of this appropriation, except as amortized, depreciated, or expensed in normal business practice: Provided further, That the total Federal expenditure under this proviso shall be repaid up to one and one-half times from the proceeds of the commercial sale, lease, manufacture, or use of technologies developed under this proviso, at a rate of one-fourth of all net proceeds.

ECONOMIC REGULATION

For necessary expenses in carrying out the activities of the Economic Regulatory Administration and the Office of Hearings and Appeals, $24,623,000.

EMERGENCY PREPAREDNESS

For necessary expenses in carrying out emergency preparedness activities, $6,044,000.

STRATEGIC PETROLEUM RESERVE

For expenses necessary to carry out the provisions of sections 151 through 166 of the Energy Policy and Conservation Act of 1975 (Public Law 94-163), $113,043,000, to remain available until expended.

SPR PETROLEUM ACCOUNT

Notwithstanding any other provision of law, the Secretary of Agriculture, at the request of the Secretary of Energy, may exchange agricultural products owned by the Commodity Credit Corporation for crude oil to be delivered to the Strategic Petroleum Reserve: Provided, That the Secretary of Energy shall approve the quantity, quality, delivery method, scheduling, market value and other aspects of the exchange of such agricultural products: Provided further, That if the volume of agricultural products to be exchanged has a value in excess of the market value of the crude oil acquired by such exchange, then the Secretary of Agriculture shall require as part of the terms and conditions of the exchange that the party or entity providing such crude oil shall agree to purchase, within six months following the exchange, current crop commodities or value-added food products from United States producers or processors in an amount equal to at least one-half the difference between the value of the commodities received in exchange and the market value of the crude oil acquired for the Strategic Petroleum Reserve.

ENERGY INFORMATION ADMINISTRATION

For necessary expenses in carrying out the activities of the Energy Information Administration, $60,682,000.

ADMINISTRATIVE PROVISIONS, DEPARTMENT OF ENERGY

Appropriations under this Act for the current fiscal year shall be available for hire of passenger motor vehicles; hire, maintenance, and operation of aircraft; purchase, repair, and cleaning of uniforms; and reimbursement to the General Services Administration for security guard services.

From appropriations under this Act, transfers of sums may be made to other agencies of the Government for the performance of work for which the appropriation is made.

None of the funds made available to the Department of Energy under this Act shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriations Act.

The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private, or foreign: Provided, That revenues and

other moneys received by or for the account of the Department of Energy or otherwise generated by sale of products in connection with projects of the Department appropriated under this Act may be retained by the Secretary of Energy, to be available until expended, and used only for plant construction, operation, costs, and payments to cost-sharing entities as provided in appropriate cost-sharing contracts or agreements: Provided further, That the remainder of revenues after the making of such payments shall be covered into the Treasury as miscellaneous receipts: Provided further, That any contract, agreement or provision thereof entered into by the Secretary pursuant to this authority shall not be executed prior to the expiration of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) from the receipt by the Speaker of the House of Representatives and the President of the Senate of a full and comprehensive report on such project, including the facts and circumstances relied upon in support of the proposed project.

The Secretary of Energy may transfer to the Emergency Preparedness appropriation such funds as are necessary to meet any unforeseen emergency needs from any funds available to the Department of Energy from this Act.

The reporting requirement established by the last paragraph under the heading "Department of Energy Alternative Fuels Production" in an Act making appropriations for the Department of the Interior and Related Agencies for the fiscal year ending September 30, 1980 (42 U.S.C. 5915 note; Public Law 96-126), is hereby repealed.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

INDIAN HEALTH SERVICES

For expenses necessary to carry out the Act of August 5, 1954 (68 Stat. 674), the Indian Self-Determination Act, the Indian Health Care Improvement Act, and titles III and V and section 338G of the Public Health Service Act with respect to the Indian Health Service, including hire of passenger motor vehicles and aircraft; purchase of reprints; purchase and erection of portable buildings; payments for telephone service in private residences in the field, when authorized under regulations approved by the Secretary, $823,133,000: Provided, That funds made available to tribes and tribal organizations through grants and contracts authorized by the Indian Self-Determination and Education Assistance Act of 1975 (88 Stat. 2203; 25 U.S.C. 450), shall remain available until September 30, 1987. Funds provided in this Act may be used for one-year contracts and grants which are to be performed in two fiscal years, so long as the total obligation is recorded in the year for which the funds are appropriated: Provided further, That the amounts collected by the Secretary of Health and Human Services under the authority of title IV of the Indian Health Care Improvement Act shall be available until September 30, 1987, for the purpose of achieving compliance with the applicable conditions and requirements of titles XVIII and XIX of the Social Security Act (exclusive of planning, design, construction of new facilities, or major renovation of existing Indian Health Service facilities): Provided further, That funding contained herein, and in any earlier appropriations Acts, for scholarship programs under section 103 of the Indian Health Care Improvement Act and section 338G of the Public Health Service Act with respect to the Indian Health Service shall remain available for expenditure until September 30, 1987.

INDIAN HEALTH FACILITIES

For construction, major repair, improvement, and equipment of health and related auxiliary facilities, including quarters for personnel; preparation of plans, specifications, and drawings; acquisition of sites, purchase and erection of portable buildings, purchases of trailers and for provision of domestic and community sanitation facilities for Indians, as authorized by section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a), the Indian Self-Determination Act and the Indian Health Care Improvement Act, $46,947,000, to remain available until expended: Provided, That the Rosebud, South Dakota, hospital shall be designed and constructed with a capacity of 35 beds.

ADMINISTRATIVE PROVISIONS

INDIAN HEALTH SERVICE

Appropriations in this Act to the Indian Health Service, available for salaries and expenses, shall be available for services as authorized by 5 U.S.C. 3109 but at rates not to exceed the per diem equivalent to the rate for GS-18, and for uniforms or allowances therefor as authorized by law (5 U.S.C. 5901-5902), and for expenses of attendance at meetings which are concerned with the functions or activities for which the appropriation is made or which will contribute to improved conduct, supervision, or management of those functions or activities: Provided, That none of the funds appropriated under this Act to the Indian Health Service shall be available for the initial lease of permanent structures without advance provision therefor in appropriations Acts: Provided further, That non-Indian patients may be extended health care at all Indian Health Service facilities, if such care can be extended without impairing the ability of the Indian Health Service to fulfill its responsibility to provide health care to Indians served by such facilities and subject to such reasonable charges as the Secretary of Health and Human Services shall prescribe, the proceeds of which shall be deposited in the fund established by sections 401 and 402 of the Indian Health Care Improvement Act: Provided further, That funds appropriated to the Indian Health Service in this Act, except those used for administrative and program direction purposes, shall not be subject to limitations directed at curtailing Federal travel and transportation: Provided further, That with the exception of service units which currently have a billing policy, the Indian Health Service shall not initiate any further action to bill Indians in order to collect from third-party payers nor to charge those Indians who may have the economic means to pay unless and until such time as Congress has agreed upon a specific policy to do so and has directed the Indian Health Service to implement such a policy: Provided further, That notwithstanding any other provision of law, to satisfy the outstanding judgment against the Seattle Indian Health Board resulting from termination of its occupancy of the Kobe Park building in Seattle, Washington, $180,000 shall be provided from the unobligated balance available to the Indian Health Service from prior years' appropriations. Such payment shall be made only if the owners of the Kobe Park Building Company accept the sum named as full satisfaction for current or future claims against the Seattle Indian Health Board and the individual members of the Board.

DEPARTMENT OF EDUCATION

Office of Elementary and Secondary Education

INDIAN EDUCATION

For necessary expenses to carry out, to the extent not otherwise provided, the Indian Education Act, $67,476,000 of which $50,323,000 shall be for part A and $14,820,000 shall be for parts B and C: Provided, That the amounts available pursuant to section 423 of the Act shall remain available for obligation until September 30, 1987.

OTHER RELATED AGENCIES

Navajo and Hopi Indian Relocation Commission

SALARIES AND EXPENSES

For necessary expenses of the Navajo and Hopi Indian Relocation Commission as authorized by Public Law 93-531, $22,491,000 to remain available until expended, for operating expenses of the Commission: Provided, That notwithstanding any regulation to the contrary, the Commission shall notify the Secretary of the Interior by January 1, 1986, of those eligible relocatees who, as of November 30, 1985, were physically domiciled on the lands partitioned to the Hopi Tribe, who had applied by November 30, 1985, for relocation to the lands which are subject to section 11(h) of the Act of December 22, 1974, as amended (25 U.S.C. 640d-10(h)): Provided further, That none of the funds contained in this or any other Act may be used to evict any Navajo houshold who, as of November 30, 1985, is physically domiciled on the lands partitioned to the Hopi Tribe until such time as a new or replacement home is available for such household.

Smithsonian Institution

SALARIES AND EXPENSES

For necessary expenses of the Smithsonian Institution, including research in the fields of art, science, and history; development, preservation, and documentation of the National Collections; presentation of public exhibits and performances; collection, preparation, dissemination, and exchange of information and publications; conduct of education, training, and museum assistance programs; maintenance, alteration, operation, lease (for terms not to exceed ten years), and protection of buildings, facilities, and approaches; not to exceed $100,000 for services as authorized by 5 U.S.C. 3109; up to 5 replacement passenger vehicles; purchase, rental, repair, and cleaning of uniforms for employees; $178,063,000 including not less than $777,000 to carry out the provisions of the National Museum Act, $175,000 to be made available to the trustees of the John F. Kennedy Center for the Performing Arts for payment to the National Symphony Orchestra and $175,000 for payment to the Washington Opera Society for activities related to their responsibilities as resident entities of the Center, and such funds as may be necessary to support American overseas research centers: Provided, That funds appropriated herein are available for advance payments to independent contractors performing research services or participating in official Smithsonian presentations: Provided further, That none of these funds shall be available to a Smithsonian Research Foundation.

MUSEUM PROGRAMS AND RELATED RESEARCH

(SPECIAL FOREIGN CURRENCY PROGRAM)

For payments in foreign currencies which the Treasury Department shall determine to be excess to the normal requirements of the United States, for necessary expenses for carrying out museum programs, scientific and cultural research, and related educational activities, as authorized by law, $2,500,000, to remain available until expended and to be available only to United States institutions: Provided, That this appropriation shall be available, in addition to other appropriations to the Smithsonian Institution, for payments in the foregoing currencies: Provided further, That none of these funds shall be available to a Smithsonian Research Foundation: Provided further, That not to exceed $500,000 may be used to make grant awards to employees of the Smithsonian Institution.

CONSTRUCTION AND IMPROVEMENTS, NATIONAL ZOOLOGICAL PARK

For necessary expenses of planning, construction, remodeling, and equipping of buildings and facilities at the National Zoological Park, by contract or otherwise, $5,551,000, to remain available until expended.

RESTORATION AND RENOVATION OF BUILDINGS

For necessary expenses of restoration and renovation of buildings owned or occupied by the Smithsonian Institution, by contract or otherwise, as authorized by section 2 of the Act of August 22, 1949 (63 Stat. 623), including not to exceed $10,000 for services as authorized by 5 U.S.C. 3109, $11,075,000, to remain available until expended: Provided, That contracts awarded for environmental systems, protection systems, and exterior repair or renovation of buildings of the Smithsonian Institution may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.

CONSTRUCTION

For necessary expenses to construct, equip, and furnish the Center for African, Near Eastern, and Asian Cultures in the area south of the original Smithsonian Institution Building, $4,000,000, to remain available until expended.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

For the upkeep and operations of the National Gallery of Art, the protection and care of the works of art therein, and administrative expenses incident thereto, as authorized by the Act of March 24, 1937 (50 Stat. 51), as amended by the public resolution of April 13, 1939 (Public Resolution 9, Seventy-sixth Congress), including services as authorized by 5 U.S.C. 3109; payment in advance when authorized by the treasurer of the Gallery for membership in library, museum, and art associations or societies whose publications or services are available to members only, or to members at a price lower than to the general public; purchase, repair, and cleaning of uniforms for guards, and uniforms, or allowances therefor, for other employees as authorized by law (5 U.S.C. 5901-5902); purchase, or rental of devices and services for protecting buildings and contents thereof, and maintenance, alteration, improvement, and repair of buildings, approaches, and grounds; and purchase of services for restoration and repair of works of art for the National Gallery of Art by contracts made, without advertising, with individuals, firms, or organizations at such rates or prices and under such terms and conditions as the Gallery may deem proper, $33,754,000, of which not to exceed $2,200,000 for the special exhibition program shall remain available until expended.

REPAIR, RESTORATION AND RENOVATION OF BUILDINGS

For necessary expenses of repair, restoration and renovation of buildings, grounds and facilities owned or occupied by the National Gallery of Art, by contract or otherwise, as authorized, $3,300,000, to remain available until expended: Provided, That contracts awarded for environmental systems, protection systems, and exterior repair or renovation of buildings of the National Gallery of Art may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

For expenses necessary in carrying out the provisions of the Woodrow Wilson Memorial Act of 1968 (82 Stat. 1356), including hire of passenger vehicles and services as authorized by 5 U.S.C. 3109, $3,392,000.

ENDOWMENT CHALLENGE FUND

For the purpose of an endowment challenge fund for the Woodrow Wilson International Center for Scholars, $1,000,000, to remain available until September 30, 1988: Provided, That such sums shall become available only to the extent matched on a three-to-one basis by private funds: Provided further, That these funds may be invested in securities approved by the Board of Trustees and the income from such investments may be used to support programs of the Center deemed appropriate by the Trustees and by the Director of the Center.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

For necessary expenses to carry out the National Foundation on the Arts and the Humanities Act of 1965, as amended, $137,260,000, of which $121,678,000 shall be available to the National Endowment for the Arts for the support of projects and productions in the arts through assistance to groups and individuals pursuant to section 5(c) of the Act, of which not less than 20 per centum of the funds provided for section 5(c) shall be available for assistance pursuant to section 5(g) of the Act, and $15,582,000 shall be available for administering the functions of the Act.

MATCHING GRANTS

To carry out the provisions of section 10(a)(2) of the National Foundation on the Arts and the Humanities Act of 1965, as amended, $29,400,000, to remain available until September 30, 1987, to the National Endowment for the Arts, of which $20,580,000 shall be available for purposes of section 5(1): Provided, That this appropriation shall be available for obligation only in such amounts as may be equal to the total amounts of gifts, bequests, and devises of money, and other property accepted by the Chairman or by grantees of the Endowment under the provisions of section 10(a)(2), subsections 11(a)(2)(A) and 11(a)(3)(A) during the current and preceding fiscal years for which equal amounts have not previously been appropriated.

ARTS AND ARTIFACTS INDEMNITY FUND

For payment of certified claims for losses or damages pursuant to the Arts and Artifacts Indemnity Act of 1975, $300,000, to remain available until expended: Provided, That such funds shall be available to the National Endowment for the Arts for obligation only for claims for losses or damages which the Federal Council on the Arts and Humanities has certified as valid and reported to the Speaker of the House of Representatives and the President pro tempore of the Senate, as provided by the Act.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

For necessary expenses to carry out the National Foundation on the Arts and the Humanities Act of 1965, as amended, $110,818,000, of which $96,618,000 shall be available to the National Endowment for the Humanities for support of activities in the humanities, pursuant to section 7(c) of the Act, of which not less than 20 per centum shall be available for assistance pursuant to section 7(f) of the Act, and $14,200,000 shall be available for administering the functions of the Act.

MATCHING GRANTS

To carry out the provisions of section 10(a)(2) of the National Foundation on the Arts and the Humanities Act of 1965, as amended, $28,660,000, to remain available until September 30, 1987, of which $17,000,000 shall be available to the National Endowment for the Humanities for the purposes of section 7(h): Provided, That this appropriation shall be available for obligation only in such amounts as may be equal to the total amounts of gifts, bequests, and devises of money, and other property accepted by the Chairman or by grantees of the Endowment under the provisions of subsections 11(a)(2)(B) and 11(a)(3)(B) during the current and preceding fiscal years for which equal amounts have not previously been appropriated.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

There is hereby authorized a program to support artistic and cultural programs in the Nation's Capital to be established under the direction of the National Endowment for the Humanities. Not to exceed $5,000,000 annually is authorized to provide grants for general operating support to eligible organizations located in the District of Columbia which are engaged primarily in performing, exhibiting and/or presenting arts.

Eligibility for grants shall be limited to not-for-profit, non-academic institutions of demonstrated national repute and is further limited to organizations having an annual operating budget in excess of $1,000,000 for each of the three years prior to receipt of a grant. The following organizations are deemed eligible to receive grants under this section: Folger Theater, Corcoran Gallery of Art, Phillips Gallery, Arena Stage, the National Building Museum, the National Capital Children's Museum, the National Symphony Orchestra, the Washington Opera Society, and Ford's Theater.

The Chairman of the National Endowment for the Humanities shall establish an application process and shall, along with the Chairman of the National Endowment for the Arts and the Chairman of the Commission on Fine Arts determine the eligibility of applicant organizations in addition to those herein named.

Of the funds provided for grants, 70 per centum shall be equally distributed among all qualifying organizations and 30 per centum shall be distributed based on the size of an organization's total operating budget compared to the combined total of the operating budgets of all eligible institutions. No

organization shall receive a grant in excess of $500,000 in a single year.

An application process shall be established no later than March 1, 1986, and initial grants shall be awarded no later than June 1, 1986.

There is hereby appropriated $2,000,000, to remain available until expended, to carry out the provisions of this section.

INSTITUTE OF MUSEUM SERVICES

GRANTS AND ADMINISTRATION

For carrying out title II of the Arts, Humanities, and Cultural Affairs Act of 1976, as amended, $21,523,000: Provided, That none of these funds shall be available for the compensation of Executive Level V or higher positions.

ADMINISTRATIVE PROVISIONS

None of the funds appropriated to the National Foundation on the Arts and the Humanities may be used to process any grant or contract documents which do not include the text of 18 U.S.C. 1913: Provided, That none of the funds appropriated to the National Foundation on the Arts and the Humanities may be used for official reception and representation expenses.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

For expenses made necessary by the Act establishing a Commission of Fine Arts (40 U.S.C. 104), $382,000.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

SALARIES AND EXPENSES

For expenses made necessary by the Act establishing an Advisory Council on Historic Preservation, Public Law 89-665, as amended, $1,585,000: Provided, That none of these funds shall be available for the compensation of Executive Level V or higher positions.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

For necessary expenses, as authorized by the National Capital Planning Act of 1952 (40 U.S.C. 71-71i), including services as authorized by 5 U.S.C. 3109, $2,712,000.

FRANKLIN DELANO ROOSEVELT MEMORIAL COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Franklin Delano Roosevelt Memorial Commission, established by the Act of August 11, 1955 (69 Stat. 694), as amended by Public Law 92-332 (86 Stat. 401), $21,000, to remain available for obligation until September 30, 1987.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

SALARIES AND EXPENSES

For necessary expenses, as authorized by section 17(a) of Public Law 92-578, as amended, $2,329,000 for operating and administrative expenses of the Corporation.

PUBLIC DEVELOPMENT

For public development activities and projects in accordance with the development plan as authorized by section 17(b) of Public Law 92-578, as amended, $3,250,000, to remain available for obligation until expended.

UNITED STATES HOLOCAUST MEMORIAL COUNCIL

HOLOCAUST MEMORIAL COUNCIL

For expenses of the Holocaust Memorial Council, as authorized by Public Law 96-388, $2,125,000: Provided, That persons other than members of the United States Holocaust Memorial Council may be designated as members of committees associated with the United States Holocaust Memorial Council subject to appointment by the Chairman of the Council: Provided further, That any persons so designated shall serve without cost to the Federal Government.

TITLE III—GENERAL PROVISIONS

SEC. 301. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive Order issued pursuant to existing law.

SEC. 302. No part of any appropriation under this Act shall be available to the Secretaries of the Interior and Agriculture for use for any sale hereafter made of unprocessed timber from Federal lands west of the 100th meridian in the contiguous 48 States which will be exported from the United States, or which will be used as a substitute for timber from private lands which is exported by the purchaser: Provided, That this limitation shall not apply to specific quantities of grades and species of timber which said Secretaries determine are surplus to domestic lumber and plywood manufacturing needs.

SEC. 303. No part of any appropriation under this Act shall be available to the Secretary of the Interior or the Secretary of Agriculture for the leasing of oil and natural gas by noncompetitive bidding on publicly owned lands within the boundaries of the Shawnee National Forest, Illinois: Provided, That nothing herein is intended to inhibit or otherwise affect the sale, lease, or right to access to minerals owned by private individuals.

SEC. 304. No part of any appropriation contained in this Act shall be available for any activity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which congressional action is not complete.

SEC. 305. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 306. None of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency.

SEC. 307. Except for lands described by sections 105 and 106 of Public Law 96-560, section 103 of Public Law 96-550, section 5(d)(1) of Public Law 96-312, and except for land in the State of Alaska, and lands in the national forest system released to management for any use the Secretary of Agriculture deems appropriate through the land management planning process by any statement or other Act of Congress designating components of the National Wilderness Preservation System now in effect or hereinafter enacted, and except to carry out the obligations and responsibilities of the Secretary of the Interior under section 17(k)(1)(A) and (B) of the Mineral Leasing Act of 1920 (30 U.S.C. 226), none of the funds provided in this Act shall be obligated for any aspect of the processing or issuance of permits or leases pertaining to exploration for or development of coal, oil, gas, oil shale, phosphate, potassium, sulphur, gilsonite, or geothermal resources on Federal lands within any component of the National Wilderness Preservation System or within any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning in Executive Communication 1504, Ninety-sixth Congress (House Document numbered 96-119); or within any lands designated by Congress as wilderness study areas or within Bureau of Land Management wilderness study areas: Provided, That nothing in this section shall prohibit the expenditure of funds for any aspect of the processing or issuance of permits pertaining to exploration for or development of the mineral resources described in this section, within any component of the National Wilderness Preservation System now in effect or hereinafter enacted, any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning, within any lands designated by Congress as wilderness study areas, or Bureau of Land Management wilderness study areas, under valid existing rights, or leases validly issued in accordance with all applicable Federal, State, and local laws or valid mineral rights in existence prior to October 1, 1982: Provided further, That funds provided in this Act may be used by the Secretary of Agriculture in any area of National Forest lands or the Secretary of the Interior to issue under their existing authority in any area of National Forest or public lands withdrawn pursuant to this Act such permits as may be necessary to conduct prospecting, seismic surveys, and core sampling conducted by helicopter or other means not requiring construction of roads or improvement of existing roads or ways, for the purpose of gathering information about and inventorying energy, mineral, and other resource values of such area, if such activity is carried out in a manner compatible with the preservation of the wilderness environment: Provided further, That seismic activities involving the use of explosives shall not be permitted in designated wilderness areas: Provided further, That funds provided in this Act may be used by the Secretary of the Interior to augment recurring surveys of the mineral values of wilderness areas pursuant to section 4(d)(2) of the Wilderness Act and acquire information on other national forest and public land areas withdrawn pursuant to this Act, by conducting in conjunction with the Secretary of Energy, the National Laboratories, or other Federal agencies, as appropriate, such mineral inventories of areas withdrawn pursuant to this Act as he deems appropriate. These inventories shall be conducted in a manner compatible with the preservation of the wilderness environment through the use of methods including core sampling conducted by helicopter; geophysical techniques such as induced polarization, synthetic aperture radar, magnetic and gravity surveys; geochemical techniques including stream sediment reconnaissance and x-ray diffraction analysis; land satellites; or any other methods he deems appropriate. The Secretary of the Interior is hereby authorized to conduct inventories or segments of inventories, such as data analysis activities, by contract with private entities deemed by him to be qualified to engage in such activities whenever he has determined that such contracts would decrease Federal expenditures and would produce comparable or superior results: Provided further, That in carrying out any such inventory or surveys, where National Forest System lands are involved, the Secretary of the Interior shall consult with the Secretary of Agriculture concerning any activities affecting surface resources: Provided further, That funds provided in this Act may be used

by the Secretary of the Interior to issue oil and gas leases for the subsurface of any lands designated by Congress as wilderness study areas, that are immediately adjacent to producing oil and gas fields or areas that are prospectively valuable. Such leases shall allow no surface occupancy and may be entered only by directional drilling from outside the wilderness study area or other nonsurface disturbing methods.

SEC. 308. None of the funds provided in this Act shall be used to evaluate, consider, process, or award oil, gas, or geothermal leases on Federal lands in the Mount Baker-Snoqualmie National Forest, State of Washington, within the hydrographic boundaries of the Cedar River municipal watershed upstream of river mile 21.6, the Green River municipal watershed upstream of river mile 61.0, the North Fork of the Tolt River proposed municipal watershed upstream of river mile 11.7, and the South Fork Tolt River municipal watershed upstream of river mile 8.4.

SEC. 309. No assessments may be levied against any program, budget activity, subactivity, or project funded by this Act unless such assessments and the basis therefor are presented to the Committees on Appropriations and are approved by such committees.

SEC. 310. Employment funded by this Act shall not be subject to any personnel ceiling or other personnel restriction for permanent or other than permanent employment except as provided by law.

SEC. 311. Notwithstanding any other provisions of law, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Energy, and the Secretary of the Smithsonian Institution, are authorized to enter into contracts with State and local governmental entities, including local fire districts, for procurement of services in the presuppression, detection, and suppression of fires on any units within their jurisdiction.

SEC. 312. None of the funds provided by this Act to the United States Fish and Wildlife Service may be obligated or expended to plan for, conduct, or supervise deer hunting on the Loxahatchee National Wildlife Refuge.

SEC. 313. No funds appropriated by this Act shall be available for the implementation or enforcement of any rule or regulation of the United States Fish and Wildlife Service, Department of the Interior, requiring the use of steel shot in connection with the hunting of waterfowl in any State of the United States unless the appropriate State regulatory authority approves such implementation.

SEC. 314. None of the funds provided in this Act may be used to establish new grizzly bear populations in any unit of the National Park System or the National Forest System where no verified grizzly bear population currently exists. None of the funds provided in this Act may be used for augmentation in occupied areas of grizzly bear habitat unless an augmentation plan has been developed and made available for public review and comment in full compliance with the National Environmental Policy Act by all participating federal agencies: Provided, That it is not intended to prohibit the preparation of proposals to augment existing grizzly bear populations in occupied grizzly bear habitat: Provided further, That such augmentation may be conducted only with funds specifically identified for such purpose in an agency budget justification and subsequently approved in a report accompanying an appropriation bill making appropriations for that agency, or with funds provided for through reprogramming procedures: Provided further, That notwithstanding any other provision of law, agencies included in this Act are authorized to reimburse permittees for such reasonable expenses as may be incurred as a result of moving permitted animals from one location to another, as may be required by the permitting agency, in order to prevent harassment and attacks by grizzly bears. Such expenses are to be determined by the agency responsible for the permitted action.

SEC. 315. Notwithstanding any other provision of law, section 8336(j)(3)(A) of title 5, United States Code is amended by striking "5 years" and inserting in lieu thereof "10 years".

SEC. 316. Section 317 of title III of the Act of December 30, 1982 (96 Stat. 1966), is amended by deleting the words "but before December 31, 1985".

SEC. 317. Funds available to the Department of the Interior and the Forest Service in fiscal year 1986 for the purpose of contracting for services that require the utilization of privately owned aircraft for the carriage of cargo or freight shall be used only to contract for aircraft that are certified as air-worthy by the Administrator of the Federal Aviation Administration as standard category aircraft under 14 CFR 21.183 unless the Secretary of the contracting department determines that such aircraft are not reasonably available to conduct such services.

SEC. 318. None of the funds made available to the Department of the Interior or the Forest Service during fiscal year 1986 by this or any other Act may be used to implement the proposed jurisdictional interchange program until enactment of legislation which authorizes the jurisdictional interchange.

SEC. 319. Notwithstanding any other provision of law, any lease for those Federal lands within the Gallatin and Flathead National Forests which were affected by case CV-82-42-BU of the United States District Court for the District of Montana, Butte Division, for which the Secretary has directed or assented to the suspension of operations and production pursuant to section 39 of the Act of February 25, 1920 (30 U.S.C. 184) shall be excepted from the limits on aggregate acreage set out in that Act: Provided, That any person, association or corporation receiving relief under this section shall bring its aggregate acreage into compliance with the provisions of the Act of February 25, 1920 (30 U.S.C. 184) within six months from the date the suspension of operation and production ends.

SEC. 320. The provisions of section 2(a)(2)(A) of the Mineral Lands Leasing Act of 1920 (41 Stat. 437), as amended by section 3 of the Federal Coal Leasing Amendments Act of 1976 (90 Stat. 1083) shall not take effect until December 31, 1986.

SEC. 321. (a) None of the funds available to the Bureau of Indian Affairs for the construction of housing on lands acquired pursuant to section 11 of Public Law 93-531, as amended, shall be expended until a report is submitted to the House and Senate Committees on Appropriations detailing the proposed uses of such funds on the lands acquired pursuant to section 11 of Public Law 93-531.

(b) In addition to plans for housing, the report shall include a description of other services intended to be provided including, but not limited to, water, sewers, roads, schools, and health facilities. If such services are not to be provided the report shall describe alternative services available. The report shall further identify the proposed sites to which households will be relocated, including the distance from the Joint Use Area to such sites. This report shall be submitted no later than February 15, 1986, by the Navajo and Hopi Indian Relocation Commission and shall include the views of the Secretary of the Interior on the provision of housing and roads on the new lands.

SEC. 322. Notwithstanding any other provision of law, the limitation placed on the Secretary of the Interior by the last sentence of section 319 of "An Act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1985, and for other purposes", as enacted into law by Public Law 98-473 (98 Stat. 1837), shall remain in effect until Congress determines otherwise.

SEC. 323. The Secretary of the Interior, acting through the Bureau of Indian Affairs and in consultation and cooperation with the Secretary of Health and Human Services and the Secretary of Education, shall develop and begin implementation of a program which provides instruction in health promotion and disease prevention to juvenile Indians enrolled in schools operated by, or on behalf of, the Bureau of Indian Affairs

And the Senate Agree to the same.

SEC. 324. Public Law 96-388, as amended (36 U.S.C. 1401 et seq.), is further amended as follows:

(1) The first sentence of section 36 U.S.C. 1401 is amended to read: "There is hereby established as an independent Federal establishment the United States Holocaust Memorial Council (hereinafter in this chapter referred to as the 'Council').";

(2) 36 U.S.C. 1407 is amended by adding the word "invest," after the word "administer," in the first sentence, and by adding the following new sentence as the penultimate sentence: "Funds donated to and accepted by the Council pursuant to this section are not to be regarded as appropriated funds and are not subject to any requirements or restrictions applicable to appropriated funds."; and

(3) By adding the following new sections at the end of 36 U.S.C. 1408:

"REPORT TO THE CONGRESS

The Executive Director shall make a full report annually to the Congress of his stewardship of the authority to construct, operate, and maintain the Holocaust Museum, including an accounting of all financial transactions involving donated funds.

AUDIT BY THE COMPTROLLER GENERAL; ACCESS TO RECORDS

Financial transactions of the Council, including those involving donated funds, shall be audited by the Comptroller General as requested by the Congress, in accordance with generally accepted auditing standards. In conducting any audit pursuant to this section, appropriate representatives of the Comptroller General shall have access to all books, accounts, financial records, reports, files and other papers, items or property in use by the Council, as necessary to facilitate such audit, and such representatives shall be afforded full facilities for verifying transactions with the balances."

SEC. 325. Each amount of budget authority provided in this Act, or made available in the Energy Security Reserve for the Clean Coal Technology Program, for payments not required by law, is hereby reduced by 0.6 per centum: Provided, That such reductions shall be applied ratably to each account,

program, activity, and project provided for in this Act; and the Senate agree to the same.

Amendment numbered 8:

That the House recede from its disagreement to the amendment of the Senate numbered 8, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

(e) Such amounts as may be necessary for projects or activities provided for in the Department of Transportation and Related Agencies Appropriations Act, 1986, at a rate for operations and to the extent and in the manner provided for in the following Act; this subsection shall be effective as if it had been enacted into law as the regular appropriations Act:

AN ACT Making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1986, and for other purposes.

TITLE I—DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

For necessary expenses of the Office of the Secretary of Transportation, including not to exceed $30,000 for allocation within the Department of official reception and representation expenses as the Secretary may determine, $51,300,000, together with $500,000 of the unobligated balances available under this head at the beginning of fiscal year 1986, and of which $3,500,000 shall remain available until expended and shall be available for the purposes of the Minority Business Resource Center as authorized by 49 U.S.C. 332: Provided, That, notwithstanding any other provision of law, funds available for the purposes of the Minority Business Resource Center in this or any other Act may be used for business opportunities related to any mode of transportation.

TRANSPORTATION PLANNING, RESEARCH, AND DEVELOPMENT

For necessary expenses for conducting transportation planning, research, and development activities, including the collection of national transportation statistics, and university research and internships, to remain available until expended, $3,500,000.

WORKING CAPITAL FUND

Necessary expenses for operating costs and capital outlays of the Department of Transportation Working Capital Fund not to exceed $64,500,000 shall be paid, in accordance with law, from appropriations made available by this Act and prior appropriation Acts to the Department of Transportation, together with advances and reimbursements received by the Department of Transportation.

PAYMENTS TO AIR CARRIERS

For payments to air carriers of so much of the compensation fixed and determined under section 419 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1389), as is payable by the Department of Transportation, $28,000,000, to remain available until expended.

COAST GUARD

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses for the operation and maintenance of the Coast Guard, not otherwise provided for; purchase of not to exceed eight passenger motor vehicles for replacement only; and recreation and welfare, $1,652,000,000, of which $10,000,000 shall be derived from unobligated balances of "Pollution fund" and of which $15,000,000 shall be expended from the Boat Safety Account: Provided, That, notwithstanding any other provision of law, of the funds available under this head $789,800,000 shall be available for compensation and benefits of military personnel: Provided further, That, of the funds available under this head, not less than $328,000,000 shall be available for drug enforcement activities: Provided further, That the number of aircraft on hand at any one time shall not exceed two hundred and ten, exclusive of planes and parts stored to meet future attrition: Provided further, That none of the funds appropriated in this or any other Act shall be available for pay or administrative expenses in connection with shipping commissioners in the United States: Provided further, That none of the funds provided in this Act shall be available for expenses incurred for yacht documentation under 46 U.S.C. 103 except to the extent fees are collected from yacht owners and credited to this appropriation.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of acquisition, construction, rebuilding, and improvement of aids to navigation, shore facilities, vessels, and aircraft, including equipment related thereto; to remain available until September 30, 1990, $217,300,000: Provided, That the Secretary of Transportation shall issue regulations requiring that written warranties shall be included in all contracts with prime contractors for major systems acquisitions of the Coast Guard: Provided further, That any such written warranty shall not apply in the case of any system or component thereof that has been furnished by the Government to a contractor: Provided further, That the Secretary of Transportation may provide for a waiver of the requirements for a warranty where: (1) the waiver is necessary in the interest of the national defense or the warranty would not be cost effective; and (2) the Committees on Appropriations of the Senate and the House of Representatives are notified in writing of the Secretary's intention to waive and reasons for waiving such requirements: Provided further, That the requirements for such written warranties shall not cover combat damage.

ALTERATION OF BRIDGES

For necessary expenses for alteration or removal of obstructive bridges, $5,200,000, to remain available until expended.

RETIRED PAY

For retired pay, including the payment of obligations therefor otherwise chargeable to lapsed appropriations for this purpose, and payments under the Retired Serviceman's Family Protection and Survivor Benefit Plans, and for payments for medical care of retired personnel and their dependents under the Dependents Medical Care Act (10 U.S.C., ch. 55), $351,800,000.

RESERVE TRAINING

For all necessary expenses for the Coast Guard Reserve, as authorized by law; maintenance and operation of facilities; and supplies, equipment, and services, $61,502,000.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

For necessary expenses, not otherwise provided for, for basic and applied scientific research, development, test, and evaluation; maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law, $21,000,000, to remain available until expended: Provided, That there may be credited to this appropriation funds received from State and local governments, other public authorities, private sources and foreign countries, for expenses incurred for research, development, testing, and evaluation.

OFFSHORE OIL POLLUTION COMPENSATION FUND

For necessary expenses to carry out the provisions of title III of the Outer Continental Shelf Lands Act Amendments of 1978 (Public Law 95-372), $1,000,000, to be derived from the Offshore Oil Pollution Compensation Fund and to remain available until expended. In addition, to the extent that available appropriations are not adequate to meet the obligations of the Fund, the Secretary of Transportation is authorized to issue to the Secretary of the Treasury notes or other obligations in such amounts and at such times as may be necessary: Provided, That none of the funds in this Act shall be available for the implementation or execution of programs the obligations for which are in excess of $60,000,000 in fiscal year 1986 for the "Offshore Oil Pollution Compensation Fund".

DEEPWATER PORT LIABILITY FUND

For necessary expenses to carry out the provisions of section 18 of the Deepwater Port Act of 1974 (Public Law 93-627), $1,000,000, to be derived from the Deepwater Port Liability Fund and to remain available until expended. In addition, to the extent that available appropriations are not adequate to meet the obligations of the Fund, the Secretary of Transportation is authorized to issue, and the Secretary of the Treasury is authorized to purchase, without fiscal year limitation, notes or other obligations in such amounts and at such times as may be necessary: Provided, That none of the funds in this Act shall be available for the implementation or execution of programs the obligations for which are in excess of $50,000,000 in fiscal year 1986 for the "Deepwater Port Liability Fund".

BOAT SAFETY

(LIQUIDATION OF CONTRACT AUTHORIZATION)

For payment of obligations incurred for recreational boating safety assistance under Public Law 92-75, as amended, $30,000,000, to be derived from the Boat Safety Account and to remain available until expended: Provided, That none of the funds in this Act shall be available for the planning or execution of programs the obligations for which are in excess of $30,000,000 in fiscal year 1986 for recreational boating safety assistance: Provided further, That no obligations may be incurred for the improvement of recreational boating facilities.

FEDERAL AVIATION ADMINISTRATION

HEADQUARTERS ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses, not otherwise provided for, of providing administrative services at the headquarters location of the Federal Aviation Administration, including but not limited to accounting, budgeting, personnel, legal, public affairs, and executive direction for the Federal Aviation Administration, $64,400,000: Provided, That the Secretary of Transportation is authorized to transfer appropriated funds between this appropriation and the Federal Aviation Administration appropriation for operations: Provided further, That this appropriation shall be neither increased nor decreased by more than 2 per centum by any such transfers: Provided further, That any such trans-

fers shall be reported to the Committees on Appropriations.

OPERATIONS

For necessary expenses of the Federal Aviation Administration, not otherwise provided for, including administrative expenses for research and development, and for establishment of air navigation facilities, and carrying out the provisions of the Airport and Airway Development Act, as amended, or other provisions of law authorizing obligation of funds for similar programs of airport and airway development or improvement; purchase of four passenger motor vehicles for replacement only, $2,694,600,000, of which not to exceed $446,000,000 shall be derived from the Airport and Airway Trust Fund: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred in the maintenance and operation of air navigation facilities: Provided further, That none of these funds shall be available for new applicants for the second career training program.

FACILITIES AND EQUIPMENT (AIRPORT AND AIRWAY TRUST FUND)

For necessary expenses, not otherwise provided for, for acquisition, establishment, and improvement by contract or purchase, and hire of air navigation and experimental facilities, including initial acquisition of necessary sites by lease or grant; engineering and service testing including construction of test facilities and acquisition of necessary sites by lease or grant; and construction and furnishing of quarters and related accommodations of officers and employees of the Federal Aviation Administration stationed at remote localities where such accommodations are not available; to be derived from the Airport and Airway Trust Fund and to remain available until September 30, 1990, $993,000,000: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred in the establishment and modernization of air navigation facilities: Provided further, That of the funds available under this head, $10,000,000 shall be available for the Secretary of Transportation to enter into grant agreements with universities or colleges to conduct demonstration projects in the development, advancement, or expansion of airway science curriculum programs, and such funds, which shall remain available until expended, shall be made available under such terms and conditions as the Secretary of Transportation may prescribe, to such universities or colleges for the purchase or lease of buildings and associated facilities, instructional materials, or equipment to be used in conjunction with airway science curriculum programs.

RESEARCH, ENGINEERING AND DEVELOPMENT (AIRPORT AND AIRWAY TRUST FUND)

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses, not otherwise provided for, for research, engineering and development, in accordance with the provisions of the Federal Aviation Act (49 U.S.C. 1301-1542), including construction of experimental facilities and acquisition of necessary sites by lease or grant, to be derived from the Airport and Airway Trust Fund and to remain available until expended, $190,000,000, together with $15,000,000 to be transferred from unobligated balances of "Facilities and equipment", of which $3,036,412 shall be available for icing and related next generation weather radar atmospheric research to be conducted by the University of North Dakota, $2,000,000 shall be available for the Center for Research and Training in Information-based Aviation and Transportation Management at Barry University and $2,000,000 shall be available for the Institute for Aviation Safety Research at Wichita State University: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred for research, engineering and development.

GRANTS-IN-AID FOR AIRPORTS (LIQUIDATION OF CONTRACT AUTHORIZATION) (AIRPORT AND AIRWAY TRUST FUND)

For liquidation of obligations incurred for airport planning and development under section 14 of Public Law 91-258, as amended, and under other law authorizing such obligations, and obligations for noise compatibility planning and programs, $693,000,000, to be derived from the Airport and Airway Trust Fund and to remain available until expended: Provided, That none of the funds in this Act shall be available for the planning or execution of programs the commitments for which are in excess of $925,000,000 in fiscal year 1986 for grants-in-aid for airport planning and development, and noise compatibility planning and programs, notwithstanding section 506(e)(4) of the Airport and Airway Improvement Act of 1982.

OPERATION AND MAINTENANCE, METROPOLITAN WASHINGTON AIRPORTS

For expenses incident to the care, operation, maintenance, improvement, and protection of the federally-owned civil airports in the vicinity of the District of Columbia, including purchase of eight passenger motor vehicles for police use, for replacement only; purchase, cleaning, and repair of uniforms; and arms and ammunition, $34,100,000: Provided, That there may be credited to this appropriation funds received from air carriers, concessionaires, and non-federal tenants sufficient to cover utility and fuel costs which are in excess of $6,682,000: Provided further, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, or private sources, for expenses incurred in the maintenance and operation of the federally-owned civil airports.

CONSTRUCTION, METROPOLITAN WASHINGTON AIRPORTS

For necessary expenses for construction at the federally-owned civil airports in the vicinity of the District of Columbia, $7,000,000, to remain available until September 30, 1988.

AVIATION INSURANCE REVOLVING FUND

The Secretary of Transportation is hereby authorized to make such expenditures and investments, within the limits of funds available pursuant to section 1306 of the Act of August 23, 1958, as amended (49 U.S.C. 1536), and in accordance with section 104 of the Government Corporation Control Act, as amended (31 U.S.C. 9104), as may be necessary in carrying out the programs set forth in the budget for the current fiscal year for aviation insurance activities under said Act.

AIRCRAFT PURCHASE LOAN GUARANTEE PROGRAM

The Secretary of Transportation may hereafter issue notes or other obligations to the Secretary of the Treasury, in such forms and denominations, bearing such maturities, and subject to such terms and conditions as the Secretary of the Treasury may prescribe. Such obligations may be issued to pay any necessary expenses required pursuant to any guarantee issued under the Act of September 7, 1957, Public Law 85-307, as amended (49 U.S.C. 1324 note). The aggregate amount of such obligations during fiscal year 1986 shall not exceed $75,000,000. Such obligations shall be redeemed by the Secretary from appropriations authorized by this section. The Secretary of the Treasury shall purchase any such obligations, and for such purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as now or hereafter in force. The purposes for which securities may be issued under such Act are extended to include any purchase of notes or other obligations issued under the subsection. The Secretary of the Treasury may sell any such obligations at such times and price and upon such terms and conditions as he shall determine in his discretion. All purchases, redemptions, and sales of such obligations by such Secretary shall be treated as public debt transactions of the United States.

FEDERAL HIGHWAY ADMINISTRATION

LIMITATION ON GENERAL OPERATING EXPENSES

Necessary expenses for administration, operation, and research of the Federal Highway Administration, not to exceed $203,761,000, shall be paid, in accordance with law, from appropriations made available by this Act to the Federal Highway Administration together with advances and reimbursements received by the Federal Highway Administration: Provided, That not to exceed $48,415,000 of the amount provided herein shall remain available until expended: Provided further, That all unobligated amounts made available under this head in prior fiscal years for the establishment and implementation of a demonstration bonding program for economically and socially disadvantaged businesses shall remain available for such purposes until expended: Provided further, That, notwithstanding any other provision of law, there may be credited to this account funds received from States, counties, municipalities, other public authorities and private sources, for training expenses incurred for non-federal employees: Provided further, That none of the funds provided in this Act shall be used for the approval of, or to pay the salary of any person who approves projects to construct a landfill in the Hudson River as part of an Interstate System highway in New York City.

HIGHWAY SAFETY RESEARCH AND DEVELOPMENT (HIGHWAY TRUST FUND)

For necessary expenses in carrying out provisions of sections 307(a) and 403 of title 23, United States Code, to be derived from the Highway Trust Fund and to remain available until expended, $8,500,000.

HIGHWAY-RELATED SAFETY GRANTS (LIQUIDATION OF CONTRACT AUTHORIZATION) (HIGHWAY TRUST FUND)

For payment of obligations incurred in carrying out the provisions of title 23, United States Code, section 402, administered by the Federal Highway Administration, to remain available until expended, $9,000,000 to be derived from the Highway Trust Fund: Provided, That not to exceed $100,000 of the amount appropriated herein shall be available for "Limitation on general operating expenses": Provided further, That none of the funds in this Act shall be

available for the planning or execution of programs the obligations for which are in excess of $10,000,000 in fiscal year 1986 for "Highway-related safety grants".

HIGHWAY BEAUTIFICATION

Funds appropriated and obligated to carry out sections 131 and 136 of title 23, United States Code, which have been deobligated subsequent to enactment of this Act shall remain available until expended.

RAILROAD-HIGHWAY CROSSINGS DEMONSTRATION PROJECTS

For necessary expenses of certain railroad-highway crossings demonstration projects as authorized by section 163 of the Federal-Aid Highway Act of 1973, as amended, to remain available until expended, $16,000,000, of which $10,666,667 shall be derived from the Highway Trust Fund: Provided, That the unobligated balance of funds appropriated in Public Law 93-98 for Wheeling, West Virginia, is hereby made available for allocation to carry out highway projects on the Federal-aid system in Wheeling, West Virginia at full federal expense.

FEDERAL-AID HIGHWAYS (LIQUIDATION OF CONTRACT AUTHORIZATION) (HIGHWAY TRUST FUND)

For carrying out the provisions of title 23, United States Code, which are attributable to Federal-aid highways, including the National Scenic and Recreational Highway as authorized by 23 U.S.C. 148, not otherwise provided, including reimbursements for sums expended pursuant to the provisions of 23 U.S.C. 308, $13,836,000,000 or so much thereof as may be available in and derived from the Highway Trust Fund, to remain available until expended: Provided, That none of the funds in this Act shall be available for the implementation or execution of programs the obligations for which are in excess of $12,750,000,000 for Federal-aid highways and highway safety construction programs for fiscal year 1986, except that this limitation shall not apply to obligations for emergency relief under section 125 of title 23, United States Code, obligations under section 157 of title 23, United States Code, projects covered under section 147 of the Surface Transportation Assistance Act of 1978, section 9 of the Federal-Aid Highway Act of 1981, subsections 131 (b) and (j) of Public Law 97-424, section 118 of the National Visitors Center Facilities Act of 1968, or section 320 of title 23, United States Code.

RIGHT-OF-WAY REVOLVING FUND (LIMITATION ON DIRECT LOANS) (HIGHWAY TRUST FUND)

During fiscal year 1986 and with the resources and authority available, gross obligations for the principal amount of direct loans shall not exceed $50,000,000.

MOTOR CARRIER SAFETY

For necessary expenses to carry out the motor carrier safety functions of the Secretary as authorized by the Department of Transportation Act (80 Stat. 939-940), $13,900,000, of which $953,000 shall remain available until expended, and not to exceed $1,601,000 shall be available for "Limitation on general operating expenses".

MOTOR CARRIER SAFETY GRANTS

(HIGHWAY TRUST FUND)

For necessary expenses to carry out provisions of section 402 of Public Law 97-424, $17,000,000, to be derived from the Highway Trust Fund and to remain available until September 30, 1989.

ACCESS HIGHWAYS TO PUBLIC RECREATION AREAS ON CERTAIN LAKES

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of certain access highway projects, as authorized by section 155, title 23, United States Code, to remain available until expended, $10,000,000, of which $5,000,000 shall be derived from unobligated balances of "Research, training, and human resources".

BALTIMORE-WASHINGTON PARKWAY

(HIGHWAY TRUST FUND)

For necessary expenses, not otherwise provided, to carry out the provisions of the Federal-Aid Highway Act of 1970, for the Baltimore-Washington Parkway, to remain available until expended, $3,000,000 to be derived from the Highway Trust Fund and to be withdrawn therefrom at such times and in such amounts as may be necessary: Provided, That, notwithstanding subsection (b) of section 146 of the Federal-Aid Highway Act of 1970 and any agreement entered into under such subsection, the Secretary of the Interior shall not be required to convey to the State of Maryland any portion of the Baltimore-Washington Parkway located in the State of Maryland, and the State of Maryland shall not be required to accept conveyance of any such portion: Provided further, That funds authorized by such section may be expended without regard to any requirement of such an agreement that such portion of the Baltimore-Washington Parkway be conveyed to the State of Maryland.

WASTE ISOLATION PILOT PROJECT ROADS

For necessary expenses in connection with the upgrading of certain highways for the transportation of nuclear waste generated during defense-related activities, not otherwise provided for, $7,000,000, to remain available until expended.

RAIL LINE CONSOLIDATION PROJECT

(TRANSFER OF FUNDS)

For necessary expenses to carry out a project to consolidate two rail lines on a common alignment in the vicinity of Orange, Texas, that demonstrates methods by which a rail line consolidation project will reduce motor vehicle traffic congestion and increase employment, to remain available until expended, $4,000,000 to be derived from unobligated balances of "Research, training, and human resources".

AIRPORT-HIGHWAY DEMONSTRATION PROJECT

(TRANSFER OF FUNDS)

For necessary expenses to carry out a highway project to depress a highway in Shawnee, Oklahoma, that demonstrates methods of improving air service to a small community by extension of a runway over a depressed road, to remain available until expended, $1,350,000 to be derived from unobligated balances of "Research, training, and human resources".

EXPRESSWAY GAP CLOSING DEMONSTRATION PROJECT

For necessary expenses to carry out a highway construction project along State Route 113 in north-central California that demonstrates methods of reducing motor vehicle congestion and increasing employment, there is authorized to be appropriated $23,500,000, to remain available until expended, of which $9,000,000 is hereby appropriated: Provided, That such funds shall be exempt from any limitation on obligations for Federal-aid highways and highway safety construction programs.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

OPERATIONS AND RESEARCH

(INCLUDING TRANSFERS OF FUNDS)

For expenses necessary to discharge the functions of the Secretary with respect to traffic and highway safety and functions under the Motor Vehicle Information and Cost Savings Act (Public Law 92-513, as amended), $88,851,000, of which $5,000,000 shall be derived from unobligated balances of "Research, training, and human resources", and of which $29,894,000 shall be derived from the Highway Trust Fund: Provided, That not to exceed $36,296,000 shall remain available until expended, of which $14,833,000 shall be derived from the Highway Trust Fund: Provided further, That, of the funds available under this head, $10,000,000 shall be available to implement the recommendations of the 1985 National Academy of Sciences report on trauma research: Provided further, That for the purpose of carrying out a national program to encourage the use of automobile passive restraints as authorized by 23 U.S.C. 403, an additional $500,000 is available to be derived from unobligated balances of "Carpool and vanpool projects".

HIGHWAY TRAFFIC SAFETY GRANTS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

For payment of obligations incurred in carrying out the provisions of 23 U.S.C. 402, 406 and 408, and section 209 of Public Law 95-599, as amended, to remain available until expended, $149,000,000, to be derived from the Highway Trust Fund: Provided, That none of the funds in this Act shall be available for the planning or execution of programs the total obligations for which are in excess of $126,500,000 in fiscal year 1986 for "State and community highway safety" authorized under 23 U.S.C. 402: Provided further, That none of these funds shall be used for construction, rehabilitation or remodeling costs or for office furnishings and fixtures for State, local, or private buildings or structures: Provided further, That none of the funds in this Act shall be available for the planning or execution of programs the total obligations for which are in excess of $28,800,000 for "Alcohol safety incentive grants" authorized under 23 U.S.C. 408: Provided further, That none of the funds in this Act shall be available for the planning or execution of programs authorized by section 209 of Public Law 95-599, as amended, the total obligations for which are in excess of $5,000,000 in fiscal years 1983, 1984, 1985, and 1986: Provided further, That not to exceed $5,000,000 shall be available for administering the provisions of 23 U.S.C. 402.

FEDERAL RAILROAD ADMINISTRATION

OFFICE OF THE ADMINISTRATOR

For necessary expenses of the Federal Railroad Administration, not otherwise provided for, $10,120,000.

RAILROAD SAFETY

For necessary expenses in connection with railroad safety, not otherwise provided for, $27,764,000, of which $1,500,000 shall remain available until expended.

RAILROAD RESEARCH AND DEVELOPMENT

For necessary expenses for railroad research and development, $10,600,000, to remain available until expended.

RAIL SERVICE ASSISTANCE

For necessary expenses for rail service assistance authorized by section 5 of the De-

partment of Transportation Act, as amended, for Washington Union Station, as authorized by Public Law 97-125, and for necessary administrative expenses in connection with federal rail assistance programs not otherwise provided for, $20,200,000, to remain available until expended: Provided, That none of the funds provided under this Act shall be available for the planning or execution of a program making commitments to guarantee new loans under the Emergency Rail Services Act of 1970, as amended, and that no new commitments to guarantee loans under section 211(a) or 211(h) of the Regional Rail Reorganization Act of 1973, as amended, shall be made: Provided further, That none of the funds in this Act shall be available for the acquisition, sale or transference of Washington Union Station without the prior approval of the House and Senate Committees on Appropriations: Provided further, That, of the funds available under this head, $15,000,000 shall be available for allocation to the States under section 5(h)(2) of the Department of Transportation Act, as amended: Provided further, That, notwithstanding any other provision of law, a State may not apply for fiscal year 1986 funds available under section 5(h)(2) until such State has expended all funds granted to it in the fiscal years prior to the beginning of fiscal year 1981, other than funds not expended due to pending litigation: Provided further, That a State denied funding by reason of the immediately preceding proviso may still apply for and receive funds for planning purposes: Provided further, That, notwithstanding any other provision of law, of the funds available under section 5(h)(2), $10,000,000 shall be made available for use under sections 5(h)(3)(B)(ii) and 5(h)(3)(C) of the Department of Transportation Act, as amended, notwithstanding the limitations set forth in section 5(h)(3)(B)(ii).

CONRAIL LABOR PROTECTION

Such sums as may be necessary shall be made available for necessary expenses of administration of section 701 of the Regional Rail Reorganization Act of 1973 by the Railroad Retirement Board.

NORTHEAST CORRIDOR IMPROVEMENT PROGRAM

For necessary expenses related to Northeast Corridor improvements authorized by title VII of the Railroad Revitalization and Regulatory Reform Act of 1976, as amended (45 U.S.C. 851 et seq.), $12,500,000, to remain available until expended: Provided, That, notwithstanding any other provision of law, the provisions of Public Law 85-804 shall apply to the Northeast Corridor Improvement Program: Provided further, That the Secretary may waive the provisions of 23 U.S.C. 322 (c) and (d) if such action would serve a public purpose: Provided further, That all public at grade-level crossings remaining along the Northeast Corridor upon completion of the project shall be equipped with protective devices including gates and lights.

GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

(INCLUDING TRANSFERS OF FUNDS)

To enable the Secretary of Transportation to make grants to the National Railroad Passenger Corporation for operating losses incurred by the Corporation, capital improvements, and labor protection costs authorized by 45 U.S.C. 565, to remain available until expended, $616,000,000, of which $23,000,000 shall be derived from unobligated balances of "Conrail labor protection" and $5,500,000 shall be derived from unobligated balances of "Rail labor assistance" as of September 30, 1985: Provided, That none of the funds herein appropriated shall be used for lease or purchase of passenger motor vehicles or for the hire of vehicle operators for any officer or employee, other than the president of the Corporation, excluding the lease of passenger motor vehicles for those officers or employees while in official travel status: Provided further, That the Secretary shall make no commitments to guarantee new loans or loans for new purposes under 45 U.S.C. 602 in fiscal year 1986: Provided further, That the incurring of any obligation or commitment by the Corporation for the purchase of capital improvements prohibited by this Act or not expressly provided for in an appropriation Act shall be deemed a violation of 31 U.S.C. 1341: Provided further, That no funds are required to be expended or reserved for expenditure pursuant to 45 U.S.C. 601(e): Provided further, That none of the funds in this or any other Act shall be made available to finance the rehabilitation and other improvements (including upgrading track and the signal system, ensuring safety at public and private highway and pedestrian crossings by improving signals or eliminating such crossings, and the improvement of operational portions of stations related to intercity rail passenger service) on the main line track between Atlantic City, New Jersey, and the main line of the Northeast Corridor, unless the Secretary of Transportation certifies that not less than 40 per centum of the costs of such improvements shall be derived from non-federal sources: Provided further, That, notwithstanding any other provision of law, the National Railroad Passenger Corporation shall not operate rail passenger service between Atlantic City, New Jersey, and the Northeast Corridor main line unless the Corporation's Board of Directors determines that revenues from such service have covered or exceeded 80 per centum of the short term avoidable costs of operating such service in the first year of operation and 100 per centum of the short term avoidable operating costs for each year thereafter: Provided further, That none of the funds provided in this or any other Act shall be made available to finance the acquisition and rehabilitation of a line, and construction necessary to facilitate improved rail passenger service, between Spuyten Duyvil, New York, and the main line of the Northeast Corridor unless the Secretary of Transportation certifies that not less than 40 per centum of the costs of such improvement shall be derived from non-Amtrak sources.

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING FUNDS

The total commitments to guarantee new loans pursuant to sections 511 through 513 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), as amended, shall not exceed $4,000,000 of contingent liabilities for loan principal during fiscal year 1986: Provided, That the Secretary of Transportation is authorized to issue to the Secretary of the Treasury notes or other obligations pursuant to section 512 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), as amended, in such amounts and at such times as may be necessary to pay any amounts required pursuant to the guarantee of the principal amount of obligations under sections 511 through 513 of such Act, such authority to exist as long as any such guaranteed obligation is outstanding: Provided further, That the aggregate amount of such notes or other obligations during fiscal year 1986 shall not exceed $100,000,000.

REDEEMABLE PREFERENCE SHARES

Notwithstanding any other provision of law, the Secretary of Transportation is hereby authorized to expend proceeds from the sale of fund anticipation notes to the Secretary of the Treasury and any other moneys deposited in the Railroad Rehabilitation and Improvement Fund pursuant to sections 502, 505-507, and 509 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), as amended, and section 803 of Public Law 95-620, for uses authorized for the Fund, in amounts not to exceed $33,500,000.

CONRAIL COMMUTER TRANSITION ASSISTANCE

(TRANSFER OF FUNDS)

For necessary capital expenses of Conrail commuter transition assistance, not otherwise provided for, $5,000,000 to be derived from unobligated balances of "Research, training, and human resources" and to remain available until expended.

URBAN MASS TRANSPORTATION ADMINISTRATION

ADMINISTRATIVE EXPENSES

For necessary administrative expenses of the urban mass transportation program authorized by the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.), and 23 U.S.C. chapter 1, in connection with these activities, including hire of passenger motor vehicles and services as authorized by 5 U.S.C. 3109, $30,000,000, of which not to exceed $650,000 shall be available for the Office of the Administrator.

RESEARCH, TRAINING, AND HUMAN RESOURCES

For necessary expenses for research, training, and human resources as authorized by the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.), to remain available until expended, $17,400,000: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities and private sources, for expenses incurred for training.

FORMULA GRANTS

For necessary expenses to carry out the provisions of sections 9 and 18 of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.), $2,150,000,000, to remain available until expended.

DISCRETIONARY GRANTS

None of the funds in this Act shall be available for the implementation or execution of programs in excess of $1,045,500,000 in fiscal year 1986 for grants under the contract authority authorized in section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.).

LIQUIDATION OF CONTRACT AUTHORIZATION

For payment of obligations incurred in carrying out section 21(a)(2) of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.), administered by the Urban Mass Transportation Administration, $775,000,000, to be derived from the Highway Trust Fund and to remain available until expended.

INTERSTATE TRANSFER GRANTS—TRANSIT

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of 23 U.S.C. 103(e)(4) related to transit projects, to remain available until September 30, 1987, $218,750,000, of which $18,750,000 shall be derived from unobligat-

ed balances of "Research, training, and human resources".

WASHINGTON METRO

For necessary expenses to carry out the provisions of section 14 of Public Law 96-184, $227,000,000, to remain available until expended.

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

The Saint Lawrence Seaway Development Corporation is hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to the Corporation, and in accord with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act, as amended, as may be necessary in carrying out the programs set forth in the Corporation's budget for the current fiscal year except as hereinafter provided.

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed $1,916,000 shall be available for administrative expenses which shall be computed on an accrual basis, including not to exceed $3,000 for official entertainment expenses to be expended upon the approval or authority of the Secretary of Transportation: Provided, That Corporation funds shall be available for the hire of passenger motor vehicles and aircraft, operation and maintenance of aircraft, uniforms or allowances therefor for operation and maintenance personnel, as authorized by law (5 U.S.C. 5901-5902), and $15,000 shall be available for services as authorized by 5 U.S.C. 3109.

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION

RESEARCH AND SPECIAL PROGRAMS

For expenses necessary to discharge the functions of the Research and Special Programs Administration, for expenses for conducting research and development and for grants-in-aid to carry out a pipeline safety program, as authorized by section 5 of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. 1674), $19,300,000, of which $6,975,000 shall remain available until expended.

OFFICE OF THE INSPECTOR GENERAL

SALARIES AND EXPENSES

For necessary expenses of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, $27,600,000.

TITLE II—RELATED AGENCIES

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

SALARIES AND EXPENSES

For expenses necessary for the Architectural and Transportation Barriers Compliance Board, as authorized by section 502 of the Rehabilitation Act of 1973, as amended, $1,975,000.

NATIONAL TRANSPORTATION SAFETY BOARD

SALARIES AND EXPENSES

For necessary expenses of the National Transportation Safety Board, including hire of passenger motor vehicles and aircraft; services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for a GS-18; uniforms, or allowances therefor, as authorized by law (5 U.S.C 5901-5902), $22,300,000, of which not to exceed $500 may be used for official reception and representation expenses.

INTERSTATE COMMERCE COMMISSION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Interstate Commerce Commission, including services as authorized by 5 U.S.C. 3109, and not to exceed $1,500 for official reception and representation expenses, $50,480,000, of which $2,300,000 shall be derived from unobligated balances of "Payments for directed rail service": Provided, That joint board members and cooperating State commissioners may use Government transportation requests when traveling in connection with their official duties as such.

PAYMENTS FOR DIRECTED RAIL SERVICE

None of the funds provided in this Act shall be available for the execution of programs the obligations for which can reasonably be expected to exceed $1,000,000 for directed rail service authorized under 49 U.S.C. 11125 or any other legislation.

PANAMA CANAL COMMISSION

OPERATING EXPENSES

For operating expenses necessary for the Panama Canal Commission, including hire of passenger motor vehicles and aircraft; uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902); not to exceed $10,000 for official reception and representation expenses of the Board; operation of guide services; residence for the Administrator; disbursements by the Administrator for employee and community projects; not to exceed $1,000 for official reception and representation expenses of the Secretary; not to exceed $25,000 for official reception and representation expenses of the Administrator; and to employ services as authorized by law (5 U.S.C. 3109); $400,284,000, to be derived from the Panama Canal Commission Fund: Provided, That there may be credited to this appropriation funds received from the Panama Canal Commission's capital outlay account for expenses incurred for supplies and services provided for capital projects.

CAPITAL OUTLAY

For acquisition, construction, replacement, and improvement of facilities, structures, and equipment required by the Panama Canal Commission, including the purchase of not to exceed forty-four passenger motor vehicles for replacement only (including large heavy-duty vehicles used to transport Commission personnel across the Isthmus of Panama, the purchase price of which shall not exceed $14,000 per vehicle); to employ services authorized by law (5 U.S.C. 3109); $25,500,000 to be derived from the Panama Canal Commission Fund and to remain available until expended.

DEPARTMENT OF THE TREASURY

OFFICE OF THE SECRETARY

INVESTMENT IN FUND ANTICIPATION NOTES

For the acquisition, in accordance with section 509 of the Railroad Revitalization and Regulatory Reform Act of 1976, as amended, and section 803 of Public Law 95-620, of fund anticipation notes, $33,500,000.

UNITED STATES RAILWAY ASSOCIATION

ADMINISTRATIVE EXPENSES

For necessary administrative expenses to enable the United States Railway Association to carry out its functions under the Regional Rail Reorganization Act of 1973, as amended, to remain available until expended, $2,400,000, of which not to exceed $500 may be available for official reception and representation expenses.

WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY

INTEREST PAYMENTS

For necessary expenses for interest payments, to remain available until expended, $51,663,569: Provided, That these funds shall be disbursed pursuant to terms and conditions established by Public Law 96-184 and the Initial Bond Repayment Participation Agreement.

TITLE III—GENERAL PROVISIONS

SEC. 301. During the current fiscal year applicable appropriations to the Department of Transportation shall be available for maintenance and operation of aircraft; hire of passenger motor vehicles and aircraft; purchase of liability insurance for motor vehicles operating in foreign countries on official departmental business; and uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901-5902).

SEC. 302. Funds appropriated for the Panama Canal Commission may be apportioned notwithstanding section 3679 of the Revised Statutes, as amended (31 U.S.C. 1341), to the extent necessary to permit payment of such pay increases for officers or employees as may be authorized by administrative action pursuant to law which are not in excess of statutory increases granted for the same period in corresponding rates of compensation for other employees of the Government in comparable positions.

SEC. 303. Funds appropriated under this Act for expenditures by the Federal Aviation Administration shall be available (1) except as otherwise authorized by the Act of September 30, 1950 (20 U.S.C. 236-244), for expenses of primary and secondary schooling for dependents of Federal Aviation Administration personnel stationed outside the continental United States at costs for any given area not in excess of those of the Department of Defense for the same area, when it is determined by the Secretary that the schools, if any, available in the locality are unable to provide adequately for the education of such dependents and (2) for transportation of said dependents between schools serving the area which they attend and their places of residence when the Secretary, under such regulations as may be prescribed, determines that such schools are not accessible by public means of transportation on a regular basis.

SEC. 304. Appropriations contained in this Act for the Department of Transportation shall be available for services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for a GS-18.

SEC. 305. None of the funds appropriated in this Act for the Panama Canal Commission may be expended unless in conformance with the Panama Canal Treaties of 1977 and any law implementing those treaties.

SEC. 306. None of the funds provided in this Act may be used for planning or construction of rail-highway crossings under section 322(a) of title 23, United States Code, or under section 701(a)(5) or section 703(1)(A) of the Railroad Revitalization and Regulatory Reform Act of 1976 at the—

(1) School Street crossing in Groton, Connecticut; and

(2) Broadway Extension crossing in Stonington, Connecticut.

SEC. 307. None of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-federal parties

intervening in regulatory or adjudicatory proceedings funded in this Act.

SEC. 308. None of the funds in this Act shall be used to assist, directly or indirectly, any State in imposing mandatory State inspection fees or sticker requirements on vehicles which are lawfully registered in another State, including vehicles engaged in interstate commercial transportation which are in compliance with Part 396—Inspection and Maintenance of the Federal Motor Carrier Safety Regulations of the United States Department of Transportation.

SEC. 309. None of the funds contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 310. Notwithstanding any other provision of law, total amounts of contract authority authorized for fiscal year 1986 in section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended, shall be available for obligation through fiscal year 1989.

SEC. 311. None of the funds in this or any other Act shall be available for the planning or implementation of any change in the current federal status of the Transportation Systems Center.

SEC. 312. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive Order issued pursuant to existing law.

SEC. 313. (a) For fiscal year 1986 the Secretary of Transportation shall distribute the obligation limitation for Federal-aid highways by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bear to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(b) During the period October 1 through December 31, 1985, no State shall obligate more than 40 per centum of the amount distributed to such State under subsection (a), and the total of all State obligations during such period shall not exceed 25 per centum of the total amount distributed to all States under such subsection.

(c) Notwithstanding subsections (a) and (b), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned to a State, except in those instances in which a State indicates its intention to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code;

(2) after August 1, 1986, revise a distribution of the funds made available under subsection (a) if a State will not obligate the amount distributed during that fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year giving priority to those States having large unobligated balances of funds apportioned under section 104 of title 23, United States Code, and giving priority to those States which, because of statutory changes made by the Surface Transportation Assistance Act of 1982 and the Federal-Aid Highway Act of 1981, have experienced substantial proportional reductions in their apportionments and allocations; and

(3) not distribute amounts authorized for administrative expenses and the Federal Lands Highway Programs.

SEC. 314. None of the funds in this Act shall be available for salaries and expenses of more than one hundred thirty-eight political appointees in the Department of Transportation.

SEC. 315. Not to exceed $1,700,000 of the funds provided in this Act for the Department of Transportation shall be available for the necessary expenses of advisory committees.

SEC. 316. The limitation on obligations for Federal-aid highways and highway safety construction programs for fiscal year 1986 shall not apply to obligations for the remaining approach and bridge removal work necessary to complete the new bridge alignment for the Zilwaukee Bridge.

SEC. 317. (a) Section 5(b)(2) of the Urban Mass Transportation Act of 1964 is amended by inserting after the first sentence the following new sentence: "Any funds apportioned for fiscal year 1982 or 1983 under subsection (a) for expenditure in an urbanized area with a population of less than 200,000 may be expended in an urbanized area with a population of 200,000 or more.".

(b) Section 5(c)(4) of the Urban Mass Transportation Act of 1964 is amended by striking the period at the end of the first sentence, and inserting the following: "except that any fiscal year 1982 funds made available to a Governor under section 5(b)(2) of the Urban Mass Transportation Act of 1964, as amended, that are unobligated as of October 1, 1985, or become unobligated thereafter, shall remain available for expenditure under section 5 until October 1, 1986.".

SEC. 318. Notwithstanding any other provision of law, within 60 days of the effective date of this Act the Urban Mass Transportation Administration shall reapportion under section 9 of the Urban Mass Transportation Act of 1964, as amended, those funds available for reapportionment pursuant to subsection (c)(4) of section 5 of that Act.

SEC. 319. None of the funds in this or any other Act shall be made available for the proposed Woodward light rail line in the Detroit, Michigan, area until a source of operating funds has been approved in accordance with Michigan law: Provided, That this limitation shall not apply to alternatives analysis studies under section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended.

SEC. 320. The Secretary of Transportation shall enter into negotiations for full funding contracts with the appropriate local governmental authorities to construct (1) the minimum operable segment, MOS-1, of the downtown Los Angeles to San Fernando Valley Metro Rail project; (2) the north and south legs of the downtown component of metrorail in Dade County, Florida; and (3) the downtown transit project (bus tunnel) in Seattle, Washington: Provided, That the Secretary shall commence negotiations with appropriate local authorities to enter into such contracts no later than 30 days after enactment and shall conclude such negotiations no later than 90 days after enactment: Provided further, That such contracts shall cover total project costs including federal financial participation consisting of fiscal year 1984 and fiscal year 1985 discretionary grants funding made available pursuant to section 331 of this Act, fiscal year 1986 discretionary grants funding in accordance with the accompanying Joint Explanatory Statement of the Managers, and future funding as made available by the Congress.

SEC. 321. The Urban Mass Transportation Administration shall enter into a contract with the Southern California Rapid Transit District to conduct a study of the potential methane gas risks relating to the proposed alignment of the Metro Rail project beyond the Minimum Operable Segment, MOS-1. None of the funds described in section 320 may be made available for any segment of the downtown Los Angeles to San Fernando Valley Metro Rail project unless and until the Southern California Rapid Transit District officially notifies and commits to the Urban Mass Transportation Administration that no part of the Metro Rail project will tunnel into or through any zone designated as a potential risk zone or high potential risk zone in the report of the City of Los Angeles dated June 10, 1985, entitled "Task Force Report on the March 24, 1985 Methane Gas Explosion and Fire in the Fairfax Area". Funds for this study, in an amount not to exceed $1,000,000, shall be made available from funds previously allocated for the MOS-1 project, commencing within 30 days of enactment.

SEC. 322. The limitation on obligations for the Discretionary Grants Program of the Urban Mass Transportation Administration shall not apply to any authority under section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended, previously made available for obligation.

SEC. 323. (a) Notwithstanding any other provision of law, the Secretary of Transportation may use not to exceed one-half of 1 percent of—

(1) the funds made available for fiscal year 1986 by section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended, to carry out section 3 of such Act to contract with any person to oversee the construction of any major project under such section;

(2) the funds appropriated for fiscal year 1986 pursuant to section 21(a)(1) of the Urban Mass Transportation Act of 1964, as amended, to carry out section 9 of such Act to contract with any person to oversee the construction of any major project under such section;

(3) the funds appropriated for fiscal year 1986 pursuant to section 21(a)(1) of the Urban Mass Transportation Act of 1964, as amended, to carry out section 18 of such Act to contract with any person to oversee the construction of any major project under such section;

(4) the funds appropriated for fiscal year 1986 pursuant to section 4(g) of the Urban Mass Transportation Act of 1964, as amended, to contract with any person to oversee the construction of any major public transportation project substituted for an Interstate segment withdrawn under section 103(e)(4) of title 23, United States Code; and

(5) the funds appropriated for fiscal year 1986 pursuant to the National Capital Transportation Act of 1969 to contract with any person to oversee the construction of any major project under such Act.

(b) Any contract entered into under subsection (a) shall provide for the payment by the Secretary of Transportation of 100 percent of the cost of carrying out the contract.

(c) This section shall take effect on October 1, 1985, and shall cease to be in effect at the close of September 30, 1986.

SEC. 324. (a) GENERAL RULE.—Tolls collected for motor vehicles on any bridge connect-

ing the borough of Brooklyn, New York, and Staten Island, New York, shall only be collected for those vehicles exiting from such bridge in Staten Island.

(b) ENFORCEMENT.—The Secretary shall withhold 1 percent of the amount required to be apportioned to the State of New York under sections 104 and 144 of title 23, United States Code, on the first day of the fiscal year succeeding any fiscal year in which tolls collected for motor vehicles on the bridge referred to in subsection (a) are collected for those vehicles exiting from such bridge in the borough of Brooklyn.

(c) PERIOD OF APPLICABILITY.—This section shall apply on and after the 90th day following the date of enactment of this section, except that this section shall not apply after the date on which the Secretary publishes in the Federal Register a determination under subsection (d).

(d) REMOVAL OF LIMITATION.—

(1) DETERMINATION OF SECRETARY.—Subsections (a) and (b) shall cease to be in effect if, upon petition by the Governor of New York under paragraph (2), the Secretary determines that—

(A) a substantial loss of revenues has resulted from the limitation imposed by subsection (a), or

(B) such limitation has resulted in significant traffic problems,

and the Secretary publishes such determination in the Federal Register.

(2) PETITION.—The Governor of New York may petition the Secretary for a determination under paragraph (1) at any time after a period of six consecutive months in which tolls collected for motor vehicles on the bridge referred to in subsection (a) have been collected only for those vehicles exiting from such bridge in Staten Island.

SEC. 325. Notwithstanding section 127 of title 23, United States Code, the State of Wyoming may conduct a demonstration project for a period not to exceed two years in order to determine the effects on the National System of Interstate and Defense Highways located in Wyoming of the use of such highways by vehicles in excess of 80,000 pounds gross weight but meeting axle and bridge formula specifications in section 127 of title 23, United States Code.

SEC. 326. Section 18(e) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following: "For the purpose of this subsection, the term 'Federal funds or revenues' does not include funds received by a recipient of funds under this section pursuant to a service agreement with a State or local social service agency or a private social service organization.".

SEC. 327. Section 119(d), 23 U.S.C. is amended by adding at the end of such section: "Notwithstanding any other provision of law, and for the purposes of this subsection, the phrase 'segments of the interstate system open to traffic' shall include a proposed four-lane, limited access highway, 6.4 miles in length, the construction of which will relocate to a southern alignment a portion of an existing interstate highway which was originally built without the aid of funds authorized by section 108(b) of the Federal-Aid Highway Act of 1956, as amended, and which connects to the east with an interstate highway on which tolls are charged. The construction of the proposed highway shall include a bridge over the Monongahela River.".

SEC. 328. (a) Title XI of the Federal Aviation Act of 1958 (49 App. U.S.C. 1501 et seq.) is amended by adding at the end thereof the following:

"AERONAUTICAL CHARTS AND MAPS

"SEC. 1118. Notwithstanding the provisions of section 1341 of title 31, United States Code, or any other provision of law, the United States Government shall enter into agreements to indemnify any person who publishes a chart or map for use in aeronautics from any claim, or portion of a claim, which arises out of such person's depiction on such chart or map of any defective or deficient flight procedure or airway, if such flight procedure or airway was—

"(1) promulgated by the Federal Aviation Administration;

"(2) accurately depicted on such chart or map; and

"(3) not obviously defective or deficient.".

(b) The table of contents of the Federal Aviation Act of 1958 is amended by inserting immediately after the item relating to section 1117 the following:

"Sec. 1118. Aeronautical charts and maps.".

SEC. 329. Notwithstanding section 108(b) of the Federal-Aid Highway Act of 1956, sums appropriated to the State of New York under 23 U.S.C. 104(b)(5)(A) during the fiscal year ending September 30, 1986, may be obligated for Interstate construction projects under section 108(b) of the Federal-Aid Highway Act of 1956 or for Interstate substitute highway projects under 23 U.S.C. 103(e)(4): Provided, That the withdrawal value for New York under 23 U.S.C. 103(e)(4) shall be reduced by the amounts obligated hereunder for Interstate highway substitute projects. The federal share of the cost to complete any such Interstate substitute highway projects to which this provision applies shall be 85 per centum. In carrying out this provision the State of New York and the Secretary of Transportation shall assign highest priority to the completion of Interstate construction projects. This section shall expire on October 1, 1986.

SEC. 330. Notwithstanding any other provision of law, none of the funds in this Act shall be available for the construction of the Central Automated Transit System (Downtown People Mover) in Detroit, Michigan: Provided, That the immediately preceding provision shall not apply to $10,000,000 apportioned to the Detroit Department of Transportation.

SEC. 331. The Congress disapproves the proposed deferral D86-21, pertaining to the Urban Mass Transportation Administration, as set forth in the message of October 1, 1985, which was transmitted to the Congress by the President. This disapproval shall be effective upon enactment into law of this Act and the amount of the proposed deferral disapproved herein shall be made available for obligation.

SEC. 332. Section 201 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 711) is amended—

(1) in the first sentence of paragraph (2) of subsection (d) by inserting "freight" before "railroad"; and

(2) in the first sentence of subsection (e) by striking out "1985" and inserting in lieu thereof "1987".

SEC. 333. The Act approved July 28, 1937 (50 Stat. 535), is amended by striking out in the first paragraph thereof, "and approaches thereto" and by inserting at the end thereof "The States of Maine and New Hampshire are authorized to assume all construction, maintenance, and operational authority over the approach roads and grade separation stuctures in their respective areas. As provided in Maine Private and Special Law, Chapter 38, 1985, and New Hampshire Statutes, Chapter 415, 1985, the respective States shall require the Authority to provide Authority funds for capital improvements.".

SEC. 334. Notwithstanding any other provision of law, the first sentence of section 125(b) of title 23, United States Code, is amended by inserting after "$30,000,000" the following: "($55,000,000 for projects in connection with disasters or failures occurring in calendar year 1985)".

SEC. 335. Notwithstanding any other provision of law or regulation, the Secretary of Transportation shall, within 30 days after enactment of this section, issue in the Federal Register a Notice of Intent to prepare an environmental impact statement for the construction of the north and south legs of the downtown component of metrorail in Dade County, Florida: Provided, That the absence of a federally-approved environmental impact statement for this project shall not preclude or delay the negotiations required under section 320 of this Act.

This Act may be cited as the "Department of Transportation and Related Agencies Appropriations Act, 1986"; and the Senate agree to the same.

Amendment Numbered 10:

That the House recede from its disagreement to the amendment of the Senate numbered 10, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by the House and stricken by the Senate, insert the following:

(h) For the purposes of Sec. 252(a)(6)(D)(i)(II) of Public Law 99-177, the section of the Statement of the Managers entitled "Definition of Program, Project, and Activity as provided by Public Law 99-177, the Balanced Budget and Emergency Deficit Control Act of 1985" shall be considered to be the reports filed by the Committees on Appropriations for the purpose of defining "Program, Project, and Activity".

And the Senate agree to the same.

Amendment numbered 13:

That the House recede from its disagreement to the amendment of the Senate numbered 13, and agree to the same with an amendment, as follows:

In lieu of the first sum named in said amendment insert: $1,065,000,000; and the Senate agree to the same.

Amendment numbered 14:

That the House recede from its disagreement to the amendment of the Senate numbered 14, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert:

(j) such amounts as may be necessary for projects or activities provided for in the Foreign Assistance and Related Programs Appropriations Act, 1986, at a rate for operations and to the extent in the following Act; this subsection shall be effective as if it had been enacted into law as the regular appropriation Act:

AN ACT making appropriations for foreign assistance and related programs for the fiscal year ending September 30, 1986, and for other purposes, namely:

TITLE I—MULTILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL FINANCIAL INSTITUTIONS

CONTRIBUTION TO THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

For payment to the International Bank for Reconstruction and Development by the Secretary of the Treasury, for the United States share of the paid-in share portion of

the increase in capital stock, $109,720,549 for the General Capital Increase, as authorized by section 39 of the Bretton Woods Agreements Act, as amended (Public Law 79-171), to remain available until expended: Provided, That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the International Bank for Reconstruction and Development may subscribe without fiscal year limitation to the callable capital portion of the United States share of increases in capital stock in an amount not to exceed $1,353,220,096.

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

For payment to the International Development Association by the Secretary of the Treasury, $700,000,000, for the second installment of the United States contribution to the seventh replenishment, to remain available until expended: Provided, That no such payment may be made while the United States Executive Director to the International Bank for Reconstruction and Development is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

CONTRIBUTION TO THE SPECIAL FACILITY FOR SUB-SAHARAN AFRICA

For payment to the Special Facility for Sub-Saharan Africa by the Secretary of the Treasury, $75,000,000, to remain available until expended: Provided, That funds made available under this heading shall be paid to the Special Facility for Sub-Saharan Africa no later than December 31, 1985.

CONTRIBUTION TO THE INTERNATIONAL FINANCE CORPORATION

For payment to the International Finance Corporation by the Secretary of the Treasury, $29,077,390, for the United States share of the increase in subscriptions to capital stock, to remain available until expended.

CONTRIBUTION TO THE INTER-AMERICAN DEVELOPMENT BANK

For payment to the Inter-American Development Bank by the Secretary of the Treasury for the United States share of the increase in the resources of the Fund for Special Operations, $40,000,000, to remain available until expended; and $38,000,983 for the United States share of the increase in paid-in capital stock to remain available until expended; and $11,700,000 for the United States share of the capital stock of the Inter-American Investment Corporation to remain available until expended: Provided, That no such payment may be made while the United States Executive Director for the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the Inter-American Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such increase in capital stock in an amount not to exceed $1,230,964,704.

CONTRIBUTION TO THE ASIAN DEVELOPMENT BANK

For payment to the Asian Development Bank by the Secretary of the Treasury, for the paid-in share portion of the United States share of the increase in capital stock, $11,909,408 to remain available until expended; and for the United States contribution to the increases in resources of the Asian Development Fund, as authorized by the Asian Development Bank Act, as amended (Public Law 89-369), $100,000,000 to remain available until expended: Provided, That none of the funds provided by the United States to the Asian Development Bank may be made available if the Republic of China (Taiwan) is denied any of the rights and privileges of full membership in the Asian Development Bank: Provided further, That no such payment may be made while the United States Director of the Bank is compensated by the Bank at a rate which, together with whatever compensation such Director receives from the United States, is in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while any alternate United States Director to the Bank in excess of the rate provided for an individual occupying a position at level V of the Evecutive Schedule under section 5316 of title 5, United States Code.

LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the Asian Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such increase in capital stock in an amount not to exceed $226,230,498.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT FUND

For payment to the African Development Fund by the Secretary of the Treasury, $62,250,000, for the United States contribution to the fourth replenishment of the African Development Fund, to remain available until expended.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT BANK

For payment to the African Development Bank by the Secretary of the Treasury, for the paid-in share portion of the United States share of the increase in capital stock, $16,188,910, to remain available until expended: Provided, That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the African Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such capital stock in an amount not to exceed $48,564,032.

PARTICIPATION IN INTERNATIONAL FINANCIAL INSTITUTIONS

(a) Titles I, II, and III of H.R. 2253 as reported on May 15, 1985, and section 3 of H.R. 1948 as introduced April 3, 1985, are hereby enacted.

(b) Section 102 of H.J. Res. 465 shall not apply with respect to the provisions enacted by this paragraph.

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

For necessary expenses to carry out the provisions of sections 301 and 103(g) of the Foreign Assistance Act of 1961, and of section 2 of the United Nations Environment Program Participation Act of 1983, $277,922,475: Provided, That no funds shall be available for the United Nations Fund for Science and Techology: Provided further, That the total amount of funds made available by this paragraph shall be available only as follows: $148,500,000 for the United Nations Development Program; $48,150,000 for the United Nations Children's Fund; $1,900,000 for the World Food Program; $900,000 for the United Nations Capital Development Fund; $250,000 for the United Nations Voluntary Fund for the Decade for Women; $1,282,500 for the International Convention and Scientific Organization Contributions; $1,800,000 for the World Meteorological Organization Voluntary Cooperation Program; $17,715,000 for the International Atomic Energy Agency; $9,000,000 for the United Nations Environment Program; $900,000 for the United Nations Educational and Training Program for South Africa; $1,429,975 for the United Nations Development Program Trust Fund to Combat Poverty and Hunger in Africa; $225,000 for the United Nations Institute for Namibia; $180,000 for the Convention on International Trade in Endangered Species; $250,000 for the World Heritage Fund; $90,000 for the United Nations Voluntary Fund for Victims of Torture; $225,000 for the United Nations Fellowship Program; $400,000 for the Center on Human Settlements; $14,725,000 for the Organization of American States; and $30,000,000 for the International Fund for Agricultural Development (except that the funds provided by this paragraph for the International Fund for Agricultural Development shall not be made available to such organization until a budget request has been received by the Congress and the United States has entered into an agreement to participate in the second replenishment of the organization and, notwithstanding sections 451, 492(b), or 614 of the Foreign Assistance Act of 1961, or any other provision of law, such funds may be made available only for the second replenishment of the International Fund for Agricultural Development, except that to the extent that these funds cannot be so utilized, they shall revert to the Treasury as miscellaneous receipts).

TITLE II—BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

For expenses necessary to enable the President to carry out the provisions of the Foreign Assistance Act of 1961, and for other

purposes, to remain available until September 30, 1986, unless otherwise specified herein, as follows:

AGENCY FOR INTERNATIONAL DEVELOPMENT

Agriculture, rural development and nutrition, Development Assistance: For necessary expenses to carry out the provisions of section 103, $699,995,900: Provided, That not less than $5,000,000 shall be provided for new development projects of private entities and cooperatives utilizing surplus dairy products: Provided further, That not less than $8,000,000 shall be provided for the Vitamin A Deficiency Program.

Population, Development Assistance: For necessary expenses to carry out the provisions of section 104(b), $250,000,000: Provided, That none of the funds made available in this Act nor any unobligated balances from prior appropriations may be made available to any organization or program which, as determined by the President of the United States, supports or participates in the management of a program of coercive abortion or involuntary sterilization: Provided further, That none of the funds made available under this heading may be used to pay for the performance of abortion as a method of family planning or to motivate or coerce any person to practice abortions; and that in order to reduce reliance on abortion in developing nations, funds shall be available only to voluntary family planning projects which offer, either directly or through referral to or information about access to, a broad range of family planning methods and services: Provided further, That nothing in this subsection shall be construed to alter any existing statutory prohibitions against abortion under section 104 of the Foreign Assistance Act.

Health, Development Assistance: For necessary expenses to carry out the provisions of section 104(c), $200,824,200: Provided, That not less than $12,500,000 shall be provided for child survival programs and activities.

Child Survival Fund: For necessary expenses to carry out the provisions of section 104(c)(2), $25,000,000.

Education and human resources development, Development Assistance: For necessary expenses to carry out the provisions of section 105, $169,949,700: Provided, That of this amount not less than $4,000,000 shall be made available only for the International Student Exchange Program.

Energy and selected development activities, Development Assistance: For necessary expenses to carry out the provisions of section 106, $174,358,930: Provided, That not less than $5,000,000 shall be made available only for cooperative projects among the United States, Israel and developing countries: Provided further, That up to $2,280,000 may be made available for hybrid poplar energy farming in Nepal: Provided further, That up to $1,200,000 may be made available for the establishment of land use management system in Costa Rica if requested by the Government of Costa Rica.

Central America Development Assistance: Of the funds appropriated to carry out the provisions of sections 103 through 106, not more than $250,000,000 shall be available for Central America except as provided through the regular notification process of the Committees on Appropriations.

Private and Voluntary Organizations: None of the funds appropriated or otherwise made available in this Act for development assistance may be made available after January 1, 1986, to any United States private and voluntary organization, except any cooperative development organization, which obtains less than 20 per centum of its total annual funding for international activities from sources other than the United States Government: Provided, That the requirements of the provisions of section 123(g) of the Foreign Assistance Act of 1961 and the provisions on private and voluntary organizations in Title II of the "Foreign Assistance and Related Programs Appropriations Act, 1985" (as enacted in Public Law 98-473) shall be superseded by the provisions of this section.

Science and technology, Development Assistance: For necessary expenses to carry out the provisions of section 106, $10,790,000.

Private sector revolving fund: For necessary expenses to carry out the provisions of section 108 of the Foreign Assistance Act of 1961, as amended, not to exceed $18,000,000 to be derived by transfer from funds appropriated to carry out the provisions of chapter 1 of part I of such Act, to remain available until expended. During fiscal year 1986, obligations for assistance from amounts in the revolving fund account under section 108 shall not exceed $18,000,000.

Loan allocation, Development Assistance: In order to carry out the provisions of part I, the Administrator of the Agency responsible for administering such part may furnish loan assistance pursuant to existing law and on such terms and conditions as he may determine: Provided, That to the maximum extent practicable, loans to private sector institutions, from funds made available to carry out the provisions of sections 103 through 106, shall be provided at or near the prevailing interest rate paid on Treasury obligations of similar maturity at the time of obligating such funds: Provided further, That amounts appropriated to carry out the provisions of chapter 1 of part I which are provided in the form of loans shall remain available until September 30, 1987.

American schools and hospitals abroad: For necessary expenses to carry out the provisions of section 214, $35,000,000.

International disaster assistance: For necessary expenses to carry out the provisions of section 491, $22,500,000, to remain available until expended.

Sahel development program: For necessary expenses to carry out the provisions of section 121, $80,500,000, to remain available until expended: Provided, That no part of such appropriation may be available to make any contribution of the United States to the Sahel development program in excess of 10 percent of the total contributions to such program.

Payment to the Foreign Service Retirement and Disability Fund: For payment to the "Foreign Service Retirement and Disability Fund", as authorized by the Foreign Service Act of 1980, $43,122,000.

Operating expenses of the Agency for International Development: For necessary expenses to carry out the provisions of section 667, $376,350,000: Provided, That not more than $20,000,000 of this amount shall be for Foreign Affairs Administrative Support: Provided further, That except to the extent that the Administrator of the Agency for International Development determines otherwise, not less than 10 per centum of the aggregate of the funds made available for the fiscal year 1986 to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 shall be made available only for activities of economically and socially disadvantaged enterprises (within the meaning of section 133(c)(5) of the International Development and Food Assistance Act of 1977), historically black colleges and universities, and private and voluntary organizations which are controlled by individuals who are black Americans, Hispanic Americans, or Native Americans, or who are economically and socially disadvantaged (within the meaning of section 133(c)(5) (B) and (C) of the International Development and Food Assistance Act of 1977). For purposes of this section, economically and socially disadvantaged individuals shall be deemed to include women: Provided further, That not less than $2,500,000 shall be used to carry out the purposes of section 636(d): Provided further, That not less than $1,200,000 shall be available for the International Development Intern Program: Provided further, That none of the funds appropriated or made available (other than funds appropriated or made available by this paragraph) pursuant to this Act for carrying out the Foreign Assistance Act of 1961, may be used for the operating expenses of the Agency for International Development: Provided further, That none of the funds in this Act may be used to relocate the Regional Inspector General's Office in Cairo to another country: Provided further, That after February 28, 1986, none of the funds appropriated by this paragraph shall be available for the operating expenses of the International Development Cooperation Agency.

Operating expenses of the Agency for International Development Office of Inspector General: For necessary expenses to carry out the provisions of section 667, $21,050,000, which sum shall be available only for the operating expenses of the Office of the Inspector General notwithstanding sections 451 or 614 of the Foreign Assistance Act of 1961 or any other provision of law: Provided, That the full-time equivalent staff years for the Office of the Inspector General for fiscal year 1986 shall not be less than one hundred and ninety-three: Provided further, That up to three percent of the amount made available under the paragraph "Operating expenses of the Agency for International Development" may be transferred to and merged and consolidated with amounts made available under this paragraph.

Trade credit insurance program: During the fiscal year 1986, total commitments to guarantee or insure loans for the "Trade credit insurance program" shall not exceed $250,000,000 of contingent liability for loan principal.

Trade and development program: For necessary expenses to carry out the provisions of section 661, $18,900,000.

Housing and other credit guaranty programs: During the fiscal year 1986, total commitments to guarantee loans shall not exceed $152,000,000 of contingent liability for loan principal: Provided, That the President shall enter into commitments to guarantee such loans in the full amount by this paragraph, subject only to the availability of qualified applicants for such guarantees.

Economic support fund: For necessary expenses to carry out the provisions of chapter 4 of part II, $3,700,000,000: Provided, That of the funds appropriated under this paragraph, not less than $1,200,000,000 shall be available only for Israel, which sum shall be available on a grant basis as a cash transfer and shall be disbursed within 30 days of enactment of this Act or by October 31, 1985, whichever is later: Provided further, That not less than $815,000,000 shall be available only for Egypt, which sum shall be provided on a grant basis, of which not less than $115,000,000 shall be provided as a cash transfer in accordance with the provisions

of section 202(b) of Public Law 99-83, and not less than $200,000,000 shall be provided as a Commodity Import Program: Provided further, That it is the same sense of the Congress that the recommended levels assistance for Egypt and Israel are based in great measure upon their continued participation in the Camp David Accords and upon the Egyptian-Israeli peace treaty; and that Egypt and Israel are urged to continue their efforts to restore a full diplomatic relationship, including ambassadors, and achieve realization of the Camp David Accords: Provided further, That not less than $250,000,000 of the funds appropriated under this paragraph shall be available only for Pakistan: Provided further, That any of the funds appropriated under this paragraph for El Salvador which are placed in the Central Reserve Bank of El Salvador shall be maintained in a separate account and not commingled with any other funds, except that such funds may be obligated and expended notwithstanding provisions of law, which are inconsistent with the cash transfer nature of this assistance, or which are referenced in the Joint Explanatory Statement of the Committee of Conference accompanying House Joint Resolution 648(H. Rept. No. 98-1159): Provided further, That pursuant to section 660(d) of the Foreign Assistance Act of 1961 up to $1,000,000 of the funds appropriated under this paragraph shall be available to assist the Government of El Salvador's Special Investigative Unit for the purpose of bringing to justice those responsible for the murders of United States citizens in El Salvador: Provided further, That a report of the investigation shall be provided to the Congress: Provided further, That funds appropriated under this paragraph for Mozambique may be made available only for activities in support of the private sector: Provided further, That of the amounts made available by this paragraph for Mozambique, $5,000,000 may not be made available until a democratic election has been held in Mozambique: Provided further, That of the funds provided under this paragraph only $125,000,000 shall be made available for the Philippines: Provided further, That of the funds appropriated or otherwise made available under this heading, $15,000,000 shall be made available only for Cyprus (except that any offshore procurement must meet Agency for International Development procurement source and origin regulations): Provided further, That not less than $15,000,000 of the funds provided under this paragraph shall be made available only for Ecuador, which sum shall be disbursed within thirty days of enactment of this Act: Provided further, That up to $20,000,000 of the funds provided under this paragraph may be made available to carry out the Administration of Justice program pursuant to section 534 of the Foreign Assistance Act of 1961: Provided further, That not less than 35 percent of the funds allocated for the Human Rights Fund for South Africa shall be made available in accordance with section 802(d) of Public Law 99-83: Provided further, That the obligation of funds made available under this paragraph to finance tied all credits shall be subject to the regular notification procedures of the Committees on Appropriations.

TRANSFER OF FUNDS

Transfer of funds: Of the unobligated funds remaining from funds appropriated for the "Economic support fund" for Lebanon in Public Law 98-63, $22,850,000 shall be tranferred as follows: (1) $12,500,000 to the "Child Survival Fund", (2) $5,350,000 to "Internal Organizations and Programs" for the United Nations Children's Fund, and (3) to "International Narcotics Control: Provided, that except for such transfers", amounts remaining unobligated as of September 30, 1985, from funds appropriated for the "Economic Support Fund" for Lebanon in Public Law 98-63 shall, notwithstanding sections 451, 492(b), and 614 of the Foreign Assistance Act of 1961, or any other provision of law, be made available only for Lebanon: Provided further, That, to the extent that these funds cannot be used to provide assistance for Lebanon, they shall revert to the Treasury as miscellaneous receipts.

RESCISSION

Deobligation and rescission of funds: $11,200,000 of the funds remaining in the "Syria Termination Account" created by Public Law 98-151 are deobligated and are rescinded: Provided, That the authority contained in sections 451, 492(b), and 614 of the Foreign Assistance Act of 1961, or any other provision of law, shall not be exercised to permit the use of funds remaining in the "Syria Termination Account" created by Public Law 98-151 for any other purposes that those for which the account was created.

(1) For Fiscal Year 1986, an elected civilian government is in power in Guatemala and has submitted a formal written request to the United States for the assistance, sales, or financing to be provided.

(2) For Fiscal Year 1986, the Government of Guatemala made demonstrated progress during the preceding year (A) in achieving control over its military and security forces, (B) toward eliminating kidnapings and disappearances, forced recruitment into the civil defense patrols, and other abuses by such forces of internationally recognized human rights, and (C) in respecting the internationally recognized human rights of its indigenous Indian population: Provided further, That not more than $553,900,000 of the funds made available under this paragraph shall be available at concessional rates of interest: Provided further, That all country and funding level changes in requested concessional financing allocations shall be submitted through the regular notification process of the Committees on Appropriations: Provided further, That not less than $27,000,000 of concessional credits shall be provided only for Tunisia.

SPECIAL DEFENSE ACQUISITION FUND

(LIMITATION ON OBLIGATIONS)

Not to exceed $325,000,000 may be obligated pursuant to section 51(c)(2) of the Arms Export Control Act for the purposes of the Special Defense Acquisition Fund during fiscal year 1986.

TITLE IV—EXPORT-IMPORT BANK OF THE UNITED STATES

The Export-Import Bank of the United States is authorized to make such expenditures within the limits of funds and borrowing authority available to such corporation, and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 104 of the Government Corporation Control Act, as may be necessary in carrying out the program for the current fiscal year for such corporation: Provided, That none of the funds available during the current fiscal year may be used to make expenditures, contracts, or commitments for the export of nuclear equipment, fuel, or technology to any country other than a nuclear-weapon State as defined in article IX of the Treaty on the Non-Proliferation of Nuclear Weapons eligible to receive economic or military assistance under this Act that has detonated a nuclear explosive after the date of enactment of this Act.

LIMITATION ON PROGRAM ACTIVITY

During the fiscal year 1986 and within the resources and authority available, gross obligations for the principal amount of direct loans shall not exceed $1,110,000,000: Provided, That during the fiscal year 1986, total commitments to guarantee loans shall not exceed $12,000,000,000 of contingent liability for loan principal.

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed $18,357,000 (to be computed on an accrual basis) shall be available during the current fiscal year for administrative expenses, including hire of passenger motor vehicles and services as authorized by section 3109 of title 5, United States Code, and not to exceed $16,000 for official reception and representation expenses for members of the Board of Directors: Provided, That (1) fees or dues to international organizations of credit institutions engaged in financing foreign trade, (2) necessary expenses (including special services performed on a contract or a fee basis, but not including other personal services) in connection with the acquisition, operation, maintenance, improvement, or disposition of any real or personal property belonging to the Export-Import Bank or in which it has an interest, including expenses of collections of pledged collateral, or the investigation or appraisal of any property in respect to which an application for a loan has been made, and (3) expenses (other than internal expenses of the Export-Import Bank) incurred in connection with the issuance and servicing of guarantees, insurance, and reinsurance, shall be considered as nonadministrative expenses for the purposes of this paragraph.

TITLE V—GENERAL PROVISIONS

SEC. 501. None of the funds appropriated in this act (other than funds appropriated for "International organizations and programs") shall be used to finance the construction of any new flood control, reclamation, or other water or related land resource project or program which has not met the standards and criteria used in determining the feasibility of flood control, reclamation, and other water and related land resource programs and projects proposed for construction within the United States of America under the principles, standards and procedures established pursuant to the Water Resources Planning Act (42 U.S.C. 1962, et seq.) or Act amendatory of supplementary thereto.

SEC. 502. Except for the appropriations entitled " International disaster assistance". and "United States emergency refugee and migration assistance fund" not more than 15 per centum of any appropriation item made available by this Act for the current fiscal year shall be obligated during the last month of availability.

SEC. 503. None of the funds appropriated in this Act nor any of the counterpart funds generated as a result of assistance hereunder or any prior Act shall be used to pensions, annuities, retirement pay, or adjusted service compensation for any person heretofore or hereafter serving in the armed forces of any recipient country

SEC. 504. None of the funds appropriated or made available purusant to this Act for carrying out the Foreign Assistance Act of 1961, may be used for making payments on any contract for procurement to which the United States is a party entered into after the date of enactment of this Act which does not contain a provision authorizing the termination of such contract for the convenience of the United States.

SEC. 505. None of the funds appropriated or made available pursuant to this Act for carrying out the Foreign Assistance Act of 1961, may be used to pay in whole or in part any assessments, arrearages, or dues of any member of the United Nations.

SEC. 506. None of the funds contained in title II of this Act may be used to carry out the provisions of section 209(d) of the Foreign Assistance Act of 1961.

SEC. 507. Of the funds appropriated or made available pursuant to this Act, not to exceed $110,000 shall be for official residence expenses of the Agency for International Development during the current fiscal year: Provided, That appropriate steps shall be taken to assure that, to the maximum extent possible, United States-owned foreign currencies are utilized in lieu of dollars.

SEC. 508. Of the funds appropriated or made available pursuant to this Act, not to exceed $10,000 shall be for entertainment expenses of the Agency for International Development during the current fiscal year.

SEC. 509. Of the funds appropriated or made available pursuant to this Act, not to exceed $100,000 shall be for representation allowances for the Agency for International Development during the current fiscal year: Provided, That appropriate steps shall be taken to assure that, to the maximum extent possible, United States-owned foreign currencies are utilized in lieu of dollars: Provided further, That of the total funds made available by this Act under the headings "Military Assistance" and "Foreign Military Credit Sales", not to exceed $2,500 shall be available for entertainment expenses and not to exceed $70,000 shall be available for representation allowances: Provided further, That of the funds made available by this Act under the heading "International Military Education and Training", not to exceed $125,000 shall be available for entertainment allowances: Provided further, That of the funds made available by this Act for the Inter-American Foundation, not to exceed $2,500 shall be available for entertainment and representation allowances: Provided

further, That of the funds made available by this Act for the Peace Corps, not to exceed a total of $4,000 shall be available for entertainment expenses: Provided further, That of the funds made available by this Act under the heading "Trade and development program", not to exceed $2,000 shall be available for representation and entertainment allowances.

SEC. 510. None of the funds appropriated or made available (other than funds for "International organizations and programs") pursuant to this Act, for carrying out the Foreign Assistance Act of 1961, may be used to finance the export of nuclear equipment, fuel, or technology.

SEC. 511. Funds appropriated by this Act may not be obligated or expended to provide assistance to any country for the purpose of aiding the efforts of the government of such country to repress the legitimate rights of the population of such country contrary to the Universal Declaration of Human Rights.

SEC. 512. None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance directly any assistance or reparations to Angola, Cambodia, Cuba, Iraq, Libya, the Socialist Republic of Vietnam, South Yemen, or Syria.

SEC. 513. None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance directly any assistance to any country whose duly elected Head of Government is deposed by military coup or decree.

SEC. 514. None of the funds made available by this Act may be obligated under an appropriation account to which they were not appropriated without the written prior approval of the Appropriations Committees of both Houses of the Congress.

SEC. 515. Amounts certified pursuant to section 1311 of the Supplemental appropriations Act, 1955, as having been obligated against appropriations heretofore made under the authority of the Foreign Assistance Act of 1961 for the same general purpose as any of the paragraphs under "Agency for International Development" are, if deobligated, hereby continued available for the same period as the respective appropriations in such paragraphs for the same general purpose and for the same country as originally obligated or for activities in the Andean region: Provided, That the Appropriations Committees of both Houses of the Congress are notified fifteen days in advance of the deobligation or reobligation of such funds.

SEC. 516. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes within the United States not authorized before the date of enactment of this Act by the Congress.

SEC. 517. No part of any appropriation contained in this Act shall remain available for obligation after the expiration of the current fiscal year unless expressly so provided in this Act.

SEC. 518. No part of any appropriation contained in this Act shall be used to furnish assistance to any country which is in default during a period in excess of one calendar year in payment to the United States of principal or interest on any loan made to such country by the United States pursuant to a program for which funds are appropriated under this Act.

SEC. 519. None of the funds appropriated or made available pursuant to this Act shall be available to any international financial institution whose United States governor or representative cannot upon request obtain the amounts and the names of borrowers for all loans of the international financial institution, including loans to employees of the institution, or the compensation and related benefits of employees of the institution.

SEC. 520. None of the funds appropriated or made available pursuant to this Act shall be available to any international financial institution whose United States governor or representative cannot upon request obtain any document developed by the management of the international financial institution.

SEC. 521. Section 620A(a) of the Foreign Assistance Act of 1961 is amended by inserting "the Export-Import Bank Act of 1945," after "the Peace Corps Act,".

SEC. 522. None of the funds appropriated or made available pursuant to this Act for direct assistance and none of the funds otherwise made available pursuant to this Act to the Export-Import Bank and the Overseas Private Investment Corporation shall be obligated or expended to finance any loan, any assistance or any other financial commitments for establishing or expanding production of any commodity for export by any country other than the United States, if the commodity is likely to be in surplus on world markets at the time the resulting productive capacity is expected to become operative and if the assistance will cause substantial injury to United States producers of the same, similar, or competing commodity: Provided, That such prohibition shall not apply to the Export-Import Bank if in the judgment of its Board of Directors the benefits to industry and employment in the United States are likely to outweight the injury to United States producers of the same, similar, or competing commodity.

SEC. 523. The Secretary of the Treasury shall instruct the United States Executive Directors of the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation, the Inter-American Development Bank, the International Monetary Fund, the Asian Development Bank, the Inter-American Investment Corporation, the African Development Bank, and the African Development Fund to use the voice and vote of the United States to oppose any assistance by these institutions, using funds appropriated or made available pursuant to this Act, for the production of any commodity for export, if it is in surplus on world markets and if the assistance will cause substantial injury to United States producers of the same, similar, or competing commodity.

SEC. 524. None of the funds made available under this Act for "Agriculture, rural development and nutrition, Development Assistance", "Population, Development Assistance", "Child Survival Fund", "Health, Development Assistance", "Education and human resources development, Development Assistance," "Energy and selected development activities, Development Assistance", "Science and technology, Development Assistance", "International organizations and programs", "American schools and hospitals abroad", "Sahel development program", "Trade and development program", "International narcotics control", "Economic support fund", "Peacekeeping operations", "Operating expenses of the Agency for International Development", "Operating Expenses of the Agency for International, Development Office of Inspector General", "Anti-terrorism assistance", "Military assistance", "International military education and training", "Foreign military credit sales", "Inter-American Foundation", "African Development Foundation", "Peace Corps", or "Migration and refugee assistance", shall be available for obligation for activities, programs, projects, type of material assistance, countries, or other operation not justified or in excess of the amount justified to the Appropriations Committees for obligation under any of these specific headings for the current fiscal year unless the Appropriations Committees of both Houses of Congress are previously notified fifteen days in advance.

SEC. 525. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order pursuant to existing law.

SEC. 526. None of the funds appropriated under this Act may be used to lobby for abortion.

SEC. 527. None of the funds appropriated or otherwise made available under this Act may be available for any country during any three-month period beginning on or after October 1, 1985, immediately following a certification by the President to the Congress that the government of such country is failing to take adequate measures to prevent narcotic drugs or other controlled substances (as listed in the schedules in section 202 of the Comprehensive Drug Abuse and Prevention Control Act of 1971 (21 U.S.C. 812)) which are cultivated, produced, or processed illicitly, on whole or in part, in such country, or transported through such country from being sold illegally within the jurisdiction of such country to the United States Government personnel or their dependents or from entering the United States unlawfully.

SEC. 528. Notwithstanding any other provision of law or this Act, none of the funds provided for "International organizations and programs" shall be available for the United States' proportionate share for any programs for the Palestine Liberation Organization, the Southwest African Peoples Organization, Libya, Iran, or, at the discretion of the President, Communist countries listed in section 620(f) of the Foreign Assistance Act of 1961, as amended.

SEC. 529. (a) Not later than January 31 of each year, or at the time of the transmittal by the President to the Congress of the annual presentation materials on foreign assistance, whichever is earlier, the President shall transmit to the Speaker of the House of Representatives and the President of the Senate a full and complete report which assesses, with respect to each foreign country, the degree of support by the government of each such country during the preceding twelve-month period for the foreign policy of the United States. Such report shall include, with respect to each such country which is a member of the United Nations, information to be compiled and supplied by the Permanent Representative of the United States to the United Nations, consisting of a comparison of the overall voting practices in the principal bodies of the United Nations during the preceding twelve-month period of such country and the United States, with special notes of the voting and speaking records of such country on issues of major importance to the United States in the General Assembly and the Security

Council, and shall also include a report on actions with regard to the United States in important related documents such as the Non-Aligned Communique. A full compilation of the information supplied by the Permanent Representative of the United States to the United Nations for inclusion in such report shall be provided as an addendum to such report.

(b) None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance directly any assistance to a country which the President finds, based on the contents of the report required to be transmitted under subsection (a), is engaged in a consistent pattern of opposition to the foreign policy of the United States.

SEC. 530. Notwithstanding any other provision of law, Israel may utilize any loan which is or was made available under the Arms Export Control Act and for which repayment is or was forgiven before utilizing any other loan made available under the Arms Export Control Act.

SEC. 531. In reaffirmation of the 1975 memorandum of agreement between the United States and Israel, and in accordance with section 1302 of the International Security and Development Cooperation Act of 1985 (Public Law 99-83), no employee of or individual acting on behalf of the United States Government shall recognize or negotiate with the Palestine Liberation Organization or representatives thereof, as long as the Palestine Liberation Organization does not recognize Israel's right to exist, does not accept Security Council Resolutions 242 and 338, and does not renounce the use of terrorism.

SEC. 532. The Congress finds that progress on the peace process in the Middle East is vitally important to United States security interests in the region. The Congress recognizes that, in fulfilling its obligations under the Treaty of Peace Between the Arab Republic of Egypt and the State of Israel, done at Washington on March 26, 1979, Israel incurred severe economic burdens. Furthermore, the Congress recognizes that an economically and militarily secure Israel serves the security interests of the United States, for a secure Israel is an Israel which has the incentive and confidence to continue pursuing the peace process. Therefore, the Congress declares that it is the policy and the intention of the United States that the funds provided in annual appropriations for the Economic Support Fund which are allocated to Israel shall not be less than the annual debt repayment (interest and principal) from Israel to the United States Government in recognition that such a principle serves United States interests in the region.

SEC. 533. None of the funds made available in this Act shall be restricted for obligation or disbursement solely as a result of the policies of any multilateral institution.

SEC. 534. Ceilings and earmarks contained in this Act shall not be applicable to funds or authorities appropriated or otherwise made available by any subsequent act unless such act specifically so directs.

SEC. 535. The Secretary of the Treasury and the Secretary of State are directed to submit to the Committees on Foreign Affairs and the Committees on Appropriations by February 1, 1986, a report on the domestic economic policies of those nations receiving economic assistance, either directly or indirectly from the United States including, where appropriate, an analysis of the foreign assistance program conducted by these recipient nations.

SEC. 536. None of the funds appropriated or otherwise made available pursuant to this Act for "Economic Support Fund" or for "Foreign Military Credit Sales" shall be obligated or expended for Lebanon except as provided through the regular notification process of the Committees on Appropriations.

SEC. 537. Of the funds made available by this Act for Jamaica and Peru, not more than 50 per centum of the funds made available for each country shall be obligated unless the President determines and reports to the Congress that the Governments of these countries are sufficiently responsive to the United States Government concerns on drug control and that the added expenditures of the funds for that country are in the national interest of the United States: Provided, That this provision shall not be applicable to funds made available to carry out section 481 of the Foreign Assistance Act of 1961: Provided further, That assistance may be provided to Bolivia for Fiscal Year 1986, under chapter 2 (relating to grant military assistance), chapter 4 (relating to the economic support fund), and chapter 5 (relating to international military education and training) of part II of the Foreign Assistance Act of 1961, and under chapter 2 of the Arms Export Control Act (relating to foreign military sales financing), only under the following conditions:

For Fiscal Year 1986—

(A) up to 50 percent of the aggregate amount of such assistance allocated for Bolivia may be provided at any time after the President certifies to the Congress that the Government of Bolivia has enacted legislation that will establish its legal coca requirements, provide for the licensing of the number of hectares necessary to produce the legal requirement, and make unlicensed coca production illegal; and

(B) the remaining amount of such assistance may be provided at any time following a certification pursuant to subparagraph (A) if the President certifies to the Congress that the Government of Bolivia achieved the eradication targets for the calendar year 1985 contained in its 1983 narcotics agreements with the United States.

SEC. 538. None of the funds available in this Act may be used to make available to El Salvador any helicopters or other aircraft, and licenses may not be issued under section 38 of the Arms Export Control Act for the export to El Salvador of any such aircraft, unless the Committee on Appropriations of the House of Representatives and the Committee on Appropriations of the Senate are notified at least fifteen days in advance in accordance with the procedures applicable to notifications.

SEC. 539. Funds provided in this Act for Guatemala may not be provided to the Government of Guatemala for use in its rural resettlement program, except through the regular notification procedures of the Committees on Appropriations.

SEC. 540. (a) The Secretary of the Treasury shall instruct the United States Executive Directors of the Multilateral Development Banks to—

(1) vigorously promote a commitment of these institutions to add or strengthen professionally trained staff to undertake environmental review of projects; or have development management plans to substantially increase the environmentally trained staff engaged in review of the ecological impacts of prospective projects;

(2) vigorously promote changes in these institutions in their preparation of projects and country programs that will encourage staff and borrower countries to—

(A) actively and regularly involve environmental and health ministers, or comparable representatives, in the preparation of environmentally sensitive projects and in bank-supported country program planning and strategy sessions;

(B) actively and regularly use the resources of available nongovernmental conservation and indigenous peoples' organizations, and consistent with international procurement policies, in the preparation of environmentally sensitive projects and in bank-supported country program planning and strategy sessions;

(3) vigorously promote a commitment of these institutions to increase the proportion of their lending programs supporting environmentally beneficial projects and project components, resource rehabilitation projects and project components, protection of indigenous peoples, and appropriate or light capital technology projects. Examples of such projects include small scale mixed farming and multiple cropping; agroforestry; programs to promote kitchen gardens; watershed management and rehabilitation; high yield woodlots; integrated pest management systems; dune stabilization programs; programs to improve energy efficiency; energy efficient technologies such as small scale hydro projects, rural solar energy systems, and rural and mobile telecommunications systems; and improved efficiency and management of irrigation systems.

(4) vigorously promote the establishment within the Economic Development Institute of the World Bank to institute a component which provides training in environmental and natural resource planning and program development;

(5) ensure that there is a thorough evaluation within the U.S. Government of the potential environmental problems, and the adequacy of measures to address these problems, associated with all proposed loans for projects involving large impoundments of rivers in tropical countries; penetration roads into relatively undeveloped areas; and agricultural and rural development programs; the potential environmental problems to be addressed in such evaluations shall include those relating to deterioration of water quality, siltation, spread of water borne diseases, forced resettlement, deforestation, threats to the land, health and culture of indigenous peoples, top soil management, water logging and salinization in irrigation projects, and pesticide misuse and resistance;

(6) call for, by May 31, 1986, separate and special meetings of each of the Boards of Executive Directors of these insitutions to discuss their environmental performance, and ways in which this performance can be improved, including alternative projects considered and alternative configurations of projects with specific attention to environmental problems associated with the following categories of projects: large impoundments of rivers in tropical countries; penetration roads into relatively undeveloped areas; agriculture and rural development projects; and

(7) in preparation for the meetings referred to in clause (6), the United States Executive Directors of the Multilateral Development Banks shall request the preparation of reviews by the International Bank for Reconstruction and Development and the Inter-American Development Bank from available information, of their environmental performance over the past decade with

respect to the categories of projects referred to in clause (6); the United States Executive Directors shall request that these reviews specifically discuss the environmental problems explicitly referred to in clause (5).

(b) The Secretary of the Treasury shall prepare and submit to the Committees on Appropriations by March 31, 1986, a report documenting the progress the Multilateral Development Banks have made in implementing the environmental reform measures described in clauses (1) through (4) of subsection (a).

(c) The Secretary of the Treasury and the Secretary of State shall undertake initiatives, in addition to those described in clause (6) of subsection (a) to discuss measures to improve the environmental performance of the Multilateral Development Banks with the representatives, and with the ministries from which they receive their instructions, of other donor nations to these institutions.

(d) In the report of the Secretary of the Treasury required by subsection (b) regarding the implementaion of staffing measures suggested in clause (1) of subsection (a), the Secretary of the Treasury shall specifically discuss the International Bank for Reconstruction and Development's progress in adding environmentally trained professionals, or in developing and implementing alternative plans for environmental staffing in each of the Bank's six regional offices to review projects for their prospective ecological impacts.

SEC. 541. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be used to pay for the performance of abortions as a method of family planning or to motivate or coerce any person to practice abortions. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be used to pay for the performance of involuntary sterilization as a method of family planning or to coerce or provide any financial incentive to any person to undergo sterilizations. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be used to pay for any biomedical research which relates in whole or in part, to methods of, or the performance of, abortions or involuntary sterilization as a means of family planning. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be obligated or expended for any country or organization if the President certifies that the use of these funds by any such country or organization would violate any of the above provisions related to abortions and involuntary sterilizations. The Congress reaffirms its commitments to population, development assistance and to the need for informed voluntary family planning.

SEC. 542. Not less than $15,000,000 of the aggregate amount of funds appropriated by this Act to carry out the provisions of chapter 1 of part I of the Foreign Assistance Act of 1961 and chapter 4 of part II of that Act, shall be available for the provision of food, medicine, or other humanitarian assistance to the Afghan people, notwithstanding any other provision of law.

SEC. 543. None of the funds provided in this Act shall be available for the Sudan if the President determines that the Sudan is acting in a manner that would endanger the stability of the region, or the Camp David peace process.

SEC. 544. The President shall make available to the Cambodian non-communist resistance forces not less than $1,500,000 nor more than $5,000,000 of the funds appropriated by this Act for "Military Assistance" and for the "Ecomonic Support Fund", notwithstanding any other provision of law: Provided, That funds appropriated by this Act for this purpose shall be obligated in accordance with the provisions of section 906 of the International Security and Development Cooperation Act of 1985 (Public Law 99-83).

SEC. 545. (a) SENSE OF CONGRESS.—It is the sense of Congress that no foreign military sales financing appropriated by this Act may be used to finance the procurement by Jordan of United States advanced aircraft, new air defense weapons systems, or other new advanced military weapons systems, and no notification may be made pursuant to section 36(b) of the Arms Export Control Act with respect to a proposed sale to Jordan of United States advanced aircraft, new air defense systems, or other new advanced military weapons systems, unless Jordan is publicly committed to the recognition of Israel and to negotiate promptly and directly with Israel under the basic tenets of United Nations Security Council Resolutions 242 and 338.

(b) CERTIFICATION.—Any notification made pursuant to section 36(b) of the Arms Export Control Act with respect to a proposed sale to Jordan of United States advanced aircraft, new air defense systems or other new advanced military weapons, must be accompanied by a Presidential certification of Jordan's public commitment to the recognition of Israel and to negotiate promptly and directly with Israel under the basic tenets of United Nations Security Council Resolutions 242 and 338.

SEC. 546. None of the funds appropriated or made available pursuant to this Act shall be available to a private voluntary organization which fails to provide upon timely request any document, file, or record necessary to the auditing requirements of the Agency for International Development.

SEC. 547. Of the amounts made available by this Act for military assistance and financing for El Salvador under chapters 2 and 5 of part II of the Foreign Assistance Act of 1961 and under the Arms Export Control Act, $5,000,000 may not be expended until the President reports, following the conclusion of the Appeals process in the case of Captain Avila, to the Committees on Appropriations that the Government of El Salvador has (1) substantially concluded all investigative action with respect to those responsible for the January 1981 deaths of the two United States land reform consultants Michael Hammer and Mark Pearlman and the Salvadoran Land Reform Institute Director Jose Rodolfo Viera, and (2) pursued all legal avenues to bring to trial and obtain a verdict of those who ordered and carried out the January 1981 murders.

SEC. 548. It is the sense of the Congress that all countries receiving United States foreign assistance under the "Economic Support Fund", "Foreign Military Credit Sales", "Military Assistance" program, "International Military Education and Training", Agricultural Trade Development and Assistance Act of 1954 (Public Law 480) development assistance programs, or trade promotion programs should fully cooperate with the international refugee assistance organizations, the United States, and other governments in facilitating lasting solutions to refugee situations. Further, where resettlement to other countries is the appropriate solution, such resettlement should be expedited in cooperation with the country of asylum without respect to race, sex, religion, or national origin.

SEC. 549. Any joint resolution introduced on or after February 1, 1986, which states that the Congress objects to the proposed sale to Jordan of advanced weapons systems, including advanced aircraft and advanced air defense systems (submitted to the Congress on October 21, 1985), shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

SEC. 550. (a) The Congress finds that—

(1) the United Nations Children's Fund (UNICEF) reports that four million children die annually because they have not been immunized against the six major childhood diseases: polio, measles, whooping cough, diphtheria, tetanus, and tuberculosis;

(2) at present less than 20 percent of children in the developing world are fully immunized against these diseases;

(3) each year more than five million additional children are permanently disabled and suffer diminished capacities to contribute to the economic, social and political development of their countries because they have not been immunized;

(4) ten million additional childhood deaths from immunizable and potentially immunized diseases could be averted annually by the development of techniques in biotechnology for new and cost-effective vaccines;

(5) the World Health Assembly, the Executive Board of the United Nations Children's Fund, and the United Nations General Assembly are calling upon the nations of the world to commit the resources necessary to meet the challenge of universal access to childhood immunization by 1990;

(6) the United States, through the Centers for Disease Control and the Agency for International Development, joined in a global effort by providing political and technical leadership that made possible the eradication of smallpox during the 1970's;

(7) the development of national immunization systems that can both be sustained and also serve as a model for a wide range of primary health care actions is a desired outcome of our foreign assistance policy;

(8) the United States Centers for Disease Control headquartered in Atlanta is uniquely qualified to provide technical assistance for a worldwide immunization and eradication effort and is universally respected;

(9) at the 1984 Bellagio Conference it was determined that the goal of universal childhood immunization by 1990 is indeed achievable;

(10) the Congress, through authorizations and appropriations for international health research and primary health care activities and the establishment of the Child Survival Fund, has played a vital role in providing for the well-being of the world's children;

(11) the Congress has expressed its expectation that the Agency for International Development will set as a goal the immunization by 1990 of at least 80 percent of all the children in those countries in which the Agency has a program; and

(12) the United States private sector and public at large have responded generously to appeals for support for national immunization campaigns in developing countries.

(b)(1) The Congress calls upon the President to direct the Agency for International Development, working through the Centers for Disease Control and other appropriate Federal agencies, to work in a global effort

to provide enhanced support toward achieving the goal of universal access to childhood immunization by 1990 by—

(A) assisting in the delivery, distribution, and use of vaccines, including—

(i) the building of locally sustainable systems and technical capacities in developing countries to reach, by the appropriate age, not less than 80 per centum of their annually projected target population with the full schedule of required immunizations, and

(ii) the development of a sufficient network of indigenous professionals and institutions with responsibility for developing, monitoring, and assessing immunization programs and continually adapting strategies to reach the goal of preventing immunizable diseases; and

(B) performing, supporting, and encouraging research and development activities, both in the public and private sector, that will be targeted at developing new vaccines and at modifying and improving existing vaccines to make them more appropriate for use in developing countries.

(2) In support of this global effort, the President should appeal to the people of the United States and the United States private sector to support public and private efforts to provide the resources necessary to achieve universal access to childhood immunization by 1990.

SEC. 551. The foreign debt burdens of many Third World nations have contributed to their economic decline and inability to engage in a significant economic recovery;

The United States foreign military assistance loan programs, which have had very high interest rates in past years, have contributed to the security of our friends and allies, but also have played a contributing role in adding to the debt burdens of many of our friends and allies;

United States foreign aid has, among its major objectives, the enhancement of the military and economic security of our friends and allies and our own security;

A foreign assistance program which adds significantly to the debt burdens of our friends and allies by forcing the weaker of those nations to use funds which could be used for development for repayment of loans impairs their economic development unnecessarily and is not in either their or our interest;

The past few years have seen several positive legislative steps taken to alleviate the FMS loan-related debt burdens of our friends and allies by reducing interest rates, stretching out the repayment period of these loans, and by increasing the level of MAP grants and forgiven FMS credits;

These steps have helped to ease these problems in the short term, but the long-term debt servicing problems of our friends and allies remain;

It would be in the best interests of our friends and allies to alleviate their debt burdens brought about by past loans and to bring about a more streamlined and straightforward approach to their programs in this area;

Such streamlined, straightforward programs would make it easier to develop country programs and would ease current pressures on the United States to grant to aid recipients the most favorable terms on their military loan programs: Now therefore

(1) it is the sense of the Congress that a more simplified, streamlined, straightforward foreign military assistance program is in the national interest and in the interest of the military and economic security of our friends and allies throughout the world;

(2) that greater concessionality only to match economic need as appropriate should be incorporated into future military assistance programs;

(3) that FMS loan programs extending the repayment period beyond the useful life of the items to be purchased could tend to increase the long-term debt burdens of our friends and allies;

(4) that the FMS concessional loan program contains a significant grant element in the recipient nation and that the Congress should actively consider replacing this program with a more straightforward approach;

(5) the President is urged to propose, in the next formal Congressional Presentation for Security Assistance Programs, reforms and refinements in the foreign military assistance programs along these lines for consideration by the appropriate committees of the Congress.

SEC. 552. (a) Notwithstanding any other provision of law, the President is authorized—

(1) to deny nondiscriminatory (most-favored-nation) trade treatment to the products of Afghanistan and thereby cause such products to be subject to the rate of duty set forth in column number 2 of the Tariff Schedules of the United States, and

(2) to deny credit, credit guarantees, and investment guarantees to, or for the benefit of, Afghanistan under any Federal program.

*(b) If the President has not denied nondiscriminatory trade treatment to the products of Afghanistan before the date that is 45 days after the date of enactment of this joint resolution, the President shall submit to the Congress on such date * * *.*

This subsection may be cited as the "Foreign Assistance and Related Programs Appropriations Act, 1986".

And the Senate agree to the same.

Amendment numbered 22:

That the House recede from its disagreement to the amendment of the Senate numbered 22, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 106. Notwithstanding any other provision of this joint resolution, and in addition to amounts appropriated elsewhere, there are appropriated $40,000,000, to remain available until expended, for "Watershed and Flood Prevention Operations" for emergency measures as provided in sections 401 and 403-405 of the Agricultural Credit Act of 1978 (16 U.S.C. 2201 and 2203-2205).

And the Senate agree to the same.

Amendment numbered 23:

That the House recede from its disagreement to the amendment of the Senate numbered 23, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 107. Notwithstanding any other provision of this joint resolution, not to exceed an additional $9,549,000 (from assessments collected from farm credit system banks) shall be obligated during the current fiscal year for administrative expenses, as authorized under 12 U.S.C 2249: Provided, That hereafter the Comptroller General or his duly authorized representatives shall have access to and the right to examine all books, documents, papers, records, or other recorded information within the possession or control of the Federal land banks and Federal land bank associations, Federal intermediate credit banks and production credit associations and banks for cooperatives.

And the Senate agree to the same.

Amendment numbered 24:

That the House recede from its disagreement to the amendment of the Senate numbered 24, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 108. (a) Notwithstanding any provision of title I of the Local Public Works Capital Development and Investment Act of 1976, as amended (Public Law 94-369) or any other provision of law, any funds authorized and appropriated under title I of such Act, as amended, in any fiscal year for projects in: (1) New York, New York but currently obligated and not disbursed, shall be obligated and expended during fiscal years 1986 and 1987 for any authorized project in New York, New York under title I of such Act, as amended or for any authorized project in New York, New York under title I of the Public Works and Economic Development Act of 1965, as amended; (2) New Jersey but currently obligated and not disbursed, shall be obligated and expended during fiscal years 1986 and 1987 for the rehabilitation and renovation of Buildings 1002, 1006 and such other structures at Camp Kilmer, Edison, New Jersey as may be agreed upon between Middlesex County and the Department of Defense for use as a shelter for the homeless in Middlesex County, New Jersey; (3) California but currently obligated and not disbursed, shall be obligated and expended during fiscal years 1986 and 1987 for infrastructure projects and economic development activities at the site of the abandoned General Motors plant in the city of South Gate, California; (4) Alabama but currently obligated and not disbursed, shall be obligated and expended during fiscal years 1986 and 1987 for infrastructure projects and related economic development activities for the Jasper Industrial Park at Jasper, Alabama; and (5) Illinois but currently obligated and not disbursed, shall be obligated and expended during fiscal years 1986 and 1987 for (i) the restoration, rehabilitation and renovation of existing buildings and structures within the Illinois and Michigan Canal National Heritage Corridor, and (ii) a $400,000 grant to the Will County Development Company for the establishment of a revolving loan fund.

(b) The project for flood control, Red Rock Dam and Lake, Iowa authorized by the Flood Control Act approved June 28, 1938, is modified to authorize and direct the Secretary of the Army, acting through the Chief of Engineers to acquire from willing sellers fee simple interest in real property which is subject to periodic flooding in connection with the operation of the project, using funds heretofore and hereafter appropriated.

(c) In addition, for the Economic Development Administration, "Economic development assistance programs"; $8,500,000, to remain available until expended, of which $4,000,000 is for a grant to Lexington County, South Carolina, for all expenditures related to the development of a state-of-the-art fiber optics/medium power cable research and development facility in Lexington County; and of which $4,500,000 is for a grant to the City of Fort Worth for the continued renovation, construction, rehabilitation and establishment of economic development facilities and related infrastructure activities of the Fort Worth Stockyards project.

(d) In addition, for the United States Information Agency, "Educational and Cultural Exchange Programs"; $2,500,000 for re-

imbursement of expenses for international games for the handicapped as authorized by section 207 of Public Law 99-93: Provided, That reimbursement for each organization conducting such games shall not exceed the total amount of necessary and reasonable expenses incurred by such organization in excess of donations and government services furnished.

And the Senate agree to the same.

Amendment numbered 26:

That the House recede from its disagreement to the amendment of the Senate numbered 26, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 110. (a) Notwithstanding any other provision of this joint resolution, no funds made available to the Department of Justice during fiscal year 1986 shall be used to implement, or to adopt as a permanent rule, New Offense Example 363, providing coverage for "insider trading" offenses, of 28 C.F.R. section 2.20.

(b) This section shall become effective upon the date of enactment of this joint resolution and shall expire 180 days after the effective date of this joint resolution: Provided, That this section shall not apply to any case pending before the United States Parole Commission as of the effective date of this joint resolution.

And the Senate agree to the same.

Amendment numbered 29:

That the House recede from its disagreement to the amendment of the Senate numbered 29, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 111. (a) For an additional amount for the Commission on the Bicentennial of the United States Constitution, "Salaries and Expenses", authorized by Public Law 98-101 (97 Stat. 719-723), $12,000,000 to remain available until expended.

(b) Section 5 of Public Law 98-101 (97 Stat. 719) is amended—

(1) in section (b), by striking out "up to five persons,"; and

(2) in paragraph (2) of subsection (e), by striking out "the services" through the end of such paragraph and inserting in lieu thereof "services".

(c) Notwithstanding section 5(a) of Public Law 98-101 (97 Stat. 719), the rate of pay of the staff director of the Commission on the Bicentennial of the United States Constitution shall not exceed 95 per cent of the rate of basic pay for level I of the Executive Schedule pursuant to section 5312 of title 5, United States Code.

And the Senate agree to the same.

Amendment numbered 30:

That the House recede from its disagreement to the amendment of the Senate numbered 30, and agree to the same with amendment, as follows:

In lieu of the matter proposed by said amendment insert:

Sec. 112. None of the funds appropriated to the Legal Services Corporation for fiscal years prior to fiscal year 1986 and carried over into fiscal year 1986, either by the Corporation itself or by any recipient of such funds, may be expended, unless such funds are expended in accordance with all of the restrictions and provisions of Public Law 99-180 of December 13, 1985, except that such funds may be expended for the continued representation of aliens prohibited by said Act where such representation commenced prior to January 1, 1983, or as approved by the Corporation.

And the Senate agree to the same.

Amendment numbered 31:

That the House recede from its disagreement to the amendment of the Senate numbered 31, and agree to the same with an amendment, as follows:

In lieu of the section number named in said amendment insert: *113*; and the Senate agree to the same.

Amendment numbered 47:

That the House recede from its disagreement to the amendment of the Senate numbered 47, and agree to the same with an amendment, as follows:

Amend the matter inserted by said amendment to change the word "Senate" to "Congress" in subsection (a) and subsection (b); and the Senate agree to the same.

Amendment numbered 49:

That the House recede from its disagreement to the amendment of the Senate numbered 49, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *114*; and the Senate agree to the same.

Amendment numbered 50:

That the House recede from its disagreement to the amendment of the Senate numbered 50, and agree to the same with an amendment, as follows:

In lieu of the section number named in said amendment insert: *115*; and the Senate agree to the same.

Amendment numbered 51:

That the House recede from its disagreement to the amendment of the Senate numbered 51, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *116*; and the Senate agree to the same.

Amendment numbered 56:

That the House recede from its disagreement to the amendment of the Senate numbered 56, and agree to the same with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *117*; and the Senate agree to the same.

Amendment numbered 57:

That the House recede from its disagreement to the amendment of the Senate numbered 57, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *118*; and the Senate agree to the same.

Amendment numbered 58:

That the House recede from its disagreement to the amendment of the Senate numbered 58, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 119. Notwithstanding any other provision of this joint resolution, up to $8,000,000 of the funds appropriated for the Veterans Administration under the heading "Medical care" in Public Law 99-160 may be transferred to and merged with the funds provided under the heading "General operating expenses".

SEC. 120. Notwithstanding any other provision of law or this joint resolution, the Administrator of Veterans Affairs shall delegate to hospital directors the authority to administer not less than 15 of the new fiscal year 1985 major construction projects and not less than 10 of the new fiscal year 1986 major construction projects in the manner and under the conditions established for the delegation of the nursing home care construction projects at Ann Arbor, Tampa, and Fresno. The Administration shall submit to the Committees on Appropriations of the House of Representatives and the Senate a list of the proposed delegations not later than 15 days after enactment of this joint resolution. The Administrator shall, within available resources, provide additional funds and personnel ceilings to each hospital director with a delegated project for necessary and adequate engineering, contracting, and other technical support. The delegation of authority for actual construction of said facilities shall be at the discretion of the selected hospital directors.

And the Senate agree to the same.

Amendment numbered 60:

That the House recede from its disagreement to the amendment of the Senate numbered 60, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

SEC. 121. None of the funds made available by this or any other Act for fiscal year 1986 to the Office of the Secretary, Department of the Interior, shall be expended to submit to the United States District Court for Eastern California any settlement with respect to Westlands Water District v. United States, et al., (CV-F-81-245-EDP) until: (1) April 15, 1986, and (2) until the Congress has received from the Secretary and reviewed for a period of 30 days a copy of the proposed settlement agreement which has been approved and signed by the Secretary.

And the Senate agree to the same.

Amendment numbered 62:

That the House recede from its disagreement to the amendment of the Senate numbered 62, and agree to the same with an amendment, as follows:

Delete the matter proposed by the House and stricken by the Senate and delete the matter proposed by the Senate in said amendment; and the Senate agree to the same.

Amendment numbered 64:

That the House recede from its disagreement to the amendment of the Senate numbered 64, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 122. Appropriations and funds available to the United States Fish and Wildlife Service shall be available for, and the Secretary of the Interior shall immediately resume preparation of, all environmental assessments and statements that are necessary prerequisites to the translocation of a portion of the existing population of Southern sea otters (Enhydra lutris nereis) to one or more locations within their historic range in accordance with the recovery plan for such species. In preparing such assessments and statements the Secretary shall consider section 10(j) of the Endangered Species Act (16 U.S.C. 1539(j)) as well as pending legislation that would amend such Act: Provided, That the Secretary of the Army is directed to accomplish emergency bank stabilization, shore protection, and flood control work to protect public-owned property in the vicinity of Jarvis Avenue, Fargo Avenue, North Shore Avenue, Rosemont Avenue, Burger Park, North Sheridan Road, and Lake Michigan in Chicago, Illinois, at full Federal expense using funds heretofore and hereafter appropriated at an estimated cost of $1,000,000.

And the Senate agree to the same.

Amendment numbered 102:

That the House recede from its disagreement to the amendment of the Senate num-

bered 102, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 123. No penalty shall be applied nor any State or agency agreement terminated pursuant to sections 1512, 1515, or 1521 of the Public Health Service Act during fiscal year 1986, nor if appropriations under title XV of that Act are reauthorized by August 15, 1986, shall any agency be required to take action to anticipate termination of financial assistance under that title. Sums appropriated by the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriation Act, 1986, for the award of grants under section 1516 of the Public Health Service Act may be used for grants under that section to State agencies that were authorized to receive grants for fiscal year 1982 under section 935(b) of the Omnibus Budget Reconciliation Act of 1981: Provided, That no sums may be obligated under the authority of this sentence after the date upon which a law is enacted to extend the authority to appropriate amounts to carry out title XV of such Act.

And the Senate agree to the same.

Amendment numbered 103:

That the House recede from its disagreement to the amendment of the Senate numbered 103, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *124*; and the Senate agree to the same.

Amendment numbered 104:

That the House recede from its disagreement to the amendment of the Senate numbered 104, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 125. Notwithstanding any other provision of this joint resolution, the Secretary of Health and Human Services shall extend, for one additional year, approval of the municipal health services demonstration projects located in Baltimore, Cincinnati, Milwaukee, and San Jose authorized under section 402(a) of the Social Security Amendments of 1967.

And the Senate agree to the same.

Amendment numbered 105:

That the House recede from its disagreement to the amendment of the Senate numbered 105, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 126. From the amounts awarded to a State from its allotment under section 2003 of the Social Security Act for fiscal year 1986, the State shall use to maintain and improve the availability and quality of training provided under section 401(b)(1), 98 Stat. 2196, such sums as the State may determine to be required.

And the Senate agree to the same.

Amendment numbered 107:

That the House recede from its disagreement to the amendment of the Senate numbered 107, and agree to the same with an amendment, as follows:

In lieu of the section number named in said amendment insert: *127*; and the Senate agree to the same.

Amendment numbered 108:

That the House recede from its disagreement to the amendment of the Senate numbered 108, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 128. Notwithstanding any other provisions of this joint resolution or any other provision of law, any student residing in an area designated as a natural disaster area pursuant to a provision of Federal law may apply or reapply for a Pell Grant under subpart 1 of part A of title IV of the Higher Education Act of 1965 and be eligible for and receive a Pell award based on income earned in calendar year 1985 instead of 1984 if individuals whose incomes are taken into account in determining the student's eligibility for and amount of a Pell Grant have been unable to pursue normal income-producing activities in 1985 as a result of the natural disaster.

And the Senate agree to the same.

Amendment numbered 109:

That the House recede from its disagreement to the amendment of the Senate numberd 109, and agree to the same with an amendment, as follows:

In lieu of the matter sticken and inserted by said amendment, insert: *129*; and the Senate agree to the same.

Amendment numbered 110:

That the House recede from its disagreement to the amendment of the Senate numberd 110, and agree to the same with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *130*; and the Senate agree to the same.

Amendment numbered 111:

That the House recede from its disagreement to the amendment of the Senate numbered 111, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment, insert:

SEC. 131. Notwithstanding any other provision of this joint resolution, there is appropriated $150,000 for fiscal year 1986 for the establishment and operation of the Biomedical Ethics Board and the Biomedical Ethics Advisory Committee pursuant to section 381 of the Public Health Service Act.

And the Senate agree to the same.

Amendment numbered 112:

That the House recede from its disagreement to the amendment of the Senate numbered 112, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment: insert: *132*; and the Senate agree to the same.

Amendment numbered 113:

That the House recede from its disagreement to the amendment of the Senate numbered 113, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment, insert: *133*; and the Senate agree to the same.

Amendment numbered 114:

That the House recede from its disagreement to the amendment of the Senate numbered 114, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment, insert: *134*; and the Senate agree to the same.

Amendment numbered 115:

That the House recede from its disagreement to the amendment of the Senate numbered 115, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment, insert the following:

SEC. 135. Notwithstanding any other provision of this joint resolution or any other Act, the Department of the Navy is authorized, within existing appropriations, to expend such sums as are necessary to effectuate a settlement with the State of Washington of back tax liabilities arising out of Federal construction and procurement projects in Washington State. Such settlement may be negotiated directly between the Department of the Navy and the State of Washington, notwithstanding the fact that the liability of the Department of the Navy may be derivative from persons contracting with the Department.

And the Senate agree to the same.

Amendment numbered 117:

That the House recede from its disagreement to the amendment of the Senate numbered 117, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment, insert:

SEC. 136. Effective on and after January 1, 1986, section 908(b) of the Supplemental Appropriations Act, 1983 (2 U.S.C. 31-1), is amended by striking out "30 percent" in paragraphs (1) and (2) and inserting in lieu thereof "40 percent".

And the Senate agree to the same.

Amendment numbered 123:

That the House recede from its disagreement to the amendment of the Senate numbered 123, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert: *138*; and the Senate agree to the same.

Amendment numbered 124:

That the House recede from its disagreement to the amendment of the Senate numbered 124, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert: *139*; and the Senate agree to the same.

Amendment numbered 125:

That the House recede from its disagreement to the amendment of the Senate numbered 125, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert: *140*; and the Senate agree to the same.

Amendment numbered 126:

That the House recede from its disagreement to the amendment of the Senate numbered 126, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *141*; and the Senate agree to the same.

Amendment numbered 127:

That the House recede from its disagreement to the amendment of the Senate numbered 127, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *142*; and the Senate agree to the same.

Amendment numbered 128:

That the House recede from its disagreement to the amendment of the Senate numbered 128, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *143*; and the Senate agree to the same.

Amendment numbered 129:

That the House recede from its disagreement to the amendment of the Senate numbered 129, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *144*; and the Senate agree to the same.

Amendment numbered 130:

That the House recede from its disagreement to the amendment of the Senate num-

bered 130, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *145*; and the Senate agree to the same.

Amendment numbered 131:

That the House recede from its disagreement to the amendment of the Senate numberd 131, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 146. Notwithstanding any other provision of law, the Administrator of the General Services Administration and the Secretary of Commerce are hereby authorized, for the purposes of supporting the United States' international trade position, to locate the International Trade Administration Boston District Office in the new World Trade Center, Boston, Massachusetts. A report shall be made to the Committees on Appropriations no later than February 1, 1986 detailing the steps taken and agreements reached to achieve this move.

And the Senate agreee to the same.

Amendment numbered 132:

That the House recede from its disagreement to the amendment of the Senate numbered 132, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *147*; and the Senate agree to the same.

Amendment numbered 133:

That the House recede from its disagreement to the amendment of the Senate numbered 133, and agree to the same with an amendment, as follows:

In lieu of the first section number named in said amendment insert: *148*; and the Senate agree to the same.

Amendment numbered 135:

That the House recede from its disagreement to the amendment of the Senate numbered 135, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *149*; and the Senate agree to the same.

For the entire resolution and Senate amendments:

JAMIE L. WHITTEN
(except for amendment No. 4 only in regard to chemical weapons, strategic defense initiative, and unobligated balances setaside; and amendment No. 5),
EDWARD P. BOLAND
(except for amendment No. 4 and amendment No. 117),
WILLIAM H. NATCHER
(except for amendment No. 4 only in regard to chemical weapons),
NEAL SMITH,
JOSEPH P. ADDABBO,
SIDNEY R. YATES
(except for amendment No. 4),
DAVID R. OBEY
(except for amendment No. 4 and amendment No. 117),
EDWARD R. ROYBAL
(except for amendment No. 4),
TOM BEVILL,
BILL CHAPPELL, Jr.,
WILLIAM LEHMAN,
JULIAN C. DIXON,
VIC FAZIO,
W. G. HEFNER,
SILVIO O. CONTE
(except for amendment No. 4 and amendment No. 117),

ROBERT C. BYRD,
J. BENNETT JOHNSTON,
QUENTIN N. BURDICK,
FRANK R. LAUTENBERG,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the further conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H.J. Res. 465) making further continuing appropriations for the fiscal year 1986, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

AGRICULTURE, RURAL DEVELOPMENT, AND RELATED AGENCIES

Amendment No. 1: Provides that programs, projects, or activities provided for in Agriculture, Rural Development, and Related Agencies Appropriation Act of 1986 (H.R. 3037) shall be available to the extent and in the manner provided for in the conference report and joint explanatory statement of the managers (H. Rept. 99-439), filed in the House of Representatives on December 12, 1985, as if such Act had been enacted into law. The House resolution provided for a rate of operations based on the House passed bill and the Senate amendment provided for a rate of operations based on the Senate passed bill.

The conference agreement provides that each appropriation item in the referenced bill (H.R. 3037) made available under Section 101(a) may be reduced by six-tenths of one percentum, if applied to every appropriation item, rounded to the nearest thousands of dollars, except for the following appropriations: Child Nutrition Programs and Special Milk Program which are true entitlements: *Provided*, That such reductions if made shall be applied proportionally to each program, project, and activity as set forth in the conference agreement (H. Rept. 99-439).

COMMERCE, JUSTICE, STATE AND JUDICIARY

Amendment No. 2: Deletes language proposed by the House and stricken by the Senate which would have funded the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies at the levels in H.R. 2965 as passed the House, and deletes language proposed by the Senate which would have funded these departments and agencies at the levels in the conference report on H.R. 2965. The President signed H.R. 2965 into law on December 13, 1985 (Public Law 99-180). Therefore, language specifying funding levels for these departments and agencies in this joint resolution is unnecessary.

Amendment No. 3: Deletes language proposed by the Senate that the conference report on H.R. 2965 be considered as including Senate Amendment No. 134.

DEPARTMENT OF DEFENSE APPROPRIATIONS ACT

Amendment No. 4: Section 101(b) of House Joint Resolution 465 provides appropriations for programs, projects and activities provided for in the Department of Defense Appropriations Act, 1986. The House version of the joint resolution provides appropriations for programs, projects and activities at a rate of operations and to the extent and in the manner provided for in H.R. 3629 as passed the House of Representatives on October 30, 1985. The Senate version of the joint resolution provides appropriations for these programs, projects and activities at the rate and in the manner provided for in H.R. 3629 as reported to the Senate on November 6, 1985, with certain additional provisions and exceptions provided for in the joint resolution.

The conference agreement on House Joint Resolution 465 incorporates some of the provisions of both the House and Senate versions of the Department of Defense Appropriations Act, 1986, and has the effect of enacting the Act into law. The language and allocations set forth in House Report 99-332 and Senate Report 99-176 should be complied with unless specifically addressed in this joint resolution and statement of the managers to the contrary. The Department of Defense Appropriations Act, 1986, put in place by this joint resolution incorporates the following agreements of the managers.

IMPACT OF EMERGENCY DEFICIT CONTROL ACT

The conferees agree that none of the funds appropriated by this Act shall be applied in a manner that would offset the impact of sequestration under provisions of the Balanced Budget and Emergency Deficit Control Act of 1985. This instruction, however, shall not prohibit the reprogramming of funds for the purposes of preventing breaks, stoppages or delays in funded programs, projects, and activities.

TITLE I—MILITARY PERSONNEL

The conferees agree to the following amounts for the Military Personnel accounts:

[In thousands of dollars]

	Budget	House	Senate	Conference
SUMMARY				
MILITARY PERSONNEL, ARMY	22,712,000	21,761,423	21,109,765	21,078,169
MILITARY PERSONNEL, NAVY	17,221,400	16,472,073	15,838,363	15,917,144
MILITARY PERSONNEL, MARINE CORPS	5,217,400	5,041,377	4,835,456	4,870,016
MILITARY PERSONNEL, AIR FORCE	19,187,900	18,341,185	17,688,587	17,744,770
RESERVE PERSONNEL, ARMY	2,394,400	2,159,254	2,203,014	2,178,564
RESERVE PERSONNEL, NAVY	1,353,600	1,297,123	1,264,334	1,267,734
RESERVE PERSONNEL, MARINE CORPS	290,000	278,842	272,200	272,250
RESERVE PERSONNEL, AIR FORCE	622,500	597,153	583,330	584,430
NATIONAL GUARD PERSONNEL, ARMY	3,430,800	3,238,217	3,062,098	3,066,568
NATIONAL GUARD PERSONNEL, AIR FORCE	995,100	953,204	926,516	926,716
TOTAL, MILITARY PERSONNEL	73,425,100	70,139,851	67,783,663	67,906,361

The following items represent language as agreed to by the conferees:

MILITARY PAY RAISE

The conferees agree to a reduction of $1,887,500,000 from requested amounts associated with the October 1, 1985, military pay raise. Funding for this requirement is discussed further under the heading Availability of Unobligated Balances later in the statement of the managers.

MILITARY/CIVILIAN WORKYEAR REDUCTIONS

The Senate reduced military personnel funding by $330,191,000 and civilian personnel funding by $477,500,000 as a result of its recommendation to hold workyears at fiscal year 1985 levels. The Senate recommendations are based on its contention that the Department is overstaffed in headquarters and administrative personnel. The conferees agree that reductions are available in these areas, but believe that levels recommended by the Senate would not be achievable in one fiscal year. The conferees agree to a reduction of $217,100,000 in the military personnel accounts. The conferees direct that any decreases in end strength below authorization as a result of this funding reduction must come from headquarters and administrative staff functions. In addition, the conferees recommended a reduction of $477,500,000 in Operation and Maintenance funding for improved productivity. The conferees encourage the Secretary of Defense to apply this adjustment by using sound management techniques that encourage productivity and quality improvement. The conferees agree that this reduction should be, but is not required to be, applied against civilian personnel workyears.

PERMANENT CHANGE OF STATION TRAVEL

The conferees agree to total funding of $2,744,293,000 for Permanent Change of Station (PCS) travel for fiscal year 1986. In addition the conferees have agreed to a general provision (Section 8085) which places a ceiling of a like amount on funds to be obligated by the Department for PCS Travel in fiscal year 1986. The funds provided for PCS Travel are sufficient to initiate all new PCS programs and allowances contained in the appropriation request. The conferees agree that the Department may initiate the PCS reimbursements which a newly authorized for fiscal year 1986, but only from within the funding ceiling allowed in this Bill. If additional funds are required to initiate these new programs, they should only be derived through a reduction in PCS moves or costs. The following chart identifies the funds requested and appropriated for specific new PCS initiatives in fiscal year 1986.

PCS REIMBURSEMENTS

[In thousands of dollars]

	Budget	Conference
Household Goods Weights	242,300	126,600
New PCS Reimbursements	0	0
Temporary Lodging Entitlement	132,472	132,472
Junior Enlisted Dependent Travel	21,051	17,556
Travel to Designated Place	15,325	12,781
Dependent Under 2 Mileage	10,100	8,423
All Other PCS Items	2,446,461	2,446,461
Total PCS	2,867,709	2,744,293

Insofar as the increase to Household Goods Weight Allowances is concerned, the conferees agree that the Department may only increase weight allowances as follows: junior enlisted personnel with dependents to 5,000 pounds and junior enlisted with no dependents may increase up to 1,500 pounds in all situations. No other increases may be funded until the Department and GAO completed their respective reviews of the PCS program and the Congress has received and approved a funding request.

ARMY ENLISTMENT BONUS/NEW ARMY COLLEGE FUND DUPLICATION

The Senate included a general provision prohibiting payment of an Army College Fund kicker to any service member who also receives an enlistment bonus, and expressed concern that duplication of these two programs is excessive to the needs of the Army. This provision would apply only to these service members who contract to enlist on or after the date of enactment of this Act. The House did not address this issue. The Senate also reduced the Army's enlistment bonus request by $8,000,000, based on a lower accession mission due to increased retention. The conferees accept the Senate general provision but reduce the Army's enlistment bonus request by only $2,000,000, as proposed by the House, to allow additional funding flexibility which may be required as a result to this modification.

The conferees realize that the impact of such a change in the Army's overall enlistment benefits package cannot be quantified without data based on actual Army experience. The conferees expect to be kept fully informed regarding the Army's accession programs, and will continue to examine this issue during its consideration of the fiscal year 1987 budget request.

TUITION ASSISTANCE

The House included report language directing the Department of Defense to provide guidance to all Services to implement a uniform policy which would allow students under the DOD tuition assistance program to utilize any educational institutions accredited by the Department of Education and the Council on Postsecondary Accreditation. The Senate did not address this issue. The conferees agree with the House position.

GUARD/RESERVE FORCES

The conferees agree to a reduction of $195,530,000 from requested amounts resulting from authorization reductions in full-time reserve end strengths. The conferees also agree that the Department should make every effort within available resources to increase drilling reserve average strengths above the minimums required in the 1986 Defense Authorization. Additionally, the Civilian Technician strengths addressed below are the basis for the Technician floor as established in Section 8047.

The following table summarizes strength levels as agreed to by the conferees.

FISCAL YEAR 1986 GUARD/RESERVE STRENGTHS

	Budget	Authorization	Conferees
Selected Reserve (average strength):			
Army Reserve	291,921	290,639	290,639
Navy Reserve	134,400	134,212	134,212
Marine Corps Reserve	41,900	41,900	41,900
Air Force Reserve	75,600	75,600	75,600
Army National Guard	444,000	440,025	440,025
Air National Guard	108,700	108,700	108,700
Total	1,096,521	1,091,076	1,091,076
Full-Time Reserve (end strength):			
Army Reserve	14,714	12,157	12,157
Navy Reserve	19,510	19,010	19,010
Marine Corps Reserve	1,475	1,475	1,475
Air Force Reserve	635	635	635
Army National Guard	30,679	23,731	23,731
Air National Guard	7,269	7,269	7,269

MANAGEMENT OF RESERVE FORCES FULL-TIME SUPPORT PROGRAMS

The House included report language directing the Department of Defense not to allow further conversions of civilian technicians to AGR status until a report is submitted to the Committee outlining the Department's efforts to resolve the problems associated with the full-time support program and the House Appropriations Committee responds to such report. The Senate did not address this issue. The conferees agree to the House language.

MILITARY PERSONNEL, ARMY

The conferees agree to provide $21,078,169,000 instead of $21,761,423,000 as recommended by the House and $21,109,765,000 as recommended by the Senate. Details of the adjustments are as follows:

GRAND TOTAL, OPERATION AND MAINTENANCE	82,450,150	77,222,362	78,835,626	78,664,480

The following items represent agreements of the conferees:

AUTHORIZATION COMPLIANCE

The amounts recommended by the conferees for each Operation and Maintenance appropriation are, for the most part, at or below the authorized level for those accounts. The exceptions to this compliance with authorization are in the Guard and Reserve accounts and result from the confer-

ees' attempts to improve the capabilities of the reserve components. The conferees were able to fund some high priority readiness items which were not in the Authorization package by offsetting these readiness initiatives with reductions against lower priority or over-budgeted programs. The conferees agree not to apply all of the Authorization non-programmatic reductions in the Operation and Maintenance accounts, because this would have resulted in a "double-dip" against many of the specific program reductions agreed to by the conferees. The Department is directed, where appropriate, to consider the unspecified Authorization cuts when applying the conference reductions.

DRUG INTERDICTION

PATROL AIRCRAFT FOR CUSTOMS SERVICE

The conferees agree to provide $6,000,000 for modification of two patrol (P-3A) aircraft to be transferred to the Customs Service instead of $7,427,000 as provided by the Senate. Any additional funds required to complete modification of these aircraft should be provided within available resources.

DEPARTMENT OF DEFENSE DRUG INTERDICTION MISSIONS

The conferees provide nearly $300,000,000 to enhance drug interdicton efforts of the Department of Defense. The conferees strongly believe that the Department can and should play a major role in helping to minimize the importation of illegal drugs.

In addition to specific enhancements of drug interdiction contained in this conference report, the conferees provide an appropriation of $35,000,000 to Aircraft Procurement, Air Force, to initiate the formation of a drug interdiction element or elements within the Air Force. This level of funding will allow the Air Force to commence the configuration of one AC-130H-30 pressurized drug surveillance aircraft and to establish an appropriate command and control element for the drug interdiction mission within the Air Force.

The conferees believe that the Air Force special operations forces would be the appropriate choice to carry out this new mission. The conferees note that the provisions of the Posse Comitatus Act require that support to civilian law enforcement be provided with no degradation to service combat readiness. Although the Department has considered other approaches, the conferees strongly believe that the best balance of providing peacetime drug interdiction and building wartime combat capability is to purchase and configure the initial AC-130H-30 special operations aircraft for both missions. The conferees believe that this approach will be the most cost-effective in meeting both the drug interdiction and Posse Comitatus objectives of the Department.

To this end, the conferees believe that this new drug interdiction initiative is compatible with and addresses the need for the replacement of aging AC-130 gunships. The configuration of replacement AC-130 pressurized gunships can provide an ideal surveillance and detection aircraft with sensors, communications, and other equipment that is also compatible with the drug interdiction assistance mission. The conferees believe it is important for the Air Force to move promptly to establish this new drug interdiction program. Accordingly, the conferees direct the Air Force to take the necessary steps to ensure delivery of the first AC-130H-30 pressurized drug interdiction aircraft no later than January 31, 1987. The configuration and schedule for this initial aircraft is predicated on the use of a currently available C-130h-30 stretched variant, in order to permit a pressurized drug interdiction/gunship aircraft. Older gunship configurations are unpressurized and thereby unsuitable for the drug interdiction role and are severely limited in the gunship role. The first aircraft shall be a fully operational drug interdiction aircraft with maximum subsystems integration possible to permit contingency installation of remaining gunship-peculiar equipment in wartime or other national emergency.

The conferees recognize the contracted nature of this schedule and therefore direct the Air Force to immediately proceed with the contracting necessary to assure the needed priorities for the radar and subsystems, CFE airframes and equipment, and other such means of expediting delivery of the aircraft. The conferees strongly support the national consensus for a swift response to the need for DOD assistance against the drug threat. In this regard, the Department should consider budgeting for an additional nine pressurized drug surveillance aircraft in fiscal years 1987 and 1988, in order to allow the Air Force to perform its priority role in assisting the overall drug interdiction effort.

CUSTOMS SERVICE DRUG INTERDICTION PROGRAM

The conferees agree with the Senate position to allocate $7,900,000 in contract savings to purchase two additional Blackhawk helicopters to replace two older Blackhawk helicopters which the Senate directed the Army to transfer to the Customs Service Drug Interdiction Program.

STOCK FUNDS REFUNDS

The House refunded a total of $2,425,000,000 from Defense Department stock funds to the Operation and Maintenance accounts as a result of reduced fuel prices and excess cash balances. In addition, the House directed the Stock Funds to reduce cash reserves from 11 to 5 days. The Senate refunded a total of $1,774,900,000 for the same reasons; however, the Senate reductions were based on different assumptions. Additionally, the Senate directed the Departments to study the proposal to reduce cash reserves from 11 to 5 days.

The conferees agree to a total refund of $2,043,600,000 to the Operation and Maintenance accounts. This refund assumes that the Department has overestimated fuel prices by $435,500,000. The conferees also agree that the stock funds will experience cash excesses in fiscal year 1986 in an amount equal to the excess cash earned in fiscal year 1985 (above the amounts assumed when the fiscal year 1986 budget was prepared), and have reduced stock fund cash balances by $1,608,100. Included in this reduction is the Army Aviation spares refund addressed in the Senate report. The conferees did not agree to the House position to refund from the stock funds refunds directly to the Operation and Maintenance account for Navy real property maintenance, Marine Corps Reserve material readiness items, or Air Force depot maintenance. Finally, the conferees agree that the Department should study the House proposal to reduce stock fund cash reserves from 11 to 5 days and submit a report to the Committees by February 15, 1986.

INDUSTRIAL FUNDS

The House recommended refunds from Defense Department Industrial Funds to the Operation and Maintenance accounts of $940,000,000 based on net operating results in fiscal year 1985 in excess of estimates made by the Department in the fiscal year 1986 request. The Senate recommended reductions of $200,000,000 for the same reason, but based on the Department's latest estimates on net operating results. The conferees agree that the appropriate refund amount to the Operation and Maintenance accounts is $400,000,000. This refund is based on the Defense estimates for excess fiscal year 1985 net operating results of $200,000,000 but assumes that fiscal year 1986 rates are overpriced by a like amount and that the Industrial Funds will experience another $200,000,000 excess in net operating results in fiscal year 1986. The conferees do not agree to the House recommendation to refund $71,000,000 from the Industrial Funds directly to Navy Operation and Maintenance for Depot Maintenance.

REAL PROPERTY MAINTENANCE

The conferees agree to increase funding for Real Property Maintenance by $114,500,000 from the budget request instead of $175,500,000 as recommended by the Senate. The conferees further agree with the Senate language requiring all funding identified in the justification material for recurring maintenance projects be used for only that purpose. Further, the additional funding provided in excess of the budget request shall be used for recurring maintenance except that $5,928,000 shall be available for projects associated with Hurricane Elena damage as identified in the Senate report.

RECRUITING AND ADVERTISING

The conferees agree to a total reduction of $35,550,000 to recruiting and advertising resources. This is $13,450,000 below the Senate and $13,750,000 above the House amounts. The conferees question the Army's minimum desired goal of 59% of high quality non-prior service accessions, considering the minimum requirement of the Marine Corps is 35% and the two services are similar in their requirements for technical expertise. As such, the conferees direct the Office of the Secretary of Defense to examine whether the Army's minimum quality requirement should be higher than the Marine Corps and report its results to the Committees on Appropriations by May 1, 1986.

ACQUIRED IMMUNE DEFICIENCY SYNDROME (AIDS) TESTING AND RESEARCH

The House provided $15,000,000 for the Army to begin testing recruits for Acquired Immune Deficiency Syndrome (AIDS). The Senate provided $67,600,000 for all the Services to begin testing all military for AIDS. The Senate also included $52,600,000 in Army Research and Development funds for research on AIDS. The conferees agree to provide a total of $55,100,000 for testing for AIDS, broken out as follow:

Army	$42,600,000
Navy	5,000,000
Air Force	5,000,000
Army National Guard	2,500,000
Total	55,100,000

The conferees agree that the Department of Defense must submit to the Committees on Appropriation a comprehensive AIDS Testing policy by February 1, 1986.

The conferees agree to provide $40,000,000 to the Army for research on AIDS. The conferees insist that the Department of Defense work, to the maximum extent possible, with the National Institutes of Health

in developing AIDS testing and research programs.

PROFESSIONAL DEVELOPMENT EDUCATION ISSUES

The Senate reduced $13,923,000 from the various Services' professional education programs based on a Defense Inspector General report which cited serious problems with how education requirements are determined and how officers educated under this program are not effectively utilized. The House did not address this issue. The conferees agree to a reduction of $11,423,000, but direct that, to the extent possible, the cuts not be applied against in-house professional education programs, such as the Naval Post Graduate School.

FLAT RATE PER DIEM

The conferees agree to a reduction of $6,400,000 instead of the $11,800,000 as provided by the Senate. The conferees further agree to the Senate general provision (Sec. 8083) on flat rate per diem with the understanding this provision is intended to be in effect throughout the period covered by this Act.

PUBLIC AFFAIRS AND LEGISLATIVE LIAISON LIMITATIONS

The conferees agree with the Senate that public affairs and legislative liaison activities should not be held to fiscal year 1985 levels. However, the following public affairs and legislative liaison programs are reduced due to excessive program growth:

	Public Affairs	Legislative Liaison
Army	0	−$50,000
Defense Agencies	−$50,000	−50,000
Total	−50,000	−100,000

MEDICAL READINESS

The conferees agree to increase funding for medical readiness by $125,900,000 instead of $235,500,000 as proposed by the Senate. The conferees recognize the critical need for improving wartime medical readiness. Funds will provide for requirements for two Army MASH units, one combat support hospital, two medical evacuation units, two Navy fleet hospitals, and one Air Force 500 bed hospital. In addition, funding provides $20,000,000 to further reduce the backlog of Army maintenance and repair projects at medical facilities in Central Europe below the levels programmed in the fiscal year 1986 budget request.

The conferees direct that this funding is contingent upon the Assistant Secretary of Defense for Health Affairs submitting a plan and funding profile to the Committees on Appropriations by March 15, 1986, which describes the unfinanced requirement for wartime medical readiness and how the requirement will be satisfied.

The conferees further agree with the House report language on medical readiness in the European Command (EUCOM)

PREFINANCING NATO REPAIR PROJECTS

The conferees agree to permit the Defense Department to continue to prefinance NATO repair projects in fiscal year 1986. The conferees are concerned that by prefinancing repair projects, the United States is not reimbursed for projects that are eligible for and should be funded with NATO Infrastructure funds. The conferees direct the U.S. European Command (EUCOM) to submit a report to the Committees on Appropriations by May 1, 1986, to include for fiscal years 1983 through 1985 a list of repair projects and associated costs: (1) for which the Department has applied for NATO Infrastructure funding; (2) that were determined eligible for NATO Infrastructure funding; (3) that were prefinanced with operating funds; and (4) that were recouped by NATO Infrastructure funds. The conferees also direct EUCOM to report on the status of the fiscal year 1986 repair project and associated costs by May 1, 1986.

COMPETITIVE RATE PROGRAM

The conferees agree with the report language of the Senate regarding any future change in the existing rate system for Alaska and Hawaii.

PRICE OF TOBACCO PRODUCTS

The conferees agree to delete the Senate provision requiring the Department to increase the price of tobacco products and also have restored associated funding. The conferees are concerned about the health issues surrounding tobacco products and the military, and direct the Assistant Secretary of Defense for Health Affairs to submit a report on his recommendation concerning this vital issue by March 1, 1986. This report should include a study to determine the effects of cigarette prices on military consumption patterns, the health of military personnel, and the economic cost to the military and society. Additionally, the conferees direct the Defense Department to report on the economic impact of increasing the price of tobacco products in commissaries and exchanges, and of including state and local taxes in the price of tobacco products. Further, the Department should inform the Committees of the status of an internal Defense Department proposal to discontinue the sale of cigarettes in commissaries.

CONTRACTING OUT LIBRARIES

The House requested that the Department of Defense ensure that if contractors are used to provide technical library services, their practices take into account national security concerns. The Senate did not address this issue. The conferees accept the House position, with clarifying language as follows:

The conferees are concerned that the Department of Defense may be contracting with corporations, partnerships, associations or individuals who are not employees of the Department of Defense, for the management of technical libraries, including proprietary data and information that is classified or of a sensitive nature. The conferees request that if the Department considers the use of outside contractors in providing technical library services, it must ensure their practices take into account national security concerns.

REPORT ON COST SAVINGS UNDER CONTRACTING OUT PROCEDURES

The House requested the Secretary of Defense to submit a report on cost savings resulting from efforts contracted to the private sector since January 1, 1981. The Senate considered this reporting requirement excessive. The conferees agree the requirement for a report on the experience of the Department of Defense since October 1, 1983 on the conversion to contractor operation, commercial or industrial type functions which had previously been performed by Department of Defense personnel, is not excessive and is requested by April 15, 1985.

CONTRACTED ADVISORY AND ASSISTANCE SERVICES

The House directed the Department of Defense to revise the definitions of contracted advisory and assistance services and submit the fiscal year 1987 budget exhibits based on the new definitions. The Senate did not address this issue. The conferees agree with the House language and further agree that this requirement does not affect the execution of the fiscal year 1986 program. The language refers to the preparation and execution of fiscal year 1987 and future budgets.

NONREIMBURSABLE DETAILS OF DOD PERSONNEL

The conferees agree with the House position on limiting nonreimbursable details of Department of Defense personnel. While the conferees agree that, in general, nonreimbursable details are improper, there are limited circumstances in which they may still be allowed. If the detail is in fulfillment of a specific personnel development or career enhancement program, or to a headquarters or appropriate Office of the Secretary of Defense level, it would not be subjected to this limitation.

SPECIAL OPERATIONS FORCES

The conferees agree with the language included in the House report concerning Special Operations Forces, with the exceptions that (1) there to no personnel ceiling placed on the 23rd Air Force, (2) the reports requested by the House should be submitted to the Congress no later than March 1, 1986, and (3) the report addressing the feasibility of creating a single command structure for Special Operations should also address options other than creation of a subordinate command of JCS.

CIVILIAN WORKYEAR REDUCTIONS

Reductions made in reference to civilian workyear reductions are discussed in the Military Personnel section of this report.

OPERATION AND MAINTENANCE, ARMY

The conferees agree to provide $18,975,507,000 instead of $18,659,638,000 as recommended by the House and $19,043,039,000 as recommended by the Senate. Details of the adjustments are as follows:

[In thousands of dollars]

TOTAL, ARMY	20,190,630	18,659,638	19,043,039	18,975,507

ARMY READINESS INITIATIVES

The conferees agree to provide $137,000,000 for Army readiness initiatives instead of $187,000,000 as recommended by the Senate. The conferees understand this funding will be used to enhance unit training, and provide for necessary equipment and supplies for force protection and organizational clothing and equipment.

MEDICAL ENHANCEMENTS

The conferees agree to provide $20,000,000 to the Army for the enhancement of medical staffing. Based on the recent review of Madigan Army Medical Center citing a severe shortage in nursing staff, the conferees direct that $7,700,000 of this funding be used to satisfy the shortage of nursing and ancillary staff at Madigan.

WARTIME HOST NATION SUPPORT

The conferees agree to provide $8,800,000 in operation and maintenance funding for Wartime Host Nation Support, $4,400,000 above the House level. The conferees agree with the direction included in the Senate report restricting the use of the funds only for the Host Nation Support program and instructing the Army to budget for operations in the fiscal year the units are activated.

ARMY REDUCTIONS FOR ADP MANAGEMENT

The conferees agree to a reduction of $2,300,000 for management of automatic data processing (ADP) to be applied to the Army's National Training Center Feedback System.

YUMA PROVING GROUNDS

The conferees agree to the Senate Report language contained in the continuing resolution which allows the Army to move forward with contract support functions at Yuma Proving Grounds under the conditions established in the Senate report accompanying H.J. Res. 465.

OPERATION AND MAINTENANCE, NAVY

The conferees agree to provide $24,477,071,000 instead of $23,862,002,000 as recommended by the House and $24,528,310,000 as recommended by the Senate. Details of the adjustments are as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
OPERATION AND MAINTENANCE NAVY				
STOCK FUND FUEL—REFUND	1,906,303	1,728,303	1,786,603	1,757,453

STEAMING HOURS

The conferees agree to reduce funding for steaming hours by $65,000,000 instead of $85,000,000 as provided by the Senate. The conferees further agree with the Senate report language which expresses concern with the Navy's continued overallocation of steaming hours to the deployed fleet. The conferees believe the Navy should make every attempt to stay within the budget request of 50.5 steaming days per quarter for the deployed fleet and the historical experience of 27.4 steaming days per quarter for the non-deployed fleet. If additional steaming days become available during fiscal year 1986, they should be allocated to the non-deployed fleet.

FLEET COMMANDS AND STAFF

The conferees agree to a reduction of $1,050,000 for the Navy's Fleet Commands and Staff based on the Navy's insistence on funding fiscal year 1985 audiovisual activities for the Fleet Commands and Staff after the Congress specifically reduced this program in fiscal year 1985.

While the conferees agree to restore $6,654,000 of the reduction made by the House, the conferees direct that funds shall not be moved into or out of this account without prior approval of Congress. Furthermore, the conferees wish to make it understood that the way in which the Navy internally reprograms and shifts funding in the administrative and associated activities account is of Congressional concern and will be monitored by the House and Senate Defense Appropriations subcommittee in fiscal year 1986.

SHIP REPAIR AND MAINTENANCE POLICY

The House included report language which opened up Selected Restricted Availabilities (SRAs) on a coast-wide basis. The Senate included a general provision which expressed the sense of the Senate to encourage competition while recognizing personnel impacts. The Senate provision also called for opening up repair work on Naval Reserve Ships to coast-wide bids.

The conferees agree with the intent of the sense of the Congress bill language proposed by the Senate to encourage competition while recognizing personnel impact. Since the language does not pertain to the use of funds, the conferees have included the intent of the discussion of ship maintenance policy in this statement of the managers.

The primary objection to expansion of ship repair work for short term maintenance projects is that the personnel impact could be substantial. The conferees understand that the nature of Navy service frequently requires personnel to spend extended periods of time away from their families which has become the most significant personnel retention impediment. Perform-

ance of short term maintenance in homeport permits Navy personnel to be with their families periodically. This consideration has driven Navy policy toward retention of such sort term ship work to homeport.

Although the conferees are understanding of the personnel concerns, there is also a recognition that expanded competition beyond the homeport is an effective means to instill competition in the industry, achieve lower costs, and retain the broadest possible industrial mobilization base. For shorter term maintenance work, the personnel and expanded competition objectives can be conflicting.

The conferees believe that the Navy should endeavor to maximize competition for ship repair with the objective of attaining lowest cost while remaining cognizant of personnel impact. In this regard, consideration of the competitive contract bidding methodology should be determined on the basis of the nature of the work to be performed, independent of duration.

The Navy has repeatedly testified to the critical need to retain the ship repair industrial base. The dearth of work planned for the current and future years for non-homeport yards will make it difficult to achieve the dual objectives of retaining industrial capacity and the current Navy personnel policy. As an interim measure, until the Navy has established a competitive contract bidding methodology for all forms of ship maintenance based on the nature and scope of the work to be performed, the Navy should endeavor to implement increased competition in short-term maintenance and repair contracts, where feasible, with a goal of competing twenty-five percent on a coastwide basis.

Since there is a marginal personnel impact for SRA and PMA Navy Reserve fleet ship repair conducted outside the homeport area, the Navy should contract for such work through coast wide bidding procedures. The exception to this approach would be for those Naval Reserve vessels which do not share a homeport with the active Navy fleet.

CERTIFICATION OF PRIVATE YARDS

The House included language which directed the Navy to cease providing the use of Navy piers and drydocks to private shipyards to perform ship maintenance and repair projects, unless no such facilities are available in other private shipyards. The Senate did not address this issue. The conferees agree that there are instances where, for operational, security or other mission reasons, the Navy desires to contract out ship repair work to be performed at Navy yards. The conferees agree that in these circumstances, the Navy may award contracts to ship repair facilities who do not own their own piers or drydocks. Additionally, the conferees agree that ship repair facilities which lease piers or docks from other concerns should be eligible for repair work.

PUBLIC/PRIVATE SHIP REPAIR COMPETITION

The House included language to provide for a test program to require the overhaul of two or more vessels by competition between public and private shipyards. The Senate language called for six or more ships. The conferees agree to a competition for overhaul of four or more ships.

COAST GUARD OPERATING EXPENSES

The House included a provision providing $100,000,000 to the Navy to transfer to Coast Guard operating accounts. The Senate did not address this issue. The conferees agree to add $100,000,000 to the Operation and Maintenance, Navy account. The conferees agree that these funds shall be used by the Navy to reimburse the Coast Guard for expenses related to training of the Coast Guard and maintenance by the Coast Guard of equipment which would be available to carry out missions determined by the Navy in the event of hostilities. The conferees also agreed to fund additional Coast Guard equipment as addressed in the Procurement section of the Conference Report and Statement of Managers.

ROTATION OF SES IN THE NAVY

The House requested the Secretary of the Navy to delay the implementation of his plan to rotate Senior Executive Service members throughout the Navy. The Senate did not address this issue. The conferees agree with the House position. The conferees believe this issue requires the benefit of hearings and further review by the cognizant congressional committees before implementation to determine its impact on program turbulence. The conferees would be greatly concerned if the Secretary of the Navy implemented a program to rotate Senior Executive Service members before hearings can be held.

OPERATION AND MAINTENANCE, MARINE CORPS

The conferees agree to provide $1,612,050,000 instead of $1,615,128,000 as recommended by the House and $1,609,000,000 as recommended by the Senate. Details of the adjustments are as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
OPERATION AND MAINTENANCE, MARINE CORPS				
STOCK FUND FUEL—REFUND	37,700	35,400	35,900	35,650

TOTAL, AIR FORCE	20,924,400	19,507,672	19,468,901	19,536,813

AIRCRAFT ENGINE COMPONENT REPAIR

The conferees agree to reduce funding for aircraft engine component prepair by $167,000,000 instead of $334,000,000 as recommended by the Senate. The conferees further agree that the Air Force was not justified in requesting funding in fiscal year 1986 for a deficiency which was funded in fiscal year 1985, but have recommended the lower reduction so as not to create a depot maintenance backlog. The conferees direct the Air Force to provide more detailed and appropriate justification for depot maintenance activities in the fiscal year 1987 budget request.

KC-135 FLYING HOURS

The Senate, based on a Defense Inspector General report, reducted fiscal year 1986 KC-135 flying hours from 157,165 to 115,185 which resulted in a cut of $86,700,000 from Operation and Maintenance, Air Force. The House did not address this issue. The conferees, based on futher discussions with Defense Inspector General and Air Force personnel, have agreed to a reduction of $22,000,000 which equates to a flying hour decrease of 9,800. The conferees have concluded that KC-135 flying hour requirements have been overstated, especially in the overhead and training categories.

MANAGEMENT OF ADP

The House recommended a decrease of $25,000,000 as a result of a non-programmatic Authorization reduction of ADP management. The Senate did not address this decrease, but instead made other specific reductions. The conferees agreed to a specific reduction of $6,800,000 against ADP Management associated with the Command ADP Modernization Program (CAMP). Since CAMP procurement funds have been eliminated by the Department in the outyears, the conferees agree the fiscal year 1986 Operation and Maintenance funding is not required.

USAFE

The Senate reduced funding for USAFE by $50,000,000. The House did not address the issue. The conferees agree to a $25,000 reduction for USAFE to streamline administrative headquartes activities in Europe.

EUROPEAN DISTRIBUTION SYSTEM

The Senate reduced the European Distribution System (EDS) progrma by 4,500,000 based on the rationale that the Air Force has overstated the peacetime mission requirements of this wartime system. Additionally, the Senate questioned the fact that this system flies preset/predetermined routes on a regular basis, often with little or no cargo. Also, the Senate questioned whether the use of the system solely by the Air Force is the most efficient use of Government resources. The House did not address this issue. The conferees have agreed to a reduction of $2,250,000 which should still allow EDS crews to meet or exceed their minimum proficiency requirements. Furthermore, the conferees agree that the Air Force should not fly regularly scheduled routes, except on a short term basis for training purposes. Finally, the conferees agree that, in peacetime EDS should be available for use by all United States military components in the European theatre. In fiscal year 1986, this use should be on a space-available basis. In fiscal year 1987, the Air Force should develop an operational plan, in conjunction with the U.S. European Command to provide theatre airlift support. The conferees agree that the Air Force should not consider increases in EDS flying

hours unless they are associated with this multi-service mission.

AIR FORCE COMPTROLLER CONTRACT SERVICES

The conferees agree to a reduction of $2,759,000 to the Air Force for comptroller contract services in fiscal year 1986. This is $1,200,000 above the Senate and $2,759,000 below the House. The conferees direct the Air Force to demonstrate the productivity improvements and how manpower can be streamlined as a result of this effort with a report to the Committees on Appropriations by May 1, 1986.

OPERATION AND MAINTENANCE, DEFENSE AGENCIES

The conferees agree to provide $7,432,569,000 instead of $7,340,076,000 as recommended by the House and $7,479,956,000 as recommended by the Senate. Details of the adjustments are as follows:

TOTAL DEFENSE AGENCIES	7,568,900	7,340,076	7,479,956	7,432,569

DEPARTMENT OF DEFENSE DEPENDENT SCHOOLS

The House provided a total reduction of $10,300,000 to the Department of Defense Dependent Schools (DODDS). This was based on a reduction of $7,100,000 for the Master Teacher Program and $3,200,000 for a Department of Defense Inspector General report. The Senate did not address this issue. The conferees agree on a reduction of $6,000,000

Investigation into the reduction of $7,100,000 for the Master Teacher Program revealed that included in this number is $6,250,000 to purchase computers for classrooms. A classroom computer purchase was approved by the Defense Resources Board for fiscal year 1987. However, the conferees agree that $3,500,000 of the $7,100,000 reduced for the Master Teacher Program, should be reinstated to purchase computers for the classroom. The conferees believe the funding provided here is adequate for the total program requirements, and no funds to purchase computers for classrooms should be included in the fiscal year 1987 budget request.

AUDIOVISUAL ACTIVITIES

Based on the disestablishment of the Defense Audiovisual Agency (DAVA), the House reduced the DAVA budget by $10,000,000, leaving $11,936,000 for reprogramming to other services and Agencies receiving the DAVA workload. The Senate reduced the DAVA budget by $21,936,000 and provided a total of $5,000,000 to the Services for audiovisual activities.

The conferees agree to reduce the DAVA budget by $21,936,000 and provided a total of $10,000,000 to the Services for audiovisual activities, as follows:

Army	$1,000,000
Navy	1,000,000
Air Force	8,000,000
Total	10,000,000

The conferees believe the Services and the Armed Forces Information Service can provide the necessary audiovisual operations, at the same level provided by DAVA, within the funds provided in this Bill.

QUALITY ASSURANCE

The conferees agree to appropriate $30,000,000 to fund quality assurance and quality enhancement programs at the Defense Logistics Agency. This funding is to provide training for contract management and quality assurance personnel to ensure the Department receives quality products from commercial sources.

FAMILY ADVOCACY

The conferees agree to the Senate's position on the Department of Defense Family Advocacy Program. The conferees agree that the Family Advocacy Program is a health care program and should not be transferred to the force management and personnel directorate.

OPERATION AND MAINTENANCE, ARMY RESERVE

The conferees agree to provide $780,100,000 instead of $774,980,000 as recommended by the House and $793,100,000 as recommended by the Senate. Details of the adjustments are as follows:

NATIONAL GUARD ARMORY OPERATION AND MAINTENANCE

The House included $33,000,000 to fund the modification and repair of armory office and work space resulting from increased Federal missions, major repair and renovations to the armories, and to offset armory operating costs resulting from the influx of Federal equipment and full-time Federal personnel. The Senate included only $6,000,000 for this purpose. The conferees agree to the House position concerning funding, but direct the Department to request only such funds in fiscal year 1987 that are sufficient to match the growth in funding by the states over fiscal year 1986 levels for these purposes.

ENVIRONMENTAL PROJECTS

The conferees agree to the increase of $400,000 as recommended by the Senate for the continuation of the program to conduct engineering projects coordinated with State and other federal agencies at national or state parks and forests. To amplify on the parameters of the test, the conferees agree that such projects must be restricted within the United States and territories. The test projects selected must enhance military related training and must not compete with projects which would otherwise be performed by private concerns. The conferees agree that the Army National Guard should begin budgeting this important program in fiscal year 1987.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

The conferees agree to provide $1,806,200,000 as recommended by the Senate instead of $1,803,862,000 as recommended by the House. Details of the adjustments are as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
OPERATION AND MAINTENANCE, AIR NATIONAL GUARD				
STOCK FUND FUEL—REFUND	364,580	344,580	344,580	344,580

TOTAL AIR NATIONAL GUARD	1,830,100	1,803,862	1,806,200	1,806,200

T-39 AIRCRAFT

The House and Senate have agreed that the Air Force must retire the Air National Guard's T-33 aircraft fleet in fiscal year 1986 and replace it with 45 T-39 aircraft. The conferees wish to clarify that this action is intended to provide an interim capability until such time that the Air Force budgets for and deploys a permanent replacement aircraft that fully meets the requirements of both the active and guard forces for electronic countermeasures training. As part of this interim measure, the Air Force should also phase out the T-33s in the active inventory as soon as possible, and either replace them with T-39 aircraft or provide the Guard with sufficient T-39s to accomplish the mission for the total force. The conferees further agree to the House language that allows transfer of leased C-21A aircraft to the Air National Guard for Detachment One, Andrews Air Force Base, Maryland, unless C-21A aircraft are purchased for this purpose in the Guard and Reserve equipment appropriation.

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE, ARMY

The conferees agree to provide $920,000 as recommended by the Senate instead of $820,000 as recommended by the House.

CLAIMS, DEFENSE

The conferees agree to provide $143,300,000 as recommended by the Senate

instead of $148,300,000 as recommended by the House.

ENVIRONMENTAL RESTORATION, DEFENSE

The conferees agree to provide $379,100,000 in budget authority instead of $329,100,000 by transfer as recommended by the House or $429,100,000 as recommeded by the Senate.

TITLE III—PROCUREMENT

The conferees agree to the following amounts for the Procurement accounts:

[In thousands of dollars]

BINARY CHEMICAL MUNITIONS

The House bill included no funds for production of chemical weapons or for related production facilities. The House bill also included a general provision incorporating the restrictive language in the House-passed authorization bill. The Senate bill included the budget request of $65,346,000 for production of the GB-2 artillery projectile and the Bigeye bomb and $98,300,000 for production facilities and prove-out.

The conference agreement provides the following funding:

	Budget	House	Senate	Conference
Weapons:				
GB-2 155mm Artillery Proj	$21,700,000		$21,700,000	$21,700,000
Bigeye Bomb:				
Navy	21,531,000		21,531,000	[1] 3,000,000
Air Force	22,115,000		22,115,000	[1] 3,000,000

	Budget	House	Senate	Conference
Subtotal, Production	65,346,000		65,346,000	27,700,000
Production Facilities:				
Bigeye QL Facility	48,000,000		48,000,000	48,000,000
Bigeye Fill/Lap Facility	28,300,000		28,300,000	28,300,000
Bigeye Metal Parts Facility	17,600,000		17,600,000	17,600,000
Components Prove-out	4,400,000		4,400,000	4,400,000
Subtotal, Production Facilities	98,300,000		98,300,000	98,300,000
Total	163,646,000		163,646,000	126,000,000

[1] Funded in Research, Development, Test and Evaluation, Navy.

The conference agreement also includes a general provision (Sec. 8093) which amends Section 1411 of the Department of Defense Authorization Act, 1986 (P.L. 99-145). Section 1411 applies conditions on spending funds for binary chemical munitions. The conference agreement makes three substantive changes to the original Section 1411. First, obligation of all funds is made subject to an additional requirement (b)(1) that the President certify to the Congress that a force goal stating the requirement for modernization of the United States share of NATO chemical deterrent has been submitted to NATO and formally adopted by the North Atlantic Alliance.

Second, obligation of funds for Bigeye components is subject to the requirement (d) that the Secretary of Defense submit a report describing the operational requirements for Bigeye, actual performance of Bigeye during operational testing with respect to the requirements, and any exceptions deemed acceptable. Obligation for Bigeye components may occur no sooner than 60 days after submission of the report. The conferees agree that the report required by section 1411(d) will be submitted to the Comptroller General for review and certification. The conferees urge the Department to cooperate with the General accounting Office during Bigeye testing and to fully share data from prior tests so that this review and certification may be expedited. The $6,000,000 included in the bill for Bigeye, while authorized in title I of the Authorization Act (procurement), is appropriated in Research, Development, Test and Evaluation, Navy since it will be used for additional operational test and evaluation. The conferees agree that the restrictions included in the revised section 1411(d) shall apply to the $6,000,000 appropriated in RDT&E, Navy.

Third, none of the funds included for procurement of the GB-2 artillery projectile may be obligated before October 1, 1986, and then only when the provisions of subsection (b) ("NATO Consultation") are satisfied. Final Assembly of the GB-2 may not occur before October 1, 1987 and then only when the provisions of subsection (c) ("Conditions for Final Assembly") are satisfied. The conferees agree that the GB-2 artillery projectile be procured on a fully funded basis, consistent with Departmental policy.

The conferees agree that, by funding production facilities in the accompanying bill, the restrictions on the $10,800,000 for related construction in the statement of managers on the Military Construction Appropriation Act, 1986 are lifted.

Inflation Savings

The conferees recommend $1,036,000,000 in fiscal year 1985 inflation savings to adjust for the fact that actual inflation rates were lower than those originally estimated and funded for that year, as proposed by the House. Of this amount, $116,000,000 is reflected in agreed upon adjustments to individual Air Force aircraft procurement programs.

The conferees, in addition, recommend a $1,702,000,000 decrease in the fiscal year 1986, 30 percent, inflation premium budgeted for the major procurement accounts, as proposed by the House. The conferees understand that there is no consensus on the best index for accurately forecasting major procurement program inflation costs. That issue currently is under intensive review. The conferees strongly support the full funding principle to include the use of a properly adjusted inflation premium. The recommendation is intended to remove excess inflation adjustments for the major procurement accounts, but at the same time to ensure that adequate funds are included to cover future inflation costs.

Minority Business Participation

The conferees reiterate the House's concern and expectations regarding expanded opportunities for minority businesses and historically black colleges and universities. Additionally, the conferees agree with the House language requesting a detailed plan to meet the stated goal for expanded participation.

NAVSTAR Global Positioning System User Equipment

The conferees regard the successful operation of the Global Positioning System (GPS) Joint User Equipment Program as essential, and therefore direct the Department of Defense not to develop any GPS user equipment outside the sponsorship, direction, and coordination of the Joint Program Office. The intention of the conferees is to ensure the successful implementation of programs within the responsibility of the Office, and not to expand its responsibilities to cover management of equipment for special uses, such as range, advance technology, mapping, special forces, and classified applications.

Sources of Ball Bearings

High precision ball bearings are a necessity in the manufacture of jet engines and other high technology devices. The conferees are concerned over availability of ball bearings, and over the possible use of ball bearings of foreign manufacture in critical weapons systems and components. The conferees direct the Department to study and report not later than June 30, 1986 on this subject. The report is to include: an assessment of the criticality of the ball bearing industry to national defense; an assessment of the current strength and long term economic viability of the U.S. ball bearing industry; an analysis of the extent to which ball bearings of foreign manufacture are used in weapons systems and components procured by DOD; an assessment of the implications for readiness and sustainability of using ball bearings of foreign manufacture; and an analysis of the feasibility of restricting DOD to using ball bearings of domestic manufacture only.

Aircraft Procurement, Army

The conferees agree to the following amounts for the Aircraft Procurement, Army, account:

[In thousands of dollars]

	Budget	House	Senate	Conference
AIRCRAFT PROCUREMENT, ARMY

TOTAL FUNDING AVAILABLE	3,892,500	3,554,900	3,606,000	3,524,200

PRIOR YEAR SAVINGS

The conferees recognize $117,900,000 in prior year savings in Army Aircraft Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

AH-64 APACHE ATTACK HELICOPTER

The conferees acknowledge the late receipt of a proposal to procure the AH-64 airframe and target acquisition/designation system under multiyear contracts. No such multiyear procurement is approved at this time due to the continuing difficulties in achieving rate production and uncertainties about the total Ah-64 program and its stability. To preserve the option of having a multiyear contract, the conferees provide the full $55,300,000 for advance procurement as proposed by the House.

The conferees agree that a proposal to enter one or both of the proposed multiyear contracts may be considered as part of a 1986 supplemental or may be proposed as a new start in fiscal year 1987. Any such proposal should be substantiated by comparable, negotiated contract data.

The conferees agree that 18 AH-64s from the 1986 program will be provided for the Army National Guard as provided in the authorization legislation.

UH-60 BLACKHAWK

The conferees agree to provide $228,700,000 for 80 UH-60s which shall include two for the Customs Service drug interdiction program as proposed by the Senate. The conferees agree not to provide the $32,200,000 as budgeted and recommended by the Senate for special operations forces modifications. The conferees understand that additional research and development is required for the UH-60 as well as the CH-47 modifications proposed, and procurement is premature at this time.

The conferees agree to allocating $7,900,000 in contract savings to procure 2 additional helicopters to replace older ones which are to be transferred to the Customs Service Drug Interdiction program, as proposed by the Senate.

ARMY HELICOPTER IMPROVEMENT PROGRAM (AHIP)

The conferees agree to provide a total of $195,600,000 which includes $174,700,000 to fully fund 39 AHIPs and to extend the budgeted funded delivery period by 3 months, and $20,900,000 for advance procurement of 31 additional sets of long lead materiels. This advanced procurement funding level, combined with materiels currently on contract, will support production of 48 units in fiscal year 1987 as permitted by a recent Departmental decision memorandum.

The conferees note that the extra funding available by reducing the 1986 program from 56 to 39 will provide for procurement of maintenance sets and other support equipment associated with restricting the fielding to the field artillery aerial observer mission.

SYNTHETIC FLIGHT TRAINING SYSTEMS

The conferees agree to delete advance procurement funding which was improperly budgeted. The conferees agree, however, that this action shall not result in termination of any current contracts. If there is a demonstrated and justified need for advance procurement funds, the Committees agree that a new P-1 line may be established using internal reprogramming procedures with prior notification. The conferees are in agreement that all future simulator procurement be budgeted on a full-funding basis.

MISSILE PROCUREMENT, ARMY

The conferees agree to the following amounts for Missile Procurement, Army:

[In thousands of dollars]

	Budget	House	Senate	Conference
MISSILE PROCUREMENT, ARMY

TRANSFER FROM OTHER ACCOUNTS		(124,500)	(49,700)	
TOTAL FUNDING AVAILABLE	3,386,700	3,063,732	3,105,750	2,904,332

PRIOR YEAR SAVINGS

The conferees recognize $66,500,000 in prior year savings in Army Missile Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

CHAPARRAL

The conferees agree to provide $57,500,000 for Chaparral, instead of $37,200,000 as proposed by the House or $110,400,000 as proposed by the Senate. These funds will allow continuation of the program, to include some of the non-recurring production costs of the new Rosette Scan Seeker (RSS). This reduction is without prejudice, in anticipation of completion of the scheduled testing later in the year. Accordingly, no recurring production funding is provided.

PATRIOT AIR DEFENSE SYSTEM

The Conferees agree to provide $963,400,000 instead of the $967,400,000 proposed by the House or the $974,600,000 proposed by the Senate. The Conferees agree that the separate savings identified by each Committee are achievable.

STINGER

The conferees agree to provide $258,500,000 as proposed by the Senate to procure at least 3,439 Stinger missiles, instead of $244,100,000 as proposed by the House. The conferees recognize that the agreed sum exceeds authorization, but are concerned over providing air defense assets, especially following cancellation of DIVAD. The Army is directed to obtain authorization before obligating or expending funds in excess of the sum currently authorized.

The conferees agree with the Senate position requiring a review of the continued sole source procurement of the Stinger missile.

The conferees agree to provide $168,500,000 for production of TOW-II, instead of $159,300,000 as proposed by the House or $177,650,000 as proposed by the Senate. The conferees direct the Army to procure the maximum possible number of missiles, with 14,000 as a goal.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

The conferees agree to the following amounts for Procurement of Weapons and Tracked Combat Vehicles, Army:

[In thousands of dollars]

	Budget	House	Senate	Conference
PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEH				
TRACKED COMBAT VEHICLES:

PRIOR YEAR SAVINGS

The conferees recognize $590,300,000 in prior year savings in Army Procurement of Weapons and Tracked Combat Vehicles. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

M-1 TANK

The conference agreement funds 840 tanks in fiscal year 1986 as proposed by the House. The conferees agree that no basic multiyear contract for the tank program may provide a procurement rate greater than 720 per year, but that options for higher annual procurement may be established. Beyond fiscal year 1986, exercising these contract options must be approved by the Committees on Appropriations of the House and Senate.

DIVAD FOLLOW-ON

The conferees agree to provide $150,000,000 to procure off-the-shelf air defense equipment to be identified later by the Department. Such procurement shall be subject to standard reprogramming procedures, as specified by the Senate.

PROCUREMENT OF AMMUNITION, ARMY

The conferees agree to the following amounts for Procurement of Ammunition, Army:

PRIOR YEAR SAVINGS

The conferees recognize $178,100,000 in prior year savings in Army Ammunition Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

MORTAR AMMUNITION

The conference agreement provides a lump sum of $96,200,000 for motar ammunition, as proposed by the House. The conferees are in agreement that the Army shall submit a report to the Appropriations Committees for approval of the allocation of this sum. Such allocation shall include the two 81mm training rounds and 120mm mortar ammunition.

155MM ICM

The conferees agreement provides $269,000,000 for procurement of the 155mm Improved Conventional Munition. The Army has had serious start-up problems at the integrated production facility which manufactures this round which have resulted in delayed deliveries. The Army has turned top management attention to this problem and has made some progress; however, the conferees believe this effort must continue until the new plant is fully on-line. The conferees therefore direct that no more than $181,100,000 may be obligated until the Army conducts a thorough investigation of this situation and reports to the Appropriations Committees on specific problems, proposed solutions, and implementation plans and schedules.

COPPERHEAD

The conference agreement funds 6,900 projectiles for $220,800,000 as proposed by the House. The conferees are in agreement that the Department shall submit for approval a report to the Committees on Appropriations of the House and Senate on the cost effectiveness of establishing a second source for Copperhead prior to entering such a contract. The conferees are in agreement that the Committees will respond to such a report within thirty days after submittal of this report.

The Conferees agree that the $69,900,000 proposed for transfer to the 1986 program by the Senate may be used for the 1985 Copperhead program as requested by the Army.

MODULAR MINE PACK SYSTEM (MOPMS)

The conferees agree that no procurement funding for MOPMS in fiscal year 1986 is necessary because of program delays. Unobligated funds available in fiscal year 1985 ($16,500,000) may be used to initiate procurement in fiscal year 1986 when testing is complete, the item is type-classified, and the required report is submitted to the Committees. Additionally, a portion of the unallocated add-on may be used for MOPMS procurement if necessary. The conference action is taken without prejudice to the program.

LIGHTWEIGHT MULTIPURPOSE SYSTEM

The conference agreement provides sufficient funds in this program for the Army to exercise the second year production option for the AT-4 at the most economic production rate. The conferees agree that the DT/OT testing of the M72E4 be completed and the item be type-classified using available funds, with the understanding that this is done without expectation of subsequent procurement by the Department of Defense.

105MM TRAINING AMMUNITION

The conferees note that contracts for funds appropriated last year for the initial procurement of the XM-901 105mm tank training round have not yet been issued contract. This round has many advantages over the current round, including ballistic match.

In order to verify these advantages, the conferees direct that the Army procure at least 55,000 XM-901 105mm tank training rounds using available unobligated funds in fiscal years 1984 and 1985. The Army is further directed to report to the Committee on the results of operational experience and plans for procurement in the future.

PROVISION OF INDUSTRIAL FACILITIES

The conference agreement provides the following amounts for items in conference:

	House	Senate	Conference
Binary chemical facilities		$93,900	$93,900
Explosive stockpiling-related project		3,200	
General reduction	-$15,900		
Holston RDX/HMX projects	7,600		6,300
RDX facility at Louisiana AAP		15,000	

BINARY CHEMICAL FACILITIES

The binary chemical munitions program is discussed at the beginning of the procurement section of this statement of managers.

RDX MODERNIZATION

The conferees are dissatisfied with the Army's response to previous direction to decide expeditiously on the number and location of additional RDX manufacturing facilities and to present a budget and program plan to accomplish this objective. The recently completed cost-benefit analysis explored alternatives, but the Army still has not submitted a plan which is responsive to Congressional requirements and direction. In order to expedite this effort, and get site specific work started at the first location (Louisiana Army Ammunition Plant), the conferees have agreed to bill language restricting the use of all production base projects funded in the bill. The language follows:

Provided, That none of the funds provided herein may be obligated or expended for production base projects until the Secretary of the Army has submitted to the Committees on Appropriations of the House and Senate a specific funding and program plan for RDX modernization which responds to Congressional requirements on program phasing and direction concerning full funding, and which provides for initiation of site specific work at Louisiana Army Ammunition Plant not later than June 30, 1986.

OTHER PROCUREMENT, ARMY

The conferees agree to the following amounts for Other Procurement, Army:

[In thousands of dollars]

	Budget	House	Senate	Conference
Other Procurement, Army

PRIOR YEAR SAVINGS

The conferees recognize $257,500,000 in prior year savings in Army Other Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

FIVE TON TRUCKS

The conferees agree to the House allowance for procurement of five ton trucks and further agree that additional five ton trucks may be procured for the Army National Guard with funds appropriated under "National Guard and Reserve Equipment."

XM-1000 SEMITRAILER

The conferees deny without prejudice the budgeted procurement funding for the XM-1000 in recognition of program delays. If procurement can be justified in fiscal year 1986, after successful completion of testing, a reprogramming will be considered.

FREQUENCY MODULE, KGV-10/TSEC

The conferees agree to provide $13,900,000 as proposed by the House instead of the $1,000,000 proposed by the Senate. The conferees direct the Army to apply excess funds available from these funds due to schedule slippages in the SINCGARS program to the purchase of KY-57 (Vinson) devices to provide additional communications security capability for the existing VRC-12 series radios which will now be retained longer.

MODULAR RECORD TERMINAL

The conferees recommend $36,200,000 for a more cost effective alternative to the Single Subscriber Terminal, with the understanding that the Army already is evaluating such alternatives. The conferees direct that none of the recommended funds be obligated until the Army submits a report to the Defense Appropriations Subcommittees of each House including the results of the evaluation, a recommendation for a more cost effective program, and the rationale for such recommendation. The conferees agree that no funding is provided for modular tactical communications centers as proposed by the Senate.

MOBILE SUBSCRIBER EQUIPMENT

The conferees recommend $335,000,000 for Mobile Subscriber Equipment as proposed by the House.

The conferees are concerned about the capability of the Army to manage the frequency and power management problems associated with the equipment of a mobile, cellular phone system in rapidly changing tactical situations where large numbers of other critical electronic emitter and receivers are used. The conferees therefore direct the Army to report by May 1, 1986 to the Defense Appropriations Subcommittees of the House and Senate on its plans to develop, demonstrate, and employ a frequency management capability for its mobile subscriber equipment.

TELETYPEWRITER TERMINAL AN/UGC-74

The conferees recommend $2,100,000 for the Teletypewriter Terminal AN/UGC-74 Program and direct that none of these terminal be utilized in a program that proivides for their operation solely as a printer.

AN/USC-28 SATELLITE COMMUNICATIONS SET

The conferees agree to provide $19,585,000 for Jam Resistant Secure Communications and $17,970,000 for Spread Spectrum Multiple Access modems (AN/USC-28) as proposed by the House. The conferees understand that the 1986 program requirements have already been purchased using excess fiscal year 1985 funds.

The conferees are concerned about the Department's long term plans for the development of a universal modem, and therefore direct the Department to submit a report to the Defense Appropriations Subcommittees of the House and Senate by April 1, 1986, including its plan for procurement and fielding of a universal modem, which fully considers the sizable sunk costs in existing hardware and software.

COMSEC MODULE, TSEC/KGV-13

The conferees recommend $3,800,000 for COMSEC module, TSEC/KGV-13 with the understanding that a revised schedule will permit obligation of these funds in fiscal year 1986. The reduction from the budget request is based on an estimated downward revision in unit costs and is made without prejudice.

MANEUVER CONTROL SYSTEM

The conferees recommend $60,000,000 for the Maneuver Control System (MCS). The conferees are concerned about the relatively high cost of military standard equipment and direct that provision of military standard equipment be limited to the training base and to the forward deployed and early deploying active component forces for the European, Korean, and Southwestern Asian Theaters. The conferees intend that (1) military standard equipment for these forces will be supplemented with nondevelopmental (NDI) equipment, (2) other active forces will be equipped entirely with NDI equipment, and (3) military standard equipment will be redistributed to the reserve component forces when the active forces are re-equipped under the Army Command and Control System (ACCS) program. The conferees direct that, to achieve greatest economy, priority should be given to acquiring the remaining military standard equipment in fiscal year 1986. For the remainder of the program equipment, procedures should be established to ensure that procurement and the ability to field this equipment is synchronized.

The conferees direct the Army to report to the Defense Appropriations Subcommittees of the House and Senate prior to obligation, but no later than March 1, 1986, on its proposed procurement and distribution plans of both military standard and NDI equipment for this program.

The conferees are aware that the MCS program has been developed and tested on an evolutionary basis and intend that the continuing development of the MCS will provide critical learning experience for the follow-on ACCS program. The conferees therefore direct that procurement be planned for completion in fiscal year 1987 and that fielding of this equipment be done expeditiously. An aggressive test and evaluation program should be established to ensure maximum transfer of MCS experience to the follow-on ACCS program. The success of this program is of interest to the conferees. Reports on its status should therefore be made from time to time to the Defense Appropriations Subcommittees of the House and Senate.

FIRE SUPPORT SYSTEM MODERNIZATION

The conferees agree to provide $25,574,000 for maximizing the near fire support command and control fielded capabilities in accordance with a Congressionally-approved plan which will culminate in the ultimate system for the 1990's. However, the Army's Light Divisions are of primary and immediate concern. These Divisions have the unique mission requirement to deploy on short notice by air transport, fully prepared to carry out a variety of missions in low to high intensity conflicts. Since the Light Divisions currently have no automated fire support system, the conferees agree that these procurement funds are provided solely for the Light Divisions.

In response to repeated requests by Light Division Commanders for a Lightweight Fire Support System, the Army equipped the 9th Division with a system specifically designed for this mission in October 1985. This system will undergo Operational Testing between February and April 1986.

The Conferees direct the Army to report on the test results of the lightweight system test program, and submit a proposed overall transition plan for achieving near-term improvements to the fielded systems of both the Light and Heavy Divisions. Obligation of these funds is contingent on Congressional review of test results and approval of the transition plan.

POSITIONING/AZIMUTH DETERMINING SYSTEM

The conferees recommend $20,000,000 for the Positioning/Azimuth Determining System (PADS) with the intention that a mimimum production level for PADS be maintained for one year.

The conferees are concerned that the Army has no definite plan for the use of the various positioning/azimuth determining systems both currently in the inventory and in development. The conferees therefore direct the Army by March 1, 1986, to submit to the Defense Appropriations Subcommittees of the House and Senate a detailed and comprehensive report including a definition of the current and future roles of all positioning/azimuth determining systems in the inventory or underdevelopment, the procurement plans for each system by fiscal year, a cost-benefit analysis of life cycle costs suppporting the planned use of each system, and a description and justification of plans for transition from one system to its successor system.

HOST NATION SUPPORT

The conferees recommend $41,000,000 for Host Nation Support-Europe. This recommondation reflects the conferees' continued support of the Host Nation Support program, revised activation schedules, the offer of the German government to prefinance construction of facilities for activated units, and the availability of unobligated balances for this program appropriated in fiscal years 1984 and 1985.

The conferees agree with the Senate direction to restrict the use of funds only for the Host Nation Support program, and the House direction for the Army to submit a report on its plans to synchronize future estimates of requirements with activation schedules, and to include details in future budget requests on the relationship of requirements to activation and operational schedules.

AIRCRAFT PROCUREMENT, NAVY

The conferees agree to the following amounts for Aircraft Procurement, Navy:

[In thousands of dollars]

TOTAL FUNDING AVAILABLE	12,062,600	11,041,000	10,856,033	11,175,678

PRIOR YEAR SAVINGS

The conferees recognize $551,300,000 in prior year savings in Navy Aircraft Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

CH-53E HEAVY LIFT HELICOPTER

The conferees agree that the CH-53E engines be procured under a multiyear contract as proposed by the House.

P-3C ANTISUBMARINE WARFARE AIRCRAFT

The conferees agree to an allowance of $322,871,000 to procure nine P-3C aircraft and $106,600,000 for P-3C advance procurement. The conferees direct that six of the nine P-3C aircraft shall be for the Naval Reserve.

NAVY TANKER AIRCRAFT

The conferees agree with the Senate allowance of $110,000,000 for tanker aircraft modifications to support deployed carrier based fighter aircraft. The conferees believe the conversion of used commercial aircraft into tankers is substantially less costly than the procurement of new tanker aircraft. Accordingly, the conferees direct the Navy to request bids for used commercial aircraft that can be converted into aerial refueling tankers.

P-3C AIRCRAFT MODIFICATIONS

The conferees agree to the allowance of $396,089,000 for P-3C modifications. With respect to the P-3C modification program, the conferees direct the Department, with the available funds, to procure 33 additional update III modifications kits for a total of 48 aircrafts; to allot $27,500,000 to procure AN/AQA-7 systems with expanded channel capacity and compatibility with the planned advanced acoustic sensors. The conferees direct the Navy to procure sufficient test models of both the AN/AQA-7 improved processor system and improved display system in order to determine fleet operability and suitability. Upon completion of this evaluation, the Navy should obtain the technical data package and compete future procurements. Additionally, the conferees direct that $3,000,000 be made available to modify P-3A aircraft to be turned over to the Customs Service for drug interdiction.

WEAPONS PROCUREMENT, NAVY

The conferees agree to the following amounts to Weapons Procurement, Navy:

[In thousands of dollars]

	Budget	House	Senate	Conference
WEAPONS PROCUREMENT, NAVY

PRIOR YEAR SAVINGS

The conferees recognize $15,000,000 in prior year savings in Navy Weapons Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

PHOENIX

The conferees agree to provide $343,600,000 for Phoenix missiles as proposed by the Senate, instead of $250,700,000 as proposed by the House.

The House had deleted $92,900,000 requested in the budget for establishing a second source to produce Phoenix missiles. The Senate had included those funds. The conferees agree with the Senate position with the following provisos:

1. The results of the Phase II analysis of Phoenix second sourcing now being conducted by the Navy are to be submitted to the Committees on Appropriations of the House and Senate, supported by an OSD GAIG review of the analysis, and by written proposals from prospective second source suppliers.

2. The Secretary of Defense is to provide certification that the underlying procurement program for Phoenix is supportable in the current five-year defense plan.

3. No more than $60,000,000 of the $92,900,000 may be obligated or expended for long lead materials and test equipment associated with second sourcing. The remaining $32,900,000 may not be obligated or expended until pending reprogramming action FY 85-65PA has been approved by the Congress. Consideration of that reprogramming will be made following receipt of the documentation cited in points 1 and 2, above.

4. If the Phase II analysis does not clearly support the establishment of a second source, all materials purchased with the $60,000,000 hereby released shall be applied to fiscal year 1988 procurement, with corresponding reductions in the fiscal year 1987 request.

The conferees emphasize their agreement with, and commitment to, competition in defense procurements. On the other hand, it is reasonable to require study and analysis which firmly show that the considerable expense of establishing a second source will be more than offset by reductions in future prices.

STANDARD MISSILE

The conferees agree to provide $20,300,000 for Standard Missile-1, Medium Range as proposed by the Senate instead of $17,738,000 as proposed by the House. This includes funds for the final year of the SM-1 motor multiyear procurement. These motors will be used for the SM-1 modification program.

ROLLING AIRFRAME MISSILE

The conferees agree to provide no funds for Rolling Airframe Missile (RAM) as proposed by the Senate, instead of $15,000,000 as proposed by the House. The conferees note the availability of unobligated prior year funds in the RAM program which can be used for production preparation. As an indication of support for RAM, the conferees have agreed to provide the full budgeted amount for RAM development in the RDT&E, Navy, appropriation. The conferees also deleted, without prejudice, the initial production funding for RAM launchers and fire controls as proposed by the Senate.

MK-67 SUBMARINE LAUNCHED MOBILE MINE

The conferees agree to provide $3,714,000 for the MK-67 Submarine Launched Mobile Mine as proposed by the Senate. The conferees are concerned about the slippage in deliveries and the technical problems associated with this important program. The conferees are hopeful that the Navy will get this program back on track in the near future. Once this is accomplished, the conferees would consider a reprogramming action to maintain program continuity during the fiscal year 1986 delivery period.

SHIPBUILDING AND CONVERSION, NAVY

The conferees agree to the following amounts for Shipbuilding and Conversion, Navy:

[In thousands of dollars]

	Budget	House	Senate	Conference
SHIPBUILDING AND CONVERSION, NAVY				
BA-1 FLEET BALLISTIC MISSILE SHIPS:

TOTAL FUNDING AVAILABLE	11,411,600	10,707,400	10,656,500	10,840,400

PRIOR YEAR SAVINGS

The conferees recognize $1,999,300,000 in prior year savings in Navy Shipbuilding & Conversion. The sources and uses of these savings are identified in this Statement of the Managers under the hearing "Availability of Unobligated Balances."

CG–47 AEGIS CRUISER

The conferees agree to an allowance of $2,637,900,000 to procure three CG–47 AEGIS Cruisers.

The conferees also include bill language which directs the Navy to select a second source, by the most expeditious means available, for the SPY–1 radar, AEGIS combat system components, shipyard/shipboard and production test center integration, AEGIS color graphic display systems, solid state frequency converters and propellors.

It is the conferees' intention that the necessary funds be made available for the second source selection to be fully established in order to begin competition between the current sole source contractors and the second source contractors in fiscal year 1988 provided that any such selection shall not adversely affect the CG–47 and DDG–51 shipbuilding program schedule and costs.

It is also the conferees intention that this second source procurement direction include the DDG–51 destroyer program.

DDG–51 DESTROYER

The conferees agree to an allowance of $74,000,000 for DDG–51 advance procurement. The advance procurement funds shall be available only for acquisition of components which require excessive production lead times to support early delivery of the fiscal year 1987 DDG–51 ships. The Navy is optimistic that DDG–51 construction time will be shortened compared to the CG–47 ships. Consequently the outyear budget plan should be realigned to assure compliance with the full funding policy. To the extent that future advance funding estimates exceed the amount of this allowance, the Navy should revise its budget plan to reflect full funding instead of major component incremental financing. Adoption of this financial benchmark will demonstrate the validity of estimated construction schedule improvements.

In its review of prior year funds, the conferees learned that significant cost growth could be incurred on the DDG–51 lead ship due to propulsion system price increases. As a result of testing delays on the Rankine Cycle Energy Recovery System (RACER), the ship construction schedule could slip more than a year and cost increases may be incurred in excess of 15 percent of basic construction cost. In view of the cost and schedule impact, Navy should discontinue plans for RACER installation on the lead ship. Concurrent with the ongoing RACER test program, the Navy should continue development of RACER installation plans for future Navy ship construction programs.

MCM MINE COUNTERMEASURES SHIPS

The conferees agree to the allowance of $197,200,000 for the construction of two MCM mine countermeasures ships. The conferees, in accord with the Navy's revised program, direct the Department to utilize fiscal year 1985 MCM funds to permit a three ship acquisition progam in fiscal year 1986.

T-AGOS OCEAN SURVEILLANCE SHIPS

The conferees agree to the Senate position which approves the construction of one monohull vessel and one SWATH hull vessel provided that the contract obligation for engines will be deferred until the Navy has determined which ship type has been selected for the fiscal year 1986 and 1987 construction plans.

SERVICE CRAFT

The conferees agree to the allowance of $62,700,000 for service craft programs. The conferees also agree that $25,000,000 of the allotted service craft funds is intended to be the ceiling price for the torpedo range tender which is to be designed to commercial standards. The conferees also agree that the obligation of these funds is subject to authorization approval.

STRATEGIC SEALIFT

The conferees agree to the allowance of $228,400,000 for the Strategic Sealift program. Of the amounts avilable, the Navy may use funds to reengine and modernize vessels procured. Upon enactment of legislation authorizing a "Mariner Fund" for the construction and charter of commercial vessels, the conferees agree that the Navy may charter any vessels modernized through these strategic sealift funds, provided such authority is granted. It is the conferees intent to begin the charter program as soon as possible after authorization is enacted thereby generating early revenues to the Marine Fund. Approval for modernization of vessels procured under this section should be considered an exception, not a precedent.

COST GROWTH

The conferees agree to an allowance of $97,000,000 to cover the cost overruns associated with the MCM mine countermeasures ship program as proposed by the Senate.

FFG–7 GUIDED MISSILE FRIGATE

The conferees agree to the bill language proposed by the Senate which formally completes the funding transfer of $40,000,000 to the FFG–61 program and removes the legislative restriction.

OTHER PROCUREMENT, NAVY

The Conferees agree to the following amounts for Other Procurement, Navy:

PRIOR YEAR SAVINGS

The conferees recognize $276,483,000 in prior year savings in Navy other Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

AN/SPS-67

The conferees direct the Navy to maximize savings in this program by beginning competitive procurement in fiscal year 1987.

AN/SQR-19 TOWED ARRAY SONAR

The conferees direct the Navy to conclude its testing of both versions of AN/SQR-19 systems currently being designed or produced to determine the acceptability of these towed array systems as soon as possible. Based on these determinations, the Navy should then proceed with its competitive procurement of the fiscal year 1986 AN/SQR-19 program.

NAVAL RESERVE ON-BOARD TRAINER

The conferees agree to the House position which provides $6,800,000 to procure three shipboard antisubmarine warfare training systems service test models of a modification to the AN/SQR-17A to provide onboard training capability for Naval Reserve Force ships. This procurement action should include the development of a technical data package in order that follow-on production can be competitively procured.

SQQ-89 ACOUSTIC VIDEO GENERATORS

The conferees are totally dissatisfied with the egregiously inadequate progress toward establishing competition for this equipment. The conferees expect full and immediate compliance with the December 11, 1985 Assistant Secretary of the Navy (Shipbuilding and Logistics) memorandum to the Commander, Naval Sea Systems Command which directs that an industry brief be made no later than the week of January 27, 1986; that Draft specifications be issued to industry for review prior to the aforementioned industry briefing; that contract award be made no later than September 1, 1986 and the procurement strategy include development of a second source.

The conferees agree in principle with the above mentioned memorandum direction. However, based upon the Department's failure to comply with the conferees' direction of fiscal year 1985, the conferees remain skeptical. Accordingly, the conferees additionally direct that the specifications for this program be reviewed simultaneously by both industry and the Specification Advocate General. Additionally, the conferees direct the contract award scheduled for September 1, 1986, include both the leader and the follower (second source).

Although the conferees agree not to place restrictions on the procurement of the SQQ-89, the conferees intend to closely monitor this program during the course of fiscal year 1986. Hopefully, this issue will be resolved and not have to be resurrected as it was during this year's appropriations process.

MK-92 UPGRADE (CORT)

The conferees agree that the Navy should proceed with MK-92 CORT upgrade production for the FFG-7 class frigate. Concurrent with the FFG-61 procurement, the Navy should proceed with both its test and evaluation plan and the contract option for six backfit alterations valued at a warranted fixed price of $9,000,000 per unit excluding spares and Navy support costs. Funds appropriated for this section are adequate to fund this program in fiscal year 1986.

SONOBUOYS

The conferees agree to the AN/SSQ-53 and AN/SSQ-77 sonobuoy funding as proposed by the Senate which includes $36,500,000 in "industrial surge" capability.

The conferees agree to the use of industrial surge for this program as an exception to their general belief that industrial surge should be used sparingly and only in special situations. The limited shelf life of these sonobuoys persuades the conferees that establishing the surge capability is a reasonable alternative to building war reserve inventories.

QUICKSTRIKE MINE

The conferees agree to an allowance of $39,679,000 for the Quickstrike mine program. The conferees commend the Navy's efforts to substantially reduce Quickstrike program costs through competition. In an effort to capitalize on these savings, the conferees agree to an appropriation of funds which will provide for the procurement of Quickstrike mines above the fiscal year 1986 budget request. In that regard, the conferees direct the Department to procure, with the funding provided, as many Quickstrike mines as possible by either renegotiating and exercising current contract options, since larger quantities are involved, or revising the current procurement strategy to obtain the most efficient and cost effective procurement.

COASTAL DEFENSE AUGMENTATION

The conferees agree to an allowance of $375,000,000 consisting of $235,000,000 in new obligational authority and $140,000,000 in unobligated fiscal year 1985 CG-47 AEGIS cruiser program funds, for procurement of vessels, aircraft, and equipment to be acquired by the Navy to augment the Coast Guard inventory. Authority for obligation of the $140,000,000 prior year funding is contained in Section 8103 of this Act. Funds shall be available for such procurements as determined by the Coast Guard, but shall include the following items:

Program	Quantity	Amount
Medium range recovery helicopter	3	$41,000,000
Bouy tender service life extension	5	70,000,000
C-130 aircraft	4	72,000,000
140 foot icebreaking tug	1	20,000,000
Forward looking airborne radar/C-130 modification	27	60,000,000
110 foot patrol boats to replace 95 foot PB's	16	112,000,000
Total Coastal Defense Augmentation		$375,000,000

The Navy should consider the procedure outlined in the Senate report pertaining to the use of this account in the future for the budgeting of alterations to Coast Guard aircraft, vessels, and equipment rather than the Navy other procurement account.

As reflected in the Navy Operation and Maintenance section, the conferees agree to $100,000,000, for Coast Guard Operating Expenses as recommended by the House. However such sums shall be paid by the Navy for expenses related to training of the Coast Guard and maintenance by the Coast Guard of equipment which would be available to carry out missions determined by the Navy to be necessary in the event of hostilities.

PROCUREMENT, MARINE CORPS

PRIOR YEAR SAVINGS

The conferees recognize $47,717,000 in prior year savings in Marine Corps Procement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

UNIT LEVEL CIRCUIT SWITCHES (ULCS)

The conference agreement provides $15,361,000 in Procuremnt, Marine Corps, and $6,200,000 in Other Procurement, Air Force for only 4 baseline first article AN/TTC-42 switches and associated first article production and test costs. The conferees direct that no other TTC-42's be funded in fiscal year 1986, and that further procurement of this stitch should await successful completion of first article testing. The conference agreement also provides for procurement of the SB-3865 for the Army, Air Force, and Marine Corps as budgeted.

The conferees direct the Department of Defense to report to the Defense Appropriations Subcommittees on the systems competitively selected for procurement as the unit level circuit switches. This report, on the basis of contract award, should also outline the outyear procurement program and reationalize any differences from the Department's switch architecture report as requested by the House.

81MM MORTAR AMMUNITION

The conferees are in agreement with Senate report language allowing procurement of both the Improved 81mm high explosive mortar ammunition and the older version.

AIRCRAFT PROCUREMENT, AIR FORCE

The conferees agree to the following amounts for Aircraft Procurement, Air Force.

[In thousands of dollars]

	Budget	House	Senate	Conference

PRIOR YEAR SAVINGS

The conferees recognize $1,110,400,000 in prior year savings in Air Force Aircraft Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

B-1B

The conferees agree to provide $5,161,800,000, a reduction of $300,000,000. No B-1B production funds in any fiscal year are to be used for retrofit modifications. Instead the conferees have provided a separate allowance of $31,400,000 in the modification program. The conferees further agree to the reprogramming and reporting requirements in the Senate report.

F-16

The conferees agree to provide $2,596,400,000, a reduction of $240,300,000. The conferees have included bill language which allows award of the F-16 multiyear contract and directs that it contain priced contract options which can accommodate the results of the air defense competition.

AIR DEFENSE COMPETITION

The conferees agree to both the House and Senate report language on the air defense competition for approximately 300 air defense fighters competitively selected from among the F-16, F-20, and any other candidate deemed suitable by the Air Force. The Air Force must follow the acquisition strategy required in the Senate report, using a common cost base for bids as required by the House. The conferees expect this competition to be expedited, and have included bill language which requires the Air Force to make a source selection by July 1, 1986, with contract award to follow within sixty days. The bill appropriates $200,000,000 for this purpose in fiscal year 1986. As mentioned in the F-16 section of this report, the conferees have also approved the F-16 multiyear initiative because of the expedited air defense aircraft competition. The Air Force is encouraged to consider innovative pricing approaches for any aircraft in the competition.

KC-10

The conferees agree to provide $204,800,000, a budget reduction of $34,000,000, and $226,800,000 for advance procurement. The Air Force should notify Congress if it proposes to extend the KC-10 production line for additional tankers to meet strategic bomber refueling requirements.

C-5B

The conferees agree to provide $1,809,300,000, a budget reduction of $132,800,000. This is $30,800,000 below the Senate allowance to reduce excessive engineering change order funding. The conferees also agree to the provision of $326,000,000 for advance procurement of 21 C-5B aircraft in fiscal year 1987. The conferees believe that $177,100,000 of C-5B contract reserves for inflation as documented by the Congressional Budget Office is excess to current cost projections. Due to the possible adverse impact on program execution if a reduction were made at this time, the conferees recommend that such reserves be retained in the C-5B program. The Director of the Office of Management and Budget should formally propose rescission of all excess budget authority in amounts equal to contract adjustments under the current C-5B economic price adjustment contract clause once such adjustments are made in any fiscal year.

T-46 AIRCRAFT

The Air Force has testified on the need to replace obsolete training aircraft operated by the Air Force Air Training Command. The Congress has responded to this need and ratified this requirement by providing over $600,000,000 in T-46A research and development and procurement funds to date. The conferees have agreed to provide not only full funding for the fiscal year 1986 T-46 procurement, except for a minor inflation adjustment, but have also fully funded the advance procurement needed to procure T-46 aircraft in fiscal year 1987. The conferees expect the Air Force to budget for and procure T-46 aircraft in fiscal year 1987, where firm fixed price contract options are available, and in subsequent years to meet this critical and well justified requirement.

HH-60 SEARCH AND RESCUE HELICOPTER

The conferees agree to an appropriation of $55,000,000 for production start-up costs and procurement of three helicopters to fill the combat search and rescue mission, instead of $93,400,000 recommended by the House or $23,000,000 recommended by the Senate. The amounts agreed to are sufficient to begin an austere version HH-60A production program to provide minimum capability with approximately 63 helicopters and a total cost of not more than $500,000,000. The Air Force should consider this to be a design-to-cost objective.

The initial funding level is intended for costs related to the airframe, engines, and navigation systems costs as well as nonrecurring engineering expenses. All production tooling expenses are to be assumed by the airframe prime contractor. The conferees expect the Navy to coordinate its search and rescue program with the Air Force to optimize commonality.

AIR FORCE ONE

The conferees agree to the Senate funding level and its conditions for Air Force One replacement aircraft and reiterate the procurement design-to-cost objective, which excludes future R&D expense. While also excluded from the design-to-cost objective, initial spares requirements should be accommodated from within appropriated spares funding levels. The Air Force should obtain approval from the House and Senate Armed Services Committees for this procurement program. The conferees also expect advance written notification to Congress prior to contract award.

B-1B MODIFICATIONS

The current Air Force plan would fund $186,200,000 for B-1B retrofit modifications within the B-1B production program. The conferees feel that such costs are more appropriately funded from the allowances for modification of in-service aircraft. Consequently, $31,400,000 is recommended for B-1B retrofit modifications based on analysis of the aircraft modification installation schedule.

OTHER MODIFICATIONS

The conferees agree to the following adjustments in various Air Force modification line items that were in conference:

[dollars in millions]

B-52 ALCM	−$4.1
B-52 Strategic Radar	−8.3
A-7 Guard/Reserve	+56.6
A-10 GAO Savings	−13.6
A-10 TEMS	−2.2
F-4 GAO Savings	−6.0
F-4 INS/HUD	+92.0
F-4E ALR-74	−10.9
RF-4E ALR-74	−55.0
F-4 Simulator, ALR-74	−4.2
F-15 Mark XII IFF	−.8
F-16 GAO Savings	−18.8
F-16 ALR-74	−2.6
T-38 GAO Savings	−3.9
C-130 GAO Savings	−10.6
MC-130H Remodification	+10.3
HH-53 SOF	+50.0
ACP Upgrade	+50.0

SPARES AND REPAIR PARTS

The conferees agree to provide $3,975,000,000, a budget reduction of $959,581,000 of which $158,700,000 relates to initial spares and $800,881,000 relates to replenishment spares. The conferees agree to the language in both the House and Senate reports. Future budgets to Congress should clearly identify valid unfunded requirements that would be satisfied if surplus spares funds became available after the budget was submitted. Such unfunded requirements should be reviewed and validated by the Office of the Secretary of Defense during the annual budget review process.

The primary deficiency of the Air Force centrally managed spares requirements determination system is the excessive budget lead time required for future program cost projections. Over the past several years, requirements and cost projections have varied significantly from the actual spares consumption data. Adoption of the financial technique of stock funding repairables would assign financial and requirements resonsibility to the spares consumer and significantly shorten budget lead time for cost estimates. Consequently, the conferees encourage the Air Force to consider stock funding of repairables to be managed at least at the major command level.

OTHER PRODUCTION CHARGES

The conferees agree to provide $2,235,410,000, a budget reduction of $448,295,000. The reduction includes $39,800,000 in the fiscal year 1986 ALQ-131 program, $59,000,000 related to production slip of the ALQ-184 ECM pod, $1,000,000 related to ALR-74, $43,000,000 related to PLSS, $44,000,000 related to ECM power management, and $261,495,000 related to classified programs.

ALR-74 RADAR WARNING RECEIVER

The conferees agree to the following reductions related to the ALR-74 production slip, which have been applied to the line items indicated:

FISCAL YEAR 1986

[dollars in millions]

F-16 Advance Procurement	$17.4
F-4E Modification	10.9
RF-4E Modification	55.0
F-4 Simulator Modification	4.2
F-16 Modification	2.6
Other Production Charges	1.0
Initial Spares	12.1
Total	103.2

The conferees recognize that approimately $56,900,000 in fiscal year 1984 appropriations will be used to repackage the ALR-56 radar warning receiver so that a competition between ALR-56M and ALR-74 may be conducted in the future.

ELECTRONIC COUNTER MEASURE (ECM) EQUIPMENT

The conferees have agreed to substantial funding reductions in the Airborne Self Protection Jammer (ASPJ), ALQ-119/184 pod, ALQ-131 pod, and ALR-74 radar warning reciever requipment due to inability to

achieve production objectives. The budgets for these items were based on overly optimistic assessments of production capability in order to capitalize on emerging technologies. The conferees understand the need to counter the emerging threat, but future support for ECM programs will be contingent upon production feasibility. Consequently, the Air Force should realign its planning to achieve realistic production schedules for this equipment.

MISSILE PROCUREMENT, AIR FORCE

The conferees agree to the following amounts for Missile Procurement, Air Force:

[In thousands of dollars]

	Budget	House	Senate	Conference
MISSILE PROCUREMENT, AIR FORCE				
BALLISTIC MISSILES

PRIOR YEAR SAVINGS

The conferees recognize $82,800,000 in prior year savings in Air Force Missile Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

ADVANCED MEDIUM RANGE AIR-TO-AIR MISSILE

The conferees agree to provide $149,989,000 for Advanced Medium Range Air-to-Air Missile (AMRAAM) and $59,400,000 for AMRAAM Advance Procurement as proposed by the Senate.

MINUTEMAN II/III

The conferees agree to provide $43,400,000 for Minuteman II/III modifications. This is an increase of $35,000,000 over the House allowance to extend the Minuteman Extended Survivable Power (MESP) program starting in 1986. No funds are provided for lead acid batteries.

COMPLEMENTARY EXPENDABLE LAUNCH VEHICLES

The conferees agree to funding levels and distributions proposed by the Senate. This includes $80,000,000 for procurement of 1 fully funded Complementary Expendable Launch Vehicle and $46,894,000 in advance procurement for 1987.

The conferees agree that the CELV program of no more than 10 Titan 34D7s shall be fully funded but may be executed as a multi-year procurement if proposed to and approved by Congress.

The conferees further agree that the Air Force should include a program profile and description with its multi-year justification to both the House and Senate Defense Appropriations Subcommittees and that it should incorporate the policy guidance provided in the House report to this bill to include holding four CELV's in reserve, and the Senate language in the report accompanying the Continuing Resolution (S. Rpt. 99-210). Contract restructuring should explicitly accommodate, using priced contract options, the requirement of holding four CELV's in reserve.

OTHER PROCUREMENT, AIR FORCE

The conferees agree to the following amounts for Other Procurement, Air Force:

TOTAL FUNDING AVAILABLE	9,538,000	8,238,394	9,113,674	8,571,383

PRIOR YEAR SAVINGS

The conferees recognize $347,476,000 in prior year savings in Air Force Other Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

30MM API

The conferees agree to House bill language requiring component breakout of the depleted uranium penetrator for 30mm armor piercing ammunition.

COMBINED EFFECTS MUNITION

The conferees are in agreement that competition for CEM procurement shall be continued in fiscal year 1986 with the funding provided.

MAR USAF/FAA RADAR UPGRADE

The conferees agree to the House allowance of $2,798,000 for the joint USAF/FAA minimally attended radar upgrade due to contract award schedule delay beyond the current fiscal year. The Air Force is requested to report to the Appropriations Committees by March 1, 1986, on the requirements for the upgrade, revised acquisition plans, and an assessment of future program growth potential. The report should include an estimate of total program cost and a comparison of the life cycle of unattended versus minimally attended radar sites.

AUTOMATIC DATA PROCESSING EQUIPMENT

The conferees agree to provide $163,128,000, which includes reductions of $1,400,000 in the "MAJCOM Link" and $6,000,000 in the Air Staff "Improved Service Program". No funds in any Air Force appropriation should be obligated on the Improved Service Program or other Air Staff office automation until the Secretary of the Air Force has approved an Air Staff automation master plan which addresses requirements and funding for each major Air Staff organization.

NORTHEAST REGIONAL COMMUNICATIONS CENTER

The conferees agree that no funds are provided in this bill for construction at Hawley, Massachusetts, or other locations on privately owned land, of the Northeast Regional Communications Center. The conferees also agree that if further consideration is given to construct such a facility only land presently owned by the Federal Government should be considered as sites.

NATIONAL GUARD AND RESERVE EQUIPMENT

The conferees agree to the following amounts for Reserve and National Guard:

[In thousands of dollars]

TOTAL FUNDING AVAILABLE		590,000	2,242,200	1,501,800

ARMY NATIONAL GUARD

The conferees agree to provide language in the bill enabling the use of $40,000,000 provided to the Army National Guard for minor projects to facilitate delivery, storage, training and maintenance of National Guard equipment as proposed by the Senate. The conferees added bill language providing that the proposed projects are subject to authorization.

AIR NATIONAL GUARD

The conferees agree to provide $75,000,000 for procurement of miscellaneous equipment for the Air National Guard. Of the amount authorized and appropriated for the Air National Guard, $25,000,000 shall be used for an Air Combat Maneuvering System as identified in the Senate report.

C–131 MODIFICATIONS

The conferees agree to provide $12,000,000 to modify 3 C–131 aircraft in fiscal year 1986. The fiscal year 1985 funds are now available for transfer, as indicated elsewhere in this report. The conferees also agree to the Senate conditions for modification of C–131 aircraft for the Air National Guard. These three aircraft are to be assigned to units in the states of South Carolina, Indiana, and Oregon.

PROCUREMENT, DEFENSE AGENCIES

PRIOR YEAR SAVINGS

The conferees recognize $36,000,000 in prior year savings in Defense Agencies Procurement. The sources and uses of these savings are identified in this Statement of the Managers under the heading "Availability of Unobligated Balances."

DCA CINC INITIATIVES

The conferees agree to restore the Senate reduction of $7,900,000 for the Defense Communications Agency CINC Initiatives program. The conferees understand there are a number of critical requirements that necessitate funding in fiscal year 1986. The conferees direct the Department of Defense to budget for these procurement and operations requirements in the appropriate service requests in fiscal year 1987 rather than budget for them in this account and as a contingency fund.

DEFENSE PRODUCTION ACT PURCHASES

The conference agreement provides $31,000,000 as proposed by the Senate.

NATO COOPERATIVE DEFENSE PROGRAMS

The conferees agree to provide $15,000,000 for the acquisition of point air defense of United States air bases and other critical United States military facilities in Italy as proposed by the Senate in the Continuing Resolution (H.J. Res. 465). Enabling bill language has been added.

TITLE IV—RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The conferees agree to the following amounts for the Research, Development, Test and Evaluation accounts:

[In thousands of dollars]

	Budget	House	Senate	Conference
RECAPITULATION

TOTAL FUNDING AVAILABLE	39,280,100	34,072,959	36,739,121	35,337,505

The conferees agree to the following language:

INDEPENDENT RESEARCH AND DEVELOPMENT BID AND PROPOSAL

The conferees agree with the House proposal that the ceiling for fiscal year 1986 for Independent Research and Development (IR&D) and Bid and Proposal (B&P) be set at $5,200,000,000. The conferees agree that an independent review of the IR&D/B&P program is required, as proposed by the House, particularly in light of recent allegations of improper charges to IR&D and B&P accounts by a major contractor.

NATO COOPERATIVE R&D

The conferees agree to provide $125,000,000 for NATO Cooperative R&D and Testing programs, instead of $250,000,000 as proposed by the Senate and no funds as proposed by the House. These funds are to be equally divided among the Army; Navy; Air Force; Defense Agencies;

and Director, Test and Evaluation, Defense, RDT&E accounts.

The conferees note that the fiscal year 1986 Defense Authorization Act provided for a total of $250,000,000 in general authorization for this initiative. The conferees express their support for this important R&D program, and hope that it provides the basis for increased standardization and interoperability between the U.S. and our NATO allies in the field of armaments development and acquisition.

The Department of Defense should report back to the Committees on Appropriations of the House and Senate on the programs and projects initiated with the $125,000,000 fiscal year 1986 appropriation for NATO Cooperative R&D. Should the Department of Defense require additional funds, not to exceed the authorized amount, for this effort in fiscal year 1986, a prior approval reprogramming request must be submitted.

MANAGEMENT OF MEDICAL R&D

The conferees endorse the language of House Report 99-332, page 285, regarding Management of Medical R&D. The conferees direct that management responsibility for Infectious Disease and Combat Casualty Care be returned to USDR&E, effective immediately, with the sole exception that management responsibility for research on acquired immune deficiency syndrome shall lie with the Assistant Secretary for Health Affairs.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

DEFENSE RESEARCH SCIENCES

The conferees agree to provide $234,500,000 for Defense Research Sciences, of which $5,000,000 shall be used only for aviation research at Wichita State University, and $3,500,000 shall be used only for computer research and related purposes at the University of Nevada, Las Vegas.

MILITARY DISEASE HAZARDS TECHNOLOGY

The conferees agree to provide $27,490,000 for Military Disease Hazards Technology, of which $2,000,000 shall be used only for neurotoxin research at the University of Kansas.

TERMINALLY GUIDED PROJECTILES

The conferees agree to provide $15,000,000 for Terminally Guided Projectiles as proposed by the House, instead of $11,000,000 as proposed by the Senate. The funds provided are to be used solely for the SADARM project; requests for funds for the CGSP and Guidance & Control Production projects are denied.

The conferees also agree to provide $21,000,000 in the Field Artillery Ammunition program for SADARM, for a total of $36,000,000. The conferees share the reservations expressed by the House concerning SADARM's technical maturity and readiness to enter full-scale engineering development (ED). It is noted that the issuance of a Request for Proposals (RFP) for ED of SADARM has been delayed, and the program schedule has slipped accordingly. Consequently, the conferees direct the Army to fashion the forthcoming RFP to provide for an ED program which is augmented in the early phases by concurrent gun firings of modified advance development (AD) hardware. Said modifications are to be those related to improvement of reliability and to refinement of algorithms for improvement of single shot probability of kill. Simultaneously with conduct of these gun firings, ED may proceed through component and subsystem development and qualification, and demonstration of the full-up ED system. Completion of a program of well instrumented gun firings of modified AD hardware before the end of ED subsystem qualification will significantly reduce the risks associated with the remainder of development, as will full consideration of the results and implications of the current Air Force testing program known as Chicken Little. The conferees direct that no funds be obligated or expended for materials required for the final phase of ED, system qualification in DT/OT II, until approved by the Committees on Appropriations of the House and Senate. Such approval will be contingent upon a satisfactory Critical Design Review (CDR) conducted by the Army at the end of demonstration of the full-up ED system. A satisfactory CDR will have addressed, among other issues, reliability, single shot probability of kill, resistance to countermeasures, accuracy of delivery methods, and lethality at required ranges. Transition to DT/OT II shall be made on the basis of specific technical accomplishment and risk reduction, rather than on an arbitrary calendar date.

The conferees direct that at least two prime competing contractors shall be involved in the two phase process described above, and that the Army plan for eventual production by at least two prime contractors.

The conferees agree that integration of SADARM with both the MLRS and the 155mm howitzer may be pursued with fiscal year 1986 funds.

The conferees recognize that the foregoing directives may add to the cost, and lengthen the duration, of the ED program currently planned by the Army. By the same token, continuing to support at least two competing prime contractors through development and into production may increase funding needs. On the other hand, these increased costs are viewed as a prudent investment which will be recouped through lower procurement costs and lower technical and financial risks. Further, the conferees insist that the program schedule be structured realistically and prudently managed.

MISSILE/ROCKET COMPONENTS

The conferees agree to provide $18,912,000 for Missile/Rocket Components as proposed by the House, instead of $34,872,000 as proposed by the Senate. The funds are specified for projects within the program as follows:

D085—Demonstration of Advanced Radar Techniques	$1,412,000
D087—Missile Rocket Components	192,000
D261—Fiber Optics Guidance	6,450,000
D263—Kinetic Energy Missile	5,858,000
D271—Multirole Survivable Missile	5,000,000

Funds for D272, Joint Service Imaging Infrared Seeker, are specifically denied.

ADVANCED ROTORCRAFT TECHNOLOGY INTEGRATION/LHX

The conferees agree to provide $45,000,000 for Advanced Rotorcraft Technology Integration (ARTI)/LHX, instead of $15,000,000 as proposed by the House or $55,528,000 as proposed by the Senate. The conferees emphasize that the funds provided are for advanced development only, and that no funds will be provided in the future for full scale development until the Army has better justified the LHX program. The funds are provided with the understanding that the program will be continued in fiscal year 1986 as presently structured by the Army with a reasonable level of competition being maintained in both elements of the program.

The conferees are concerned that the program is not well defined and that its cost could be significantly underestimated. For these reasons, the Army is directed to prepare for submission to the Committees on Appropriations of the House and Senate by August 1, 1986, a complete report on the program, describing the concept of operation, procurement strategy, quantities of aircraft to be procured, schedule, and program cost.

The Secretary of Defense, for his part, is to submit a separate report to the Committees on Appropriations of the House and Senate by August 1, 1986, certifying the accuracy of the Army's cost estimates. That report should be based on an independent assessment of Army cost estimates for the LHX helicopter as well as for potential alternative programs and should be conducted by the Cost Analysis Improvement Group within the Office of the Secretary of Defense. This analysis should verify whether the LHX can be procured for an average unit flyaway cost of $5,300,000 in fiscal year 1984 dollars as currently projected by the Army.

The Army should also reexamine its plan to retain two airframe design teams for 18 months during the full scale development phase, should that phase be funded. The conferees agree that steps should be taken to determine the most efficient and cost effective means to design the competitive airframes in less time and to include this plan in the August 1, 1986 report.

Further Congressional approval of this program may be contingent on the establishment of a cost ceiling for the LHX to be derived from the data provided by August 1, 1986. If the Army fails to present a cost estimate that is attainable, the Committees will consider terminating the program in acting on the fiscal year 1987 request.

AIRCRAFT PROPULSION SYSTEMS

The conferees agree to provide $70,791,000 for Aircraft Propulsion Systems, as proposed by the House instead of $50,791,000 as proposed by the Senate.

The funds provided are for continued development of the T-800 engine. Army plans envision funding two contractor teams through the preliminary flight rating stage of LHX full-scale development. The Senate report directed that the down selection to one team should be made in fiscal year 1986. While sympathetic to the Senate view that this will reduce development costs, the conferees agree that insufficient data will be available for the Army to make an informed decision. The potential for far larger savings in the production phase will be increased by continuing competition for as long as possible in the development phase. Therefore, the conferees agree that the Senate directive is rescinded, and that down selection will not be required to take place in fiscal year 1986.

HELLFIRE ON BLACKHAWK

The conferees agree to provide $17,000,000 for Hellfire on Blackhawk, instead of $20,000,000 as proposed by the House or no funds as proposed by the Senate. The funds provided are to be used to complete remaining development tasks for arming Blackhawk helicopters with Hellfire missiles, to transition into low-rate initial production, and to procure the first lot of shipsets. Subsequent funding for procurement is to be included in the Aircraft Procurement, Army account.

Language has been provided in the bill specifying that $17,000,000 of Army RDT&E funds are available only for the purposes stated above.

FIELD ARTILLERY AMMUNITION

The conferees agree to provide $27,722,000 for Field Artillery Ammunition as proposed by the House, instead of $52,790,000 as proposed by the Senate. The funds are specified for projects within the program as follows:

D175—Field Artillery Fuzes	$6,501,000
D286—Field Artillery Ammunition (NATO)	221,000
D644—Generic SADARM	21,000,000

Funds for D652, Light Artillery Guided Projectile, are specifically denied.

Language concerning SADARM is provided above under Terminally Guided Projectiles.

ADVANCED FIELD ARTILLERY TACTICAL DATA SYSTEM

The Army has requested $35,574,000 for the continued development of the Advanced Field Artillery Tactical Data System (AFATDS). The conferees are fully supportive of the effort to upgrade Army's fire support command and control posture. However, improvements in the fielded systesm are of more immediate and primary concern.

As specified in the Defense Department-approved Mission Element Needs Statement (MENS), such improvements are to be accomplished in gradual step progression with proven technology toward the ultimate aim of achieving the advanced capabilities of the ultimate system. Plans to accomplish these goals must maximize the near-term capabilities of the Light Divisions in parallel with block improvements in the fielded systems of the Heavy Divisions. The current program therefore, must be returned to a more equitable balance between near term and long term objectives.

Accordingly, the conferees agree to provide $20,000,000 in RDT&E for the continued development of AFATDS, and $25,574,000 in procurement to maximize the fielded capability of the Light Divisions. The conferees support the on-going AFATDS software program through completion of the Concept Evaluation Phase (CEP) within the $49,500,000 contract ceiling established by the Army. The Army is directed to submit for approval of the Committees on Appropriations of the House and Senate a comprehensive program status report, detailed plans for achieving the objective system requirements, and a schedule for bringing AFATDS under the required ASARC/DSARC review process by August 1, 1986.

DIVAD ALTERNATIVES

The conferees agree to provide $41,000,000 for examination of alternatives for DIVAD instead of no funds as proposed by the House or the transfer of $176,000,000 of prior year funds as proposed by the Senate. Information provided by the Army indicated that evaluation of off-the-shelf alternatives would require $41,000,000. The conferees agree that such evaluation should take place as rapidly as possible, and direct the Army to complete that evaluation expeditiously.

ADVANCED COMPOSITE AIRFRAME PROGRAM

The conferees agree to provide no additional funds for the Advanced composite Airframe Program (ACAP) as proposed by the House, instead of $2,500,000 as proposed by the Senate. The conferees believe that ACAP is adequately funded under the Advanced Structures project, and note that ACAP funding will receive a considerable increase in FY 1987.

Should the Army desire to accelerate ACAP static and fatigue testing as proposed by the Senate during fiscal year 1986, it should submit a prior approval reprogramming.

CERAMIC ROTARY VALVES

The conferees agree to provide no funds for Ceramic Rotary Valves, but agree that the Army may use $870,000 of available RDT&E funds to initiate in fiscal year 1986 a follow-on test of a multi-cylinder engine using ceramic elements for rotating valves, provided that evaluation of the single-cylinder engine is favorable.

PRIOR YEAR SAVINGS

The conferees recognize $96,130,000 in prior year savings in Research, Development, Test and Evaluation, Army. The sources and uses of these savings are identified in this Statement of Managers under the heading "Availability of Unobligated Balances."

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

MEDICAL DEVELOPMENT (ADVANCED)

The conferees agree to provide $12,719,000 for Medical Development (Advanced) as proposed by the House instead of $14,653,000 as proposed by the Senate. The conferees note that Project M0097, Air Crew Impact Injury Prevention, continues to be of special interest to the Congress, and therefore the Navy is directed to allocate no less than $2,350,000 of this appropriation to this project in fiscal year 1986.

ORGANOTIN ANTI-FOULING PAINT

The conferees agree that no less than the budgeted amount of $1,695,000 be allocated by the Navy in fiscal year 1986 for continued research into the environmental and public health effects of organotin anti-fouling paint, as proposed by the House. The conferees believe that the effects of organotin on marine life have not been adequately determined, and consequently agree to a provision in the bill, as proposed by the Senate, which prohibits the navy from using such paints until the Environmental Protection Agency certifies that the environmental and public health risks are at an acceptable level.

TRIDENT II

The conferees agree to provide $2,117,106,000 for the Trident II/D-5 Weapon System program instead of $2,103,597,000 as proposed by the House and $2,130,615,000 as proposed by the Senate. The Navy is directed to allocate the reduction in such a way as to maintain the current schedule for missile flight testing. If this cannot be accomplished with available funds, the Navy should submit a reprogramming request.

The conferees endorse the proposal by the Senate to consolidate Navy and Air Force penetration aids research into a single, joint program. The conferees direct OSD to re-examine the feasibility of a joint Navy/Air Force penetration aids research program, and report to the Appropriations Committees of the House and Senate no later than June 1, 1986.

NAVY STRATEGIC COMMUNICATIONS

The conferees agree to provide $125,839,000 for Navy Strategic Communications as proposed by the Senate, instead of $119,161,000 as proposed by the House. The Navy is to allocate no less than $12,678,000 of this amount for the Strategic Survivable and Enduring Communications (STRATSEC) project.

WIS MODERNIZATION

The conferees agree to provide $15,000,000 for Navy participation in modernization of the Worldwide Military Command and Control System Information System (WIS) as proposed by the Senate instead of no funds as proposed by the House. The conferees also grant approval to Reprogramming No. 85-62PA, which proposed to use $14,000,000 from fiscal year 1985 apapropriated funds to initiate Navy participation in the program.

V-22 OSPREY

The conferees agree to provide $580,000,000 for the V-22 Osprey program, instead of $569,543,000 as proposed by the House and $583,743,000 as proposed by the Senate. Furthermore, the conferees understand that the Navy is considering the use of a fixed-price type contract for this work. The conferees endorse House language which concludes that significant technical risk remains in the V-22 program, and therefore urge the Navy to weigh carefully the risks involved in using a fixed-price contract in this case.

LOW COST ANTI-RADIATION SEEKER

The conferees agree to provide $17,523,000 as proposed by the House, instead of $16,523,000 as proposed by the Senate, for Low Cost Anti-Radiation Seeker (LCS) in Navy RDT&E, and $17,613,000 for Low Cost Seeker in Air Force RDT&E. The combined sum shall be applied only to the LCS development now being pursued by the Naval Weapons Center (NWC), China Lake, California. Language to this effect has been provided in the bill.

The conferees specifically endorse the language of House Report 99-332, page 308, pertaining to the LCS program. In addition, the conferees note with approval that the original program plan required the involvement of two competing contractors. It is clear that rapid technical progress and lower future costs demand continued competition. Accordingly, the conferees direct that NWC continue to execute a program involving two competing contractors.

AAAM/ASAM

The conferees agree to provide $25,000,000 for the Advanced Air-to-Air Missile/Advanced Surface-to-Air Missile program. The conferees also agree that the allocation of these funds should be as directed in the Senate report.

ADVANCED ASW TARGET

The conferees agree to provide $9,400,000 for Advanced ASW Target instead of $7,550,000 as proposed by the House and $12,646,000 as proposed by the Senate. The conferees endorse House language which emphasizes the need to accelerate development of an advanced torpedo testing target, and therefore direct that $3,000,000 of these funds be applied to accelerate development of the Advanced Stored Chemical Energy Propulsion System (AD-SCEPS).

SHIPBOARD DAMAGE CONTROL

The conferees recommend $23,606,000 for Shipboard Damage Control as proposed by the House, rather than $25,000,000 as proposed by the Senate. Further, the conferees endorse the Senate position on the EMPRESS II project (electromagnetic pulse radiation environment simulator for ships). The conference recommendation will fund EMPRESS II at the fiscal year 1985 level of effort.

SSN-21 BUDGETING

The conferees agree to House language directing the consolidation of program elements for the SSN-21 attack submarine, with the proviso that reactor development work may be excepted from the consolidation.

SHIP DEVELOPMENT (ADVANCED)

The conferees agree to provide $13,657,000 for Ship Development (Advanced), as proposed by both the House and the Senate. This amount involves a reduction of $982,000 as directed by the Department of Defense Authorization Act, 1986. However, the conferees do not agree to Senate languge directing that the reduction be applied specifically toward termination of the EMSEDE project, but instead allow the Navy flexibility to allocate the reduction.

ADVANCED LIGHTWEIGHT TORPEDO (ADVANCED)

The conferees agree to provide no funds for Advanced Lightweight Torpedo (Advanced) as proposed by the House, instead of $7,000,000 as proposed by the Senate. The ALWT (Advanced) program was proposed in fiscal year 1986 to initiate certain classified improvements to the ALWT warhead.

While the conferees are not opposed to incremental improvements to the ALWT, they are not inclined to start them in fiscal year 1986. The Navy should resubmit this program for funding in future years, and clearly define why ALWT warhead improvement is required for advanced threats.

TOMAHAWK THEATER MISSION PLANNING CENTER

The conferees agree to House language directing that the Tomahawk Theatre Mission Planning Center by fully funded at the budget level of $14,967,000, and that programming changes as described in the House report be instituted in the fiscal year 1987 budget.

AV-8B

The conferees agree to provide $66,000,000 for AV-8B instead of $55,178,000 as proposed by the House and $72,078,00 as proposed by the Senate. This reduction should be applied solely against the night attack

project and not against the TAV-8B or other efforts. Should the Navy require additional funds to execute this project during fiscal year 1986, the conferees would consider a reprogramming request.

CG-47 PRODUCT IMPROVEMENT

The conferees agree to provide $35,000,000 for CG-47 Product Improvement instead of $29,006,000 as proposed by the House and $44,506,000 as proposed by the Senate. The conferees also support House language which expresses concern over increase in cost and scope in the program. It appears that this expansion of effort is due to the Navy's desire to transition a number of improvements in the DDG-51 AEGIS Combat System to the CG-47. The conferees support the introduction of VLS, the SPY-1B radar, UYQ-21 consoles, and UYK-43B computers to the CG-47 class, and direct the Navy to allocate the reduction so that these programs are unaffected.

SUBMARINE HULL ARRAY DEVELOPMENT (ENGINEERING)

The conferees agree to provide $13,000,000 for Submarine Hull Array Development (Engineering) instead of no funds as proposed by the House and $25,974,000 as proposed by the Senate. The Navy is directed to apply the majority of these funds to continue advanced development; however, some funds may be used for full scale development (FSD) preparation. The conferees share the concerns expressed by the House that commitment to FSD should not occur prior to approval by the Defense Acquisition Review Council at Milestone II.

SSN-21 COMBAT SYSTEM

The conferees agree to provide $200,000,000 for the SSN-21 Combat System as proposed by the Senate instead of $60,000,000 as proposed by the House. This level of funding is proposed for the authorized program due to Navy concerns that funding reductions might cause shipbuilding delays.

The conferees strongly criticize both the Navy and the Office of the Secretary of Defense for the weak management evidenced in this program, and insist that the Department of Defense incorporate whatever changes are necessary to ensure that these problems do not recur in the future. The conferees expect stronger performance particularly in the areas of financial management and technical risk management.

SHIP SUBSYSTEMS DEVELOPMENT/LBTS

The conferees agree to provide $109,000,000 for Ship Subsystems Development/LBTS, instead of $80,000,000 as proposed by the House or $120,000,000 as proposed by the Senate. The Senate added $40,000,000 to continue competitive contract design for the SSN-21 New Design Attack Submarine program. The additional $29,000,000 provided for this program element above the authorization is solely for continuation of competitive contract design for the SSN-21 through the first three quarters of fiscal year 1986.

The Navy should submit a reprogramming during fiscal year 1986 to cover the balance of the funding requirement for this effort. Funds budgeted for other ship contract design programs are to be used solely for those programs, and not diverted to support SSN-21 competitive contract design, unless those ships are not included in the fiscal year 1987 budget submission.

The conferees agree to the Senate language directing that at least $5,000,000 be provided for an AO oiler design project. This will provide five AO-177 class oilers with a design enlargement from a 120,000-barrel capacity to a 180,000-barrel capacity.

SURFACE WARFARE TRAINING DEVICES

The conferees agree to provide $23,274,000 for Surface Warfare Training Devices as proposed by the Senate instead of $23,410,000 as proposed by the House. However, the conferees do not endorse Senate language specifically directing the deletion of funding for the Surface Tomahawk Trainer project. The Navy is provided the flexibility to allocate the reduction.

MARINE CORPS LIGHTWEIGHT BATTLEFIELD SURVEILLANCE RADAR

With regard to the Lightweight Battlefield Surveillance Radar (LBSR), the conferees direct that the Marine Corps review the suitability of the Air Force's in-development PPS-22 Intruder Detection System and report to the House and Senate Committees on Appropriations by June 15, 1986. The PPS-22 development is being managed by the Army and it appears that the PPS-22 modified would provide the Marine Corps with an earlier capability plus providing interservice interoperability and hardware commonality.

HY-130 STEEL

The conferees agree to provide no funds for HY-130 Steel as proposed by the House instead of $5,000,000 as proposed by the Senate. The conferees will consider a reprogramming if the Navy determines that acceleration would be desirable.

WALLOPS ISLAND TEST RANGE

The conferees agree to provide $4,000,000 for the Wallops Island Test Range as proposed by the House, instead of no funds as proposed by the Senate. However, the conferees believe that the Wallops Island Test Range could be more efficiently utilized to support Navy test and evaluation activities. Prior to the obligation or expenditure of these additional funds, the Navy and NASA should submit to the Committees on Appropriations of the House and Senate a utilization plan for this expansion in Navy test and evaluation activity.

TAIL CONTROL SPARROW

The conferees agree to provide $5,000,000 for the Tail Control Sparrow as proposed by the House, instead of no funds as proposed by the Senate. These funds are to be used for guidance and ECCM improvements to the Sparrow missile.

The conferees acknowledge the potential application of generic low cost radiation seeker technology to the Sparrow airframe, for use of Sparrow as a dual-role anti-radiation missile. The conferees are willing to entertain a fiscal year 1986 reprogramming action to initiate such a program.

WHITEHALL QUICK REACTION SURVEILLANCE SYSTEM

The conferees agree to provide $20,000,000 for Whitehall Quick Reaction Surveillance System as proposed by the House instead of no funds as proposed by the Senate. These funds are for the first year of a three year lease, on a turnkey basis, of four systems together with vessels and crews. The conferees direct the Navy to enter into a lease arrangement not later than February 28, 1986, instead of December 31, 1985 as originally directed by the House.

CENTER FOR NAVAL ANALYSES

The conferees agree to provide $17,500,000 for the Center for Naval Analyses, instead of $15,563,000 as proposed by the House or $19,813,000 as proposed by the Senate. The conferees also agree that the Navy should submit a prior approval reprogramming to Congress should this level of funding prove inadequate.

ADVANCED CHEMICAL WEAPONS RESEARCH

The conferees direct the Navy and Air Force to report to the House and Senate Committees on Appropriations on their plans for undertaking research into future binary chemical munitions delivery mechanisms by March 15, 1986. After that date, the Committees would entertain a reprogramming request to implement such a plan.

PRIOR YEAR SAVINGS

The conferees recognize $188,000,000 in prior year savings in Research, Development, Test and Evaluation, Navy. The sources and uses of these savings are identified in this Statement of Managers under the heading "Availability of Unobligated Balances."

MANUFACTURING TECHNOLOGY

LASER ARTICULATING ROBOTIC SYSTEM

The conferees agree with the House directives concerning the Laser Articulating Robotic System (LARS), and agree that of the funds provided for P.E. 7.80.11N, Manufacturing Technology, a total of $5,500,000 be provided for the LARS program. Language has been provided in the bill to this effect.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

The conferees agree to the following amounts for Research, Development, Test and Evaluation, Air Force:

[In thousands of dollars]

	Budget	House	Senate	Conference
RESEARCH DEVELOPMENT TEST AND EVAL, AF				
TECHNOLOGY BASE:

TOTAL FUNDING AVAILABLE	15,578,500	13,576,177	14,117,113	13,718,208

DEFENSE RESEARCH SCIENCES

The conferees agree to provide $206,000,000 for Defense Research Sciences, of which $6,500,000 shall be used only for research and related purposes at Iowa State University.

VERY HIGH SPEED INTEGRATED CIRCUITS

The conferees agree to provide $207,276,000 for Very High Speed Integrated Circuits, of which $13,500,000 shall be used only for engineering research and related purposes at Northeastern University in Massachusetts.

ICBM MODERNIZATION

The conferees agree to provide $1,480,800,000 for ICBM Modernization, instead of $1,483,600,000 as proposed by the House and $1,274,824,000 as proposed by the Senate. The approved distribution of ICBM modernization funds is provided below:

Peacekeeper	$734,100,000
Small ICMB	624,500,000
Hard Silo Technology	102,200,000
Deep Basing	20,000,000

The conferees direct the Air Force to submit to the Appropriations Committees of the House and Senate a full accounting of all small ICBM guidance funds and contracts, and also the report requested by the Senate on the requirement for maintenance

of three alternative guidance contracts during FY 1986. Senate language prohibiting the obligation or expenditure of funds on one of the three alternate guidance systems is modified to permit obligation, but not expenditure, of such funds until this report is submitted.

The conferees agree to provide $102,200,000 for Hard Silo Technology, as proposed by the Senate, instead of $70,000,000 as proposed by the House. Of the additional $32,200,000 provided for Hard Silo Technology above the House allotment, $17,200,000 is for additional risk reduction and test bed restoration tasks described in the Senate report. A total of $15,000,000 is solely for construction, test and evaluation of a double-walled cofferdam constructed of reinforced slipform concrete, as described in the House report. The evaluation effort should be conducted in accordance with the direction provided in the House report, except that the Air Force shall be the planing and management agent for the program. No funds for this project are to be drawn from the Defense Nuclear Agency appropriation.

NCMC/SPACE DEFENSE SYSTEMS

The conferees agree to provide $57,996,000 for NCMC/Space Defense Systems as proposed by the House, instead of $62,996,000 as proposed by the Senate. This program funds both the Mission Control Center (MCC) for the U.S. Anti-Satellite (ASAT) system and also the operation of the Prototype Mission Operations Center (PMOC) which supports the U.S. ASAT test program.

The conferees agree that this reduction shall be applied against the mission control center, and that the MCC should not be funded at this time.

ASAT TESTING

The conferees agree to the House position that no fiscal year 1986 funds are to be used for testing of anti-satellite weapons against objects in space. Bill language has been provided which further prohibits obligation or expenditure of funds provided by this or any other Act for such testing until the President certifies to Congress that the Soviet Union has conducted after October 3, 1985, a test against an object in space of a dedicated anti-satellite weapon.

ADVANCED TACTICAL FIGHTER

INEWS/ICNIA PROGRAM

The conferees agree to provide $169,852,000 for the Advanced Tactical Fighter (ATF) as proposed by the House, instead of $140,000,000 as proposed by the Senate. The confereees agree to provide $140,000,000 for the Joint Advanced Fighter Engine (JAFE) program, $16,852,000 for the airframe demonstration/validation effort and $13,000,000 for avionics development, to include PAVE PILLAR and VHSIC technology insertion.

The conferees endorse the position of the Senate that cost, as well as technology, must be given priority attention in the development of the ATF. The conferees support the decision of the Air Force to adopt a unit flyaway cost goal of $35,000,000 for ATF, expressed in 1985 dollars, and admonish the Air Force to hold to that goal. The conferees agree to the Senate position directing the submission of an annual report on ATF developmental and total acquisition costs, beginning with the FY 1987 budget submission.

Following completion of the defense authorization, the Air Force informed the appropriations committees that it intended to fund ATF avionics devleopment (including Pave Pillar and VHSIC technology insertion) out of the newly created INEWS/ICNI program, rather than from the ATF program. Further, it was learned that the Air Force proposed funding two new projects within the ATF authorization not previously identified as requirements in the FY 1986 budget submission—AMRAAM Compressed Carriage Demonstration (ACCD) and radar/EO sensor, at $4,000,000 each.

The conferees object to the Air Force's funding ATF avionics development outside the ATF line item. The conferees direct that $13,000,000 for ATF avionics development be funded out of the ATF line item, and that no funds be provided for the ACCD and radar/EO projects.

The conferees have funded INEWS/ICNIA at $45,000,000 instead of $60,000,000 as proposed by the House and $32,767,000 as proposed by the Senate. The change from the authorized level of funding reflects the transfer of ATF avionics development funds back to the ATF line item.

The conferees agree to a general reduction of $30,000,000 against Air Force electronic warfare programs, as authorized, and a general reduction of $15,000,000 against Navy electronic warfare programs. The conferees note that the authorization made no provision for a Navy portion of INEWS/ICNIA funds. In light of that oversight, the conferees recommend a smaller general reduction against Navy electronic warfare programs of $15,000,000.

F-4 AIR DEFENSE

The conferees agree to provide $15,000,000 for F-4 Air Defense, instead of $22,000,000 as proposed by the House or no funds as proposed by the Senate. These funds are to be used only for developing F-4 avionics upgrades. The conferees direct the Air Force to study and report on the cost effectiveness of reengining the F-4. Should the results be favorable, the Committees on Appropriations will entertain a reprogramming request.

DEFENSE METEOROLOGICAL SATELLITE PROGRAM

The conferees agree to provide $56,309,000 for the Defense Meteorological Satellite Program (DMSP) as proposed by the House, instead of $61,309,000 as proposed by the Senate. The conferees understand that the full authorization for the program is required to deliver DMSP satellite S-15 in FY 1990, the prototype Block 5D-3 satellite.

Should the Air Force insist that the survivability upgrades proposed for DMSP are essential, and that its outyear space launch program will include the transition of the DMSP from the Atlas E to the Titan II launch vehicle, the conferees would be willing to entertain a reprogramming to keep the S-15 available for launch in FY 1990 on a Titan II.

"ASSESSMENTS" IN RDT&E

DEVELOPMENT PLANNING ACTIVITIES

The conferees agree to a general reduction of $10,000,000 against "assessments" made by the Air Force against RDT&E programs to fund development planning activities, instead of $25,000,000 as proposed by the House. The conferees direct the Air Force to place the balance of $15,000,000 which would have been "assessed" into a new separate program element for development planning activities. These activities must be budgeted and justified on their merits in future years. The conferees concur in the House directive which requires a report on the distribution of pro rata reductions.

I-S/A AMPE

The conferees agree with the House funding level of $31,400,000 for Inter-Service/Agency Automated Message Processing Equipment (I-S/A AMPE), and the transfer of the program from Operation and Maintenance to RDT&E, Air Force. The Senate report expressed concern with the Air Force decision to award only one contract for this program. Therefore, the conferees direct the Department of Defense Inspector General to conduct a thorough review of the propriety of the Air Force's action, and the feasibility and life-cycle cost effectiveness of awarding a second contract. The findings of this study should be reported to the Committees on Appropriations of the House and the Senate no later than March 15, 1986. The conferees further direct the Secretary of Defense to develop a firm I-S/A AMPE 8-year funding profile to be submitted by March 15, 1986. The conferees agree that these directives shall not impact upon the ongoing contract efforts.

PRIOR YEAR SAVINGS

The conferees recognize $264,000,000 in prior year savings in Research, Development, Test and Evaluation, Air Force. The sources and uses of these savings are identified in this Statement of Managers under the heading "Availability of Unobligated Balances."

ADVANCED CHEMICAL WEAPONS RESEARCH

The conferees direct the Navy and Air Force to report to the House and Senate Committees on Appropriations on their plans for undertaking research into future binary chemical munitions delivery mechanisms by March 15, 1986. After that date, the Committees would entertain a reprogramming request to implement such a plan.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE AGENCIES

The conferees agree to the following amounts for Research, Development, Test and Evaluation, Defense Agencies:

[In thousands of dollars]

	Budget	House	Senate	Conference

DEFENSE RESEARCH SCIENCES

The conferees agree to provide $92,000,000 for Defense Research Sciences, of which $1,000,000 shall be used only for advanced semiconductor research at the Oregon Graduate Center, $1,000,000 shall be used only for research at Oklahoma State University, and $5,000,000 shall be used only for development and acquisition, and related activities, of a supercomputer with capabilities equal to or better than those of the Tesseract model parallel supercomputer, being developed by Floating Point Systems for use in basic research at Cornell University.

DEFENSE NUCLEAR AGENCY

The conferees agree to provide $373,550,000 for Defense Nuclear Agency, of which $5,000,000 is to be used for development and acquisition, and related activities, of a supercomputer with capabilities equal or better than those of the Tesseract model parallel supercomputer, being developed by Floating Point Systems for use in basic research at Cornell University; and of which $11,100,000 shall be used only for microelectronic engineering and imaging sciences, and related purposes, at the Rochester Institute of Technology, Rochester, New York.

STRATEGIC AND TACTICAL TECHNOLOGY

The conferees believe strategic air and cruise missile (SACM) defense and integrated ASW are important to a balanced strategic defense. Requested resources for these efforts outlined in DARPA descriptive summaries for program elements 62301E and 62702E are to be used only for those purposes and should not be shifted to any competing SDI priorities. The conferees believe as much as $10,000 additional could be effectively utilized for SACM and integrated ASW should resources be available and should be continued at the level in fiscal year 1987.

STRATEGIC DEFENSE INITIATIVE

The conferees agree to provide $2,750,000,000 for the Strategic Defense Initiative (SDI) instead of $2,500,000,000 as proposed by the House and $2,962,962,000 as proposed by the Senate. The conferees also agree to provide, separate from these amounts, $9,222,000 for SDI Headquarters Management as proposed by the House instead of $9,000,000 as proposed by the Senate.

In addition, the conferees agree that the Department of Defense should not establish quotas, goals, or allocations as funding set-asides for offshore vendors concerning SDI research, and that whenever possible, SDI contracts should be awarded to U.S. contractors, subcontractors, and vendors, subject to the merit of these proposals. However, it is the sense of the Congress to encourage Allied participation in the SDI program on a competitive basis. These provisions, as proposed by the Senate, have been included in the bill.

SDI STUDIES AND ANALYSIS

The conferees note that the Office of Technology assessment (OTA) has been conducting studies and analysis on the Strategic Defense Initiative at the request of the Congress. OTA has conducted reviews of the SDI research program, and issued reports on their findings pursuant to Congressional direction.

OTA will continue to study and review the SDI program, and is funded to do so under legislative branch appropriations. The conferees encourage OTA to continue the valuable work they are providing the Congress on the SDI research program.

The conferees agree to amend the House requirement for a study on SDI to be conducted by the National Academy of Sciences, and instead direct OTA to conduct this study. The study shall include an analysis of the feasibility of meeting SDI computer software requirements. Language has been provided in the bill specifying that $700,000 for this study shall be made available from funds provided for RDT&E, Defense Agencies.

MANAGEMENT SAVINGS BY SECRETARY OF DEFENSE

On May 14, 1985 the Secretary of Defense recommended a reduction of $100,000,000 to the Research, Development, Test and Evaluation, Defense Agencies funding already available in fiscal year 1985 as an offset against his fiscal year 1986 request. The Secretary stated that "savings of this nature are usually identified in the normal course of consideration of the Department's budget by the Congress and are reflected as legitimate financing adjustments in the appropriation bill."

The Secretary has since indicated that the allocation of this reduction to the National Security Agency by the House is incorrect. The conferees therefore agree that the reduction is not to be applied to NSA funding. Rather, it is reflected temporarily as a general reduction to the Research, Development, Test and Evaluation, Defense Agencies account with the understanding that the Secretary must submit a prior approval reprogramming specifying the source of the appropriations and management savings which will offset this unallocated cut to the Research, Development, Test and Evaluation, Defense Agencies account.

PRIOR YEAR SAVINGS

The conferees recognize $82,000,000 in prior year savings in Research, Development, Test and Evaluation, Defense Agencies. The sources and uses of these savings are identified in this Statement of Managers under the heading "Availability of Unobligated Balances."

TITLE VI—REVOLVING AND MANAGEMENT FUNDS

The conferees agree to the following amounts for the revolving and management fund accounts:

[In thousands of dollars]

	Budget	House	Senate	Conference
Revolving and Management Funds:				
ARMY STOCK FUND	442,000	393,000	393,000	393,000
NAVY STOCK FUND	716,500	616,500	638,500	638,500
MARINE CORPS STOCK FUND	42,700	37,700	37,700	37,700
AIR FORCE STOCK FUND	464,900	415,900	415,900	415,900
DEFENSE STOCK FUND	193,500	149,700	174,500	149,700
MARINER FUND			(852,100)	
ADP EQUIPMENT MANAGEMENT FUND			150,000	100,000
TOTAL, REVOLVING AND MANAGEMENT FUNDS	1,859,600	1,612,800	1,809,600	1,734,800
TRANSFER FROM OTHER ACCOUNTS			(852,100)	
TOTAL FUNDING AVAILABLE	1,859,600	1,612,800	2,661,700	1,734,800

The following items represent language as agreed to by the conferees:

ARMY STOCK FUND

The conferees agree to provide $393,000,000 as recommended by the House and the Senate.

NAVY STOCK FUND

The conferees agree to provide $638,500,000 as recommended by the Senate instead of $616,500,000 as recommended by the House.

The conferees agree with the Senate recommendation to make available $59,000,000 from within Navy Stock Fund peacetime inventory build funds to procure supplies for the Reserve Naval Construction Force.

MARINE CORPS STOCK FUND

The conferees agree to provide $37,700,000 as recommended by the House and the Senate.

DEFENSE STOCK FUND

The conferees agree to provide $149,700,000 as recommended by the House instead of $174,500,000 as recommended by the Senate.

AIR FORCE STOCK FUND

The conferees agree to provide $415,900,000 as recommended by the House and the Senate.

MARINER FUND

The conferees agree to delete the Mariner Fund account proposed by the Senate. Instead, Section 8103 dedicates $852,100,000 as a portion of the prior year unobligated balances, and makes obligations contingent upon enactment of authorizing legislation and subsequent review by the Appropriations Committees. This matter is further explored under the heading "Availability of Unobligated Balances" in the General Provisions section of this statement.

ADP EQUIPMENT MANAGEMENT FUND

The conferees agree to provide $100,000,000 instead of the $150,000,000 as recommended by the Senate. Details of the adjustments are as follows:

MANAGEMENT OF GENERAL PURPOSE AUTOMATIC DATA PROCESSING RESOURCES

The conferees agree that the House and Senate have identified persisting problems with the Defense Department's management of ADP resources. They stem from deficiencies of both a management and fiscal nature.

Management Reforms.—The conferees agree that management of general purpose automatic data processing resources, including those covered by the Warner amendment, should be immediately consolidated under the policy oversight of the Comptroller of the Defense Department. The Comptroller must demonstrate during the fiscal year 1987 appropriation hearings that aggressive action is being taken to address concerns raised by the Appropriations Committees related to the management of these resources. The conferees recognize that Department-wide participation is necessary, but the Comptroller should enforce standards and policies through the Major Automated Information System Review Council. The House agrees to waive the following Defense Department reporting requirements to the Congress since the Comptroller is expected to develop the necessary internal management tools to accomplish the objectives of the House report: delegation of oversight authority, new starts of major automated information systems, logistics systems, lease/purchase criteria, buyout of uneconomical ADP leases funded in operating appropriations, buyout of uneconomically leased office automation equipment, Pentagon automation, ADP acquisition training, local area networks, and software obsolescence. The Secretary of Defense should report by April 15, 1986 on the Defense Department's implementation of the management system to achieve these objectives.

The conferees agree to the House reporting requirements pertaining to automated logistics systems, collocation of ADP and telecommunications centers, and supercomputers. The conferees expect the Comptroller to make a good faith effort to improve ADP budget justification material submitted with the fiscal year 1987 budget, and to work with the Appropriations Committee staffs to achieve complete and standard justification for the fiscal year 1988 budget. The conferees also agree to the House language on TRIMIS, DEERS, ADPER, CAMIS, NALCOMIS, NICADMM, Phase IV, and AFLC Modernization.

Fiscal Reforms.—The Senate proposed establishment of a DoD ADP management fund in an attempt to redress financial disincentives which currently adversely affect cost effective acquisition of DoD ADP equipment. The conferees agree both to establishment of an ADP management fund, to be initially capitalized at $100,000,000, and to a general provision allowing DoD to move funds between appropriations in order to achieve the Congressional mandate that DoD general purpose ADP equipment be acquired in the most cost-effective manner. This DoD fund and attendant transfer authority in the general provision must be managed by the Office of the Secretary of Defense as envisioned by the Senate report. It cannot be delegated. The Department must ensure that a properly documented audit trail exists for all resources consumed using these authorities, to ensure strict internal control of resources and to facilitate future Congressional evaluation of the effectiveness of these initiatives. The Secretary of Defense should include a recommendation for continuation or termination of the management fund and its attendant transfer authority to accompany submission of the fiscal year 1989 budget to Congress.

The conferees direct that each service apply the necessary amount of procurement funds in fiscal year 1986 to meet programmed requirements of the Congressionally directed buyout of uneconomically leased ADP equipment funded in the Operation and Maintenance appropriations. Further, the conferees direct that no funds will be diverted from the buyout of uneconomical leases for other purposes or programs. The Department should also use the newly created ADP management fund and attendant transfer authority to ensure that uneconomical ADP leasing in any DoD appropriation or fund ceases.

TITLE VII—RELATED AGENCIES

INTELLIGENCE COMMUNITY STAFF

The conferees agree to provide $22,083,000 for the Intelligence Community Staff as proposed by the House instead of $22,283,000 as proposed by the Senate.

TITLE VIII—GENERAL PROVISIONS

The conferees agree to the following language in the General Provisions:

RESTRICTIONS ON SUPPORT FOR MILITARY OR PARAMILITARY OPERATIONS IN NICARAGUA

The House bill contained a provision (Sec. 8050) prohibiting material assistance to the Nicaraguan democratic resistance by the Central Intelligence Agency, the Department of Defense, or any other entity of the United States government involved in intelligence activities. The House provision also stated that this prohibition did not impair or effect the authority of the Nicaraguan Humanitarian Assistance Office to administer humanitarian assistance to the Nicaraguan democratic resistance under the terms and conditions specified in the Supplemental Appropriations Act, 1985 (P.L. 99-88). The Senate bill did not include any type of prohibition concerning funds for Nicaragua, relying on restrictions in the authorizing Act.

The conferees have included new language (Sec. 8050) which prohibits the expenditure of any funds or the providing of any assistance to the Nicaraguan democratic resistance other than to the extent provided for and under the terms and conditions specified by Section 105 of the Intelligence Authorization Act (P.L. 99-169) for fiscal year 1986. This provision permits the exchange of information with the Nicaraguan democratic resistance and permits a specified classified amount of funds for communications equipment and related training for the Nicaraguan democratic resistance. The conferees also note that this section will not impair or affect the authority of the Nicaraguan Humanitarian Assistance Office to administer humanitarian assistance to the Nicaraguan democratic resistance.

FORT DERUSSY

The House included a provision prohibiting the sale, lease, rental or excessing of any portion of Fort DeRussy, Honolulu, Hawaii. The Senate included a provision permitting the sale of up to 45 acres of land on Fort DeRussy to the city or county of Honolulu or the state of Hawaii. The conferees agreed with the House provision (Sec. 8055).

However, the conferees agree that the Department of Defense should study the availability of excess land on Fort DeRussy and the possible civic (non-commercial) uses the property could support. The Department should report to the cognizant congressional committees by April 15, 1986, after which those committees are urged to take action on the sale of the property.

UNEMPLOYMENT COMPENSATION

The conferees agree to a general provision (Sec. 8057) that limits payments to the Department of Labor for unemployment compensation costs to $166,766,000, instead of the House limitation of $189,300,000 and the Senate limitation of $171,300,000.

DISTRICT HEATING

The conferees agree to the Senate provision on district heating (Sec. 8070). This provision provides an exception to allow the conversion or consolidation of heating facilities to district heating distribution systems at Bad Kissingen, Hessen, in the Federal Republic of Germany. The conferees reached the decision only with the understanding that the Department would immediately initiate the conversion of coal of steam plants in the CONUS, as discussed elsewhere in this report.

LOCAL HIRE

The conferees agree to the Senate general provision (Sec. 8078) with an amendment stating the provision should be in effect only in fiscal year 1986. Further, the conferees agree that on union contract jobs a worker released by the union should be considered a resident of Alaska.

CHAMPUS HOME HEALTH CARE

The conferees agree to the general provision (Sec. 8084) included in the House bill with clarifying language which stipulates this program will cover home health care when CHAMPUS determines it is more cost effective than care which would otherwise be covered by CHAMPUS in medical facilities.

The conferees want it to be clear the intent of the provision is to save funds by identifying the most cost effective means for health care coverage to be provided by the government. Further, the conferees agree this will be a two year test and should not be considered a permanent change in CHAMPUS benefits.

READY RESERVE TUITION ASSISTANCE

The conferees agree to the Senate provision (Sec. 8086) on tuition assistance for the Ready Reserve. The conferees agree that the purpose of this tuition assistance is to provide for part-time education and degree programs, and should not be used for full-time degree programs which are provided by the Veterans Administration through GI Bill benefits.

ARMY LANDS CONVEYANCE

The conferees agree to Senate bill language (Sec. 8092) which directs that a sanitary landfill site on Fort Richardson in Alaska be conveyed to the Municipality of Anchorage if the site is declared excess to the needs of the Army. The language agreed to by the conferees is intended only to ensure that the landfill site, if excessed, is conveyed to the Municipality of Anchorage as public interest land. It has no bearing on any dispute over the legal effect of other provisions of the public interest lands section of the North Anchorage Land Agreement (NALA)—including the allocation of subsurface revenues among various native corporations.

DEBRIS REMOVAL

The Senate included a general provision which allows the removal of unsafe and unsightly buildings and debris from sites formerly used by the Department of Defense. The House did not address this issue. The conferees agree to a general provision (Sec. 8096) that allows the removal of unsafe buildings or debris, provided that it is done before the property leaves federal government control, unless the property is owned by a state or local government or native corporations.

SALE OF ALCOHOLIC BEVERAGES

The conferees agree to the Senate provision (Sec. 8099) which requires the Department to procure alcoholic beverages from the states in which Defense installations are located.

DEPENDENT STUDENTS TRAVEL

The Senate included a general provision (Sec. 8101) which places a limitation on the amount of funds available for Dependent Student Travel, and also denies travel under this program in the continental United States. The House removed this provision from its bill. The Conferees agree to continue the limitation at $4,700,000, but have deleted the CONUS travel restrictions.

AVAILABILITY OF UNOBLIGATED BALANCES

The conferees agree to set aside prior year unobligated balances of appropriations and to designate them for known and anticipated requirements of the Department of Defense. Under prescribed procedures, these unobligated balances totaling $6,306,906,000 may be transferred by the Secretary of Defense to the major appropriation accounts and obligated only upon 15-day prior notification to the House and Senate Appropriations Committees only for the following purposes:

1. Payment of the October 1, 1985, military pay raise.

2. Payments to the military retirement trust fund as may be required, based on anticipated legislative changes, in excess of appropriations contained in the Military Personnel accounts.

3. Such obligations as may be authorized by Congress from the Mariner Fund program.

4. Obligations to supplement the Coastal Defense Augmentation account for which $235,000,000 is additionally appropriated elsewhere in the bill.

5. Additional obligations in support of conventional forces readiness in the military Operation and Maintenance accounts.

Section 8103 of the bill also provides that the availability of these unobligated balances is not extended beyond the time period specified when they were appropriated.

In notifying the Appropriations Committees of intent to transfer and obligate any prior year balances under this authority, the conferees instruct the Secretary to adhere to established reprogramming procedures. In this respect, full budget justifications should be submitted and, when required, additional time granted if needed by the Committees to permit adequate review and analysis and, if necessary, hearings on requirements and both programmatic and budgetary impacts.

The estimated costs of the October 1, 1985, military pay raise will be a clear requirement covered by the unobligated balances setaside. Estimated costs are $1,887,000,000, but the conferees will expect the Department of Defense to absorb as much of this cost as possible with the reduced budget resources available to it for fiscal year 1986—resources that will be reduced further under deficit reduction legislation just enacted by Congress.

The conferees recognize there may be substantial funding adjustments established by retirement reform legislation that may be enacted in the 99th Congress. Savings were anticipated by Congress in its passage of the fiscal year 1986 Defense Authorization Act based on proposals for these military retirement changes. That Act established ceilings on the military personnel accounts reflecting estimated cost savings, and funding in the accompanying Defense Appropriations Bill conforms to those limitations. It is not possible at this juncture to determine the cost effects of the eventual retirement reform legislation.

Accordingly, the conferees have included a provision as proposed by the Senate that requires a reduction in military personnel account obligations after May 1, 1985, to achieve a spending rate that will not exceed the obligation ceilings of the authorization act. Such reductions would require substantial personnel cuts in the absence of the anticipated legislation affecting retirement payment savings.

The conferees agree that none of the unobligated balances should be used in any manner to offset reductions applied to appropriations in compliance with the Balanced Budget and Emergency Deficit Reduction Act of 1985, and have included language in Section 8103 to accomplish that purpose.

The following table details the program sources of prior year unobligated balances:

Appropriation and Line Item	*Amount*
Aircraft Procurement, Army, 1985/1987:	
EH-60	$64,300,000
AH-1S	20,000,000

MARINER FUND

The conferees agree to designate within the set-aside for unobligated balances that $852,100,000 shall be available for a revolving Mariner Fund for the construction and lease of cargo vessels configured for the military sealift mission. No funds could be transferred to the Mariner Fund nor obligated for any purpose without enactment by Congress of legislation establishing the Mariner fund program. Further, no funds could be obligated without notice to the House and Senate Appropriations Committees and after a 60-day review period following that notification.

It is the conferees' intent that, in the event of enabling legislation, the Appropriations Committees will have ample time to conduct hearings and otherwise review and approve any obligations for ship construction under the Mariner Fund mechanism.

The conferees endorse the goal of establishing a modern sealift fleet, operating under revenue-producing charters and immediately available for military use in event of emergencies. However, full Congressional review at both the authorization and appropriations level is essential to assure the most cost-effective use of any funds made available to the Mariner Fund.

The concept of this build and charter program is patterned after President Eisenhower's Mariner program to construct ships for commercial operation which may be used for military sealift. This is a cost effective alternative to the construction of ships which are placed in an inactive status with the Ready Reserve Fleet. The Navy has been procuring used commercial vessels for retention in the inactive fleet, but the supply of militarily useful ships is dwindling. Although there is an excess of commercial tonnage on the world economy today, there is a severe shortage of vessels which are of the size, capacity and speed requirements for military sealift needs. Consequently, the Navy would be responsible for administering the Fund and selecting the types of vessels to be built under the Mariner Fund which maximize military utility while retaining commercial cost effectiveness features. Subsequent to the enactment of the authorizing legislation, but prior to obligation of funds, the Navy is required to provide a report to the Appropriations Committees on the types of vessels selected.

In addition to the $852,100,000 which may be made available, the authorizing legislation should identify the source of other revenues to maintain the program. Specifically, the legislation should provide for the lease of vessels constructed to the bidder of the highest competitive lease payment to the Fund. Similarly, construction contracts should be competitively awarded to the lowest bidder. In addition, such revenues as may accrue from repayment of construction differential subsidies should be permitted by the authorizing legislation to revert to the Mariner Fund. Consideration should also be given to the use of funds from the sale of such vessels constructed under the Mariner Fund, provided that the ships are at least five years old prior to sale.

After authorization is enacted, no funds shall be obligated until 60 days after notification to the House and Senate Appropriations Committees of the Navy's intent to incur contract obligations. The conferees direct that the following shipbuilding funds are not to be obligated without such approval. Although previously identified as a portion of the unobligated balances earlier in this statement, these funds are specifically earmarked for the Mariner Fund.

Shipbuilding and conversion, Navy

Fiscal Year 1983:	
Trident Submarine	$134,900,000
CVN Aircraft Carrier	304,000,000
CG-47 Cruiser	163,200,000
FFG-7 Frigate	20,100,000
Service Craft	4,000,000
Fiscal Year 1984: Trident Submarine	151,900,000
Fiscal Year 1985: DDG-51 Destroyer	74,000,000
Total	852,100,000

COASTAL DEFENSE AUGMENTATION

The conferees agree to designate $140,000,000 of the unobligated balances for the Coastal Defense Augmentation account, supplementing the $235,000,000 appropriated in that account. The total funding of $375,000,000 shall be applied as discussed in the Coastal Defense Augmentation section of the Statement of the Managers.

INTERPORT DIFFERENTIAL

The Senate continued the provision (Sec. 8104) first included in the fiscal year 1985 Supplemental which prohibits the Navy from considering charges for interport differentials as an evaluation factor for ship repair contract awards. The House did not include this provision. The conferees believe there is insufficient data available to determine whether the use of the differential is appropriate. The conferees direct the Department to initiate a test through fiscal year 1986 to determine the effects of the differential on competition and the cost of ship repair. To that end the conferees have agreed to apply the prohibition against use of the interport differential to the West coast only. This action will allow the Navy to compare results on the West coast, without the differential, against those of the East and Gulf coasts with the differential.

GUNTER AIR FORCE BASE PRINTING PRESS

The conferees agree with the Senate position and include a provision (Sec. 8105) prohibiting funding for the installation, maintenance and operation of the printing press recently purchased for the Guner Air Force Base. The conferees direct that the Air Force report to the House and Senate Appropriations Committees by February 1, 1986, on how it will dispose of the printing press.

COMMAND STRUCTURE

The conferees are concerned with recent decisions to reorganize headquarters commands without full congressional consultation prior to approval. This is especially disconcerting when it results in additional bureaucratic layers. However, the conferees agree to delete that portion of the Senate general provisions which restricts funding of the reorganized Atlantic Command because of the danger of disrupting operations of the Command. The conferees agree to prohibit the alteration of the present structure of U.S. military forces in Alaska as proposed by the Senate (Sec. 8107).

CONVERSION OF DOMESTIC MILITARY FACILITIES TO COAL-BURNING FACILITIES

The conferees agree to a new general provision (Sec. 8110) on the use of coal in the United States. Specifically, in order to fully promote greater reliance on domestic energy resources, the conferees direct the Department of Defense to implement immediately its proposal to rehabilitate and convert current steam generating plants at defense facilities in the United States to coal burning facilities. This is directed in order to achieve a coal consumption target of 1,600,000 short tons of coal per year above current consumption levels at DoD facilities in the United States by fiscal year 1994. Further, the conferees direct that anthracite or bituminous coal shall be the source of energy at such installations.

During the implementation of this proposal, the amount of anthracite coal purchased by the Department shall remain at least at the current annual purchase level, 302,000 short tons. In order to maintain this level, the Department shall begin immediate stockpiling within the continental United States, and it shall vigorously pursue those rehabilitation projects which can convert to anthracite coal usage.

The Conferees direct that $25,000,000 in the Army Industrial Fund shall be available to initiate this conversion proposal. Moreover, the Department shall have the authority to fund from within this amount any expenses incurred in the administrative support of this effort. The Conferees further direct the department to present a comprehensive plan for this coal conversion proposal and to include appropriate funding in future budget submissions.

TITAN II EXPENDABLE LAUNCH VEHICLES

The conferees agrees that the joint DOD-NASA determination of which Department of Defense payloads will be launched on Titan II expendable launch vehicles will be made and reported to the Congress within 180 days of enactment. (Sec. 8111)

PROCUREMENT REFORM

The House bill contained general provisions for procurement reforms in the areas of allowable costs, cost and price management ("should cost"), revolving door, and dual sourcing. The provisions were intended to expand upon and strengthen the legislation dealing with these issues that was passed by Congress in the fiscal year 1986 Department of Defense Authorization Act. The conferees agree with the goals of procurement reform legislation, which are to increase competition and lower the costs of defense acquisition. However, neither Committee conducted hearings on these issues during the year. While recognizing that there may be ways to improve the Authorization legislation as it was enacted this year, the conferees could not agree on specific approaches during the limited time that was available in the appropriations conference, except in the area of allowable costs.

The conferees agree with the Armed Services Committees that the Department of Defense needs to improve its management of allowable costs charged to defense contracts. The conferees further understand the Department's need for flexibility as it implements regulations to comply with the authorization legislation. The conferees have included bill language which strengthens the authorization legislation in two key areas. First, the conferees now require by law that the Department inform certain congressional committees on its definitions, exclusions, limitations, and qualifications pertaining to allowable costs prior to their publication in defense policy regulations. This allows the Congress to participate with the Department as it implements the new authorization legislation. Second, the conferees have directed the Comptroller General to actively evaluate on a recurring basis the effectiveness of the Department's policies in actually eliminating unallowable costs charged to defense contracts.

The conferees expect that the Defense Department, with Comptroller General participation, will be able to eliminate unfair and unallowable costs in defense procurements in the near term. The conferees strongly urge the Armed Services Committees at the earliest practical date to consider means for further strengthening the existing procurement reform legislation in the Authorization Act in light of the concerns addressed in the House passed appropriation bill.

The conferees stress that the acceptance of this legislative provision that had already been considered and dealt with in the normal authorization process shall not be considered a precedent. Appropriation bills should never be resorted to as a means of reconsidering matters that are the proper jurisdiction of other committees, particularly when such matters have already been acted on by those committees.

TITLE IX—COUNTER-TERRORISM CONTINGENCY FUND

In his Annual Report to the Congress, the Secretary of Defense stated that "the United States will continue to seek a more active defense against terrorist attacks throughout the world." The conferees fully support maintaining an active defense against terrorism and believe that counter-terrorism programs should be given a top priority since the terrorist threat is most likely one to be faced by the U.S. in the near term. Since the Secretary of Defense specifically requested that the $100,000,000 provided by the Senate not be appropriated, the conferees reluctantly agree to delete Title IX from the bill. However, in order to ensure that these critical programs are adquately financed, by March 31, 1986, the Secretary of Defense is directed to submit a report to the House and Senate Committees on Appropriations identifying what funds are included in the fiscal year 1987 budget request for contingency operations against the threat of or use of violence against United States personnel or property.

Amendment No. 5: Deletes Senate language which deleted sections 8097, 8098, 8099, and 8100 of the Department of Defense Appropriation Act, 1986 as passed the House on October 30, 1985 and section 8090 of the Act as reported to the Senate on November 6, 1985. These provisions pertain to the several procurement reform issues which were deleted from the Act.

DISTRICT OF COLUMBIA

Amendment No. 6: Changes subsection designation from "(d)" to "(c)" and provides that programs, projects, or activities provided for in the District of Columbia Appropriations Act for fiscal year 1986 (H.R. 3067) shall be available to the extent and in the manner provided for in the conference report and joint explanatory statement of the managers (H. Rept. 99-419), as filed in the House of Representatives on December 5, 1985, as if such Act had been enacted into law and provides that the appropriation for the Federal contribution to the District of Columbia for the "Criminal Justice Initiative" under Amendment No. 2 of H.R. 3067 shall be "$13,860,000" instead of "$14,010,000" as proposed by the Senate. The House bill provided for a rate of operations based on the House-passed bill.

APPROPRIATIONS FOR THE DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES

Amendment No. 7: Section 101(e) of House Joint Resolution 465 provides appropriations for programs, projects and activities provided for in the Department of the Interior and Related Agencies Appropriations Act, 1986. The House version of the joint resolution provides appropriations for programs, projects, or activities at a rate for operations and to the extent and in the manner provided for in H.R. 3011 as passed the House of Representatives on July 31, 1985. The Senate version of the joint resolution provides appropriations for these programs, projects, and activities at a rate for operations and to the extent and in the manner provided for in H.R. 3011 as reported to the Senate on September 24, 1985.

The conference agreement on House Joint Resolution 465 incorporates some of the provisions of both the House and Senate versions of the Department of the Interior and Related Agencies Appropriations Act, 1986, and has the effect of enacting the Act into law. The language and allocations set forth in House Report 99-205 and Senate Report 99-141 shall be complied with unless specifically addressed to the contrary in this joint resolution and accompanying statement of the managers. The Department of the Interior and Related Agencies Appropriations Act, 1986, put in place by this joint resolution, incorporates the following agreements of the managers:

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

Appropriates $398,566,000 instead of $378,556,000 as proposed by the House and $403,998,000 as proposed by the Senate.

The net decrease from the amount proposed by the Senate includes: decreases of $600,000 in oil and gas leasing; $220,000 in oil shale and tar sands leasing; $348,000 in withdrawal processing and review; $4,748,000 in wild horse and burro management; $841,000 in grazing management; $1,000,000 in noxious weed control; $300,000 to restore FTE's to the fiscal year 1985 level in wildlife habitat management; $350,000 for the automated land and mineral record system in Alaska; $500,000 for building maintenance and $500,000 for transportation maintenance; and increases of $100,000 in the amount reduced by the Senate to complete cost recovery regulations; $1,000,000 to provide better protection of rare cultural resources; $750,000 to protect designated wilderness areas as well as wilderness study areas; $925,000 for recreation management and $1,200,000 for the lower 48 states cadastral survey.

The managers agree that the desert land entry activity is to continue at the fiscal year 1985 level. The increase over the budget request for additional FTE's in wildlife habitat management is for priority wildlife management projects.

There is $330,000 within available funds to support the President's Commission on Americans Outdoors.

Within available funds there is $50,000 for the Barstow Way Station; $25,000 for the Calico Early Man Site and $100,000 for Soda Springs. There is also $925,000 within available funds to implement resource management plans for Steese NCA and the White Mountains NRA.

Bill language relating to the proposed Bureau of Land Management/Forest Service interchange has been moved to title III.

The managers agree that an increase of $500,000 is provided within available funds for hazardous waste control activities.

CONSTRUCTION AND ACCESS

Appropriates $1,403,000 for construction and access as proposed by the Senate instead of $1,203,000 as proposed by the House.

PAYMENTS IN LIEU OF TAXES

Appropriates $105,000,000 for Payments in Lieu of Taxes as proposed by the Senate instead of $102,900,000 as proposed by the House.

LAND ACQUISITION

Appropriates $2,300,000 for land acquisition instead of $2,800,000 as proposed by the House and nothing as proposed by the Senate. The amount made available includes $1,000,000 for the Steens Mountain Recreation Area, $300,000 for acquisition management, $500,000 for the King Range Conservation Area and $500,000 for wilderness inholdings.

OREGON AND CALIFORNIA GRANT LANDS

Appropriates $56,114,000 for the Oregon and California Grant Lands instead of $66,140,000 as proposed by the House and $54,443,000 as proposed by the Senate. The changes from the House amount include a decrease of $8,355,000 related to Forest Service activities which are included under the Forest Service and a decrease of $1,671,000 from the amount included by the House to maintain the 1985 program level in all activities. Included in the appropriation is $500,000 for anadromous fish initiatives and $150,000 for restoring recreation projects in Western Oregon.

RANGE IMPROVEMENTS

The managers agree to provide $10,000,000 as proposed by the Senate.

The managers have agreed to retain House bill language concerning grazing subleasing. New regulations have been promulgated and the managers want to ensure that they provide adequate control. To that end, the managers have agreed to ask the GAO to review subleasing and advise the Committees on the extent of the practice and the adequacy of the regulations.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The managers have agreed to delete bill language proposed by the House regarding recovery of costs associated with preparation of environmental impact statements. The managers encourage the authorizing committees to review this matter and propose an appropriate resolution.

ADMINISTRATIVE PROVISIONS

The managers have agreed to bill language that will allow the Secretary of the Interior to resell timber within the Medford, Oregon BLM District, without further judicial review, that has been returned pursuant to the Federal Timber Contract Payment Modification Act if, as a result of administrative appeal or judicial review, there is a delay in the sale or award of timber, and only to the extent necessary to achieve sale of the allowable cut.

The language directs that the Secretary consider the environmental consequences of each sale and categorize each sale's environmental impact as minimal, moderate, or serious. Sales made pursuant to this section shall be made according to their relative environmental impacts. Once reoffered sales are defined and their degree of environmental impact assigned, they shall be available for public review for a period of 30 days before being reoffered.

The managers believe this is an appropriate resolution of last resort but want to emphasize the importance of resolving, at the local level, the many complicated and controversial issues involving competing and best use. Therefore, the BLM is directed to continue the consensus-building process it has pursued with local environmental and industry organizations. Specifically, the BLM should consider continuing the citizen participation committee, or other similar forum, by which management, planning and analysis information might be shared in order to lay a foundation for the next planning cycle. The Bureau shall report the results of its community participation efforts to the House and Senate Committees on Appropriations prior to their fiscal year 1987 budget hearings.

U.S. FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

Appropriates $301,222,000 for resource management instead of $317,202,000 as proposed by the House and $303,522,000 as proposed by the Senate. The above amount includes decreases from the Senate of

$500,000 to expand public use programs on refuges, $1,500,000 from the accelerated refuge maintenance management program, $1,000,000 from hatchery maintenance, $250,000 for fishery management activities, $250,000 from operational and maintenance needs of the fishery research program, $750,000 for refuge operation and maintenance, $50,000 for law enforcement activities in the Caribbean, $50,000 for the CITES permitting process, $1,000,000 from administrative costs, $410,000 for endangered species recovery, and $110,000 from endangered species research; increases of $1,000,000 to study the relationship between avian disease outbreaks and environmental contaminants, $500,000 for Great Lakes Laboratory research as stated in the House report, $150,000 for additional staff at the Gainesville Research Laboratory, $70,000 for acid rain monitoring equipment at the Wellsboro National Fishery Research and Development Laboratory, $1,100,000 for a forensics laboratory, $500,000 for endangered species grants for the states, and $250,000 for endangered species listing.

The Wellsboro acid rain monitoring program is to be closely coordinated with those of other federal agencies such as the Forest Service. The managers agree that the Fish and Wildlife Service should submit to the House and Senate Committees on Appropriations its plans for the forensics laboratory prior to implementation so that the Committees may review the site plans and schedules.

Within the $6,926,000 provided for endangered species recovery there is $300,000 for the peregrine falcon, $50,000 for the grizzly bear, $150,000 for Hawaiian forest birds, $100,000 for the whooping crane, $20,000 for the California brown pelican and $200,000 for Upper Colorado River fish studies. The managers agree that within endangered species research there is $110,000 for the Puerto Rico aviary, $150,000 for black footed ferret research, $100,000 for whooping crane research, and $80,000 for Florida panther research.

The managers agree that the Fish and Wildlife Service should review the condition of the Nashua NH hatchery and make repairs as necessary. There is within available hatchery maintenance and operations funds $480,000 for Norfork NFH and $200,000 for Greers Ferry NFH. The managers agree that there is $120,000 within available funds for the Upper Colorado River Federal-State working group.

Although administrative savings cannot be accumulated to offset future year budget needs, the managers agree that the Fish and Wildlife Service should document its administrative savings and report to the Committees no later than May 15, 1986 its anticipated administrative savings for fiscal year 1986.

There is $330,000 with available funds to support the Presidential Commission on American Outdoors.

The managers agree that not less than $3,300,000 for high priority projects within the scope of the approved budget shall be carried out by the Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408.

The funds provided for Great Lakes research are for research only and are not to be available for the Great Lakes Indian Treaty settlement.

The managers agree to provide no funding for the Animal Damage Control program. Instead, funds are provided to the Department of Agriculture. The managers anticipate that such a transfer will result in a more cost-effective program.

The managers agree with the Senate proposal for research on alternative non-toxic shot, including cost-sharing if feasible.

CONSTRUCTION AND ANADROMOUS FISH

Appropriates $21,296,000 instead of $18,209,000 as proposed by the House and $15,033,000 as proposed by the Senate. The net increase of $3,087,000 above the House position includes increases of $600,000 for construction at Cape Charles NWR, Va and $3,097,000 for high priority construction on Alaskan wildlife refuges; and a decrease of $610,000 for the Northeast Fishery Center laboratory.

Language is included to earmark $2,000,000 for Anadromous Fish Grants.

MIGRATORY BIRD CONSERVATION ACCOUNT

Appropriates $15,000,000 as an advance to this account instead of $10,000,000 as proposed by the House and $20,000,000 as proposed by the Senate. The Migratory Bird Conservation Commission (MBCC) should consider acquisitions in the Anderson-Tully, Cache, and White River areas.

LAND ACQUISITION

Appropriates $40,670,000 instead of $45,970,000 as proposed by the House and $32,570,000 as proposed by the Senate. The following table shows the allocation agreed to by the managers.

Acquisition management	$1,600,000
American crocodile, FL	1,500,000
Bon Secour NWR, AL	1,000,000
Cape Charles NWR, VA	2,640,000
Coachella Valley/fringe-toed lizard, CA	5,000,000
Connecticut Coastal NWR, CN	1,030,000
Florida panther, Fakahatchee Strand NWR, FL	3,000,000
Great Swamp NWR, NJ	1,000,000
Hawaii forest birds, HI	6,000,000
Lower Rio Grande, TX	5,000,000
Lower Suwanee, FL	2,500,000
Minnesota Valley NWR, MN	2,000,000
Minnesota Elk Wildlife Refuge, WY	1,400,000
National Key Deer, FL	2,000,000
Steigerwald Lake Wetlands (Kerr Estate), OR	600,000
Willapa NWR, WA	3,400,000
Inholdings	1,000,000
Total	40,670,000

Language proposed by the House to make the land acquisition at Cape Charles NWR, VA subject to authorization is deleted. The managers request that the Fish and Wildlife Service provide the House and Senate Committees on Appropriations assurance that the wildlife resource values of proposed land acquisitions in Puerto Rico at Cartegena and Tortuguero Lagoons will not be impaired if the Service does not proceed with the acquisition. The managers agree that within funds available for acquisition management there is $100,000 to undertake a survey of the exterior boundary of the Tensas River NWR.

ADMINISTRATIVE PROVISIONS

The managers have agreed to delete House proposed bill language mandating repayment of funds advanced to or spent by the Fish and Wildlife Service for costs of the Fish and Wildlife Foundation.

The managers understand that the Foundation and the Service are establishing an agreement as to what the Foundation may do with funds advanced by the Service. The managers request that that agreement be submitted to the Committees with the fiscal year 1987 budget together with an evaluation of the legal requirement for the Foundation to repay all funds transferred to the Foundation, such as land acquisition funds that may pass through the Foundation.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

Appropriates $627,763,000 for Operation of the National Park System instead of $628,996,000 as proposed by the House and $619,548,000 as proposed by the Senate.

The change from the Senate includes increases of $500,000 for the Student Conservation Association; $320,000 for Illinois and Michigan Canal Corridor; $260,000 for interpretation and visitor services for Lowell National Historic Park; $200,000 so that a new Park Police rookie class may be conducted; $290,000 for Route 209 maintenance; $4,626,000 for maintenance to restore the fiscal year 1985 level; $1,088,000 to add nine parks to those where air quality monitoring is being conducted; $150,000 for an airplane and pilot in Alaska; $11,000 for U.S. ICOMOS; $175,000 for Folger Theater; $175,000 for Corcoran Gallery; $175,000 for Phillips Gallery; $175,000 for Arena Stage; $175,000 for the National Building Museum; $175,000 for the National Capital Children's Museum and $450,000 for repairs and rehabilitation of William McKinley's tomb; and decreases of $80,000 for restoration of bighorn sheep at Yosemite NP; $400,000 for Yosemite NP, Mariposa Grove and building removal; and $250,000 for Grand Canyon NP trail maintenance.

The managers agree that within available funds there is $46,000 for Allegheny Portage NHS; $250,000 for trail maintenance at Grand Canyon NP; $400,000 for Yosemite NP for Mariposa Grove and for building removal; and $100,000 to remove non-salvageable structures at Delaware Water Gap.

There is $330,000 within available funds to support the Presidential Commission on Americans Outdoors.

The managers agree that improvements can be made in the allocation of cyclic maintenance and other funds appropriated to regional offices for distribution to various park units. The Park Service has acknowledged this in a letter to the Chairmen of the Interior and Related Agencies appropriations subcommittees. In part, the letter reads as follows:

I would like to take the opportunity to comment on language included in the Senate Report on the Department of the Interior and Related Agencies Appropriation Bill for fiscal 1986 relating to the Cyclic Maintenance Program of the National Park Service.

Specifically, the Committee expressed its view that the Service has used cyclic maintenance funds for work that is inconsistent with the criteria established for the program. In addition, the Committee concluded that part of this problem stemmed from management of the program by the Regional Offices. The Committee recommended that $40 million from Regionally managed programs be allocated to park base budgets.

These are serious concerns, and I have taken steps to determine to what extent they represent the exception rather than the rule. Our examination of the cyclic maintenance projects programmed in fiscal 1985 shows that the Service did redirect cyclic funds to construct several small maintenance structures in two parks, and in

other instances used funds for work which would be more appropriately categorized as repair and rehabilitation. Although this work was accomplished within available authorities and did represent high priority needs, I acknowledge that improvements are needed in the definition and management of the Cyclic Maintenance Program.

To this end, I am directing that several steps be taken by field managers. Currently, the budget formulation process for the Cyclic Maintenance Program varies from Region to Region. In the near future, we will update guidelines and instructions for developing and executing the Cyclic Maintenance Program that will ensure consistency among Regions. Project requirements, based on strict program criteria, will be projected over a 10-year cycle and form the basis for annual funding allocations. Execution of the program will be closely monitored and appropriate reports submitted to the Appropriations Committees. Finally, we will more clearly differentiate the amounts budgeted for those projects which are cyclic in nature and those projects which are intended to repair and rehabiliate structures. The fiscal 1987 budget will reflect these improvements.

The Committee will monitor the Service's progress in improving the distribution of funds to the individual units.

The managers agree to the addition of an airplane and pilot for Alaska with the understanding that they will not be used to interfere with legal subsistence users.

The managers agree to a continuation of the Youth Conservation Corps program from within available funds at a level of $3,300,000.

The managers agree within available park operating funds there are increases of $157,000 for Jean Lafitte NP; $150,000 for Saguaro NM; $600,000 for Glen Canyon NRA; and $150,000 for New River Gorge NR. Further, not to exceed $150,000 shall be available to study the feasibility of several management alternatives to protect and interpret resources near Almo, Idaho, and $150,000 shall be available for the completion of a historic structures report for the New River Gorge NR.

NATIONAL RECREATION AND PRESERVATION

Appropriates $11,096,000 instead of $11,467,000 as proposed by the House and $10,828,000 as proposed by the Senate. The managers agree that in addition to the amount proposed by the Senate there is $168,000 for the recreation programs and $100,000 for a national inventory of trails. The Park Service is encouraged to seek private sources of funds to assist in developing the national inventory of trails.

HISTORIC PRESERVATION FUND

The managers have agreed to provide $20,535,000 for state historic preservation grants and $4,410,000 for the National Trust for Historic Preservation.

VISITOR FACILITIES FUND

The managers have agreed to transfer the Visitor Facilities Fund amounts to the National Park Service, to be managed as part of the normal construction program. Despite the best efforts of all involved, the managers have concluded that the projects can be managed more effectively through the Service. The National Park Foundation is invited to continue to participate in the project selection process.

CONSTRUCTION

Appropriates $114,121,000 instead of $104,069,000 as proposed by the House and $86,220,000 as proposed by the Senate.

The managers agree on the following increases to the budget request:

Boston NHP, MA (Bldg. 28)	$1,333,000
Cuyahoga Valley NRA ($1,287,000):	
Erosion control	500,000
Everett road covered bridge	15,000
Coonrad ranger station and communications center	87,000
Everett village structures stabilization	235,000
Construction of three bridges	450,000
Delaware Water Gap NRA	1,700,000
Faneuil Hall, Boston NHP (planning)	600,000
Gateway NRA, NY—Great Kills seawall repairs and new bath house	5,100,000
Golden Gate NRA, CA—Phil Burton Memorial	750,000
Gulf Islands NS, FL—visitor center	2,800,000
Hot Springs NP, AR—Fordyce bath house	2,100,000
Johnstown Flood NM, PA—visitor center planning	429,000
Lowell NHS, MA—Boott Mill complex, bldg. No. 6	3,360,000
Lowell Historic Preservation Commission	3,168,000
Mammoth Cave NP, KY—(water project)	2,000,000
Voyageurs NP, MN—Kettle Falls Hotel, phase II, utilities for new units	1,065,000
William Howard Taft home, restoration	850,000
Yellowstone National Park—rehabilitation of visitor facilities	6,540,000
Grand Canyon, AZ, power system—North Rim	3,900,000
Apostle Islands NL, WI	458,000
Burr Trail Scenic Road—Glen Canyon NRA and Capitol Reef NP, UT	8,100,000
Kenai Fjords, AK, visitor facility and storage/maintenance facility	750,000
Sitka NP, Russian Bishop's House	742,000
Klondike Gold Rush NHP—buildings restoration	820,000
Federal Hall National Memorial, NY	1,000,000
Jean Lafitte NP, LA:	
Eunice cooperative unit—A&E	250,000
Chalmette and Barataria—Interpretive exhibits and A/V programs	561,000
Natchez Trace Parkway—Palmetto crossing ($1,180,000) and the Bay Springs area access ($300,000)	1,480,000
Buffalo National River	900,000
Fort Larned NHS, KS—Blockhouse reconstruction	262,000
Project planning	3,850,000
Advance planning	1,900,000
Visitor facilities fund	8,500,000

Within available planning funds there is $350,000 for Women's Rights NHP and $988,000 for Fort Union Trading Post in North Dakota. No funds are provided for the Arctic NP, AK. The funds for the Burr Trail are provided subject to authorization. The managers are confident that the authorizing committees will consider and resolve the authorization issue in a timely manner.

The Visitor Facility Fund projects provided for by transfer are as printed in the Senate Report.

The managers have agreed to continue development at Buffalo National River next year.

LAND ACQUISITION AND STATE ASSISTANCE

Appropriates $98,400,000 instead of $115,762,000 as proposed by the House and $75,400,000 as proposed by the Senate. The following table shows the allocation agreed to by the managers:

Assistance to States:	
Matching grants	$48,350,000
Administrative expenses	1,650,000
Total, assistance to States	50,000,000
National Park Service:	
Acquisition management	5,000,000
Appalachian Trail	7,000,000
Big Cypress NP	2,000,000
Big Thicket NP	2,000,000
Cuyahoga Valley NRA	4,500,000
Delaware Water Gap NRA	3,500,000
Golden Gate NRA (Marin County)	2,000,000
Lake Clark NPP, AK	1,500,000
New River Gorge NP, WV	300,000
North Cascades, WA	1,000,000
Olympic NP	1,000,000
Point Reyes NS	1,000,000
Salinas NM, NM	600,000
San Antonio Missions NHS	2,000,000
Santa Monica Mountains NRA	8,000,000
Sleeping Bears Dunes NL	1,500,000
Inholdings	3,000,000
Emergencies, hardships, deficiencies, and relocations	2,500,000
Subtotal NPS	48,400,000
Total, National Park Service	98,400,000

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

Appropriates $4,800,000 for the John F. Kennedy Center for the Performing Arts as proposed by the Senate instead of $4,529,000 as proposed by the House.

JEFFERSON NATIONAL EXPANSION MEMORIAL COMMISSION

Appropriates $75,000 for the Jefferson National Expansion Memorial Commission as proposed by the House instead of nothing as proposed by the Senate.

GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

Appropriates $431,961,000 for surveys, investigations, and research instead of $428,098,000 as proposed by the House and $437,655,000 as proposed by the Senate. The decrease below the amount proposed by the Senate consists of increases of $500,000 for Geographic Information Systems (GIS); $600,000 for the geothermal program; and $2,500,000 for beginning a National water quality assessment; and decreases of $2,000,000 for SLAR; $1,500,000 for earthquake hazards investigations; $1,800,000 for mineral resource surveys in Alaska; $1,500,000 for study of erosion of coastal barriers in Louisiana; and $2,494,000 for research and technical development grants under the Water Resources Research Act of 1984.

The managers agree that $600,000 provided for mineral resource surveys in the

Steese and White Mountain areas of Alaska is to be used for State of Alaska assistance to the Geological Survey and that the Geological Survey will complete the studies within available funds and in time for the Bureau of Land Management to meet the 1988 deadline for land-use decisions for these areas.

The managers agree that the Survey is to proceed within available funds to prepare a new estimate of offshore oil and gas resources in cooperation with the Minerals Management Service.

The managers agree that $750,000 included for the core hydrologic program is for ground water research at the Oregon Graduate Center.

The managers agree to provide $2,500,000 to begin a National water quality assessment program with the understanding that the Survey, and the Department, will endeavor to redirect existing water programs, strengthen existing programs that support water quality assessment, and obtain significant funding from other Federal agencies with water quality interests and responsibilities so that incremental increased funding for this important program can be kept to the lowest possible levels.

Bill language is included establishing a special fund in the Treasury for replacement and expansion of telecommunications facilities, as proposed by the Senate.

MINERALS MANAGEMENT SERVICE

LEASING AND ROYALTY MANAGEMENT

Appropriates $168,018,000 for leasing and royalty management instead of $165,118,000 as proposed by the House and $170,267,000 as proposed by the Senate. The decreases under the amount proposed by the Senate consist of $2,014,000 for geological and geophysical data acquisition and $235,000 for the Royalty Management Advisory Committee. The managers agree that if the Secretary of the Interior determines the need for an advisory committee it should be funded from within available resources. The managers expect MMS to be the lead agency and to cooperate fully with the Geological Survey in the estimating of offshore oil and gas resources. Further, the managers expect the MMS to use Geological Survey expertise to the maximum extent feasible on issues involving OCS research, including allowing the Survey to bid on proposed work. Available "in-house" expertise should be considered before outside contractors are used.

Bill language is also included which requires permittees to supply geological and geophysical data to the Secretary of the Interior as a condition of the permit. The managers have agreed to delete bill language proposed by the House requiring the deduction of the cost of production, collection and distribution of revenues from Federal onshore mineral leasing operations before they are distributed to the States.

No additional funds are provided for late interest payments to States as proposed by the House. The managers agree that within available funds the Minerals Management Service should pay the penalties for late payments to States and Indian allottees. If the new Minerals Management computer system and upgrades outlined in the reprogramming request in 1984 do not result in timely payments of royalties to States and Indian allottees, consideration will be given to a supplemental request for such funds. Due to this action the bill language providing the authority for late interest payments to States has been revised and is included under Leasing and Royalty Management.

Bill language is included under Administrative Provisions which prohibits the use of funds for leasing in the North Atlantic-Georges Bank planning area as proposed by the House.

The managers have agreed that negotiations should continue between the Secretary and members of the California delegation and members from the appropriate committees of jurisdiction. The managers hope that these negotiations provide the appropriate range of advice to the Secretary as he strives to seek consensus. The outgoing negotiations process must continue so this longstanding dispute can be resolved.

If after a reasonable period there is no agreement between the parties, Congress may reconsider this matter. During negotiations and for the balance of fiscal year 1986, the Department of the Interior may proceed with preliminary sales steps including a Call for Information, and Nominations for OCS lease sales in the Southern, Central and Northern California Planning Areas.

BUREAU OF MINES

Appropriates $134,255,000 for mines and minerals instead of $122,298,000 as proposed by the House and $131,445,000 as proposed by the Senate.

The change from the amount proposed by the Senate in health and safety technology consists of increases of $600,000 for respirable dust research resulting in a total increase of $2,200,000 over the budget request for respirable dust research to be conducted at Pennsylvania State University, West Virginia University, University of Minnesota, and the Massachusetts Institute of Technology ; $1,250,000 for work in ground control to accelerate mountain bump research and accelerate work in tomography; $1,000,000 for post-disaster research; $1,000,000 for industrial hazards for research in robotics; and $1,000,000 for methane control. The managers agree that within available funds $300,000 is to be used for a Coal Mine Injury Analysis Study at Pennsylvania State University.

In mining technology the change from the Senate recommendation consists of an increase of $1,000,000 for proof-of-concept validation and a decrease of $500,000 for research in in-situ leaching.

In minerals and materials the change from the Senate recommendation consists of decreases of $1,000,000 for research at the Idaho National Engineering Laboratory and $500,000 for additional minerals and materials research.

In minerals information and analysis the change from the Senate recommendation consists of decreases of $500,000 for the Alaska Field Operations Center; $500,000 for data analysis; and a $40,000 technical adjustment. The managers agree that within the funds available to the Alaska Field Operations Center, $185,000 will be used for field testing of a Bureau-developed polymer-screen-dewatering technique at placer mining sites in Alaska.

The managers agree that the Bureau of Mines should continue to fund the 31 Mineral Institutes. The $8,000,000 provided includes $4,650,000 to be divided equally among the 31 Mineral Institutes; $350,000 for administration and $3,000,000 for a competitive research program among the institutes. In respect to the competitive research program, it is the managers' expectation that there will be open competition among all 31 Mineral Institutes for these funds with the focus being on the highest priority research problems.

Language is included which earmarks $79,537,000 to remain available until expended.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

Appropriates $85,153,000 for regulation and technology instead of $85,538,000 as proposed by the House and $85,038,000 as proposed by the Senate. The change from the amount proposed by the Senate is for an increase of $115,000 for 2 additional FTE's, resulting in a total of 10 additional FTE's, to be used to assist States when their programs falter. Of the 10 FTE's, no more than 6 are to be stationed in Oklahoma to ensure a smooth transition for Federal primacy to State primacy. The remaining FTE's are to be divided between the Eastern and Western field centers. The managers expect OSM to utilize some of these individuals to conduct special studies and to notify the Congress on a quarterly basis on the location of the 10 FTE's and the tasks for which they are responsible.

The managers agree that in respect to the development of the applicant/violator computer system, OSM is to report to the appropriate Committees of the House and Senate on the milestones established for computer development and the progress made in meeting these milestones. OSM is to utilize the guidelines for computer development printed in the House report to the maximum extent feasible.

Bill language is included which prohibits OSM from using funds to finalize or implement any proposed rule or regulation which would require operators to reimburse the Interior Department for the cost of processing applications. The managers agree that study of this area is necessary and request that OSM report to Congress on its findings from the planning, development, and review of such rule or regulation.

ABANDONED MINE RECLAMATION FUND

Appropriates $207,385,000 for the Abandoned Mine Reclamation Fund instead of $233,585,000 as proposed by the House and $191,295,000 as proposed by the Senate. The change from the amount proposed by the Senate consists of increases of $10,000,000 for State Reclamation Program Grants; $6,000,000 for the Rural Abandoned Mine Program; $94,000 to restore the 5 percent pay reduction for General Administration; and a decrease of $4,000 for the undistributed reduction in the budget request.

The managers agree that within available funds in Federal Reclamation Projects $330,000 is to be used to maintain 40 FTE's in Wilkes-Barre, PA. The Office of Surface Mining is to focus attention on processes which have demonstrated possible long-term or permanent control of bacterial action and acid formation on lands to be reclaimed under the AML program. In this regard, OSM is to report to the Committees on its findings as they relate to the administration of these bacterial control processes.

The managers have deleted bill language which would have stipulated that no State would receive a reclamation grant if its prior year unobligated balances of the amount granted was not less than the amount of the grant obligated in the immediately preceding year. Due to the reduced amount for State Reclamation Grants, the managers agree that OSM should use State obligation rates as one of the criteria for determining the fiscal year 1986 grants to the States. OSM is to keep updated obligation

records of the States and report to the Committees on a quarterly basis on the progress made by States in obligating prior year unobligated balances. In order to accurately reflect State obligation rates, this report should contain information on date of request for such funds by the State and date of issuance of such funds by OSM. The managers agree that if the States can demonstrate a capability to use additional funds, the Committees will consider providing these funds in the next relevant appropriations bill.

Bill language is included which restricts the use of funds for a reclamation grant to any State if it does not agree to participate in a nationwide data system established by the Office of Surface Mining Reclamation and Enforcement. This language is in no way contrary to the decision in *Save Our Cumberland Mountain Inc., et al. v. Hodel, et al.*, Civil Action No. 81-2134 (D.D.C.) (Parker, J.), or otherwise affects the substance and scope of action required under Section 510(c) of the Act of August 3, 1977. The bill also provides that the Secretary of the Interior may deny fifty percent of an Abandoned Mine Reclamation Fund grant to a State when it is inadequately enforcing the Surface Mining Act or its approved State regulatory program. States are provided the opportunity of entering into an agreement with the Office of Surface Mining to correct these deficiencies with the understanding that entering into such agreement is not an admission of culpability and the Secretary will not take action pursuant to section 521(b).

The bill does not include language which would require the Secretary's discretionary fund to be apportioned based on the Abandoned Mine Lands Inventory. The managers direct the Office of Surface Mining to submit an analysis of the merits of all allocation formulas which have been generally discussed to date or which it wishes to propose prior to hearings on the fiscal year 1987 OSM budget. During this review, OSM should consider a formula which would give priority to States that have good obligation rates.

Bureau of Indian Affairs

operation of indian programs

Appropriates $897,312,000 for operation of Indian programs instead of $857,303,000 as proposed by the House and $877,780,000 as proposed by the Senate. The changes from the amount proposed by the Senate include: increases of $400,000 for weighted student unit enhancement, $540,000 for school program expansions, $450,000 for institutionalized handicapped ($300,000 in education and $150,000 in social services), $500,000 for student transportation, $3,183,000 for Johnson-O'Malley educational assistance, $100,000 for special higher education, $100,000 for upgrading equipment at Southwestern Indian Polytechnic Institute, $122,000 for tribal courts, $500,000 for general assistance payments, $500,000 for training and technical assistance, $500,000 for Navajo and Hopi relocation, $236,000 for reforestation, $449,000 for forest inventories and plans, $400,000 for timber sales administration, $1,600,000 for high priority water resource studies (including $364,000 for the Flathead Tribe), an additional $390,000 for U.S.-Canada Pacific Salmon Treaty (for a total of $1,400,000), $347,000 for tribal hatchery operations, including $17,000 for the Mescalero hatchery, $48,000 for the Quinault NFH, $145,000 for the Klamath conservation program, $1,000,000 for Phase II mineral assessments, $100,000 for the Hopi Tribe's renegotiation of a coal lease, $1,340,000 for litigation support, $500,000 for Area Office facilities management staffing (to maintain the twenty positions proposed to be cut), $2,000,000 related to quarters rentals, and $247,000 for facilities operation and maintenance; and decreases of $746,000 for school board expenses, $100,000 for declining enrollment adjustment, $100,000 for education base adjustment, $500,000 for other social services, $400,000 for Choctaw land acquisition (transferred to the land acquisition account), $200,000 to the one-time grant to the Crownpoint Institute of Technology, $17,000 for the Mescalero hatchery, and $102,000 to management and administration.

With regard to the Klamath conservation program, the Bureau is directed to submit to the House and Senate Appropriations Committees within 30 days a report detailing what the required program is for the existing treaty rights program, not including the 700,000 acres of ceded land in dispute.

The managers agree the within available trust responsibility funds, $315,000 is to be used to conduct a survey of hazardous waste sites.

Bill and report language are included under the Office of Construction Management regarding the BIA facilities program.

Bill language is included providing that Johnson-O'Malley funds shall be used for supplementary educational services only. The managers expect the regulations to be revised accordingly, and the Bureau to report on any savings incurred as a result, after the initial year of operation under such revised regulations.

The managers expect the National Ironworker Training Program to be funded at $440,000, and the program to continue to be operated as it has in the past. The Alchesay/Williams Creek complex should be maintained at the 1985 level. The facilities management area office staffing is to be removed from the priority system.

The Bureau is directed to provide the amount required for tribal contractor employee pay raises from available funds.

The Bureau is requested to review the proposed distribution of school board expenses. The managers direct that other education funds shall not be used to pay school board legal fees. The Bureau should ensure that all school boards are aware of and abide by 18 U.S.C. 1913.

All contract support costs associated with pass-through funds from the Department of Education should be supported from Department of Education resources.

Once the Pinon, AZ public school expansion is completed, and assuming it then has adequate space for all local students, the managers agree that the Bureau shall operate the Pinon Boarding School only as a peripheral dormitory.

The managers agree that $500,000 of central office law enforcement funds shall be redistributed as directed in the Senate report. Within employment development, $1,238,200 is provided to continue the United States Educational Technical Center, and $100,000 for the United Sioux Tribes' employment assistance contract.

Within general administration funds, $270,000 is provided for the Congressional and Legislative Affairs office.

The managers disagree with the Bureau's directive grandfathering all contract support funds on an individual contract basis, and expect the Bureau and Inspector General's office to review these costs, determine new rates, recover overpayments from prior years, and carry out any other requirements with respect to contract support.

Bill language is included providing a cap on ADP expenditures. The managers repeat their direction, which evidently was not understood by the Bureau, that no other funds or "assessments" are to be made for ADPL expenditures.

Bill language is included mandating closure of the Snowflake dormitory in Arizona.

Bill language proposed by the Senate regarding a limitation on general assistance funds has not been included. However, the managers agree that this is not an entitlement program and the Bureau is directed to take every reasonable step to ensure that general assistance payments do not exceed the budgeted amount.

Bill language is included, as proposed by the Senate, providing $6,000,000 for obligation before January 18, 1986, for the emergency provision of hay in Montana, North Dakota, and South Dakota.

No further contract for law enforcement shall be made by the Bureau with the Navajo Tribe unless the tribe agrees to provide required law enforcement services on the new lands taken into trust for the Navajo Tribe under the Navajo and Hopi Indian Relocation Act.

construction

Appropriates $101,054,000 for construction instead of $45,195,000 as proposed by the House and $141,254,000 as proposed by the Senate. The net decrease below the Senate consists of increases of $400,000 for advance planning and design for the St. Francis School and $2,400,000 for land acquisition, and a decrease of $43,000,000 for housing associated with the Navajo and Hopi Indian Relocation program.

The managers have included bill language and report language under the Office of Construction Management with respect to reorganization of the Bureau's construction program.

For all new school construction projects, the managers direct that the Bureau provide cost estimates based on modular as well as conventional construction. The Bureau should expedite redesign of the Two Eagle River and Rocky Boys high schools, assuming at least partial use of modular facilities. The managers agree that a modular multipurpose room is provided for the Bullhead school from available facility improvement and repair funds. The Bureau shall submit a report to the Committees on Appropriations on the Oglala community school. Such report shall include a full discussion of the current facility, repairs made to date, the feasibility of further repairs to standard, and the disposition of the current facility should new construction be proposed rather than renovation.

Due to the late release of funds appropriated in fiscal year 1985 for continued construction of the Navajo Indian Irrigation project, the managers have not provided additional funds for this year. The managers remain committed to completion of this project and urge the Department to request funds in fiscal year 1987 so that the project may proceed without interruption. The managers agree with the statements in the Senate report with respect to the Milk River irrigation project and the Miner Flat Dam and Canyon Day irrigation project.

The allocation for housing includes the reduction in contract support proposed by the Senate. The managers agree that overhead costs directly associated with housing construction or repair are allowable charges to

the contract, but that other items allowed in general contract support are not permissible.

Language is included which provides $22,000,000 for use by the Secretary of the Interior to construct homes and related facilities for the Navajo and Hopi Indian Relocation Commission in lieu of construction by the Commission. This language ensures that a priority for the use of these funds is given to Navajo families who are actual, physical residents of the Hopi Partitioned Land. In addition, with respect to lands acquired pursuant to section 11(a) of the Act of December 22, 1974, the Secretary shall not be required to enter into contracts under section 102 of the Indian Self-Determination Act and the Secretary's authority under section 106 of said Act also shall apply. The language provides that the Secretary is not constrained in carrying out construction, lease approvals, or executions by the Commission's regulations. The managers expect that the Secretary will use the plans developed by the Commission for the new lands and work with the Commission to ensure swift execution of the development of the new lands. The bill language also states that any action under this proviso is not a major action with respect to the National Environmental Policy Act of 1969, as amended, in order to facilitate an orderly development of the new lands. Authority is provided for the Secretary to issue leases and rights-of-way for housing and related facilities to be constructed on the new lands only. Language has also been included in this Act requiring a report by February 15, 1986 from the Navajo and Hopi Indian Relocation Commission, with the review and comment of the Secretary of the Interior, on how the BIA construction monies will be spent in respect to lands acquired pursuant to section 11(a) of the Act of December 22, 1974. The requirement for this report will not delay relocation to the new lands because it is a document that the Commission has been developing for some time and the managers understand that it can be submitted within the time requirement.

The BIA shall ensure that the Blackfeet Housing Improvement Program, within its regular allocation, builds at least three houses this year and two next year for the victims of the 1974 flood.

With respect to the Covelo Indian Community land acquisition, bill language has been included requiring that the tribe obtain sufficient funds from non-Federal sources to meet the remainder of the cost before the Federal funds are committed. An amount of $400,000 is included for land acquisition for the Mississippi Band of Choctaw Indians.

ROAD CONSTRUCTION

Appropriates no funds as proposed by the Senate instead of $785,000 proposed by the House.

The managers have included bill language earmarking $3,200,000 of the funds available to the Navajo area under the Federal Lands Highway Program for use on the new lands.

The managers do not agree to reprogramming funds provided for construction of a road from AZ Route 264 toward Hard Rocks via Rocky Ridge. Neither do the managers agree to any use of the funds for other than the specified route.

ALASKA NATIVE ESCROW ACCOUNT

Appropriates $7,877,000 for the Alaska Native Escrow Account as proposed by the Senate instead of no funds as proposed by the House.

The managers expect that in accordance with the policy of making the Native corporations whole as proposed by the 1980 amendment to the Alaska Native Claims Settlement Act, the Department of the Interior will calculate interest on the principal owed under the amendment as if the principal had been invested in short-term public debt obligations of the United States in accordance with the established practices of the Bureau of Indian Affairs pursuant to the Act of June 24, 1938. The BIA approach includes the periodic addition of accrued interest to principal. The Secretary is directed to report on the progress toward resolving the interest issue by May 31, 1986.

REVOLVING FUND FOR LOANS

Permits the award of $1,470,000 for a loan to the Zuni Pueblo instead of no funds as proposed by the House and an unspecified amount as proposed by the Senate.

The managers agree that the Zuni Pueblo must be able to demonstrate to the satisfaction of the Secretary the ability to repay the loan prior to any loan approval.

TERRITORIAL AND INTERNATIONAL AFFAIRS

ADMINISTRATION OF TERRITORIES

Appropriates $80,376,000 for administration of territories instead of $74,752,000 as proposed by the House and $80,366,000 as proposed by the Senate. The changes from the amount proposed by the Senate include an increase of $500,000 for hospital equipment for the Northern Marianas hospital, and a decrease of $490,000 for a grant to the Eastern Caribbean Center, College of the Virgin Islands.

Bill language is included directing the Secretary to release immediately the remaining fiscal year 1985 grant funds for the Eastern Caribbean Center, College of the Virgin Islands.

The managers agree that within technical assistance funds, up to $500,000 may be used for maintenance of the existing power plant in Palau. The $1,500,000 provided for the American Samoa administration building will be the final contribution from the Federal government for this purpose.

With regard to the loan to the Virgin Islands government for construction of the extension of the Alexander Hamilton airport runway on St. Croix, the managers expect the terms of the loan to be negotiated by the Department of the Interior and the government of the Virgin Islands. The managers do not expect to fund the entire cost of this project, and expect the government of the Virgin Islands to continue to seek other funding, including FAA funds.

TRUST TERRITORY OF THE PACIFIC ISLANDS

Appropriates $80,372,000 instead of $107,972,000 as proposed by the House and $78,172,000 as proposed by the Senate.

The net increase from the amount proposed by the Senate includes: increases of an additional $300,000 for the College of Micronesia; $250,000 for Trust Territory general administration; $142,000 for prior service benefits; $408,000 for the Federated States of Micronesia operations; $3,000,000 for Phase I of the Palau hospital; $1,500,000 for the Bikini Atoll Rehabilitation Committee; $250,000 for design and planning of the base camp for the clean up of Bikini Atoll; and decreases of $250,000 for contract management, operation and training of the Palau hospital, $400,000 for the operation, maintenance, and purchase of a temporary generator for Palau, $2,500,000 for a prior service benefit trust fund, and $500,000 from the funds provided for the FSM power upgrade project. The managers agree that $250,000 for contract management, operation and training for the Palau hospital are included within available funds. The funds for maintenance of the existing powerplant in Palau shall be provided from technical assistance funds.

The total cost for the Palau hospital will be $10,000,000 with the remaining $5,000,000 for Phase II to be provided in subsequent appropriations Acts.

The managers remain committed to providing funds for capitol relocation for the Federated States of Micronesia, the Marshall Islands and Palau. The Federated States of Micronesia is ready to proceed with construction of its capitol and the managers expect budget requests for the capitols to be submitted pursuant to implementation of the Compact of Free Association.

The sum of $1,500,000 is provided for the Bikini Atoll Rehabilitation Committee. The managers expect the Committee to complete its work and make a final recommendation so cleanup plans can proceed. $250,000 is provided for the Secretary to contract for initial planning for a base camp on Eneu Island for the eventual cleanup of Bikini. No funds have been provided for the Enjebi Trust Fund or the Prior Service Benefit Trust Fund. The managers remain committed to the eventual resettlement of Enjebi Islands, and to providing for future costs of the prior service benefits program, and will address these items again when the Compact is implemented.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

Appropriates $43,411,000 instead of $40,856,000 as proposed by the House and $44,673,000 as proposed by the Senate.

The managers have agreed to the following distribution of funds:

Secretary's office	$1,435,000
Executive Secretary	211,000
Congressional and Legislative Affairs	1,100,000
Equal opportunity	1,300,000
Public Affairs	700,000
Small and Disadvantaged Business Utilization	400,000
A/S Water and Science	750,000
A/S Lands and Minerals	790,000
A/S Fish and Wildlife and Parks	771,000
A/S Indian Affairs	743,000
A/S Territorial and International Affairs	551,000
A/S Policy, Budget and Administration	795,000
Environmental Project Review	1,500,000
Acquisition and property management	1,350,000
Office of Personnel	1,620,000
Administrative Services	3,250,000
Information resources management	4,700,000
Policy analysis	2,300,000
Office of Budget	1,525,000
Financial management	1,020,000
Hearings and Appeals	5,800,000
Aircraft Services	1,900,000
Central Services	8,900,000
Total	43,411,000

Bill language is included to permit up to $300,000 to be used to pay or repay the costs of development of alternative winter stock water supplies by water users who have been deprived of winter stock water from the main channel of Willow Creek, Idaho.

The managers are concerned about the billing practices of the Office of the Secre-

tary for central administrative services provided to small independent agencies. The managers agree these charges must reflect actual cost of the services provided, and not be arbitrarily established.

OFFICE OF THE SOLICITOR

Appropriates $20,378,000 for the Office of Solicitor as proposed by the Senate instead of $20,266,000 as proposed by the House.

OFFICE OF THE INSPECTOR GENERAL

Appropriates $16,214,000 instead of $15,117,000 as proposed by the House and $16,908,000 as proposed by the Senate.

CONSTRUCTION MANAGEMENT

Appropriates $780,000 for the Office of Construction Management instead of $87,890,000 as proposed by the House and $660,000 as proposed by the Senate.

Bill language has been included directing the Secretary of the Interior to submit a new memorandum of agreement (MOA) between the Bureau of Indian Affairs (BIA) and the Office of Construction Management (OCM) to the House and Senate Appropriations Subcommittees on Interior for their approval. The MOA should state that OCM shall have complete control over the BIA facilities management and construction programs, as specified in the 1978 memorandum of agreement between OCM and BIA. This control shall include approval over the apportionment and allocation of funds and FTE's for the BIA facilities programs, including the Albuquerque and Area office staffs as well as facilities operations and maintenance and facilities improvement and repair programs. The MOA shall also state that OCM shall have the primary responsibility for planning and directing the necessary reorganization of the BIA facilities programs to permit implementation of management improvements developed to date. Along with the MOA, the Secretary shall submit for the Subcommittees' approval a detailed plan for completing the facilities program reorganization, and for turning control of the program back to BIA, with specific dates for accomplishment of all goals. The Secretary shall also submit quarterly written status reports on implementation of the plan and the MOA to the Subcommittees, within ten calendar days of the end of each quarter. The MOA and plan shall be submitted to the Subcommittees no later than 60 days after enactment of this Act.

If the Secretary, BIA or OCM fail to meet any of these requirements, the Committees will take action at the earliest possible opportunity to eliminate funding for the appropriate Secretarial staff, BIA facilities staff and OCM staff, establish a new office to carry out the Committees' directives, and transfer all BIA facilities funding to that office until the Committees' directives are accomplished.

OFFICE OF THE SECRETARY

(SPECIAL FOREIGN CURRENCY PROGRAM)

Provides $1,000,000 for payment in foreign currencies for the U.S. Fish and Wildlife Service and the National Park Service as proposed by the Senate.

DEPARTMENT-WIDE PROVISIONS

Language proposed by the House prohibiting exchanges of National Park System or United States Fish and Wildlife Refuge System lands has been stricken.

The managers agree that the required consultation process regarding land exchanges in units of the National Wildlife Refuge and Park systems agreed to last year should be done in a satisfactory manner. It is the intent of the consultation requirement that the appropriate Committees have a meaningful opportunity to review and oversee land exchange proposals involving these two systems. Notification of the Committees at an early stage of a land exchange proposal is required to achieve this intent.

The managers have agreed to maintain the House proposed language relating to Mount McKinley. Section 112 is included to prevent final regulations concerning paleontological research on Federal lands until the Secretary has received a National Academy of Sciences report on regulations concerning paleontological research.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST RESEARCH

Appropriates $126,283,000 for forest research instead of $124,989,000 as proposed by the House and $125,420,000 as proposed by the Senate. The changes from the amount proposed by the House are: an increase of $2,840,000 for competitive grants; and decreases of $488,000 to renewable resource economics, $1,000,000 to acid rain research, and $58,000 to recreation research.

The managers agree the following specific amounts are included within the available funds: within trees and timber management, an additional $150,000 for the FIR project, $250,000 for the Institute of Tropical Forestry, Puerto Rico, $98,000 for Sewanee, TN, and $75,000 for Moscow, ID; within watershed management and rehabilitation, $250,000 for the Institute of Tropical Forestry, P.R.; within recreation research, a $100,000 increase for urban forestry; and within forest products and harvesting, $250,000 for tropical harvest and utilization research, Madison, WI. The managers also agree that within the amount provided for forest inventory and analysis, there is an increase of $209,000 for Anchorage, AK, and in the wildlife, range, and fish habitat research program, the range evaluation project is restored to $590,000; there is $75,000 for the Skagit River Bald Eagle Natural Area; and the anadromous fish research program at Juneau, AK will remain intact.

The Forest Service is directed to develop a program plan to shift funding from the FIR program when it is completed to the COPE program.

In the acid rain research program, the managers expect the Forest Service to ensure that high altitude, western and midwestern areas receive adequate attention.

The authority to administer the $6,840,000 Competitive Research Grants program included in this Appropriations Act for fiscal year 1986 shall be carried out by the Office of Competitive Grants which currently is part of the Office of Grants and Program Systems. The $6,840,000 for conducting this program will be available until expended. Forest Service employees are to be eligible to compete for these funds. There are over 60 forestry schools and all of the land grant universities in the United States that can also compete for these grants.

The Committee recommends that these grants be targeted to mission oriented basic research in the following areas: (1) improved harvesting, processing, and utilization of the timber resource, with special emphasis on the chemical, mechanical, and engineering properties of wood and wood materials; and (2) forestry biology including biotechnology. Funds are to be divided equally between these two areas.

STATE AND PRIVATE FORESTRY

Appropriates $57,986,000 instead of $56,193,000 as proposed by the House and $55,786,000 as proposed by the Senate. The increases over the amount proposed by the Senate are $2,000,000 for urban forestry, and $200,000 for the Gifford Pinchot Institute.

Within the total of $495,000 provided for the Gifford Pinchot Institute, the Forest Service is expected to accomplish $30,000 in required scheduled maintenance.

NATIONAL FOREST SYSTEM

Appropriates $1,054,629,000 for the National forest system instead of $1,035,433,000 as proposed by the House and $1,070,146,000 as proposed by the Senate. The changes from the amount proposed by the House are as follows: increases of $237,000 for minerals, $574,000 for real estate management, $3,165,000 for land line location, $4,948,000 for fire protection, $7,000,000 for cooperative law enforcement, $2,619,000 for road maintenance, $500,000 for trail maintenance, $21,053,000 for timber sales (including $250,000 for Helistat, $6,640,000 for pay, $21,000 for the Alaska Land Use Council, $9,275,000 for the Oregon and California lands, and $4,867,000 for timber sales preparation), $7,375,000 for reforestation, $5,803,000 for timber stand improvement, $348,000 for nurseries, $1,142,000 for recreation use, $1,807,000 for wildlife and fish habitat improvement, $1,648,000 for range management, and $6,000,000 for forest level information processing; and decreases of $1,041,000 to soil, water and air management, $4,018,000 to general administration, $10,000,000 pay adjustment, and $30,000,000 for reforestation trust fund offset.

Within available funds in the soil, water and air management program, $240,000 is included for a National Academy of Sciences study of Mono Lake in California, pursuant to the California Wilderness Act of 1984.

Within National Forest System funds, $330,000 is available to support the Presidential Commission on Americans Outdoors.

The Forest Service is directed to work with groups such as Ducks Unlimited, Rocky Mountain Bighorn Society, Martin Marietta Corp., Bass Anglers Sportsman Society, Trout Unlimited, the Sport Fishing Institute, State fish and wildlife agencies, other Federal agencies such as Bonneville Power Administration and others, to match the $950,000 increase to the habitat improvement program. The funds should be devoted primarily to projects improving habitat on the ground. The Forest Service should report to the Committees no later than June 1, 1986, on the resulting program.

Bill language proposed by the Senate is included, extending indefinitely the authority of the Secretary of Agriculture to spend money from the reforestation trust fund, and merging the fund with the National Forest System account.

The allowance provides funding for a timber sales program of 11.4 bbf, essentially a continuation of the actual sales offerings from fiscal year 1985. For example, region 6 sales will be at a level of 4.9 bbf of net merchantable sawtimber, of which 2.45 bbf will be derived from timber volume returned pursuant to the Federal Timber Contract Payment Modification Act (FTCPMA), and regions 1 and 4 will continue at the approximate 1985 levels. The managers have been able to reduce program costs by providing for a higher level of reoffered volume (3.2 bbf nationwide) than was assumed in the

budget and by providing for additional salvage volume. The remainder of the volume is to be distributed nationwide in a balanced manner by the Forest Service.

The managers direct the Forest Service to provide the Committees with detailed information for contracts returned under the FTCPMA, at least at the Forest level. The information should enable the Committees to assess the rate at which additional reoffer volume should continue and the related cost.

The managers agree that the Forest Service has until May 31, 1986, to complete its review of the minimum bid rate system and submit that to the Committees for review.

CONSTRUCTION

Appropriates $223,865,000 for construction instead of $183,785,000 as proposed by the House and $219,608,000 as proposed by the Senate. Changes from the amount proposed by the Senate include: increases of $2,740,000 for recreation facilities and $1,379,000 for recreation roads in the Clear Creek Recreation Area, AL, $561,000 for recreation facilities and $330,000 for recreation trails in the Mount St. Helens National Volcanic Monument, $600,000 for recreation facilities in the Mount Hood NF, OR, $3,427,000 for other high priority recreation facilities, and $3,270,000 for trail construction; and decreases of $350,000 for the Cradle of Forestry, NC, $100,000 for the Tonto NF, AZ sheep crossing bridge, and $7,600,000 related to the proposed timber sales program.

The amount provided for trail construction is for the highest priority projects and is not limited to foot trails only.

The three projects included in the budget in the Tongass NF, AK are included in the recommended amount.

Bill language is included providing that $9,915,000 for road construction in the Mount St. Helens National Volcanic Monument shall be derived from the Federal Highway Trust Fund.

The managers have provided Forest Service road construction and reconstruction funding to support the timber program level of 11.4, bbf sales offerings. The managers have been able to reduce the road budget by substituting additional reoffer volume for new sales volume and by directing the Forest Service to achieve a 5 percent reduction in the average cost per road mile as compared to fiscal year 1985. These anticipated savings are included in the managers' allowance.

LAND ACQUISITION

Appropriates $28,300,000 instead of $29,500,000 as proposed by the House and $18,025,000 as proposed by the Senate. The following table shows the allocation agreed to by the managers:

Acquisition management	$3,500,000
Forest Service acquisitions:	
Appalachian Trail	700,000
Columbia Gorge (Gifford Pinchot and Mount Hood NF)	1,200,000
Green Mountain NF, VT	6,700,000
Huron NF, MI-Au Sable River (Wakeley tract)	800,000
Lake Tahoe	3,000,000
Nantahala NF, NC	1,000,000
Sawtooth NRA, ID	2,000,000
Wayne NF	2,000,000
Wilderness inholdings	2,500,000
Endangered species habitat	1,000,000
Edwards Investments	3,900,000
Total	28,300,000

No funds are provided for "Weeks Act" acquisition in the Wayne NF. Within the amount available for wilderness inholdings, $350,000 is for the Strawberry Mountain Wilderness Area.

Bill language is included providing $3,900,000 in payment to Edwards Investments for its interest in a former railroad right-of-way, including all improvements thereon.

YOUTH CONSERVATION CORPS

Appropriates no funds for Youth Conservation Corps, as proposed by the Senate, instead of $10,000,000 as proposed by the House.

The managers have agreed to a $10,000,000 YCC program, to be provided from available funds in the Fish and Wildlife Service ($3,300,000), National Park Service ($3,300,000), and the Forest Service ($3,400,000).

ACQUISITION OF LANDS FOR NATIONAL FORESTS, SPECIAL ACTS

Appropriates $782,000 for acquisition of lands, as proposed by the Senate, instead of $780,000 as proposed by the House.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

A provision limiting increases in recreational residence fees has been included, as proposed by the Senate. However, the managers understand the Forest Service and the permit holders are close to agreeing on a new fee system. The managers expect both sides to cooperate fully in reaching an early agreement, and based on this expectation, the managers agree that this language will not be carried in next year's Act. However, if an agreement is not reached by that time, the managers will address this issue in order to resolve it as quickly as possible.

Language is included, as proposed by the Senate, requiring the Chief of the Forest Service to sign personally certain documents relating to land transactions.

Language is included, as proposed by the Senate, providing authority for $24,000,000 to be provided for the timber sales program from the timber salvage sale fund.

Language is included, providing authority for the Forest Service to use $3,400,000 in funds available to it to carry out a Youth Conservation Corps program as if authorized by law.

Language is included giving the Secretary of Agriculture authority to transfer $1,500,000 from no-year funds available to him in this Act for emergency flood repairs in the Monongahela NF and the Parsons, WV, Forest Research Laboratory. The managers expect a supplemental request to be forthcoming to replenish the amount extended pursuant to this authority.

DEPARTMENT OF THE TREASURY

ENERGY SECURITY RESERVE

(INCLUDING RESCISSION)

The managers agree to rescind all funds appropriated to the Energy Security Reserve except $400,000,000 for a clean coal technology program to be administered by the Secretary of Energy in the Department of Energy, and $10,000,000 for expenses incidental to the closing of the Synthetic Fuels Corporation (SFC). Of the $400,000,000, $100,000,000 will be immediately available, $150,000,000 will be available beginning on October 1, 1986, and $150,000,000 will be available beginning on October 1, 1987. The remaining funds in the "Clean Coal Technology Reserve" are reduced to $350,000,000.

With regard to the Synthetic Fuels Corporation, the managers agree to bill language that:

(1) rescinds all unobligated funds except those noted above for clean coal technology and SFC close-out costs, as of the date of enactment of this Act,

(2) the Board of Directors may not make any legally binding awards or commitments for financial assistance as of the date of enactment of this Act,

(3) the Directors must terminate their duties and be discharged within 60 days of enactment,

(4) the Corporation terminates within 60 days of enactment,

(5) within 60 days, the Secretary of the Treasury assumes the duties of Chairman,

(6) the Director of Office of Personnel Management shall determine compensation rights of each Director, officer, and employee by February 1, 1986,

(7) effective on enactment, no pay levels shall be above level IV of the Executive Schedule and no existing pension or termination benefits or personnel policies may be changed, and

(8) a final report is due to Congress within 60 days.

Language is also included as proposed by the Senate providing for a loan of up to $3,000,000 to an existing ethanol plant for odor abatement equipment. The facility has a current government loan guarantee under title II of the Energy Security Act, and funds would be provided from a loan guarantee reserve already available to the Secretary of Energy. The loan is for the purpose of protecting the government from a possible default payment of approximately $127 million if the plant cannot operate.

DEPARTMENT OF ENERGY

CLEAN COAL TECHNOLOGY

The managers have agreed to a $400,000,000 Clean Coal Technology program as described under the Department of the Treasury, Energy Security Reserve. Bill language is included which provides for the selection of projects no later than August 1, 1986. Within that period, a general request for proposals must be issued within 60 days and proposals must be submitted to the Department within 60 days after issuance of the general request for proposals. Language is also included allowing the Secretary of Energy to vest title in interests acquired under agreements in any entity, including the United States, and delineating cost-sharing requirements. Funds for these activities and projects are made available to the Clean Coal Technology program in the Energy Security program.

It is the intent of the managers that contributions in the form of facilities and equipment be considered only to the extent that they would be amortized, depreciated or expensed in normal business practice. Normal business practice shall be determined by the Secretary and is not necessarily the practice of any single proposer. Property which has been fully depreciated would not receive any cost-sharing value except to the extent that it has been in continuous use by the proposer during the calendar year immediately preceding the enactment of this Act. For this property, a fair use value for the life of the project may be assigned. Property offered as a cost-share by the proposer that is currently being depreciated would be limited in its cost-share value to the depreciation claimed during the life of the demonstration project. Furthermore, in determining normal business practice, the Secretary should not accept valuation for property sold, transferred, exchanged, or otherwise manipulated to acquire a new

basis for depreciation purposes or to establish a rental value in circumstances which would amount to a transaction for the mere purpose of participating in this program.

The managers agree that, with respect to cost-sharing, tax implications of proposals and tax advantages available to individual proposers should not be considered in determining the percentage of Federal cost-sharing. This is consistent with current and historical practices in Department of Energy procurements.

It is the intent of the managers that there be full and open competition and that the solicitation be open to all markets utilizing the entire coal resource base. However, projects should be limited to the use of United States mined coal as the feedstock and demonstration sites should be located within the United States.

The managers agree that no more than $1,500,000 shall be available in FY 1986 and $2,000,000 each year thereafter for contracting, travel, and ancillary costs of the program, and that manpower costs are to be funded under the fossil energy research and development program.

The managers direct the Department, after projects are selected, to provide a comprehensive report to the Congress on proposals received.

The managers also expect the request for proposals to be for the full $400,000,000 program, and not only for the first $100,000,000 available in fiscal year 1986.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

(INCLUDING TRANSFER OF FUNDS)

Appropriates $312,848,000 for fossil energy research and development instead of $299,534,000 as proposed by the House and $292,228,000 as proposed by the Senate. In addition to the new appropriations, $8,230,000 is transferred from fossil energy construction as proposed by the Senate instead of $12,760,000 as proposed by the House, and $2,010,000 is transferred from alternative fuels production as proposed by Senate instead of $2,137,000 as proposed by the House. The increase in the new appropriation amount above the Senate amount consists of increases of $1,500,000 for Carbondale Coal Technology Laboratory; $620,000 for Ames Laboratory (for a total of $1,240,000 for Ames); $1,000,000 for advanced combustors in advanced combustion technology; $11,000,000 for the 7.5 megawatt phosphoric acid fuel cell technology; $1,000,000 for solid oxide fuel cells; $9,000,000 for testing of gas clean-up systems at the Waltz Mill, PA, gasifier; $1,000,000 for eastern oil shale; and $6,000,000 for deletion of management initiative savings; and decreases of $3,000,000 for on-site fuel cell technology; $1,500,000 for turbine technology in heat engines; $3,000,000 for the ash agglomerating gasifier PDU; $2,000,000 for eastern Devonian shales gas recovery; and $1,000,000 for general plant construction projects.

The managers agree not to earmark additional funds from within available funds for Ames laboratory, the consortium for fossil fuel liquefaction, or for liquefaction by pyrolysis, as originally proposed by the Senate.

The managers agree that an addition $4,000,000 is to be provided from available funds for the University of North Dakota Energy Research Center (UNDERC) for a total funding levels of $6,165,000 and that none of these additional funds should be from coal preparation technology.

Further, the managers agree that new cooperative agreements for UNDERC and Western Research Institute (WRI) should be negotiated to extend through the end of fiscal year 1992 as proposed by the Senate at the levels indicated in the Senate report (Senate Report 99-141). These levels are in addition to any funds provided by the Department in competitive processes.

The managers agree that $2,000,000, in addition to currently unobligated fiscal year 1985 funds, should be provided for the 11 megawatt fuel cell program to continue inverter and stack technology work through the development of stack configuration "B". This funding is a continuation of existing efforts to develop the system and the Department should promptly modify the existing contract with International Fuel Cells (IFC) to include FY 1985 funds already appropriated and FY 1986 funds provided in this Act.

The managers agree that of the $3,000,000 added above the budget for the oil shale program, $2,000,000 is to augment the eastern oil shale technology base and $1,000,000 is for oil shale extraction research to be administered by the Idaho Operations Office. The Department, through the Morgantown Energy Technology Center, is directed, within available funds, to study and report to the Committees on the feasibility of establishing and operating a generic oil shale test facility.

Language is included in the bill deriving $200,000 of transferred funds from a wood pellet gasifier facility as proposed by the Senate.

Language is also included in the bill providing that funds made available for demonstration of the Kilngas coal gasification process be repaid up to double the amount appropriated. The Department should move promptly to provide funds necessary to continue the Kilngas project.

Bill language is included providing for implementation of the multiyear plan for magnetohydrodynamics (MHD) which includes cost-sharing by private industry. The managers agree that if the Department's multiyear plan is significantly delayed because of failure to provide adequate and timely funding at a level approximately the same as that in this Act, modifications will be made in cost-sharing requirements. The managers also agree that the costs of fabricating equipment to be tested in government-owned facilities and not intended to be installed as a permanent part of the facility are to be included in amounts that require cost-sharing and that the costs of installing and testing such equipment shall be costs of the government-owned facility and not subject to cost-sharing.

ENERGY CONSERVATION

Appropriates $449,418,000 for energy conservation instead of $468,326,000 as proposed by the House and $436,587,000 as proposed by the Senate. The increase above the amount proposed by the Senate consists of increases of $200,000 for windows and daylighting in building systems; $2,000,000 for the Urban Consortium; $500,000 for heat pumps in tehnology and consumer products; $900,000 for mercury isotope separation; $7,500,000 for a cost-shared steel industry initiative; $250,000 for nickel-cadmium battery research; $500,000 for the electric vehicle users group; $500,000 for territories energy projects; $750,000 for tribology research at Argonne National Laboratory; $10,319,000 for the basic industries research facility at Northwestern University; $4,000,000 for deletion of management initiative savings; and $3,639,000 to restore funding for employment floors; and decreases of $350,000 for the Rural Housing Act study; $250,000 for outside contractor support in waste energy reduction in industrial conservation; $8,000,000 for the Stirling engine; $630,000 for technology transfer in vehicle propulsion R&D; $100,000 for electric vehicle battery research; $250,000 for technology transfer in transportation systems utilization; $3,182,000 for State energy policy and conservation grants; $1,159,000 for the Energy Extension Service; $250,000 for program direction travel in State and local programs; $500,000 for biocatalysis; and $3,556,000 for increased use of prior year unobligated balances.

The managers have not agreed to include $8,000,000 proposed by the Senate for fiscal year 1987 requirements for the Stirling engine. That amount and $4,000,000 to come from private contributions would complete the project and the managers defer such funds without prejudice, to be reconsidered in the fiscal year 1987 budget process.

The managers agree that the increase of $1,500,000 over the budget for electric vehicle batteries should be for research on lead-acid, zinc-bromine, nickel-zinc, and iron-air battery concepts.

The managers also agree with the position stated in the House report (House Report 99-205) with regard to recognition of the Government's support for nickel-cadmium battery development in contracts using the technology.

The managers agree that $2,500,000 becoming available from the electric vehicle loan program and other unobligated electric vehicle research funds is to be used to develop an advanced vehicle propulsion system, the ETX-II.

Language is included in the bill specifying the amount for the basic industrial research facilities as proposed by the House.

Language is also included, as proposed by the House, providing that a weatherization "performance fund" not be implemented unless funding levels are at least 5 percent above fiscal year 1985 levels.

Bill language is included providing $7,500,000 in Federal funding for a steel initiative to develop new technologies which will increase the energy efficency of steel production processes will be cost-shared by the U.S. steel industry in cooperative R&D efforts, starting with 30 percent cash and/or in-kind contributions for Federal government obligations made in fiscal year 1986. This initiative should be modeled after, but not exclusively follow, the April 1985 Field Task Proposal prepared by the Argonne National Laboratory.

EMERGENCY PREPAREDNESS

Appropriates $6,044,000 for emergency preparedness instead of $6,754,000 as proposed by the Senate and $3,989,000 as proposed by the House. The decrease from the Senate proposal is $710,000. The managers agree that analysis of risks to energy supplies and meeting defense energy requirements are higher priority activities than general energy awareness activity.

STRATEGIC PETROLEUM RESERVE

Appropriates $113,043,000 for the Strategic Petroleum Reserve as proposed by the Senate instead of $199,017,000 as proposed by the House. The appropriated amount, is the net budget authority required based on a reestimate by the Department of requirements for continuing construction of storage capacity as directed by the fiscal year 1985 Supplemental appropriations Act (P.L. 99-88). Total funds expected to be required are summarized in the following table:

Fiscal year 1986 requirements

Planning	$4,552,000
Phase III construction	156,691,000
Non-phase specific construction	210,737,000
Program direction	11,747,000
Total	383,727,000
Less: carry-over funds available	270,684,000
New budget authority for FY 1986	113,043,000

The managers agree that carry-over funds may be used to support stated FY 1986 requirements instead of those areas for which they were originally provided.

Bill language proposed by the House specifying minimum required fill rates for the Reserve has been deleted.

SPR PETROLEUM ACCOUNT

Provides for no rescission of SPR petroleum funds as proposed by the House instead of $160,000,000 as proposed by the Senate. The Department of Energy has adequate funds available to fill the reserve to 500 million barrels. Bill language is included to authorize the Secretary of Energy, in cooperation with the Secretary of Agriculture, to barter surplus Commodity Credit Corporation commodities for crude oil.

ENERGY INFORMATION ADMINISTRATION

Appropriates $60,682,000 for the Energy Information Administration as proposed by the Senate instead of $60,782,000 as proposed by the House. The managers agree that within available funds $100,000 is to be available for the State energy data system/energy price and expenditure data system and $200,000 is to be available for State heating oil price and inventory grants.

ADMINISTRATIVE PROVISIONS

Language is included which deletes the reporting requirements for the completed Alternative Fuels Production program, as proposed by the Senate.

DEPARTMENT OF HEALTH AND HUMAN SERVICES
HEALTH RESOURCES ADMINISTRATION

INDIAN HEALTH SERVICES

Appropriates $823,133,000 for Indian health services instead of $836,483,000 as proposed by the House and $802,684,000 as proposed by the Senate.

The decrease below the amount proposed by the House consists of: $3,000,000 for mandatory cost increases, $500,000 for emergency medical services, $2,000,000 for indirect costs, $1,000,000 for alcoholism, $4,800,000 for contract care, $412,000 for sanitation, $372,000 for public health nursing, $116,000 for health education, $200,000 for urban health programs, $450,000 for tribal management, and $500,000 for program management.

The managers agree that $1,900,000 is provided for the model diabetes program and $100,000 is provided for fetal alcohol syndrome research at the University of Washington.

The increase of $3,000,000 included for tribal contract indirect costs is for all tribal contracts, existing as well as new.

INDIAN HEALTH FACILITIES

Appropriates $46,947,000 for Indian health facilities instead of $61,483,000 as proposed by the House and $35,888,000 as proposed by the Senate.

The net decrease below the amount proposed by the House consists of an increase of $650,000 for repairs at Ft. Defiance, AZ and decreases of $1,000,000 for sitework for the Pine Ridge, SD hospital, $1,740,000 for planning and design of the Shiprock, NM hospital, and $12,446,000 for construction of the Sacaton, AZ hospital.

Bill language has been included directing that the Rosebud, SD hospital be designed and built with a capacity of 35 beds. The managers believe that there is a need for a surgical suite at either Rosebud or Pine Ridge to provide improved health care in that area. The Indian Health Service shall submit a report to the House and Senate Committees on Appropriations with recommendations as to the better location for a surgical unit within 90 days of enactment of this Act.

The managers must again express their dissatisfication with the slow progress made by HHS, PHS, HRSA and IHS in moving ahead with construction projects for which funds have been provided. Initial planning funds were provided for the Sacaton, AZ hospital in fiscal year 1982 and the design for this project has yet to be completed despite continued funding and support from the Congress. IHS is directed to expedite this project and to notify the Committees on Appropriations as soon as the design is complete and the project is read for bid.

The managers have not provided funds for sitework at Pine Ridge, SD, and design of the major modernization of the Shiprock, NM hospital only because of delays in schedules and the need to complete other projects already under construction before proceeding with additional projects. However, the managers are committed to proceeding with these projects at the earliest possible opportunity.

At the request of the subcommittees, the Office of Technology Assessment conducted a limited survey of the methodology employed by the Indian Health Service to determine if surgical capacity should be provided in new and replacement facilities. The survey identified several shortcomings in the current IHS application of the planning procedure. The Indian Health Service shall submit a report to the Interior appropriations subcommittees detailing the present system and any proposed changes to the system by March 31, 1986. Further, IHS is directed to employ the methodology uniformly with respect to all hospital construction projects.

The managers agree that within the amount provided for sanitation, $5,000,000 is available for construction of water and sewer facilities on the new lands acquired pursuant to the Navajo and Hopi Indian Relocation Act.

The managers agree that the IHS shall report to the Committees any unobligated balances remaining available at the completion of a construction project before using such balances for other projects.

ADMINISTRATIVE PROVISIONS

Earmarks $180,000 of prior year funds to settle a claim against the Seattle Indian Health Board as proposed by the Senate instead of $270,000 plus interest as proposed by the House.

The managers agree that the bill language limitation on the initial leasing of facilities does not apply to newly recognized tribes who contract with IHS and who require facilities in which to begin a health delivery program. Such lease costs shall be paid from funds otherwise available for such contract.

DEPARTMENT OF EDUCATION

OFFICE OF SECONDARY AND ELEMENTARY EDUCATION

INDIAN EDUCATION

Apppropriates $67,476,000 for Indian Education instead of $67,656,000 as proposed by the House and $67,356,000 as proposed by the Senate.

Within this amount $14,820,000 is for parts B and C instead of $15,000,000 as proposed by the House and $14,700,000 as proposed by the Senate. The change from the amount proposed by the Senate is for an increase of $120,000 for part B for educational personnel development to provide additional training for student teachers and educational personnel.

The managers agree that administrative actions to remedy problems in the part C program must be taken.

Language is included to allow funding for section 423 of the part B program to remain available until September 30, 1987 as proposed by the Senate.

OTHER RELATED AGENCIES

NAVAJO AND HOPI INDIAN RELOCATION COMMISSION

Appropriates $22,491,000 for salaries and expenses instead of $20,442,000 as proposed by the House and $22,241,000 as proposed by the Senate. The increase over the Senate recommendation is $250,000 for post-move counseling services.

Language is included which states that the Commission shall notify the Secretary of the Interior by January 1, 1986 of those eligible relocatees who as of November 30, 1985 were still physically domiciled on the Hopi Partitioned Land who had applied for relocation to the new lands as well as those who were physically domiciled on the lands partitioned to the Hopi Tribe who had not selected a site for relocation. The Commission shall designate these individuals for relocation to the lands selected in accordance with section 11(a) of the Act of December 22, 1974 after the Secretary has granted a homesite lease for the "new lands". Neither the Secretary of the Interior nor the Bureau of Indian Affairs shall grant homesite leases on behalf of relocatees onto the existing Navajo reservation. The bill also contains language prohibiting evictions of Navajo households which were physically domiciled on the lands partitioned to the Hopi Tribe as of November 30, 1985 until such time as a new or replacement dwelling is available for such household.

Approximately $48,000,000 will be available in fiscal year 1986 for the provision of housing and related facilities for relocatees. The reduction below the amount proposed by the Senate for the entire program does not reflect a desire to delay relocation, but is merely recognition of the fact that the full amount provided by the Senate could not be spent in a single year.

It is the managers' expectation that the Navajo and Hopi Tribal Chairmen will continue to meet and seek to negotiate a comprehensive settlement as suggested in the Clark/Morris report.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

Appropriates $178,063,000 for salaries and expenses instead of $182,599,000 as proposed by the House and $176,218,000 as proposed by the Senate.

The net increase over the Senate consists of increases of: $165,000 to the National Museum of American Art for the Bicenten-

nial of the Constitution, $31,000 for asbestos removal at Silver Hill, $98,000 for storage and conservation for the National Portrait Gallery, $120,000 to the Archives of American Art for collections management and conservation, $360,000 for the inaugural exhibit of the Center for Asian Art, $250,000 for the Museum of African Art, $45,000 for the Conservation Analytic Laboratory, $350,000 for grants to the National Symphony Orchestra and the Washington Opera, and $676,000 for an inflation adjustment; and a decrease of $250,000 for Plant Services.

$777,000 is provided for the National Museum Act as proposed by the Senate rather than $793,000 as proposed by the House.

$175,000 each is earmarked for grants to the National Symphony Orchestra and the Washington Opera instead of $350,000 each as proposed by the House and no funds as proposed by the Senate.

Bill language is included, as proposed by the Senate, allowing the Secretary to support American overseas research centers.

CONSTRUCTION AND IMPROVEMENTS, NATIONAL ZOOLOGICAL PARK

Appropriates $5,551,000 as proposed by the Senate instead of $4,851,000 as proposed by the House.

RESTORATION AND RENOVATION OF BUILDINGS

Appropriates $11,075,000 as proposed by the House instead of $12,375,000 as proposed by the Senate.

Bill language is included, as proposed by the Senate, restoring language carried in prior years providing for funds to remain available until expended, and providing that the Secretary may negotiate and award contracts on the basis of qualifications as well as price.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

Appropriates $33,754,000 for salaries and expenses, instead of $34,379,000 as proposed by the House and $33,934,000 as proposed by the Senate. The decrease from the amount proposed by the House includes $225,000 for conservation positions and related equipment, and $400,000 from operation and maintenance of buildings, for transfer to the repair, restoration and renovation account.

REPAIR, RESTORATION, AND RENOVATION OF BUILDINGS

Appropriates $3,300,000 instead of $2,900,000 as proposed by the House and $4,000,000 as proposed by the Senate.

Language is included, as proposed by the Senate, adding the words "grounds and facilities".

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

Appropriates $3,392,000 for salaries and expenses instead of $2,902,000 as proposed by the Senate and $3,342,000 as proposed by the House. The increase over that amount proposed by the Senate is $490,000 for conference planning.

ENDOWMENT CHALLENGE FUND

Bill language is provided which establishes an endowment challenge fund for the Woodrow Wilson International Center for Scholars, to remain available until September 30, 1988. The managers agree to appropriate $1,000,000 for this endowment challenge with the stipulation that the Federal funds are to be matched on a 3:1 basis with new and increased sources of private support.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

Appropriates $137,260,000 as proposed by the House instead of $132,900,000 as proposed by the Senate. This includes $121,678,000 for program and state grants as proposed by the House instead of $116,900,000 as proposed by the Senate; and $15,582,000 for administrative programs as proposed by the House instead of $16,000,000 as proposed by the Senate.

The managers agree on the following allocation of funds:

Program grants:	
Artists-in-Schools	5,341,000
Educational program	98,000
Dance	8,900,000
Design Arts	4,312,000
Expansion Arts	6,713,000
Folk Arts	3,000,000
Inter Arts	4,000,000
Literature	5,145,000
Media Arts	12,065,000
Museums	11,370,000
Music	12,310,000
Opera/Musical Theatre	4,267,000
Locals Test	2,200,000
Theatre	10,880,000
Visual Arts	6,272,000
Advancement	200,000
Subtotal, program grants	97,073,000
State Programs	24,605,000
Subtotal, grants	121,678,000
Administration area:	
Policy Planning and Research	980,000
Administration	14,602,000
Subtotal, administrative area	15,582,000
Total, grants and administration	137,260,000

The managers agree that the increase over fiscal year 1985 for the media program includes $2,000,000 for the purpose of television programming in the arts and the sum of $1,000,000 for programming on National Public Radio.

MATCHING GRANTS

Appropriates $29,400,000 as proposed by the House instead of $30,000,000 as proposed by the Senate. This includes $8,820,000 for Treasury funds and $20,508,000 for challenge grants.

ARTS AND ARTIFACTS INDEMNITY FUND

Appropriates $300,000 for the Arts and Artifacts Indemnity Fund as proposed by the Senate.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

Appropriates $110,818,000 instead of $111,549,000 as proposed by the House and $108,978,000 as proposed by the Senate. This includes $96,618,000 for program and state grants instead of $98,429,000 as proposed by the House and $94,650,000 as proposed by the Senate; and $14,200,000 for administrative programs instead of $13,120,000 as proposed by the House and $14,328,000 as proposed by the Senate.

The managers agree on the following allocation of funds:

Program grants:	
Media Grants	$8,918,000
Museums and Historical Organizations	8,820,000
Humanities programs for youth	750,000
Humanities programs for adults	1,900,000
Humanities projects in libraries	2,940,000
Education programs	16,500,000
Fellowships and seminars	15,077,000
Research grants	16,500,000
Subtotal, program grants	71,405,000
State programs	21,213,000
Office of Preservation	4,000,000
Subtotal, grants	96,618,000
Administrative area: Administration	14,200,000
Total, grants and administration	110,818,000

MATCHING GRANTS

Appropriates $28,660,000 instead of $27,929,000 as proposed by the House and $30,500,000 as proposed by the Senate. This includes $11,660,000 for Treasury funds and $17,000,000 for challenge grants.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

Appropriates $2,000,000 for grants.

The managers have included bill language authorizing a grant program for artistic and cultural organizations of national repute which are located in the District of Columbia. For fiscal year 1986, the managers agree that the amounts provided to eligible organizations through the National Park Service and the Smithsonian Institution shall be counted against the $500,000 annual limit on grants contained in this section.

INSTITUTE OF MUSEUM SERVICES

Appropriates $21,523,000 for the Institute of Museum Services instead of $21,560,000 as proposed by the House and $15,870,000 as proposed by the Senate. The reduction below the amount proposed by the House consists of a decrease of $33,000 in administration and a decrease of $4,000 for the Museum Services board.

The managers agree that the Institute should clarify application packets with respect to the financial information which should accompany grant applications.

COMMISSION OF FINE ARTS

Appropriates $382,000 for salaries and expenses as proposed by the Senate instead of $377,000 as proposed by the House.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

The managers agree that the Council's administration of section 106 with principal reliance on consultation to accommodate historic preservation objectives with Federal project needs is sound and consistent with the intent of Congress underlying section 106. The managers further endorse the active role conferred upon the State Historic Preservation Officer in the consultation process.

NATIONAL CAPITAL PLANNING COMMISSION

Appropriates $2,712,000 for salaries and expenses instead of $2,721,000 as proposed by the House and $2,703,000 as proposed by the Senate. The increase of $9,000 from the amount proposed by the Senate is to restore funding for salaries and expenses reduced by the pay reduction proposed by the Administration.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

Appropriates $2,329,000 for salaries and expenses as proposed by the Senate instead of $2,316,000 as proposed by the House.

UNITED STATES HOLOCAUST MEMORIAL COUNCIL

Appropriates $2,125,000 for the Holocaust Memorial Council as proposed by the Senate instead of $2,119,000 as proposed by the House.

Language is included which provides the authority for the Chairman of the United States Holocaust Memorial Council to appoint persons who are not members of the Council to committees associated with the Council. If expenses are incurred by these designees they are to be paid out of the private funds of the Council.

Bill language is also included which clarifies that the Holocaust Memorial Council is an independent Federal establishment, in addition to amending 36 U.S.C. 1407 to make it clear that the Congress regards the funds donated to the Council for the construction of the Holocaust Memorial Museum as nonappropriated funds notwithstanding other provisions of law which treat such funds as trust funds permanently appropriated for Government purposes. The managers agree that it is important that the Council be free to invest the donations in interest-bearing securities so as to provide an adequate endowment for operation and maintenance needs once the Museum is constructed. The Council may expend its donations in accordance with its statutory purpose but without regard to procurement-related statutes and regulations or other restrictions or requirements applicable to the expenditure of appropriated funds.

So as to ensure sufficient congressional oversight over the Council's nonappropriated fund activities and expenditures, two new sections are added to the end of 36 U.S.C. 1408 requiring an annual report to the Congress on the use of the funds donated for museum construction, and authorizing the Comptroller General of the United States to audit the Council's financial transactions using donated funds by granting access to all Council records required to facilitate such audit.

TITLE III—GENERAL PROVISIONS

SEC. 307. Continues unchanged the existing prohibition on the use of funds to process or issue leases for coal, oil, gas, oil shale, phosphate, potassium, sulfur, gilsonite, or geothermal resources on wilderness lands and Forest Service RARE II further planning and Bureau of Land Management study areas rather than providing new language as proposed by the House.

SEC. 312. Provides no dear hunting on Loxahatchee NWR as proposed by the House.

The managers agree that the refuge will support the current deer population and that at this time there is no biological or ecological basis to support a deer hunt.

SEC. 314. Provides certain restrictions on the use of funds for the management or enhancement of grizzly bear habitat on National Park System or National Forest System lands.

SEC. 315. Provides a five year extension of the deadline for benefits to certain nonpreference employees of the Indian Health Service and the Bureau of Indian Affairs.

SEC. 316. Provides an indefinite waiver of the requirement for Alaskan utilities to provide environmental information when requesting exemptions under the Fuel Use Act.

SEC. 317. Provides that the Department of the Interior and the Forest Service, when contracting for private air services, must use FAA certified aircraft unless the Secretary determines such aircraft are not available.

SEC. 318. Provides that no funds available to the Department of the Interior or to the Forest Service may be used to implement a jurisdictional interchange program until enactment of authorizing legislation.

SEC. 319. Provides temporary exceptions for certain acreage limitations for leaseholders on Federal lands within the Gallatin and Flathead National Forests.

SEC. 320. Provides an extension of the date on which certain provisions of the Mineral Lands Leasing Act of 1920, as amended by the Federal Coal Leasing Amendments, become effective. The managers agree that this is a one-time extension.

SEC. 321. Provides a requirement that the Navajo and Hopi Indian Relocation Commission submit a report to Congress by February 15, 1986, on plans for development of the new lands and requires review and comment on the plan by the Secretary of the Interior.

SEC. 322. Provides clarification that the current prohibition on geothermal leasing in the area of Yellowstone National Park is effective until action by Congress to the contrary.

SEC. 323. Provides for a coordinated program of health promotion and disease prevention in schools operated by the Bureau of Indian Affairs.

SEC. 324. Provides clarification in respect to donations utilized for the Holocaust Museum. This language requires an annual report to the Congress on the use of such funds and authorizes the Comptroller General of the United States to audit the Council's financial transactions involving donated funds.

A new section 325 is included which provides a 0.6 percent reduction for budget authority included in the bill for payments not required by law, and for amounts available for the Clean Coal Technology Program in the Energy Security Reserve. The reduction must be taken ratably for each program, activity, and project provided for in the Act.

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATION ACT

Amendment No. 8: Deletes language proposed by the House and Senate and inserts new language relating to the rate for operations for projects or activities provided for in the Department of Transportation and Related Agencies Appropriation Act, 1986.

The House version of H.J. Res. 465 provides appropriations for activities of the Department of Transportation and related agencies at a rate for operations and to the extent and in the manner provided for in H.R. 3244 as passed by the House of Representatives on September 12, 1985. The Senate version of the joint resolution provides appropriations for these activities at a rate for operations and to the extent and in the manner provided for in H.R. 3244 as passed by the Senate on October 23, 1985, amended to provide $1,752,000,000, including transfers, for Coast Guard, operating expenses and $2,714,400,000 for Federal Aviation Administration, operations. The conference agreement incorporates some of the provisions of both the House and Senate versions of the Joint Resolution and has the effect of enacting the Department of Transportation and Related Agencies Appropriation Act, 1986, into law. The conferees agree that the language and allocations set forth in House Reports 99-256 and 99-403 or Senate Reports 99-152 and 99-210 shall be complied with unless specifically addressed to the contrary in the statement of the managers.

The conferees agree that for the purpose of section 252(a)(6)(D)(i)(II) of the Balanced Budget and Emergency Deficit Control Act of 1985 (H.J. Res 372,) with respect to appropriations contained in the Department of Transportation and Related Agencies Appropriation Act, 1986 (H.R. 3244) the terms "program, project, and activity" shall mean any item for which a dollar amount is contained in an appropriation Act (including joint resolutions providing continuing appropriations) or accompanying reports of the House and Senate Committees on Appropriations, or accompanying conference reports and joint explanatory statements of the committee of conference. The conferees agree that this definition shall apply to all programs for which new budget (obligational) authority is provided, as well as to Discretionary grants, Urban Mass Transportation Administration and Interstate transfer grants-highways, Federal Highway Administration. In addition, the percentage reductions made pursuant to section 252(a)(6)(D)(i)(II) of the Balanced Budget and Emergency Deficit Control Act of 1985 to funds appropriated for Facilities and equipment, Federal Aviation Administration and for Acquisition, construction, and improvements, Coast Guard, shall be applied equally to each "budget item" that is listed under said accounts in the budget justifications submitted to the House and Senate Committees on Appropriations as modified by subsequent appropriation Acts and accompanying committee reports, conference reports, or joint explanatory statements of the committee of conference.

The conference agreement incorporates the provisions of H.R. 3244 in accordance with the following agreements:

TITLE I—DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

Appropriates $51,300,000 together with $500,000 from prior year unobligated balances as proposed by the Senate instead of $50,500,000 together with $330,000 derived by transfer as proposed by the House. The conference agreement distributes these funds as follows:

	Allocation
Immediate Office of the Secretary	$980,000
Immediate Office of the Deputy Secretary	490,000
General Counsel	5,560,000
Policy and International Affairs	7,800,000
Budget and Programs	2,180,000
Governmental Affairs	2,600,000
Administration	20,930,000
Public Affairs	1,490,000
Executive Secretariat	780,000
Contract Appeals Board	400,000
Office of Civil Rights	1,300,000
Office of Commerical Space Transportation	500,000
Office of Small and Disadvantaged Business Utilization	[1] 4,400,000
Office of Essential Air Service	1,800,000
Regional Representatives	590,000

[1] Includes $500,000 in carryover funds.

Any deviation from the above allocation shall be requested through the normal reprogramming process.

TRANSPORTATION PLANNING, RESEARCH, AND DEVELOPMENT

Appropriates $3,500,000 instead of $3,000,000 as proposed by the House and $4,000,000 as proposed by the Senate.

PAYMENTS TO AIR CARRIERS

Appropriates $28,000,000 as proposed by the Senate instead of $36,000,000 as proposed by the House.

COAST GUARD

OPERATING EXPENSES

Appropriates $1,652,000,000 including $10,000,000 to be derived by transfer instead of $1,752,000,000 including $25,000,000 to be derived by transfer as proposed by the Senate and $1,785,200,000 including $23,000,000 to be derived by transfer as proposed by the House.

In addition, $100,000,000 has been made available by transfer from the Defense Appropriation Act, 1986, to be used in support of the Coast Guard's military readiness missions, and $15,000,000 has been appropriated to the Navy for the support of Coast Guard drug interdiction activities.

The conference agreement provides that $789,800,000 shall be available for compensation and benefits of military personnel instead of $786,800,000 as proposed by the House and $792,800,000 as proposed by the Senate.

The conference agreement delates position levels proposed by the Senate.

The conference agreement also provides that not less than $328,000,000 shall be available for drug enforcement activities as proposed by the Senate instead of $325,000,000 as proposed by the House.

The conferees direct the Coast Guard to construct a harbor office at Morro Bay, California, and to continue to operate the Great Lakes search and rescue facilities proposed for consolidation in the budget.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

Appropriates $217,300,000 instead of $267,300,000 as proposed by the House instead of $276,300,000 as proposed by the Senate. The Coast Guard is directed to submit within 30 days after enactment a spending plan for all acquisition, construction, and improvements projects to be funded with fiscal year 1986 funds (including those funded in the Defense Appropriation Act). Such plan shall be formulated using the guidance provided in House Report 99-256 and Senate Reports 99-152 and 99-176.

The conferees also direct the Coast Guard to proceed with completion of Phase III of the Boston Shore Support Facility, for which $6,850,000 was appropriated in fiscal year 1985. Phase III shall include construction of office and related support facilities, as originally proposed to and approved by the Congress.

ALTERATION OF BRIDGES

Appropriates $5,200,000 as proposed by the Senate instead of $7,195,000 as proposed by the House. Funds provided in the conference agreement together with available unolbligated funds should be sufficient to provide for the fiscal year 1986 costs of altering the Willamette River Bridge in Portland, Oregon and the Trent River Railroad Bridge in New Bern, North Carolina.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

Appropriates $21,000,000 as proposed by the Senate instead of $23,000,000 as proposed by the House.

BOAT SAFETY

Limits obligations for recreational boating safety assistance to $30,000,000 in fiscal year 1986 and provides a liquidating cash appropriation of $30,000,000 as proposed by the Senate instead of appropriating $13,625,000 as proposed by the House.

The conferees have approved a funding level of $30,000,000 for state recreational boating safety assistance programs, the authorized amount. The conferees have also continued a restriction on these funds so that no obligations may be incurred for the improvement of recreational boating facilities. However, the conferees note that acquiring, constructing, or repairing public access sites used primarily by recreational boaters, and establishing and maintaining facilities for and providing emergency search and rescue assistance, are specific purposes for which the states may use these funds pursuant to Public Law 92-75, as amended. The conferees expect the Coast Guard to promulgate complete and adequate guidelines so that the public access and search and rescue purposes of Public Law 92-75, as amended, may be fully implemented subject to the restriction noted above.

The conferees intend to fully review during the fiscal year 1987 hearings the use of recreational boating safety funds by the states, and will expect the Coast Guard to be prepared to discuss in detail the effectiveness of the Coast Guard's boating safety program.

The conference agreement deletes language proposed by the House exempting Coast Guard training travel expenses from section 2901(a)(1) of the Deficit Reduction Act of 1984.

FEDERAL AVIATION ADMINISTRATION

HEADQUARTERS ADMINISTRATION

Provides transfer authority of up to two percent between the appropriations for Headquarters Administration and Operations as proposed by the Senate.

OPERATIONS

Appropriates $2,694,600,000 as proposed by the House instead of $2,714,400,000 as proposed by the Senate. The conferees direct the Federal Aviation Administration to submit a report to the House and Senate Committees on Appropriations within 15 days after enactment describing the adjustments to the fiscal year 1986 operations funding plan presented in its detailed budget justifications needed to meet the funding level provided in the conference agreement. Such report shall include dollar and position breakdowns by activity. In making this revised distribution, the conferees expect the FAA to use the House and Senate Committee reports as guidance and to include funding for an additional 300 aviation safety inspection positions above the original budget request. The additional inspection positions shall include additional support personnel as well as field inspectors. The conferees also assume that this funding level will support 14,306 air traffic control positions, the level reached in February 1985, plus an additional 500 positions announced by the Department on September 19, 1985. Any deviation from these staffing levels is to be reported promptly to the House and Senate Committees on Appropriations. The conferees expect the FAA to make special efforts to reach these staffing levels by July 31, 1986. The conferees also expect that any potential shortfalls in safey programs resulting from this distribution will be promptly reported to the House and Senate Committees on Appropriations.

The conferees object to restrictive Canadian policies toward aerial survey operations by U.S. affiliated companies in Canada. Canadian operators have established U.S. subsidiaries and obtained Federal Aviation Administration licenses that allow aerial survey aircraft to be used in the United States, and such subsidiary companies compete against U.S.-based corporations for United States government geological survey work. Although this side-looking airborne radar (SLAR) work is bid competitively by the geological survey, no reciprocity is practiced in Canada for U.S. firms.

The conferees expect the FAA to consider changes to 14 CFR Part 375 previously proposed by the Civil Aeronautics Board and published in the Federal Register of October 25, 1984, which would help assure reciprocity for foreign aircraft operating in U.S. airspace. Within 60 days after enactment of this Act the conferees expect the FAA to report to the House and Senate Committees on Appropriations on the status of the previously proposed rule changes and any plans to make other regulatory changes to assure reciprocity. The conferees urge the FAA to adopt rule changes that assure consideration of reciprocity or define foreign and U.S. ownership or control more precisely.

The conference agreement also provides that $446,000,000 of the amount provided for operations shall be derived from the Airport and Airway Trust Fund as proposed by the Senate instead of $548,000,000 as proposed by the House.

The conferees note with concern the two recent aircraft accidents involving air cargo planes at the Tri-State Airport serving West Virginia, Kentucky, and Ohio. One of those accidents involved the loss of life, and both occurred this year during the hours that the air traffic control tower was closed. It is the conferees' understanding that commercial flights carrying over 100 passengers arrive at this airport after the tower has been closed. In view of safety considerations, the Federal Aviation Administration is directed to operate this tower on a 24-hour basis.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

Appropriates $993,000,000 as proposed by the Senate instead of $1,044,000,000 as proposed by the House. The conference agreement includes the following amounts:

Air route traffic control centers	$231,720,600
Airport traffic control towers and terminal equipment	452,412,400
Flight service stations	−10,000,000
Air navigation facilities	158,079,300
Housing, utilities and miscellaneous facilities	174,871,700
Aircraft and related equipment	2,775,000
Development, test, and evaluation	10,141,000

The conferees expect the FAA to comply with the project distribution outlined in House Report 99-256 as modified by Senate Report 99-152. The conferees recognize that delays in some projects might necessitate adjustments to the above allocations and expect these adjustments, if required, to be accomplished through the normal repro-

gramming process. Within the amount provided for airport traffic control towers and terminal equipment, the conference agreement includes up to $40,000 to initiate design work for an air traffic control tower at Obyan, Saipan. In addition to the instrument landing systems identified in the House and Senate Committee reports, the conferees direct the FAA to install an instrument landing system for Runway 11 at Minneapolis-St. Paul International Airport.

The conferees continue to be concerned about both the adequacy and cost effectiveness of automated equipment for consolidated flight service station facilities. House Report 99-256 contains language requiring FAA to report on the relative cost, performance, availability, and eligibility for airport grant funds of commercial and government direct user access terminal (DUAT) systems. Until both the House and Senate Appropriations Committees have evaluated and approved FAA's reported DUAT comparison and selection process, the conferees direct that funding for development of the Model 2 automated flight service station be suspended.

In addition, Senate Report 99-152 required certification of Model 1 equipment and a revised facility consolidation plan to be submitted by December 1, 1985. Until the Committees have received and reviewed these reports, the conferees continue to disapprove fiscal year 1986 consolidations.

The conference agreement also provides that $10,000,000 shall be available to continue the airway science curriculum program as proposed by the Senate instead of $5,000,000 as proposed by the House. The conference agreement includes the following amounts:

University of North Dakota	$4,000,000
Florida Memorial College	3,000,000
Delta State University	2,300,000

RESEARCH, ENGINEERING, AND DEVELOPMENT

(AIRPORT AND AIRWAY TRUST FUND)

Appropriates $190,000,000 together with $15,000,000 to be derived by transfer, instead of $190,000,000 as proposed by the House and $192,000,000 together with $15,000,000 to be derived by transfer as proposed by the Senate. The conference agreement provides that $3,036,412 shall be available for icing and related next generation weather radar atmospheric research to be conducted by the University of North Dakota, $2,000,000 shall be available for the Center for Research and Training in Information-based Aviation and Transportation Management at Barry University, and $2,000,000 shall be available for the Institute for Aviation Safety Research at Wichita State University.

The FAA should perform a thorough, objective, and well documented, benefit-cost analysis to support its Advanced Automation System (AAS) acquisition phase appropriation request. This analysis should include a clear definition of the objective of each element of the AAS program, an identification of all feasible ways of achieving each objective, and a detailed analysis of the costs and benefits expected from each alternative. The analysis should (1) be based on a sound and credible methodology, (2) use as a baseline for comparison an analytical evaluation of the level of effectiveness provided in the ATC system with Host and other pre-AAS enhancements, (3) identify all significant assumptions and models and include an analysis of the sensitivity of results to changes in significant assumptions or variables such as air traffic growth, and (4) be fully documented to facilitate an independent evaluation. FAA should also conduct a full assessment of the technical risks associated with its current acquisition strategy and with alternative strategies. This assessment should clearly identify the technical risks associated with the AAS and each subsystem (including all major software components) and the potential cost, schedule, and performance impacts associated with these risks. Finally, FAA should validate its AAS cost estimates with an independent cost analysis.

The conferees believe these studies are necessary to support this multi-billion dollar investment decision and allocate up to $4,000,000 of this appropriation for FAA to complete them. If additional funding is needed, a supplemental request will be considered. All of these studies should use inputs as necessary from the program office, but should be conducted independent of the program management.

GRANTS-IN-AID FOR AIRPORTS

(AIRPORT AND AIRWAY TRUST FUND)

In addition to the specific projects identified in the House and Senate Committee reports, the conferees direct that priority consideration also be accorded to Mahlon Sweet Airport, Eugene, Oregon.

OPERATION AND MAINTENANCE,

METROPOLITAN WASHINGTON AIRPORTS

Appropriates $34,100,000 as proposed by the Senate instead of $35,400,000 as proposed by the House.

CONSTRUCTION,

METROPOLITAN WASHINGTON AIRPORTS

Appropriates $7,000,000 as proposed by the Senate instead of $12,000,000 as proposed by the House.

AIRCRAFT PURCHASE LOAN GURARANTEE PROGRAM

Limits the total amount that can be borrowed from the Secretary of the Treasury during fiscal year 1986 to pay off defaulted loans to $75,000,000 instead of $10,000,000 as proposed by the House and $125,000,000 as proposed by the Senate.

FEDERAL HIGHWAY ADMINISTRATION

(LIMITATION ON GENERAL OPERATING EXPENSES)

Limits operating expenses tc $203,761,000 as proposed by the Senate instead of $204,500,000 as proposed by the House.

Provides that $48,415,000 of the amount provided for general operating expenses shall remain available until expended as propsed by the Senate instead of $48,589,000 as proposed by the House.

The conference agreement inserts language providing that all unobligated amounts made available under this head in prior fiscal years for the establishment and implementation of a demonstration bonding program for economically and socially disadvantaged businesses shall remain available for such purposes until expended.

The conference agreement does not include the additional fiscal year 1986 funding for the minority business demonstration bonding program proposed by the House. Funds carried over from fiscal year 1985 should be adequate to implement this program in fiscal year 1986. The conferees remain fully supportive of this particular effort, and are concerned about the Department's lack of progress in implementing this program. Bonding capacity for disadvantaged firms has been and continues to be a major impediment to their full participation in contract opportunities. The conferees fully expect the fiscal year 1985 funds made available for this program to be obligated promptly for bonding and bonding assistance programs in Florida, New York, and Pennsylvania. The Department is directed to report to the House and Senate Committees on Appropriations by Feburay 15, 1986, regarding its progress in implementing this program and obligating these funds.

The conference agreement also includes bill language proposed by the House prohibiting the use of the funds in the bill to approve projects to construct a landfill in the Hudson River as part of the Interstate highway system.

RAILROAD-HIGHWAY CROSSING DEMONSTRATION PROJECTS

Appropriates $16,000,000 instead of $38,700,000 as proposed by the House. The Senate bill contained no funds for this program.

The conference agreement includes the following amounts:

Lincoln, Nebraska	$3,000,000
Pine Bluff, Arkansas	1,000,000
Augusta, Georgia	1,000,000
Carbondale, Illinois	3,000,000
Brownsville, Texas	2,500,000
Lafayette, Indiana	5,500,000

Includes language proposed by the Senate providing that the funds made available under this heading for Wheeling, West Virginia highway projects be available at full federal expense.

FEDERAL-AID HIGHWAYS

(LIMITATION ON OBLIGATIONS)

Limits obligations for the federal-aid highways and highway safety construction programs to $12,750,000,000 as proposed by the Senate instead of $13,250,000,000 as proposed by the House.

The conference agreement includes the following allocations of interstate transfer-highways discretionary funds:

Arizona	$1,128,228
Colorado	25,500,000
Illinois	48,646,772
Indiana	2,500,000
Iowa	6,125,000
Maryland	31,600,000
Minnesota	8,000,000
Duluth	(6,000,000)
Minn.-St. Paul	(2,000,000)
New Jersey	10,000,000
New York	6,050,000
Ohio	16,500,000
Oregon	11,350,000
Pennsylvania	7,050,000
Virginia	6,800,000

The conferees are aware of the recent severe flooding that has caused extensive damage to roads and bridges in West Virginia, Virginia, and Pennsylvania. Initial reports indicated that 47 bridges have been destroyed in West Virginia alone and extensive road damage has occurred isolating many communities from essential food supplies, health care, employment centers and markets. Recognizing the urgent need for assistance, the conferees direct the Secretary to give priority consideration to those states for monies from the emergency relief fund for road and bridge repair and reconstruction. These funds are to be used only in those counties declared federal disaster areas.

In addition to those projects identified in the Senate Report 99-152 to receive priority consideration for discretionary bridge funding, the conferees direct that the Denver,

Colorado 23rd Street Viaduct project also receive the same consideration.

MOTOR CARRIER SAFETY

Appropriates $13,900,000 as proposed by the House instead of $13,902,000 as proposed by the Senate.

MOTOR CARRIER SAFETY GRANTS

Appropriates $17,000,000 instead of $14,000,000 as proposed by the House and $20,000,000 as proposed by the Senate.

ACCESS HIGHWAYS TO PUBLIC RECREATION AREAS ON CERTAIN LAKES

Appropriates $10,000,000 of which $5,000,000 shall be derived by transfer instead of $10,000,000 proposed by the Senate. The House bill contained no funds for this program.

BALTIMORE-WASHINGTON PARKWAY

Appropriates $3,000,000 instead of $6,500,000 as proposed by the House.

WASTE ISOLATION PILOT PROJECT ROADS

Appropriates $7,000,000 for the waste isolation pilot project roads in New Mexico instead of $16,260,000 proposed by the Senate. The House bill contained no funds for this program.

RAIL LINE CONSOLIDATION PROJECT

Provides $4,000,000 by transfer instead of $5,000,000 by transfer as proposed by the House.

AIRPORT-HIGHWAY DEMONSTRATION PROJECT

Provides $1,350,000 by transfer instead of $2,700,000 by transfer as proposed by the House.

EXPRESSWAY GAP CLOSING DEMONSTRATION PROJECT

Inserts language authorizing an expressway gap closing project and appropriates $9,000,000 for such project.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

OPERATIONS AND RESEARCH

Appropriates $88,851,000, of which $5,000,000 shall be derived by transfer instead of $78,851,000 as proposed by the Senate and $89,365,000 as proposed by the House. The conference agreement includes the following distribution:

Rulemaking	$7,040,000
Enforcement	11,400,000
Highway safety	13,200,000
Research and analysis	48,261,000
General administration	6,600,000
Office of the administrator	2,350,000

Provides that $29,894,000 shall be derived from the Highway Trust Fund instead of $25,120,000 as proposed by the House and $25,455,000 as proposed by the Senate.

Provides that $36,296,000 shall remain available until expended instead of $36,624,000 as proposed by the Senate and $42,174,000 as proposed by the House.

Provides that $14,833,000 of the amount available until expended shall be derived from the Highway Trust Fund instead of $10,180,000 as proposed by the House and $13,729,000 as proposed by the Senate.

Inserts language proposed by the House requiring that $10,000,000 of the amount provided under this head be available only for the purpose of implementing the recommendations of the 1985 National Academy of Sciences report on trauma research.

Inserts language proposed by the Senate providing $500,000 by transfer for a national program to encourage the use of automobile passive restraints.

Deletes language proposed by the Senate prohibiting any manufacturer from earning credits for exceeding the corporate average fuel economy standard for any model year in which the Secretary has reduced the standard below that originally established by Congress, unless the manufacturer also exceeds the original standard.

FEDERAL RAILROAD ADMINISTRATION

RAILROAD SAFETY

Appropriates $27,764,000 as proposed by the Senate instead of $28,000,000 as proposed by the House.

The conference agreement includes the following amounts:

Federal enforcement	$22,564,000
(Positions)	(379)
Automated track inspection	100,000
Safety regulations/administration	3,600,000
(Positions)	(64)
State grants	1,500,000

In addition, the conferees expect an additional $1,000,000 in unobligated funds to be made available for state safety grants.

Provides that $1,500,000 shall remain available until expended as proposed by the Senate instead of $1,300,000 as proposed by the House.

RAILROAD RESEARCH AND DEVELOPMENT

Appropriates $10,600,000 instead of $10,384,000 as proposed by the Senate and $11,200,000 as proposed by the House.

The conference agreement includes $200,000 to support the development of cooperative efforts between the states, railroads, community groups, and other public service groups to reduce accidents at grade crossings, and up to $100,000 for research into corrosion and surge problems associated with tank car rupture disks that have recently experienced an increased incidence of uncontrolled release of hazardous materials.

The conference agreement also includes $320,000 for the Oregon Graduate Center's research into maintenance and repair of railroad-related components.

RAIL SERVICE ASSISTANCE

Appropriates $20,200,000 as proposed by the House instead of $20,200,000 as proposed by the Senate.

In addition to the Chaplene Tunnel project on the Wheeling Terminal Industrial line identified in the Senate Report to receive priority consideration for local rail service assistance, the conferees urge that priority consideration also be given to a railroad rehabilitation project in Massachusetts and Vermont.

CONRAIL LABOR PROTECTION

Deletes rescission of $8,000,000 proposed by the House.

NORTHEAST CORRIDOR IMPROVEMENT PROGRAM

Of the $12,500,000 provided in the bill for the northeast corridor improvement program, the conferees direct that such funds be allocated according to the distribution in House Report 99-256. The conferees expect Amtrak to submit a reprogramming request to the House and Senate Committees on Appropriations in accordance with standard procedures, if any revisions to this distribution are contemplated.

GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

Provides a total of $616,000,000 for Amtrak operations, capital improvements, and labor protection costs as proposed by the Senate instead of $603,500,000 as proposed by the House.

The conference agreement also provides that, of the total amount available for Amtrak grants, $23,000,000 shall be derived by transfer as proposed by the Senate instead of $15,000,000 by transfer as proposed by the House. These funds are to be derived from the Conrail labor protection account. The conferees have made this recommendation in light of recent reports of the United States Railway Association concluding that "Conrail credibly and reasonably projects that it can weather future economic cycles even while paying 'normalized' expenses such as wage rates, state taxes, and job protection benefits". The United States Railway Association has also endorsed Conrail's five-year outlook that projects healthy net income for the years 1985 to 1989. Therefore to ensure an adequate and necessary employee protection plan, the conferees direct the Secretary to conduct discussions with Conrail's Board of Directors and management to make all necessary arrangements for Conrail to assume full financial responsibility for payments due its employees under sections 701 and 702 of the Regional Rail Reorganization Act of 1973, as amended. The Secretary shall report on the progress of such discussions to the House and Senate Committees on Appropriations no later than March 1, 1986.

Inserts language proposcd by the Senate providing $5,500,000 by transfer from unobligated balances of "Rail labor assistance".

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING FUNDS

Limits new loan guarantee commitments under sections 511 through 513 of the Railroad Revitalization and Regulatory Reform Act of 1976 to $4,000,000 during fiscal year 1986 as proposeed by the Senate. The Senate amendment also deletes House language providing that no new loan guarantee commitments shall be made during fiscal year 1986.

REDEEMABLE PREFERENCE SHARES

Authorizes the expenditure of $33,500,000 as proposed by the Senate instead of $35,500,000 as proposed by the House.

The conference agreement includes the following amounts:

Columbus and Greenville Railroad	$1,900,000
Gulf and Mississippi Railroad	8,000,000
Miami commuter rail	12,500,000
Ann Arbor Railroad	2,600,000
Bangor and Aroostook Railroad	3,000,000
Chicago North Western Railroad	5,500,000

An appropriation of $5,500,000 of section 505 funds is earmarked for the Chicago North Western Railroad only for use in upgrading of trackage in North Dakota and South Dakota. The most pressing need is for the lines between Pierre and Rapid City and Aberdeen in South Dakota to Oakes in North Dakota. Both lines have previously been subjects of abandonment proceedings but provide important service to local shippers and it is therefore in the public interest that rail service continue.

A significant amount of this trackage is in need of work in excess of typical maintenance, including tie renewal, relay rail, surfacing, and bridge rehabilitation. Such work would enhance safe operations and improve service to shippers. The major beneficiaries of this upgrading would be the agricultural communities of North Dakota and South Dakota.

The conferees expect that under this program the Secretary, after complying with the above listed allocations, will give priority consideration to a rail rehabilitation project in Massachusetts and Vermont. It is

also the intent of the conferees that priority consideration will be given to the additional needs of the Tri-County Commuter Rail project for a station connection with the Dade County metrorail for not to exceed $4,000,000, and for the Delaware-Otsego system for rehabilitation of a line between Warwick, New York and Butler, New Jersey. Furthermore, it is the intent of the conferees that Federal Highway Administration "maintenance of traffic" funding shall be available for the operation of the Tri-County commuter rail project.

Deletes the language proposed by the House providing that $5,500,000 shall be derived from unobligated balances of "Rail labor assistance".

Deletes the language proposed by the Senate providing that $17,000,000 shall be derived from unobligated balances of "Redeemable preference shares" as of September 30, 1985.

CONRAIL COMMUTER TRANSITION ASSISTANCE

Provides $5,000,000 by transfer instead of an appropriation of $10,000,000 as proposed by the House.

The conferees are aware of the unusual bridge repair funding needs of the Philadelphia-area commuter rail system that have been brought about by the federally-mandated transfer of ownership of Conrail commuter rail property. In addition to the $5,000,000 provided in the conference agreement to make such repairs, the conferees direct that UMTA make available to the Southeastern Pennsylvania Transportation Authority (SEPTA) an additional sum of $5,000,000 from Discretionary Grant program rail modernization funds for such commuter rail bridge repairs. The conferees expect these funds to be made available in addition to funds SEPTA could otherwise expect to receive from the rail modernization program based on its historical percentage share of program funds for the fiscal year 1981 to fiscal year 1985 period. In addition, to the maximum extent feasible, it is expected that minority businesses will be given every opportunity to perform the work resulting from this appropriation. However, the Department, in implementing such a plan, should not reduce its quality assurance criteria or lessen its standards of contract responsibility.

URBAN MASS TRANSPORTATION ADMINISTRATION

ADMINISTRATIVE EXPENSES

Appropriates $30,000,000 as proposed by the Senate instead of $31,000,000 as proposed by the House.

Limits funding for the Office of the Administrator to $650,000 instead of $350,000 as proposed by the House. The conferees expect all salaries and expenses associated with the immediate offices of the administrator, deputy administrator, and executive director to be financed from this account.

The conferees agree that the extent of private sector involvement in the provision of public transit is best decided at the local level. The federal policy under the existing Urban Mass Transportation Act relating to the choice of service providers is one of neutrality. The conferees expect that explicit policy on privatization in the transit industry should be explored by Congress and decided only after appropriate rulemaking with the opportunity for public comment. While such rulemaking is underway, it is the conferees' view that conditioning the release, allocation, or level of federal transit grant funding on a showing by applicants of a certain level of involvement of private sector providers in the provision of mass transportation services is not consistent with the Urban Mass Transportation Act of 1964, as amended.

RESEARCH, TRAINING, AND HUMAN RESOURCES

Appropriates $17,400,000 as proposed by the Senate instead of $28,103,000 as proposed by the House.

The conference agreement includes $7,700,000 for the integrated transportation center, $250,000 for the Michigan state assistance model, and $2,500,000 to continue the existing cold weather transit technology program. The conferees direct the Department's Transportation Systems Center to evaluate the cold weather transit technology program and to report to the House and Senate Committee on Appropriations regarding the applicability of this technology to transit operations that are affected by severe cold weather.

FORMULA GRANTS

Appropriates $2,150,000,000 instead of $2,100,000,000 as proposed by the Senate and $2,210,000,000 as proposed by the House.

DISCRETIONARY GRANTS

Limits obligations to $1,045,000,000 instead of $1,010,000,000 as proposed by the House and $1,100,000,000 as proposed by the Senate.

The conference agreement includes the following amounts:

Bus and bus facilities	$145,000,000
Rail modernization and extensions	430,000,000
New systems and new extensions	385,000,000
Portland	(8,950,000)
Seattle	(24,650,000)
Miami	(38,000,000)
Santa Clara	(65,000,000)
Atlanta	(69,000,000)
Los Angeles	(101,000,000)
Houston	(54,750,000)
St. Louis	(13,500,000)
Buffalo	(850,000)
San Diego	(9,300,000)
Planning	50,000,000
Elderly and handicapped	30,500,000
Innovative techniques and technology introduction	5,000,000

The conferees intend that the $850,000 included under new systems for Buffalo shall be used only for light rail construction on the Naval Park Station.

The conferees expect UMTA to be fully responsive to report language in the Senate Report 99-152 directing UMTA to credit certain funds beyond the local contribution, provided by local governments and downtown business towards the local match for additional federal monies on the Banfield project in Portland, Oregon.

LIQUIDATION OF CONTRACT AUTHORIZATION

Appropriates $775,000,000 as proposed by the Senate instead of $720,000,000 as proposed by the House.

INTERSTATE TRANSFER GRANTS-TRANSIT

Appropriates $218,750,000, of which $18,750,000 shall be derived by transfer, instead of $200,000,000 as proposed by the Senate and $237,500,000 as proposed by the House.

The conference agreement includes the following discretionary allocations:

Sacramento	$10,855,500
Chicago	67,187,779
Boston	11,875,000
Duluth	237,500
New Jersey	4,201,721
Cleveland	14,125,000
Indianapolis	892,500

The conferees recognize that delays in some regions' projects might necessitate adjustments to the above allocations. The conferees expect these adjustments, if required, to be accomplished through the normal reprogramming process.

WASHINGTON METRO

Appropriations $227,000,000 instead of $187,500,000 as proposed by the Senate and $237,500,000 as proposed by the House.

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

LIMITATION ON ADMINISTRATIVE EXPENSES

Limits administrative expenses to $1,916,000 instead of $1,890,000 as proposed by the House and $1,942,000 as proposed by the Senate.

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION

RESEARCH AND SPECIAL PROGRAMS

Appropriates $19,300,000 instead of $19,200,000 as proposed by the Senate and $19,400,000 as proposed by the House.

The conference agreement includes three positions for a new special hazardous materials enforcement team and four positions to continue the essential air service information program. The conferees direct the Secretary to submit a report to the House and Senate Committee on Appropriations by March 1, 1986, describing the Research and Special Programs Administration's implementation plan for the new special enforcement team.

The conference agreement also deletes language proposed by the Senate allowing the research and special programs appropriation to be credited for training fees received from non-federal entities.

OFFICE OF THE INSPECTOR GENERAL

SALARIES AND EXPENSES

Appropriates $27,600,000 instead of $27,250,000 as proposed by the Senate and $27,950,000 as proposed by the House. The conference agreement provides funding for an additional 10 positions over the budget request to continue essential air service audits.

TITLE II—RELATED AGENCIES

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

SALARIES AND EXPENSES

Appropriates $1,975,000 as proposed by the Senate instead of $2,000,000 as proposed by the House.

NATIONAL TRANSPORTATION SAFETY BOARD

SALARIES AND EXPENSES

Appropriates $22,300,000 instead of $22,200,000 as proposed by the Senate and $22,000,000 as proposed by the House.

Limits funds for official reception and representation expenses to $500 as proposed by the Senate instead of $300 as proposed by the House.

INTERSTATE COMMERCE COMMISSION

SALARIES AND EXPENSES

Provides a total of $50,480,000 of which $2,300,000 shall be derived by transfer as proposed by the House instead of a total of $49,300,000 including $2,300,000 by transfer as proposed by the Senate.

The conference agreement includes the following amounts:

Chairman	$500,000

(Staff years)	(7)
Commissioners	1,825,000
(Staff years)	(27)
Satellite offices	1,050,000
(Staff years)	(22)
Secretary	3,100,000
(Staff years)	(85)
General Counsel	1,800,000
(Staff years)	(27)
Proceedings	8,600,000
(Staff years)	(150)
Hearings	570,000
(Staff years)	(8)
Special Counsel	525,000
(Staff years)	(7)
Transportation analysis	2,400,000
(Staff years)	(30)
Accounts	6,910,000
(Staff years)	(100)
Traffic	3,800,000
(Staff years)	(81)
Compliance and Consumer Affairs	14,400,000
(Staff years)	(257)
Managing Director	5,000,000
(Staff years)	(88)

The conferees expect the Interstate Commerce Commission to use normal reprogramming procedures should it propose to deviate in any way from the staffing allocations or by more than five percent from the funding allocations listed above.

PANAMA CANAL COMMISSION

OPERATING EXPENSES

Limits funds for official reception and representation expenses of the Secretary to $1,000 instead of $5,000 as proposed by the House.

Appropriates $400,284,000 as proposed by the Senate instead of $401,284,000 as proposed by the House.

The conference agreement also deletes language proposed by the Senate requiring transfer of capital investment interest to the General fund.

CAPITAL OUTLAY

Provides for the purchase of 44 passenger motor vehicles as proposed by the Senate instead of 47 passenger motor vehicles as proposed by the House.

Appropriates $25,500,000 as proposed by the Senate instead of $26,500,000 as proposed by the House.

DEPARTMENT OF THE TREASURY

OFFICE OF THE SECRETARY

INVESTMENT IN FUND ANTICIPATION NOTES

Appropriates $33,500,000 as proposed by the Senate instead of $35,500,000 as proposed by the House.

UNITED STATES RAILWAY ASSOCIATION

ADMINISTRATIVE EXPENSES

Appropriates $2,400,000 as proposed by the Senate instead of $2,100,000 as proposed by the House.

TITLE III—GENERAL PROVISIONS

Restores House language prohibiting the use of funds for the planning or implementation of any change in the current federal status of the Transportation Systems Center.

Prohibits funds for salaries and expenses of more than 138 political appointees in The Department of Transportation instead of 105 political appointees as proposed by the House.

Limits funds for the Department of Transportation for expenses of advisory committees to $1,700,000 instead of $1,000,000 as proposed by the House.

The conferees have deleted the statutory requirement for letters of intent for Seattle, Los Angeles and Miami. However, the conference agreement includes languages requiring the Secretary to commence negotiations with appropriate local authorities to execute full funding contracts for Seattle, Los Angeles and Miami based upon past-years' funding and the available fiscal year 1986 funding identified elsewhere in the statement of the managers. Future years' funding will be considered in subsequent appropriation Acts. Such contracts shall provide for completion of these projects according to the following distribution:

Total Federal funding

Project	*Amount*
Los Angeles, MOS 1	$429,000,000
Miami, DCM (north and south legs)	180,000,000
Seattle, bus tunnel	175,000,000

In directing the Secretary to enter into negotiations of full funding contracts, the conferees expect that at least the following conditions will be included in such contracts. Each contract shall provide for a stable and reliable financial plan, agreed upon by both parties. The financial plan required should also identify actions to be taken if revenue forecasts prove to be inadequate with reference to capital and operating costs.

In setting a limit in UMTA's financial participation in these projects, the conferees do not intend to include cost overruns in excess of agreed upon extraordinary costs under the full funding contracts. The contracts shall contain language to provide that such cost overruns will be paid for from non-federal sources of funds. Also, assurances should be provided for adequate bus operations to support each system and other transit needs.

The conferees fully expect the Secretary and the designated cities to reach agreement within the 90-day time limit. This deadline may only be extended upon agreement by both parties. If the deadline is not met, the conferees expect the parties to report to the House and Senate Committees on Appropriations on the reason for any delays and to continue reporting on the status of the negotiations at regular intervals until each contract is executed.

In the absence of good faith negotiations by either party, the conferees intend to revisit the necessity for further legislative action regarding full funding contracts for these three projects.

Restores House language requiring the Urban Mass Transportation Administration to enter into a contract with the Southern California Rapid Transit District to conduct a study of the potential methane gas risks relating to the proposed alignment of the Metro Rail Project beyond the Minimum Operable Segment, MOS-1. An environmental impact statement (EIS) must be prepared in accordance with the National Environmental Policy Act and UMTA procedures. In addition to the already completed EIS, the Southern California Rapid Transit District must assess the geological risks of the project and methods for mitigating them. Such assessment must be conducted according to the language outlined in the resolution.

Restores House language providing that tolls collected for motor vehicles on any bridge connecting the borough of Brooklyn, New York, and Staten Island, New York, shall only be collected for those vehicles exiting for such bridge in Staten Island.

Inserts language proposed by the Senate allowing the State of Wyoming to conduct a 2-year demonstration project to determine the effects on the Interstate system of trucks that exceed the 80,000 pounds gross vehicle weight limit.

The conferees expect that after the completion of the demonstration project, the State of Wyoming will transmit to the Secretary of Transportation any study which the State of Wyoming conducts regarding such demonstration project. Within 30 months after the date of enactment of the accompanying resolution, the Secretary of Transportation shall submit to the Congress an evaluation of such demonstration project. Such evaluation shall include an assessment of the safety performance of such vehicles, and the effects of such vehicles on the condition of the highways over which they were operated.

Inserts language proposed by the Senate exempting funds received by a recipient of funds under section 18 pursuant to a service agreement with a State or local social service agency or a private social service organization from the definition of the term "Federal funds or revenues".

Deletes language proposed by the Senate requiring the Secretary to release all funds made available for fiscal year 1986 and prior years for grants under the contract authority authorized by section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended, within 90 days.

Inserts language proposed by the Senate categorizing the proposed Belle Vernon Bypass as an open-to-traffic segment rather than an essential gap and enabling Pennsylvania to transfer an amount equivalent to the cost to complete the segment from its Interstate construction apportionment to Interstate 4R.

Inserts language proposed by the Senate requiring the United States government to indemnify any person who publishes aeronautical charts or maps under certain circumstances.

The conference agreement requires the United States to enter into agreements to indemnify the publishers of aeronautical charts or maps who incur liability for accurately depicting defective or deficient flight procedures promulgated by the Federal Aviation Administration, except where the defect or deficiency is obvious.

This section is not intended to impose a general duty on the publishers to verify independently the accuracy or safety of Federal Aviation Administration flight procedures or airways, or to imply that the publishers have the means to do so, except where there are obvious defects or deficiencies in such flight procedures or airways. It is not the conferees' intention to impose an unreasonable burden on the publisher.

The conferees have agreed to the Senate language because of the unusual conditions involved in the publication of such charts. It is therefore the intention of the conferees that this indemnification provision is not to be treated as a precedent for any other situation involving potential federal tort liability.

Inserts language proposed by the Senate permitting New York State to obligate interstate construction funds apportioned during fiscal year 1986 for both interstate construction projects and interstate substitute highway projects.

The conference agreement also includes language prohibiting the use of certain mass transportation section 9 grant funds to cover cost overruns of the Detroit central automated transit (peoplemover) system.

Inserts language proposed by the Senate disapproving the proposed deferral (D86-21) of $223,600,000 in UMTA section 3 funds for new start projects in five cities which would be distributed as follows:

Los Angeles	$129,000,000
Miami	71,500,000
San Diego	11,300,000
Jacksonville	10,000,000

Inserts language proposed by the Senate extending the term of the current United States Railway Association Chairman from 1985 to 1987 and requiring that the Chairman not have any financial relationship with any freight railroad.

Inserts language proposed by the Senate authorizing a transfer of the authority of the Maine-New Hampshire interstate bridge authority to the States of Maine and New Hampshire.

Deletes language proposed by the Senate providing a 1.6 percent reduction in "each dollar amount contained in this Act which is provided for non-defense discretionary programs and activities", excluding Panama Canal appropriations, and a reduction in transit operating assistance to $856,000,000.

Includes language increasing the State limitation for receipt of federal-aid highway emergency relief funds from $30,000,000 to $55,000,000 for grants associated with disasters that occurred in calendar year 1985.

Inserts language requiring the Secretary of Transportation to issue in the Federal Register a notice of intent to prepare an environmental impact statement (EIS) for the construction of the north and south legs of the downtown component of Metrorail in Dade County, Florida. The conferees expect the EIS for the construction of the north and south legs of the downtown component of metrorail to consider appropriate alignment options and the cost-effectiveness of each leg. In addition the conferees reiterate the language contained in House Report 99-403.

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES AND EDUCATION AND RELATED AGENCIES

RATE FOR OPERATIONS

Amendment No. 9: Inserts language proposed by the Senate changing the rate for operations for the Departments of Labor, Health and Human Services and Education and Related Agencies to the rate provided in the conference report on H.R. 3424 as adopted by the House of Representatives on December 5, 1985. The House bill provided for the rate as filed in the House of Representatives on November 21, 1985.

DEFINITION OF PROGRAM AND PROJECT, AND ACTIVITY

Amendment No. 10: Inserts a provision which identifies the part of the statement of the managers entitled "Definition of Program, Project, and Activity as provided for by Public Law 99-177, the Balanced Budget and Emergency Deficit Control Act of 1985" as the report filed by the House and Senate Committees on Appropriations defining "program, project and activity" pursuant to section 252(a)(6)(D)(i)(II) of Public Law 99-177.

The House language, which was stricken by the Senate, provided for the Military Construction Appropriations Act, 1986, (H.R. 3327) at the rate specified in the conference report. The President signed H.R. 3327 into law on December 10, 1985. Therefore, the language specifying funding levels has been delated.

The following section provides the definition of "program, project, and activity" as provided for in the Balanced Budget Act and is arranged in appropriations bill order.

DEFINITION OF "PROGRAM, PROJECT, AND ACTIVITY" AS PROVIDED FOR BY PUBLIC LAW 99-177, THE BALANCED BUDGET AND EMERGENCY DEFICIT CONTROL ACT OF 1985

The balanced budget act provides that when funds provided in annual appropriations Acts are sequestered, it shall be done from each affected program, project, and activity as set forth in the most recently enacted applicable appropriations Acts and accompanying committee reports including joint resolutions providing continuing appropriations and accompanying reports for the program, project, or activity in question.

Since most appropriations Acts were already reported by the time the balanced budget legislation was considered, a special provision was included in Public Law 99-177 to allow the Appropriations Committees to define for fiscal year 1986 "programs, projects, and activities." The provision is as follows:

"The Committees on Appropriations of the House of Representatives and the Senate may, after consultation with each other, define the term program, project, and activity, and report to their respective Houses, with respect to matters within their jurisdiction, and the order issued by the President shall sequester funds in accordance with such definition."

The following report is submitted by the managers on behalf of the Committees on Appropriations to their respective Houses for the purposes of Sec. 252 (a)(1)(B)(i) and Sec. 252 (a)(6)(D)(i)(II) of Public Law 99-177:

AGRICULTURE, RURAL DEVELOPMENT AND RELATED AGENCIES

During fiscal year 1986, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), the following information provides the definition of the term "program, project, and activity" for departments and agencies under the jurisdiction of the Agriculture, Rural Development and Related Agencies Subcommittee. The term "program, project, and activity" shall include the most specific level of budget items identified in the Agriculture, Rural Development, and Related Agencies Appropriations Act, 1986 (H.R. 3037), the House and Senate Committee reports (H. Rept. 99-211 and S. Rept. 99-137), and the conference report and accompanying joint explanatory statement of the managers of the committee of conference (H. Rept. 99-439).

In implementing the Presidential Order, departments and agencies shall apply the percentage reduction required for fiscal year 1986 pursuant to the provisions of Public Law 99-177 to all items specified in the explanatory notes submitted to the Committees on Appropriations of the House and Senate in support of the fiscal year 1986 budget estimates, as amended, for such departments and agencies, as modified by Congressional action, and in addition:

For the Agricultural Research Service the definition shall include specific research locations as identified in the explanatory notes and lines of research specifically identified in the reports of the House and Senate Appropriations Committees.

For the Soil Conservation Service the definition shall include individual flood prevention projects as identified in the explanatory notes and individual operational watershed projects as summarized in the notes.

For the Farmers Home Administration the definition shall include individual State, district and county offices.

For the Agricultural Stabilization and Conservation Service the definition shall include individual State and county offices.

DEPARTMENTS OF COMMERCE, JUSTICE, STATE, THE JUDICIARY AND RELATED AGENCIES

During the fiscal year 1986, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), the following information provides the definition of the term "program, projects, and activity" for departments and agencies under the jurisdiction of the Commerce, Justice, State, the Judiciary and Related Agencies Subcommittee. The term "program, project, and activity" shall include the most specific level of budget items identified in the Departments of Commerce, Justice, and State, the Judiciary and Related Agencies Appropriations Act, 1986 (P.L. 99-180), the House and Senate Committee reports (H. Rept. 99-197 and S. Rept. 99-150), and the conference report and accompanying joint explanatory statement of the managers of the committee of conference (H. Rept. 99-414).

In implementing the Presidential Order, departments and agencies shall apply the percentage reduction required for fiscal year 1986 pursuant to the provisions of Public Law 99-177 to each program, project, activity and subactivity specific in the budget justification documents submitted to the Committees on Appropriations of the House and Senate in support of the fiscal year 1986 budget estimates, as amended, for such departments and agencies, as modified by Congressional action. In addition, the departments and agencies in implementing the Presidential order, shall not (1) eliminate any program, project or activity; (2) reorder priorities or funds; or (3) initiate any program, project or activity that was not funded in P.L. 99-180. However, for purposes of program extention these departments and agencies may propose reprogrammings between programs, projects, and activities pursuant to the provisions of P.L. 99-180 after they implement the reductions required under the Balanced Budget Act.

DEPARTMENT OF DEFENSE

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), the following information provides the definition of the term "program, project, and activity" for appropriations contained in the Department of Defense Appropriations Act. The term "program, project, and activity" shall include the most specific level of budget items identified in the Department of Defense Appropriations Act, 1986 (H.R. 3629), as passed the House on October 30, 1985 and as reported by the Senate on November 6, 1985, the House and Senate Appropriations Committee reports (H. Rept. 99-332 and S. Rept. 99-176 and the related classified annexes), the conference report and the accompanying joint explanatory statement of the managers of the committee of conference on the Further Continuing Resolution, 1986 (H.J. Res. 465, including the related classified annexes), and the P-1 and R-1 budget justification documents as subsequently modified by Congressional action.

In carrying out the Presidential sequestration order, the Department and agencies shall conform to the definition for "program, project, and activity" as set forth above, and in addition:

For the Military Personnel accounts, the definition shall include the appropriation accounts identified in the Department of Defense Appropriations Act, 1986, the Further Continuing Resolution, 1986 (H.J. Res. 465), and the accompanying House, Senate, and conference reports and accompanying statements of the managers, and further delineated in the program and financing schedules set forth in the Appendix to the Budget of the United States Government for fiscal year 1986, as modified by subsequent Congressional action.

For the Operation and Maintenance accounts, the definition shall include the appropriations accounts identified in the Department of Defense Appropriation Act, 1986, the Further Continuing Resolution, 1986 (H.J. Res. 465), and the accompanying House, Senate, and conference reports and the accompanying statements of the managers and further delineated in the program and financing schedules set forth in the Appendix to the Budget of the United States Government for fiscal year 1986, as modified by subsequent Congressional action.

For the National Foreign Intelligence Program, the definition shall further include the expenditure centers identified in the Congressional budget justification documents for fiscal year 1986, as modified by subsequent Congressional action.

The Department and agencies should carry forth the Presidential sequestration order in a manner that would not adversely affect or alter Congressional policies and priorities established for the Department of Defense and related agencies.

DISTRICT OF COLUMBIA

For purposes of sequestering new budget authority for Federal funds provided in the District of Columbia Appropriations Act, 1986 (H.R. 3067) under the terms prescribed in the Balanced Budget and Emergency Deficit Control Act of 1985, Public Law 99-177, the term "program, project and activity" shall be defined as any items specifically identified in written material set forth in enacted appropriations Acts and accompanying committee reports, including joint resolutions providing continuing appropriations and committee reports accompanying Acts referred to in such resolutions.

ENERGY AND WATER DEVELOPMENT

During fiscal year 1986, for purposes of section 252 of Public Law 99-177, the Balanced Budget and Emergency Deficit Control Act of 1985, "program, project and activity" as related to the Energy and Water Development Appropriation Act, 1986 (P.L. 99-141) and subsequent continuing resolutions for fiscal year 1986 affecting Energy and Water Development program, shall be defined for the purposes of deficit reduction and sequestration to include items in the fiscal year 1986 budget submission of the President as subsequently altered, modified or changed by Congressional action and identified in the Energy and Water Development Appropriations Act, 1986, House and Senate committee reports (H. Rept. 99-195 and S. Rept. 99-110), the conference report and accompanying joint explanatory statement of the managers of the committee of conference (H. Rept. 99-307).

It is the intention that, for purposes of the Balanced Budget Act, each of the programs, projects and activities, as defined above, shall be appropriately funded and subsequently all reductions shall be made proportionately by applying the same reduction percentage as the percentage by which the account is reduced overall. For the purpose of program execution, it is not intended that normal reprogramming between programs, projects and activities necessitated by unforeseen circumstances beyond the control of the agency or required flexibility for normal operation and maintenance, or needed for the efficient prosecution and completion of scheduled work, or for other programmatic needs be precluded. In carrying out the Presidential Order, the agencies shall apply this definition and shall include additionally any and all individual items or line items listed, discussed, described, included in or in any way identified or referred to in narrative or tabular documentation or references including the supporting justification material submitted by the agencies. It is not intended that this be used (1) to eliminate programs, projects or activities, (2) to disproportionately reduce personnel, (3) to otherwise reorder funds or priorities, or (4) to initiate unfunded new programs, projects or activities. It is also the intention that reductions apply to budget authority after the normal application of general reductions and savings and slippage.

FOREIGN ASSISTANCE AND RELATED PROGRAMS

For the purpose of the Foreign Assistance and Related Programs Appropriations Act, (H.R. 3228) "program, project, and activity" shall be defined at the appropriations Act account level and shall include all appropriations Act earmarks, ceilings, and limitations with the exception that for the following accounts: Economic Support Fund; Military Assistance; and, Foreign Military Credit Sales; "program, project, and activity" shall also be considered to include country, regional, and central program level funding within each such account, for the functional development assistance accounts of the Agency for International Development "program, project, and activity" shall also be considered to include central program level funding, either as (1) justified to the Congress, or (2) allocated by the Executive Branch in accordance with a report, to be provided to the Committees on Appropriations within thirty days of enactment of a Foreign Assistance and Related Programs Appropriations Act or of enactment of a continuing resolution containing funding for these programs for the balance of the fiscal year, as required by Sec. 653(a) of the Foreign Assistance Act of 1961, as amended, whichever is the more recent action. In addition, no "program, project, or activity", which has been justified to the Congress may be eliminated through the sequestering process.

HUD-INDEPENDENT AGENCIES

During the fiscal year 1986, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985, (Public Law 99-177), the following information provides the definition of the term "program, project and activity" for departments and agencies under the jurisdiction of HUD-Independent Agencies Subcommittee. The term "program, project and activity" shall include the most specific level of budget items identified in the Housing and Urban Development-Independent Agencies Appropriations Act, 1986 (Public Law 99-160), the House and Senate Committee reports (H. Rept. 99-212 and S. Rept. 99-129), and the conference report and accompanying joint explanatory statement of the managers of the committee of conference (H. Rept. 99-363).

In implementing the Presidential Order, departments and agencies shall apply the percentage reduction required for fiscal year 1986 pursuant to the provisions of Public Law 99-177 to each program, project, activity and subactivity contained in the budget justification documents submitted to the Committees on Appropriations of the House and Senate in support of the fiscal year 1986 budget estimates, as amended, for such departments and agencies as have been subsequently altered, modified or changed by Congressional action identified by the aforementioned acts, resolutions and reports. Further, it is intended that in implementing the Presidential Order, (1) no program, project or activity should be eliminated, (2) no re-ordering of funds or priorities occur, and (3) no unfunded program, project or activity be initiated. However, for the purposes of program execution, it is not intended that normal reprogramming between programs, projects and activities be precluded *after* reductions required under the Balanced Budget Act are implemented.

INTERIOR AND RELATED AGENCIES

As provided for by Section 252(a)(6)(D)(i)(II) of Public Law 99-177 and for the purposes of a President Order issued pursuant to section 252 of said Act, the term "program, project, and activity" for items under the jurisdiction of the Appropriations Subcommittees on Interior and Related Agencies of the House of Representatives and the Senate is defined as (1) any item specifically identified in tables or written material set forth in the Interior and Related Agencies Appropriations Act, 1986 (H.R. 3011) and accompanying committee reports (H. Rept. 99-205 and S. Rept. 99-141), and the joint resolution providing continuing appropriations (H.J. Res. 465) and the conference report and accompanying joint explanatory statement of the managers of the committees of conference; (2) any Government-owned or Government-operated facility, and (3) management units, such as national parks, national forests, fish hatcheries, wildlife refuges and the like, for which funds are provided in fiscal year 1986.

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES AND EDUCATION AND RELATED AGENCIES

During fiscal year 1986, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), the following information provides the definition of the term "program, project and activity" for departments and agencies under the jurisdiction of the Labor, Health and Human Services, and Education and Related Agencies Subcommittee. The term "program, project and activity" shall include the most specific level of budget items identified in Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 1986 (Public Law 99-178), the House and Senate Committee reports (H. Rept. 99-289 and S. Rept. 99-151), the conference report and accompanying joint explanatory statement of the managers of the committee of conference (H. Rept. 99-402) and the table inserted on pages H10915 through H10940 of the Congressional Record of December 5, 1985.

LEGISLATIVE BRANCH

For purposes of sequestering new budget authority and reducing obligation limitations for funds provided in the Legislative Branch Appropriations Act, 1986 (Public Law 99-151), under the terms prescribed in the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), the term "program, project, and activity" shall be synonomous with each appropriation account in the Act. Thus, the base which each

sequestration or reduction is taken shall be the appropriation account specified in the Act. The sequestration and reduction so ordered will be administered by each Congressional operation or agency as follows: in the case of items for the House of Representatives and Joint Items disbursed by the House of Representatives, the Clerk of the House; in each case of items for the Senate and Joint Items disbursed by the Senate, by the Secretary of the Senate; in the case of the Library of Congress, including the Congressional Research Service, by the Librarian of Congress; and the heads of each of the following: Architect of the Capitol; Office of Technology Assessment; Congressional Budget Office; Government Printing Office; Botanical Garden; Copyright Royalty Tribunal; General Accounting Office; and the Railroad Accounting Principles Board. In administering such sequestrations and reductions, the normal reprogramming procedures of the House and Senate Committees on Appropriations shall apply.

MILITARY CONSTRUCTION

For the purposes of the Military Construction Appropriations for fiscal year 1986 the term "program, project and activity" is defined as any item identified as a project activity or line item listed in the conference report and joint explanatory statement of the managers (H. Rept. 99-380) and reflected in the table inserted on pages H10336 through H10380 of the CONGRESSIONAL RECORD of November 20, 1985. It is also the intention that sequestration apply to budget authority after the application of the general reductions shown in the tables accompanying the Military Construction Appropriations conference report.

TRANSPORTATION AND RELATED AGENCIES

For purposes of section 252(a)(6)(D)(i)(II) of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), with respect to appropriations contained in the Department of Transportation and Related Agencies Appropriation Act, 1986 (H.R. 3244) the term "program, project, and activity" shall mean any item for which a dollar amount is contained in an appropriation Act (including joint resolutions providing continuing appropriations), accompanying reports of the House and Senate Committee on Appropriations (H. Rept. 99-256 and S. Rept. 99-152, and accompanying conference reports and joint explanatory statements of the committee of conference. This definition shall apply to all programs for which new budget (obligational) authority is provided, as well as to Discretionary grants, Urban Mass Transportation Administration and Interstate transfer grants-highways, Federal Highway Administration. In implementing the Presidential Order, departments and agencies shall apply the percentage reduction required for fiscal year 1986 pursuant to the provisions of Public Law 99-177 to funds appropriated for facilities and equipment, Federal Aviation Administration and for Acquisition, construction, and improvements, Coast Guard, equally to each "budget item" that is listed under said accounts in the budget justifications submitted to the House and Senate Committees on Appropriations as modified by subsequent appropriation Acts and accompanying committee reports, conference reports, or joint explanatory statements of the committee of conference.

TREASURY, POSTAL SERVICE AND GENERAL GOVERNMENT

During fiscal year 1986, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), the following information provides the definition of the term "program, project and activity" for departments and agencies under the jurisdiction of the Treasury, Postal Service and General Government Subcommittee. The term "program, project and activity" shall include the most specific level of budget items identified in the Treasury, Postal Service and General Government Appropriations Act, 1986 (H.R. 3036), the House and Senate committee reports (H. Rept. 99-210 and S. Rept. 99-133), and the conference report and accompanying joint explanatory statement of the managers of the committee of conference (H. Rept. 99-349). (Under the above definition, the Federal Buildings Fund, the Bureau of Engraving and Printing Fund and other intragovernmental funds are exempt under section 255(g)(1) of Public Law 99-177.)

WITHHOLDING OF FUNDS

The question frequently arises as to when and under what conditions Federal funds may be withheld.

Various federal statutes govern the obligation of federal funds after they have been appropriated by Congress. After the President has signed an appropriations measure, these laws require the funds be made available for obligation for the purpose for which they were appropriated. In a limited number of circumstances funds may be withheld pursuant to provisions enacted into law. The conferees stress that funds made available under this resolution should be obligated pursuant to law. When any law is used to withhold funds, the funds are to be available for obligation until the message proposing withholding is transmitted to the Congress. This applies additionally to projects that have been planned and are ongoing in nature and involve commitments made over a period of time to assure continuation through completion of such projects.

TREASURY, POSTAL SERVICE AND GENERAL GOVERNMENT

Amendment No. 11: Restores subsection letter (i) as proposed by the House.

Amendment No. 12: Inserts language proposed by the Senate which makes a technical change by inserting the words "and the Senate". The Senate passed the Conference Report on H.R. 3036 on November 7, the same day the Conference Report passed the House.

Amendment No. 13: Inserts a provision proposed by the Senate amended to appropriate $1,065,000,000 for processing tax returns by the Internal Revenue Service of $1,019,391,000 as proposed by the Senate and $1,103,041,000 as proposed by the House. This provision also appropriates $1,419,451,000 for the examinations and appeals activity of the Internal Revenue Service and $748,000,000 for Payment to the Postal Service Fund as proposed by the Senate. The conferees understand that the Administration will not request a supplemental for the revenue forgone subsidy. The conferees direct the Postal Service to meet the liabilities of the former Post Office Department to the Employees' Compensation Fund.

The conferees direct the Secretary of the Treasury to study the feasibility of transfering jurisdiction over Customs Bonded Warehouses used exclusively for the storage of imported alcohol beverages to ATF, and to report its findings to the Committees by March 1, 1986.

FOREIGN ASSISTANCE AND RELATED PROGRAMS

Amendment No. 14: Provides for funding for foreign assistance programs for fiscal year 1986. The amendment inserts the conference agreement for Foreign Assistance and Related Programs for fiscal year 1986. House language would have provided for foreign assistance programs at the level and terms and conditions of H.R. 3228 as reported to the House of Representatives on August 1, 1985 and modified by H.J. Resolution 465. Senate language would have provided for similar programs contained in S. 1816 as reported to the Senate on October 31, 1985 and modified by H.J. Resolution 465.

A summary of the title totals of the bill follows:

	FY 1986 estimates	House	Senate	Conference
Title I—MULTILATERAL ECONOMIC ASSISTANCE				
Contributions to International Financial Institutions	1,347,623,934	1,293,409,287	816,973,886	1,193,847,240
International organizations and programs	196,211,000	298,364,800	287,360,000	277,922,475
Total, contribution for Multilateral Economic Assistance	1,543,834,934	1,591,774,087	1,104,333,886	1,471,769,715
TITLE II—BILATERAL ECONOMIC ASSISTANCE				
Bilateral Development Assistance	2,7867,407,000	2,662,342,530	2,818,136,000	2,717,060,730
Economic support fund	4,024,000,000	3,689,386,666	3,745,000,000	3,700,000,000
Total, Bilateral Economic Assistance	6,791,407,000	6,351,629,196	6,563,136,000	6,417,060,730
TITLE III—MILITARY ASSISTANCE				
Military Assistance	976,350,000	764,648,000	805,100,000	782,000,000
Foreign Military Credit Sales	5,655,000,000	5,058,983,333	5,371,000,000	5,190,000,000
Other	65,650,000	54,489,500	106,221,000	54,489,500
Total, Military Assistance Programs	6,697,000,000	5,878,120,833	6,282,321,000	6,026,489,500

	FY 1986 estimates	House	Senate	Conference
TITLE IV—EXPORT-IMPORT BANK OF THE UNITED STATES				
Budget authority effect of Ex-Im limitations		783,879,167	1,800,000,000	1,110,000,000
Total NBOA (including Ex-Im)	15,032,241,934	14,605,403,283	15,749,790,886	15,025,319,945

TITLE I
MULTILATERAL ECONOMIC ASSISTANCE

The following table shows the conference agreement for Title I, Multilateral Economic Assistance:

	FY 1986 estimates	House	Senate	Conference
TITLE I—MULTILATERAL ECONOMIC ASSISTANCE				
FUNDS APPROPRIATED TO THE PRESIDENT				
International Financial Institutions				
Contribution to the International Bank for Reconstruction and Development:				
Paid-in capital	182,870,597	151,782,596	109,720,549	109,720,549
Contribution to the International Development Association (IBA VI)	750,000,000	750,000,000	375,000,000	700,000,000
International Finance Corporation	35,033,000	29,077,390	35,033,000	29,077,390
Contribution to the Special Facility for Sub Saharan Africa				75,000,000
Centribution to the Inter-American Development Bank:				
Fund for special operations	72,500,000	72,500,000	40,000,000	40,000,000
Inter—regional paid-capital	58,000,983	58,000,983	38,000,983	38,000,983
Inter—American Investment Corporation	13,000,000	11,700,000	13,000,000	11,700,000
Contribution to the Asian Development Bank:				
Paid-in capital	13,232,676	11,989,408	13,232,676	11,909,408
Development fund	130,000,000	130,000,000	100,000,000	100,000,000
Contribution to the African Development Fund	75,000,000	62,250,000	75,000,000	62,250,000
Contribution to the African Development Bank:				
Paid-in capital	17,986,678	16,188,910	17,986,678	16,188,910
Total: Contributions to International Financial Institution	11,347,623,934	1,293,409,287	816,973,886	1,193,847,240
Department of State				
International organizations and programs	196,211,000	298,364,000	287,360,000	277,922,475
Totals: Contribution for Multilateral Economic Assistance	1,543,834,934	1,591,774,087	1,104,333,886	1,471,769,715

SPECIAL FACILITY FOR SUB-SAHARAN AFRICA

The Conferees agree to provide $75,000,000 for the Special Facility for Sub-Saharan Africa under Title I, Multilateral Economic Assistance. The House had originally funded the contribution to this facility under the Economic Support Fund in Title II. The Senate had provided no funding for the facility.

ASIAN DEVELOPMENT BANK

The Conferees agree that support of the Asian Development Bank will be discontinued if the Republic of China (Taiwan) is prevented from remaining as a full member of the Bank. Its status and designation within the Asian Development Bank must remain unaltered notwithstanding how the issue of the People's Republic of China's application for membership is finally determined.

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

The following table shows the conference agreement for the International Organizations and Programs account.

Organization	*Conference Agreement*
UNDP	$148,500,000
UNICEF	48,150,000
World Food Program	1,900,000
U.N. Capital Development Fund	900,000
U.N. Decade for Women	250,000
International Convention and Scientific Organization Contributions	1,282,500
World Meteorological Organization Voluntary cooperation	1,800,000
International Atomic Energy Agency	17,715,000
U.N. Environment Program	9,000,000
U.N. Education and Training Program for South Africa	900,000
UNDP Trust Fund to Combat Poverty and Hunger in Africa	1,429,975
Institute for Namibia	225,000
U.N. Trust Fund for South Africa	0
Convention on International Trade in Endangered Species	180,000
UNIDO Investment Promotion Service	0
U.N. Fellowship Program	225,000
World Heritage Fund	250,000
U.N. Voluntary Fund for Victims of Torture	90,000
Center on Human Settlements	400,000
International Fund for Agricultural Development	30,000,000
Organization of American States	14,725,000
	$277,922,475

INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT

The House and Senate versions of the Continuing Resolution each provided $50 million in FY 1986 for the International Fund for Agricultural Development (IFAD). This amount was for a U.S. contribution to IFAD's Second Replenishment and, in the House version, to IFAD's Special Program for Africa as well.

The Conferees agree to provide $30 million for an FY 1986 contribution to IFAD's Second Replenishment, without prejudice to a contribution to IFAD's Special Program for Africa. It is noted that since U.S. participation in IFAD is authorized under Section 103 of the Foreign Assistance Act, funds may be made available, under established procedures, from the Agriculture, rural development and nutrition account.

TITLE II
BILATERAL ECONOMIC ASSISTANCE

The following table shows the conference agreement for Title II, Bilateral Economic Assistance:

	FY 1986 estimates	House	Senate	Conference
TITLE II—BILATERAL ECONOMIC ASSISTANCE				
FUNDS APPROPRIATED TO THE PRESIDENT				
Agency for International Development				
Agriculture, rural development, and nutrition, Development Assistance	792,352,000	679,995,000	760,000,000	699,995,900
Population, Development Assistance	250,017,000	261,000,000	250,000,000	250,000,000
Health, Development Assistance	146,427,000	200,824,200	205,000,000	200,824,200

	FY 1986 estimates	House	Senate	Conference
Child Survival Fund		22,500,000	25,000,000	25,000,000
Education and human resources development, Development Assistance	183,533,000	169,949,700	180,000,000	169,949,700
Energy and selected development activities, Development Assistance	210,071,000	174,358,930	190,000,000	174,358,930
Science and technology, Development Assistance	13,000,000	10,790,000	13,000,000	10,790,000
Private sector revolving fund (by transfer)	(20,000,000)	(18,000,000)	(18,000,000)	(18,000,000)
Subtotal, functional development assistance	1,595,400,000	1,519,418,730	1,623,000,000	1,530,918,730
American schools and hospitals abroad	10,000,000	27,000,000	35,000,000	35,000,000
International disaster assistance	25,000,000	22,500,000	25,000,000	22,500,000
Sahel development program	80,500,000	87,750,000	80,500,000	80,500,000
Overseas training and special development activities (foreign currency program)

[1] African Development Foundation had additional funds available to be obligated in FY 1985 due to carry over provisions in the FY Continuing Resolution and no year Sahel programs funds.

HEALTH, DEVELOPMENT ASSISTANCE AND CHILD SURVIVAL FUND

The Conferees agree to fund Health, Development Assistance at the House proposed level of $200,824,200 instead of the Senate level of $205,000,000. The Conferees agree to earmark $12,500,000 within the Health, Development Assistance account for child survival programs and activities instead of the original Senate earmark of $25,000,000.

The Conferees also agree to fund the Child Survival Fund at the Senate proposed level of $25,000,000 instead of the House proposed level of $22,500,000. The Conferees further agree to transfer $12,500,000 in prior year unobligated funds from the amount for Lebanon in the Economic Support Fund to the Child Survival Fund.

AMERICAN SCHOOLS AND HOSPITALS ABROAD

The Conferees have been favorably impressed by the programs of the American University of Beirut and Project ORBIS. The American University of Beirut, particularly, has played an important role in an area of the world which has been constantly torn by strife over the last ten years. The Conferees are concerned that these two programs be sufficiently funded and strongly urge the Agency for International Development to fully fund their requests for assistance.

OPERATING EXPENSES OF THE AGENCY FOR INTERNATIONAL DEVELOPMENT

IDCA

The Conferees agree to the Senate provision prohibiting the use of AID operating expenses to pay for the operating expenses of the International Development Cooperation Agency. This provision recognizes that relevant IDCA functions can continue to be carried out by the AID Administrator pursuant to existing delegations of authority. This provision does not repeal or otherwise affect existing authorization legislation relating to IDCA.

ACCOUNT CHANGES

The Conferees agree that for the purpose of funds made available by this act for FY 1986, the Agency for International Development may charge program-related overseas in-country travel to the relevant program (as opposed to the operating expenses) account. Similarly, for FY 1986, the cost of foreign service nationals who carry out program-related functions may also be charged against the relevant program account.

AID INSPECTOR GENERAL

The Conferees agree to provide a new account for the Inspector General of the Agency for International Development. The Conferees agree to include a provision allowing for the transfer of some funds from AID operating expenses to the Inspector General's office if necessary. Additionally, within the amount provided for the Inspector General, the Conferees agree to provide $1,600,000 for security purposes.

AID BUREAU OF EXTERNAL AFFAIRS

The Conferees agree to drop Senate language which would have limited the number of personnel assigned to AID's Bureau of External Affairs office, to nineteen. The Conferees direct that the Agency for International Development reduce personnel in that office to a level of thirty-four.

NATIONAL UNIVERSITY IN COSTA RICA

The Conferees agree to drop the Senate language under the Education and Human Resources Development account, which would have earmarked $340,000 to support a scholarship program at the National University in Costa Rica. The Conferees also have agreed to drop a provision under the Economic Support Fund account which would have earmarked $840,000 equivalent in Costa Rican currency for the same project. The Conferees agree however, that this program deserves to be closely considered for funding by AID. This program would support the very worthwhile goal of providing scholarships for young Costa Ricans in the United States as called for by the Kissinger Commission.

LIMITATION ON DEVELOPMENT ASSISTANCE IN CENTRAL AMERICA

The Conferees have set a limitation on development assistance activities in Central America at a total of not more than $250,000,000. Additional funds, if required, may be requested through the notification process of the Committees on Appropriations.

The Conferees strongly support development assistance programs in Sub-Saharan Africa, a region which is relatively worse off by most demographic and economic measures than several other regions. The Conferees strongly encourage the Administration to fund these programs at their full 1986 budget request levels.

PRIVATE AND VOLUNTARY ORGANIZATIONS

The Conferees agree that it is appropriate to require that private and voluntary organizations obtain a minimum of twenty percent of their funding from private, non-governmental sources in order to be eligible for participation in programs funded under the Agency for International Development. Further, the Conferees agree that, in implementing this twenty percent rule for the private and voluntary agencies, AID shall not include in the determination of the amount of Government support for an organization the value of commodities (including related transportation) made available to that organization for overseas distribution. It is also the intent of the Conferees that the value of contracts for services and grants for AID-initiated activities shall not be included in determining Government support for such an organization. Lastly, it is further the intent of the Conferees that any application of this rule not interrupt fiscal year 1986 support for ongoing PVO programs of assistance for which Congress has been notified.

ECONOMIC SUPPORT FUND

COMMODITY IMPORT PROGRAM

The Conferees agree to earmark not less than $200 million for Commodity Import Program activities in Egypt during FY 1986 as proposed by the Senate. This proposal can include the activities being financed under the ongoing Commodity Import Program as well as those financed by the newly proposed Private Enterprise Commodity Import Program.

GUATEMALA

In agreeing to remove the ceiling on the amount of Economic Support Fund assistance which can be made available for Guatemala, the Conferees are acting in light of the continuing progress Guatemala is making toward democracy and respect for human rights. The selection of a Congress and a civilian president in free and fair elections is a significant step forward in constitutional government in Guatemala. The Conferees will continue to watch closely the human rights situation in Guatemala. However, at this time, the Conferees believe that the United States should move quickly to support Guatemala's decisive steps toward democracy and to support the efforts of the newly elected president to address the serious economic difficulties confronting that nation.

PHILIPPINES

The Conferees agree to provide FY 1986 assistance to the Philippines, as follows:

	House	Senate	Conference agreement
ESF	(1)	$110,000,000	$125,000,000
MAP	$25,000,000	50,000,000	40,000,000
FMS	0	20,000,000	15,000,000

[1] No amount specified.

TIED AID CREDIT PROGRAM

The FY 1986 International Security and Development Cooperation Act (P. L. (99-83) contains an earmark of $50,000,000 in Economic Support Fund monies to carry out a tied aid credit program for U.S. exports, Since the passage of this Act, the Administration has proposed a $300 million "war chest" to combat unfair trade practices. Therefore, in order to consider both issues, the Conferees agree that obligation of funds for the tied aid credit program be subject to the normal notification process.

SOUTHERN AFRICA REGIONAL PROGRAM

Under existing law, $30 million of the funds made available under the Economic Support Fund are earmarked for Southern Africa regional programs. That same law also provides that 50 percent of this earmark shall be allocated for sector projects supported by the Southern Africa Development Coordination Conference (SADCC). SADCC is a regional organization comprised of the nine so-called "front line" states. The Conferees support development assistance and Economic Support Fund projects in Southern Africa, but are concerned that this particular provision of the law may result in U.S. foreign assistance financing of projects in Angola and Mozambique which would otherwise be prohibited by law. The Conferees agree that this particular program will be examined carefully.

LEBANON

The Conferees have included a provision which redistributes funds previously appropriated but currently unobligated for Lebanon. This provision transfers $5,350,000 to UNICEF, $12,500,000 to the Child Survival Fund, and $5,000,000 to International Narcotics Control. Following this transfer, approximate $20,000,000 remains in this fund. The Conferees have included language which tightly restricts the use of these remaining funds solely for Lebanon as proposed by the Senate.

SYRIA

The Conferees agree to deobligate and rescind $11,200,000 from the Syria Termination Account instead of the $26,200,000 proposed by the House. The Conferees agree that the $15,000,000 remaining in the account be used only to pay costs associated with the termination of the Syrian economic assistance program in accordance with the original Senate proposal.

TITLE III—MILITARY ASSISTANCE

The following table shows the conference agreement for Title III, Military Assistance:

	FY 1986 Estimates	House	Senate	Conference
TITLE III—MILITARY ASSISTANCE				
Funds appropriated to the President				
Military Assistance	976,350,00	764,648,000	805,100,000	782,000,000
International Military Education and Training	65,650,000	54,489,500	56,221,000	54,489,500
Foreign Military Credit Sales:				
Direct credits and forgiven loans	5,655,000,000	5,058,983,333	5,371,000,000	5,190,000,000
Special Defense Acquisition Fund (limitation on obligations)	(345,000,000)	(325,000,000)	(345,000,000	(325,000,000)
Guarantee Reserve Fund				
Total Military Assistance Programs	6,697,000,000	5,878,120,833	6,282,321,000	6,026,489,500

GREECE AND TURKEY

The Conferees direct that military assistance for Greece and Turkey be provided only in accordance with a seven to ten ratio. The Conferees have earmarked military assistance to Greece and Turkey at a level which reflects both the seven to ten ratio and a ten percent reduction from the levels provided in the Senate bill as follows: $450,000,000; Turkey $427,852,000; Military Assistance programs—$215,000,000.

	FMS	MAP	Total
Greece	$450,000,000	0	$450,000,000
Turkey	427,852,000	215,000,000	642,852,000

TITLE IV—EXPORT-IMPORT BANK OF THE UNITED STATES

The following table shows the conference agreement for Title IV, Export-Import Bank:

TITLE IV—EXPORT BANK OF THE UNITED STATES				
Limitation of Program Activity:				
(Limitation on direct loans)		(783,879,167)	(1,800,000,000)	(1,110,000,000)
(Limitation on guaranteed loans)	(12,000,000,000)	(12,000,000,000)	(12,000,000,000)	(12,000,000,000)

TITLE IV—EXPORT BANK OF THE UNITED STATES—Continued

Limitation on administrative expenses	(18,357,000)	(18,000,000)	(18,000,000)	(18,357,000)
Total Export-Import Bank of the United States (limitations on use of corporate funds	(12,018,357,000)	(12,801,879,167)	(13,818,000,000)	(13,128,357,000)

TITLE V—GENERAL PROVISIONS

DRUG CONTROL

The Conferees agree to include a modified version of a House provision relating to drug control. The House provision was modified by deleting Colombia from the General Provision, section 537, which required that 50 percent of the funds (excluding International Narcotics Control funds) for Colombia, Jamaica and Peru be withheld from obligation unless the President determines and reports to Congress, that these Governments are "sufficiently responsive to the United States Government concerns on drug control and that the added expenditures of the funds for that country are in the national interest of the United States".

The Conferees removed Colombia from the restriction because of the progress that country has made during the past year in its drug control program. The Conferees believe that these efforts should be accelerated in order to avoid U.S. foreign assistance restrictions in the future.

The Conferees agree to retain the second section of this provision which placed additional requirements on the release of funds to Bolivia.

DEOBLIGATION-REOBLIGATION AUTHORITY

The Conferees agree to provide deob-reob authority to the Agency for International Development. Funds which are deobligated remain available for reobligation for one calendar year from the date of deobligation.

CESSATION OF ASSISTANCE FOLLOWING MILITARY COUPS

The Conferees agree to Senate language which provides that funds made available under this Act may not be obligated or expended for assistance to any country whose duly elected head of government is deposed by military coup or decree. This provision is in lieu of two separate House provisions which applied this restriction to El Salvador and Guatemala. The provision agreed to covers El Salvador, Guatemala, and any other country whose duly elected head of government is deposed by military coup or decree.
